competent jurisdiction) which becomes effective on or after the date of this prospectus supplement (any such change or amendment, a **Change in Tax Law**), the Issuer or (if a payment were then due under a Guarantee, the relevant Guarantor) would be required to pay Additional Amounts and (ii) such obligation cannot be avoided by the Issuer (or the relevant Guarantor) taking reasonable measures available to it, *provided, however*, that any series of Notes may not be redeemed to the extent such Additional Amounts arise solely as a result of the Issuer assigning its obligations under such Notes to a Substitute Issuer (as defined in Description of the Notes), unless this assignment to a Substitute Issuer is undertaken as part of a plan of merger by the Parent Guarantor.

No notice of redemption may be given earlier than 90 days prior to the earliest date on which the Issuer or the Guarantor would be obligated to pay the Additional Amounts if a payment in respect of such series of Notes were then due.

RECENT DEVELOPMENTS

We held our annual General Shareholders Meeting on 26 April 2011, which approved our annual accounts for the year ended 31 December 2010, as well as the gross dividend of EUR 0.80 per share proposed by our board of directors. The General Shareholders Meeting also resolved to renew the mandates of Mr. Stéfan Descheemaeker as a Director (for a period of 4 years), as well as of Mr. Kees Storm (for a period of 2 years) and Mr. Peter Harf (for a period of 4 years) as independent Directors. In addition, Mr. Paul Cornet de Ways Ruart was newly elected as a Director and Mr. Olivier Goudet as an independent Director (both for a period of 4 years).

On 2 June 2011, we closed an offering of EUR 750 million aggregate principal amount of notes due 2 June 2021, which bear interest at 4% per annum (the **June EUR Notes**). The June EUR Notes were issued by the Parent Guarantor, in compliance with Regulation S of the Securities Act, under its Euro Medium Term Note Program base prospectus published on 17 May 2011. We used the \$1,063 million net proceeds to repay certain outstanding indebtedness under our 2010 Senior Facilities Agreement.

On 20 June 2011, we redeemed the \$1,250 million outstanding principal amount of our 7.20% notes due 2014 (the **2014 Redeemed Notes**) at an aggregate redemption price of \$1,431 million. The source of funds for the redemption was the 2010 Revolving Facility under the 2010 Senior Facilities Agreement. For a description of the 2010 Senior Facilities Agreement, see Item 10. Additional Information C. Material Contracts 2010 Senior Facilities Agreement in our Form 20-F filed with the SEC on 13 April 2011. The 2014 Redeemed Notes were originally issued on 12 January 2009 under the Base Indenture dated 12 January 2009 and the First Supplemental Indenture of the same date, in each case between the Issuer and the Trustee. Such notes were exempt from registration under the Securities Act and were voluntarily exchanged by the Issuer for freely tradable notes registered under the Securities Act with otherwise substantially identical terms and conditions in a tender offer that closed on 14 March 2011. Such registered notes are governed by the Base Indenture dated 16 October 2009 and the Sixteenth Supplemental Indenture dated 15 March 2011, in each case between the Issuer and the Trustee. As a result of this transaction, exceptional finance costs of approximately \$180 million were recognized during the second quarter of 2011 as the redemption price differed from the amortized cost of these 2014 Redeemed Notes. Additionally, exceptional finance costs include an incremental accretion expense and a one-time mark-to-market adjustment of approximately \$20 million as a portion of the interest rates swaps, hedging borrowings under these 2014 Redeemed Notes is no longer effective.

In June 2011, we established a U.S. commercial paper program for an amount not exceeding \$3 billion. In the month of June 2011, we issued \$577 million in commercial paper. We used the \$577 million net proceeds to repay certain outstanding indebtedness under our 2010 Senior Facilities Agreement. Thus far, in the month of July 2011, we have issued an additional \$275 million net proceeds in commercial paper, bringing our total in outstanding commercial paper to \$852 million. We intend to use the estimated net proceeds from the July issuance of \$275 million before expenses for general corporate purposes.

Business Day means a day on which commercial banks and exchange markets are open, or not authorized to close, in the City of New York, London and Brussels.

Fixed Rate Notes

The Fixed Rate Notes will be initially limited to \$750,000,000 aggregate principal amount and will mature on 14 July 2014. Interest on the Fixed Rate Notes will be payable semi-annually in arrears on 14 January and 14 July of each year, commencing on 14 January 2012. The Fixed Rate Notes will be senior unsecured obligations of the Issuer and will rank equally with all other existing and future unsecured and unsubordinated debt obligations of the Issuer.

Interest will accrue on the Fixed Rate Notes until the principal of the Fixed Rate Notes is paid or duly made available for payment. Interest on the Fixed Rate Notes will be calculated on the basis of a 360-day year consisting of twelve 30-day months. If the date of maturity of interest on or principal of any Fixed Rate Note or the date fixed for redemption or payment in connection with an acceleration of any Fixed Rate Note is not a Business Day, then payment of interest or principal need not be made on such date, but may be made on the next

Table of Contents

succeeding Business Day with the same force and effect as if made on the date of maturity or the date fixed for redemption or payment in connection with an acceleration, and no interest shall accrue as a result of the delayed payment.

Interest on the Fixed Rate Notes will be paid to the persons in whose names the Fixed Rate Notes are registered at the close of business on the 1 January and 1 July, immediately preceding the applicable interest payment date, whether or not such date is a Business Day. The Fixed Rate Notes may be redeemed at any time prior to maturity in the circumstances described under **Optional Redemption** and **Optional Tax Redemption**.

Floating Rate Notes

The Floating Rate Notes will be initially limited to \$300,000,000 aggregate principal amount and will mature on 14 July 2014. Interest on the Floating Rate Notes will be payable quarterly in arrears on 14 January, 14 April, 14 July, and 14 October of each year, commencing on 14 October 2011, subject to the Business Day Convention (as defined below), and until the principal of the Floating Rate Notes is paid or duly made available for payment.

Interest on the Floating Rate Notes will be paid to the persons in whose names the Floating Rate Notes are registered at the close of business on the fifteenth calendar day immediately preceding the applicable Floating Rate Interest Payment Date, whether or not such day is a Business Day. The Floating Rate Notes may be redeemed prior to maturity in the circumstances described under **Optional Tax Redemption**.

The interest rate on the Floating Rate Notes for the first Interest Period (as defined below) will be the 3-month U.S. dollar LIBOR, as determined on 12 July 2011, plus 0.360%. Thereafter, the interest rate on the Floating Rate Notes for any Interest Period will be the 3-month U.S. dollar LIBOR, as determined on the applicable Interest Determination Date (as defined below), plus 0.360%. The interest rate on the Floating Rate Notes will be reset quarterly on each Interest Reset Date (as defined below). For each Interest Period, interest on the Floating Rate Notes will be calculated on the basis of the actual number of days in the interest period divided by 360.

The Calculation Agent (as defined below) will determine 3-month U.S. dollar LIBOR in accordance with the following provisions: With respect to any Interest Determination Date, 3-month U.S. dollar LIBOR will be the rate for deposits in U.S. dollars having a maturity of three months commencing on the Interest Reset Date that appears on the designated LIBOR page as of 11:00 a.m., London time, on that Interest Determination Date. If no rate appears, 3-month U.S. dollar LIBOR, in respect of that Interest Determination Date, will be determined as follows: the Calculation Agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the Calculation Agent (after consultation with us), to provide the Calculation Agent with its offered quotation for deposits in U.S. dollars for the period of three months, commencing on the Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that Interest Determination Date and in a principal amount that is representative for a single transaction in U.S. dollars in that market at that time. If at least two quotations are provided, then 3-month U.S. dollar LIBOR on that Interest Determination Date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, then 3-month U.S. dollar LIBOR on the Interest Determination Date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m., New York City time, on the Interest Determination Date by three major banks in the City of New York selected by the Calculation Agent (after consultation with us) for loans in U.S. dollars to leading European banks, having a three-month maturity and in a principal amount that is representative for a single transaction in U.S. dollars in that market at that time; provided, however, that if the banks selected by the Calculation Agent are not providing quotations in the manner described by this sentence, 3-month U.S. dollar LIBOR determined as of that Interest Determination Date will be 3-month U.S. dollar LIBOR in effect on that Interest Determination Date. The designated LIBOR page is the Reuters screen **LIBOR01**, or any successor service for the purpose of displaying the London interbank rates of major banks for U.S. dollars. The Reuters screen **LIBOR01** is the display designated as the Reuters screen **LIBOR01**, or such other page as may replace the Reuters screen **LIBOR01** on that service or such other service or services as may be denominated by the British Bankers' Association for the purpose of displaying

Table of Contents

London interbank offered rates for U.S. dollar deposits. All calculations made by the Calculation Agent for the purposes of calculating the Interest Rate on the Floating Rate Notes shall be conclusive and binding on the Holders thereof, the Issuer and the Trustee, absent manifest error.

Business Day Convention means that if any Interest Payment Date (other than the maturity date or a date fixed for redemption or payment in connection with an acceleration of the Floating Rate Notes) falls on a day that is not a Business Day, that Interest Payment Date will be postponed to the next succeeding Business Day unless that Business Day is in the next succeeding calendar month, in which case the Interest Payment Date will be the immediately preceding Business Day.

Calculation Agent means The Bank of New York Mellon Trust Company, N.A.

Interest Determination Date means, for each particular Interest Reset Date (as defined below), the second London Business Day (as defined below) preceding such Interest Reset Date.

Interest Period means the period beginning on, and including, an Interest Payment Date and ending on, but not including, the following Interest Payment Date; provided that the first Interest Period will begin on 14 July 2011, and will end on, but not include, the first Interest Payment Date.

Interest Reset Date means, for each Interest Period other than the first Interest Period, the first day of such Interest Period, subject to the Business Day Convention.

London Business Day means any weekday on which banking or trust institutions in London are not authorized generally or obligated by law, regulation or executive order to close.

If the date of maturity of principal of the Floating Rate Notes or the date fixed for redemption or payment in connection with an acceleration of the Floating Rate Notes is not a Business Day, then payment of interest or principal need not be made on such date, but may be made on the next succeeding Business Day unless that Business Day is in the next succeeding calendar month, in which case such payment will be made on the immediately preceding Business Day with the same force and effect as if made on the date of maturity or the date fixed for redemption or payment in connection with an acceleration, and no interest shall accrue as a result of the delayed payment.

Regarding the Trustee, Paying Agent, Transfer Agent and Registrar

For a description of the duties and the immunities and rights of the Trustee, paying agent, transfer agent or registrar under the Indenture, reference is made to the Indenture, and the obligations of the Trustee, paying agent, transfer agent and registrar to the Holders of the Notes are subject to such immunities and rights.

The Issuer may at any time appoint new paying agents or transfer agents without prior notice to Holders.

Additional Notes

The Notes will be issued in the initial aggregate principal amount set forth above. The Issuer may, from time to time, without notice to or the consent of the Holders, create and issue, pursuant to the Indenture and in accordance with applicable laws and regulations, additional Notes (the **Additional Notes**) maturing on the same maturity date as the other Notes of a series and having the same terms and conditions under the Indenture (including with respect to the Guarantors and the Guarantees) as the previously outstanding Notes of that series in all respects (or in all respects except for the issue date and the amount and, in some cases, the date of the first payment of interest thereon) so that such Additional Notes shall be consolidated and form a single series with the previously outstanding Notes of that series. Without limiting the foregoing, the Issuer may, from time to time, without notice to or the consent of the Holders, create and issue, pursuant to the Indenture and in accordance with applicable laws and regulations, additional series of notes with additional or different terms and maturity dates than the Notes.

Table of Contents

Optional Redemption

The Issuer may, at its option, redeem the Fixed Rate Notes as a whole or in part at any time upon not less than 30 nor more than 60 days prior notice, at a redemption price equal to the greater of:

100% of the aggregate principal amount of the Fixed Rate Notes to be redeemed; and

as determined by the Independent Investment Banker (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest on the Fixed Rate Notes to be redeemed (not including any portion of such payments of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 10 basis points; plus, in each case described above, accrued and unpaid interest on the principal amount being redeemed to (but excluding) such redemption date.

Treasury Rate means, with respect to any redemption date:

the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded U.S. treasury securities adjusted to constant maturity under the caption Treasury constant maturities Nominal, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining term of the Fixed Rate Notes, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight-line basis, rounding to the nearest month); or

if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

The Treasury Rate will be calculated on the third Business Day preceding such redemption date.

Comparable Treasury Issue means the U.S. Treasury security (not inflation-indexed) selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the Fixed Rate Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such Fixed Rate Notes.

Comparable Treasury Price means, with respect to a redemption date, (i) the average of five Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (ii) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all such quotations.

Independent Investment Banker means Barclays Capital Inc., Deutsche Bank Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, RBS Securities Inc. or SG Americas Securities, LLC, as specified by the Issuer, or if all of these firms are unwilling or unable to serve in that capacity, an independent investment banking institution of national standing in the United States appointed by the Issuer.

Reference Treasury Dealer means (i) Barclays Capital Inc., Deutsche Bank Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, RBS Securities Inc. and SG Americas Securities, LLC and their respective successors, *provided, however*, that if any of the foregoing shall cease to be a primary U.S.

Table of Contents

government securities dealer in the City of New York (a **Primary Treasury Dealer**), the Issuer will substitute therefor another Primary Treasury Dealer and (ii) any three other Primary Treasury Dealers selected by the Issuer after consultation with an Independent Investment Banker.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York City time, on the third Business Day preceding such redemption date.

Unless the Issuer (and/or the Guarantors) defaults on payment of the redemption price, from and after the redemption date interest will cease to accrue on the Notes or portions thereof called for redemption. On the redemption date, the Issuer will deposit with the Trustee or with one or more paying agents (or, if the Issuer is acting as its own paying agent, set aside, segregate and hold in trust as provided in the Indenture) money sufficient to pay the redemption price of and accrued interest on the Notes to be redeemed on such date. If fewer than all of the Notes of any series are to be redeemed, the Trustee will select, not more than 60 days prior to the redemption date, the particular Notes of such series or portions thereof for redemption from the outstanding Notes of that series not previously called for redemption, on a pro rata basis across such series, or by such method as the Trustee deems fair and appropriate.

Optional Tax Redemption

A series of Notes may be redeemed at any time, at the Issuer's or the Parent Guarantor's option, as a whole, but not in part, upon not less than 30 nor more than 60 days' prior notice, at a redemption price equal to 100% of the principal amount of the Notes of such series then outstanding plus accrued and unpaid interest on the principal amount being redeemed (and all Additional Amounts (see Description of Debt Securities and Guarantees in the accompanying prospectus), if any) to (but excluding) the redemption date, if (i) as a result of any change in, or amendment to, the laws, treaties, regulations or rulings of a jurisdiction in which the Company or any Guarantor is incorporated, organized, or otherwise tax resident or any political subdivision or any authority thereof or therein having power to tax, or in the interpretation, application or administration of any such laws, treaties, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction) which becomes effective on or after the date of this prospectus supplement (any such change or amendment, a **Change in Tax Law**), the Issuer (or if a payment were then due under a Guarantee, the relevant Guarantor) would be required to pay Additional Amounts, with respect to the Notes of such series and (ii) such obligation cannot be avoided by the Issuer (or the relevant Guarantor) taking reasonable measures available to it. Additional Amounts are payable by the Issuer under the circumstances described under Description of Debt Securities and Guarantees Additional Amounts in the accompanying prospectus; *provided, however*, that the Notes of such series may not be redeemed to the extent such Additional Amounts arise solely as a result of the Issuer assigning its obligations under the Notes of such series to a Substitute Issuer, unless this assignment to a Substitute Issuer is undertaken as part of a plan of merger by Parent Guarantor.

Prior to the mailing of any notice of redemption pursuant to the foregoing, the Issuer or the relevant Guarantor will deliver to the Trustee an opinion of independent tax counsel of recognized standing to the effect that the Issuer or the relevant Guarantor is or would be obligated to pay such Additional Amounts as a result of a Change in Tax Law.

No notice of redemption may be given earlier than 90 days prior to the earliest date on which the Issuer or the relevant Guarantor would be obligated to pay Additional Amounts if a payment in respect of the Notes were then due.

The foregoing provisions shall apply *mutatis mutandis* to any successor person, after such successor person becomes a party to the Indenture.

Table of Contents

Events of Default

The occurrence and continuance of one or more of the following events will constitute an Event of Default under the Indenture and under the Notes:

- (a) *payment default* (i) the Issuer or a Guarantor fails to pay interest within 30 days from the relevant due date, or (ii) the Issuer or a Guarantor fails to pay the principal (or premium, if any) due on the Notes at maturity; *provided* that to the extent any such failure to pay principal or premium is caused by a technical or administrative error, delay in processing payments or events beyond the control of the Issuer or Guarantors, no Event of Default shall occur for three days following such failure to pay; *provided further* that, in the case of a redemption payment, no Event of Default shall occur for 30 days following a failure to make such payment;
- (b) *breach of other material obligations* the Issuer or a Guarantor defaults in the performance or observance of any of its other material obligations under or in respect of the Notes or the Indenture and such default remains unremedied for 90 days after a written notice has been given to the Issuer and the Parent Guarantor by the Trustee or to the Issuer, the Parent Guarantor and the Trustee by the Holders of at least 25% in principal amount of the outstanding Notes of the applicable series affected thereby, specifying such default or breach and requiring it to be remedied and stating that such notice is a **Notice of Default** under the Notes;
- (c) *cross-acceleration* any obligation for the payment or repayment of borrowed money having an aggregate outstanding principal amount of at least 100,000,000 (or its equivalent in any other currency) of the Issuer or a Guarantor becomes due and payable prior to its stated maturity by reason of a default and is not paid within 30 days;
- (d) *bankruptcy or insolvency* a court of competent jurisdiction commences bankruptcy or other insolvency proceedings against the Issuer, the Parent Guarantor or a Guarantor that is a Significant Subsidiary under the applicable laws of their respective jurisdictions of incorporation, or the Issuer, the Parent Guarantor or a Guarantor that is a Significant Subsidiary applies for or institutes such proceedings or offers or makes an assignment for the benefit of its creditors generally, or a third party institutes bankruptcy or insolvency proceedings against the Issuer, the Parent Guarantor or a Guarantor that is a Significant Subsidiary and such proceedings are not discharged or stayed within 90 days;
- (e) *impossibility due to government action* any governmental order, decree or enactment shall be made in or by Belgium or the jurisdiction of incorporation of a Guarantor that is a Significant Subsidiary whereby the Issuer, the Parent Guarantor, or such Guarantor that is a Significant Subsidiary is prevented from observing and performing in full its obligations as set forth in the terms and conditions of the Notes and the Guarantees, respectively, and this situation is not cured within 90 days; or
- (f) *invalidity of the Guarantees* the Guarantees provided by the Parent Guarantor or a Guarantor that is a Significant Subsidiary cease to be valid and legally binding for any reason whatsoever or the Parent Guarantor or a Guarantor that is a Significant Subsidiary seeks to deny or disaffirm its obligations under the Guarantee.

If an Event of Default occurs and is continuing with respect to the Notes, then, unless the principal of all of the Notes shall already have become due and payable (in which case no action is required for the acceleration of the Notes), the Holders of not less than 25% in aggregate principal amount of Notes then outstanding, by written notice to the Issuer, the Parent Guarantor and the Trustee as provided in the Indenture, may declare the entire principal of all the Notes of such series, and the interest accrued thereon, to be due and payable

Table of Contents

immediately, *provided, however*, that if an Event of Default specified in paragraph (d) above with respect to the Notes at the time outstanding occurs, the principal amount of that series shall automatically, and without any declaration or other action on the part of the Trustee or any Holder, become immediately due and payable. Under certain circumstances, the Holders of a majority in aggregate principal amount of the Notes then outstanding may, by written notice to the Issuer and the Trustee as provided in the Indenture, waive all defaults and rescind and annul such declaration and its consequences, but no such waiver or rescission and annulment shall extend to or shall affect any subsequent default or shall impair any right consequent thereon.

Except in cases of default, where the Trustee has some special duties, the Trustee is not required to take any action under the indenture at the request of any Holders unless the Holders offer the Trustee reasonable protection from costs, expenses and liability. This protection is called an indemnity. If reasonable indemnity is provided, the Holders of a majority in principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding seeking any remedy available to the Trustee. These majority Holders may also direct the Trustee in performing any other action under the Indenture, so long as such direction would not involve the Trustee in personal liability.

Before you bypass the Trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

The Trustee must be given written notice that an event of default has occurred and remains uncured.

The Holders of not less than 25% in principal amount of all outstanding Notes of the relevant series must make a written request that the Trustee institute proceedings because of the default, and must offer indemnity and/or security satisfactory to the Trustee against the costs, expenses and liabilities of taking such request.

The Trustee must have not taken action for 60 days after receipt of the above notice, request and offer of indemnity.

No direction inconsistent with such written request has been given to the Trustee during such 60-day period by the holders of the majority in principal amount of the outstanding Notes of that series.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your security on or after its due date. We will furnish to the Trustee every year a written statement of certain of our officers and directors, certifying that, to their knowledge, we are in compliance with the Indenture and the Notes, or else specifying any default.

Street name and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the Trustee and to make or cancel a declaration of acceleration.

Modifications and Amendment

The Issuer, the Guarantors and the Trustee may execute agreements adding any provisions to or changing in any manner or eliminating any of the provisions of the Indenture or of any supplemental agreement or modifying in any manner the rights of the Holders under the Notes or the Guarantees only with the consent of the Holders of not less than a majority in aggregate principal amount of the notes then outstanding (irrespective of series) that would be affected by the proposed modification or amendment; *provided* that no such agreement shall (a) change the maturity of the principal of, or any installment of interest on, any Note, or reduce the

Table of Contents

principal amount or the interest thereof, or extend the time of payment of any installment of interest thereon, or change the currency of payment of principal of, or interest on, any Note, or change the Issuer's or a Guarantor's obligation to pay Additional Amounts, impair or affect the right of any Holder to institute suit for the enforcement of any such payment on or after the due date thereof (or in the case of redemption on or after the redemption date) or change in any manner adverse to the interests of the Holders the terms and provisions of the Guarantees in respect of the due and punctual payment of principal amount of the Notes then outstanding plus accrued and unpaid interest (and all Additional Amounts, if any) without the consent of the Holder of each Note so affected; or (b) reduce the aforesaid percentage of notes, the consent of the Holders of which is required for any such agreement, without the consent of all of the Holders of the affected series of the notes then outstanding. To the extent that any changes directly affect fewer than all the series of the notes issued under the Indenture, only the consent of the Holders of notes of the relevant series (in the respective percentages set forth above) will be required.

The Issuer, the Guarantors and the Trustee may, without the consent of the Holders, from time to time execute agreements or amendments or enter into an indenture or indentures supplemental thereto (including in respect of one series of notes only) for one or more of the following purposes:

to convey, transfer, assign, mortgage or pledge any property or assets to the Trustee or another person as security for the Notes;

to evidence the succession of another person to the Issuer or any Guarantors, or successive successions, and the assumption by the successor person of the covenants of the Issuer or any of the Guarantors, pursuant to the Indenture and the Notes;

to evidence and provide for the acceptance of appointment of a successor or successors to the Trustee in any of its capacities and to add to or change any of the provisions of the Indenture to facilitate the administration of the trusts created thereunder by more than one trustee;

to add to the covenants of the Issuer or the Guarantors, for the benefit of the Holders of the Notes issued under the Indenture, or to surrender any rights or powers conferred on the Issuer or the Guarantors in the Indenture;

to add any additional events of default for the benefit of the Holders of the Notes;

to add to, change or eliminate any of the provisions of the Indenture in respect of the Notes, provided that any such addition, change or elimination (A) shall neither (i) apply to any Note created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor (ii) modify the rights of the Holder of any such Note with respect to such provision or (B) shall become effective only when there is no such Note outstanding;

to modify the restrictions on and procedures for, resale and other transfers of the Notes pursuant to law, regulation or practice relating to the resale or transfer of restricted securities generally;

to provide for the issues of securities in exchange for one or more series of outstanding debt securities;

to provide for the issuance and terms of any particular series of securities, the rights and obligations of the Guarantors and the holders of the securities of such series, the form or forms of the securities of such series and such other matters in connection therewith as the Issuer and the Guarantors shall consider appropriate, including, without limitation, provisions for (a) additional or different covenants, restrictions or conditions applicable to such series, (b) additional or different events of default in respect of such series, (c) a longer or shorter period of grace and/or notice in respect of

any provision applicable to such series than is otherwise provided, (d) immediate enforcement of any event of default in respect of such series or (e) limitations upon the remedies available in respect of any events of default in respect of such series or upon the rights of the holders of securities of such series to waive any such event of default;

(a) to cure any ambiguity or to correct or supplement any provision contained in the Indenture, the Notes or the Guarantees, or in any supplemental agreement, which may be defective or inconsistent with any other provision contained therein or in any supplemental agreement, (b) to eliminate any conflict between the terms thereof and the Trust Indenture Act or (c) to make such other provision in regard to matters or questions arising under the Indenture or under any supplemental agreement as the Issuer may deem necessary or desirable and which will not adversely affect the interests of the Holders to which such provision relates in any material respect;

to reopen the Notes and create and issue additional Notes having identical terms and conditions as the Notes (or in all respects except for the issue date, issue price, first interest accrual date and first interest payment date) so that the additional notes are consolidated and form a single series with the outstanding Notes;

to add any Subsidiary of the Parent Guarantor as a Guarantor with respect to any series of notes, subject to applicable regulatory or contractual limitations relating to such subsidiary's Guarantee;

to provide for the release and termination of any Subsidiary Guarantor's Guarantee in the circumstances described under Guarantees above;

to provide for any amendment, modification or alteration of any Subsidiary Guarantor's Guarantee and the limitations applicable thereto in the circumstances described under Guarantees above; or

to make any other change that does not materially adversely affect the interests of the holders of the notes affected thereby.

Street name and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

If an underwriter defaults, the Pricing Agreement provides that the underwriting commitments of the non-defaulting underwriters, depending on conditions specified in the Pricing Agreement, may be increased or the Pricing Agreement may be terminated.

The Notes are a new issue of securities with no established trading market. Application will be made to list the Notes on the New York Stock Exchange, although no assurance can be given that the Notes will be listed on the New York Stock Exchange, and if so listed, the listing does not assure that a trading market for the Notes will develop. We have been advised by the underwriters that the underwriters intend to make a market in the Notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of, or trading markets for, the Notes.

The Issuer and the Parent Guarantor have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

The underwriters propose to offer the Notes initially at the offering prices on the cover page of this prospectus supplement. The underwriters may sell Notes to securities dealers at a discount from the initial public offering price of up to: (i) in the case of the Fixed Rate Notes, 0.150% of the principal amount of the Fixed Rate Notes; and (ii) in the case of the Floating Rate Notes, 0.150% of the principal amount of the Floating Rate Notes. These securities dealers may resell any Notes purchased from the underwriters to other brokers or dealers at a discount from the initial public offering price of up to: (i) in the case of the Fixed Rate Notes, 0.125% of the principal amount of the Fixed Rate Notes; and (ii) in the case of the Floating Rate Notes, 0.125% of the principal amount of the Floating Rate Notes. The offering of the Notes by the underwriters is subject to receipt and acceptance and subject to each underwriter's right to withdraw, cancel, modify offers to investors and to reject any order in whole or in part. If the underwriters cannot sell all the Notes at the initial offering prices, they may change the offering prices and the other selling terms.

In order to facilitate the offering of the Notes, the underwriters may engage in transactions that stabilize, maintain or support the price of such Notes, as the case may be, for a limited period after the issue date. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the Notes for their own account. In addition, to cover over-allotments or to stabilize the price of the Notes, the underwriters may bid for, and purchase, Notes in the open market. Any of these activities may stabilize or maintain the market price of the Notes above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

The underwriters and/or their affiliates may enter into derivative and/or structured transactions with clients, at their request, in connection with the Notes and the underwriters and/or their affiliates may also

purchase some of the Notes to hedge their risk exposure in connection with such transactions. Also, the underwriters and/or their affiliates may acquire for their own proprietary account the Notes. Such acquisitions may have an effect on demand and the price of the offering.

The underwriters and their respective affiliates have, from time to time, performed, and may in the future perform various financial advisory, commercial banking and investment banking services for us, for which they received or will receive customary fees and expenses. These transactions and services are carried out in the ordinary course of business.

We expect that delivery of the notes will be made to investors on or about 14 July 2011 (such settlement being referred to as T+ 5). Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the securities prior to the third business day before the delivery of the securities will be required, by virtue of the fact that the securities initially will settle in T+5, to specify any alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the securities who wish to make such trades should consult their own advisors.

Belgian Taxation

The following is a general description of the principal Belgian tax consequences for investors receiving interest in respect of, or disposing of, the Notes and is of a general nature based on the issuers' understanding of current law and practice.

This general description is based upon the law as in effect on the date of this Prospectus Supplement and is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes under the laws of their countries of citizenship, residence, ordinary residence or domicile.

Withholding Tax and Income Tax

Tax rules applicable to natural persons resident in Belgium

Belgian natural persons who are Belgian residents for tax purposes, i.e. who are subject to the Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*) and who hold the Notes as a private investment, are in Belgium subject to the following tax treatment with respect to the Notes.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

In accordance with Belgian tax law, the following amounts are qualified and taxable as interest : (i) periodic interest income, (ii) amounts paid by the Issuer in excess of the issue price (whether or not on the maturity date), and (iii) in case of a realization of the Notes between two interest payment dates, the pro rata of accrued interest corresponding to the detention period.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 15 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Notes in their personal income tax return, provided withholding tax was levied on these interest payments.

Table of Contents

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return and will be taxed at a flat rate of 15 per cent. plus communal surcharges.

Capital gains realized on the sale of the Notes are in principle tax exempt, unless the capital gains are realized outside the scope of the normal management of one's private estate or unless the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

Belgian resident companies

Corporations Noteholders who are Belgian residents for tax purposes, i.e. who are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*) are in Belgium subject to the following tax treatment with respect to the Notes.

Interest derived by Belgian corporate investors on the Notes and capital gains realized on the Notes will be subject to Belgian corporate income tax. The current normal corporate income tax rate in Belgium is 33.99 per cent. Capital losses are in principle tax deductible.

Interest payments on the Notes made through a paying agent in Belgium can under certain circumstances be exempt from withholding tax, provided a special certificate is delivered. The Belgian withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

Other Belgian legal entities

Other legal entities Noteholders who are Belgian residents for tax purposes, i.e. who are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*) are in Belgium subject to the following tax treatment with respect to the Notes.

Payments of interest (as defined above in the section Tax rules applicable to natural persons resident in Belgium) on the Notes made through a paying agent in Belgium will in principle be subject to a 15 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the legal entity itself is responsible for the declaration and payment of the 15 per cent. withholding tax.

Capital gains realized on the sale of the Notes are in principle tax exempt, unless the capital gain qualifies as interest (as defined above in the section Tax rules applicable to natural persons resident in Belgium). Capital losses are in principle not tax deductible.

Organizations for Financing Pensions

Belgian pension fund entities that have the form of an OFP are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*). OFPs are in Belgium subject to the following tax treatment with respect to the Notes.

Interest derived by OFP Noteholders on the Notes and capital gains realized on the Notes will be exempt from Belgian Corporate Income Tax.

Any Belgian withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

Table of Contents

Belgian non-residents

The interest income on the Notes paid through a professional intermediary in Belgium will, in principle, be subject to a 15 per cent. withholding tax, unless the Noteholder is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. If the income is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident investors that do not hold the Notes through a Belgian establishment can also obtain an exemption of Belgian withholding tax on interest from the Notes paid through a Belgian credit institution, a Belgian stock market company or a Belgian-recognized clearing or settlement institution, provided that they deliver an affidavit from such institution or company confirming (i) that the investors are non-residents, (ii) that the Notes are held in full ownership or in usufruct and (iii) that the Notes are not held for professional purposes in Belgium.

The non-residents who use the Notes to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident companies (see above). Non-resident Noteholders who do not allocate the Notes to a professional activity in Belgium and who do not hold the Notes through a Belgian establishment are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

Tax on stock exchange transactions

A stock exchange tax (*Taxe sur les opérations de bourse/Taks op de beursverrichtingen*) will be levied on the purchase and sale in Belgium of the Notes on a secondary market through a professional intermediary. The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is 0.07 per cent. with a maximum amount of 500 per transaction and per party. The tax is due separately from each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However, the tax referred to above will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors, as defined in Article 126/1, 2° of the Code of various duties and taxes (*Code des droits et taxes divers/Wetboek diverse rechten en taksen*).

Individuals not resident in Belgium

Interest paid or collected through Belgium on the Notes and falling under the scope of application of the Savings Directive will be subject to the Disclosure of Information Method (as defined in the section EU Savings Directive 2003/48/EC below).

Individuals resident in Belgium

An individual resident in Belgium will be subject to the provisions of the Savings Directive, if he receives interest payments from a paying agent (within the meaning of the Savings Directive) established in another EU Member State, Switzerland, Liechtenstein, Andorra, Monaco, San Marino, The Netherlands Antilles, Aruba, Guernsey, Jersey, the Isle of Man, Montserrat, the British Virgin Islands, Anguilla, the Cayman Islands or the Turks and Caicos Islands.

Table of Contents

If the interest received by an individual resident in Belgium has been subject to a Source Tax (as defined in the section EU Savings Directive 2003/48/EC below), such Source Tax does not liberate the Belgian individual from declaring the interest income in the personal income tax declaration. The Source Tax will be credited against the personal income tax. If the Source Tax withheld exceeds the personal income tax due, the excessive amount will be reimbursed, provided it reaches a minimum of 2.5.

Luxembourg Taxation

The following is a general description of certain tax laws relating to the Notes as in effect and as applied by the relevant tax authorities as at the date hereof and does not purport to be a comprehensive discussion of the tax treatment of the Notes.

Prospective investors should consult their own professional advisers on the implications of making an investment in, holding or disposing of Notes and the receipt of interest with respect to such Notes under the laws of the countries in which they may be liable to taxation.
