Item 1.01. Entry into a Material Definitive Agreement.

On April 28, 2005, Neose Technologies, Inc. (the "Company") and BioGeneriX AG ("BioGeneriX"), a company of the ratiopharm Group, entered into a Research, License and Option Agreement (the "License Agreement"). BioGeneriX entered into the License Agreement upon exercise of the option granted to it by the Company under the Supply and Option Agreement between the Company and BioGeneriX dated January 28, 2005. In connection with the exercise of the option and entry into the License Agreement, the Company will receive a non-refundable payment from BioGeneriX.

Under the License Agreement, the Company is entitled to receive research payments for the next 12 months, and potentially milestone payments of up to \$61,500,000 as well as royalties on product sales. The License Agreement provides that the Company will conduct research on behalf of BioGeneriX for approximately 12 months and grants to BioGeneriX the right to obtain an exclusive, worldwide license, upon specified terms, to use the Company's enzymatic technologies to develop and commercialize a long-acting version of the undisclosed therapeutic protein that is the target of the research. If BioGeneriX exercises its right to obtain to this license, BioGeneriX will be responsible for the further development and commercialization of the target protein. In addition, if requested by BioGeneriX, the Company will provide, and be fully reimbursed for, any required technical assistance. The Company will also be entitled, upon request, to supplies of some process reagents from BioGeneriX.

The Company is also collaborating with BioGeneriX on the development and commercialization of a long-acting granulocyte colony stimulating factor under a separate agreement (the "G-CSF Agreement"), which was described in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

The Company does not have any material relationship with BioGeneriX or the ratiopharm Group or their respective affiliates other than as set forth in the License Agreement and the G-CSF Agreement.
