Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(All amounts in millions of Argentine Pesos, except shares and per share data and as otherwise indicated)

1. The Group's business and general information

Cresud was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group. See Note 2.2. for a description of the Group's companies.

Cresud is the ultimate parent company and is a corporation incorporated and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Financial Statements have been approved for issue by the Board of Directors on February 11, 2016.

1. The Group's business and general information (Continued)

As of December 31, 2015, the Group operates in two major lines of business: (i) agricultural business and (ii) urban properties and investments business, which is divided into two operations centers: (a) Operations Center in Argentina and (b) Operations Center in Israel. They are developed through several operating companies and the main ones are listed below (see Note 6):

- (i) Remains in current assets, as financial asset held for sale (see Note 9).
- (ii) Corresponds to Group's associates and joint ventures, which are hence excluded from consolidation.

1. The Group's business and general information (Continued)

Agricultural business

Within the agricultural business, the Group, through Cresud, engaged in the operation of crop production, cattle feeding, raising, fattening and slaughtering, milk production, sugarcane production, brokerage activities and sale of supplies. The Group currently has agricultural operations and investments in Argentina, Brazil, Uruguay, Paraguay and Bolivia.

Urban Properties and Investments

Operations Center in Argentina

The activities of the operations center in Argentina are mainly developed through IRSA and IRSA's principal subsidiary, IRSA CP. Through IRSA and IRSA CP, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, capital of Argentina, and since 2009 it entered into the United States of Americas ("USA") real estate market, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA and IRSA CP, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these Financial Statements to denote investment, development and/or trading properties activities. IRSA's shares are listed and traded on both the BCBA and the NYSE.

The activities of the Group's segment "financial operations and others" is carried out mainly through BHSA, where we have a 29.94% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small, medium-sized and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the BCBA. Additionally, the Group has a 42.99% indirect equity interest in Tarshop which main activities are credit card and loan origination transactions.

1. The Group's business and general information (Continued)

Operations Center in Israel

During the fiscal year ended June 30, 2014, the Group made an investment in the Israeli market, through DFL and DN B.V., in IDBD -an Israeli company-, with an initial interest of 26.65%. IDBD is one of the Israeli largest and most diversified conglomerates, which is involved, through its subsidiaries and other investments, in several markets and industries, including real estate, retail, agribusiness, insurance, telecommunications, etc.; controlling or equity interest in companies such as Clal (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Shufersal (supermarket), PBC (Real Estate), among others. IDBD went public in TASE since May, 2014.

On October 11, 2015, is listed gain effective control over the Israeli company IDBD (see Note 4), thus adding material assets in several industries and liabilities related to loans granted to IDBD and its subsidiaries.

Following the reduction of ETH's equity interest in IDBD to less than 26.65% in February 2015 and the completion of BMBY's process whereby Extra sold its equity interest, IDBD's creditors saw an opportunity to call for the immediate payment of financial liabilities. IDBD is negotiating with the creditors certain amendments to the covenants in their loan agreements that will be enforced during the quarter ending March 31, 2016. If IDBD fails to reach an agreement with its creditors under favorable terms, the preexisting restrictions and covenants may remain in force and may not be fulfilled under the prevailing circumstances.

As a holding company, IDBD's main sources of funds derive from the dividends distributed by its subsidiaries, which have experienced a reduction in recent years. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some subsidiaries. IDBD has projected future cash flows; however, such cash flows are not deemed sufficient to settle its liabilities and other commitments. IDBD expects to receive capital contributions from Dolphin to honor its financial commitments if so required and subject to Dolphin's acceptance. However, the Group has not undertaken to provide further financing to the subsidiary or to complete any divestiture, including the sale of ClaI. IDBD could also secure additional financing through the private or public issuance of equity securities and additional divestitures.

1. The Group's business and general information (Continued)

On December 2013, was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5774-2013 ('the Concentration Law') which has material implications for IDBD and its investments, including the disposal of the controlling interest in Clal. The shares representing the controlling interest in Clal have been deposited with a trust fund designated by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel. This Commission also set a deadline by which the sale of the controlling interest should be complete. According to the framework established by the governmental authorities, IDBD should have executed an agreement for the sale of the interest in Clal by January 7, 2016 in order for the buyer to be able to secure all required regulatory approvals by June 30, 2016. Despite the fact that IDBD had received several non-binding offers to buy its controlling interest in Clal, such offers did not succeed for reasons beyond IDBD's control, and the regulatory entity established an arrangement to complete the sale of Clal, as described in detail in Note 9. According to certain terms and covenants governing the above mentioned financial debt, there are also restrictions on the sale of material subsidiaries requiring the financial entities' approval, and the regulatory entity's requirement of selling the equity interest in Clal is also subject to IDBD's current renegotiations with its creditors.

The Group is also negotiating with IDBD's non-controlling shareholders their assumed commitments to repurchase IDBD's shares of stock at a pre-established price and within a defined term (see Note 4).

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a

going-concern.

The Group is and will continue working to address the uncertainties described above.

The Group

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of IRSA and its subsidiaries at the operations center in Argentina.

1. The Group's business and general information (Continued)

IRSA and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on IRSA since such loan has no recourse against IRSA and it is not secured by IRSA's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern, with such uncertainties being limited to the operations in Israel.

2. Summary of significant accounting policies

2.1. Basis of preparation of the Unaudited Financial Statements

The present Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2015, prepared in accordance with IFRS in force. Such information is included in notes to the Financial Statements according to IFRS. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of CNV. Such information is included in notes to the Financial Statements according to IFRS.

These Financial Statements corresponding to the six-month periods ended as of December 31, 2015 and 2014 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. Results for the six-month periods ended December 31, 2015 and 2014 do not necessarily reflect the proportion of the Group's full year results.

On October 11, 2015, the Group took over IDBD. IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina. Therefore, the Company will not be able to include IDBD's quarterly results in its financial statements as of December 31, 2015 to be filed with the CNV. The Company will consolidate IDBD's results of operations with a three-month lag, adjusted for the effects of material transactions that may have taken place during the reported period. Hence, IDBD's results of operations for the period beginning on October 11, 2015 (the acquisition date) through December 31, 2015 will be included in the Group's interim statement of comprehensive income for the nine-month period ending March 31, 2016, except for such material transactions that could have been substantially affected. The Company expects IDBD's results for subsequent periods to become available with a similar lag.

2. Summary of significant accounting policies (Continued)

IDBD's information disclosed in these financial statements is as at the takeover date, and is preliminary and subject to potential measurement adjustments, as explained in Note 4. The Group expects the business combination to be fully booked in its financial statements as of June 30, 2016.

Given the materiality of IDBD's assets and liabilities incorporated, the Group had to change the format of its financial statements for the ease of reading and analysis. Given it is a recent acquisition, the Group considers that additional modifications to the format and contents may be done to its financial statements.

2.2 Scope of consolidation

In addition to the comments in Note 2.3 a) to the annual financial statements, below are the consolidation bases that were followed to consolidate IDBD from October 11, 2015.

2. Summary of significant accounting policies (Continued)

Summarized financial information on principal subsidiaries with material non-controlling interests and other information are included in note 7.

2.3 Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements except for the new accounting policies adopted following IDBD's consolidation.

The principal accounting policies applied for the first time for the three-month period ended December 31, 2015 associated to equity balances are as follows:

2.3.1 Non-recourse loan

IDBD has a non-recourse loan, which was split into two components on the basis of an independent appraiser's report.

The commitment to transfer shares represents the main contract and was initially recognized at fair value and, later, at its depreciated cost. The derivative embedded represents a call option and is computed taking into account future payments of interest on the loan.

The main contract and the embedded derivative ("non-recourse loan ") are disclosed net in loans.

2.3.2 Irrevocable right of use of the capacity of underground communication lines

Transactions carried out to acquire an irrevocable right of use of the capacity of underground communication lines are accounted for as service contracts. The amount paid for the rights of use of the communication lines is recognized as "Prepaid expenses" under trade and other receivables, and is amortized over a straight-line basis during the period set forth in the contract (including the option term), which is the estimated useful life of such capacity.

2. Summary of significant accounting policies (Continued)

2.3.3 Inventories

Inventories are measured at the lower of cost and net realizable value.

The cost of inventory includes expenses incurred in buying and taking the inventory to its existing location and condition. The cost of inventory of mobile phones and their related accessories and spare parts is calculated on the basis of the moving average, with the cost of other inventory being calculated on a FIFO basis.

Net realizable value is the estimated selling price in the ordinary course of business less selling expenses. It is determined on an ongoing basis, taking into account the product type and aging, based on the accumulated prior experience with the useful life of the product. The Group periodically reviews the inventory and its aging and books an allowance for impairment, as necessary.

2.3.4 Property, plant and equipment

The Group, through its business of urban properties and investments in the Operations Center in Israel, holds hotels that have been reported under "Investment properties" since, unlike the hotels of the business of urban properties and investments in the Operations Center in Argentina, it does not have a significant

exposure to changes in operating cash flows of such hotels.

2.3.5 Employee benefits

Defined contribution plans

A defined contribution plan is a retirement benefit whereby IDBD makes fixed contributions to a separate entity, without the legal or implicit obligation to pay additional amounts. The Group's obligation to make contributions to defined contribution plans is recognized as expense when the obligation arises.

Defined benefit plans

IDBD's net obligation concerning defined benefit plans is calculated on an individual basis for each plan, estimating the future benefits employees have gained in exchange for their services in the current and prior periods. The benefit is disclosed at its present value, net of the fair value of the plan assets. Calculations are made on an annual basis by a qualified actuary.

2. Summary of significant accounting policies (Continued)

Other long-term employee benefits

The Group's net obligation concerning employee long-term benefits, other than retirement plans, is the amount of the future benefits employees have gained in exchange for their services in the current and prior periods. These benefits are discounted at their present values.

2.3.6 Provisions

Guarantees

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historic data of the warranties granted and all potential results are weighted against associated probabilities.

Onerous contracts

A provision for onerous contracts is recognized when the expected benefits are lower than the costs of complying with contract obligations. The provision is measured at the present value of the lower of expected cost of terminating the contract and the net expected cost of continuing the contract. Before recognizing a provision, the Group recognizes the impairment of the assets related to the mentioned contract.

2.4 Use of estimates

The preparation of financial statements at a certain date requires the Management of the Group to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Financial Statements.

In the preparation of these Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Financial Statements as described in Note 5 to those Financial Statements, save for changes in accrued income tax, provision for legal claims, provision for director's fees, allowance for doubtful accounts, accrued supplementary rental and those incorporated by the business combination with IDBD.

2. Summary of significant accounting policies (Continued)

2.5 Comparability of information

Amounts as of June 30, 2015 and December 31, 2014 which are disclosed for comparative purposes have been taken from the Consolidated Financial Statements as of such dates.

As required by IFRS 3, the information of IDBD is included in the consolidated financial statements of the Group as from the acquisition date, and the prior periods are not modified by this situation. Therefore, the financial information consolidated for periods after the acquisition is not comparative with prior periods.

During the six month periods ended December 31, 2015, the Argentine Peso devalued against the US\$ and other currencies by around 44%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income and costs of Agricultural Business and of income from Urban properties and investments business line, especially from the “office and other rental properties” segment, and our net assets and liabilities (mainly assets and liabilities of the Operations Center in Israel), in foreign currency.

Moreover, during the six month periods ended December 31, 2015, the Real Brasileño (RS) has depreciated against the Argentine Peso and other currencies by around 14%, respectively, which affects the comparability of the figures reported in the current financial statements given its negative impact on the financial position and results of operations of the Group, due mainly to the foreign exchange rate exposure to net assets and liabilities denominated in foreign currency and investments in joint ventures with a

functional currency different from the Real Brasileño.

3. Seasonal effects on operations

Some of the Group's businesses are more affected by seasonal effects than others. The operations of the Group's agricultural business are subject to seasonal effects. The harvests and sale of grains in Argentina generally take place each year since March in the case of corn and soybean, since October in the case of wheat, and since December in the case of sunflower. In Brazil, the harvest and sale of soybean take place since February, and in the case of corn weather conditions make it possible to have two seasons, therefore the harvest take place between March and July. In Bolivia, weather conditions also make it possible to have two soybean, corn and sorghum seasons and, therefore, these crops are harvested in July and May, whereas wheat is harvested in August and September, respectively. In the case of sugarcane, harvest and sale take place between April and November of each year. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

3. Seasonal effects on operations (Continued)

Within the business of urban properties and investment in the Operations Center in Argentina the operations of the shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also impact the business. As a consequence for shopping center operations, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations. In addition, respect of the business managed from the Operations Center in Israel, the operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year. The results of operations of Cellcom are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4. Acquisitions and disposals

a) Acquisition of control over IDBD

On May 7, 2014, a transaction was agreed whereby the Group, acting indirectly through Dolphin, acquired, jointly with E.T.M.B.M. Extra Holdings Ltd. (a non-related company incorporated under the laws of the State of Israel) controlled by Mordechay Ben Moshé, an aggregate number of 106.6 million common shares in

IDBD representing 53.30% of its stock capital, under the scope of the debt restructuring of IDBH with its creditors (the "Arrangement"), the IDBD's parent company.

Under the terms of the agreement entered into between Dolphin and ETH, to which Dolphin and ETH agreed to (the "Shareholders' Agreement"), Dolphin acquired a 50% interest in this investment, and ETH acquired the remaining 50%. The total initial investment amount was NIS 950 million, equivalent to approximately US\$ 272 million at the exchange rate prevailing on that date.

During year 2015 Dolphin continued investing in IDBD, therefore as of December 31, 2015, IRSA's indirect equity interest in IDBD amounted to approximately 49%.

4. Acquisitions and disposals (Continued)

On May 28, 2015, ETH launched the BMBY mechanism provided in the Shareholders' Agreement (clause which establishes that each party of the Shareholders' Agreement may offer to the counterparty to acquire (or sell, as the case may be), the shares it holds in IDBD at a fixed price). In addition, ETH further added that the purchaser thereunder had to assume all obligations of seller under the Arrangement.

In addition, on June 10 and 11, 2015, Dolphin gave notice to ETH of its intention to buy all the shares of IDBD held by ETH.

After certain aspects of the tender offer were resolved through an arbitration process brought by Dolphin and ETH in accordance with provisions on dispute resolution included in the Shareholders' Agreement, on September 24, 2015, the competent arbitrator resolved that: (i) Dolphin and IFISA (related Company to the Group) were entitled to act as buyers in the BMBY process, and ETH should sold IDBD shares held by it (92,665,925 shares) at price of NIS 1.64 per share; (ii) The buyer must fulfilled all of the commitments included in the seller's Arrangement, including the commitment to carry out Tender Offers where responsibility were borne by Dolphin; (iii) The buyer must pledged in favor of the Arrangement Trustees the shares that seller had pledged to them.

On October 11, 2015, the BMBY process concluded, and IFISA acquired all IDBD's shares of stock held by ETH. Consequently, the Shareholders' Agreement ceased and members of IDBD's Board of Directors representing ETH submitted their irrevocable resignation to the Board Dolphin is hence empowered to appoint the new members to the Board. Additionally, on the same date, Dolphin pledged additional shares as a performance bond for the Tender Offers, thereby increasing the number of pledged shares to 64,067,710. As a consequence, the Group gain control of IDBD and started to consolidate financial

statements as from that date.

As of December 31, 2015, Dolphin held an aggregate number of 324,445,664 shares, 24,897,859 Series 4 warrants, 109,342,966 Series 5 warrants and 97,833,180 Series 6 warrants, accounting for a 49.0% share interest in IDBD. Furthermore, as of December 31, 2015, Dolphin held 498,140 shares of DIC and 83,023 warrants Series 4, 5 and 6 of DIC, representing a direct equity interest of 0.49% in DIC.

The Group is analyzing the allocation of the price paid across various net assets acquired by IDBD; therefore, the information presented below is preliminary.

b) Tender Offers

As described in Note 3.1 to the Annual Financial Statements, Dolphin was required to carry out the first tranche of Tender Offers in December 2015. Before expiration of the first tranche of the Tender Offer, Dolphin and the Trustees of the Arrangement reached an interim agreement (the "Interim Arrangement") which that includes but is not limited to the following:

- (i) Postpone the date in which Dolphin would propose the first tranche of the Tender Offers until March 15, 2016, so that the execution of the Tender Offer would extend until March 31, 2016. Increase the first part of the Tender Offer by NIS 7 million, without changing the number of shares entitled to participate in the Tender Offer;
- (ii) Should IDBD carry out the issue of shares or convertible assets before March 15, 2016 (excluding the issuance of shares resulting from exercising already existing warrants) to any person other than Dolphin and/or any other company not entitled to take part as offeror in the Tender Offers, increase the first part of the Tender Offer by NIS 53 million (in addition to the NIS 7 million of section (i)), without changing the total number of shares to be purchased through the Tender Offer;
- (iii) Increase the collateral granted to the Trustees of the Arrangement to secure performance of the commitments assumed under the Tender Offers;
- (iv) The Interim Arrangement should be approved by the Shareholders' Meeting, after which the parties would file a petition requesting that the appeal with the Supreme Court be dismissed without costs for the parties;

(v) The Interim Arrangement would also be subject to the execution of the Subordinated Loan between Dolphin and IDBD (a subordinated and convertible loan granted to IDBD in the amount of NIS 210 million).

On December 6, 2015 the Interim Arrangement was approved and the appeal with the Supreme Court was dismissed without cost to the parties.

On December 1, 2015, Dolphin and IDBD subscribed the Subordinated Loan.

c) Sale of properties of the business of urban properties and investments in the Operations Center in Argentina

During the six-month periods ended December 31, 2015, the Group has sold certain floors corresponding to Maipú 1300 Building, Intercontinental Plaza and all the floors corresponding to Dique IV and Isla Sirgadero.

All sales of the periods led to a combined profit for the Group of Ps. 1,022, disclosed within the line "Gain from disposal of investment properties" in the Statement of Income.

5. Financial risk management and fair value

The Group's activities expose it to a variety of financial risk: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

The general risk management policies of the Group are focused on the unpredictability of financial markets and seek both to minimize adverse potential effects on the financial performance of the Group and to manage and control the financial risks effectively. The Group uses financial instruments to hedge certain risk exposures when deemed appropriate based on its internal management risk policies, as explained below.

In respect of the agricultural business and the urban properties and investment business of the Operations Center in Argentina, there have been no changes in the risk management or risk management policies applied since the fiscal year-end, therefore, all information and disclosures of the risk management should be read together with the annual consolidated financial statements for the fiscal year ended June 30, 2015. As a result, the only information reported pertains to the business of urban properties and investments in the Operations Center in Israel.

Risk management of the urban properties and investment business in the Operation Center in Israel:

Given the diversity of sectors in the economy, industries, and risks, IDBD manages its exposure to key financial risks in accordance with a decentralized risk management policy for all its subsidiaries. Both IDBD as holding and each subsidiary are responsible for managing their own financial risks in accordance with agreed global guidelines. The Chief Financial Officers of each entity are responsible for managing the risk management policies and systems, the definition of hedging strategies, insofar as applicable and based on any restriction that may be apply as a result of financial liability, the supervision of its implementation and the answer to such restrictions. The management framework includes policies, procedures, limits and allowed types of derivative financial instruments.

This section provides a description of the principal risks and uncertainties related to the operations center in Israel that could have a material adverse effect on the IDBD's strategy, performance, results of operations and financial condition. The risks and uncertainties facing the businesses, set out below, do not appear in any particular order of potential materiality or probability of occurrence. The information corresponding to the sensitivity analysis of financial risks and its impact on operating income has not been included because the Group does not present IDBD income in this period.

5. Financial risk management and fair value (Continued)

(a) Market risk management

(i) Foreign currency risk

IDBD operates at an international level and is exposed to exchange rate risks. Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency in which the transaction is conducted, mainly the US dollar.

Real estate, business and/or financial activities of IDBD subsidiaries in the operations center in Israel are developed in the functional currencies of the economies where they operate, in that they IDBD is not significantly exposed to foreign currency risk.

Net financial position exposure to the functional currencies is decentralized managed on a case-by-case basis, by entering into foreign currency derivative instruments and/or by borrowing in foreign currencies, as the case may be, or by other methods considered adequate by the Management, according to circumstances.

(ii) Risk of fluctuations of the CPI of Israel

IDBD has financial liabilities indexed by the Israeli CPI. As of the balance sheet date, 72% of financial liabilities arising from the center of operations in Israel was adjusted by the Israeli CPI.

Net financial position exposure to the Israeli CPI fluctuations is decentralized managed on a case-by-case basis, by entering into derivative financial instruments, as the case may be, or by other methods, considered adequate by the Management, according to circumstances.

(iii) Interest rate risk

The IDBD's interest rate risk principally arises from long-term borrowings (see Note 25). Borrowings issued at a variable rate expose IDBD to cash flow interest rate risk, partially compensated by financial assets at floating interest rate. Borrowings issued at fixed rates expose the IDBD to fair value interest rate risk.

5. Financial risk management and fair value (Continued)

IDBD manages the exposure to this risk on a dynamic basis. Various scenarios are simulated by IDBD, taking into consideration refinancing, renewal of existing positions, alternative financing sources or hedging instruments, maintaining an appropriate mix between fixed and floating rate interest bearing liabilities. Exposure to interest rate risk is decentralized managed and these activities are evaluated regularly by Management to determine that IDBD is not exposed to interest rate movements that could adversely impact its ability to meet its financial obligations and to comply with its borrowings covenants.

As of the date of these unaudited financial statements, the 96% of the Group's long-term financial borrowings in this operations center are at fixed interest rate, therefore, IDBD is not significantly exposed to the interest rate fluctuation risk.

(iv) Other price risk

IDBD is exposed to equity securities price risk or derivative financial instruments price risk because of investments held in entities that are publicly traded.

As indicated in Note 9, investment in Clal is classified on the statements of financial position at "fair value through profit or loss" and represents the most significant IDBD's exposure to price risk. IDBD has not used hedging against these risks.

IDBD regularly reviews the prices evolution of these equity securities in order to identify significant movements.

(b) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in a financial loss to IDBD. Credit risk is decentralized managed on a country-by-country basis. Each entity is responsible for managing and analyzing the credit risk and limits have been established to ensure that IDBD deals only with approved counterparties and that counterparty concentration risk is addressed and the risk of loss is mitigated. Counterparty exposure is measured as the aggregate of all obligations of any single legal entity or economic entity to IDBD.

IDBD is subject to credit risk arising from deposits with banks and financial institutions, investments of surplus cash balances, the use of derivative financial instruments and from outstanding receivables.

5. Financial risk management and fair value (Continued)

According to IDBD's policy, the Company places its cash and cash equivalents, investments, and other financial instruments with various high credit quality financial institutions, thus mitigating the amount of credit exposure to any one institution. All the institutions that operate with IDBD are well known because of their experience in the market and high quality credit. IDBD places its cash and cash equivalents, investments, and other financial instruments with various high credit quality financial institutions, thus mitigating the amount of credit exposure to any one institution. The maximum exposure to credit risk is represented by the carrying amount of cash and cash equivalents and short-term investments in the statement of financial position.

IDBD's primary objective for holding derivative financial instruments is to manage currency exchange rate risk, interest rate risk and interest risk. IDBD generally enters into derivative transactions with high-credit-quality counterparties and, by policy, limits the amount of credit exposure to each counterparty. The amounts subject to credit risk related to derivative instruments are generally limited to the amounts, if any, by which counterparty's obligations exceed the obligations that IDBD has with that counterparty. The credit risk associated with derivative financial instruments is represented by the carrying value of the assets positions of these instruments.

IDBD's policy is to manage credit exposure to trade and other receivables counterparties within defined trading limits. All of IDBD's significant counterparties are assigned internal credit limits.

Trade receivables from investment and development property activities are primarily derived from leases and services from shopping centers, office and other rental properties; receivables from the sale of trading properties and investment properties (primarily undeveloped land and non-retail rental properties). IDBD

has a large customer base and is not dependent on any single customer.

There is not a high credit risk concentration in trade receivables from telecommunications and supermarket activity, as the business does not rely on few customers and most of the transactions are paid in cash or credit card.

5. Financial risk management and fair value (Continued)

(c) Liquidity risk management

The most important risk in the operations center in Israel is the liquidity risk, including risks associated with refinancing borrowings as they mature, the risk that borrowing facilities are not available to meet cash requirements, and the risk that financial assets cannot readily be converted to cash without loss of value. Failure to manage liquidity risks could have a material impact on IDBD's cash flow and statement of financial position. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, IDBD aims to maintain flexibility in funding its existing and prospective debt requirements by maintaining diversified funding sources.

IDBD monitors its current and projected financial position using several key internally generated reports: cash flow forecasts, debt maturity and interest rate exposure. IDBD also undertakes sensitivity analysis to assess the impact of proposed transactions, movements in interest rates and changes in property values on the key profitability, liquidity and balance sheet ratios.

The IDBD's debt and derivative positions are continually reviewed to meet current and expected debt requirements. IDBD maintains a balance between longer-term and shorter-term financings. Short-term financing is principally raised through bank facilities and overdraft positions. Medium- to longer-term financing comprises public and private bond issues, including private placements. Financing risk is spread by using a variety of types of debt. The maturity profile is managed in accordance with IDBD's needs, by spreading the repayment dates and extending facilities, as appropriate.

Given the current financial liability conditions of the Operations Center in Israel, in particular in the holding company IDBD, the main source of funding has been capital contributions. See Note 25 that includes a description of commitments and restrictions related to loans and renegotiation processes under way.

6. Segment information

IFRS 8 requires an entity to report financial and descriptive information about its reportable segments, which are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are component of an entity about which separate financial information is available that is evaluated regularly by the CODM. According to IFRS 8, the CODM represents a function whereby strategic decisions are made and resources are assigned. The CODM function is carried out by the President of the Group, Mr. Eduardo S. Elsztain. In addition, and due to the acquisition of IDBD, two responsibility levels have been established for resource allocation and assessment of results of the two operations centers, through executive committees in Argentina and Israel.

Following the control of IDBD, as from this quarter, the Group reports its financial and equity performance based on the new segment structure. Comparative information has been modified to reflect the new organization insofar as possible.

Segment information is reported from the perspective of products and services: (i) agricultural business and ii) urban properties and investment business. In addition, this last segment is reported divided from the geographic point of view in two Operations Centers to manage its global interests: Argentina and Israel. Within each operations center, the Group considers separately the various activities being developed, which represent reporting operating segments given the nature of its products, services, operations and risks. Management believes the operating segment clustering in each operations center reflects similar economic characteristics in each region, as well as similar products and services offered, types of clients and regulatory environments.

6. Segment information (Continued)

Therefore, segment information has been prepared as follows:

Agricultural business:

The Group's Agricultural business is comprised of eight reportable segments: (the reporting segments of crops, cattle, dairy, sugarcane, agricultural rentals and services and other segments are included within "Agriculture" activities):

- The "Crops" Segment consists of planting, harvesting and sale of crops as wheat, corn, soybeans, cotton, and sunflowers. The Group is focused on the long-term performance of the land and seeks to maximize the use of the land through crop rotation; the use of technology and techniques. In this way, the type and quantity of harvested crops change in each agricultural campaign.

- The "Cattle" Segment consists of breeding, purchasing and/ or fattening of free-range beef cattle for sale to meat processors and local livestock auction markets.

- The "Dairy" Segment consists of breeding and/ or purchasing dairy cows for the production of raw milk for sale to local milk and milk-related products producers.

- The “Sugarcane” Segment consists of planting, harvesting and sale of sugarcane.
- The “Agriculture Rentals and Services” Segment consists of services (for example: irrigation) and leasing of the Group’s farms to third parties.
- The “Land transformation and sales” Segment comprises gains from the disposal and development of farmlands activities.
- The “Agro-industrial” Segment consists of feedlot farming and the slaughtering and processing in the meat refrigerating plant. Feedlot farming is distinctive and requires specific care and diets which differ from those provided to free-range cattle. This activity represents a separate operating segment due to the distinctive characteristics of the cattle feedlot system and the industrialized meat processing in the packing plant.
- The "Other Segments" column consists of the aggregation of the remaining operating segments, which do not meet the quantitative thresholds for disclosure includes the brokerage activities.

6. Segment information (Continued)

The CODM periodically reviews the results and certain asset categories and assesses performance of the operating segments in the agricultural business based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the financial statements, except for the operating results of joint venture Cresca S.A., which are evaluated by the CODM applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in the joint venture rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return.

Urban properties and investments:

- **Operations Center in Argentina**

Within this center, the Group operates in the following segments:

- The “**Shopping centers**” segment includes assets and results from the commercial exploitation and development of shopping centers. Such results originate mainly from the lease and the providing of services related to the lease of commercial facilities and other spaces in the Group’s shopping centers.

- The “**Office and others**” segment includes assets and the operating results of the activity of lease of office space and other rental properties and service revenues related to this activity.
- The “**Development and sale of properties**” segment includes assets and the operating results of the sales of undeveloped parcels of land and/or trading properties, as the results related with its development and maintenance. Also included in this segment are the results of the sales of real property intended for rent, sales of hotels and other properties included in the International segment.
- The “**Hotels**” segment includes the operating results of the hotels principally comprised of room, catering and restaurant revenues.
- The “**International**” segment includes assets and operating profit or loss from business related to associates Condor and Lipstick. Through these associates, the Group derives revenue from hotels and an office building in United States, respectively. Until September 30, 2014, this segment included revenue from a subsidiary that owned the building located at 183 Madison Ave in New York, United States, which was sold on September 29, 2014. Additionally, until October 11, 2015, this international segment only included results from the investment in IDBD carried at fair value.
- The “**Financial operations and others**” segment primarily includes the financial activities carried out by BHSA and Tarshop and other residual financial operations.

6. Segment information (Continued)

The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the following:

- Operating results of joint ventures: Cyrsa S.A., NPSF, Puerto Retiro, Baicom and Quality are evaluated by the CODM applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in joint ventures rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return. Moreover, operating results of EHSA joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main asset consists of an indirect interest of 25% of LRSA.
- Operating results from shopping centers and offices does not include the amounts pertaining to building administration expenses and collective promotion funds ("FPC", as per its Spanish acronym) and so does it exclude total recovered costs, whether by way of building administration expenses or other concepts included under financial income (for example default interest and other concepts). The CODM examines the net amount from both concepts (total surplus or deficit between building administration expenses and FPC and recoverable expenses).
- **Operations Center in Israel**

Within this center, the Group operates in the following segments:

- The segment “**Commercial Properties**” includes mainly assets and operating income derived from business related to the subsidiary PBC. Through PBC, the Group operates rental properties and residential properties in Israel, United States and other parts of the world and carries out commercial projects in Las Vegas, United States.
- The segment “**Supermarkets**” includes assets and operating income derived from the business related to the subsidiary Shufersal. Through Shufersal, the Group operates a supermarket chain in Israel.
- The segment “**Agrochemicals**” includes income derived from the business related to the associate Adama. Adama is a company specialized in agrochemicals, particularly for the production of crops.

6. Segment information (Continued)

- The segment “**Telecommunications**” includes assets and operating income derived from the business related to the subsidiary Cellcom. Cellcom is a provider of telecommunication services and its main activities include the provision of mobile phone services, fixed line phone services, data and Internet, among others.
- The segment “**Insurance**” includes assets and operating income derived from the business related to Clal. This company is one of the most important insurance groups in Israel, and is mainly engaged in pension and social security insurance, among others.
- **All other segments** include the assets and income derived from other diverse business activities which are not material, such as technological developments, tourism, gas and oil assets, electronics, and others.

The CODM periodically reviews the results and certain asset categories and assesses performance of this operating segment based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the following:

- Operating results of the associate Adama in the segment Agrochemical are evaluated applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in the associate rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return.

- Operating income of the Clal subsidiary in the Insurance segment are analyzed from a consolidated perspective. As indicated in Note 9, 51% of the controlling shares of Clal are held in trust following instructions from the Israel Securities Exchange Commission to comply with the sale of the majority stake in Clal. Under this method both income and assets are fully consolidated on a line-by-line basis, and not under one line as if it were a financial instrument reported at fair value, as required by the IFRSs under the current circumstances where control is not exercised.

6. Segment information (Continued)

As indicated under Note 2, the Group decided to consolidate income derived from its operations center in Israel with a three month lag, as adjusted for the effects of significant transactions; hence, operating results of IDBD for the period extending from October 11, 2015 (acquisition date) through December 31, 2015 were not included in the interim statement of comprehensive income for the six-month period ended December 31, 2015. Therefore, segment information pertaining to operating income for the period extending from the acquisition date through December, 31 2015 has not been included.

Furthermore, comparative information has not been modified for as of that date the Group did not exercise control over IDBD. The assessment of this investment was part of the international segment of the urban properties and investment business in the operations center in Argentina.

Assets and services exchanged between segments are calculated on the basis of market prices. Intercompany transactions between segments, if any, are eliminated.

As to those business segments where the CODM evaluated assets under the proportional consolidation method, each reported asset includes the proportional share of the Group in the same class of assets of the associates and/or joint ventures. Only as an example, the investment properties amount reported to the Executive Board includes (i) the investment property balance as per the statement of financial position plus (ii) the Group's share of the investment properties of these associated and/or joint ventures.

Within the agricultural business, most revenue from its operating segments are derived from, and their assets are located in Argentina and Brazil, mainly.

Within the urban properties and investment business in the operations center in Argentina, most revenue from its operating segments are derived from, and their assets are located in Argentina, except for earnings of associates included in the "International" segment located in USA.

Within the urban properties and investment business in the operations center in Israel, most revenue from its operating segments are derived from, and their assets are located in Israel, except for certain earnings from the Commercial Properties segment generated outside Israel, mainly in USA.

7. Information about principal subsidiaries (Continued)

Cellcom is the largest provider of mobile telecommunications in Israel, it offers its services approximately to 2,900 million subscribers with a wide range of services. By the end of 2014, the Company launched television services over the Internet. Under Israeli laws, in order for a shareholder to be able to exert control over a Telecommunications Company, such shareholder must first secure the approval of the Ministry of Communications of Israel. Such approval, consequence of change in control of IDBD, has not yet been obtained.

In November 2015, Cellcom entered into an agreement, subject to approval, with Golan Telecom Ltd. ("Golan") and its shareholders to acquire all of Golan's shares for a price of NIS 1,170 (equivalent to \$ 3,900 at the exchange rate of 3.35), subject to certain adjustments. To complete the transaction, Cellcom intends to raise funds by way of a public offering and DIC expects to subscribe shares for up to NIS 100 million (or \$ 335 million at the exchange rate of 3.35) at that public offering to maintain its current equity interests.

In December 2015, PBC, issued three series of debentures under the current programs for an aggregate amount of NIS 417 million (or Ps. 1,397 million at the exchange rate of 3.35).

In November 2015, IDBD, through IDB Tourism, renegotiated the terms and conditions of the loan for the purchase of aircrafts mentioned in Note 25. Among other things, the renegotiation involved the extension of the loan term and the purchase of a new Airbus. As of the date of these financial statements, the outstanding debt amounts to US\$ 53 million.

8. Investments in associates and joint ventures

As of June 30, 2015, the associates of the Group were Agro-Uranga S.A., Agromanagers S.A., New Lipstick, BHSA, IDBD, Tarshop S.A., Manibil S.A., Lipstick and BACS and joint ventures of the Group were Cresca S.A., Cyrsa S.A., Puerto Retiro, Baicom, Quality, NPSF, Entretenimiento Universal S.A. and EHSA.

As of December 31, 2015, following IDBD's consolidation Adama, Mehadrin Ltd., PBEL Real Estate Ltd., Gav-Yam Properties in Lod, were included as associates, among others.

(i) During the six-month period ended December 31, 2015, the Group cashed dividends from Agro-Uranga S.A. in the amount of Ps. 4.2. During the year ended on 2015, the Group cash dividends from Agro-Uranga S.A., BHSA, Cyrsa S.A. and NPSD in the amount of Ps. 4.7, Ps. 12.9, Ps. 31 and Ps. 2.6, respectively.

(ii) Include a balance of Ps. (585) and Ps. (363) reflecting interests in companies with negative equity as of December 31, 2015 and June 30, 2015, respectively, which is reclassified to "Provisions" (see Note 24).

(iii) During the fiscal year ended June 30, 2015, Cyrsa S.A. carried out a distribution to IRSA due to capital reduction in the amount of Ps. 110.9.

Legal reserve applicable to the Argentine Companies

According to Argentine law, 5% of the profit of the year is separated to constitute a legal reserve until they reach legal capped amounts (20% of total capital). This legal reserve is not available for dividend distribution and can only be released to absorb losses. The Group's investments under this law have not reached the legal limits of this reserve.

Restrictions, commitments and other matters in respect of the urban properties and investment business in the operations center in Argentina

Quality

In March 2011, Quality purchased an industrial plant located in San Martín, Province of Buenos Aires. The facilities have the necessary features and scales for multiple uses.

8. Investments in associates and joint ventures (Continued)

On January 20, 2015, Quality entered into an Urbanization Agreement with the Municipality of San Martín which contemplates a monetary compensation to the City Council totaling Ps. 40, payable in two installments of Ps. 20 each. The first of such installments was actually paid at the date of these Financial Statements.

EHSA

During November 2012, IRSA CP acquired shares of common stock, representing 50% of EHSA's capital stock and votes and as a consequence IRSA CP holds a jointly indirect interest in LRSA of 25% which operates the fairground Predio Ferial de Buenos Aires.

In connection with the Fairground in December 2012 the Executive Branch issued Executive Order 2552/12 that annulled an executive order dated 1991 which approved the sale of the Fairground to the SRA; the effect of this new order was to revoke the sale transaction. Although several resolutions have been issued since that point, to the date we are not aware of any judicial measure petitioned by the owner of the Plot of Land and/or the National Government, or the corresponding appeals or rulings, may have affected the actual use of the Plot of Land.

Puerto Retiro

On April 18, 2000, Puerto Retiro was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Indarsa to Puerto Retiro. At the request of plaintiff, the bankruptcy court for the Buenos Aires District issued an order restraining the ability of Puerto Retiro to sell or dispose in any manner the land. Indarsa had acquired 90% of the capital stock of Tandanor to a formerly estate owned company in 1991.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro.

In addition, Tandanor filed a civil action against Puerto Retiro and other accused parties in the criminal case for violation of section 174 subsection 5, under section 173 subsection 7 of Criminal Code. The claim expects that upon invalidation of executive order that approved the bid of Dársena Norte plot of land, Tandanor be reimbursed any other sum of money that it claims to have lost due to the alleged fraudulent purchase-sale transaction of the real property disputed in the case.

The Management and legal advisors of Puerto Retiro estimate that there are sufficient legal and technical arguments to consider that the request for bankruptcy will be denied by the court as well as the fraud action. However, given the current status of the case, we cannot predict its outcome.

Tarshop

Over the past two fiscal years, the BCRA modified certain aspects of the regulatory framework of the activity carried out by Tarshop. Based on these changes, our Associate is going through a business reformulation process. In this context, BHSA and IRSA CP approved a gradual capitalization plan to be carried out by shareholders pro rata their holdings, under which certain contributions were already made for a total amount of Ps. 235.

Adama

Adama is specialized in the chemical industry, mainly, in the agrochemical industry. In this framework, Adama is engaged in developing, manufacturing and selling crop protection products, while also operating in other areas based on its basic capacities (the agricultural and chemical sectors), to a immaterial extent.

In 2011, IDBD sold 60% of Adama's shares to China National Agrochemical Corporation ("ChemChina") and was also granted a non-recourse loan in the aggregate amount of US\$ 960, which is secured by the 40% of the shares held by IDBD as of December 31, 2015. The loan is disclosed in Note 24 under Non-current loans.

IDBD through DIC reported a potential transaction whereby Koor and ChemChina would transfer their entire interests (40% and 60%, respectively) in Adama to Hubei Sanonda Co. Ltd., a Chinese public company whose its shares are listed in the Shenzhen Stock Exchange, China ("Sanonda"). Sanonda's shares would be delivered as consideration for the transaction in such amount that, following the transaction, Adama would become a wholly-owned subsidiary of Sanonda and Koor would be a shareholder of Sanonda. Pursuant to Chinese laws, Sanonda's shares owned by Koor would be subject to a lock-up period of 3 years.

On December 2015 Adama distributed a cash dividend for an amount of US\$ 100, out of which US\$ 40 pertains to DIC and was used to partially settle the non-recourse loan.

9. Assets held for sale - CLAL, among others

Group's assets held for sale as of December 31, 2015 were as follows:

	December 31, 2015
Clal	4,845
Others	198
	5,043

Clal is a holding company that mainly operates in the insurance and pension markets and in segments of pension funds. The company holds assets and other businesses (such as insurance agencies) and is one of the largest insurance groups in Israel. Clal mainly develops its activities in three operating segments: long-term savings, general insurance and health insurance.

Given that IDBD failed to meet the requirements set forth by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel, to have control over an insurance company, on August 21, 2013, such commission required that IDBD grant an irrevocable power of attorney to Mr. Moshe Tery ("the Administrator") by 51% of the shareholding capital and vote in Clal, thus transferring control over that investee.

On December 30, 2014, the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel sent an additional letter setting a term by which IDBD's control over and equity interests in Clal were to be sold and giving directions as to the Administrator's continuity in office, among other aspects.

The sale arrangement outlined in the letter involves IDBD's and the Administrator's interests in the sale process under different options and timeframes. As of December 31, 2015, the current sale arrangement involves the sale of the interest in the stock exchange or in over-the-counter trades, as per the following detail and by the following dates:

- a. IDBD will have to sell at least 5% of its equity interest in Clal over a four-month period;
- b. During each of the subsequent four-month periods, IDBD will have to sell at least an additional 5% of its equity interest in Clal.
- c. If IDBD sells more than 5% of its equity interest in Clal in any given four-month period, the percentage in excess of the required 5% will be offset against the percentage required in the following period.

9. Assets held for sale - CLAL, among others (Continued)

IDBD's failure to fulfill its obligation in the manner described in the above paragraph will entitle the Administrator to act upon the specified arrangement in lieu of IDBD, pursuant to all powers that had been vested under the representations of the trust letter. The consideration for the sale will be transferred to IDBD, with the expenses incurred in the sale process to be solely borne by IDBD.

On December 31, 2015 the holding of IDBD to Clal was of 55%, and as a result of the circumstances mentioned above, IDBD has accounted for it as an available-for-sale financial asset. Valuation as of December 31, 2015 amounts to \$ 5,810, and a loss of \$ 797 has been recorded reflecting the fall in the market price.

Claims against Clal

On the aggregate, all legal actions brought against Clal's investees out of the ordinary course of business amount to approximately NIS 14,339 (or Ps. 48,036 at the exchange rate of 3.35).

The Group set up a reserve for all legal actions brought against Clal's investees out of the ordinary course of business in the amount of NIS 93 (or Ps. 312 at the exchange rate of 3.35). Most legal actions are related to consumer claims and derivative actions.

Arcos del Gourmet S.A. has filed the relevant administrative remedies (appeal) and has also filed a judicial action requesting that the revocation of such concession be overruled. Furthermore, it has started a so-called "juicio de consignación", that is an action where the plaintiff deposits with the court sums of money that the defendant refuses to accept. Under this legal action, the company has deposited in due time and form all rental payments under the Contract for Reformulation of the Concession of Rights of Use and Development, which the Company considers to have been improperly revoked.

Balance at December 31, 2015	-	1,621	243	-	(10,049)	-	(8,185)

(i) The gain / (loss) is not realized as of December 31, 2015 and is accounted for under "Other financial results" in the income statements (Note 33).

Non-recourse loan

IDBD uses the valuation of an independent appraiser to determine the value of the non-recourse loan. The valuation model is a binomial tree where the main variable is Adama's share price.

Shares and warrants of Condor

Upon initial recognition (January 2012), the consideration paid for the Shares and Warrants of Condor was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair value of these instruments exceeded the transaction price and were determined using a valuation technique that uses inputs not observable in the market. As a result of the use of this technique, the Group has not recognized a gain at the time of initial recognition in the amount of US\$ 7.9 million.

16. Financial instruments by category (Continued)

According to Group estimates, all factors being constant, a 10% decline in the price of the underlying assets of Level 3 Preferred Shares and Warrants of Condor (data observable in the market) as of December 31, 2015, would reduce pre-tax income by Ps. 28.6.

According to Group estimates, all factors being constant, a 10% decrease in the credit spread (data which is not observable in the market) of preferred shares and warrants of Condor used in the valuation model applied to Level 3 financial instruments as of September 30, 2015, would increase pre-tax income by Ps. 2.6. The rate used as of December 31, 2015 was 14.10%.

Investment in IDBD, associate and warrants

As described in Note 3 to the annual financial statements, in Note 15 to the financial consolidated statements as of September 30, 2015 and until acquiring control over IDBD, the Group stated its equity interest in IDBD as an associate measured at fair value, invoking the exception under IAS 28 and the warrants to acquire IDBD's common shares were booked at their quoted prices. Since October 11, 2015, as result of consolidation, the equity interest in IDBD as an associate and the warrants were eliminated following the consolidation to add IDBD's assets and liabilities on a line-by-line basis.

When no quoted prices in an active market are available, fair values (particularly derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range
Non-current trade receivables	Cash flows	Theoretical price	Projected discounted income	5.20%
Interest-rate swaps	Cash flows	Theoretical price	as per discount rate Interest rate futures and flows of funds	-
Preferred shares of Condor	Binomial tree	Theoretical price	Underlying asset price (market price) and share price volatility (historical) and market interest rate (Libor curve).	Price of underlying assets 1 to 1.5 Share price volatility 55% to 75% Market interest-rate 0.8% to 1%
Warrants of Condor	Black-Scholes	Theoretical price	Underlying asset price (market price) and share price volatility (historical) and market interest rate (Libor curve).	Price of underlying assets 1 to 1.5 Share price volatility 55% to 75% Market interest-rate 0.8% to 1%
Call option for the shares of Arcos	Discounted cash flows	-	Projected income and discount rate.	-
Foreign-currency contracts	Benchmark price	Theoretical price	ROFEX futures curve	-
Non-recourse loan	Binomial tree	Theoretical price	Underlying asset price (obtained by the discounted cash flow valuation), capital cost, discounted market interest rate, control premium, underlying asset volatility.	Underlying asset price US\$ 800MM to US\$ 980MM, capital cost 11.9% to 14.5%, discounted market interest rate 7.4% to 12.4%, control premium, 4% to 6%, underlying asset volatility 25% to 35%.

Current other receivables	2,474	447
Current trade and other receivables	12,758	1,772
Total trade and other receivables	16,285	2,199

The fair value of current trade and other receivables approximate their respective carrying amounts due to their short-term nature, as the impact of discounting is not considered significant. The fair values are based on discounted cash flows (Level 2 of fair value hierarchy).

The evolution of the Group's provision for impairment of trade receivables were as follows:

	December 31, 2015	June 30, 2015
Beginning of the period / year	120	90
Creation	24	47
Recovery	(6)	(17)
Used during the period / year	-	(2)
Currency translation adjustment	1	2
End of the period / year	139	120

The creation and release of allowance for doubtful account have been included in "Selling expenses" in the income statements (Note 30). Amounts charged to the provision account are generally written off when there is no expectation of recovering additional cash.

24. Provisions

The Group is subject to claims, lawsuits and other legal proceedings in the ordinary course of business, including claims from clients where a third party seeks reimbursement or damages. The Group's liability

under such claims, lawsuits and legal proceedings cannot be estimated with certainty. From time to time, the status of each major issue is evaluated and its potential financial exposure is assessed. If the potential loss involved in the claim or proceeding is deemed probable and the amount may be reasonably estimated, a liability is recorded. The Group estimates the amount of such liability based on the available information and in accordance with the provisions of the IFRS. If additional information becomes available, the Group will make an evaluation of claims, lawsuits and other outstanding proceeding, and will revise its estimates.

24. Provisions (Continued)

The analysis of total provisions is as follows:

	December 31,	June 30,
	2015	2015
Non-current	1,439	387
Current	723	55
Total	2,162	442

The amount of the provision for the Operations Center in Israel related to legal claims stands at \$ 275 millions.

Additionally, there are other processes and actions (collective and/or individual) that are at a preliminary stage or where the amount of the claim is not specified. Therefore, it is not possible to reasonably estimate i) the probabilities of success, or ii) the potential losses, all of which depends on the progress of the respective judicial proceedings.

The main claims involving the Operations Center in Israel include the following:

Claims against Cellcom and its subsidiaries

Most legal proceedings involve consumer claims and actions derived from these claims and petitions have been filed requesting that they be admitted as class actions.

Claims against Shufersal and its subsidiaries

Most legal actions pertain to consumer claims and petitions requesting that such claims be admitted as class actions. There are also individual legal actions brought and employees, subcontractors and suppliers.

25. Borrowings

See Note 25 to the Annual Financial Statements for the description of borrowings of the urban properties and investment business from the operations center in Argentina and agricultural business.

IDBD has certain restrictions and financial covenants in connection with its financial debt, included in its debentures, loans from banks and financial institutions.

As of September 30, 2015 IDBD reported that the application of the “Liquidity Covenant” and the “Economic Equity Covenant” (as they were described below) is currently suspended.

Note that, it was agreed between IDBD and the relevant lending corporations that the parties would work to formulate an arrangement, to replace or amend the current financial covenant by March 31, 2016.

If such arrangement has not been reached, then with respect to the results for IDBD’s first quarter of 2016 and thereafter, the previous financial covenants will re-apply. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past

with respect to the Liquidity Covenant and the Economic Equity Covenant with respect to IDBD's results for the first quarter of 2016.

Particularly, if the previous financial covenants will re-apply, IDBD estimates it will not be able to fulfill the covenant which stipulates that the balance of cash and marketable securities will not fall below the scope of forecasted current maturities for the two quarters subsequent to the reporting quarter (the "Liquidity Covenant"). Regarding the Economic Equity Covenant, it is noted that the economic equity as of September 30, 2015, amounted to a positive balance of NIS 199 million, significantly lower than the thresholds which were determined in the past. In addition, in view of and due to the decrease in Mr. Ben Moshe's holding rate in IDBD, beginning from February 2015 and thereafter, it should be noted that the lending corporations may claim that they have a right to demand immediate repayment in respect to IDBD and DIC loans due to the changes in IDBD's control structure.

IDBD is continuing to work towards reaching understandings with the relevant lending corporations for the purpose of establishing the calculated financial covenants which were set forth in the provisions of its loan agreements as well as establishing a new control covenant (in connection to the mentioned above) and additional contractual issues in the loan agreements.

(1) They pertain to a bank loan in the amount of NIS 750 million, where repayment of principal had been deferred for three years starting March 2014 until March 2018.

(2) In May 2012, IDBD was granted a secured loan in the amount of NIS 150 million by the financial institutions of Menorah Group. Principal is repayable in two installments of NIS 50 million and NIS 50 million in 2017 and 2018, respectively. As part of the loan, IDBD granted the lender any stock call option on the shares it held in DIC, representing approximately 1.7% of the share capital issued by this company. These stock options may be exercised until May 2016. The loan was secured by shares of DIC, Clal Industries Ltd. and Clal.

(3) Without preset maturities.

26. Taxation

The details of the provision for the Group's income tax are as follows:

	December 31,	December 31,
	2015	2014
Current income tax	(174)	(618)
Deferred income tax	167	351
Minimum Presumed Income Tax	(1)	(3)
Income tax expense	(8)	(270)

The gross movement on the deferred income tax account was as follows:

	December 31,	June 30,
	2015	2015
Beginning of the period / year	501	383
Currency translation adjustment	(1,295)	(31)
Incorporation for business combination (see Note 4)	(3,597)	-
Reserve for changes in non-controlling interest	(52)	(50)
Reclassification to assets held for sale	-	(33)
Use of tax loss carryforwards	(6)	(157)
Charged / (Credited) to the income	167	389
End of the period / year	(4,282)	501

The Group did not recognize deferred income tax assets of Ps. 49.2 and Ps. 43.3 as of December 31, 2015 and June 30, 2015, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of the different Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of the Group itself, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

26. Taxation (Continued)

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

	December 31,	December 31,
	2015	2014
Tax calculated at the tax rates applicable to profits in the respective countries	443	5
Permanent differences:		
Share of loss of associates and joint ventures	(414)	(322)
Unrecognized tax losses	(8)	(4)
Others	(29)	51
Income tax	(8)	(270)

Entities in Argentina are subject to the MPIT. Pursuant to this tax regime, an entity is required to pay the greater of the income tax or the MPIT. Tax is calculated on an individual entity basis at the statutory asset tax rate of 1% and is based upon the taxable assets of each company as of the end of the year, as defined by Argentine law. Any excess of the MPIT over the income tax may be carried forward and recognized as a tax credit against future income taxes payable over a 10-year period.

The Company does not set up an allowance for MPIT and is considering filing a declaratory action under the terms of section 322 of the Civil and Commercial Procedural Code against the AFIP seeking certainty as to the application of the MPIT for the fiscal year 2014, 2015 and advance payments from 7 through 11 corresponding to fiscal year 2014, in relation to the decision by the Argentine Supreme Court in the case

“Hermitage” on September 15, 2010 and “Perfil” on February 11, 2014. In such judicial precedents, the Court had declared such tax to be unconstitutional given that, under certain circumstances, it proves to be unreasonable and inconsistent with the ability-to-pay principle.

34. Employee benefits (Continued)

Increase in minimum salaries in Israel. Effect on employees-benefit plans Shufersal.

In January 2016, an amendment was approved to Minimum Salary Law. According to Shufersal estimates, the increase in the minimum salary may have an adverse effect on the business performance and lead to an increase in charges to income related to benefit plans.

35. Related parties transactions

During the normal course of business, the Group conducts transactions with different entities or individuals related to it.

As mentioned in Note 4, on October 11, 2015, the Group took over IDBD. Before takeover, the Group had entered into certain transactions with IDBD as associate, mainly related to the subscription of warrants and/or capital contributions, but had not conducted commercial transactions.

As of these financial statements, the Group conducted transactions with related parties included in their two lines of business: (i) agricultural business, (ii) urban properties and investments business. In addition, this last segment is reported divided from the geographic point of view in two Operations Centers to manage its global interests: Argentina e Israel, there being no significant transactions with related parties involving both

Operations Centers.

In addition, as indicated under Note 2, the Group decided to consolidate income derived from its operations center in Israel with a three month lag, hence, operating results of IDBD for the period extending from October 11, 2015 (acquisition date) through December 31, 2015 were not included in the interim statement of income for the six-month period ended December 31, 2015. Therefore, the information pertaining to income with related parties of the operations center in Israel from the acquisition date through December 31, 2015 has not been included.

35. Related parties transactions (Continued)

Below are the most significant transactions conducted with related parties in agricultural business and the urban properties and investment business of the operations center in Argentina, their balances as of December 31, 2015 and June 30, 2015 and the corresponding income for each of the reporting periods in these financial statements:

1. Purchase-Sale of goods and/or services hiring:

In the normal course of its business and with the aim of make resources more efficient, the Group, or its related parties, purchases supplies and materials, and/or hires services on behalf of a company which later sells and/or recovers for companies of the Group or other related parties, based upon their actual utilization.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 29 and Ps. 13, respectively, with its associates, joint ventures and other related parties, related to sales of advertising seconds to third parties, sales of inputs and materials, and reimbursement of expenses for acquired and/or lent services, among others. These operations do not entail profits to the company recovering expenses, for the same are carried out as per the cost value of the goods or services acquired.

2. Corporate Service Agreement

On June 30, 2004, a Master Agreement for the Exchange of Corporate Services ("Frame Agreement") was entered into between Cresud, IRSA and IRSA CP renewable automatically every 24 months for equal periods unless it is terminated by any of the parties upon prior notice. In view that the operating areas of IRSA and Cresud share certain characteristics of affinity, the aim of the Frame Agreement is reducing their incidence on the operating results, building on and enhancing the individual efficiencies of each of the companies in the different areas that form part of operating management.

3. Legal services:

The Group hires legal services from Estudio Zang, Bergel & Viñes, Our Vice-president, Saúl Zang, and our alternate directors, Juan M. Quintana, Salvador D. Bergel, and D. Pablo Vergara del Carril are members of that law firm.

4. Property leases and/or rights of use

In the course of its normal operations, the Group normally leases diverse spaces in its Shopping Centers (stores, stands, storage rooms or advertising spaces) to its associates Tarshop and BHSA, and to a lesser extent to other related parties. Lease agreements entered into with associates included similar provisions to those included in agreements with third parties.

Additionally, the Group assigned under a free-use contract certain spaces in some of its shopping centers to Fundación Museo de los Niños, a non-profit organization, to establish the “Museo de los Niños, Abasto” and “Museo de los Niños, Rosario”, to interactive learning centers for children and adults.

The Group rents the offices of Eduardo S. Elsztain, property of Isaac Elsztain e Hijos S.C.A. (a company controlled by certain relatives of Eduardo S. Elsztain) and Hamonet S.A. (a company controlled by Fernando A. Elsztain, director of the Group and cousin of Eduardo S. Elsztain), under renewable operating lease contracts in normal terms and conditions due in 2017.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net payable balances in the amount of Ps. 0.7 and Ps. 0.03, respectively, with its related parties. The Group recognized income from leases and services provided of Ps. 8 and Ps. 5, for the six-month periods ended December 31, 2015 and 2014, respectively.

5. Compensation of Directors and Top Management

The remuneration of Directors for each fiscal year is based on the provisions established by the Law N° 19,550, taking into consideration whether such directors perform technical-administrative functions and depending upon the results recorded by the Company during the fiscal year. Once such amounts are determined, they should be approved by the Shareholders' Meeting. The members of the Top Management are appointed and removed by the Board of Directors, and perform functions in accordance with the instructions delivered by the Board itself.

The remuneration earned by Top Management for their functions consists of an amount that is fixed taking into account the manager's backgrounds, capacity and experience, plus an annual bonus based on their individual performance and the Group's results. Members of the Top management participate in defined contribution and share-based incentive plans that are described in Note 34.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net payable balances in the amount of Ps. 25 and Ps. 12, respectively, with Directors and Top Management members. The Group incurred a charge from remuneration to Board of Directors and Top Management of Ps. 83 and Ps. 54 for the six-month periods ended December 31, 2015 and 2014, respectively.

6. Financial operations

In the normal course of its activities, the Group enters into diverse loan agreements or credit facilities with related parties. These loans generally accrue interest at market rates and are cancelable wholly or partially prior to the due date, either in cash and/or through capitalization (conversion into shares), and/or by way of offsetting arrangements involving debit and credit balances existing between the parties.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 1,208 and Ps. 97, respectively, with related parties. The most significant are the following: a loan granted to IFISA for an amount of US\$ 40, with maturity on October 8, 2016. Its balance as of December 31, 2015 was Ps. 525. For the six-month periods ended December 31, 2015 and 2014, the Group recognized Ps. 85 and Ps. 19.5, respectively, from which Ps. 3 correspond to the borrowing to IFISA.

In February 2015, the Group, through Dolphin sold 71.39 million IDBD shares to IFISA, at the closing price of NIS 1.39 per share, making a total of NIS 99.23 million, equal to US\$ 25.65 million at the exchange rate prevailing on the transaction date. As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 290 and Ps. 199, respectively.

In June 2015, the Group subscribed Convertible Notes, issued by BACS for a nominal value of 100,000,000, which are convertible into common stock. As of December 31, 2015 and June 30, 2015, the

Group maintains aggregate net receivable balances in the amount of Ps. 100.5 and Ps. 110.9, respectively. For the six-month period ended as of December 31, 2015, the Group recognized a gain in the amount of Ps. 10.4.

The Company entered into a securities loan agreement with IFISA which granted 3,334,517 Global Depositary Shares of IRSA as of December 31, 2015. This loan does not imply the transfer of any political nor economic right corresponding to the values, which are held by Cresud. Regarding voting rights, the parties agreed that the Company will grant a power of attorney to IFISA with the respective voting instructions. In respect to dividends, IFISA will transfer the funds to Cresud. The loan accrues interest at an annual rate equivalent to 3 month LIBOR, plus 50 basis points, and is due on June 25, 2016.

37. Fiscal year 2015 20-F Annual Report

IDBD prepares its financial statements in accordance with Israeli auditing standards and files consolidated financial statements publicly with the Israel Securities Authority. As of June 30, 2015, we held a non-controlling 49% interest in IDBD. As a result, and as disclosed in our annual report on Form 20-F for the fiscal year ended June 30, 2015, we did not have the power to direct IDBD to prepare and provide to us any financial statements audited in accordance with auditing standards generally accepted in the United States ("U.S. GAAS"). For this reason, we included in our annual report on 2015 Form 20-F certain financial statements of IDBD prepared in accordance with Israeli auditing standards, including IDBD's unaudited consolidated financial statements as of and for the fiscal year ended December 31, 2014 which are at the time of filing IRSA's 2015 Form 20-F were IDBD's most recent annual consolidated financial statements. IDBD is currently preparing for the first time consolidated financial statements under U.S. GAAS for its fiscal year ended December 31, 2014. We intend to file such IDBD financial statements publicly with the SEC, and accordingly to amend our 2015 Form 20-F, as soon as we receive the financial statements from IDBD.

38. Subsequent events

- On January 21, 2016 the holders of warrants Series 4 of IDBD asked the district court of Tel Aviv to order IDBD to take all steps required to extend the exercise date and of warrants Series 4 to a date at least 30 days after the implementation of the first part of the Tender Offers, considering that the exercise date for such warrants had been set for February 10, 2016. On February 4, 2016 the Court decided to grant the petition and thus extended the exercise of warrants Series 4 to May 10, 2016. On February 9, IDBD filed an appeal with the Supreme Court where IDBD requests that the decision dated February 4 be overruled and a new exercise date be set as near as possible to the original exercise date; as of the date of these financial statements, no answer has been given to such request.

- On January 24, 2016, the Board of IDBD approved a public offering to be conducted on February 2016 in the amount of 700 million common shares at a price per share above NIS 0.714 per share (equal to \$ 2.3919 per share at the exchange rate of 3.35), which is equal to a minimum offer of NIS 500 million (or \$ 1,671 at the exchange rate of 3.35). On February 1, 2016 IDBD received a letter from the minority shareholder's attorney, where it claims that the prospective offer mentioned above requires approval pursuant to section 275 of the Business Companies Act, 5759-1999, including the approval of the Shareholders' Meeting where the majority of the shareholders lack any personal interest in the issuance, for in the note the attorney alleges there is a personal interest in the issuance in question. As of the balance sheet date, there is no certainty as to the final terms of the public offering.

- On February 2, 2016, IRSA CP transferred title to 851 square meters pertaining to an office floor and 8 parking lot units at the Intercontinental Plaza building to an unrelated party, with a remaining 6,308 square meters in this building being owned by the Company. - On February 5, 2016, Dolphin has entered into an option agreement with IFISA that grants Dolphin the right, but not the obligation, to acquire 92,665,925 shares in IDBD which IFISA acquired in the BMBY process (as defined in note 4) at a price per share of NIS 1.64 plus an annual interest rate of 8.5%. The exercise date for the option extends for two years. Additionally, Dolphin is entitled to a first refusal right in case that IFISA agrees to sell these shares to a third party.

- On February 7, 2016, and pursuant to the arbitration proceeding started in 2015 between Extra and Dolphin, Extra filed with the arbitrator a claim against Dolphin, IFISA and Eduardo Elsztain claiming failure to comply with shareholders' agreement and other commitments for the purpose of taking over IDBD. In its claim Extra requests an instruction order requiring that both Dolphin and IFISA, jointly and severally, pay to Extra at least NIS 1,250 million, plus expenses and interests, which include the nominal loss incurred by Extra in its investment in IDBD, the earnings that Extra expected to make on its investment in IDBD and additional compensation. Based on the arbitration terms, Dolphin and IFISA have 21 days as from the date Extra filed its claim to file their defense and any counterclaim, if any. Dolphin is analyzing the best available strategy to this end.

**REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

To the Shareholders, President and Directors of

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria

Legal address: Moreno 877 – 23° floor

Autonomous City Buenos Aires

Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria and its subsidiaries (hereinafter “the Company”) which included the statement of financial position as of December 31, 2015, the statement of income and comprehensive income for the six and three-month period ended December 31, 2015, the statement of changes in shareholders’ equity and the statement of cash flows for the six-month period ended December 31, 2015 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements mentioned in first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

**REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS (Continued)**

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income and comprehensive income and the consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 to the unaudited condensed interim consolidated financial statements.

1. General information

1.1 The Company's business and general information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or the "Company") was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's principal subsidiary.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on February 11, 2016.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

These Unaudited Condensed Interim Separate Financial Statements of the Company have been prepared in accordance with Technical Resolutions N° 26 (RT 26) of Argentine Federation of Professional Councils of Economic Sciences ("F.A.C.P.C.E.", as per its Spanish acronym) and IAS 34 "Interim Financial Reporting".

Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of article 1, Chapter III, Title IV of General Ruling 622/13. Such information is included in the Notes to the Unaudited Condensed Interim Separate Financial Statements according to International Financial Reporting Standards ("IFRS").

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements
(Continued)

These Unaudited Condensed Interim Separate Financial Statements should be read together with the annual audited Separate Financial Statements of the Company as of June 30, 2015. These Unaudited Condensed Interim Separate Financial Statements are expressed in millions of Argentine Pesos.

The Condensed Interim Separate Financial Statements for the six-month periods ended as of December 31, 2015 and 2014 have not been audited. The Company's management believes they include all necessary adjustments to fairly present the results of each period. Results for the six-month periods ended December 31, 2015 and 2014 do not necessarily reflect proportionally the Company's results for the complete fiscal years.

2.2. Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Separate Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2015 and are based on those IFRS in force as of June 30, 2015 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). Furthermore, the most significant accounting policies are described in the annual Consolidated Financial Statements as of June 30, 2015 and to the Unaudited Condensed Interim Consolidated Financial Statements as of September 30, 2015 and in Note 2 to the Unaudited Consolidated Financial Statements as of December 31, 2015.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Interim Condensed Separate Financial Statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the annual separate financial statements for the fiscal year ended June 30, 2015, except for changes in provisions for income tax, for legal claims and for doubtful accounts.

2.4. Comparative information

Amounts as of June 30, 2015 and December 31, 2014, which are disclosed for comparative purposes have been taken from the separate financial statements as of such dates. The financial statements originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period.

During the six-month period ended as of December 31, 2015, the Argentine Peso devalued against the US\$ and other currencies by around 44%, which has an impact in comparative information presented in these Unaudited Financial Statements, due mainly to the currency exposure of our income from offices rental, and our net assets and liabilities in foreign currency as detailed in Note 34.

3. Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between January and September every year. Wheat is generally harvested between November and February every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material

fluctuations in the agricultural business results each quarter.

4. Acquisitions and disposals

On December 29, 2015, Carnes Pampeanas S.A.'s Shareholders Meeting approved the increase the Company's capital stock through the capitalization of an irrevocable contribution from Cresud, made on November 9, 2015 for the amount of Ps. 19.5 million, increasing its share capital from Ps. 66.31 to Ps. 85.81.

As a consequence, Cresud's interest in the Company has increased from 97.74% to 98.25%.

See summary of acquisitions and additional disposals of the Company for the six-month period ended December 31, 2015 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5. Financial risk management and fair value estimates

The Company's activities are exposed to several financial risks, market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

Note 5 to the annual Consolidated Financial Statements provide information on financial risk management as of June 30, 2015 and 2014. Since June 30, 2015, there have been no changes in the risk management or risk management policies applied by the Company except for those financial risks incorporated by business combination of IDBD. See Note 5 to the Unaudited Condensed Interim Consolidated Financial Statements.

5.1. Fair value estimates

Since June 30, 2015 there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets, liabilities or biological assets (either measured at fair value or amortized cost). Nor there have been transfers between the several hierarchies used in estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

6. Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several subsidiaries, associates and joint ventures.

As mentioned in Note 1 to the Unaudited Condensed Consolidated Financial Statements, on October 11, 2015 IRSA acquired control over IDBD. This Israeli company is one of the largest and most significant conglomerates of Israel, which takes part in many markets and sectors of the industry. Factors namely (i) IDBD's current financial position and need for financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern

The fair value of current borrowings at fixed-rate and current and non-current borrowings at floating-rate equals their carrying amount, as the impact of discounting is not significant. The fair value of all debts that are not quoted in the market are valued at their technical value that is nominal value plus accrued interest.

Book value of borrowings denominated in foreign currencies is detailed in Note 34.

The fair values of non-current borrowings at fixed rate (excluding finance leases) are as follows:

	December 31,	June 30,

35. CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Company has entrusted the storage of certain non-sensitive and old information to the following providers:

**Documentation storage

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse, which is a supplier of the Company and where Company's documentation was being kept. Based on the internal review carried out by the Company, duly reported to the Argentine Securities Exchange Commission on February 12, 2014,

the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria

Legal address: Moreno 877 – 23° floor

Autonomous City Buenos Aires

Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the statement of financial position as of December 31, 2015, the statement of income and comprehensive income for the six and three-month period ended December 31, 2015, the statement of changes in shareholders’ equity and the statement of cash flows for the six-month period ended December 31, 2015 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income and comprehensive income and the separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 6 to the unaudited condensed interim separate financial statements.

Report on compliance with current regulations

In accordance with current regulations, we report about Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria that:

a) the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria are recorded in the "Inventory and Balance Sheet Book", and comply, as regards those matters that are within our competence, with the provisions set forth in the Commercial Companies Law and in the corresponding resolutions of the National Securities Commission;

b) the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria arise from accounting records carried in all formal aspects in conformity with the applicable legal provisions;

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

c) we have read the additional information to the notes to the unaudited condensed interim separate financial statements required by section 68 of the listing regulations of the Buenos Aires Stock Exchange and by section 12 of Chapter III Title IV of the text of the National Securities Commission, on which, as regards these matters that are within our competence, we have no observations to make;

d) at December 31, 2015, the debt of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria owed in favor of the Argentina Integrated Pension System which arises from accounting records and submissions amounted to Ps. 6,905,734 which was no callable at that date.

Cresud S.A.C.I.F. y A.

Summary as of December 31, 2015

Buenos Aires, February 11, 2016 - Cresud S.A.C.I.F. y A. (NASDAQ: CRESY – BCBA: CRES), one of the leading agricultural companies in South America, announces today its results for the first six months of fiscal year 2016 ended December 31, 2015.

Consolidation of IDB Development Corporation

On October 11, 2015, the Group acquired control of the Israeli company IDB Development Corporation Ltd. (“IDBD”). During this quarter, the consolidation will be reflected in the balance sheet, and as from the third quarter, it will also be disclosed at income statement level. IDBD’s fiscal year-end is on December 31 of each year, whereas the Company’s is on June 30. Moreover, in compliance with Israeli regulations, IDBD reports its quarterly and annual results after the expiration of the Argentine statutory terms. For such reasons, the Company will be unable to have available IDBD’s quarterly results as and when due in order to report them to the CNV in its financial statements for the period ended December 31, 2015. Therefore, the Company will consolidate results from IDBD’s operations with a three-month mismatch, adjusted by the effects of material transactions occurred during the reported period. In this way, the results of IDBD’s operations for the period running from October 11, 2015 (date of acquisition) until December 31, 2015 will be included in the interim comprehensive results of the Group for the nine-month period ending on March 31, 2016.

IDBD is one of the largest and most diversified holding companies in Israel. Through its subsidiaries, associates, joint ventures and other investments, IDBD is engaged in numerous markets and industry sectors in Israel and other countries, including real estate (Property & Building Corporation), supermarkets (Shufersal), agroindustry (Adama), insurance (Clal Holdings Insurance Enterprises, hereinafter Clal), and telecommunications (Cellcom). IDBD’s shares are listed in the Tel Aviv Stock Exchange (“TASE”) since May 2014.

Significant assets have been added in various industries in which the Group did not have investments until to date, as well as liabilities for loans taken by IDB and its subsidiaries.

The company is conducting the “Purchase Price Allocation” process. As of December 31, 2015, the degree of progress was 50%, and the expected completion date is June 30, 2016.

We have decided to report our operations based on our main business lines: “Agricultural” and “Urban and Investments” derived from our subsidiary IRSA, which will be in turn subdivided into two operating centers: “Argentina” (including the businesses in Argentina and the international investments in the Lipstick Building in New York and the Condor Hospitality Trust hotel REIT) and “Israel” (including IDBD). From the next

quarter onwards, results will be disclosed according to this breakdown.

Highlights

The 2016 season has been developing under the “El Niño” pattern, with above-average rainfall rates. We have reduced the area to be planted in the region as a result of the sales made during fiscal year 2015, mainly Cremaq in Brazil and Fon Fon in Bolivia. In Argentina, in light of the macroeconomic conditions and the industry’s profitability equation recorded until December 2015, we slightly reduced the area leased to third parties.

Cresud S.A.C.I.F. y A.

Summary as of December 31, 2015

In December 2015, Argentina's new government announced the elimination of withholding taxes on corn and wheat and reduced by 5 pp. withholding taxes on soybean, down to 30% from 35%. These measures, coupled with the release of foreign exchange restrictions and the depreciation of the exchange rate, are much favorable for the Argentine agricultural industry in a context of extremely depressed commodity prices.

In anticipation of the changes in the market conditions, we modified our farming plan by increasing corn and reducing soybean planting during this season. Moreover, as optimum planting conditions in the Argentine northern region, where we have large extensions of arable lands, occur in the month of January, we were able to adequate planting to the new scenario.

As concerns land development and sale of farms, we are analyzing the size of the area to be developed during this season, whilst we expect to be able to consummate sales of farms that have reached optimum appreciation. Following our sale of 4 establishments in the region in 2015 with very good results, we made no sales of farmlands during the first six months of this fiscal year.

Profit from operations from our subsidiary IRSA keeps reflecting the soundness of its business, mainly in its shopping center and office building segments. IRSA's EBITDA, excluding expenses involved in the transfer of assets to IRSA Propiedades Comerciales S.A. in December 2014 and sales of investment properties, grew 28.3% in the first six months of 2016, reaching ARS 1,024.6 million.
