We examined the balance sheet of BRK and its investees, as well as all other documents required for the preparation of this report, which was prepared on the basis of BRK and its investee's balancesheet for the period ended September 30, 2011 (Annex 1).

It was ascertained that the assets and liabilities of BRK and its investees have been duly accounted for.

5. NET EQUITY APPRAISAL

The experts have ascertained that the book net equity value to be split up of **BRK** to be merged into **PETROBRAS**, corresponding to current assets and portion of its ownership interest in BRASKEM, equivalent to a 24.295% (twenty four point two hundred ninety five percent) stockholding of **PETROBRAS** in **BRK**, is BRL 1,271,428,480.78 (one billion, two hundred and seventy one million, four hundred twenty eight thousand four hundred and eighty reais and seventy eight cents), as of September 30, 2011, as shown in the following table:

6. CONCLUSION

In the light of the audit performed of the previously mentioned documents and on the basis of APSIS' analyses, the experts have concluded that the split up book net equity value of BRK, to be merged into PETROBRAS, corresponding to current assets and portion of its ownership interest in BRASKEM, both, equivalent to a 24.295% (twenty four point two hundred ninety five percent) stockholding of **PETROBRAS** in **BRK**, is BRL 1,271,428,480.78 (one billion, two hundred and seventy one million, four hundred twenty eight thousand four hundred and eighty reais and seventy eight cents), as of September 30, 2011. Taking into account that the split up asset by BRK is represented by the equivalent amount of the interest ownership of PETROBRAS in BRK, the net equity value to be merged by PETROBRAS shall not result in any alteration of PETROBRAS' stock capital.
