**UNDER NEW ACCOUNTING RULES LAW 11638  
GAFISA CONSOLIDATES TENDA FROM OCTOBER 21  
LAUNCHES AND SALES CONSOLIDATE FULL YEAR OF TENDA**

**FOR IMMEDIATE RELEASE São Paulo, March 9, 2009** Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for 2008 full year and fourth quarter ended December 31, 2008. The financial statements were prepared and presented in accordance with Brazilian GAAP and in Brazilian Reals (R\$). Only financial data derived from the Company's accounting system were subject to review by the Company's auditors. Operating and financial information not directly linked to the accounting system (i.e., launches, pre-sales, average sales price, land bank, PSV and others) or non-BR GAAP measures were not reviewed by the auditors. Additionally, financial statements and operating information consolidate the numbers for Gafisa and its subsidiaries, and refer to Gafisa's stake (or participation) in its developments.

Commenting on results, Chief Executive Officer Wilson Amaral said, "We have consistently turned in strong financial results since 2005, highlighted by robust growth for launches and revenue with CAGRs of 86% and 79%, respectively, and are pleased with our overall performance in 2008. Despite the continued economic scenario, our results for the fourth quarter, driven by strong sales from both Alphaville and Tenda, were basically in line with historical performance excluding special charges related to actions we undertook to ensure ongoing cash conservation and continued growth." Amaral added, "We continued to execute on our long-term strategy of being a leader in the Brazilian homebuilding market and completed our 60% acquisition of Tenda, which significantly strengthened our position in the growing lower income segment. Through this transaction we have now created the leading homebuilding platform in Brazil, encompassing the most extensive portfolio of brands, gaining the broadest geographic reach and serving all income levels."

**Operating & Financial Highlights**

Consolidated launches totaled R\$4,195 million, an 87.6% increase over 2007. Pre-sales reached R\$2,578 million for the year, a 58.5% increase as compared to 2007. In 4Q08, launches were R\$746.8 million, a 27.9% decrease over 4Q07. Pre-sales for the period were R\$607 million, 8.3% lower than the R\$662 million reported last year.

Net operating revenues, recognized by the Percentage of Completion (PoC) method, rose 45% to R\$1,740 million from R\$ 1,204 million in 2007. In 4Q08, net revenues were R\$624 million, an increase of 64% compared to R\$381 million in 4Q07.

2008 full year EBITDA reached R\$221 million (12.7% EBITDA margin), a 61% increase compared to the R\$137 million 2007 EBITDA (11.4% EBITDA margin). 4Q08 EBITDA reached R\$33.6 million (5.4% EBITDA margin) vs. R\$49.4 million (13.0% EBITDA margin) in the same period in 2007. EBITDA for the fourth quarter, excluding the impact of a law enacted in Brazil to bring local accounting standards closer to IFRS and special charges related to cancellations, restructuring and the SAP implementation, would have been R\$ 91.2 million (15.5% EBITDA margin). Excluding the impact of the aforementioned Law 11638 and special charges related to cancellations and restructuring, full year 2008 EBITDA would have been R\$ 261.0 million (15.0% EBITDA margin).

## CEO Commentary and Corporate Highlights for 2008

2008 was another year of significant achievement and expansion for Gafisa. The Company continued to execute on its long-term growth strategy and position itself as a leader in the Brazilian homebuilding industry. Gafisa's broad geographic reach, presence in all income segments and large land bank of R\$17.8 billion provide it with the ideal platform from which to generate sustained growth over the long term. The Company's reputation for strong professional management, financial discipline, and reliable delivery of quality product underscore its brand strength in each market segment. The successful execution of the strategic vision outlined by management at the time of our initial public offering culminated this year with the majority acquisition of Tenda, which consolidated Gafisa's position as the leader in the fast-growing entry-level and affordable housing segments. As we enter 2009, our Gafisa, Alphaville, and Tenda businesses have dedicated teams with strong leadership that are focused on serving their respective market segments in a total of 21 states throughout Brazil.

We have seen tremendous expansion in the homebuilding industry between 2005 and 2008, when the Brazilian housing credit grew almost four times (58% per year) to R\$41.4 billion at the end of last year. During this same period Gafisa's launches grew at an average of 86% per year to R\$4.2 billion and sales at a rate of over 79% per year to R\$ 2.6 billion. During the second half of last year, we began to see the effects of the global downturn on the Brazilian housing sector and our operations, mainly in the form of more cautious consumers, resulting in slower sales velocities. This year, we expect to see some rationalization in the growth rates experienced over the last few years. However, stimulus packages aimed at reinvigorating the economy and in particular, public sector financing and incentives targeted directly at increasing the rate of growth within the lower income housing segments, may dramatically change the current landscape in a short period of time. A number of factors point to continued expansion and opportunity in the medium to long-term.

Despite the current outlook for growth in Brazil, the overall macroeconomic picture remains positive, as a young and growing population with greater access to the labor market is enjoying newfound purchasing power that has spurred greater demand for housing at virtually every income level. Because demand for housing went un-met for many years, an estimated housing deficit of 7.2 million homes remains, even after the recent exponential growth of the sector. Fortunately, a significant improvement in financing terms with respect to both rates and tenors and generally greater access to financing for both homebuilders and homebuyers suggest an environment in which housing supply will continue to increase. Private sector financing options available to homebuilders have expanded significantly and in October and December, we saw two major public sector measures in support of broader access to housing that demonstrated the government's firm commitment to the Brazilian homebuyer.

We expect the government to shortly announce further stimulus measures, including a raising of the maximum value of units eligible for official financing programs from R\$350,000 to R\$500,000 and the creation of a guarantee fund that reduces the default risk of lower income homebuyers. Gafisa, through its Tenda subsidiary, is well-placed to benefit from these changes as we not only have the lowest price points in the industry, but offer an array of products that fit into the expanded values eligible for financing through this program.

I am pleased to say that Gafisa continues to count on a strong financial reputation because of its historically conservative approach to its business and commitment to transparency. The Company's implementation of controls in compliance with the Sarbanes-Oxley Act and advancement in the implementation of SAP enterprise software during 2008 are just two noteworthy examples of this. We know that maintaining financial discipline and transparency are critical to the fulfillment of our strategic objectives.

It is important to note that three factors negatively impacted our fourth quarter results: cancellation of projects with a weak sales performance, restructuring costs to adjust the company to the new economic scenario and transition issues

related to the SAP implementation process.

As we move into 2009, Gafisa will further develop our well-respected brand names in new and existing markets, maximize sales of our broad product portfolio through complimentary sales channels and, leverage our expertise, positioning and key relationships in the fast-growing affordable housing market. Continuous access to high quality talent is the cornerstone of our success and we will continue to focus on training programs and internships to develop the next generation of leaders and employees of our Company.

While we are proceeding with a more conservative launch strategy with an intense focus on cash flows and returns, we are poised to capitalize on our solid financial position, fortified presence in the lower income segment, and strong market position overall.

Wilson Amaral  
CEO Gafisa S.A.

## Recent Developments

### **Tenda Consolidation Completed:**

The Tenda transaction has been completed and we now own 60% of Tenda's shares. 100% of Tenda was consolidated into Gafisa's financial statements as of October 21, 2008. Tenda will now be Gafisa's exclusive vehicle for serving the affordable and lower income level segments of the housing market.

A new management team has been appointed for Tenda, and Gafisa and Tenda have a jointly developed business plan to advance their multi-brand, multi-segment strategy. Tenda offers horizontal and vertical products for customers within the 4-10 monthly minimum wage income group, with units selling for up to R\$200,000.

### **Bairro Novo Partnership with Odebrecht Concluded:**

The partnership with Odebrecht for Bairro Novo concluded by common agreement in February 2009. The partners agreed to divide the assets in the following way: The Cotia development which launched in December 2007 will remain with Gafisa, while all other assets will remain with Odebrecht. Neither party will make any payments to the other.

### **Alphaville has Outstanding Fourth Quarter:**

Alphaville launched three successful projects in 4Q08: Barra da Tijuca (Rio de Janeiro city), with a total PSV of R\$172 million, was 90% sold in the first weekend, Votorantim (São Paulo state), with a PSV of R\$29 million, sold 71% in the quarter, and Mossoró (Northeast), with a PSV of R\$12 million, was fully sold, demonstrating that even in the midst of a general market turn-down, there remains strong demand for well-situated and well-conceived product among higher income buyers.

### **Cancellations of Gafisa and Tenda launches:**

Given the current economic scenario, the Company took a more conservative approach to the criteria for the cancellation of launches. And, in the fourth quarter certain projects which did not achieve expected sales performance were cancelled and the land returned to the land bank for redeployment at a future date or for another development. The impact on sales for the period from the sales and subsequent launches was R\$32.0 million. The launches that were cancelled had a total PSV of R\$ 241 million. Associated with the cancellations were R\$15.7 million in write-offs relating to marketing, selling, project and legal expenses which impacted the quarter's results.

### **Accounting Changes:**

Law 11,638 (Dec 28, 2007) included changes to accounting standards for all companies in Brazil, bringing them closer to IFRS. From the fourth quarter and year-end statements of 2008, the following changes were required from all homebuilders: accounts receivable and accounts payable are to be discounted at present value; expensing of stock option plan; expensing of sales stand costs in up to one year and the establishment of a provision for warranty (technical assistance).

### **Ratings Changes:**

In February 2009, Moody's affirmed Gafisa's Ba2 local currency corporate family rating, but changed the outlook to negative from stable. Gafisa's national rating was downgraded to A1.br from Aa3.br, primarily due to the use of

R\$230 million in cash to capitalize Tenda, in addition to market conditions.

In January Fitch downgraded all Brazilian real estate companies due to market conditions, Gafisa's local rating went from A (bra) to A-(bra).

**Management Systems and Compliance:**

SAP system implemented in Gafisa and AUSA. The next phase will include implementation of managerial reports and improvements. We are under a certification process for Sarbanes Oxley, which should complete in the first half of the year.

### Impacts from new accounting rules

Law 11,638, CVM Instruction 561 and related rules included changes to accounting standards for all companies in Brazil, bringing them closer to IFRS. The table below details the impact of those changes in our 2008 financial statements:

An important impact from the new accounting rules is the introduction of accounting for stock option plans. We recognized R\$26.1 million in 2008 and R\$17.8 million in 2007 of non-cash compensation expenses related to our stock option plans.

Fair value of the stock option is calculated at the grant date and allocated to results over the vesting period of the options, and does not reflect changes in fair value after the grant date. On December 31, 2008 the strike prices of the 2008 and 2007 plans were R\$33.93 and R\$39.95, respectively, while the stock's market price was R\$10.49.

## Extraordinary Adjustments

Three factors negatively impacted our fourth quarter results: cancellation of projects with a weak sales performance, restructuring costs to adjust the company to the new economic scenario and difficulties with the SAP implementation process which should have been diluted during the whole year.

## Launches

Potential sales value launched decreased 28% to R\$747 million in 4Q08, with 20% of launches in new markets outside of the states of São Paulo and Rio de Janeiro. The Gafisa segment accounted for 57% of launches in 4Q08. During 2008, PSV of launches was R\$4.2 billion, an increase of 88%. This increase is primarily because of the addition of Tenda's launches in 2008. In 2008, Gafisa made 46% of the launches, Tenda 46% and Alphaville 7%.

The tables below detail new projects launched in the fourth quarters and the years of 2007 and 2008. We assume 12 months of Tenda in 2008:

## Pre-Sales

Pre-sales contracts in the quarter decreased 8% to R\$607 million as compared to the fourth quarter of 2007 and reached 79% of new launches. In 2008 sales reached R\$2.6 billion, an increase of 58% over R\$1.6 billion in 2007. This increase was substantially obtained from the consolidation of 12 months of Tenda's pre-sales.

Tenda's sales cancellations in the 4Q08 were all against the provision constituted in the 3Q08, therefore Tenda's sales cancellations did not impact earnings in 4Q08 and Gafisa's consolidated 2008 earnings.

The tables below set forth a breakdown of sales for the fourth quarters and the years of 2008 and 2007:

**Cancellations (of Launches)**

In order to deal with the current economic climate and conserve cash, we have carefully analyzed launches with sales performance below our expectation in the fourth quarter and cancelled those that did not meet our criteria for a total PSV of R\$ 241 million. The impact on sales for the period from the sales and subsequent cancellations was R\$ 32.0 million. There were R\$15.7 million in write-offs of marketing, selling, project and legal expenses associated with the cancellations, impacting the quarter's results.

**Sales Velocity**

Sales velocity during the fourth quarter of 2008 was 17.5% for Gafisa and Alphaville combined. Alphaville showed the highest speed at 33.2% with three successful launches while Gafisa maintained the same level as last quarter. Sales velocity is calculated as follows:

4Q08 Pre-Sales

Inventory End 3Q08 - Cancellations + 4Q08 Launches

**4Q08 Sales Velocity**

	3Q08 Inventory (a)	4Q08 Launches (b)	Cancellations (c)	(a)+(b)-(c)	4Q08 Pre-Sales	VSO

Tenda's sales velocity is not comparable because Tenda's inventory includes phased developments which open for sale according to demand. There is no construction obligation for the portions of Tenda's inventory not open for sale. In addition, in 4Q08 Tenda was impacted by the cancellations made according to the company's new delinquency policy.

## Completed Projects

Throughout this year, Gafisa, Alphaville and Tenda completed 90 projects, with 8,206 units, worth R\$1.2 billion. The tables below list our products completed during 2008:

## Land Reserves

Our land bank reached approximately R\$17.8 billion, composed of 247 sites in 22 states, equivalent to 115 thousand units. This ensures our ability to continue to grow launches and sales over the near term.

72% of our land bank was acquired through swaps, in those cases we do not pay any cash for the right to use the land in the future. In a financial swap, we pay the landowner a portion of the revenue stream of the project. In a product swap, we only pay the landowner with completed units at the end of the project.

The table below shows a detailed breakdown of our current land bank:

<sup>(1)</sup> % Swap refers to the swap portion over total land costs.

#### **4Q08 and 2008 Revenues**

Net operating revenues for 4Q08 rose 64% to R\$624.2 million from R\$380.8 million in 4Q07, with revenues for the year of 2008 reaching R\$1.74 billion, up 45% from R\$1.2 billion in 2007. We started to consolidate Tenda's results from October 21<sup>st</sup> 2008.

Revenues for the industry are recognized based on actual cost versus total budgeted costs of land and construction (Percentage of Completion method or PoC method) and the pre-sales portfolio is recognized in future periods even if the company has already completely pre-sold developments.

#### **4Q08 and 2008 Gross Profits**

Gross profits for 4Q08 totaled R\$148.6 million (R\$124.6 Million for 4Q07), an increase of 19%, reflecting continued robust demand for Gafisa properties in all market segments and geographies. Gross margin for 4Q08 was 23.8%, 895 basis points lower than 4Q07. Excluding the impact of a law enacted in Brazil to bring local accounting standards closer to IFRS and special charges related to cancellations and the SAP implementation, gross profit for the 4<sup>th</sup> quarter would have been R\$ 182.2 million and gross margin would have been 31.0% .

For the full year 2008, gross profits totaled R\$ 526.0 million (R\$336.3 million for 2007), an increase of 56% and gross margin increased 230 basis points to 30.2% . Excluding the impact of the aforementioned Law 11,638 and special charges related to cancellations, 2008 gross profit would have been R\$ 544.2 million and gross margin would have been 31.3%

**4Q08 Selling, General, and Administrative Expenses (SG&A)**

SG&A expenses totaled R\$139.9 million in 4Q08 (R\$72.7 million for 4Q07), an increase of 92%. In the year 2008, SG&A expenses totaled R\$335.0 million (R\$200.7 million for 2007), an increase of 67%.

If we exclude the impact of special charges related to cancellations and restructuring, SG&A margin would be lower by 1%, reaching 18.2%. In addition, SG&A expenses were impacted by stock options (R\$25 million in 2008 and R\$17 million in 2007), a non-cash expense.

	4T08	4T07	2008	2007
Selling Expenses (R\$ MM)	63.6	28.7	154.4	69.8
G&A Expenses (R\$ MM)	76.3	44.0	180.6	130.9
SG&A Expenses (R\$ MM)	139.9	72.7	335.0	200.7
Selling Expenses / Revenues	10.2%	7.5%	8.9%	5.8%
G&A Expenses / Revenues	12.2%	11.6%	10.4%	10.9%
SG&A / Revenues	22.4%	19.1%	19.2%	16.7%
Revenues R\$MM	624.2	380.8	1,740.4	1,204.3

We can not compare SG&A with Launches and Revenues because expenses do not include 12 months of Tenda's operations.

**Other Operating Results**

The incorporation of our subsidiary Fit into Tenda on October 21, 2008 generated a gain of R\$210.4 million, to be amortized over the construction of Fit developments at the time of the incorporation. Our results show a positive impact of R\$41.0 million in 4Q08.

**4Q08 EBITDA**

EBITDA for the fourth quarter totaled R\$33.6 million, 32% lower than the R\$49.7 million EBITDA in 4Q07. As a percentage of net revenues, EBITDA decreased from 13.0% in 4Q07 to 5.4% in 4Q08, a margin decrease of 759 basis points. EBITDA for the fourth quarter, excluding the impact of a new law in Brazil to bring local standards closer to IFRS and special charges of R\$55.3 million from cancellation of launches, restructuring costs, and transition issues related to the SAP installation, would have been R\$ 91.2 million (15.5% EBITDA margin).

For the full year of 2008, EBITDA totaled R\$220.8 million with a margin of 12.7%. 2008 EBITDA was 61% higher than the R\$137.4 million EBITDA of 2007. EBITDA for the full year, excluding the impact of a new law in Brazil to bring local standards closer to IFRS and special charges of R\$29.73 million from cancellation of launches and restructuring costs, would have been R\$ 261.0 million (15.0% EBITDA margin).

#### 4Q08 Depreciation and Amortization

Depreciation and amortization in 2008 amounted to R\$52.6 million, compared to the R\$38.7 million in 2007. These numbers were impacted by the depreciation of sales stands as required by Law 11638.

With regards to the amortization of the goodwill generated from the AlphaVille acquisition, we used a linear calculation for the 1Q07 and 2Q07 results, and, due to a change in amortization method, in 3Q07 and 4Q07 amortization was equal to zero. From 2008, we will amortize this goodwill through a progressive exponential calculation following the EBIT, in the percentages described below:

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
4.49%	6.28%	7.22%	10.11%	11.52%	14.02%	11.78%	11.67%	11.45%	11.46%

Amortization of the acquisition of AlphaVille amounted to R\$3.8 million in 4Q08 for a total of R\$10.7 million in 2008.

#### 4Q08 Financial Results

Net financial results totaled a positive R\$41.8 million in 2008 compared to a positive R\$28.6 million in 2007, mainly due to interest received on cash balances. Financial results for the fourth quarter totaled positive R\$ 1.5 million, 95.3% lower than the R\$32.8 million in 4Q07 due to the increase in net debt.

#### 4Q08 Minority Interest

Minority interest in 2008 was R\$56.7 million versus R\$6.1 million in 2007, an 838% increase, primarily due to the obligation to investors and the Tenda transaction. Minority interest comes from Tenda (R\$ 10.5 million), Alphaville (R\$ 14.1 million) and Obligation to Investors (R\$ 32.2 million). Minority interest for the fourth quarter totaled R\$23.3 million, compared to R\$1.6 million in 4Q07.

#### 4Q08 Income Taxes

Net income taxes and social contribution for 2008 amounted to R\$43.4 million versus R\$ 30.4 million in 2007, a 43% increase because in 2008 we started to recognize deferred income tax over the amortization of negative goodwill of investments. In addition we recorded a deferred income tax on the gain over the partial sale of investments.

Net income taxes and social contribution for 4Q08 amounted to positive R\$8.2 million versus negative R\$22.8 million in 4Q07.

#### 4Q08 Net Income and Earnings per Share

4Q08 showed a net loss of R\$12.6 million (2.0% of net revenues), compared to a profit of R\$49.5 million in 4Q07 (13.0% margin). Net income for the fourth quarter of 2008, excluding the impact of a law enacted in Brazil to bring local accounting standards closer to IFRS and special charges related to cancellations, restructuring and the SAP implementation, would have been R\$ 56.9 million (9.7% net margin) or R\$ 0.44 per share for the fourth quarter of 2008.

The net loss per share was R\$0.10 in 4Q08 compared to net income per share of R\$0.40 in 4Q07. The average number of shares outstanding were 129,962,546 during 4Q08 compared to 129,281,029 during 4Q07. Shares outstanding were 129,962,546 on December 31, 2008.

Net income in 2008 was R\$109.9 million (6.3% of net revenues), compared to R\$91.6 million in 4Q07 (7.6% net margin), an increase of 20%. Earnings per share in 2008 were R\$0.85. Average number of shares in 2008 was 129,683,974. Excluding the impact of the aforementioned Law 11,638 and special charges related to cancellations and restructuring, net income for full year 2008 would have been R\$ 171.3 million (9.9% net margin) or R\$1.31 per share.

## Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method reached R\$1,015 million in 4Q08, R\$486 million higher than 4Q07 and R\$304 million more than 3Q08. The table below shows our revenues, costs and results to be recognized, as well as the amount of the corresponding costs and the expected margin. Backlog margin does not reflect Law 11638 adjustment to net present value.

## Balance Sheet

### Cash and Cash Equivalents

On December 31, 2008, cash and cash equivalents decreased to R\$606 million, 23.4% lower than R\$790 million on September 30, 2008, and 17.0% higher than 2007's R\$517 million. The decrease from 3Q08 was caused by operations and the Tenda transaction.

### Accounts Receivable

Accounts receivable increased 143% to R\$5.7 billion in December 2008, compared to R\$2.3 billion in 4Q07, and 60% compared to R\$3.5 billion in 3Q08.

## Liquidity

On December 31, 2008, Gafisa had a cash position of R\$606 million and over R\$300 million of receivables of completed units available for securitization. On the same date, Gafisa's debt and obligations to investors totaled R\$1,852 million and net debt and obligation to investors was R\$1,247 million.

We have a total of R\$3,401 billion in construction finance lines of credit provided by all of the major banks in Brazil. At this time we have R\$1.699 billion in signed contracts and R\$751 million in contracts in process, giving us additional availability of R\$ 951 million.

We do not have exposure to foreign currency through financial instruments. We have R\$200 million of debt raised by banks in foreign currency, which were swaped into CDI.

At the end of 2008, our net debt and obligation to investors to equity ratio was 77.3% compared to 52.5% in 3Q08. This increase was caused by the Tenda transaction and operations.

The following table sets forth information on our indebtedness.

## Outlook

Given the current economic situation and the continued disruption in the credit markets, visibility on overall growth in the industry is limited. Despite these factors, we are optimistic that government actions including the additional R\$3 billion in FGTS funds designated for financing within the construction industry, the stimulus program aimed at building one million houses by 2010, and the lowering of the Selic interest rate by the Central Bank will result in the increased availability of funds to support the growth of homebuilding. However, without all of the elements currently in place, we are not providing guidance in the short term. In 2009, we will continue to be very selective with our launches, conserve cash and increase our sales efforts towards our inventory.

## Glossary

**Backlog of Results** As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

**Backlog of Revenues** As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

**Backlog Margin** Equals to Backlog of results divided Backlog of Revenues to be recognized in future periods.

**Land Bank** Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our board of directors.

**PoC Method** Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using percentage-of-completion ( PoC ) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

**Pre-sales** Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

**HIG (High Income)** segment with residential units sold at minimum price of R\$3,600 per square meter.

**MHI (Mid-High)** segment with residential units sold at prices ranging from R\$2,800 to 3,600 per square meter.

**MID (Middle Income)** segment with residential units sold at prices ranging from R\$2,300 to 2,800 per square meter.

**MLOW (Mid-Low)** segment with residential units sold at prices ranging from R\$1,800 to 2,300 per square meter.

**AEL (Affordable Entry Level)** residential units targeted to the mid-low and low income segments with prices below R\$1,800 per square meter.

**LOT (Urbanized Lots)** land subdivisions, or lots, with prices ranging from R\$150 to R\$600 per square meter.

**COM (Commercial buildings)** Commercial and corporate units developed only for sale with prices ranging from R\$3,000 to R\$7,000 per square meter.

**SFH Funds** Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

**Swap Agreements** A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

**PSV** Potential Sales Value.

### **About Gafisa**

We are one of Brazil's leading diversified national homebuilders. Over the last 50 years, we have been recognized as one of the foremost professionally-managed homebuilders, having completed and sold more than 950 developments and constructed almost 40 million square meters of housing, which we believe is more than any other residential development company in Brazil. We believe Gafisa is one of the best-known brands in the real estate development market, enjoying a reputation among potential homebuyers, brokers, lenders, landowners and competitors for quality, consistency and professionalism.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
