PART III — NARRATIVE

(Attach extra Sheets if Needed)

The registrant was unable to complete its Form 10-Q for the quarter ended December 28, 2008 (the "Report") within the prescribed period because of delays in completing its unaudited financial statements and management's discussion and analysis of financial condition and results of operations.

On February 3, 2009, the registrant and each of its wholly owned United States subsidiaries (such subsidiaries, together with the registrant, the "Debtors") filed voluntary petitions for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Western District of Texas. In connection with the chapter 11 filing, the Debtors entered into a restructuring and support agreement with the holders of, in the aggregate, approximately 70% of the face value of the registrant's outstanding senior subordinated notes with respect to a significant financial restructuring of the Debtors' subordinated indebtedness. Pursuant to the agreement, the holders have agreed subject to the terms and conditions of the agreement, among other things, to support the plan and, upon receipt of a bankruptcy court approved disclosure statement and when properly solicited to do so, to vote all of their respective senior subordinated note claims in favor of the proposed plan.

Pursuant to the provisions of the proposed plan all of the registrant's existing obligations under the senior subordinated public notes and related indentures will be exchanged for new common stock and a new series of senior subordinated notes of the reorganized company to be issued to holders of the existing senior subordinated notes. Existing common stock will be extinguished under the proposed plan, and no distributions will be made to holders of the current equity. The registrant's obligations to pay principal and interest on its senior debt would remain unchanged. The claims of existing creditors other than the holders of the Public Notes would be reinstated and unimpaired.

The process of negotiating the proposed plan and preparing for a related chapter 11 bankruptcy filing has consumed a significant amount of management's time causing delays in completing the required disclosure and rendering management unable to complete the Report in a timely manner. Moreover, the registrant needs time to appropriately prepare a description of the recent events leading to the bankruptcy filing in order to provide more complete disclosure in its Report. The registrant could not have diverted management's time away from the preparations for the chapter 11 bankruptcy filing without unreasonable effort or expense. However, it is currently anticipated that the Report will be filed on or before the fifth calendar day following the prescribed due date of the Report, or February 11, 2009.
