Item 2.05. Costs Associated with Exit or Disposal Activities.

On November 10, 2004, Ferro Corporation (the "Company") committed to a plan to restructure its Polymer Additives business which is part of the Company's Performance Chemicals segment. This restructuring of the business will reduce the organizational cost structure of the Polymer Additives business through the consolidation of activities in both operations and administration and the outsourcing of certain operations activities. This plan does not involve asset write-offs or plant closures, and is expected to be completed by the end of December 2004.

In connection with this action, the Company expects to incur pre-tax expenses related to severance costs of approximately \$2.1 million between now and the completion of the project. The Company currently estimates the plan to result in annual pre-tax savings of \$4.0 to \$5.0 million.
