GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Operations and Summary of Significant Accounting Policies

Background

GameStop Corp. (“GameStop,” “we,” “us,” “our,” or the “Company”) is a global family of specialty retail brands that makes the most popular technologies affordable and simple. Within our family of brands, we are the world’s largest omnichannel video game retailer, the largest AT&T® (“AT&T”) authorized reseller, the largest Apple® (“Apple”) certified products reseller, a Cricket Wireless™ reseller (“Cricket,” an AT&T brand) and the owner of www.thinkgeek.com, one of the world’s largest sellers of collectible pop-culture themed products. As the world’s largest omnichannel video game retailer, we sell new and pre-owned video game hardware, physical and digital video game software, video game accessories, as well as new and pre-owned mobile and consumer electronics products and other merchandise primarily through our GameStop, EB Games and Micromania stores. In July 2015, we acquired Geeknet, Inc. (“Geeknet”), an online and wholesale retailer that sells collectibles, apparel, gadgets, electronics, toys and other retail products for technology enthusiasts and general consumers under the name ThinkGeek through the www.thinkgeek.com website. ThinkGeek also sells certain exclusive products to wholesale channel customers. As of April 30, 2016, we operated 7,074 stores, in the United States, Australia, Canada and Europe, which are primarily located in major shopping malls and strip centers. We also operate electronic commerce websites www.gamestop.com, www.ebgames.com.au, www.ebgames.co.nz, www.gamestop.ca, www.gamestop.it, www.gamestop.ie, www.gamestop.de, www.gamestop.co.uk and www.micromania.fr. The network also includes: www.kongregate.com, a leading browser-based game site; Game Informer magazine, the world’s leading print and digital video game publication; and iOS and Android mobile applications.

We operate our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment. Our Technology Brands segment owns and operates Spring Mobile, an authorized AT&T reseller operating AT&T branded wireless retail stores and pre-paid wireless stores under the name Cricket (an AT&T brand) in the United States, as well as a certified Apple reseller selling Apple consumer electronic products in the United States under the name Simply Mac.

Basis of Presentation and Consolidation

The unaudited condensed consolidated financial statements include our accounts and the accounts of our subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting only of normal, recurring adjustments) which are, in our opinion, necessary for a fair presentation of the information as of and for the periods presented. These unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all disclosures required under GAAP for complete consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with our annual report on Form 10-K, as amended, for the 52 weeks ended January 30, 2016 (the “2015 Annual Report on Form 10-K”). The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results. Actual results could differ from those estimates. Due to the seasonal nature of our business, the results of operations for the 13 weeks ended April 30, 2016 are not indicative of the results to be expected for the 52 weeks ending January 28, 2017 (“fiscal 2016”).

Restricted Cash

Restricted cash of \$10.5 million, \$12.0 million and \$9.7 million as of April 30, 2016, May 2, 2015 and January 30, 2016, respectively, consists primarily of bank deposits serving as collateral for bank guarantees issued on behalf of our foreign subsidiaries and is included in other noncurrent assets in our unaudited condensed consolidated balance sheets.

Recently Implemented Accounting Pronouncements

In November 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-17, Balance Sheet Classification of Deferred Taxes. The standard amends the current requirement for organizations to present deferred tax liabilities and assets as current and noncurrent in a classified balance sheet. Instead, organizations will now be required to classify all deferred tax assets and liabilities as noncurrent. The ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, with early adoption permitted. The Company early adopted this standard during

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

the fourth quarter of fiscal 2015, utilizing prospective application as permitted. As such, certain prior period amounts have not been retrospectively adjusted to conform to the current presentation.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. This standard requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 became effective for interim and annual reporting periods beginning after December 15, 2015. We adopted this guidance as of January 31, 2016, and as a result have recast the May 2, 2015 and January 30, 2016 condensed consolidated balance sheets to conform to the current period presentation. The adoption of this standard reduced previously presented prepaid expenses and other current assets by \$1.3 million, other noncurrent assets by \$4.3 million, and long-term debt by \$5.6 million for the period ended May 2, 2015 based upon the balance of unamortized debt financing costs relating to our Senior Notes due 2019. The adoption of this standard also reduced previously presented prepaid expenses and other current assets by \$1.3 million, other noncurrent assets by \$3.3 million, and long-term debt by \$4.6 million, for the period ended January 30, 2016 based upon the balance of unamortized debt financing costs relating to our Senior Notes due 2019.

Recently Issued Accounting Pronouncements

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting. The update simplifies several aspects of accounting for employee share-based payment transactions for both public and nonpublic entities, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. The ASU is effective for fiscal years beginning after December 15, 2016, including interim periods within those years, with early adoption permitted. We do not anticipate that adoption of this standard will have a material impact to our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers. The standard addresses the implementation guidance on principal versus agent considerations in the new revenue recognition standard. The ASU clarifies how an entity should identify the unit of accounting (i.e. the specified good or service) for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. The ASU is effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2017, with early adoption permitted. We do not anticipate that adoption of this standard will have a material impact to our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-04, Recognition of Breakage for Certain Prepaid Stored-Value Products. The standard specifies how prepaid stored-value product liabilities should be derecognized, thereby eliminating the current and potential future diversity in practice. Consistent with ASU 2014-09 related to revenue recognition, the standard requires derecognition in proportion with the rights expected to be exercised by the holder. The ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, with early adoption permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases. The standard requires a lessee to recognize a liability related to lease payments and an offsetting right-of-use asset representing a right to use the underlying asset for the lease term on the balance sheet. The ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements.

In May 2014, as part of its ongoing efforts to assist in the convergence of U.S. GAAP and International Financial Reporting Standards (“IFRS”), the FASB issued ASU 2014-09 related to revenue recognition. The new guidance sets forth a new five-step revenue recognition model which replaces the prior revenue recognition guidance in its entirety and is intended to eliminate numerous industry-specific pieces of revenue recognition guidance that have historically existed in U.S. GAAP. The underlying principle of the new standard is that a business or other organization will recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. The standard also requires more detailed disclosures and provides

additional guidance for transactions that were not addressed completely in the prior accounting guidance. The ASU provides alternative methods of initial adoption and is effective for annual periods beginning after December 15, 2016 and interim periods within those annual periods. In August 2015, the FASB issued ASU 2015-14 which defers the effective date of ASU 2014-09 one year making it effective for annual reporting periods beginning on or after December 15, 2017 while also providing for early adoption as of the original effective date. We anticipate that the standard will affect the way that we recognize liabilities for our customer incentives. We are currently continuing to evaluate the impact that this standard will have on our consolidated financial statements as well as the appropriate method of adoption.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. Accounting for Stock-Based Compensation

The following is a summary of the stock-based awards granted during the periods indicated:

	13 Weeks Ended April 30, 2016	13 Weeks Ended May 2, 2015
	Weighted Average Share Grant Date Fair Value	Weighted Average Share Grant Date Fair Value
	(In thousands, except per share data)	
Restricted stock awards – time-vested	550 \$ 30.54	428 \$ 40.16
Restricted stock awards – performance-based	213 30.50	189 40.16
Total stock-based awards	763	617

For restricted stock awards and stock options granted, we record stock-based compensation expense in earnings based on the grant-date fair value. The fair value of each restricted stock award grant is based on the closing price of our Class A Common Stock on the grant date. The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option pricing model. No stock options were granted during the 13 weeks ended April 30, 2016 or the 13 weeks ended May 2, 2015.

Total stock-based compensation recognized in selling, general and administrative expenses during the 13 weeks ended April 30, 2016 and the 13 weeks ended May 2, 2015 was \$6.7 million and \$10.3 million, respectively. Upon adoption of the Company's retirement policy during the 13 weeks ended May 2, 2015, \$3.8 million of compensation expense was recognized related to employees whose equity based long-term incentive awards are subject to certain accelerated vesting provisions, based on age and years of service.

As of April 30, 2016, the unrecognized compensation expense related to the unvested portion of our stock options was \$0.7 million, which is expected to be recognized over a weighted average period of 0.8 years, and the unrecognized compensation expense related to unvested restricted shares was \$38.3 million, which is expected to be recognized over a weighted average period of 2.1 years. The total intrinsic value of options exercised during the 13 weeks ended April 30, 2016 and the 13 weeks ended May 2, 2015 was \$0.1 million and \$3.6 million, respectively.

3. Computation of Net Income per Common Share

Basic net income per common share is computed by dividing the net income available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing the net income available to common stockholders by the weighted average number of common shares outstanding and potentially dilutive securities outstanding during the period. Under the treasury stock method, potentially dilutive securities include stock options and unvested restricted stock outstanding during the period. Potentially dilutive securities are excluded from the computations of diluted earnings per share if their effect would be antidilutive.

A reconciliation of shares used in the computation of basic and diluted net income per common share is as follows:

13 Weeks Ended April 30, 2016	13 Weeks Ended May 2, 2015
(In millions, except per share data)	

Edgar Filing: GameStop Corp. - Form 10-Q

Net income	\$65.8	\$ 73.8
Weighted average common shares outstanding	103.8	107.8
Dilutive effect of options and restricted shares on common stock ⁽¹⁾	0.4	0.6
Common shares and dilutive potential common shares	104.2	108.4
Net income per common share:		
Basic	\$0.63	\$ 0.68
Diluted	\$0.63	\$ 0.68

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Excludes 1.2 million and 0.9 million stock-based awards for the 13 weeks ended April 30, 2016, and the 13 weeks ended May 2, 2015, respectively, because their effects were antidilutive.

4. Fair Value Measurements and Financial Instruments

Recurring Fair Value Measurements and Derivative Financial Instruments

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value accounting guidance applies to our foreign currency contracts, which include forward exchange contracts, foreign currency options and cross-currency swaps, our Company-owned life insurance policies with a cash surrender value and certain nonqualified deferred compensation liabilities that are measured at fair value on a recurring basis in periods subsequent to initial recognition.

Fair value accounting guidance requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar instruments in active markets, quoted prices for similar or identical instruments in markets that are not active and model-derived valuations in which all significant inputs are observable in active markets. Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants. We classify our foreign currency contracts, Company-owned life insurance policies with cash surrender values and certain nonqualified deferred compensation liabilities within Level 2 of the fair value hierarchy, as their fair values are derived using quotes provided by major market news services, such as Bloomberg, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures, all of which are observable in active markets. When appropriate, valuations are adjusted to reflect credit considerations, generally based on available market evidence.

The following table provides the fair value of our assets and liabilities measured at fair value on a recurring basis and recorded in our unaudited condensed consolidated balance sheets (in millions):

	April 30, 2016	May 2, 2015	January 30, 2016
	Level 2	Level 2	Level 2
Assets			
Foreign currency contracts			
Other current assets	\$ 21.4	\$ 33.0	\$ 40.6
Other noncurrent assets	—	16.7	0.1
Company-owned life insurance ⁽¹⁾	10.3	8.9	10.1
Total assets	\$ 31.7	\$ 58.6	\$ 50.8
Liabilities			
Foreign currency contracts			
Accrued liabilities	\$ 10.9	\$ 19.4	\$ 32.3
Other long-term liabilities	—	6.3	0.5
Nonqualified deferred compensation ⁽²⁾	1.2	1.2	1.1
Total liabilities	\$ 12.1	\$ 26.9	\$ 33.9

(1) Recognized in other non-current assets in our unaudited condensed consolidated balance sheets.

(2) Recognized in accrued liabilities in our unaudited condensed consolidated balance sheets.

We use forward exchange contracts, foreign currency options and cross-currency swaps (together, the “foreign currency contracts”) to manage currency risk primarily related to intercompany loans denominated in non-functional currencies and certain foreign currency assets and liabilities. The foreign currency contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans and foreign currency assets and liabilities. The total gross notional value of derivatives related to our foreign currency contracts was \$804.4 million, \$989.0 million and \$925.3 million as of April 30, 2016, May 2, 2015 and January 30, 2016, respectively.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Activity related to derivative instruments and the offsetting impact of related intercompany loans and foreign currency assets and liabilities recognized in selling, general and administrative expense is as follows (in millions):

	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Gains on the change in fair value of derivative instruments	\$2.1	\$ 7.0
Losses on the remeasurement of related intercompany loans and foreign currency assets and liabilities	(0.5)	(7.0)
Total	\$1.6	\$ —

We do not use derivative financial instruments for trading or speculative purposes. We are exposed to counterparty credit risk on all of our derivative financial instruments and cash equivalent investments. We manage counterparty risk according to the guidelines and controls established under our comprehensive risk management and investment policies. We continuously monitor our counterparty credit risk and utilize a number of different counterparties to minimize our exposure to potential defaults. We do not require collateral under derivative or investment agreements.

Nonrecurring Fair Value Measurements

In addition to assets and liabilities that are recorded at fair value on a recurring basis, we record certain assets and liabilities at fair value on a nonrecurring basis as required by GAAP. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges. We did not record any significant impairment charges related to assets measured at fair value on a nonrecurring basis during the 13 weeks ended April 30, 2016 or May 2, 2015.

Other Fair Value Disclosures

The carrying values of our cash equivalents, receivables, net and accounts payable approximate the fair value due to their short-term maturities.

As of April 30, 2016, our Senior Notes due 2019 had a net carrying value of \$345.7 million and a fair value of \$341.3 million, and our Senior Notes 2021 had a net carrying value of \$466.7 million and a fair value of \$465.5 million. The fair values of the 2019 Senior Notes and the 2021 Senior Notes were determined based on quoted market prices obtained through an external pricing source which derives its price valuations from daily marketplace transactions, with adjustments to reflect the spreads of benchmark bonds, credit risk and certain other variables. We have determined these to be Level 2 measurements as all significant inputs into the quotes provided by our external pricing source are observable in active markets.

5. Debt

2019 Senior Notes. On September 24, 2014, we issued \$350.0 million aggregate principal amount of unsecured 5.50% senior notes due October 1, 2019 (the "2019 Senior Notes"). The 2019 Senior Notes bear interest at the rate of 5.50% per annum with interest payable semi-annually in arrears on April 1 and October 1 of each year beginning on April 1, 2015. The 2019 Senior Notes were sold in a private placement and will not be registered under the U.S. Securities Act of 1933 (the "Securities Act"). The 2019 Senior Notes were offered in the U.S. to "qualified institutional buyers" pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act. The outstanding principal balance of the 2019 Senior Notes at April 30, 2016 was \$350.0 million.

2021 Senior Notes. In March 2016, we issued \$475.0 million aggregate principal amount of unsecured 6.75% senior notes due March 15, 2021 (the "2021 Senior Notes"). The 2021 Senior Notes bear interest at the rate of 6.75% per annum with interest payable semi-annually in arrears on March 15 and September 15 of each year beginning on September 15, 2016. The net proceeds from the offering will be used for general corporate purposes, which will likely include acquisitions, and, potentially, dividends and stock buybacks. The 2021 Senior Notes were sold in a private placement and will not be registered under the Securities Act. The 2021 Senior Notes were offered in the U.S. to

"qualified institutional buyers" pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act. The outstanding principal balance of the 2021 Senior Notes at April 30, 2016 was \$475.0 million.

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The indentures governing the 2019 Senior Notes and the 2021 Senior Notes (together, the "Senior Notes") do not contain financial covenants but do contain covenants which place certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, stock repurchases, the incurrence of additional debt and the repurchase of debt that is junior to the Senior Notes. In addition, the indentures restrict payments of dividends to stockholders (other than dividends payable in shares of capital stock) if one of the following conditions exist: (i) an event of default has occurred, (ii) we could not incur additional debt under the general debt covenant of the indentures or (iii) the sum of the proposed dividend and all other dividends and other restricted payments made under the indentures from the date of the indentures governing the Senior Notes exceeds the sum of 50% of consolidated net income plus 100% of net proceeds from capital stock sales and other amounts set forth in and determined as provided in the indentures. These restrictions are subject to exceptions and qualifications, including that we can pay up to \$175 million in dividends to stockholders in each fiscal year and we can pay dividends and make other restricted payments in an unlimited amount if our leverage ratio on a pro forma basis after giving effect to the dividend payment and other restricted payments would be less than or equal to 1.0:1.0.

The indentures contain customary events of default, including payment defaults, breaches of covenants, failure to pay certain judgments and certain events of bankruptcy, insolvency and reorganization. If an event of default occurs and is continuing, the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, may be declared immediately due and payable. These amounts automatically become due and payable if an event of default relating to certain events of bankruptcy, insolvency or reorganization occurs.

The carrying value of our long-term debt is comprised as follows (in millions):

	April 30, 2016	May 2, 2015	January 30, 2016
2019 Senior Notes principal amount	\$350.0	\$350.0	\$350.0
2021 Senior Notes principal amount	475.0	—	—
Less: Unamortized debt financing costs ⁽¹⁾	(12.6)	(5.6)	(4.6)
Long-term debt, net	\$812.4	\$344.4	\$345.4

⁽¹⁾ Includes the reclassification of debt financing costs from "Prepays and other current assets" and "Other noncurrent assets" as a result of the Company adopting ASU 2015-03. See Note 1.

Revolving Credit Facility. On January 4, 2011, we entered into a \$400 million credit agreement, which we amended and restated on March 25, 2014 and further amended on September 15, 2014 (the "Revolver"). The Revolver is a five-year, asset-based facility that is secured by substantially all of our assets and the assets of our domestic subsidiaries. Availability under the Revolver is subject to a monthly borrowing base calculation. The Revolver includes a \$50 million letter of credit sublimit. The amendments extended the maturity date to March 25, 2019; increased the expansion feature under the Revolver from \$150 million to \$200 million, subject to certain conditions; and revised certain other terms, including a reduction of the fee we are required to pay on the unused portion of the total commitment amount.

Borrowing availability under the Revolver is limited to a borrowing base which allows us to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. The borrowing base provides for borrowing of up to 92.5% of the appraisal value during the fiscal months of August through October. Letters of credit reduce the amount available to borrow under the Revolver by an amount equal to the face value of the letters of credit. Our ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if either 1) excess availability under the Revolver is less than 30%, or is projected to be within 12 months after such payment or 2) excess availability under the Revolver is less than 15%, or is projected to be within 12 months after such payment, and the fixed charge coverage ratio, as

calculated on a pro-forma basis for the prior 12 months is 1.1:1.0 or less. In the event that excess availability under the Revolver is at any time less than the greater of (1) \$30 million or (2) 10% of the lesser of the total commitment or the borrowing base, we will be subject to a fixed charge coverage ratio covenant of 1.0:1.0.

The Revolver places certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from our lenders, we may not incur more than \$1 billion of senior secured debt and \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more.

The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 0.25% to 0.75% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

0.50% or (c) the London Interbank Offered (“LIBO”) rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 1.25% to 1.75% above the LIBO rate. The applicable margin is determined quarterly as a function of our average daily excess availability under the facility. In addition, we are required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of April 30, 2016, the applicable margin was 0.25% for prime rate loans and 1.25% for LIBO rate loans.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by us or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting us or our subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. During the 13 weeks ended April 30, 2016, we cumulatively borrowed \$100.0 million and subsequently repaid \$100.0 million under the Revolver. Average borrowings under the Revolver for the 13 weeks ended April 30, 2016 were \$19.0 million and our average interest rate on those borrowings was 3.7%. As of April 30, 2016, total availability under the Revolver was \$391.6 million, with no outstanding borrowings and outstanding standby letters of credit of \$8.4 million.

In September 2007, our Luxembourg subsidiary entered into a discretionary \$20 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit is available to our foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of April 30, 2016, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$2.0 million.

6. Commitments and Contingencies

In the ordinary course of business, we are, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions, shareholder actions and consumer class actions. We may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if we believe settlement is in the best interest of our stockholders. We do not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material effect on our financial condition, results of operations or liquidity.

Certain of our French subsidiaries have been under audit by the French Tax Administration (the “FTA”) for fiscal years 2008 through 2012. We received tax reassessment notices on December 23, 2015 and April 4, 2016, pursuant to which the FTA asserted that the French subsidiaries were ineligible to claim certain tax deductions from November 4, 2008, through January 31, 2013, resulting in a potential additional tax charge of approximately €85.5 million. We may receive additional tax reassessments in material amounts for subsequent fiscal years. We filed a response to each reassessment and intend to vigorously contest the reassessments through administrative procedures. If we are unable to resolve this matter through administrative remedies at the FTA, we plan to pursue judicial remedies. We believe our tax positions will be sustained and have not taken a reserve for any potential adjustment based on the reassessment. If we were not to prevail, then the adjustment to our income tax provision could be material.

Total	\$675.5	34.3 %	\$639.0	31.0 %

(1) Includes sales of hardware bundles, in which physical hardware and digital or physical software are sold together as a single SKU.

(2) Other products include revenues from sales of PC entertainment software, interactive toys, strategy guides and revenues from PowerUp Pro loyalty members receiving Game Informer magazine in physical form.

8. Segment Information

We report our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment, which includes the operations of our Spring Mobile managed AT&T and Cricket Wireless branded stores and our Simply Mac business. We identify segments based on a combination of geographic areas and management responsibility. Each of the segments includes significant retail operations with all Video Game Brands stores engaged in the sale of new and pre-owned video game systems, software and related accessories and collectibles, and Technology Brands stores engaged in the sale of wireless

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

products and services and other consumer electronics. Segment results for the United States include retail operations in 50 states, the District of Columbia, Guam and Puerto Rico; our electronic commerce websites www.gamestop.com and www.thinkgeek.com; Game Informer magazine; and Kongregate, our leading web and mobile gaming platform. Segment results for Canada include retail and e-commerce operations in Canada and segment results for Australia include retail and e-commerce operations in Australia and New Zealand. Segment results for Europe include retail operations in 10 European countries and e-commerce operations in five countries. The Technology Brands segment includes retail operations in the United States. We measure segment profit using operating earnings, which is defined as income from continuing operations before intercompany royalty fees, net interest expense and income taxes. Transactions between reportable segments consist primarily of royalties, management fees, intersegment loans and related interest. There were no material intersegment sales during the 13 weeks ended April 30, 2016 and May 2, 2015.

The reconciliation of segment profit to earnings before income taxes for the 13 weeks ended April 30, 2016 and May 2, 2015, respectively, is as follows (in millions):

13 weeks ended April 30, 2016	United States	Canada	Australia	Europe	Technology Brands	Consolidated
Net sales	\$ 1,368.6	\$ 77.7	\$ 109.9	\$ 249.5	\$ 165.8	\$ 1,971.5
Segment operating earnings (loss)	94.4	3.8	0.5	(3.5)	18.8	114.0
Interest income						0.2
Interest expense						(11.0)
Earnings before income taxes						\$ 103.2

13 weeks ended May 2, 2015	United States	Canada	Australia	Europe	Technology Brands	Consolidated
Net sales	\$ 1,492.7	\$ 89.7	\$ 112.0	\$ 264.0	\$ 102.2	\$ 2,060.6
Segment operating earnings (loss)	120.5	3.7	1.7	(5.1)	3.1	123.9
Interest income						0.2
Interest expense						(5.6)
Earnings before income taxes						\$ 118.5

9. Subsequent Events

Dividend

On May 24, 2016, our Board of Directors approved a quarterly cash dividend to our stockholders of \$0.37 per share of Class A Common Stock payable on June 21, 2016 to stockholders of record at the close of business on June 8, 2016.

Future dividends will be subject to approval by our Board of Directors.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the information contained in our unaudited condensed consolidated financial statements, including the notes thereto. Statements regarding future economic performance, management's plans and objectives, and any statements concerning assumptions related to the foregoing contained in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute forward-looking statements. See our Annual Report on Form 10-K, as amended, for the fiscal year ended January 30, 2016 filed with the Securities and Exchange Commission (the "SEC") on March 29, 2016 (the "2015 Annual Report on Form 10-K"), including the factors disclosed under "Item 1A. Risk Factors," as well as "Disclosure Regarding Forward-looking Statements" and "Item 1A. Risk Factors" below, for certain factors which may cause actual results to vary materially from these forward-looking statements.

General

We are a global family of specialty retail brands that makes the most popular technologies affordable and simple. Within our family of brands, we are the world's largest omnichannel video game retailer, the largest AT&T® ("AT&T") authorized reseller, the largest Apple® ("Apple") certified products reseller, a Cricket Wireless™ reseller ("Cricket," an AT&T brand) and the owner of www.thinkgeek.com, one of the world's largest sellers of collectible pop-culture themed products. As the world's largest omnichannel video game retailer, we sell new and pre-owned video game hardware, physical and digital video game software, video game accessories, as well as new and pre-owned mobile and consumer electronics products and other merchandise primarily through our GameStop, EB Games and Micromania stores. As of April 30, 2016, we operated 7,074 stores, in the United States, Australia, Canada and Europe, which are primarily located in major shopping malls and strip centers. We also operate electronic commerce websites www.gamestop.com, www.ebgames.com.au, www.ebgames.co.nz, www.gamestop.ca, www.gamestop.it, www.gamestop.ie, www.gamestop.de, www.gamestop.co.uk and www.micromania.fr. The network also includes: www.kongregate.com, our leading web and mobile gaming platform; Game Informer magazine, the world's leading print and digital video game publication; and iOS and Android mobile applications. In addition, over the last two years, we have expanded our in-store selection of licensed merchandise and our collectibles business. In 2014, we introduced a stand-alone concept branded Zing Pop Culture to sell pop culture themed merchandise. To further expand our offering, we recently acquired Geeknet, Inc., an online and wholesale retailer that sells collectibles, apparel, gadgets, electronics, toys and other retail products for technology enthusiasts and general consumers under the name ThinkGeek through the www.thinkgeek.com website. ThinkGeek also sells certain exclusive products to wholesale channel customers. We now have 34 collectibles stores internationally branded Zing Pop Culture and three ThinkGeek stores in the United States. We also own and operate Spring Mobile, an authorized AT&T reseller operating AT&T branded wireless retail stores and pre-paid wireless stores under the name Cricket (an AT&T brand) in the United States, as well as a certified Apple reseller selling Apple consumer electronics products in the United States under the name Simply Mac. We operate our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment, which includes the operations of our Spring Mobile managed AT&T and Cricket branded stores and our Simply Mac business.

Our fiscal year is composed of the 52 or 53 weeks ending on the Saturday closest to the last day of January. The fiscal year ending January 28, 2017 ("fiscal 2016") and the fiscal year ended January 30, 2016 ("fiscal 2015") each consists of 52 weeks.

Growth in the video game industry is generally driven by the introduction of new technology. Gaming consoles are typically launched in cycles as technological developments provide significant improvements in graphics, audio quality, game play, internet connectivity and other entertainment capabilities beyond video gaming. The current generation of consoles (the Sony PlayStation 4, the Microsoft Xbox One and the Nintendo Wii U) was introduced between November 2012 and November 2013.

We expect that future growth in the video game industry will also be driven by the sale of video games delivered in digital form and the expansion of other forms of gaming. We currently sell various types of products that relate to the digital category, including digitally downloadable content ("DLC"), full game downloads, Xbox LIVE, PlayStation Plus

and Nintendo network points cards, as well as prepaid digital and prepaid subscription cards. We have made significant investments in e-commerce and in-store and website functionality to enable our customers to access digital content easily and facilitate the digital sales and delivery process. We plan to continue to invest in these types of processes and channels to grow our digital sales base and enhance our market leadership position in the video game industry and in the digital aggregation and distribution category.

We continue to diversify our business by seeking out opportunities to extend our core competencies to other businesses and retail categories, including mobile and consumer electronics and collectibles, to continue to grow and to help mitigate the financial impact from the cyclical nature of the video game console cycle and regularly evaluate potential acquisition opportunities, some of which could be material. In fiscal 2013, we completed our acquisitions of Simply Mac, an authorized Apple reseller currently operating in 76 stores, and Spring Mobile, an authorized AT&T reseller currently operating in 908 AT&T branded stores and 70 Cricket branded stores. We intend to continue to expand the number of our Technology Brands stores in the near future. Additionally,

Table of Contents

in 2014, we introduced stand-alone collectibles stores and expanded the selection of collectible products in our stores. To further expand our collectibles business, we acquired ThinkGeek in 2015, and we plan to continue investing in this category going forward. We continue to seek to invest in other retail concepts and product lines with the intention of further diversifying our business.

Critical Accounting Policies

Our unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and do not include all disclosures required under GAAP for complete financial statements. Preparation of these statements requires us to make judgments and estimates. Some accounting policies have a significant impact on amounts reported in these financial statements. For a summary of significant accounting policies and the means by which we develop estimates thereon, see “Part 2 - Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2015 Annual Report on Form 10-K. There have been no material changes to our critical accounting policies from those included in our 2015 Annual Report on Form 10-K.

Consolidated Results of Operations

The following table sets forth certain statement of operations items (in millions) and as a percentage of net sales, for the periods indicated:

	13 Weeks Ended			
	April 30, 2016		May 2, 2015	
	Dollars	Percent	Dollars	Percent
Statement of Operations Data:				
Net sales	\$1,971.5	100.0%	\$2,060.6	100.0%
Cost of sales	1,296.0	65.7	1,421.6	69.0
Gross profit	675.5	34.3	639.0	31.0
Selling, general and administrative expenses	520.8	26.4	479.3	23.3
Depreciation and amortization	40.7	2.1	35.8	1.7
Operating earnings	114.0	5.8	123.9	6.0
Interest expense, net	10.8	0.6	5.4	0.2
Earnings before income tax expense	103.2	5.2	118.5	5.8
Income tax expense	37.4	1.9	44.7	2.2
Net income	\$65.8	3.3 %	\$73.8	3.6 %

We include purchasing, receiving and distribution costs primarily in selling, general and administrative expenses, rather than in cost of sales, in the statement of operations. We include processing fees associated with purchases made by credit cards in cost of sales, rather than selling, general and administrative expenses, in the statement of operations. As a result of these classifications, our gross margins are not comparable to those retailers that include purchasing, receiving and distribution costs in cost of sales and include processing fees associated with purchases made by credit cards in selling, general and administrative expenses. The net effect of these classifications as a percentage of sales has not historically been material.

The following tables set forth net sales (in millions), percentages of total net sales, gross profit (in millions) and gross profit percentages by significant product category for the periods indicated:

Table of Contents

Net Sales

Net sales decreased \$89.1 million, or 4.3%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015. The decrease in net sales was primarily attributable to a decrease in comparable store sales of 6.2% compared to the prior year period. The decrease in comparable store sales was primarily a result of the prior year Nintendo 3DS XL handheld launch, a reduction in price and quantity of next generation hardware and stronger title releases in the prior year quarter. These decreases were partially offset by increased sales of collectibles with the addition of our ThinkGeek business which we acquired in July 2015, coupled with continued growth in the Technology Brands segment.

The decrease in net sales was due to the following:

New video game hardware sales decreased \$126.8 million, or 28.8%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015 primarily due to a Nintendo 3DS XL handheld launch in the prior year quarter and a reduction in the quantity of next generation hardware units sold coupled with a reduction in selling price as the console cycle matures.

New video game software sales decreased \$46.4 million, or 7.6%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, due to a stronger lineup of new title releases in the prior year quarter.

Pre-owned and value video game product sales decreased \$21.5 million, or 3.7%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, primarily due to the decrease in store traffic as a result of fewer new release titles in the current year quarter.

- Other product category sales decreased \$18.7 million, or 27.2%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, due to the decline in sales of interactive toys.

The decreases described above were partially offset by the following:

Collectibles sales increased \$59.5 million, or 261.0%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, due to the addition of ThinkGeek and growth of collectibles sales in our Video Game Brands stores.

Mobile and consumer electronics sales increased \$55.8 million, or 40.8%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, primarily due to the acquisition and opening of stores within the Technology Brands segment. Sales related to the Technology Brands segment increased \$63.6 million for the current year quarter as compared to the prior year. This was offset in part by a decrease in mobile and consumer electronics sales in our Video Game Brands stores.

Video game accessories sales increased \$12.2 million, or 8.1%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, due to greater sales of accessories for use with the next generation consoles.

Cost of Sales

Cost of sales decreased \$125.6 million, or 8.8%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, primarily as a result of the decrease in net sales discussed above and the changes in gross profit discussed below.

Gross Profit

Gross profit increased \$36.5 million, or 5.7%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015, and gross profit as a percentage of net sales was 34.3% in the current year compared to 31.0% in the prior year period. The gross profit increase was primarily driven by the growth in the mobile and consumer electronics category related to our Technology Brands segment, which increased gross profit by \$57.4 million year-over-year and increased gross profit as a percentage of sales, as well as the increase in sales of collectibles, which increased gross profit by \$19.7 million.

The net increase in gross profit as a percentage of net sales was due to the following:

Gross profit as a percentage of sales on mobile and consumer electronics increased to 61.1% in the 13 weeks ended April 30, 2016 from 39.8% in the 13 weeks ended May 2, 2015, due to the increased mix of sales in the Technology Brands segment, which have higher margins than other mobile and consumer electronics sales in the category.

Gross profit as a percentage of sales on digital sales increased to 86.4% in the 13 weeks ended April 30, 2016 from 77.0% in the 13 weeks ended May 2, 2015, due to a shift in the mix of the digital products we sell.

The increase described above was offset by the following:

Gross profit as a percentage of sales on pre-owned and value video game products decreased to 46.9% in the 13 weeks ended April 30, 2016 from 49.1% in the 13 weeks ended May 2, 2015, due to a greater mix of sales of next generation video game products, which carry lower gross margins early in the console cycle than the previous generation products.

19

Table of Contents

As the console cycle matures, we generally expect gross profit on the sales of next generation video game products to increase.

Gross profit as a percentage of sales on video game accessories decreased to 35.1% in the 13 weeks ended April 30, 2016 from 37.1% in the 13 weeks ended May 2, 2015, due to the change in mix of sales of headsets, controllers and memory.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$41.5 million, or 8.7%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015. The increase was primarily due to the growth of the Technology Brands segment, which carries higher selling, general and administrative expenses as a percentage of sales than the other segments. Technology Brands selling, general and administrative expenses increased \$38.1 million in the current year compared to the prior year period, due to an additional 505 Technology Brands stores added since the prior year quarter. Included in selling, general and administrative expenses are \$6.7 million and \$10.3 million in stock-based compensation expense for the 13 weeks ended April 30, 2016 and May 2, 2015, respectively.

Depreciation and Amortization

Depreciation and amortization expense increased \$4.9 million, or 13.7%, for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015. This increase was primarily due to the acquisition and opening of stores in our Technology Brands segment.

Interest Expense, Net

Interest expense, net increased \$5.4 million for the 13 weeks ended April 30, 2016 compared to the 13 weeks ended May 2, 2015 due to the issuance of the \$475.0 million unsecured 6.75% senior notes due March 15, 2021 in March 2016, which is discussed more fully in Note 5, "Debt," to our unaudited condensed consolidated financial statements.

Income Tax Expense

Income tax expense was \$37.4 million, representing an effective tax rate of 36.2%, for the 13 weeks ended April 30, 2016, compared to \$44.7 million, representing an effective tax rate of 37.7%, for the 13 weeks ended May 2, 2015. The difference in the effective income tax rate between the current and prior year period was primarily due to the relative mix of earnings across the jurisdictions within which we operate.

Operating Earnings and Net Income

The factors described above led to operating earnings of \$114.0 million for the 13 weeks ended April 30, 2016, or an 8.0% decrease from operating earnings of \$123.9 million for the 13 weeks ended May 2, 2015. Additionally, net income was \$65.8 million for the 13 weeks ended April 30, 2016, which represented a 10.8% decrease from net income of \$73.8 million for the 13 weeks ended May 2, 2015.

Segment Performance

We report our business in the following segments: Video Game Brands, which consists of four segments in the United States, Canada, Australia and Europe, and Technology Brands. We identified these segments based on a combination of geographic areas, the methods with which we analyze performance, the way in which our sales and profits are derived and how we divide management responsibility. Our sales and profits are driven through our physical stores which are highly integrated with our e-commerce, digital and mobile businesses. Due to this integration, our physical stores are the basis for our segment reporting. Each of the Video Game Brands segments consists primarily of retail operations, with all stores engaged in the sale of new and pre-owned video game systems, software and accessories (which we refer to as video game products), new and pre-owned mobile devices and related accessories. These products are substantially the same regardless of geographic location, with the primary differences in merchandise carried being the timing of the release of new products or technologies in the various segments.

With our presence in international markets, we have operations in several foreign currencies, including the Euro, Australian dollar, New Zealand dollar, Canadian dollar, British pound, Swiss franc, Danish kroner, Swedish krona, and the Norwegian kroner.

Operating earnings (loss) by operating segment, defined as income (loss) from operations before intercompany royalty fees, net interest expense and income taxes, and net sales by reportable unit in U.S. dollars were as follows (in millions):

Comparable store sales ⁽¹⁾	9.1 %	12.4 %	11.7 %	3.4 %	n/a	8.6 %

Comparable store sales is a measure commonly used in the retail industry and indicates store performance by measuring the growth in sales for certain stores for a particular period over the corresponding period in the prior year. Our comparable store sales are comprised of sales from our Video Game Brands stores operating for at least 12 full months as well as sales related to our websites and sales we earn from sales of pre-owned merchandise to wholesalers or dealers. Comparable store sales for our international operating segments exclude the effect of changes in foreign currency exchange rates. The calculation of comparable store sales for the 13 weeks ended April 30, 2016 compares the 13 weeks for the period ended April 30, 2016 to the most closely comparable weeks for the prior year period. The method of calculating comparable store sales varies across the retail industry. As a result, our method of calculating comparable store sales may not be the same as other retailers' methods. Our Technology Brands stores are excluded from the calculation of comparable store sales. We do not consider comparable store sales to be a meaningful metric in evaluating the performance of our Technology Brands stores due to the frequently changing nature of revenue streams and commission structures associated with this segment of our business. We believe our calculation of comparable store sales best represents our strategy as an omnichannel retailer who provides its consumers several ways to access its products.

(1)

Video Game Brands

United States

Segment results for Video Game Brands in the United States include retail GameStop operations in 50 states, the District of Columbia and Guam, the electronic commerce websites www.gamestop.com and www.thinkgeek.com, Game Informer magazine and Kongregate, our leading platform for web and mobile gaming. Net sales for the 13 weeks ended April 30, 2016 decreased \$124.1 million, or 8.3%, compared to the 13 weeks ended May 2, 2015, primarily due to the 6.6% decrease in comparable store sales. This decrease in comparable store sales was primarily a result of the prior year Nintendo 3DS XL handheld launch, a reduction in price and quantity of next generation hardware and stronger title releases in the prior year quarter. Operating earnings for the 13 weeks ended April 30, 2016 decreased \$26.1 million, or 21.7%, compared to the prior year period, driven primarily by the current year decrease in net sales.

Canada

Segment results for Canada include retail operations in Canada and an e-commerce site. Net sales in the Canadian segment for the 13 weeks ended April 30, 2016 decreased \$12.0 million, or 13.4%, compared to the 13 weeks ended May 2, 2015, driven by the impact of foreign exchange rate fluctuations, which had the effect of decreasing net sales by \$5.0 million in the current quarter compared to the prior year quarter, and a 4.5% decrease in comparable store sales driven primarily by decreases in next generation hardware and the prior year Nintendo 3DS XL handheld launch.

Operating earnings for the 13 weeks ended April 30, 2016 increased \$0.1 million, or 2.7%, compared to the prior year period.

Australia

Segment results for Australia include retail operations and e-commerce sites in Australia and New Zealand. Net sales in the Australian segment for the 13 weeks ended April 30, 2016 decreased \$2.1 million, or 1.9%, compared to the 13 weeks ended May

Table of Contents

2, 2015, primarily due to the impact of foreign exchange rate fluctuations, which had the effect of decreasing net sales by \$5.4 million in the current quarter compared to the prior year quarter, partially offset by an increase in sales from opening 23 new Zing branded stores since the prior year quarter. Comparable store sales for the 13 weeks ended April 30, 2016 decreased 1.4%, primarily due to the launch of the Nintendo 3DS XL and lower software sales due to a stronger title lineup in the prior year quarter. These declines were offset by strong sales in our collectibles category. Operating earnings for the 13 weeks ended April 30, 2016 decreased \$1.2 million due to an increase in costs associated with expanding our collectibles store base.

Europe

Segment results for Europe include retail operations in 10 European countries and e-commerce operations in five countries. Net sales in the European segment for the 13 weeks ended April 30, 2016 decreased \$14.5 million, or 5.5%, compared to the 13 weeks ended May 2, 2015, primarily due to the 6.5% decrease in comparable store sales. The decrease in comparable store sales was driven primarily by the launch of the Nintendo 3DS XL in the prior year quarter and a decrease in next generation hardware sales, partially offset by an increase in sales in our collectibles category in the current quarter. Operating loss for the 13 weeks ended April 30, 2016 decreased \$1.6 million, or 31.4%, compared to the prior year period, due primarily to margin improvements due to the change in the mix of sales from new hardware to collectibles which carry higher margins.

Technology Brands

Segment results for the Technology Brands segment include our Spring Mobile managed AT&T and Cricket Wireless branded stores and our Simply Mac business. Net sales in the Technology Brands segment for the 13 weeks ended April 30, 2016 increased \$63.6 million, or 62.2%, compared to the prior year period, as a result of the continued acquisition activity and growth in store count. Operating earnings for the 13 weeks ended April 30, 2016 increased \$15.7 million, or 506.5%, compared to the prior year period, primarily due to operational improvements in stores as stores opened in fiscal 2015 mature and greater profitability from stores acquired since the prior year quarter.

Seasonality

Our business, like that of many retailers, is seasonal, with the major portion of the net sales and operating profit realized during the fourth fiscal quarter which includes the holiday selling season.

Liquidity and Capital Resources

Overview

Based on our current operating plans, we believe that available cash balances, cash generated from our operating activities and funds available under our \$400 million asset-based revolving credit facility together will provide sufficient liquidity to fund our operations, our continued investments in our Technology Brands businesses, digital initiatives, store openings and remodeling activities and corporate capital allocation programs, including acquisitions, share repurchases and the payment of dividends declared by the Board of Directors, for at least the next 12 months. As of April 30, 2016, we had total cash on hand of \$473.6 million and an additional \$391.6 million of available borrowing capacity under the Revolver. As we continue to pursue acquisitions, divestitures and other strategic transactions to expand and grow our business, while also enhancing shareholder value through share repurchases and dividend payments, we regularly monitor capital market conditions and may raise additional funds through borrowings or public or private sales of debt or equity securities. The amount, nature and timing of any borrowings or sales of debt or equity securities will depend on our operating performance and other circumstances; our then-current commitments and obligations; the amount, nature and timing of our capital requirements; any limitations imposed by our current credit arrangements; and overall market conditions.

Cash Flows

During the 13 weeks ended April 30, 2016, cash used by operations was \$376.1 million, compared to \$128.6 million during the 13 weeks ended May 2, 2015. The increase in cash used by operations of \$247.5 million was primarily due to an increase in cash used in operations for working capital purposes, which increased \$254.4 million from a use of \$243.0 million in the 13 weeks ended May 2, 2015 to a use of \$497.4 million in the 13 weeks ended April 30, 2016. The increase in cash used in operations for working capital was due primarily to an increase in merchandise inventories during the current year as compared to the prior year period due to the timing of merchandise inventory

purchases in the U.S. Video Game Brands segment due to software launches early in the second quarter of fiscal 2016 and increases in collectibles inventory to support sales.

Cash used in investing activities was \$27.9 million and \$38.2 million during the 13 weeks ended April 30, 2016 and the 13 weeks ended May 2, 2015, respectively. The \$10.3 million decrease in cash used in investing activities is primarily attributable to decreased Technology Brands acquisition activity in the 13 weeks ended April 30, 2016 as compared to the prior year period.

Table of Contents

Cash provided by financing activities was \$408.2 million during the 13 weeks ended April 30, 2016, compared to cash used in financing activities of \$80.1 million during the 13 weeks ended May 2, 2015. The \$488.3 million additional cash provided by financing activities in the 13 weeks ended April 30, 2016 as compared to the same 13-week period in 2015 was primarily due to the net proceeds of \$466.9 million related to the 2021 Senior Notes issued in March 2016.

Sources of Liquidity

We utilize cash generated from operations and have funds available to us under our Revolver to cover seasonal fluctuations in cash flows and to support our various growth initiatives. Our cash and cash equivalents are carried at cost and consist primarily of time deposits with commercial banks.

2019 Senior Notes. On September 24, 2014, we issued \$350.0 million aggregate principal amount of unsecured 5.50% senior notes due October 1, 2019 (the "2019 Senior Notes"). The 2019 Senior Notes bear interest at the rate of 5.50% per annum with interest payable semi-annually in arrears on April 1 and October 1 of each year beginning on April 1, 2015. The 2019 Senior Notes were sold in a private placement and will not be registered under the U.S. Securities Act of 1933 (the "Securities Act"). The 2019 Senior Notes were offered in the U.S. to "qualified institutional buyers" pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act. The outstanding principal balance of the 2019 Senior Notes at April 30, 2016 was \$350.0 million.

2021 Senior Notes. In March 2016, we issued \$475.0 million aggregate principal amount of unsecured 6.75% senior notes due March 15, 2021 (the "2021 Senior Notes"). The 2021 Senior Notes bear interest at the rate of 6.75% per annum with interest payable semi-annually in arrears on March 15 and September 15 of each year beginning on September 15, 2016. The net proceeds from the offering will be used for general corporate purposes, which will likely include acquisitions, and, potentially, dividends and stock buybacks. The 2021 Senior Notes were sold in a private placement and will not be registered under the Securities Act. The 2021 Senior Notes were offered in the U.S to "qualified institutional buyers" pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act. The outstanding principal balance of the 2021 Senior Notes at April 30, 2016 was \$475.0 million.

The indentures governing the 2019 Senior Notes and the 2021 Senior Notes (together, the "Senior Notes") do not contain financial covenants but do contain covenants which place certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, stock repurchases, the incurrence of additional debt and the repurchase of debt that is junior to the Senior Notes. In addition, the indentures restrict payments of dividends to stockholders (other than dividends payable in shares of capital stock) if one of the following conditions exist: (i) an event of default has occurred, (ii) we could not incur additional debt under the general debt covenant of the indentures or (iii) the sum of the proposed dividend and all other dividends and other restricted payments made under the indentures from the date of the indentures governing the Senior Notes exceeds the sum of 50% of consolidated net income plus 100% of net proceeds from capital stock sales and other amounts set forth in and determined as provided in the indentures. These restrictions are subject to exceptions and qualifications, including that we can pay up to \$175 million in dividends to stockholders in each fiscal year and we can pay dividends and make other restricted payments in an unlimited amount if our leverage ratio on a pro forma basis after giving effect to the dividend payment and other restricted payments would be less than or equal to 1.0:1.0.

The indentures contain customary events of default, including payment defaults, breaches of covenants, failure to pay certain judgments and certain events of bankruptcy, insolvency and reorganization. If an event of default occurs and is continuing, the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, may be declared immediately due and payable. These amounts automatically become due and payable if an event of default relating to certain events of bankruptcy, insolvency or reorganization occurs.

Revolving Credit Facility. On January 4, 2011, we entered into a \$400 million credit agreement, which we amended and restated on March 25, 2014 and further amended on September 15, 2014 (the "Revolver"). The Revolver is a five-year, asset-based facility that is secured by substantially all of our assets and the assets of our domestic subsidiaries. Availability under the Revolver is subject to a monthly borrowing base calculation. The Revolver

includes a \$50 million letter of credit sublimit. The amendments extended the maturity date to March 25, 2019; increased the expansion feature under the Revolver from \$150 million to \$200 million, subject to certain conditions; and revised certain other terms, including a reduction of the fee we are required to pay on the unused portion of the total commitment amount.

Borrowing availability under the Revolver is limited to a borrowing base which allows us to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. The borrowing base provides for borrowing of up to 92.5% of the appraisal value during the fiscal months of August through October. Letters of credit reduce the amount available to borrow under the Revolver by an amount equal to the face value of the letters of credit. Our ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if either 1) excess availability under the Revolver is less than 30%, or is projected to be within 12 months after such

Table of Contents

payment or 2) excess availability under the Revolver is less than 15%, or is projected to be within 12 months after such payment, and the fixed charge coverage ratio, as calculated on a pro-forma basis for the prior 12 months is 1.1:1.0 or less. In the event that excess availability under the Revolver is at any time less than the greater of (1) \$30 million or (2) 10% of the lesser of the total commitment or the borrowing base, we will be subject to a fixed charge coverage ratio covenant of 1.0:1.0.

The Revolver places certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from our lenders, we may not incur more than \$1 billion of senior secured debt and \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more.

The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 0.25% to 0.75% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus 0.50% or (c) the London Interbank Offered (“LIBO”) rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 1.25% to 1.75% above the LIBO rate. The applicable margin is determined quarterly as a function of our average daily excess availability under the facility. In addition, we are required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of April 30, 2016, the applicable margin was 0.25% for prime rate loans and 1.25% for LIBO rate loans.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by us or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting us or our subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. During the 13 weeks ended April 30, 2016, we cumulatively borrowed \$100.0 million and subsequently repaid \$100.0 million under the Revolver. Average borrowings under the Revolver for the 13 weeks ended April 30, 2016 were \$19.0 million and our average interest rate on those borrowings was 3.7%. As of April 30, 2016, total availability under the Revolver was \$391.6 million, with no outstanding borrowings and outstanding standby letters of credit of \$8.4 million.

In September 2007, our Luxembourg subsidiary entered into a discretionary \$20 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit is available to our foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of April 30, 2016, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$2.0 million.

We are currently in compliance with all covenants under our indentures governing the Senior Notes and our credit agreement.

Uses of Capital

Our future capital requirements will depend upon the timing and extent of our ongoing investments in our Technology Brands businesses, our other strategic initiatives, and the number of new stores we open and the timing of those openings within a given fiscal year. We opened or acquired a net of 18 Technology Brands stores in the 13 weeks ended April 30, 2016, and we currently expect to open or acquire approximately 450-500 Technology Brands stores in fiscal 2016, although we can provide no assurance that we will be able to complete any or all of our targeted acquisitions. Capital expenditures for fiscal 2016 are projected to be approximately \$160-\$170 million, to be used primarily to fund continued growth of our Technology Brands businesses, distribution and information systems and other digital initiatives in support of our operations and new store openings and store remodels.

On February 23, 2016, our Board of Directors authorized an increase in our annual cash dividend from \$1.44 to \$1.48 per share of Class A Common Stock, which represents an increase of 3%. On March 22, 2016, we paid our first quarterly dividend of fiscal 2016 of \$0.37 per share of Class A Common Stock to stockholders of record on March 8, 2016. Additionally, on May 24, 2016, our Board of Directors approved a quarterly cash dividend to our stockholders of \$0.37 per share of Class A Common Stock payable on June 21, 2016 to stockholders of record at the close of business on June 8, 2016. Future dividends will be subject to approval by our Board of Directors.

Recently Issued Accounting Pronouncements

See Note 1 to our unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on our consolidated financial statements.

Disclosure Regarding Forward-looking Statements

This Quarterly Report on Form 10-Q and other oral and written statements made by us to the public contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Please refer to the "Disclosure Regarding Forward-looking Statements" and "Risk Factors" sections in our Annual Report on Form 10-K, as amended, for the year ended January 30, 2016 as well as Item 1A of Part II of this Form 10-Q for a description of these risks and uncertainties.

Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-Q. In light of these risks and uncertainties, the forward-looking events and circumstances contained in this Form 10-Q may not occur, causing actual results to differ materially from those anticipated or implied by our forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our quantitative and qualitative disclosures about market risk as set forth in our 2015 Annual Report on Form 10-K, as amended.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at the reasonable assurance level. Based on this evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and that our disclosure controls and procedures are effective at the reasonable assurance level. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

(b) Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of our business, we are, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions and consumer class actions. We may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if we believe settlement is in the best interest of our stockholders. We do not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material effect on our financial condition, results of operations or liquidity.

Certain of our French subsidiaries have been under audit by the French Tax Administration (the "FTA") for fiscal years 2008 through 2012. We received tax reassessment notices on December 23, 2015 and April 4, 2016, pursuant to which the FTA asserted that the French subsidiaries were ineligible to claim certain tax deductions from November 4, 2008, through January 31, 2013, resulting in a potential additional tax charge of approximately €85.5 million. We may receive additional tax reassessments in material amounts for subsequent fiscal years. We filed a response to each reassessment and intend to vigorously contest the reassessments through administrative procedures. If we are unable to resolve this matter through administrative remedies at the FTA, we plan to pursue judicial remedies. We believe our tax positions will be sustained and have not taken a reserve for any potential adjustment based on the reassessment. If we were not to prevail, then the adjustment to our income tax provision could be material.

Item 1A. Risk Factors

You should carefully consider the factors discussed in "Item 1A. Risk Factors" in our 2015 Annual Report on Form 10-K, as amended. These risks could materially and adversely affect our business, financial condition and results of operations. There have been no material changes from the risk factors disclosed in our 2015 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

See Index to Exhibits.
