**MARKET COMMUNICATION**

***Oi WILL REQUEST ANATEL'S APPROVAL FOR THE ACQUISITION OF BRT***

*Rio de Janeiro, November 21, 2008 Following the adoption of the new General Plan of Grants (Plano Geral de Outorgas), or PGO, Oi is legally able to undertake the transactions established in agreements, and accordingly, Oi intends to submit a request for the approval of the Brazilian Telecommunications Agency (Anatel) of its acquisition of Brasil Telecom. Oi believes that the new PGO is a milestone for the Brazilian telecommunications sector, renewing growth perspectives for the sector and considering, above all, the interests of the consumers, which will benefit from greater competition in this sector.*

*Following the anticipated approval of the Brasil Telecom acquisition by Anatel, consummation of the acquisition of Brasil Telecom by Oi will create a Brazilian telecommunications platform that is structured to compete on equal terms with the multinational players that currently operate in Brazil. This transaction will create a 100% Brazilian-controlled company with operations throughout Brazil and with the capacity to expand internationally. In the next five years, the new company expects to be able to expand its operations to Europe, Africa and Latin America, potentially reaching 30 million clients in the international market, thereby leading to an anticipated total of 110 million accesses in Brazil and elsewhere in the world.*

*Consumers are expected to benefit from increased competition in the mobile telecommunications sector in Brazil due to the creation of a fourth operator with a national footprint and service to the corporate market. The expected combination of the infrastructure of both companies will create a second backbone (data communications network) that will cover all of Brazil.*

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
