Item 3.02 Unregistered Sale of Equity Securities

Innovus Pharmaceuticals, Inc. (the “Company”), has accepted the final tranche of funds and has closed the Offering defined and described below, and in the Form 8-K’s filed July 6, 2016 and July 18, 2016.

On July 5, 2016 July 15, 2016 and July 25, 2016, the Company entered into nine Securities Purchase Agreements, in the form attached as Exhibit 4.1 (the “Purchase Agreement”) with eight institutional accredited investors (the “Buyers”), pursuant to which the Company received aggregate gross proceeds of \$3,000,000 (the “Offering”); pursuant to which it sold:

- a) Note. Convertible Promissory Notes of the Company, in the form attached hereto as Exhibit 4.2, in the aggregate principal amount of \$3,303,889 (the “Notes”). (the Notes were sold at a 10% original issue discount and the Company received an aggregate total of \$3,000,000 in funds thereunder). The Notes and accrued interest are convertible into shares of common stock, \$0.001 par value per share of the Company (the “Common Stock”) at a conversion price of \$0.25 per share. The Maturity date of the Notes are July 30, 2017. The Notes bear interest on the unpaid principal amount at a rate of 5% per annum from the date of the issuance until the same becomes due and payable, whether at maturity or upon acceleration or by prepayment or otherwise. Notwithstanding the foregoing, upon occurrence of an Event of Default as defined in such Note, the Conversion Price shall be the lower of (i) the fixed conversion price, (ii) 75% multiplied by the volume weighted average price of the Common Stock during the ten (10) consecutive trading day period immediately preceding the later of the Event of Default or the end of the applicable cure period, whichever is later. Notwithstanding the above, when, upon an occurrence of Event of Default, the Holder requests for outstanding balance and principal amount to be repaid in cash, but the Company is unable to do so, then the Conversion Price shall be the lower of: (i) the Fixed Conversion Price or (ii) 60% multiplied by the lowest daily volume weighted average price of the Common Stock during the ten (10) consecutive day period preceding the date of conversion; Under the terms of the Note, the Company shall not effect certain corporate and business actions during the term of the Note, although some may be done with proper notice. Pursuant to the Purchase Agreement, with certain exceptions, the Note holder has a right of participation during the term of the Note; the Company granted the Note holder piggy-back registration rights for the shares of Common Stock underlying the Notes.
- b) Warrants. Concurrent with the signing of the Securities Purchase Agreements, the Company issued a Common Stock Purchase Warrant to the Buyers, which allows it to purchase an aggregate of 3,000,000 shares of common stock, \$0.001 par value per share, of the Company at an exercise price of \$0.40. A copy of the Warrant is attached as Exhibit 4.3.
- c) Registration Rights. In addition, a Registration Rights Agreement was signed that commits the Company to file an Initial Registration Statement within 30 business days following the sale, and receipt of proceeds, of an aggregate of \$1,000,000 of Notes to the Buyer and/or third party investors on the same terms and conditions set forth in the Purchase Agreement. A copy of the form Registration Rights Agreement is attached as Exhibit 4.4.
- d) Issuance Shares. Pursuant to the Purchase Agreement, the Company issued an aggregate 7,500,000 restricted shares of Common Stock to the Buyers as additional consideration for the purchase of the Notes by the Buyers (the “Issuance Shares”).

The shares of Common Stock, including the shares underlying the Notes, issued in the Offering were not registered under the Securities Act of 1933, as amended (the “Securities Act”), or the securities laws of any state, and were offered and sold in reliance on the exemption from registration afforded by Section 4(a)(2) and Regulation D (Rule 506(b)) under the Securities Act and corresponding provisions of state securities laws, which exempt transactions by an issuer not involving any public offering. The Buyer is an “accredited investor” as such term is defined in Regulation D

promulgated under the Securities Act.

The Company agreed to use the net proceeds from the Offering for general working capital purposes. The Buyer agreed to allow the Company to raise up to a total of \$3,300,000.00 on the same terms and conditions as the Offering, of which the Company has raised \$3,000,000. The Offering is now Closed.

The Purchase Agreement contains representations and warranties by the Company and the investors which are customary for transactions of this type such as, with respect to the Company: organization, good standing and qualification to do business; capitalization; subsidiaries, authorization and enforceability of the transaction and transaction documents; valid issuance of stock, consents being obtained or not required to consummate the transaction; litigation; compliance with securities laws; and no brokers used; and with respect to the investors: authorization, accredited investor status and investment intent.

The foregoing description of the terms of the Purchase Agreement and Notes is qualified in its entirety by reference to the provisions of the forms of the Purchase Agreement, Note, Warrant, Share Issuance Agreement, and Registration Rights Agreement which are filed as Exhibits 4.1 through 4.4 to the Current Report filed July 6, 2016, respectively, and are incorporated by reference herein (collectively, the “Transaction Documents”).
