PART I - FINANCIAL INFORMATION

Item 1. Financial Statements

Our consolidated financial statements included in this Form 10-Q are as follows:

F-1 Consolidated Balance Sheets as of March 31, 2010 (unaudited) and December 31, 2009 (audited):

F-2 Consolidated Statements of Operations for the three months ended March, 31 2010 and 2009 (unaudited):

F-3 Consolidated Statement of Stockholders' Deficit for the three months ended March 31, 2010 (unaudited):

F-4 Consolidated Statements of Cash Flow for the three months ended March 31, 2010 and 2009 (unaudited):

F-5 Notes to Consolidated Financial Statements.

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the SEC instructions to Form 10-Q. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the interim period ended March 31, 2010 are not necessarily indicative of the results that can be expected for the full year.

SKINVISIBLE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. DESCRIPTION OF BUSINESS, HISTORY AND SUMMARY OF SIGNIFICANT POLICIES

Description of business - Skinvisible, Inc., (referred to as the “Company”) is focused on the development and manufacture of innovative topical polymer-based delivery system technologies and formulations incorporating its patent-pending formula/process for combining hydrophilic and hydrophobic polymer emulsions. The technologies and formulations have broad industry applications within the pharmaceutical, over-the-counter, personal skincare and cosmetic arenas. The Company’s antibacterial/antimicrobial hand sanitizer formulations, available for private label commercialization opportunities, offer skincare solutions for the healthcare, food service, industrial, cosmetic and salon industries, as well as for personal use in the retail marketplace. The Company maintains manufacturing, executive and sales offices in Las Vegas, Nevada.

History - Skinvisible, Inc. (referred to as the “Company”) was incorporated in Nevada on March 6, 1998 under the name of Microbial Solutions, Inc. The Company underwent a name change on February 26, 1999, when it changed its name to Skinvisible, Inc. The Company’s subsidiary’s name of Manloe Labs, Inc. was also changed to Skinvisible Pharmaceuticals, Inc.

Skinvisible, Inc. together with its subsidiary shall herein be collectively referred to as the “Company”.

Going concern - The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred cumulative net losses of \$18,808,129 since its inception and requires capital for its contemplated operational and marketing activities to take place. The Company’s ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the Company’s contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raise substantial doubt about the Company’s ability to continue as a going concern. The consolidated financial statements of the Company do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

Principles of consolidation - The consolidated financial statements include the accounts of the Company and its subsidiary. All significant intercompany balances and transactions have been eliminated.

Use of estimates - The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition

Product sales - Revenues from the sale of products are recognized when title to the products are transferred to the customer and only when no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive reasonably assured payments for products sold and delivered.

Royalty sales – The Company also recognizes royalty revenue from licensing its patent and trademarks, only when earned, with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Distribution and license rights sales – The Company also recognizes revenue from distribution and license rights only when earned, with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Costs of Revenue – Cost of revenue includes raw materials, component parts, and shipping supplies. Shipping and handling costs is not a significant portion of the cost of revenue.

F-5

Table of Contents

SKINVISIBLE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Accounts Receivable – Accounts receivable is comprised of uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The carrying amount of accounts receivable is reviewed periodically for collectability. If management determines that collection is unlikely, an allowance that reflects management's best estimate of the amounts that will not be collected is recorded. Management reviews each accounts receivable balance that exceeds 30 days from the invoice date and, based on an assessment of creditworthiness, estimates the portion, if any, of the balance that will not be collected. As of March 31, 2010, the Company had not recorded a reserve for doubtful accounts.

Inventory - Substantially all inventory consists of finished goods and are valued based upon first-in first-out ("FIFO") cost, not in excess of market. The determination of whether the carrying amount of inventory requires a write-down is based on an evaluation of inventory.

Goodwill and intangible assets - The Company follows Financial Accounting Standard Board's (FASB) Codification Topic 350-10 ("ASC 350-10"), "Intangibles – Goodwill and Other". According to this statement, goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under ASC 350-10, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

ASC 350-10 requires the Company to compare the fair value of the reporting unit to its carrying amount on an annual basis to determine if there is potential impairment. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value. During 2009, the Company completed an impairment review and did not recognize any impairment of goodwill and other intangible assets already included in the financial statements. The Company expects to receive future benefits from previously acquired goodwill over an indefinite period of time. Accordingly, beginning January 1, 2002, the Company has foregone all related amortization expense. Prior to January 1, 2002, the Company amortized goodwill over an estimated useful life ranging from 3 to 15 years using the straight-line method.

Income taxes - The Company accounts for its income taxes in accordance with FASB Codification Topic ASC 740-10, "Income Taxes", which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-based compensation – The Company follows the guidelines in FASB Codification Topic ASC 718-10 "Compensation-Stock Compensation", which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and employee stock purchases related to a Employee Stock Purchase Plan based on the estimated fair values.

Earnings (loss) per share - The Company reports earnings (loss) per share in accordance with FASB Codification Topic ASC 260-10 "Earnings Per Share", Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had

been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since the effect of the assumed exercise of options and warrants to purchase common shares (common stock equivalents) would have an anti-dilutive effect.

Reclassification – The financial statements from 2008 reflect certain reclassifications, which will have no effect on net income, to conform to classifications in the current year.

F-6

Table of Contents

SKINVISIBLE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Recent Accounting Pronouncements –

In June 2009, the FASB issued FASB ASC 105-10, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, which establishes the FASB Accounting Standards Codification™ (the Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles (GAAP), aside from those issued by the SEC. The Codification became effective for interim and annual periods ending after September 15, 2009. The Company adopted the Codification when referring to GAAP for the fiscal period ending September 30, 2009. The adoption of the Codification did not have an impact on the Company's financial position or results of operations.

In January 2010, the FASB issued Accounting Standards Update 2010-01, "Equity (Topic 505): Accounting for Distributions to Shareholders with Components of Stock and Cash (A Consensus of the FASB Emerging Issues Task Force)". This amendment to Topic 505 clarifies the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a limit on the amount of cash that will be distributed is not a stock dividend for purposes of applying Topics 505 and 260. Effective for interim and annual periods ending on or after December 15, 2009, and would be applied on a retrospective basis. The Company does not expect the provisions of ASU 2010-01 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB issued Accounting Standards Update 2010-02, Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary. This amendment to Topic 810 clarifies, but does not change, the scope of current US GAAP. It clarifies the decrease in ownership provisions of Subtopic 810-10 and removes the potential conflict between guidance in that Subtopic and asset derecognition and gain or loss recognition guidance that may exist in other US GAAP. An entity will be required to follow the amended guidance beginning in the period that it first adopts FAS 160 (now included in Subtopic 810-10). For those entities that have already adopted FAS 160, the amendments are effective at the beginning of the first interim or annual reporting period ending on or after December 15, 2009. The amendments should be applied retrospectively to the first period that an entity adopted FAS 160. The Company does not expect the provisions of ASU 2010-02 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-03 (ASU 2010-03), Extractive Activities—Oil and Gas (Topic 932): Oil and Gas Reserve Estimation and Disclosures. This amendment to Topic 932 has improved the reserve estimation and disclosure requirements by (1) updating the reserve estimation requirements for changes in practice and technology that have occurred over the last several decades and (2) expanding the disclosure requirements for equity method investments. This is effective for annual reporting periods ending on or after December 31, 2009. However, an entity that becomes subject to the disclosures because of the change to the definition oil- and gas- producing activities may elect to provide those disclosures in annual periods beginning after December 31, 2009. Early adoption is not permitted. The Company does not expect the provisions of ASU 2010-03 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-04 (ASU 2010-04), Accounting for Various Topics—Technical Corrections to SEC Paragraphs.

In January 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-05 (ASU 2010-05), Compensation – Stock Compensation (Topic 718). This standard codifies EITF Topic D-110 Escrowed Share Arrangements and the Presumption of Compensation.

In January 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-06 (ASU 2010-06), Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This amendment to Topic 820 has improved disclosures about fair value measurements on the basis of input received from the users of financial statements. This is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early adoption is permitted. The Company does not expect the provisions of ASU 2010-06 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-07 (ASU 2010-07), Not-for-Profit Entities (Topic 958): Not-for-Profit Entities: Mergers and Acquisitions. This amendment to Topic 958 has occurred as a result of the issuance of FAS 164. The Company does not expect the provisions of ASU 2010-07 to have a material effect on the financial position, results of operations or cash flows of the Company.

In February 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-08 (ASU 2010-08), Technical Corrections to Various Topics. This amendment eliminated inconsistencies and outdated provisions and provided the needed clarifications to various topics within Topic 815. The amendments are effective for the first reporting period (including interim periods) beginning after issuance (February 2, 2010), except for certain amendments. The amendments to the guidance on accounting for income taxes in reorganization (Subtopic 852-740) should be applied to reorganizations for which the date of the reorganization is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. For those reorganizations reflected in interim financial statements issued before the amendments in this Update are effective, retrospective application is required. The clarifications of the guidance on the embedded derivatives and hedging (Subtopic 815-15) are effective for fiscal years beginning after December 15, 2009, and should be applied to existing contracts (hybrid instruments) containing embedded derivative features at the date of adoption. The Company does not expect the provisions of ASU 2010-08 to have a material effect on the financial position, results of operations or cash flows of the Company.

Table of Contents

SKINVISIBLE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

2. FIXED ASSETS

Fixed assets consist of the following as of March 31, 2010:

Machinery and equipment	\$55,463
Furniture and fixtures	113,635
Computers, equipment and software	38,105
Leasehold improvements	12,569
Lab equipment	115,946
	335,718
Less: accumulated depreciation	327,502
Fixed assets, net of accumulated depreciation	\$8,216

Depreciation expense for the three months ended March 31, 2010 and 2009 was \$1,300 and \$1,119, respectively.

3. INTANGIBLE AND OTHER ASSETS

Patents and trademarks are capitalized at its historical cost and are amortized over their useful lives. As of March 31, 2010, patents and trademarks total \$263,042, net of \$72,437 of accumulated amortization. Amortization expense for the three months ended March 31, 2010 and 2009 were \$5,485 and \$2,885, respectively.

License and distributor rights (“agreement”) was acquired by the Company in January 1999 and provides exclusive use distribution of polymers and polymer based products. The Company has a non-expiring term on the license and distribution rights. Accordingly, the Company annually assesses this license and distribution rights for impairment and has determined that no impairment write-down is considered necessary as of March 31, 2010.

Prepaid royalties fees are amounts prepaid by the Company related to the license and distributor rights. The future royalties payments required by the Company total \$2,000,000. The royalties fees are to be paid in an amount equal to the greater of (a) \$6,000 per month; or (b) 1.5% of net revenues realized by the sale of the associated polymer products subject to a cap of \$2,000,000. The Company will make payments of \$6,000 per month, and by a payment on any royalties in excess of \$72,000 in each year payable on an annual basis calculated within 60 days of each anniversary date of the agreement. The future royalties payments are to be amortized over eight years, which is the life of the agreement. As of March 31, 2010, the Company has paid a total of \$2,000,000 of which \$2,000,000 has been expensed.

4. UNEARNED REVENUE

Unearned revenue totaling \$47,042 as of March 31, 2010 relates to a marketing and distribution rights agreement entered into during 2009 for which monies were received and not considered earned.

5. STOCK OPTIONS AND WARRANTS

Stock options employees and directors – During the year ended December 31, 2009, the Company granted stock options to employees and directors totaling 3,920,000 shares of its common stock with a weighted average strike price of \$0.06 per share. The stock options were exercisable upon grant and have a life ranging from 3 months to 5 years. The stock options were valued at \$299, for 2009 using the Black-Scholes option pricing model based upon the following assumptions: term of 5 years, risk free interest rates ranging from 2.19% to 3%, a dividend yield of 0% and volatility rates ranging from 131% to 167%. The Company has recorded an expense of \$299,370 for the year ended December 31, 2009. The Company did not issue any options to employees or directors during the three months ended March 31, 2010.

Stock options non-employees – During the year ended December 31, 2009, the Company granted stock options for services totaling 200,000 shares of its common stock with a weighted average strike price of \$0.04 per share,. All stock options were exercisable upon grant. The stock options were valued at \$12,160 during 2009 using the Black-Scholes option pricing model based upon the following assumptions: term of 5 years, risk free interest rate of 3.0% , a dividend yield of 0% and a volatility rate of 131%. During the three months ended March 31, 2010, the Company did not issue any options.

The following is a summary of option activity during the year ended December 31, 2009 and three months ended March 31, 2010:

	Number of Shares	Weighted Average Exercise Price
Balance, December 31, 2008	6,795,000	0.14

SKINVISIBLE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Stock warrants -

During the three months ended March 31, 2010, the Company issued 275,000 warrants as part of the issuance of common stock for the payment of short term loans to the Company. These warrants had exercise prices of \$0.10 and \$0.12, and were all exercisable upon grant. The warrants were valued at \$29,974 using the Black-Scholes option pricing model based upon the following assumptions: term of 3 years, risk free interest rate of 1.33% , a dividend yield of 0% and a volatility rate of 171%

The following is a summary of warrants activity during the year ended December 31, 2009 and three months ended March 31, 2010:

	Number of Shares	Weighted Average Exercise Price
Balance, December 31, 2008	8,349,000	0.16
Warrants granted and assumed	2,336,847	0.07
Warrants expired	637,500	0.29
Warrants canceled	1,474,000	0.10
Warrants exercised	287,500	0.13
Balance, December 31, 2009	8,286,847	0.10
Warrants granted and assumed	275,000	0.12
Warrants expired	1,500,000	0.15
Warrants canceled	-	
Warrants exercised	-	
	7,031,847	0.09

Balance,
March 31,
2010

All warrants outstanding as of March 31, 2010 are exercisable.

5. RELATED PARTY TRANSACTIONS

As of December 31, 2009, the Company had an unsecured loan payable due to an employee with an interest rate of 10% per annum, due on demand totaling \$214,112.

As of March 31, 2010, the Company had unsecured loans payable due to employees with an interest rate of 10% per annum, due on demand totaling \$241,070.

6. CONVERTIBLE NOTES PAYABLE

During 2009, the Company issued an aggregate of \$382,500 consisting of promissory convertible notes to eight individuals. One of the notes is due by January 12, 2010, accruing interest at 10% per annum. At the investor's option until the repayment date, the note can be converted to shares of the Company's common stock at a fixed price of \$0.10 per share along with additional warrants to purchase one share per every two shares issued at the exercise price of \$0.15 per share for two years after the conversion date. As of December 31, 2009, all but one of the notes, with a total face value of \$307,500, were converted into 7,613,692 shares.

The Company has determined the value associated with the conversion feature in connection with the remaining convertible note payable. The Company has determined the note, with a face value of \$75,000, to have a beneficial conversion feature totaling \$22,500. The beneficial conversion feature has been accreted and charged to interest expense in the amount of \$18,750 as of December 31, 2009. The beneficial conversion feature is valued under the intrinsic value method.

Table of Contents

7. COMMITMENTS AND CONTINGENCIES

Lease obligations – The Company has operating leases for its offices. Future minimum lease payments under the operating leases for the facilities as of March 31, 2010 are as follows:

2010	\$48,005
2011	57,606
2012	57,606

Rental expense, resulting from operating lease agreements, approximated \$18,612 for the three months ended March 31, 2010.

Lawsuit – The Company is the defendant in a lawsuit brought by a former member of the Board of Directors. The lawsuit claims that certain expenses and a loan in the amount of \$20,000 were not repaid to the plaintiff. The Company is disputing these allegations. It is not possible to determine a probable outcome at this time, and since Company management feels a material loss from this suit to be remote, the Company has not accrued any related expenses.

8. SUBSEQUENT EVENTS

None.

The Company has evaluated subsequent events through April 30, 2010, the date which the financial statements were available to be issued.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words "believes," "project," "expects," "anticipates," "estimates," "intends," "strategy," "plan," "may," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

Overview

We develop innovative polymer delivery vehicles and related compositions that hold active ingredients on the skin for extended periods of time when applied topically. We designed a process for combining water soluble and insoluble polymers that is specifically formulated to carry water insoluble active ingredients in water-based products without the use of alcohol, silicones, waxes, or other organic solvents. This enables active agents the ability to perform their intended functions for an extended period of time. Our polymer delivery vehicles, trademarked Invisicare®, allow normal skin respiration and perspiration. The polymer compositions we develop wear off as part of the natural exfoliation process of the skin's outer layer cells.

We believe Invisicare® offers the following benefits:

§ Displays superior skin adherence for extended time periods

§ Non-occlusive yet resists water wash-off, respiration and perspiration

Table of Contents

- § Increased efficacy of active ingredients
- § Allows for lower use levels of actives with increased persistence of effect
- § Offers advantage of controlled and/or sustained time-release
- § Highly compatible with a variety of actives and bases
- § Easy to emulsify
- § Formulates well at a cream, lotion, or spray viscosity
- § Non-irritating emulsion dries quickly with no greasy after-feel
- § Non-occlusive film forms protective barrier against environmental irritants
- § Broad polymer selection to meet application requirements
- § Offers “Life Cycle” management to core products with potential for new patent
- § Simplified manufacturing process

Products that successfully incorporate Invisicare to date include antimicrobial hand sanitizer lotions, suncare products, skincare moisturizers, sunless tanning products as well as various dermatology products for various skin disorders. On an ongoing basis, we are seeking to develop polymer formulations that can successfully be incorporated into other products.

Our primary objective is to license Invisicare to established brand manufacturers and marketers of prescription and over-the-counter products in the dermatological, medical, cosmetic, and skincare markets. With the exception of sales to one vendor, our management’s policy is to only sell Invisicare to vendors that have executed a license agreement with us. We conduct our research and development in-house. We engage an outside party that currently handles all of our manufacturing and distribution needs.

Table of Contents

Results of Operations for the Three Months Ended March 31, 2010 and 2009

Revenues

Our total revenue reported for the three months ended March 31, 2010 was \$158,230, a sharp increase from \$77,953 for the same period ended March 31, 2009. The increase in revenues for the three months ended March 31, 2010 from the prior period is attributable to royalty income based on licensed product sales.

Cost of Revenues

Our cost of revenues for the three months ended March 31, 2010 increased to \$4,196 from the same period ended March 31, 2009, when cost of revenues was \$1,421. The increase in our cost of revenues for the three months ended March 31, 2010 from the prior period is minimal and attributable to sales of polymers.

Gross Profit

Gross profit for the three months ended March 31, 2010 was \$154,034, or approximately 97% of sales. Gross profit for three months ended March 31, 2009 was \$76,532, or approximately 98% of sales.

Operating Expenses

Operating expenses decreased to \$215,410 for the three months ended March 31, 2010 from \$380,253 for the same period ended March 31, 2009. Our operating expenses for the three months ended March 31, 2010 consisted of depreciation and amortization expenses of \$6,785 and selling, general and administrative expenses of \$208,624. Our operating expenses for the three months ended March 31, 2009 consisted of depreciation and amortization expenses of \$4,004, and selling, general and administrative expenses of \$376,249.

Other Expenses

We paid more in interest expenses for the three months ended March 31, 2010 than in the prior period ended 2009, resulting in total other expenses of \$70,343 as compared with \$62,337 for the prior period.

Net Loss

Net loss for the three months ended March 31, 2010 was \$137,719 compared to net loss of \$366,058 for the same period ended March 31, 2009.

Liquidity and Capital Resources

As of March 31, 2010, we had total current assets of \$146,336 and total assets in the amount of \$390,187. Our total current liabilities as of March 31, 2010 were \$1,249,789. We had a working capital deficit of \$1,103,453 as of March 31, 2010.

Operating activities used \$36,832 in cash for the three months ended March 31, 2010. Our net loss of \$131,719 combined with an increase in accounts receivable of \$93,947 and decrease in prepaid expenses and other current assets of \$14,804 was the primary component of our negative operating cash flow, offset mainly by stock based compensation of \$43,669, interest expense paid with common stock of \$25,000, and an increase in accounts payable and accrued liabilities of \$133,145. Cash flows used by investing activities during the three months ended March 31, 2010 was \$58,612 as a result of the purchase of fixed and intangible assets. Cash flows provided by financing

activities during the three months ended March 31, 2010 amounted to \$73,634 and consisted primarily of \$72,000 in related party loans and \$1,634 as proceeds from the issuance of convertible notes payable.

Based upon our current financial condition, we do not have sufficient cash to operate our business at the current level for the next twelve months. We intend to fund operations through increased sales and debt and/or equity financing arrangements, which may be insufficient to fund expenditures or other cash requirements. We plan to seek additional financing in a private equity offering to secure funding for operations. There can be no assurance that we will be successful in raising additional funding. If we are not able to secure additional funding, the implementation of our business plan will be impaired. There can be no assurance that such additional financing will be available to us on acceptable terms or at all.

Table of Contents

Going Concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have incurred cumulative net losses of approximately \$18,808,129 since our inception and require capital for our contemplated operational and marketing activities to take place. Our ability to raise additional capital through the future issuances of the common stock is unknown. The obtainment of additional financing, the successful development of our contemplated plan of operations, and our transition, ultimately, to the attainment of profitable operations are necessary for us to continue operations. The ability to successfully resolve these factors raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments that may result from the outcome of these

Off Balance Sheet Arrangements

As of March 31, 2010, there were no off balance sheet arrangements.

Critical Accounting Policies

In December 2001, the SEC requested that all registrants list their most “critical accounting policies” in the Management Discussion and Analysis. The SEC indicated that a “critical accounting policy” is one which is both important to the portrayal of a company’s financial condition and results, and requires management’s most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Revenue Recognition

Revenues are recognized during the period in which the revenues are earned. Costs and expenses are recognized during the period in which they are incurred.

Product sales - Revenues from the sale of products are recognized when title to the products are transferred to the customer and only when no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive reasonably assured payments for products sold and delivered.

Royalty sales – The Company also recognizes royalty revenue from licensing its patent and trademarks, only when earned, with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Distribution and license rights sales – The Company also recognizes revenue from distribution and license rights only when earned, with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Costs of Revenue – Cost of revenue includes raw materials, component parts, and shipping supplies. Shipping and handling costs is not a significant portion of the cost of revenue.

Table of Contents

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided principally on the straight-line method over the estimated useful lives of the assets, which are generally 3 to 10 years. The cost of repairs and maintenance is charged to expense as incurred. Expenditures for property betterments and renewals are capitalized. Upon sale or other disposition of a depreciable asset, cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in other income (expense).

We periodically evaluate whether events and circumstances have occurred that may warrant revision of the estimated useful life of fixed assets or whether the remaining balance of fixed assets should be evaluated for possible impairment. We use an estimate of the related undiscounted cash flows over the remaining life of the fixed assets in measuring their recoverability.

Goodwill and Intangible Assets

Beginning January 1, 2002, we adopted Statement of Financial Accounting Standards (“SFAS”) No. 142, “Goodwill and Other Intangible Assets”. According to this statement, goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under SFAS No. 142, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

SFAS 142 requires us to compare the fair value of the reporting unit to its carrying amount on an annual basis to determine if there is potential impairment. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value. Upon adoption and during 2002, we completed an impairment review and did not recognize any impairment of goodwill and other intangible assets already included in the financial statements. We expect to receive future benefits from previously acquired goodwill over an indefinite period of time. Accordingly, beginning January 1, 2002, we have foregone all related amortization expense. Prior to January 1, 2002, we amortized goodwill over an estimated useful life ranging from 3 to 15 years using the straight-line method.

Recently Issued Accounting Pronouncements

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133,” (SFAS “161”) as amended and interpreted, which requires enhanced disclosures about an entity’s derivative and hedging activities and thereby improves the transparency of financial reporting. Disclosing the fair values of derivative instruments and their gains and losses in a tabular format provides a more complete picture of the location in an entity’s financial statements of both the derivative positions existing at period end and the effect of using derivatives during the reporting period. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Early adoption is permitted.

At September 30, 2008, we did not have any derivative instruments or hedging activities. Management is aware of the requirements of SFAS 161 and will disclose when appropriate.

In May 2008, the FASB issued SFAS No. 162, “The Hierarchy of Generally Accepted Accounting Principles.” SFAS 162 will provide framework for selecting accounting principles to be used in preparing financial statements that are

presented in conformity with U.S. generally accepted accounting principles (GAAP) for nongovernmental entities. SFAS 162 will be effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board ("PCAOB") amendments to AU Section 411. We do not expect the adoption of SFAS 162 will have a material impact on our financial condition or results of operation.

In May 2008, the FASB issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts – an interpretation of FASB Statement No. 60." SFAS 163 requires that an insurance enterprise recognize a claim liability prior to an event of default (insured event) when there is evidence that credit deterioration has occurred in an insured financial obligation. This Statement also clarifies how Statement 60 applies to financial guarantee insurance contracts, including the recognition and measurement to be used to account for premium revenue and claim liabilities. Those clarifications will increase comparability in financial reporting of financial guarantee insurance contracts by insurance enterprises. This Statement requires expanded disclosures about financial guarantee insurance contracts. The accounting and disclosure requirements of the Statement will improve the quality of information provided to users of financial statements. SFAS 163 will be effective for financial statements issued for fiscal years beginning after December 15, 2008. We do not expect the adoption of SFAS 163 will have a material impact on our financial condition or results of operation.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4T. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of March 31, 2010. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Terry Howlett. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2010, our disclosure controls and procedures are effective. There have been no changes in our internal controls over financial reporting during the quarter ended March 31, 2010.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Jost Steinbrhchel and Monique Steinbruchel v. Skinvisible, Case No. 09A588041 in the District Court, Clark County Nevada.

Plaintiffs allege that we have not reimbursed Jost Steinbruchel for his expenses when he was a member of our board of directors and that Monica Steinbruchel loaned us \$20,000 that has not been repaid. We are disputing these allegations.

Aside from the above, we are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

Item 1A: Risk Factors

A smaller reporting company is not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended March 31, 2010, we issued 115,500 shares of our common stock for services rendered.

During the three months ended March 31, 2010, we issued 550,000 restricted shares of our common stock as a result of entering into debt conversion agreements with lenders to convert total principal balances and interest of \$69,000 into equity.

During the three months ended March 31, 2010, we issued 275,000 warrants as part of the issuance of common stock for the payment of short term loans. These warrants had exercise prices of \$0.10 and \$0.12, and were all exercisable upon grant.

These securities were issued pursuant to Section 4(2) of the Securities Act and/or Rule 506 promulgated thereunder. The holders represented their intention to acquire the securities for investment only and not with a view towards distribution. The investors were given adequate information about us to make an informed investment decision. We did not engage in any general solicitation or advertising. We directed our transfer agent to issue the stock certificates with the appropriate restrictive legend affixed to the restricted stock.
