11,675,000	United States Treasury Note, 3.500%, 5/15/2020	12,785,708
4,000,000	United States Treasury Note, 4.000%, 2/15/2015	4,146,844
	TOTAL U.S. TREASURY (IDENTIFIED COST \$125,160,150)	128,578,910
	INVESTMENT COMPANY—0.7%	
979,252	² Federated Government Obligations Fund, Institutional Shares, 0.01% (IDENTIFIED COST \$979,252)	979,252
	TOTAL INVESTMENTS—100.03% (IDENTIFIED COST \$126,139,402)	129,558,162
	OTHER ASSETS AND LIABILITIES - NET—(0.3)%	(411,771)
	TOTAL NET ASSETS—100%	\$129,146,391

At February 28, 2014, the Fund had the following outstanding futures contracts:

Description	Number of Notional Contracts	Value	Expiration Date	Unrealized Appreciation/
-------------	------------------------------	-------	-----------------	--------------------------

Edgar Filing: Federated Enhanced Treasury Income Fund - Form N-Q

			(Depreciation)
⁵ U.S. Treasury Notes, 10-Year Long Futures	247	\$30,759,219	June 2014 \$142,129
⁵ U.S. Treasury Notes, 20-Year Short Futures	121	\$16,100,563	June 2014 \$(188,161)
⁵ U.S. Treasury Notes, 2-Year Long Futures	449	\$98,723,875	June 2014 \$29,495
⁵ U.S. Treasury Notes, 5-Year Short Futures	100	\$11,985,937	June 2014 \$(26,011)
NET UNREALIZED DEPRECIATION ON FUTURES CONTRACTS			\$(42,548)

The average notional value of long and short futures contracts held by the fund throughout the period was \$109,899,781 and \$19,282,016, respectively. This is based on amounts held as of each month-end throughout the three-month fiscal period.

At February 28, 2014, the Fund had the following outstanding written option contracts:

Security	Expiration Date	Exercise Price	Contracts	Value
⁵ U.S. Treasury Bonds 5-Year Short Calls on Futures	April 2014	\$120	(500)	\$(281,250)
⁵ U.S. Treasury Bonds 10-Year Short Calls on Futures	April 2014	\$124	(110)	\$(97,969)
⁵ U.S. Treasury Bonds 20-Year Short Calls on Futures	April 2014	\$131	(235)	\$(550,781)
(PREMIUMS RECEIVED \$550,286)				\$(930,000)

The average value of written call option contracts held by the fund throughout the period was a net payable of \$602,156. This is based on amounts held as of each month-end throughout the three-month fiscal period.

Net Unrealized Depreciation on Futures Contracts and Value of Written Call Option Contracts is included in “Other Assets and Liabilities—Net.”

1 All or a portion of this security is pledged as collateral to ensure the Fund is able to satisfy the obligations of its outstanding futures contracts.

2 7-day net yield.

At February 28, 2014, the cost of investments for federal tax purposes was \$126,139,402. The net unrealized appreciation of investments for federal tax purposes excluding any unrealized appreciation/depreciation resulting from futures contracts and written call option contracts was \$3,418,760. This consists of net unrealized appreciation from investments for those securities having an excess of value over cost of \$3,429,743 and net unrealized depreciation from investments for those securities having an excess of cost over value of \$10,983.

4 Assets, other than investments in securities, less liabilities.

5 Non-income-producing security.

Note: The categories of investments are shown as a percentage of total net assets at February 28, 2014.

Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

Fixed-income securities acquired with remaining maturities greater than 60 days are fair valued using price evaluations provided by a pricing service approved by the Fund's Board of Trustees (the “Trustees”).

Fixed-income securities and repurchase agreements acquired with remaining maturities of 60 days or less are valued at their amortized cost (adjusted for the accretion of any discount or amortization of any premium), unless the issuer's creditworthiness is impaired or other factors indicate that amortized cost is not an accurate estimate of the investment's fair value, in which case it would be valued in the same manner as a longer-term security.

Shares of other mutual funds or non-exchange-traded investment companies are valued based upon their reported NAVs.

Derivative contracts listed on exchanges are valued at their reported settlement or closing price.

Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Trustees.

For securities that are fair valued in accordance with procedures established by and under the general supervision of the Trustees, certain factors may be considered such as: the purchase price of the security, information obtained by contacting the issuer, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded and public trading in similar securities of the issuer or comparable issuers.

If the Fund cannot obtain a price or price evaluation from a pricing service for an investment, the Fund may attempt to value the investment based upon the mean of bid and asked quotations or fair value the investment based on price evaluations, from one or more dealers. If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, or if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Fund's valuation policies and procedures, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could purchase or sell an investment at the price used to calculate the Fund's NAV.

Fair Valuation Procedures

The Trustees have appointed a Valuation Committee comprised of officers of the Fund, Federated Investment Management Company (“Adviser”) and certain of the Advisor's affiliated companies to determine fair value of securities and in overseeing the calculation of the NAV.

The Trustees have also authorized the use of pricing services recommended by the Valuation Committee to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing-service evaluations including periodic reviews

of third-party pricing services' policies, procedures and valuation methods (including key inputs and assumptions), transactional back-testing, comparisons of evaluations of different pricing services and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Trustees. The Trustees periodically review and approve the fair valuations made by the Valuation Committee and any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a "bid" evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between the prices bid and asked for the investment (a "mid" evaluation). The Fund normally uses bid evaluations for U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for other types of fixed-income securities and OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Trustees.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1—quoted prices in active markets for identical securities, including investments companies with daily net asset values, if applicable

Level 2— other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3— significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Edgar Filing: Federated Enhanced Treasury Income Fund - Form N-Q

The following is a summary of the inputs used, as of February 28, 2014, in valuing the Fund's assets carried at fair value:

Valuation Inputs

	Level 1— Quoted Prices and Investments in Investment Companies	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
Debt Securities:				
U.S. Treasury	\$—	\$128,578,910	\$—	\$128,578,910
Investment Company	979,252	—	—	979,252
TOTAL SECURITIES	979,252	128,578,910	—	129,558,162
OTHER FINANCIAL INSTRUMENTS*	\$(972,548)	\$—	\$—	\$(972,548)

*Other financial instruments include written call option contracts and futures contracts.
