GLOBAL HIGH INCOME DOLLAR FUND INC.

December 15, 2005

DEAR SHAREHOLDER,

We are pleased to present you with the annual report for Global High Income Dollar Fund Inc. (the "Fund") for the fiscal year ended October 31, 2005.

PERFORMANCE

Over the one-year period ended October 31, 2005, the Fund's net asset value return was 14.68%, compared with the 14.67% return of its peers, as measured by the Lipper Emerging Markets Debt Funds median (the "median") and the 10.54% return of its benchmark, the J.P. Morgan Emerging Markets Bond Index--Global (the "Index"). On a market price basis, the Fund returned 13.25% over the one-year period, compared with the median's return of 5.62% over the same timeframe. (For more on the Fund's performance, please refer to "Performance at a Glance" on page 5.)

The Fund did not use leverage during the period, which magnifies returns on both the upside and on the downside, and creates a wider range of returns within the Fund's peer group.

AN INTERVIEW WITH PORTFOLIO MANAGER UWE SCHILLHORN

Q: HOW DID EMERGING MARKETS DEBT PERFORM OVER THE PERIOD?

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

- A. Emerging markets debt (EMD) performed well during the fiscal year, despite concerns about the impact rising US interest rates would have on capital flows into emerging markets countries. The market in general was supported by US Treasury yields that were still relatively low by historical standards, and by generally strong growth in emerging markets economies. In fact, the growth rate in many emerging markets countries outpaced that of their industrialized counterparts. This strength was reflected in the Index's return of 10.54% over the fiscal year, compared with developed markets bonds' return of 4.80%, as measured by the Citigroup World Government Bond Index (WGBI) in US dollars on a currency-hedged basis.

While growth rates remained solid over the reporting period, EMD spreads (the difference in yield between a bond and a comparable US Treasury) experienced

1

GLOBAL HIGH INCOME DOLLAR FUND INC.

volatility in the early part of 2005 as US Treasury yields rose, making the "carry trade" that drove many investors less attractive. (With a carry trade, an investor borrows money using low-cost, short-term instruments, uses the proceeds to purchase higher-yielding emerging markets debt, and then captures the difference.) After this bout of turbulence, spreads resumed their tightening, ending at levels more reflective of the fiscal and political improvements seen in many of the EMD countries.

Q: WERE THERE ANY THEMES THAT EMERGED AT THE REGIONAL LEVEL?

- A. The major economies of Latin America continued to expand in concert over the year. European Economic Union accession for many economies in Eastern Europe, an increasingly important region for emerging markets debt, also propped up performance for the entire asset class.

Q: WHAT WERE SOME OF THE PORTFOLIO POSITIONING STRATEGIES YOU EMPLOYED OVER THE PERIOD?

- A. The biggest story for the Fund over the course of the fiscal year was our overweight position to Argentina. ("Overweight" or "underweight" refers to how much of a particular sector or country the Fund holds versus its representative benchmark index.) The partial restructuring of its debt by Argentina, which defaulted during the country's recent financial crisis, closes a difficult period for the country. This restructuring improves the prospects for servicing currently outstanding debt, which in turn helps investor sentiment. As a result, the largest share of the Fund's outperformance for the year came from its positions in Argentina.

We were also underweight to Turkey, Brazil and Mexico in varying degrees over the course of the year. In the case of Turkey, we believed that its debt was overvalued for much of the period, given where the country stood in relation to being granted membership in the European Economic Union. This underweight position hurt Fund performance in US dollar terms, but was offset by our positions in bonds denominated in Turkish currency. We were underweight to both Mexico and Brazil in order to overweight what we believed to be more attractive opportunities in other countries, specifically Argentina. Both of these positions helped the Fund over the fiscal year.

During the period, we also sought investment opportunities in non-US dollar-denominated local market securities. Given the tight spread environment in external debt at the beginning of the period, the portfolio had roughly a 13%

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

position in local market securities to take advantage of the higher yield potential they offered. As the period progressed, we continued to identify value in select local markets where fundamentals were favorable and interest rates were relatively high, closing with a 21.6% position in local market securities. (The Fund's policies currently permit investment of up to 20% of its net assets in

2

GLOBAL HIGH INCOME DOLLAR FUND INC.

non-US dollar-denominated debt securities under normal circumstances. As long as this policy is satisfied at the time of investment, an increase above 20% is permissible if it results from a change in the relative value of securities or the size of the Fund.)

It is important to keep in mind that our sources of return come from many different areas--the overall emerging markets debt market, individual countries, individual bonds, currencies, and duration (a measure of a bond's sensitivity to interest rate changes)--and while a few areas may factor prominently in the returns for a specific period, we do not expect to narrowly focus on a few big country or market bets.

Q: HOW WERE YOU POSITIONED IN OTHER EMERGING MARKETS COUNTRIES?

A: We held overweight positions to both Russia and Qatar. Conversely, we found less compelling values in South Africa, which we had sold off entirely by the end of the reporting period. Elsewhere, our position in Serbia boosted Fund performance for the year, while positions in both Venezuela and Colombia (the latter of which we no longer hold in the portfolio) were a drag on performance.

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS

ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Global High Income Dollar Fund Inc. (the "Fund") was incorporated in Maryland on February 23, 1993 and is registered with the Securities and Exchange Commission as a closed-end, non-diversified management investment company. The Fund's shares trade on the New York Stock Exchange ("NYSE"). The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective the Fund seeks capital appreciation, to the extent consistent with it's primary objective.

In the normal course of business the Fund may enter into contracts that contain a variety of representations or that provide general indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the Fund's management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

VALUATION OF INVESTMENTS--The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, current market quotations or valuations from computerized "matrix" systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. Securities traded in the over-the-counter ("OTC") market and listed on The Nasdaq Stock Market, Inc. ("NASDAQ") normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price available on the valuation date prior to valuation. Securities which are listed on U.S. and foreign stock exchanges normally are valued at the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by UBS Global Asset Management (US) Inc. ("UBS Global AM"), the investment advisor and administrator of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG, an internationally diversified organization with headquarters in Zurich, Switzerland and operations in many areas of the financial services industry. If a market value is not available from an independent pricing source for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund's board of

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS

directors (the "Board"). All investments quoted in foreign currencies will be valued weekly in U.S. dollars on the basis of the foreign currency exchange rates. Foreign currency exchange rates were generally determined prior to the close of the NYSE. Occasionally, events affecting the value of foreign investments and such exchange rates occurred between the time at which they are determined and the close of the NYSE, which will not be reflected in the computation of the Fund's net asset value. If events materially affecting the value of such securities or currency exchange rates occurred during such time periods, the securities were valued at their fair value as determined in good faith by or under the direction of the Board. The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value.

Effective November 1, 2005, the Fund began using the foreign currency exchange rates determined as of the close of regular trading on the NYSE.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME--Investment transactions are recorded on the trade date. Realized gains and losses from investment and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

FOREIGN CURRENCY TRANSLATION--Prior to November 1, 2005, the books and records of the Fund were maintained in U.S. dollars using the WM/Reuters closing spot rates as of 4:00 pm London time. Effective November 1, 2005, the Fund began using the foreign currency exchange rates determined as of the close of regular trading on the NYSE. For purposes of calculating the U.S. dollar equivalent value of a non-U.S. dollar denominated obligation, foreign currency amounts are translated into U.S. dollars on the following basis: (1) market value of investment securities and other assets and liabilities - at the exchange rates prevailing at the end of the Fund's fiscal period; and (2) purchases and sales of investment securities and income and expenses - at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market value of the Fund's portfolio are presented at the foreign exchange rates at the end of the Fund's fiscal period, the Fund does not generally isolate the effect of fluctuations in foreign exchange rates from the effect of the changes in market prices of securities. However, the Fund does isolate the effect of fluctuations in foreign exchange rates when determining the gain or loss upon the sale or maturity of foreign currency-denominated securities pursuant to U.S. federal income tax regulations. Certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in or are a reduction of ordinary income in accordance with U.S. federal income tax regulations.

FORWARD FOREIGN CURRENCY CONTRACTS--The Fund may enter into forward foreign currency exchange contracts ("forward contracts") in connection with planned

GLOBAL HIGH INCOME DOLLAR FUND INC.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

NOTES TO FINANCIAL STATEMENTS

purchases or sales of securities or to hedge the U.S. dollar value of portfolio securities denominated in a particular currency. The Fund may also use forward contracts to enhance income.

The Fund has no specific limitation on the percentage of assets which may be committed to such contracts. The Fund may enter into forward contracts or maintain a net exposure to forward contracts only if (1) the consummation of the contracts would not obligate the Fund to deliver an amount of foreign currency in excess of the value of the position being hedged by such contracts or (2) the Fund identifies cash or liquid securities in an amount not less than the value of its total assets committed to the consummation of the forward contracts and not covered as provided in (1) above, as marked-to-market daily.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their forward contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar.

Fluctuations in the value of forward contracts are recorded for book purposes as unrealized gains or losses by the Fund. Realized gains and losses include net gains and losses recognized by the Fund on contracts which have been sold or matured.

FUTURES CONTRACTS--The Fund may use financial futures contracts for hedging purposes and to adjust exposure to U.S. and foreign fixed income markets in connection with a reallocation of the Fund's assets or to manage the average duration of the Fund. However, imperfect correlations between futures contracts and the related securities or markets, or market disruptions, do not normally permit full control of these risks at all times. Using financial futures contracts involves various market risks. The maximum amount at risk from the purchase of a futures contract is the contract value.

Upon entering into a financial futures contract, the Fund is required to pledge to a broker an amount of cash and/or liquid securities equal to a certain percentage of the contract amount. This amount is known as the "initial margin". Subsequent payments, known as "variation margin," are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial futures contracts. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures.

SWAP AGREEMENTS--Total return swap agreements involve commitments to pay interest in exchange for a market-linked return based on a notional amount. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty, respectively. Total return swaps are marked-to-market daily, and the change, if any, is recorded as unrealized

Credit default swap agreements involve commitments to pay interest and principal in the event of a default of a security. The Fund makes payments to the counterparty semi-annually, and the Fund would receive payments only in the event of default. Credit default swaps are marked-to-market daily, and the change, if any, is recorded as unrealized appreciation or depreciation in the Statement of Operations. Periodic payments received or made during each measurement period, but prior to termination, are recorded as realized gains or losses in the Statement of Operations.

21

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS

At October 31, 2005, the Fund had outstanding credit default swap contracts with the following terms:

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

	NOTIONAL AMOUNT	TERMINATION DATE	PAYMENTS MADE BY THE FUND	PAYMENTS RECEIVED BY THE FUND	UNREALIZED DEPRECIATION

* Payment by the counterparty will be made upon the occurrence of a negative credit event with respect to the Republic of Argentina bond, coupon 8.28%, due 12/31/33.

DIVIDENDS AND DISTRIBUTIONS--Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from net investment income and distributions from net realized capital gains and/or return of capital is determined in accordance with U.S. federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

CONCENTRATION OF RISK

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in the United States. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region, which could cause the securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities. These risks are greater with respect to securities of issuers located in emerging market countries in which the Fund invests. The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country or region.

INVESTMENT ADVISOR AND ADMINISTRATOR AND OTHER TRANSACTIONS WITH RELATED ENTITIES

The Board has approved an investment advisory and administration contract ("Advisory Contract") with UBS Global AM, under which UBS Global AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund pays UBS Global AM an investment advisory and administration fee, which is accrued weekly and paid monthly, at the annual rate of 1.25% of the Fund's average weekly net assets. Effective August 1, 2005,

22

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS

UBS Global AM has agreed to waive compensation otherwise payable to it to reduce the fee it receives under the Advisory Contract so that it is paid at the following rates:

AVERAGE WEEKLY NET ASSETS

ADVISORY FEE

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

Up to \$200 million	1.25%
Above \$200 million	1.00%

This waiver will continue indefinitely unless the Board agrees to any change. At October 31, 2005, the Fund owed UBS Global AM \$301,366, which is composed of \$326,383 of investment advisory and administration fees less fees waived of \$25,017. For the year ended October 31, 2005, UBS Global AM waived \$67,739 of investment advisory and administration fees from the Fund.

The Fund invests in shares of the UBS Supplementary Trust--U.S. Cash Management Prime Fund ("Supplementary Trust"). Supplementary Trust is a business trust managed by UBS Global Asset Management (Americas) Inc., an affiliate of UBS Global AM.

The Fund pays no management fees to Supplementary Trust. Distributions from the Supplementary Trust are reflected as interest income on the Statement of Operations.

Amounts relating to those investments at October 31, 2005 and for the period ended are summarized as follows:

FUND	PURCHASES	SALES PROCEEDS	INTEREST INCOME	VALUE	NET
UBS Supplementary Trust -- U.S. Cash Management Prime Fund	\$278,899,196	\$275,372,061	\$271,915	\$13,645,683	

ADDITIONAL INFORMATION REGARDING COMPENSATION TO AFFILIATE OF A BOARD MEMBER

Effective March 1, 2005, Professor Meyer Feldberg accepted the position of senior advisor to Morgan Stanley, resulting in his becoming an interested director of the Fund. The Fund has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. UBS Global AM may execute Fund portfolio transactions through Morgan Stanley based on that firm's ability to provide best execution of the transactions. For the year ended October 31, 2005, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley having an aggregate value of \$2,534,640. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by UBS Global AM,

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

UBS Global AM believes that under normal circumstances it represents a small portion of the total value of the transactions.

SECURITIES LENDING

The Fund may lend securities up to 33 1/3% of its total assets to qualified broker-dealers or institutional investors. The loans are secured at all times by cash, cash equivalents or U.S. government securities in an amount at least equal to the market value of the securities loaned, plus accrued interest and dividends, determined on a daily basis and adjusted accordingly. The Fund will regain ownership of loaned securities to exercise certain beneficial rights; however, the Fund may bear the risk of delay in recovery of, or even loss of rights in, securities loaned should the borrower fail financially. The Fund receives compensation for lending its securities from interest or dividends earned on the cash, cash equivalents or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. UBS Financial Services Inc. and other affiliated broker-dealers have been approved as borrowers under the Fund's securities lending program. UBS Securities LLC is the lending agent for each Fund. For the year ended October 31, 2005, the Fund did not have any securities on loan and the Fund did not owe UBS Securities LLC compensation as the Fund's lending agent.

CAPITAL STOCK

There are 100,000,000 shares of \$0.001 par value common stock authorized and 19,439,667 shares outstanding at October 31, 2005. For the year ended October 31, 2005 and for the year ended October 31, 2004, the Fund did not repurchase any shares of common stock.

For the period September 17, 1998 (commencement of repurchase program) through February 28, 2001, the Fund repurchased 3,297,000 shares of common stock at an average market price per share of \$11.68 and a weighted average discount from net asset value of 14.88%. As of October 31, 2005, paid-in-capital has been reduced by the cost of \$38,698,693 of capital stock repurchased since commencement of the repurchase program.

PURCHASES AND SALES OF SECURITIES

For the year ended October 31, 2005, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$465,114,762 and \$504,429,689, respectively.

FEDERAL TAX STATUS

The Fund intends to distribute substantially all of its taxable income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year, substantially all of

its net investment income, realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

The tax character of distributions paid during the fiscal year ended October 31, 2005 and October 31, 2004, respectively were as follows:

DISTRIBUTIONS PAID FROM:	2005	2004

Ordinary income	\$31,225,937	\$30,792,351

Net realized long-term capital gains	24,993,580	3,116,260

	56,219,517	33,908,611
=====		

At October 31, 2005, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income	\$6,575,976

Undistributed long-term capital gains	17,879,944

Net unrealized appreciation	12,838,324

Total accumulated earnings	\$37,294,244
=====	

The difference between book-basis and tax-basis net unrealized appreciation of investments is attributable to premium amortization adjustments and wash sales.

During the current fiscal year, the Fund had no capital loss carry-forwards to offset current year gains.

For federal income tax purposes, the components of net unrealized appreciation of investments at October 31, 2005 were as follows:

Tax cost of investments	\$288,274,777
=====	
Gross appreciation (investments having an excess of value over cost)	\$ 15,021,793

Gross depreciation (investments having an excess of cost over value)	2,183,469

Net unrealized appreciation of investments	\$ 12,838,324
=====	

To reflect reclassifications arising from permanent "book/tax" differences for the year ended October 31, 2005, accumulated undistributed net investment income was increased by \$11,470,084, accumulated net realized gain from investment activities was decreased by \$11,470,084.

The difference is primarily due to tax treatment of paydown gains and losses, distributions in excess of net investment income and adjustments for certain debt obligations.

SUBSEQUENT EVENT

On November 10, 2005, the Fund announced the commencement of a "three-for-one" non-transferable rights offering to the Fund's shareholders. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

securities owned at October 31, 2005, by correspondence with the custodian and other brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Global High Income Dollar Fund Inc. at October 31, 2005, and the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

The second notification, which will reflect the amount to be used by calendar year taxpayers on their federal income tax returns, will be made in conjunction with Form 1099 DIV and will be mailed in January 2006. Shareholders are advised to consult their own tax advisors with respect to the tax consequences of their investment in the Fund.

QUARTERLY FORM N-Q PORTFOLIO SCHEDULE

The Fund will file its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarter of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC-0330. Additionally, you may obtain copies of Forms N-Q from the Fund upon request by calling 1-800-647-1568.

PROXY VOTING POLICIES AND PROCEDURES AND RECORD

You may obtain a description of the Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Fund voted any proxies related to portfolio securities during the 12-month period ended June 30, 2005 without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: www.ubs.com/ubsglobalam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>.)

DIVIDEND REINVESTMENT PLAN

The Fund's Board has established a Dividend Reinvestment Plan (the "Plan") under which all shareholders whose shares are registered in their own names, or in the name of UBS Financial Services Inc. or its nominee, will have all dividends and other distributions on their shares of common stock automatically reinvested in additional shares, unless such shareholders elect to receive cash. Shareholders who elect to hold their shares in the name of another broker or nominee should contact such broker or nominee to determine whether, or how, they may participate

29

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

in the Plan. The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee.

A shareholder may elect not to participate in the Plan or may terminate participation in the Plan at any time without penalty, and shareholders who have previously terminated participation in the Plan may rejoin it at any time. Changes in elections must be made in writing to the Fund's transfer agent and should include the shareholder's name and address as they appear on that share certificate or in the transfer agent's records. An election to terminate participation in the Plan, until such election is changed, will be deemed an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for distributions declared and having a record date at least ten days after the date on which the election is received.

Additional shares of common stock acquired under the Plan will be purchased in the open market, on the NYSE or otherwise, at prices that may be higher or lower than the net asset value per share at the time of the purchase. Investors should consider whether continued participation in the dividend reinvestment plan is appropriate for them when the Fund's market price exceeds its net asset value; a portion of a dividend may represent a return of capital, which would be reinvested in the Fund at a premium to net asset value. The number of shares of common stock purchased with each dividend will be equal to the result obtained

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

by dividing the amount of the dividend payable to a particular shareholder by the average price per share (including applicable brokerage commissions) that the transfer agent was able to obtain in the open market. The Fund will not issue any new shares in connection with the Plan. There currently is no charge to participants for reinvesting dividends or other distributions. The transfer agents fees for handling the reinvestment of distributions are paid by the Fund. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the transfer agent's open market purchases of common stock in connection with the reinvestment of distributions. The automatic reinvestment of dividends and other distributions in shares of common stock does not relieve participants of any income tax that may be payable on such distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan with respect to any dividend or other distribution if notice of the change is sent to Plan participants at least 30 days before the record date for such distribution. The Plan also may be amended or terminated by the transfer agent by at least 30 days' written notice to all Plan participants. Additional information regarding the Plan may be obtained from, and all correspondence concerning the Plan should be directed to, the transfer agent at PFPC Inc., P.O. Box 43027, Providence, Rhode Island 02940-3027. For further information regarding the Plan, you may also contact the transfer agent directly at 1-800-331-1710.

GENERAL INFORMATION (UNAUDITED)

DISTRIBUTION POLICY

The Fund's Board adopted a managed distribution policy in December 1999. Pursuant to the policy as in effect from December 1999 through early May 2005, the Fund made regular monthly distributions at an annualized rate equal to 11% of the Fund's net asset value, as determined as of the last trading day during the first week of that month (usually a Friday, unless the NYSE is closed that Friday). The Board approved reducing the annualized rate for distributions pursuant to the policy from 11% to 9% effective beginning with the June 2005 monthly distribution. Prior to December 20, 1999, the Fund's distributions varied based on the Fund's net investment income and realized capital gains or losses. The Fund's Board may change or terminate the managed distribution policy at any time; any such change or termination may have adverse effect on the market price for the Fund's shares.

To the extent that the Fund's taxable income in any fiscal year exceeds the aggregate amount distributed based on a fixed percentage of its net asset value, the Fund would make an additional distribution in the amount of that excess near the end of the fiscal year. To the extent that the aggregate amount distributed by the Fund (based on a fixed percentage of its net asset value) exceeds its current and accumulated earnings and profits, the amount of that excess would constitute a return of capital or net realized capital gains for tax purposes.

Monthly distributions based on a fixed percentage of the Fund's net asset value may require the Fund to make multiple distributions of long-term capital gains during a single fiscal year. The Fund has received exemptive relief from the Securities and Exchange Commission that enables it to do so. The Fund's Board will reassess the annualized percentage of net assets at which the Fund's monthly distributions will be made no less frequently than annually.

GENERAL INFORMATION (UNAUDITED)

BOARD APPROVAL OF ADVISORY AND ADMINISTRATION CONTRACT

BACKGROUND--At a meeting of the Board of Global High Income Dollar Fund Inc. (the "Fund") on July 20, 2005, the members of the Board, including the directors who are not "interested persons" of the Fund ("Independent Directors") as defined in the Investment Company Act of 1940, as amended, considered and approved the continuance of the Investment Advisory and Administration Contract ("Advisory and Administration Contract") for the Fund. In preparing for the meeting, the Board members had requested and received information from UBS Global Asset Management (US) Inc. ("UBS Global AM") to assist them, including performance and expense information for other investment companies with similar investment objectives to the Fund. The Board received and considered a variety of information about UBS Global AM, as well as the advisory and administrative arrangements for the Fund. The Independent Directors discussed the materials initially provided by management prior to the scheduled Board meeting in a session with their independent legal counsel and requested, and received from management, supplemental materials to assist them in their consideration of the Advisory and Administration Contract. Subsequently, the Chairman of the Board and independent legal counsel to the Independent Directors met with management representatives to discuss generally how information would be provided at the Board meeting. The Independent Directors also met for several hours the evening before the Board meeting and met again after management's presentation was completed to review the disclosure that had been made to them at the meeting. At all of these sessions the Independent Directors met in session with their independent legal counsel. The Independent Directors also received a memorandum from their independent legal counsel discussing the duties of Board members in considering approval of advisory and administration contracts. In its consideration of the approval of the Advisory and Administration Contract, the Board, including the Independent Directors, considered the following factors:

NATURE, EXTENT AND QUALITY OF THE SERVICES UNDER THE ADVISORY AND ADMINISTRATION CONTRACT--The Board received and considered information regarding the nature, extent and quality of management services provided to the Fund by UBS Global AM under the Advisory and Administration Contract during the past year. The Board also received a description of the administrative and other services rendered to the Fund and its shareholders by UBS Global AM. The Board noted that information received at regular meetings throughout the year related to the services rendered by UBS Global AM concerning the management of the Fund's affairs and UBS Global AM's role in coordinating providers of other services to the Fund, including custody, accounting and transfer agency services. The Board's evaluation of the services provided by UBS Global AM took into account the Board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of UBS Global AM's

32

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

investment management and other capabilities and the quality of its administrative and other services. The Board observed that the scope of services

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

provided by UBS Global AM had expanded over time as a result of regulatory and other developments, including maintaining and monitoring its own and the Fund's expanded compliance programs.

The Board had available to it the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund and recognized that these persons report to the Board regularly, some at every Board meeting. The Board also considered, based on its knowledge of UBS Global AM and its affiliates, the financial resources available to UBS Global AM and its parent organization, UBS AG.

The Board reviewed how transactions in Fund assets are effected. In conducting its review, the Board had available UBS Global AM's brokerage policies and practices, the standards applied in seeking best execution, UBS Global AM's soft dollar policies and practices, the use of a broker affiliated with UBS Global AM and the existence of quality controls applicable to brokerage allocation procedures. In addition, management also reported to the Board on, among other things, its disaster recovery plans and portfolio manager compensation plan.

The Board concluded that, overall, it was satisfied with the nature, extent and quality of services provided, and expected to be provided, to the Fund under the Advisory and Administration Contract.

FUND PERFORMANCE--The Board received and considered performance information of the Fund compared to other funds (the "Performance Universe") selected by Lipper, Inc. ("Lipper"), an independent provider of investment company data, over the one-, three-, five- and ten-year periods ended May 31, 2005 and since inception. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Board also noted that it had received information throughout the year at periodic intervals with respect to the Fund's performance.

The comparative Lipper information showed that the Fund's NAV performance as compared against the Performance Universe was consistently at or below average for the comparative periods. Specifically, the Fund's NAV performance was in the third quartile for the one-year period and since the Fund's inception and in the fourth quartile for the three-, five- and ten year periods. The Board in its review noted that more than three-quarters of the Performance Universe utilized leverage, most in excess of twenty percent (20%), allowing for amplified returns in this prolonged bull market, but with an increased level of risk. Management explained that the Fund, which has a lower beta/duration (risk profile), has underperformed its peers during this period, although it has outperformed on

33

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

corrections, as might be expected with a lower beta/duration. The Board also noted that the Fund has performed on par with its peer group since the inception of the Fund. Based on its review, the Board concluded that the Fund's investment performance was satisfactory.

MANAGEMENT FEE AND EXPENSE RATIO--The Board reviewed and considered the contractual advisory and administration fee (the "Contractual Management Fee") payable by the Fund to UBS Global AM in light of the nature, extent and quality of the advisory and administrative services provided by UBS Global AM. The Board

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

also reviewed and considered the actual fee rate (the "Actual Management Fee") paid by the Fund.

Additionally, the Board received and considered information comparing the Fund's Contractual Management Fee, Actual Management Fee and overall expenses with those of funds in a group of funds selected and provided by Lipper (the "Expense Group").

In connection with its consideration of the Fund's management fees, the Board also received information on an affiliate of UBS Global AM's standard institutional account fees for accounts of a similar investment type to the Fund. The Board noted that these fees were lower than the Contractual Management Fee and Actual Management Fee for the Fund, but also noted management's explanation that comparisons with such accounts may be of limited relevance given the different structures and regulatory requirements of closed-end funds versus such accounts, the differences in the levels of services required by closed-end funds and such accounts and the memorandum provided by the Fund's legal counsel discussing court decisions regarding the limited usefulness of such comparisons.

The comparative Lipper information showed that the Fund's Contractual Management Fee and Actual Management Fee were in the last quintile in the Fund's Expense Group and was the highest in its Expense Group (i.e., sixth out of six for the periods included in the Lipper report). In addition, the Board noted that the Fund's total expenses were in the third quintile in its Expense Group for the comparison period. The Board noted that although the Fund had a high Contractual Management Fee and Actual Management Fee, the Fund's total expenses were average in comparison with the Fund's Expense Group, resulting from below average nonmanagement fees.

After further discussion, the Board requested that management consider the possibility of instituting a breakpoint for the Fund, particularly in light of the Fund's proposed rights offering. After further discussion, management recommended, and the Board approved, that the Fund's management fee, currently 1.25%, be revised to provide for a breakpoint such that the Fund's management fee would remain at 1.25% of the Fund's average weekly net assets ("average net assets")

34

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

for the first \$200 million of assets under management and be reduced to 1.00% of the Fund's average net assets for amounts above \$200 million.

Taking all of the above into consideration, the Board determined that the Contractual Management Fee was reasonable in light of the nature, extent and quality of the services provided to the Fund under the Advisory and Administration Contract.

ADVISOR PROFITABILITY--The Board received and considered a profitability analysis of UBS Global AM and its affiliates in providing services to the Fund. The Board also received profitability information with respect to the UBS New York Fund complex as a whole. In addition, the Board received information with respect to UBS Global AM's allocation methodologies used in preparing this profitability data. UBS Global AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

ECONOMIES OF SCALE--The Board received and considered information from management regarding whether it has achieved economies of scale with respect to the management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential realization of further economies of scale. The Board considered whether economies of scale in the provision of services to the Fund were being passed along to shareholders.

In conducting its review, the Board noted that the Fund's Contractual Management Fee did not currently contain any breakpoints but that management had proposed, and the Board had approved, the institution of a breakpoint in the Fund's management fee, as described above. As the Fund's current asset level exceeded the breakpoint, and as any increase in assets due to the proposed rights offering would incur the management fee at the level above the breakpoint, the Board determined that actual economies of scale (on a going forward basis) existed in the form of the breakpoint to the Contractual Management Fee. Management also noted that, if the proposed rights offering is completed, to the extent fixed costs are spread over more assets, the Fund's shareholders may receive a marginal benefit from economies of scale.

Generally, in light of information provided and discussed, the Board believed that UBS Global AM's sharing of current economies of scale with the Fund was acceptable.

OTHER BENEFITS TO UBS GLOBAL AM--The Board considered other benefits received by UBS Global AM and its affiliates as a result of its relationship with the Fund, including the opportunity to offer additional products and services to Fund shareholders.

In light of the costs of providing investment management, administrative and other services to the Fund and UBS Global AM's ongoing commitment to the

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

Fund, the profits and other ancillary benefits that UBS Global AM and its affiliates received were considered reasonable.

In light of all of the foregoing, the Board approved the Advisory and Administration Contract to continue for another year.

In making its decision, the Board identified no single factor as being determinative in approving the Advisory and Administration Contract. The Independent Directors were advised by separate independent legal counsel throughout the entire process. The Board discussed the proposed continuance of the Advisory and Administration Contract in a private session with their independent legal counsel at which no representatives of UBS Global AM were present.

Fees included in the audit-related category are those associated with (1) the reading and providing of comments on the 2005 and 2004 semiannual financial statements, and (2) review of the consolidated 2004 and 2003 report on the profitability of the UBS Funds to UBS Global Asset Management (US) Inc. ("UBS Global AM") and its affiliates to assist the board members in their annual advisory/administration contract reviews.

(c) Tax Fees:

In each of the fiscal years ended October 31, 2005 and October 31, 2004, the aggregate tax fees billed by E&Y for professional services rendered to the registrant were approximately \$9,775 and \$9,200, respectively.

(e) (1) Audit Committee Pre-Approval Policies and Procedures:

The registrant's Audit Committee ("audit committee") has adopted an "Audit Committee Charter (Amended and Restated as of May 12, 2004)" (the "charter"). The charter contains the audit committee's pre-approval policies and procedures. Reproduced below is an excerpt from the charter regarding pre-approval policies and procedures:

The [audit] Committee shall:

...

2. Pre-approve (a) all audit and permissible non-audit services(1) to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to UBS Global [AM] and any Covered Service Providers, if the engagement relates directly to the operations and financial reporting of the Fund. In carrying out this responsibility, the Committee shall seek periodically from UBS Global [AM] and from the independent auditors a list of such audit and permissible non-audit services that can be expected to be rendered to the Fund, UBS Global [AM] or any Covered Service Providers by the Fund's independent auditors, and an estimate of the fees sought to be paid in connection with such services. The Committee may delegate its responsibility to pre-approve any such audit and permissible non-audit services to a sub-committee consisting of the Chairperson of the Committee and two other members of the Committee as the Chairperson, from time to time, may determine and appoint, and such sub-committee shall report to the Committee, at its next regularly scheduled meeting after the sub-committee's meeting, its decision(s). From year to year, the Committee shall

report to the Board whether this system of pre-approval has been effective and efficient or whether this Charter should be amended to allow for pre-approval pursuant to such policies and procedures as the Committee shall approve, including the delegation of some or all of the Committee's pre-approval responsibilities to other persons (other than UBS Global [AM] or the Fund's officers).

(1)The Committee will not approve non-audit services that the Committee believes may taint the

independence of the auditors. Currently, permissible non-audit services include any professional services (including tax services) that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, UBS Global [AM] and any service providers controlling, controlled by or under common control with UBS Global [AM] that provide ongoing services to the Fund ("Covered Service Providers") constitutes not more than 5% of the total amount of revenues paid to the independent auditors (during the fiscal year in which the permissible non-audit services are provided) by (a) the Fund, (b) its investment adviser and (c) any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

- (e) (2) Services approved pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X:

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately designated standing audit committee (the "Audit Committee") established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised of the following board members: Mr. Armstrong, Mr. Beaubien, Mr. Burt, and Mr. White.

ITEM 6. SCHEDULE OF INVESTMENTS

Included as part of the report to shareholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

CORPORATE GOVERNANCE PHILOSOPHY, VOTING GUIDELINES AND POLICY SUMMARY

The proxy voting policy of UBS Global AM is based on its belief that voting rights have economic value and must be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act as stewards of the financial assets of the company, to exercise good judgment and practice diligent oversight with the management of the company. While there is no absolute set of rules that determines appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain benchmarks, which, if substantial progress is made toward, give evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM (1) opposes proposals which act to entrench management; (2) believes that boards should be independent of company management and composed of persons with requisite skills, knowledge and experience; (3) opposes structures which impose financial constraints on changes in control; (4) believes remuneration should be commensurate with responsibilities and performance; and (5) believes that appropriate steps should be taken to ensure the independence of auditors.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a result of its or its affiliates' client relationships, marketing efforts or banking and broker/dealer activities. To address such conflicts, UBS Global AM

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSR

has imposed information barriers between it and its affiliates who conduct banking, investment banking and

broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing our proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, its appropriate local corporate governance committee is required to review and agree to the manner in which such proxy is voted.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In order to recommend a nominee, a shareholder should send a letter to the chairperson of the Nominating and Corporate Governance Committee, Richard Burt care of the Secretary of the registrant at UBS Global Asset Management (US) Inc., 51 West 52nd Street, New York, New York 10019-6114, and indicate on the envelope "Nominating and Corporate Governance Committee." The shareholder's letter should state the nominee's name and should include the nominee's resume or curriculum vitae, and must be accompanied by a written consent of the individual to stand for election if nominated for the Board and to serve if elected by shareholders.
