NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

**São Paulo, August 13, 2012** – GOL Linhas Aéreas Inteligentes S.A. “GLAI”, (BM&Fbovespa: GOLL4 and NYSE: GOL), (S&P: B+, Fitch: B+, Moody’s: B3), the largest low-cost and low-fare airline in Latin America, announces today its results for the second quarter of 2012 (2Q12). All the information herein is presented in accordance with International Financial Reporting Standards (IFRS) and in Brazilian Reais (R\$), and all comparisons are with the second quarter of 2011 and first quarter of 2012 (2Q11 and 1Q12). The results are consolidated and have included 100% of Webjet’s results since October 3<sup>rd</sup>, 2011.

### Message from Management

*The Company’s second-quarter results reflect the unfavorable macroeconomic scenario for the civil aviation sector. High fuel costs, depreciation of the real against the dollar, which has a direct impact on 55% of the Company’s operating expenses, and higher costs with Brazilian aviation fees, all had a substantial effect on GOL’s results as well as on the domestic air transport industry as a whole. Accordingly, the Company revises in this quarter earnings release its financial guidance for 2012, but maintains its ex-fuel cost estimate stable despite this scenario.*

*In response to this scenario, GOL resized its route network, cutting around 130 loss-making flights, and streamlined its operational structure, workforce and fixed costs. The positive results of these measures should become apparent mainly on the second half of 2012. In addition, a joint operation with Webjet, a highly efficient airline operationally and with the same DNA as GOL, constitute an opportunity for further developing even more a competitive advantage conferred by the Company’s costs. In 2Q12, R\$25 million in operational synergies between the two airlines were identified, especially regarding costs with aircraft maintenance, fuel and improvements to the sales channel through an interline agreement between the two firms. All in all, the Company has captured operational synergy gains of around R\$48 million since joint operations began.*

*GOL continues to prioritize safe passenger transportation through its young and modern fleet, in addition to being a benchmark for aircraft maintenance. It also remains focused on providing excellent service, thereby ensuring a pleasant flying experience and the satisfaction of its customers. In 2Q12, Webjet and GOL further enhanced this feeling of satisfaction by coming as first and second, respectively, in the domestic industry punctuality rankings for the second consecutive quarter. Convenience is another Company priority. Around five million of Webjet’s and GOL’s passengers enjoyed the convenience of remote check-in during the quarter.*

*The Company also maintained a solid financial and cash position, enabling it to overcome a challenging macroeconomic scenario, having closed 2Q12 with total cash of around R\$1.9 billion.*

*The quarter's internal changes were designed to ensure the continuity and development of a sustainable long-term strategy. The downsizing of the route network will ensure that GOL adapts to the new domestic market growth parameters and the structural adjustments will lead to a simpler and more streamlined operation. Management remains confident in opportunities in Brazil's aviation market, one of the most under-penetrated in the world, and believes in the resilience and sustainable growth of national economy for the coming years.*

*GOL wishes to thank its Team of Eagles for their hard work, motivation and commitment to helping GOL remain the best company to travel with, work for and invest in.*

### SUPPLY (ASK)

**Supply on GOL's pro-forma domestic route network** fell by 2.2% over 2Q11, chiefly due to the flight rationalization strategy adopted by the Company as of March 2012. **GOL and Webjet jointly offer around 970 daily flights, close to the figure in 2Q11, when GOL did not have Webjet as a VRG subsidiary.**

## NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The reduction in its operational structure reinforces GOL's commitment to ensuring a sustainable aviation market in the long term and resuming positive operating margins in the short term, despite the challenging economic scenario due to exchange rate and fuel price volatility.

In the same period, **international supply moved up by 1.6%**, chiefly due to the period increase in charter flights, especially to Orlando and Bariloche.

**DEMAND (RPK) and LOAD FACTOR**

**GOL's demand moved up by approximately 1.6%**, chiefly due to the modest growth of Brazil's economy in the first half of 2012, which, combined with the 1.9% period decline in ASK, increased the load factor by 2.4 p.p. This result reflects the Company's efforts to rationalize a market that had been growing in an unsustainable manner and underlines the Company's long-term strategy.

**FLEET**

The Company closed the second quarter with a total fleet of 124 B737-700 and 800 NG aircraft with an average age of 7.3 years, plus 23 B737-300s, with an average age of 20.0 years. In 2Q12, the Company took delivery of one aircraft under an operational leasing contract and returned two aircraft under operational leasing, including one of Webjet's 737-300s. By the end of the quarter, there were three 767 aircraft as non-operational.

The Company leases its fleet through a combination of financial and operational leases. Out of the total of 150 aircraft, 99 were under operational leases, 45 were under financial leases, and six are owned by the Company. GOL has purchase options on 39 of the 45 aircraft when their leasing contracts terminate. **In 2012, the Company expects a decline of more than 2% in the two companies' combined seat supply over 2011.**

The GOL unit closed the quarter with 124 operational aircraft (excluding the three Boeing 767-300s), 111 of which were actively flying in the period (versus an average of 109 in 2Q11). The Webjet unit ended the period with 30 operational aircraft, 20 of which actively flying, as shown in the table on page 5.

(2) Two of the three Boeing 767s are in the final stage of transfer to Delta Air Lines and the other is non-operational. The expenses related to transferring the two Boeing 767-300s are being 100% reimbursed by Delta.

(3) At the close of 2Q11, GOL had six non-operational aircraft: three B737-300s and three B737-800s subleased

(4) At the close of 2Q12, Webjet had three aircraft undergoing pre-devolution maintenance – the aircraft were returned in August

On June 30, 2012, the Company had 90 firm orders, 10 purchase rights and an additional 40 purchase options with Boeing. The approximate amount of the firm orders, excluding contractual discounts, is R\$16.8bn, to be paid in accordance with the following schedule.

In addition to the above-mentioned obligations, the Company will pay R\$1.8bn as advances on aircraft acquisitions in the above periods.

## FUTURE FLEET PLAN

The table below presents the consolidated fleet plan revised by the Company, including demand from GOL and Webjet. The plan also includes early returns of Webjet's Boeing 737-300s and their replacement by Boeing 737-700/800 NGs, in accordance with the aircraft purchase order signed by GOL and Boeing.

The following table shows the Company's current situation and expectations regarding negotiations with the lessors of Webjet's Boeing 737-300s and is therefore subject to possible alterations as these negotiations proceed.

<i>Boeing 737-700 NG</i>	43	39	32	32

<b>Total Fleet</b>	<b>150</b>	<b>138</b>	<b>136</b>	<b>140</b>

(1) Part of the total fleet, but not part of the operational fleet.

With the replacement of Boeing 737-300s by Boeing 737-800s, the Company will increase its average seating per aircraft, enhancing the flexibility of its operating capacity and improving aircraft efficiency in terms of fuel consumption.

## CAPEX

GOL invested around R\$164.3mn in 2Q12, 49% of which in the acquisition of aircraft for delivery between 2012 and 2014 (pre-delivery deposits); around 49% in the purchase of aircraft parts and 49% in aircraft reconfigurations and improvements; and around 2% in bases, IT and the expansion of the maintenance center in Confins, Minas Gerais (construction of the Wheel and Break Workshop).

## 2012 GUIDANCE

Due to the impact of an adverse macroeconomic scenario, GOL may revise its guidance on a quarterly basis to incorporate any developments in its operating and financial performance, as well as any changes in interest, FX, GDP and WTI and Brent trends. The estimates below refer to GOL's and Webjet's consolidated figures.

The Company revises its 2012 guidance in this quarter earnings release due to the worsening macroeconomic scenario, exemplified by: (i) the new exchange rate level, which had a direct impact on around 55% of the Company's costs, including jet fuel, maintenance, aircraft operational leasing, fleet insurance and costs from GOL's international operations; (ii) the domestic aviation industry's altered growth prospects due to the slowdown in Brazil's economy; and (iii) the adjustment of supply to the new scenario.

\*Given extreme volatility and the economic deterioration, together with the negative operating performance in the first half of 2012, this year's operating margin (EBIT) will be negative. Assuming the current economic assumptions do not change, GOL expects the second half to be better than the first, thanks to: (i) the adjustment measures adopted by the Company in the first half; (ii) the improved domestic economic scenario; (iii) lower economic volatility; and (iv) higher reduction in domestic supply, that may reach a 4.5% decrease compared to 2011.

The Company's quarterly figures reflect substantial and variable seasonality, jeopardizing comparisons with estimates for the entire fiscal year. The Company compares estimated with actual results after disclosing its financial statements for the full year. ## 1. General Information

Gol Linhas Aéreas Inteligentes S.A. (“Company” or “GLAI”) is a publicly-listed company incorporated in accordance with Brazilian Corporate Laws, organized on March 12, 2004. The Company is engaged in, controlling of its wholly-owned subsidiary VRG Linhas Aéreas S.A. (“VRG”), and through its subsidiaries or affiliates, essentially exploring: (i) regular and non-regular air transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; (ii) additional passenger air chartering services.

Additionally, GLAI is the direct parent company of the subsidiaries GAC Inc (“GAC”), Gol Finance (“Finance”), and indirect parent company of the subsidiaries SKY Finance II (“SKY II”) and Webjet Linhas Aéreas S.A. (“Webjet”).

GAC was established on March 23, 2006, according to the laws of the Cayman Islands, and its activities are related to the aircraft acquisition for its single shareholder GLAI, which provides financial support for its operating activities and settlement of obligations. GAC is the parent company of SKY II, established on November 30, 2009, located in the Cayman Islands, whose activity is related to obtaining funds to finance aircraft acquisition.

Finance was established on March 16, 2006, according to the of laws the Cayman Islands, and its activity is related to obtaining funds for aircraft acquisition.

On April 9, 2007, the Company acquired VRG, a low-cost and low-fare airline company, which operates domestic and international flights using GOL and VARIG brands, and provides regular and non-regular air transportation services from/to the main destinations in Brazil, South America and the Caribbean.

On February 28, 2011, the subsidiary VRG constituted a Participation Account Company (“SCP BOB”) engaged in developing and operating on-board sales of food and beverages in domestic flights. VRG has shared participation of 50% of this company, which started to operate in September, 2011.

On October 3, 2011, VRG subsidiary acquired the entire share capital of Webjet Linhas Aéreas S.A. ("Webjet"), a airline headquartered in the city of Rio de Janeiro, which provides scheduled passenger air chartering services in Brazil.

On October 27, 2011, CADE, the subsidiary VRG and Webjet entered into a Transaction Reversibility Preservation Agreement ("APRO"), concerning the acquisition of 100% (one hundred percent) of the capital of Webjet, whereby the reversibility of the transaction and preservation of assets is assured until a final decision is reached by the governmental agency. The agreement ensures the independence in the management of both companies, including with respect to the Company's frequent flyer program ("Smiles"). Without reducing Webjet's capacity, the agreement provides for the sharing of flights between the companies with the aim of optimizing the route network and offer more options to customers.

On April 28, 2012, the subsidiary VRG constituted a participation account company ("SCP Trip") in order to develop, produce and explore the "Gol Magazine", distributed free on flights of the Company. The shared participation of VRG is equivalent to 60% of the SCP.

The Company's shares are traded on the New York Stock Exchange (NYSE) and on the Sao Paulo Stock Exchange-BOVESPA. The Company has entered into an Agreement for Adoption of Level 2 Differentiated Corporate Governance Practices with the Sao Paulo Stock Exchange-BOVESPA, and is included in the Special Corporate Governance Stock Index (IGC) and the Special Tag Along Stock Index (ITAG), which were created to identify companies committed to adopt differentiated corporate governance practices.

**2. Approval and summary of significant accounting policies applied in preparing the Interim Financial Information- ITR.**

The approval and authorization of these Interim Financial Information occurred at the Board of Directors' meeting held on August 13, 2012. The Company's registered office is located at Rua Tamoios, 246, Jardim Aeroporto, Sao Paulo, Brazil.

**2.1 Basis of preparation**

The consolidated Interim Financial Information- ITR was prepared for the three and/or six months period ended on June 30, 2012 in accordance with International Accounting Standards (IAS) no. 34, related to consolidated interim financial statements, as issued by the International Accounting Standards Board (IASB) and technical pronouncement CPC 21 – *Demonstração Intermediária* (Interim Financial Reporting).

IAS 34 requires the use of certain accounting estimates by the Company Management. The consolidated interim financial information- ITR were prepared based on historical cost, except for certain financial assets and liabilities, which are measured at fair value.

The Individual Interim Financial Information- ITR of the parent company was prepared in accordance with the accounting practices adapted in Brazil, CPC 21 which deals with the Interim Finance Information.

The individual interim financial information prepared for statutory purposes, presents the valuation of investments in subsidiaries by the equity method, according to Brazilian legislation. Thus, these individual financial statements are not in accordance with IFRSs, which require the evaluation of these investments in separate financial statements of the

parent at fair value or cost.

These Interim Financial Information-ITR individual and consolidated do not include all the information and disclosure items required in the individual and consolidated annual financial statements therefore, they must be read together with the individual and consolidated financial statements for the year ended December 31, 2011, filed on March 26, 2012, which were prepared according to the accounting practices, as described above. There were no changes in accounting practices adopted on December 31,2011 to June 30,2012.

The Company has chosen to present these individual and consolidated interim financial information in one single set, side by side, because there is no difference between the individual and consolidated shareholders' equity and net income (loss).

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

(1) ICMS: State tax on sales of goods and services.

(2) IRPJ: Brazilian federal income tax on taxable income.

CSLL: social contribution on taxable income, created to sponsor social programs and funds.

(3) IRRF: withholding income tax levied on certain domestic transactions, such as payment of fees to some service providers, payment of salaries, and financial income from bank investments.

(4) PIS/COFINS: Contributions to Social Integration Program (PIS) and Contribution for the Financing of Social Security (COFINS)

(5) IVA: Value added tax on sales of goods and services abroad.

The Company and its direct subsidiary VRG and indirect subsidiary Webjet have tax losses and negative basis of social contribution on calculation of taxable income, to be offset against 30% of annual taxable income, which can be carried forward indefinitely, in the following amounts:

	<b>Individual (GLAI)</b>		<b>Direct (VRG) and indirect subsidiary (Webjet)</b>	
	<b>06/30/2012</b>	<b>12/31/2011</b>	<b>06/30/2012</b>	<b>12/31/2011</b>

Negative basis of social contribution	253,190	258,268	2,326,313	1,887,267

The tax credits arising from tax loss carryforwards and negative basis of social contribution were recorded based on the expected generation of future taxable income of the Company and its subsidiaries, as prescribed by tax laws.

## NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

Projected future taxable income for the utilization of tax loss carryforwards and negative basis of social contribution, technically prepared and supported based on business plans and approved by the Board of Directors, indicates the existence of sufficient taxable income for the realization of the recognized deferred tax assets.

The Company and its subsidiaries have a total tax credits in the amount of R\$877,031, which R\$86,085 are from GLAI and R\$790,946 are from its subsidiaries VRG and Webjet, and recognized an allowance for loss of R\$297,811 (R\$42,767 from GLAI and R\$255,044 from its subsidiaries VRG and Webjet), for credits that have no perspective of realization in the near future.

Management considers that the deferred tax assets arising from temporary differences will be realized proportionally to the realization of provisions and final outcome of future events.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The Company and its subsidiaries VRG and Webjet made deposits in US dollars for maintenance of aircraft and engines that will be used in future events as set forth in some finance lease contracts.

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

Based on the regular analysis of deposit recovery, management believes that the amounts reported in the consolidated balance sheet are recoverable and there are no indications of impairment of maintenance deposits, whose balances as of June 30, 2012 classified in current and noncurrent assets amount to R\$34,987 and R\$334,347, respectively (R\$35,082 and R\$323,062 in current and noncurrent assets as of December 31, 2011, respectively).

Deposits in guarantee for lease agreements

As required by the lease agreements, the Company and its subsidiaries hold guarantee deposits in US dollars on behalf of the leasing companies, whose fully refund occurs upon the contract expiration date. As of June 30, 2012, the balance of guarantee deposits for lease agreements, classified in noncurrent assets, is R\$92,709 (R\$96,983 as of December 31, 2011).

Escrow deposits

Escrow deposits represent guarantees in legal proceedings related to tax, civil and labor claims, deposited in escrow until the resolution of the related claims, paid at *SELIC* rate. The balances of escrow deposits as of June 30, 2012, recorded in noncurrent assets totaled R\$212,130 (R\$175,472 as of December 31, 2011).

Graphic, consulting and transportation services

The subsidiary VRG holds contract with the related party *Breda Transportes e Serviços S.A.* for passenger and luggage transportation services between airports, and transportation of employees, expiring on May 31, 2013, renewable every 12 months for additional equal terms through an amendment instrument signed by the parties, annually adjusted based on the IGP-M fluctuation (General Market Price Index) .

The subsidiary VRG also holds contracts with the related parties *Expresso União Ltda.* and *Serviços Gráficos Ltda.*, for employee transportation and graphic services, expiring on September 16, 2012 and July 18, 2012, respectively.

The subsidiary VRG also holds contracts for the operation of the *Gollog* franchise through the related party *União Transporte de Encomendas e Comércio de Veículos Ltda.*, expiring on December 29, 2015.

The subsidiary VRG also holds contracts with the related party *Vaud Participações S.A.* to provide executive administration and management services, with two year term beginning on October 2010.

During the period ended June 30, 2012, VRG recognized total expenses related to these services of R\$5,299 (R\$5,087 as of June 30, 2011). All the entities referred above belong to the same economic group.

Property lease

VRG is the lessee of the property located at Rua Tamoios, 246, São Paulo, SP, owned by *Patrimony Administradora de Bens*, controlled by *Comporte Participações S.A.*, a company owned by the same shareholder of the Company, whose contract expires annually on April 4, 2012, extended by conditions set up in August 2012. The contract includes an annual adjustment clause, based on the IGP-M. During the period ended June 30, 2012 VRG recognized total expenses related to this lease of R\$246 (R\$317 as of June 30, 2011).

Contracts Account Opening UATP (Universal Air Transportation Plan) to Grant Credit Limit

On September 2011, subsidiary VRG entered into agreements with related parties *Pássaro Azul Taxi Aéreo Ltda.* e *Viação Piracicabana Ltda.* The purpose of the agreement is the issuance of UATP (Universal Air Transportation Plan) accounts. VRG issued credits to related parties in the amounts of R\$20 and R\$40, respectively, to be used in the UATP system. Such system can be used to pay domestic and international air services to all members. VRG uses the UATP system, which is operated and maintained by the international air sector, and seeks to simplify billing and facilitate the payment of air travels and other related services.

Financing contract for engine maintenance

On June 29, 2012, the Company through its subsidiary VRG, issued the first series of Guaranteed Notes ("Guaranteed Notes") in funding for engine maintenance. The funding will be within two years due in June 29, 2014 and aims to

support the maintenance of engines, reviewed by the maintenance division of Delta Air Lines (see details in note 17). On June 30, 2012 spending on engine maintenance workshop conducted with Delta Air Lines were R\$56,837.

Share-based payments

The Company's Board of Directors within the scope of its functions and in conformity with the Company's Stock Option Plan, approved the grant of preferred stock options to the Company's management and key senior executive officers. For grants through 2009, the options vest at a rate of 20% per year, and can be exercised within up to 10 years after the grant date.

Due to changes in the Company's Stock Option Plan, approved at the Annual Shareholders' Meeting held on April 30, 2010, for plans granted beginning 2010, 20% of the options become vested as from the first year, an additional 30% as from the second, and the remaining 50% as from the third year. The options under these plans may also be exercised within 10 years after the grant date.

The fair value of stock options was estimated on the grant date using the Black-Scholes option pricing model.

The date of the Board of Directors' meetings and the assumptions utilized in the Black-Scholes option pricing model are as follows:

**13. Investments**

Due to the changes in Law 6404/76 introduced by Law 11,638/07, investments in foreign subsidiaries, GAC and Finance were considered as an extension of the controller GLAI and consolidated on a line by line basis, only subsidiary VRG was considered as an investment.

Changes in investments in June 30, 2012 are as follows:

Balances as of December 31, 2010	2,713,261
Equity in subsidiaries	(518,274)
Unrealized hedge losses (VRG)	(89,853)
Amortization losses, net of sale-leaseback (a)	(1,809)
<b>Balances as of December 31, 2011</b>	<b>2,103,325</b>
Equity in subsidiaries	(601,140)
Unrealized hedge gains (VRG)	29,219
Deferred gains, net of sale leaseback transaction with (a)	(906)
<b>Balances as of June 30, 2012</b>	<b>1,530,499</b>

(a) The subsidiary GAC has net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of June 30, 2012, the net balance to be deferred of R\$29,779 (R\$30,685 for the year ended December 31, 2011) is basically a part of the parent's net investment in the VRG. See explanatory note N°. 27 b.

The subsidiary VRG's shares are not traded on stock exchanges. The relevant information on VRG is summarized below:

	<b>Total number of shares</b>	<b>Interest - %</b>	<b>Capital</b>	<b>Shareholders' equity (b)</b>	<b>Net income (loss)</b>
12/31/11	3,002,248,156	100%	2,294,191	2,072,640	(518,274)
<b>06/30/12</b>	<b>3,002,248,156</b>	<b>100%</b>	<b>2,294,191</b>	<b>1,500,720</b>	<b>(601,140)</b>

(b) The difference between the balance of investment and equity participation in VRG corresponds to the net effect of R\$29,779 from sale leaseback, mentioned above under (a)

#### **14. Earnings or Loss per Share**

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Rather, preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to common shareholders. Therefore, the Company understands that, substantially, there is no difference between preferred shares and common shares, and, accordingly, basic and diluted earnings or loss per share are calculated equally for both shares.

## NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

Consequently, basic earnings or loss per share are computed by dividing income or losses by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury stock method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

Diluted earnings (loss) per share	<b>(2.682)</b>	(1.327)	<b>(2.837)</b>	(1.070)

Diluted earnings or loss per share are calculated by considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, discussed in note 12. However, due to the losses reported for the periods ended on June 30, 2012 and 2011, these instruments have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

The Company extended the maturity date of financing for some of its aircraft leased for 15 years using the SOAR framework (mechanism for extending financing amortization and repayment), which enables the performance of calculated withdrawals to be settled at the end of the lease agreement. As of June 30, 2012, the withdrawals made for the repayment at maturity date of the lease agreement amount to R\$38,160 (R\$59,552 as of December 31, 2011), are recorded in long-term debt.

### Covenants

VRG has restrictive covenants ("covenants") in its financing agreements with the following financial institutions: IFC, BNDES, *Bradesco* (Debenture V) and *Banco do Brasil* (Debentures IV e V).

The restrictive covenants measures for these loans are: (i) net debt / EBITDAR, (ii) Current Assets / Current Liabilities, (iii) EBITDA / Debt Service, (iv) Short-term Debt / EBITDA, (v) Net debt/ EBITDA and (vi) Debt Coverage Ratio (ICD).

On June 30, 2012, the Company and its subsidiaries did not reach the minimum requirements established for the financing from IFC, BNDES and the Debentures IV and V, associated with EBITDA and EBITDAR as a result of loss observed during this period.

VRG maintain with BNDES a letter of guarantee of R\$33.1 million, whose amount exceeds the current debt, and is not therefore subject to liquidity problems in case it is required to settle such debts.

VRG has not reached the minimum parameters set by the IFC, but received a specific consent of the IFC (waiver) that relieves the Company to perform the prepayment of this loan during the year 2012. Consequently, VRG has set a new expiration date to January 15, 2013.

On March 15, 2012, the Company obtained release clause of acceleration and / or application of any penalty on breach of its restrictive contractual clauses. This authorization was deliberated in General Meeting of Debenture Holders of the fourth and fifth issues of debentures for the calculation periods ended March 31, 2012 and June 30, 2012. As a result of this authorization, the company is in compliance with its obligations prescribed in the debentures' indenture, thus no need to reclassify its debt to the short term on June 30, 2012, in order to meet the Brazilian and international accounting standards.

PIS and COFINS

With the beginning of the non-cumulative regime of PIS (Law 10637/02) and COFINS calculation (Law 10833/03), the subsidiary VRG implemented those rules and challenged in the courts the rate used to calculate these taxes. The provision recorded in balance sheet as of June 30, 2012, amounting to R\$102,470 (R\$107,987 as of December 31, 2011) includes the unpaid portion, adjusted for inflation using the SELIC rate. There are escrow deposits in the amount of R\$77,972 (R\$77,539 as of December 31, 2011) to ensure the suspension of the tax collection. On January 09, 2012, the Company filed the withdrawal of that judicial lawsuit that was approved in March 2012. As of June 30, 2012, the Company is still expecting examination and authorization of the conversion of the deposits by the courts.

Provision for anticipated return of Webjet's aircraft

In 2011, according to the strategic planning of Webjet, a provision for anticipated return of aircraft was recorded. This provision was calculated based on the expected return of 14 aircraft Boeing 737-300 with operating leases contracts, as part of the Company's fleet renewal. The anticipated returns from aircraft are scheduled to occur between 2012 and 2013 and the original termination of leases are in between 2012 to 2014. In the quarter ended June 30, 2012, the Company returned of the aircraft prefix WJC.

Return of aircraft and engines

The return provision considers the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure the aircraft without purchase option, as described in return conditions of lease contracts, which the counterpart is capitalized in the fixed assets (aircraft reconfigurations/overhauling), as described in note 15.

Lawsuits

As of June 30, 2012, the Company and its subsidiaries are parties to 24,272 lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operation (those arising from the Company's normal course of operations), and Succession (those arising from the succession of former Varig S.A. obligations). Under this classification, the number of proceedings is as follows:

	<b>Operation</b>	<b>Succession</b>	<b>Total</b>
Civil lawsuits	13,946	635	<b>14,581</b>
Civil proceedings	1,766	14	<b>1,780</b>

Labor proceedings	104	2	<b>106</b>
<b>Total</b>	<b>19,980</b>	<b>4,292</b>	<b>24,272</b>

The civil lawsuits are primarily related to compensation claims generally related to flight delays, flight cancellations, baggage loss and damages. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	<b>06/30/12</b>	<b>12/31/11</b>

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of June 30, 2012 of R\$32,942 for civil claims and R\$16,919 for labor claims (R\$33,221 and R\$16,019 as of December 31, 2011 respectively), for which no provisions are recognized.

On June 30, 2012 the Company was part of three (03) labor lawsuits in France due to debts of the former Varig S.A. The amount involved in the discussions, not provisioned, is approximately R\$5,377 (corresponding to € 2.1 million).

The Company and its subsidiaries are challenging in court the ICMS levied on aircraft and engines imported under aircraft lease transactions without purchase options in transactions carried out with lessors headquartered in foreign countries. The Company's and its subsidiaries' management understands that these transactions represent simple leases in view of the contractual obligation to return the assets that are the subject matter of the contract.

Management believes there are no the evidence of goods circulation and so, there are no legal events to generate ICMS taxation. Based on the legal counsel opinion and supported by similar lawsuits with favorable decisions to taxpayers by the Superior Court of Justice (STJ) and Supreme Federal Court (STF) in the second quarter of 2007, the Company understands that the likelihood of loss is remote, and thus did not recognize provisions for these amounts. On June 30, 2012 the estimated aggregated amount of the ongoing lawsuits related to the non-levy of ICMS tax on said imports is R\$210,868 (R\$205,102 as of December 31, 2011) adjusted for inflation, not including late payment charges.

**27. Commitments**

As of June 30, 2012 the Company had with Boeing 90 firm orders, 10 purchase rights and 40 purchase options granted on non-onerous basis, for aircraft acquisition. These aircraft purchase commitments include estimates for contractual price increase during the construction phase. The approximate amount of firm orders, not including contractual discount is R\$16,839,848 corresponding to US\$8,331,197 (R\$15,780,007 on December 31, 2011, corresponding to US\$8,412,414) and are segregated according to the following periods:

The installment financed by Long-term debt, collateralized by the aircraft through the U.S. Ex-Im Bank (“Exim”) corresponds approximately to 85% of total cost of the aircraft. Other agents finance the acquisitions with equal or higher, reaching up to the limit of 100%.

The Company makes payments related to the acquisition of aircraft using its own funds, short and long term debt, cash provided by operating activities, short- and medium-term credit facilities, and supplier financing.

The Company leases its entire aircraft fleet using a combination of finance and operating leases, except for 6 aircrafts owned by its indirect subsidiary Webjet. As of June 30, 2012, the total leased fleet was comprised of 144 aircraft (127 from VRG and 17 from Webjet), which 99 were operating leases and 45 were recorded as finance leases. The Company has 39 financial aircraft with purchase option. During the six months period ended June 30, 2012, the Company received two aircrafts based on operating lease contracts. During the period one aircraft has been returned.

a) Operating leases

Future payments of non-cancelable operating lease contracts are denominated in U.S. dollars, and are as follows:

b) Sale-leaseback transactions

As of June 30, 2012, the Company recognized R\$7,564 and R\$12,149, as 'Other payables' in current and non-current liabilities, respectively (R\$7,564 and R\$15,931 as of December 31, 2011), related to gains on sale-leaseback transactions performed by its subsidiary GAC Inc. in 2006, related to eight 737-800 Next Generation aircrafts. These gains were deferred and are being amortized proportionally to the monthly payments of the related lease agreements over the contractual term of 124 months.

On the same date, the Company recorded R\$9,373 and R\$40,142, as 'Prepaid expenses', in current and non-current assets, respectively (R\$9,373 and R\$44,828 as of December 31, 2011), related to losses on sale-leaseback transactions performed by its subsidiary GAC Inc. of nine aircraft during the years of 2007, 2008 and 2009. These losses were deferred and are amortized proportionally to the payments of the operational lease agreements over the contractual term of 120 months.

Additionally, in the period ended June 30, 2012, the Company recorded a gain of R\$6,743, recognized directly in profit and loss, since gains and losses on sale-leaseback transactions would not be compensated over lease terms.

**28. Financial instruments**

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks relating to the operation. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks are mitigated by using exchange swap derivatives, U.S. dollar futures and options contracts in the oil, U.S. dollar and interest markets.

Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Financial Policy and Risk Committee, after approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses over on these transactions and the application of risk management controls are part of the Committee's monitoring and are satisfactory to the objectives proposed.

## NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(In Thousands of Reais – R\$, except when indicated otherwise)

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available on the market and according to valuation methodologies.

Most of the derivative financial instruments are contracted with the purpose of hedging against fuel and exchange rates risks provide scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite the high correlation between the hedged item and the derivative financial instruments hired, a significant portion of the transactions presents ineffective results upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the balance sheet as of June 30, 2012 and December 31, 2011 is as follows:

(c) The Company manages its investments as held for trading to pay its operational expenses.

On June 30, 2012 and December 31, 2011 the Company had no assets available for sale.

**Risks**

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least quarterly in compliance with the strategies determined in the Risk Policies Committees.

The relevant information on the main risks affecting the Company's and its subsidiaries' operations is as follows:

a) Fuel price risk

As of June 30, 2012, fuel expenses accounted for 43% of the costs and operating expenses of the Company and its subsidiaries. The aircraft fuel price fluctuates both in the short and in the long terms, in line with crude oil and oil byproduct price fluctuations.

In order to mitigate the fuel price risk, the Company and its subsidiaries contract derivatives linked mainly to crude oil and its byproducts. As of June 30, 2012, the Company used options, collar and swap agreements.

Fuel hedge transactions, classified as cash flow hedges are contracted by the counterparties rated as investment grade, or are performed on the NYMEX.

b) Exchange rate risk

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated leases and financing.

The Company's and its subsidiaries' revenues are mainly denominated in *Reais*, except for a small portion in U.S. dollars, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso, Venezuela bolivar, etc.

In order to mitigate the currency risk, the Company contracts the following currency derivatives: U.S. dollar futures and options settled on the BM&F-BOVESPA. These transactions may be performed using exclusive investment funds, as described in the Company's Risk Management Policy.

The Company's foreign exchange exposure as of June 30, 2012 and December 31, 2011 is as follows:

c) Interest rate risk

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is in lease transactions, indexed to the Libor and local debt.

In the period ended June 30, 2012, for interest rate hedges, the Company and its subsidiaries held swap transactions with counterparties rated as investment grade.

d) Credit risk

The credit risk is inherent in the Company's and its subsidiaries' operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, including bank deposits.

The trade receivable credit risk consists of amounts falling due of the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

## NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED JUNE 30, 2012

(The Individual and Consolidated Interim Financial Information as of June 30, 2012 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

As defined in the Risk Management Policy, the Company and its subsidiaries are required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are performed with counterparties rated at least as investment grade by S&P and Moody's, or they are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigates the credit risk. The Company's and its subsidiaries' Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) Liquidity risk

Liquidity risk takes on two distinct forms: market liquidity risk and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

As a way of managing the liquidity risk, the Company and its subsidiaries invest its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of June 30, 2012, the weighted average maturity of the Company's and its subsidiaries' financial assets was 19 days and of their financial liabilities was 4.5 years.

f) Capital management

The table below shows the financial leverage rate as of June 30, 2012 and December 31, 2011:

	<b>Consolidated</b>	
	<b>(IFRS and BRGAAP)</b>	
	<b>06/30/2012</b>	<b>12/31/2011</b>

The Company and its subsidiaries remain committed to maintaining high liquidity and an amortization profile without pressure in the short-term refinancing.

*Derivative financial instruments*

The derivative financial instruments were recognized in the following balance sheet line items:

The Company and its subsidiaries adopt hedge accounting and in June 30, 2012, the derivative contracted to hedge, interest rate risk and fuel price risk as "cash flow hedge", according to the parameters described in the Brazilian accounting standard CPC 38, and 40, technical guidance OCPC03 and International Accounting Standard IAS 39.

#### Classification of derivatives financial instruments

##### i) Cash flow hedges

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in shareholders' equity until the hedged revenue or expense is recognized.

The Company and its subsidiaries estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items.

The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80 % to 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from shareholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

##### ii) Derivative financial instruments not designated as hedges

The Company and its subsidiaries contracts derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity make them unfeasible, or when the change in a derivative's fair value must be recognized in profit or loss for the same period of the effects of the hedged risk.

Designation of hedged item

a) *Fuel hedge*

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives and its byproducts—West Texas Intermediate (WTI), Brent and Heating Oil—to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with jet fuel prices.

**Sensitivity analysis of derivative financial instruments**

The sensitivity analysis of financial instruments was prepared according to CVM Instruction 475/08, in order to estimate the impact on the fair value of financial instruments operated by the Company, considering three scenarios considered in the risk variable: most likely scenario, the assessment of the Company; deterioration of 25% (possible adverse scenario) in the risk variable, deterioration 50% (remote adverse scenario).

The estimates presented, since they are based on simple statistics, do not necessarily reflect the amounts to be reported in the next financial statements. The use of different methodologies and /or assumptions may have a material effect on the estimates presented.

The tables below show the sensitivity analysis for market risks and financial instruments considered relevant by management, open position as of June 30, 2012 and based on the scenarios described above.

The probable scenario is the Company's maintenance market levels and therefore the impact on fair value is null.

In the tables, positive values are displayed active exposures (assets greater than liabilities) and negative values are exposed exhibitions liabilities (liabilities greater than assets).

**REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION**

To the Board of Directors and Shareholders of

Gol Linhas Aéreas Inteligentes S.A.

São Paulo - SP

**Introduction**

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aéreas Inteligentes S.A. and its subsidiaries (the "Company"), included in the Interim Financial Information Form (ITR), for the quarter ended June 30, 2012, which comprises the statement of financial position as of June 30, 2012 and the related income statement and statement of comprehensive income for the three-month and six-month periods then ended and the statement of changes in equity and statement of cash flows for the six-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual interim financial information in accordance with CPC 21 - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of review**

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on the individual interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

### **Conclusion on the consolidated interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

### **Other matters**

#### *Interim statements of value added*

We also have reviewed the individual and consolidated interim statements of value added (“DVA”), for the six-month period ended June 30, 2012, prepared under the responsibility of Management, the presentation of which is required by the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR), and is considered as supplemental information for International Financial Reporting Standards - IFRS that do not require the presentation of DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.
