Item 7.01 Regulation FD Disclosure.

F.N.B. Corporation (the "Company") has posted the summary of its annual stress test results required by the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 on its website. The results can be found on the Company's website at www.fnbcorporation.com under Regulatory Disclosures.

In accordance with guidelines prescribed by the Federal bank regulatory agencies, the Company's stress testing results reflect the impact of a hypothetical severely adverse macroeconomic scenario with respect to the Company's earnings, consolidated losses, revenues, expenses, and balance sheet (including risk-weighted assets).

The publication of the severely adverse scenario stress test results by the Company should not be taken as an indication of the Company's present or future performance and investors should not draw any positive or negative inference regarding the Company's stress test results. Moreover, since each of the financial institutions with assets between \$10 billion and \$50 billion who are required to conduct the stress test use their own specific modeling process, there is no meaningful methodology for comparing the resulting data among the reporting financial institutions.

The information furnished by the Company pursuant to this Item 7.01, including Exhibit 99.1, shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that section. The information referenced herein, on our website or that can be accessed through our website, is not part of this report. This report will not be deemed an admission as to the materiality of any information in the report that is required to be disclosed solely by Regulation FD.

Item 9.01 Financial Statements and Exhibits.

A copy of press release announcing the Company's release of a summary of the Company's annual stress test results is included as Exhibit 99.1.
