ROA (%)	1.8	2.7			7.9	9.7		

(*) Earnings before interest and taxes

(**) Earnings before interest, taxes, depreciation and amortization

EBITDA in 2005 totaled R\$ 2,285.6 million, R\$ 359.1 million more than in 2004, thanks to expressive growth in revenues versus costs.

Despite the substantial increase (64.2%) in COFINS/PASEP expenses, due to changes in the duty's rate and calculation basis as of September 2004, annual net income jumped by 68.7% from R\$ 513.0 million, in 2004, to R\$ 865.6 million. Part of this increase was due to the 11.8% appreciation of the Real in 2005, versus 8.1% the year before, but the hefty 66.2% rise in net income from operating results greatly contributed to this outcome.

ROE (return on equity) increased from 6.5% to 10.2%, while ROA (return on assets) climbed from 7.9% to 9.7% . 4Q05 EBITDA stood at R\$ 618.2 million, 35.4% up year-on-year, while the corresponding EBITDA margin increased from 38.6% to 46.1% .

Page 3 of 12

2. Gross operating revenue growth

Gross operating revenue moved up R\$ 713.9 million, or 15.4%, from R\$ 4,642.5 million, in 2004, to R\$ 5,356.4 million, as a result of the following factors:

- The recovery in retail and wholesale consumption. Leading to a 4.4% increase in billed volumes, due to the conclusion of the 2004 bonus campaign to reduce water consumption in the São Paulo Metropolitan Region;
- The migration of customers to a higher tariff bracket, representing an impact of 1.1% in the period;
- Full tariff readjustment of 6.78% in 2004 and a proportional rise of 2.38% in 2005, totaling a 9.32% increase in 2005.

In 4Q05 gross operating revenue totaled R\$ 1,451.1 million, 13.7% up year-on-year.

3. Billed volume

The following tables show billed water and sewage volume per customer category and region in 4Q04 and 4Q05, as well as in 2004 and 2005.

4. Costs and administrative and selling expenses

In 2005, product and service costs, plus administrative and selling expenses, increased by R\$ 194.3 million or 6.3% over the year before. This increase is very close to the average annual variation of the country's main inflation indicators.

The 4Q05 figure dipped 0.5% year-on-year, a reduction of R\$ 4.8 million.

(R\$ million)

4.1. Salaries and payroll

The Company expanded its services throughout the year and annual productivity rose from 626 connections per employee, in 2004, to 651 in 2005.

Annual salary and payroll expenses moved up by R\$ 55.4 million, or 5.3%, due to the following factors:

- A 7.9% wage increase (IPC-FIPE) as of May/05 and a 2% rise in the Performance Evaluation as of June/05;
- A 1.6% head count reduction from 17,735 to 17,448 employees.

The 4Q05 figure increased by R\$ 25.4 million, or 9.6% year-on-year.

4.2. General supplies

In 2005, the figure moved up 23.3% or R\$ 21.9 million, primarily due to the following increases:

- R\$ 13.0 million with production system maintenance and materials applied in residential water and sewage connections maintenances;
- R\$ 3.0 million with vehicle fuel and lubricants, mainly due to the 7.2% average price hike in 2005.

In 4Q05, the total increase was R\$ 3.3 million, or 10.8% year-on-year, due to the same factors above.

4.3. Treatment supplies

In annual terms, the cost of these materials rose by 8%, or R\$ 7.3 million, caused by the increase in the volume of water treated as consumption climbed back to normal levels following the conclusion of the bonus campaign to reduce water consumption in the São Paulo Metropolitan Region.

Considering the average price increase for treatment material of 11.6% in 2005, the 8% increase in costs was possible due to operating actions geared towards a more rational and efficient application of these materials, leading to overall lower costs.

In the 4Q05, costs dropped 6.9% year-on-year, or R\$ 1.5 million, chiefly due to reduced consumption of activated carbon, in turn caused by a decline in taste- and odor-producing algae in the São Paulo Metropolitan Region's water sources.

4.4. Third-party services

Annual service expenses climbed by 12.3%, from R\$ 422.2 million, in 2004, to R\$ 474.0 million. Most of the R\$ 51.8 million difference can be put down to the following:

- R\$ 21.7 million with maintenance services for water distribution and sewage collection systems in the São Paulo Metropolitan Region (Global Sourcing Program) that includes domicile network and connection maintenance;
- R\$ 4.6 million from tariff study consulting services;
- R\$ 4.1 million from maintenance and rental of equipment for the expansion of the computer network;
- R\$ 4.9 million from structuring costs of debt refinancing operations on the capital markets, including the 7th and 8th debenture issuances;
- R\$ 5.9 million from handset meter-reading and invoicing;
- R\$ 3.1 million from the plan for final sludge disposal in the Tietê river clean-up program.

The 4Q05 figure climbed 8.8% year-on-year to R\$ 11.6 million, mostly pushed by expenses from environmental preservation and network and residential connection maintenance.

4.5. Electric power

Power costs moved up R\$ 24.8 million, or 6.2%, in 2005, from R\$ 398.7 million to R\$ 423.5 million, primarily due to the 2.1% increase in consumption, in turn caused by higher water production and an weighted average 14.1% increase

in captive-market tariffs;

It is worth mentioning that the upturn would have been even bigger but for a series of cost-trimming measures, such as the migration of 43% of the Company's consumption to the free market, generating savings of R\$ 25.6 million; and the implementation of electrical efficiency programs and contractual improvements, generating savings of R\$ 5.0 million; and a reduction in the ECE (Emergency Capacity Charge), saving a further R\$ 7.2 million.

On a quarter to quarter basis this cost dropped from R\$ 117.1 million in 4Q04 to R\$ 107.9 million in 4Q05, a slide of R\$ 9.2 million or 7.9%, despite the 14.1% period tariff hike authorized by ANEEL (Brazil's Electricity Regulatory Agency).

Fourth Quarter 2005 Results

March 24, 2006

Page 6 of 12

4.6. General expenses

In 2005, general expenses increased by R\$ 18.7 million, or 13.2%, from R\$ 142.0 million to R\$ 160.7 million, chiefly due to provisions for legal contingencies from new lawsuits, which climbed from R\$ 32.1 million, in 2004, to R\$ 44.1 million, a difference of R\$ 12.0 million. On the other hand, bank charges fell by 1.1%, thanks to agreements with the main collecting banks, which reduced these charges from R\$ 56.1 million to R\$ 55.5 million, equivalent to a real reduction of 5.7% (IPC-FIPE, the index used for contract updates until 2004). In 4Q05 dropped R\$ 29.1 million, from R\$ 63.4 million to R\$ 34.3 million or 45.9% year-on-year, mainly due to a reduction in provisions for legal contingencies, losses and judicial labor deposits and the above mentioned drop in bank charges.

4.7. Credit write-offs

In 2005 credit write-offs increased by R\$13.7 million, or 5.7%, from R\$ 241.6 million to R\$ 255.3 million. This variation consisted of a R\$ 79.8 million increase in write-offs, offset by R\$ 66.1 million with recovered credits.

In 4Q05, this line recorded a R\$ 4.5 million or 5.1% decrease, from R\$ 89.0 million to R\$ 84.5 million in comparison to the same period of the previous year.

4.8. Tax expenses

Tax expenses moved up by 14.0% in 2005, from R\$ 25.7 million to R\$ 29.3 million, mainly due to CPMF (Provisional Financial Transaction Tax) charges with debt payments that occurred though out 2005 specially the Eurobonds settlement in the amount of US\$ 275 million in July.

In the fourth quarter, there was a R\$ 0.6 million or 7.9% drop year-on-year from R\$ 7.6 million to R\$ 7.0 million.

5. Financial expenses and passive monetary variations

5.1. Financial expenses

Annual financial expenses climbed R\$ 67.8 million, or 9.4%, from R\$ 724.0 million to R\$ 791.8 million, thanks to:

- Interest on domestic loans and financing, which increased by R\$ 77.6 million, mainly due to interest on the 6th, 7th and 8th debenture issues, offset by interest on external loans and financing, which dropped R\$ 77.1 thanks to the depreciation of the dollar and payment of US\$ 275 million in Eurobonds in July/05 and US\$10 million to Deutsche Bank Luxembourg in October/05;
- A R\$ 33.2 million increase in the payment of withholding tax on foreign remittances in 2004, which did not occur in 2005;
- A R\$ 38.0 million upturn in financial contingencies as of December/05, regarding interest on and updates of new and existing lawsuit estimates.

In 4Q05 financial expenses posted a variation of R\$ 61.9 million, or 49.1%, moving up from R\$ 126.0 million to R\$ 187.9 million, due to the same factors mentioned above.

5.2. Passive monetary variation

In 2005, passive monetary variation amounted to a monetary gain of R\$ 147.7 million, from R\$ 82.4 million to R\$ 230.1 million, due to the 8.1% appreciation of the Real against the US dollar in 2004, versus the 11.8% appreciation in 2005.

In 4Q05 due to the Real depreciation versus the US dollar, passive monetary variation represented a monetary loss of R\$ 194.5 million, from a R\$ 110.4 million revenue in 4Q04 to a R\$ 84.1 million expense in 4Q05.

Fourth Quarter 2005 Results

March 24, 2006

Page 7 of 12

6. Active monetary variations

In 2005, active monetary variations fell by R\$ 26.3 million, or 43.6%, over 2004, from R\$ 60.3 million to R\$ 34.0 million. The decline was mainly due to: i) the adjustment, in 2004, of the methodology for calculating the updates of the special judicial orders from the Municipality of São Paulo, with the booking of R\$12.2 million as the full amount due; ii) the reduction in the GESP agreement balance due to payments during 2005, which resulted in a R\$ 3.4 million decrease in terms of monetary restatement; and iii) the reduction in the monetary restatement indexes used to update debts at R\$ 7.8 million.

In 4Q05 the active monetary variation dropped by R\$ 9.5 million, or 44.6%, from R\$ 21.3 million to R\$ 11.8 million as a result of the updates of amounts related to the GESP agreement, whose baseline amount for updating purpose was reduced by payments occurred during 2005.

7. Operational indicators

The table below shows the continued improvement in the Company's services.

Operational indicators	2004	2005	% Chg.
Water connections (1)	6,358	6,489	2.1
Sewage connections (1)	4,747	4,878	2.8
Population directly served - water (2)	22.3	22.6	1.3
Population directly served - sewage collection (2)	18.0	18.3	1.7
Number of employees	17,735	17,448	(1.6)
Operational productivity (3)	626	651	4.0

Notes:

(1) In 1,000 units at the end of the period

(2) Million inhabitants at the end of the period (does not include wholesale services). Due to new projections by Fundação SEADE, the population with direct sewage collection in 4Q04 was adjusted from 18.2 to 18.0 million.

(3) Number of water and sewage connections per employee

8. Loans and financing

Sabesp reduced its foreign-currency debt exposure from 38% at the end of 2004 to 24% at the close of 2005, chiefly due to July's US\$ 275 million Eurobond settlement, funded by the R\$ debenture issuance. Today 65% of Sabesp's foreign-currency debt is held by international development banks, such as the IDB..

The net debt/EBITDA ratio recorded an improvement from 3.6 in 2004 to 2.8 in 2005.

9. Subsequent Events

A **Credit Rights Investment Fund SABESP I** was established with the objective of acquiring Sabesp's credit rights.

Fund duration will be 60 months, starting from quota issuance date of March 23, 2006.

Proceeds obtained by Sabesp from the fund in the amount of R\$ 250 million, will be used by the Company to settle debt maturing during 2006.

Statements contained in this press release may contain information that is forward-looking and reflects management's current view and estimates of future economic circumstances, industry conditions, SABESP performance, and financial results. Any statements, expectations, capabilities, plans and assumptions contained in this press release that do not describe historical facts, such as statements regarding the declaration or payment of dividends, the direction of future operations, the implementation of principal operating and financing strategies and capital expenditure plans, the factors or trends affecting financial condition, liquidity or results of operations are forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and involve a number of risks and uncertainties. There is no guarantee that these results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
