Item 1. Business.

Company Overview

Paragon Real Estate Equity and Investment Trust (the “Company,” “Paragon,” “we,” “our,” or “us”) is a Maryland shell corporation primarily focused on maintaining its corporate existence and SEC reporting history to enable it, in the future, to raise additional capital and make real estate investments. Future real estate investments may include acquisition and development of retail, office, office warehouse, industrial, multifamily, hotel, other commercial properties, acquisition of or merger with a REIT or real estate operating company and joint venture investments. Excess funds are invested in cash equivalents.

The Company was formed on March 15, 1994 as a Maryland real estate investment trust (“REIT”). We operated as a traditional real estate investment trust by buying, selling, owning and operating commercial and residential properties through December 31, 1999. In 2000, the Company purchased a software technology company, resulting in the Company not meeting the Internal Revenue Code qualifications to be a REIT for federal tax purposes. In 2002, the Company discontinued the operations of the technology segment.

From 2003 through 2006, we pursued a value-added business plan primarily focused on acquiring well located, under-performing multi-family residential properties, including affordable housing communities, and repositioning them through renovation, leasing, improved management and branding. In 2006, we were unable to complete a \$100 million public offering to fund an acquisition of a portfolio of ten apartment communities comprised of 1,478 units located in Texas and Ohio. Without completing the public offering, the Company was not able to meet the listing requirements of the former American Stock Exchange (“Amex”) because its book equity was less than the \$6 million minimum requirement, it had sustained consecutive years of losses from operations and net losses since its inception in 1994, and its common shares had been selling at a low share price for more than a year. In February 2006, Amex delisted Paragon’s common shares, which then commenced being quoted on the Over-The-Counter Bulletin Board (“OTC Bulletin Board”) and on the pink sheets with the new symbol “PRLE”.

Because our unrestricted cash was not sufficient to allow us to continue operations, in the third quarter of 2006, three independent trustees signed subscription agreements to purchase 125,000 Class C Convertible Preferred Shares for an aggregate contribution of \$500,000 to maintain the Company as a corporate shell current in its SEC filings so that it may be used in the future for real estate transactions or sold to another company. There can be no assurance that we will be able to close a transaction or keep the Company currently filed with the SEC. Even if our management is successful in closing a transaction, investors may not value the transaction or the current filing status with the SEC in

the same manner as we did, and investors may not value the transaction as they would value other transactions or alternatives. Failure to obtain external sources of capital and complete a transaction will materially and adversely affect the Company's ability to continue operations.

Competition

We compete for the acquisition of properties with many entities, including, among others, publicly traded REITs, life insurance companies, pension funds, partnerships and individual investors. Many competitors have substantially greater financial resources than we have. In addition, certain competitors may be willing to accept lower returns on their investments. If competitors prevent us from buying properties that may be targeted for acquisition, our capital appreciation and valuation may be impacted.

Employees

The Company has two part-time employees as of February 11, 2015.

Item 2. Properties.

As of December 31, 2014, we did not own any real estate assets.

Item 3. Legal Proceedings.

In the normal course of business, we may be involved in legal actions arising from the ownership and administration of real estate. In our opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on our consolidated financial position, operations or liquidity. We are not currently involved in any legal actions.

PART II

Item 5. Market for Registrant's Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities.

Our common shares are quoted on the OTC Bulletin Board and on the pink sheets with the symbol "PRLE".

Our Class A Preferred Shares are quoted over-the-counter with the symbol "PRLEP." Preferred shareholders have the right to convert each of their shares for 0.046 common shares.

Our Class C Convertible Preferred Shares were issued effective September 29, 2006 to the trustees of the Company who contributed cash and/or services for these shares. The Class C Convertible Preferred Shares are not traded on an exchange.

The following table shows the range of the high and low sale prices for our common shares as reported on the OTC Bulletin Board. The quotations shown represent inter-dealer prices without adjustment for retail markups, markdowns or commissions, and may not reflect actual transactions.

2014	High	Low
4 th Quarter	\$ 1.80	\$ 1.06
3 rd Quarter	\$ 2.35	\$ 1.51
2 nd Quarter	\$ 3.00	\$ 1.90
1 st Quarter	\$ 3.00	\$ 0.86

2013	High	Low
4 th Quarter	\$ 0.98	\$ 0.65
3 rd Quarter	\$ 0.75	\$ 0.56
2 nd Quarter	\$ 0.90	\$ 0.65
1 st Quarter	\$ 0.90	\$ 0.26

On February 2, 2015, the last reported sales price of our common shares on the OTC Bulletin Board was \$1.45. The number of holders of record of our common shares was 127 as of February 2, 2015 and we estimate we have approximately 1,200 beneficial holders of common interests as of that same date.

Dividend Policy

We have not declared or paid dividends on our common shares since 1999, and we do not anticipate paying dividends on our common shares in the foreseeable future. Declaration or payment of dividends, if any, in the future, will be at the discretion of the board of trustees and will depend on our then current financial condition, results of operations, capital requirements and other factors deemed relevant by the board of trustees.

Preferred Share Conversions

During 2014, no preferred shares were converted to common shares.

Issuer Purchases of Equity Securities

The Company did not purchase any of its equity securities in 2014.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Cautionary Statements Regarding Forward-Looking Statements

This annual report contains historical information, as well as forward-looking statements that involve known and unknown risks and relate to future events, our future financial performance, or our expected future operations and actions. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “future,” “intend,” “could,” “hope,” “predict,” “target,” “potential,” or “continue” or these terms or other similar expressions. These forward-looking statements are only our predictions based upon current information and involve numerous assumptions, risks and uncertainties. Our actual results or actions may differ materially from these forward-looking statements for many reasons. While it is impossible to identify all such factors, factors that could cause actual results to differ materially from those estimated by us include:

uncertainties related to the national economy, including liquidity in the capital markets and lending requirements imposed by financial institutions;

changes in values for commercial real estate properties and companies;

increases in interest rates and in the availability, cost and terms of mortgage funds;

decreases in market prices of the shares of publicly traded real estate companies;

adverse changes in governmental rules and fiscal policies; and

other factors which are beyond our control.

In addition, an investment in the Company involves numerous risks that potential investors should consider carefully, including, without limitation:

we have no operating assets;

our cash resources are limited;

we have a history of losses;

we have not raised funds through a public equity offering;

our trustees control a significant percentage of our voting shares;

shareholders could experience possible future dilution through the issuance of additional shares;

we are dependent on a small number of key senior professionals who are part-time employees; and

we currently do not plan to distribute dividends to the holders of our shares.

Overview

Paragon Real Estate Equity and Investment Trust (the “Company,” “Paragon,” “we,” “our,” or “us”) is a Maryland shell corporation primarily focused on maintaining its corporate existence and SEC reporting history to enable it, in the future, to raise additional capital and make real estate investments. Future real estate investments may include acquisition and development of retail, office, office warehouse, industrial, multifamily, hotel, other commercial properties, acquisition of or merger with a REIT or real estate operating company and joint venture investments. Excess funds are invested in liquid marketable securities and cash equivalents. During the fourth quarter of 2008 and continuing through much of 2011, capital markets had limited access for small companies, like Paragon, and financing was difficult to obtain for real estate transactions. While equity and debt markets were active in 2013 and 2014, Paragon did not have any transactions to raise capital. Excess funds are invested cash equivalents.

As of December 31, 2014, the Company is a corporate shell current in its SEC filings, that may be used in the future for real estate investments or sold to another company. There can be no assurance that we will be able to close a transaction or keep the Company currently filed with the SEC. Even if our management is successful in closing a transaction, investors may not value the transaction or the current filing status with the SEC in the same manner as we did, and investors may not value the transaction as they would value other transactions or alternatives. Failure to obtain external sources of capital will materially and adversely affect the Company’s ability to continue operations, as well as its liquidity and financial results.

Brief History

Paragon was formed on March 15, 1994 as a Maryland real estate investment trust (“REIT”). We operated as a traditional real estate investment trust by buying, selling, owning and operating commercial and residential properties through December 31, 1999. In 2000, the Company purchased a software technology company, resulting in the Company not meeting the Internal Revenue Code qualifications to be a REIT for federal tax purposes. In 2002, the Company discontinued the operations of the technology segment.

Recent Developments and Executive Overview

During 2014, the Company continued as a corporate shell current in its SEC filings. Excess funds are invested in cash equivalents.

Results of Operations

The following is a discussion of our results of operations and comprehensive income for the years ended December 31, 2014 and 2013 and financial condition, including:

Explanation of changes in the results of operations in the Consolidated Statements of Operations and Net Comprehensive Income for the year ended December 31, 2014 compared to the year ended December 31, 2013.

Our critical accounting policies and estimates that require our subjective judgment and are important to the presentation of our financial condition and results of operations.

Our primary sources and uses of cash for the year ended December 31, 2014, and how we intend to generate cash for long-term capital needs.

Our current income tax status.

Comparison of the years ended December 31, 2014 and 2013

Revenues from Operations

Total revenues decreased \$450 from \$454 for the year ended December 31, 2013 to \$4 for the year ended December 31, 2014. Revenues consisted of interest and dividend income for the year ended December 31, 2013 and interest income for the year ended December 31, 2014. The decrease in interest and dividend income was due to having a lower amount invested in equity securities in the year ended December 31, 2014 than in the year ended December 31, 2013. As of December 31, 2014, we held no equity securities and our decision to invest in equity securities on a temporary basis in 2015 is dependent on market variables and the availability of cash to invest. Accordingly, we anticipate nominal revenue in 2015.

Expenses from Operations

Total expenses, comprised mostly of general and administrative expenses, increased \$592, from \$56,882 for the year ended December 31, 2013 to \$57,474 for the year ended December 31, 2014. This net increase is mostly due to increases in D&O insurance, accounting, and XBRL and SEC filing charges offset by a decrease in legal fees.

Loss from operations

As a result of the above, the loss from operations increased \$1,042 from \$56,428 for the year ended December 31, 2013 to \$57,470 for the year ended December 31, 2014.

Gain on sale of marketable securities

In the year ended December 31, 2014, we did not sell any marketable securities.

In the year ended December 31, 2013, we sold 3,325 shares of marketable securities of eight companies for \$76,341, which had a cost basis of \$73,568, and recorded a gain on the sale of marketable securities of \$2,773.

Net loss attributable to Common Shareholders

Based on the above, the net loss attributable to Common Shareholders increased from \$53,655 for the year ended December 31, 2013 to \$57,470 for the year ended December 31, 2014.

Liquidity and Capital Resources

Cash provided by operations, equity transactions, and borrowings from affiliates and lending institutions have generally provided the primary sources of liquidity to the Company. Historically, the Company has used these sources to fund operating expenses, satisfy its debt service obligations and fund distributions to shareholders. Presently, we are

dependent on our existing cash, which was provided by three independent trustees contributing \$500,000 in exchange for Class C Convertible Preferred Shares to maintain the Company as a corporate shell current in its SEC filings so that it may be used in the future for real estate transactions or sold to another company. We have kept the public entity available for value-added real estate opportunities, including acquisition and development of retail, office, office warehouse, industrial, multifamily, hotel, other commercial properties, acquisition of or merger with a REIT or real estate operating company, and joint venture investments. Excess funds are invested in cash equivalents.

Cash Flows

As of December 31, 2014, our unrestricted cash resources were \$10,726. We are dependent on our existing cash, contributed by three independent trustees in exchange for Class C Convertible Preferred Shares, to meet our liquidity needs because we do not have cash from operations to meet our operating requirements.

During the year ended December 31, 2014, the Company's cash balance increased by \$1,083 from \$9,643 at December 31, 2013 to \$10,726 at December 31, 2014. During 2014, we received net cash of \$57,996 from transferring cash from an account at a securities brokerage firm to the operating account and used \$56,913 in continuing operations.

Cash used for continuing operations included general and administrative costs, primarily for maintaining Paragon as a corporate shell and to keep it current in its SEC filings so that it may be used in the future for real estate opportunities or sold to another company.

Future Obligations

Because the Company is a corporate shell that may be used in the future for real estate transactions or sold to another company, we have no cash from operations and have reduced our day-to-day overhead expenses and material future obligations. We have reduced overhead expenses by issuing stock for our CEO's salary and trustee fees, placed our other employee on a part-time unpaid basis, and have not replaced employees who have left. We have eliminated our office space and rent, and reduced the use of outside consultants, negotiating discounts on prices wherever possible, and foregoing other expenses.

Long Term Liquidity and Operating Strategies

We historically have financed our long term capital needs, including acquisitions, as follows:

Borrowings from new loans;

Additional equity issuances of our common and preferred shares; and

Proceeds from the sales of our real estate, a technology segment, and marketable securities.

Because our unrestricted cash is not sufficient to allow us to continue operations, we have been reviewing other alternatives, including selling the corporate entity and seeking additional investors. In 2006 and 2007, the Company received total payments of \$500,000 from three independent trustees for payment of Class C Convertible Preferred Shares. These funds have been and continue to be used to maintain Paragon as a corporate shell current in its SEC filings while it searches for and reviews other value added real estate opportunities. Excess funds are invested in cash equivalents.

Current Tax Status

At December 31, 2014, we have a net operating loss carryover of \$2,507,000. While these losses created a deferred tax asset, a valuation allowance was applied against the asset because of the uncertainty of whether we will be able to use these loss carryovers, which will expire in varying amounts through the year 2034. In the event of a change of ownership of the Company, our ability (or the ability of any company that acquires or merges with us) to use our net operating loss carryover will be limited by federal tax regulations.

We, and our subsidiary, are also subject to certain state and local income, excise and franchise taxes. The provision for state and local taxes has been reflected in general and administrative expense in the consolidated statements of operations and has not been separately stated due to its insignificance.

Interest Rates and Inflation

Interest rates fell during 2008 as the Federal Reserve Bank lowered the discount rate and remained low through 2014. While interest rates are at record lows, capital markets were generally not accessible by small real estate companies, like Paragon in 2009 through 2011 and debt financing was only available to larger creditworthy companies. Financial institutions tightened financial covenant tests, decreased loan-to-value ratios, and charged higher fees for loans, which has reduced the number of real estate transactions. During 2013 and 2014, credit markets were more active though Paragon did not have any transactions to raise capital.

We were not significantly affected by inflation during the periods presented in this report due primarily to the relative low nationwide inflation rates and the Company being a corporate shell with minimal expenses.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have, or are likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Application of Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with generally accepted accounting principles, which require us to make certain estimates and assumptions. The following section is a summary of certain estimates that both require our most subjective judgment and are most important to the presentation of our financial condition and results of operations. It is possible that the use of different estimates or assumptions in making these judgments could result in materially different amounts being reported in our consolidated financial statements.

Valuation Allowance of Deferred Tax Asset

We account for income taxes using the liability method under which deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the period in which the differences are expected to affect taxable income. At December 31, 2014, we had a net operating loss carryover totaling \$2,507,000.

While these losses created a deferred tax asset of \$1,003,000, a valuation allowance of \$1,003,000 was applied against this asset because of the uncertainty of whether we will be able to use these loss carryovers, which will expire in varying amounts through the year 2034. Pursuant to Internal Revenue Code regulations, we will be limited to using \$869,000 of the prior net operating losses of \$11,100,000, and these same regulations also limit the amount of loss used in any one year. Additionally, use of our net operating loss carryover will be limited in the event of a change in ownership of the Company.

Item 8. Financial Statements and Supplementary Data.

The required audited consolidated financial statements of the Company are included herein commencing on page F-1.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of December 31, 2014, we evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934. Based upon this evaluation, our principal executive officer and principal financial officer each concluded that, as of December 31, 2014, our disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining an adequate system of internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles defined in the exchange act.

Our principal executive officer and principal financial officer carried out an evaluation of the effectiveness of our internal control over financial reporting. In making this evaluation, management used the COSO (the Committee of Sponsoring Organizations) 1992 framework of the Treadway Commission. Based on the results of our evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, 2014.

Changes in Internal Control over Financial Reporting

There was no change in the fourth fiscal quarter of 2014 in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance.**

The names, ages and positions of our trustees and executive officers are as follows:

Name	Age	Position	Expiration of Term ⁽¹⁾
James C. Mastandrea	71	President, Chief Executive Officer and Chairman of Board of Trustees	2006 ⁽¹⁾
John J. Dee	63	Senior Vice President, Chief Financial Officer and Trustee	2007 ⁽¹⁾
Daryl J. Carter	59	Trustee	2008 ⁽¹⁾
Daniel G. DeVos	56	Trustee	2006 ⁽¹⁾
Paul T. Lambert	62	Trustee	2007 ⁽¹⁾
Michael T. Oliver	71	Trustee	2008 ⁽¹⁾

⁽¹⁾ Because the trustees own a significant number of the voting shares and the Company is reducing expenses to conserve its limited cash, an annual meeting has not been held since 2006. The trustees will continue to serve until an election of trustees is held, though no election is currently planned.

Board of Trustees and Executive Officers

The business experience, principal occupations and employment, as well as the periods of service, of each of our trustees and executive officers during at least the last five years are set forth below.

James C. Mastandrea has been our Chairman, President and Chief Executive Officer since 2003. Mr. Mastandrea has over 35 years of experience in the real estate industry and more than 20 years serving in high level positions of publicly traded companies. He also serves, since 2006, as the President, Chief Executive Officer and Chairman of the Board of Trustees of Whitestone REIT, a publicly traded REIT listed on the NYSE focused on Community Centered

PropertiesTM. Mr. Mastandrea has also served, since 1978, as the Chief Executive Officer/Founder of MDC Realty Corporation, a privately held residential and commercial real estate development company. From 1994 to 1998, Mr. Mastandrea served as Chairman and Chief Executive Officer of First Union Real Estate Investments, a NYSE-listed real estate investment trust. Mr. Mastandrea also served in the U.S. Army as a Military Police Officer. Mr. Mastandrea currently is a director of Cleveland State University Foundation Board and a member of the investment committee. Mr. Mastandrea regularly lectures to MBA students at the University of Chicago and teaches as an adjunct professor in the MBA program at Rice University in Houston, TX, and also presents to institutional investors in the U.S. and Europe. Mr. Mastandrea's significant experience and familiarity with the commercial real estate industry and public companies allows him to provide insight into various aspects of the economy and commercial real estate, which is of significant value to our Board.

John J. Dee has served as a trustee, Senior Vice President and Chief Financial Officer since 2003. Since October 2006, Mr. Dee has also been Chief Operating Officer, Executive Vice President, and Director of Finance at Whitestone REIT, a publicly traded REIT listed on the NYSE focused on Community Centered Properties™. Prior to Mr. Dee's joining Paragon, from 2002 to 2003, he was Senior Vice President and Chief Financial Officer of MDC Realty Corporation, Cleveland, Ohio, an affiliate of MDC Realty Corporation, Chicago, Illinois, a privately held residential and commercial real estate development company. From 2000 to 2002, Mr. Dee was Director of Finance and Administration for a Cleveland, Ohio law firm. From 1978 to 2000, Mr. Dee held various management positions with First Union Real Estate Investments (NYSE), most recently as Senior Vice President and Chief Accounting Officer from 1996 to 2000. Mr. Dee is licensed as a CPA (non-practicing) in the State of Ohio. Mr. Dee has a significant number of years of experience with publicly listed REITs and his financial and accounting background provides assistance to the Board.

Daryl J. Carter has served as a trustee since June 2003. Mr. Carter founded and since 2007 has served as Chairman and Chief Executive Officer of Avanath Capital Management, LLC, an investment firm focused on conventional and affordable multifamily investments. He is also a Managing Partner of McKinlye-Avanath, a property management company focused on the affordable apartment sector. From 2005 to 2007, Mr. Carter was an Executive Managing Director of Centerline Capital Group, or Centerline, a subsidiary of Centerline Holding Company (NYSE), and head of the Commercial Real Estate Group. From 2005 to 2007, he was also the President of American Mortgage Acceptance Corporation, a then publicly-held, commercial mortgage lender that was externally managed by Centerline. Mr. Carter became part of Centerline when his company, Capri Capital Finance, or CCF, was acquired by Centerline in 2005 and stayed with Centerline until 2006. Mr. Carter co-founded and served as Co-Chairman of both CCF and Capri Capital Advisors in 1992. He was instrumental in building Capri into a diversified real estate firm with \$8 billion in real estate equity and debt investments under management. Prior to Capri, Mr. Carter was Regional Vice President at Westinghouse Credit Corporation in Irvine and a Second Vice President at Continental Bank in Chicago. Mr. Carter serves as a trustee of Whitestone REIT (NYSE) since 2009, a director of Silver Bay Realty Trust Corp. (NYSE) since July 2013, a trustee of the Urban Land Institute, Vice Chairman of the National Multifamily Housing Association, and on the Visiting Committee of the M.I.T. Sloan School of Management. He has also served as Chairman of the Commercial Board of Governors of the Mortgage Bankers Association. Mr. Carter brings to our Board significant management experience and demonstrated leadership skills with financial and real estate entities.

Daniel G. DeVos has served as a trustee since March 2003. Since 1993, Mr. DeVos has served as Chairman of the Board and Chief Executive Officer of DP Fox Ventures, LLC, a diversified management enterprise with investments in real estate, transportation, insurance, fashion, sports, and entertainment. Since 1999, Mr. DeVos has served as the President and Chief Executive Officer of Fox Motors, based in Grand Rapids, Michigan. He is the majority owner of the Grand Rapids Griffins (AHL), has been a board member since 1991 and Chairman since 2011 of RDV Sports, Inc., the parent company of the Orlando Magic (NBA), and is a partner in CWD Real Estate Investments. Since 2004, he has served as a director and currently serves on the Audit Committee of Alticor, Inc., the parent of Amway Corporation, located in Ada, Michigan. From 2009 to 2013, Mr. DeVos served as a trustee of Whitestone REIT, a publicly traded REIT listed on NYSE and in May 2013 became trustee emeritus. From 1994 to 1998, he served as a trustee of First Union Real Estate Investments (NYSE). Mr. DeVos has extensive and diverse business experience within and outside the real estate industry and possesses exceptional leadership skills in business and non-profit management.

Paul T. Lambert has served as a trustee since November 1998. Mr. Lambert serves as the Chief Executive Officer of Lambert Capital Corporation. He served on the Board of Directors and was the Chief Operating Officer of First Industrial Realty Trust, Inc. (NYSE) from its initial public offering in October 1994 to the end of 1995. Mr. Lambert was one of the largest contributors to the formation of First Industrial and one of its founding shareholders. Prior to forming First Industrial, Mr. Lambert was managing partner for The Shidler Group, a national private real estate investment company. Prior to joining Shidler, Mr. Lambert was a commercial real estate developer with Dillingham Corporation and, prior to that, was a consultant with The Boston Consulting Group. Mr. Lambert serves as a trustee of Whitestone REIT (NYSE) since March 2013. Mr. Lambert is an entrepreneur with significant experience in commercial real estate and financing of development projects.

Michael T. Oliver has served as a trustee since March 2003. Mr. Oliver was Director of New Business Development at Concierge Asset Management from December 2005 to April 2010. Mr. Oliver was the State Investment Officer of Real Estate and Private Equity Investments of the Alaska State Pension Board of the Alaska State Pension Fund, Juneau, Alaska, a position he held from August 2000 through September 2005. Mr. Oliver was a consultant from March 1998 to July 2000 to MPAC Capital Markets, Seattle, Washington, and a consultant to several Asian governments concerning laws governing real estate investment trusts. From April 1996 to March 1998, Mr. Oliver was Chairman of RERC Capital Markets, LLC, Chicago, Illinois. From March 1987 to February 1996, he was Chairman of Heitman/PRA Securities Advisors, Inc. and President of its Real Estate Fund. Prior to March 1987 and since 1967, Mr. Oliver held positions at real estate companies raising capital and making direct investments in real estate, and at investment banking firms analyzing real estate companies and raising capital. Mr. Oliver has been involved with REITs, commercial real estate, and capital markets for a significant number of years.

The board of trustees has determined that each of Messrs. Carter, DeVos, Lambert, and Oliver do not have a material relationship with Paragon that would interfere with the exercise of independent judgment and are independent as defined by the applicable rules of the SEC. Mr. Oliver is the chairman of Paragon's audit committee and serves as the committee's financial expert. Mr. Carter is the chairman of the management, organization and compensation committee. All four independent trustees are on the audit committee and the management, organization and compensation committee.

Code of Ethics

On January 14, 2004, our board of trustees adopted a code of conduct and ethics that applies to all officers, trustees and employees of Paragon, including our principal executive officer, principal financial officer and principal accounting officer. The Code of Conduct and Ethics is filed as exhibit 14 to our annual report for the year ended December 31, 2003. Upon written request to the Company, we will provide a copy of our Code of Conduct and Ethics without charge.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers, trustees and persons who own more than 10% of our common shares to file reports of ownership and changes in ownership with the SEC. Officers, trustees and greater than 10% shareholders are required by regulation to furnish us with copies of all Section 16(a) forms they file. Based solely on review of the copies of Form 4s filed by trustees reporting share transactions, grants of restricted shares and options furnished to us, or written representations that no Annual Statements of Beneficial Ownership of Securities on Form 5 were required to be filed, we believe that for the fiscal year ended December 31, 2014, all Section 16(a) filing requirements applicable to our officers, trustees and greater than 10% shareholders were complied with, except that Mr. Lambert inadvertently did not file a timely Form 4 for the acquisition of common shares in 2013 which was rectified in 2014.

Item 11. Executive Compensation.

James C. Mastandrea did not receive any compensation for serving as our CEO, president and chairman during the years ended December 31, 2014 and December 31, 2013.

Outstanding Equity Awards at Fiscal Year End

The following table sets forth the status of equity awards as of December 31, 2014

Name	Option Awards				Stock Awards		Equity Incentive Plan Awards:	
	Number of Securities Underlying Unexercised Options That Can Be Exercised	Number of Securities Underlying Exercised Options	Option Exercise Price	Option Expiration Date	Number of Shares or Units of Stock That Have Not Vested	Market Value of Shares or Units of Stock That Have Not Vested	Number of Unearned Shares, Units or Other Rights That Have Not Vested	
James C. Mastandrea Chief Executive Officer, President and Chairman	—	—	—	—	2,000	(1) \$2,700.00	(2)	

(1) Represents restricted common shares issued January 2, 2004. Half of the restricted shares vested on the fifth anniversary of the issuance date. The remaining half will vest when funds from operations has doubled or when Paragon's share price is 50% higher compared to the average trading price for the five days preceding the grant date.

(2) On June 30, 2003, our shareholders approved the issuance of additional common shares to Paragon Real Estate Development, LLC for James C. Mastandrea, our Chief Executive Officer and President, and John J. Dee, our Chief Financial Officer and Senior Vice President, to encourage them to substantially grow the asset base, net operating income, funds from operations, net value, and share value of Paragon. On September 29, 2006, Paragon amended this agreement to add each of the trustees to the agreement so that if a trustee brings a new transaction to Paragon, he would receive additional common shares of Paragon in accordance with a formula in the agreement. We will issue restricted common shares if they locate and close on our behalf future acquisition, development or re-development transactions. Any of these transactions would be subject to approval by the members of our board of trustees who are not receiving the additional common shares. The maximum number of common shares they

may receive under the additional contribution agreement is limited to a total value of \$26 million based on the average closing price of the common shares for 30 calendar days preceding the closing of any acquisition. The common shares will be restricted until we achieve the five-year pro forma income target for the acquisition, as approved by the board of trustees, and an increase of 5% in Paragon's net operating income and funds from operations. The restricted shares would vest immediately upon any "shift in ownership," as defined in the agreement.

Employment Agreements

On April 3, 2006, the Board of Trustees of Paragon authorized modifications to the employment agreement of James C. Mastandrea, President and Chief Executive Officer. The modification agreement allows Mr. Mastandrea to devote time to other business and personal investments while performing his duties for Paragon. The original employment agreement with Mr. Mastandrea provides for an annual salary of \$60,000 effective as of March 4, 2003. The initial term of Mr. Mastandrea's employment is for two years and may be extended for terms of one year. Mr. Mastandrea's base annual salary may be adjusted from time to time, except that the adjustment may not be lower than the preceding year's base salary. The employment agreement provides that Mr. Mastandrea will be entitled to base salary and bonus at the rate in effect before any termination for a period of three years in the event that his employment is terminated without cause by us or for good reason by Mr. Mastandrea. Effective September 29, 2006, in lieu of an annual salary of \$100,000, Mr. Mastandrea received 44,444 Class C Convertible Preferred Shares for his services as an officer of Paragon through September 29, 2008. This agreement was amended to extend the service period and vesting period restriction dates to September 30, 2015, though the shares were fully amortized by the original date in 2008.

Effective June 30, 2003, we issued 696,078 preferred shares valued at approximately \$2.4 million to Messrs. Mastandrea and Dee pursuant to separate restricted share agreements. On June 30, 2003, 534,668 preferred shares were converted at a factor of 0.305 into 163,116 common shares. Under the restricted share agreement for each of Mr. Mastandrea and Mr. Dee, the restricted shares vest upon the later of the following dates:

the date our gross assets exceed \$50.0 million, or

50% of the restricted shares on March 4, 2004; 25% of the shares on March 4, 2005, and the remaining 25% of the shares on March 4, 2006.

The number of common shares and the conversion factor have been revised to reflect the 1-for-75 reverse split of the common shares that occurred in July 2006.

Compensation of Trustees

During the year ended December 31, 2014, trustees were not paid any compensation.

In lieu of cash payments for trustee fees, effective September 29, 2006, each trustee of the Company received 12,500 restricted Class C Convertible Preferred Shares for service as a trustee until September 29, 2008. The shares are restricted until the latest to occur of: (a) a public offering by the Company sufficient to liquidate the shares, (b) an exchange of the Company's existing shares for new shares, and (c) September 29, 2008. These agreements were amended to extend the service period and vesting period restriction dates to September 30, 2015, though the shares were fully amortized by the original date in 2008.

On June 30, 2003, our shareholders approved the issuance of additional common shares to Paragon Real Estate Development, LLC for James C. Mastandrea, our Chief Executive Officer and President, and John J. Dee, our Chief Financial Officer and Senior Vice President, to encourage them to substantially grow the asset base, net operating income, funds from operations, net value, and share value of Paragon. On September 29, 2006, Paragon amended this agreement to add each of the trustees to the agreement so that if a trustee brings a new transaction to Paragon, he would receive additional common shares of Paragon in accordance with a formula in the agreement. We will issue restricted common shares if they locate and close on our behalf future acquisition, development or re-development transactions. Any of these transactions would be subject to approval by the members of our board of trustees who are not receiving the additional common shares. The maximum number of common shares they may receive under the additional contribution agreement is limited to a total value of \$26 million based on the average closing price of the common shares for 30 calendar days preceding the closing of any acquisition. The common shares will be restricted until we achieve the five-year pro forma income target for the acquisition, as approved by the board of trustees, and an increase of 5% in Paragon's net operating income and funds from operations. The restricted shares would vest

immediately upon any “shift in ownership,” as defined in the agreement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table includes certain information with respect to the beneficial ownership of our shares by: (i) each person known by us to own more than 5% in interest of the outstanding shares; (ii) each of the trustees; (iii) each of our executive officers; and (iv) all of the trustees and executive officers as a group. Except as otherwise noted, the person or entity named has sole voting and investment power over the shares indicated.

The table shows ownership as of February 11, 2015.

Edgar Filing: PARAGON REAL ESTATE EQUITY & INVESTMENT TRUST - Form 10-K

Unless otherwise indicated, the address of all beneficial owners is our corporate address at 10011 Valley Forge Drive, Houston, Texas 77042.

Percentages based on 405,096 common shares outstanding, not including 38,130 shares held in treasury. For each (2) individual trustee and executive officer, also includes common shares he has the right to acquire through share options that are currently exercisable as of April 12, 2015. The total options for all named persons is 3,333.

Percentages based on 258,236 preferred A shares outstanding as of February 11, 2015, which convert to 53,694 (3) common shares as follows: 161,410 preferred A shares are each convertible into 0.305 common shares and 96,826 preferred A shares are each convertible into 0.046 common shares.

Percentages based on 244,444 preferred C shares outstanding as of February 11, 2015, which convert to 2,444,440 (4) common shares. Each preferred C share is convertible into 10 common shares.

Percentages based on 405,096 common shares outstanding, not including 38,130 shares held in treasury, and including 258,236 preferred A shares which convert to 53,694 common shares and 244,444 preferred C shares which convert to 2,444,440 common shares. For each individual trustee and executive officer, also includes (5) common shares he has the right to acquire through share options that are currently exercisable as of April 12, 2015. Mr. Mastandrea's percentage is calculated using a denominator that includes (i) 405,096 common shares, not including 38,130 shares held in treasury; (ii) 56,944 preferred C shares that convert to 569,440 common shares; and (iii) 161,410 preferred A shares, which convert to 49,243 common shares.

(6) The ownership percents total more than 100% due to more than one person or entity being considered the beneficial owner of the same shares, in accordance with SEC regulations for this table.

- (7) Includes: (i) 6,667 restricted common shares issuable to an independent third party which Mr. Mastandrea has the right to vote; (ii) 163,117 common shares held by Paragon Real Estate Development, LLC, of which Mr. Mastandrea is the managing member; (iii) 2,000 common shares; (iv) 2,000 restricted common shares; and (v) 1,046 common shares.
- (8) Mr. Mastandrea is the managing member of Paragon Real Estate Development, LLC and these shares are also included in Mr. Mastandrea's common shares.
- (9) Includes: (i) 1,333 options; (ii) 5,930 common shares held by Lambert Equities II, LLC, of which Mr. Lambert is the controlling majority member and sole manager; and (iii) 36,852 common shares.
- (10) Includes: (i) 2,000 common shares and (ii) 2,000 restricted commons shares. Does not include 163,117 common shares held by Paragon Real Estate Development, LLC, of which Mr. Dee is a member.
- (11) Includes: (i) 2,000 common shares and (ii) 667 options.
- (12) Includes (i) 667 options.
- (13) Includes: 25,000 common shares. Based solely on verbal confirmation provided by Mr. O'Donnell.
- (14) Includes: 43,293 common shares. Based solely on information in the Schedule 13G/A filed on January 6, 2014 with the SEC by Mr. Schurgin.
- (15) Includes six named persons.
- (16) Includes: (i) 6,667 restricted common shares issuable to an independent third party which Mr. Mastandrea has the right to vote; (ii) 163,117 common shares held by Paragon Real Estate Development, LLC, of which Mr. Mastandrea is the managing member; (iii) 4,000 common shares; (iv) 4,000 restricted common shares; (v) 3,333 options; and (vi) 47,827 common shares.
- (17) Represents shares held by Paragon Real Estate Development, LLC, of which Mr. Mastandrea is the managing member. Each preferred A share is convertible into 0.305 common shares.
- (18) Does not include 161,410 preferred A shares held by Paragon Real Estate Development, LLC, of which Mr. Dee is a member.
- (19) Includes: (i) 6,667 restricted common shares issuable to an independent third party which Mr. Mastandrea has the right to vote; (ii) 163,117 common shares held by Paragon Real Estate Development, LLC, of which Mr. Mastandrea is the managing member; (iii) 2,000 common shares; (iv) 2,000 restricted common shares; (v) 49,243 common shares issuable upon conversion of 161,410 preferred A shares held by Paragon Real Estate Development, LLC; (vi) 569,440 common shares issuable upon conversion of 56,944 preferred C shares; and (vii) 1,046 common shares.
- (20) Includes (i) 163,116 common shares and (ii) 49,243 common shares issuable upon conversion of 161,410 preferred A shares. These shares are also included in Mr. Mastandrea's total shares.
- (21) Includes: (i) 1,333 options; (ii) 625,000 common shares issuable upon conversion of 62,500 preferred C shares; and (iii) 42,782 common shares.

Includes: (i) 2,000 common shares (ii) 2,000 restricted common shares; and (iii) 125,000 common shares
(22) issuable upon conversion of 12,500 preferred C shares. Does not include 163,117 common shares or 161,410 preferred A shares held by Paragon Real Estate Development, LLC, of which Mr. Dee is a member.

Includes: (i) 2,000 common shares; (ii) 667 options; and (iii) 375,000 common shares issuable upon conversion
(23) of 37,500 preferred C shares.

Includes: (i) 2,000 common shares; (ii) 667 options; and (iii) 625,000 common shares issuable upon conversion
(24) of 62,500 preferred C shares.

Includes: (i) 667 options; and (ii) 125,000 common shares issuable upon conversion of 12,500 preferred C
(25) shares.

Includes: (i) 6,667 restricted common shares issuable to an independent third party which Mr. Mastandrea has
the right to vote; (ii) 163,117 common shares held by Paragon Real Estate Development, LLC, of which Mr.
(26) Mastandrea is the managing member; (iii) 4,000 common shares; (iv) 4,000 restricted common shares; (v) 3,333
options; (vi) 49,243 common shares issuable upon conversion of 161,410 preferred A shares held by Paragon
Real Estate Development, LLC; (vii) 2,444,440 common shares issuable upon conversion of 244,444 preferred C
shares; and (viii) 47,827 common shares.

Equity Compensation Plan Information

Equity Compensation Plans Approved/ Not Approved by Security Holders	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders			
2004 Share Option Plan			
Restricted common shares	5,333	\$ —	
Options for common shares	2,000	\$ 18.25	
	7,333	\$ 4.98	27,332
Equity compensation plans not approved by security holders			
Common shares	6,667	\$ —	
	6,667	\$ —	—
Total all plans – Common shares	14,000	\$ 2.61	27,332

In addition to the above plans, we entered into an agreement dated March 4, 2003 and approved by the shareholders on June 30, 2003 with Mr. Mastandrea, Mr. Dee and Paragon Real Estate Development, LLC of which Mr. Mastandrea is the managing member, and Mr. Dee is a member. Pursuant to this agreement, we may issue up to \$26.0 million in our common shares to Paragon Real Estate Development, LLC in exchange for it and its members procuring future acquisition, development and re-development real estate transactions for Paragon's benefit. On September 29, 2006, Paragon amended this agreement to add each of the trustees to the agreement so that if a trustee brings a new transaction to Paragon, he would receive additional common shares of Paragon in accordance with the formula in the agreement. This agreement is intended to serve as incentive for the trustees and officers of Paragon to increase our assets and net operating income in the future. The exact number of common shares that would be issued will be calculated in accordance with a formula based on the type of transaction that they present to us. The formula for a particular real estate transaction would be calculated by dividing (i) estimated net operating income to be generated from the real estate transaction for the first year following its consummation by (ii) the capitalization rate used in the real estate transaction, less the "applicable basis point factor." The "applicable basis point factor" is defined as: 75 basis points for the acquisition of an existing operating property, 87.5 basis points for the acquisition of a re-development property, and 100 basis points for the acquisition of a development property. We would issue our

common shares only upon the closing of the real estate transaction. For any transaction brought to Paragon by Messrs. Mastandrea and Dee, Mr. Mastandrea would be allocated half of the common shares and Mr. Dee would be allocated the other half, and all of their common shares would be held by Paragon Real Estate Development, LLC for the benefit of its owners.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Relationships and Related Transactions

None.

Trustee Independence

Our Board has affirmatively determined that four of our six trustees are “independent” under the NASDAQ listing standards, applicable SEC rules and the standards prescribed by our declaration of trust. These trustees are Daryl J. Carter, Daniel G. DeVos, Paul T. Lambert, and Michael T. Oliver. Messrs. Mastandrea and Dee, our other two trustees, are also executive officers of the Company, and therefore are not considered to be “independent” according to these standards.

Item 14. Principal Accountant Fees and Services.

The aggregate fees billed by the principal independent registered public accounting firm (Boulay PLLP) to the Company for the fiscal years ended December 31, 2014 and 2013 are as follows:

Category	Year	Fees	% Approved by Audit Committee	
Audit Fees ⁽¹⁾	2014	\$25,600	100	%
	2013	\$25,100	100	%
Audit-Related Fees	2014	\$—		
	2013	\$—		
Tax Fees ⁽²⁾	2014	\$1,800	100	%
	2013	\$1,500	100	%
All Other Fees	2014	\$—		
	2013	\$—		

(1) Audit fees include audits and reviews of required SEC filings.

(2) Tax fees include the preparation of the Federal tax return.

Policy for Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

Before the independent auditors are engaged by the Company to render audit or non-audit services, the Audit Committee approves the engagement.

PART IV

Item 15. Exhibits, Financial Statement Schedules.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Stockholders of Paragon Real Estate Equity and Investment Trust

We have audited the accompanying consolidated balance sheets of Paragon Real Estate Equity and Investment Trust (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income (loss), shareholders' equity, and cash flows for each of the years in the two-year period ended December 31, 2014. Paragon Real Estate Equity and Investment Trust's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Paragon Real Estate Equity and Investment Trust as of December 31, 2014 and 2013, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the lack of revenue generating operations, the Company's net losses, negative cash flow from operations and accumulated deficit raise substantial doubt about the Company's ability to continue as a going concern. The consolidated statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to that matter.

Paragon Real Estate Equity and Investment Trust

Notes to Consolidated Financial Statements

December 31, 2014

Note 1 – Organization

Paragon Real Estate Equity and Investment Trust (the “Company,” “Paragon,” “we,” “our,” or “us”) is a Maryland shell corporation primarily focused on maintaining its corporate existence and SEC reporting history to enable it, in the future, to raise additional capital and make real estate investments. Future real estate investments may include acquisition and development of retail, office, office warehouse, industrial, multifamily, hotel, other commercial properties, acquisition of or merger with a REIT or real estate operating company and joint venture investments. Excess funds are invested in cash equivalents.

Note 2 – Basis of Presentation

Consolidated Financial Statement Presentation

We have prepared the consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). In our opinion, all adjustments (consisting solely of normal recurring items) necessary for a fair presentation of our financial position as of December 31, 2014 and 2013, the results of our operations for the years ended December 31, 2014 and 2013, and of our cash flows for the years ended December 31, 2014 and 2013 have been included.

The Company presents its financial statements on a consolidated basis because it combines its accounts with a wholly-owned subsidiary that discontinued operations in 2002. All significant inter-company balances are eliminated in the consolidated financial statements.

Going Concern

The financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the continued operations as a public company and paying liabilities in the normal course of business. The Company is being maintained as a corporate shell that is current in its SEC filings. Operations consist only of investments on a temporary basis in publicly traded real estate companies and cash equivalents while management and the board evaluate real estate opportunities to put into the Company or decide to sell the entity to a party that needs a public shell.

At December 31, 2014, our cash in the operating account was \$10,726. The increase in cash during 2014 was \$1,083. We made redemptions from a money market investment account for a net total of \$57,996, which was used to pay expenses to keep the Company currently filed as a public company. Expenses, such as salaries and rent, have been eliminated so that the only expenses being incurred are to keep the Company current in its SEC filings, such as accounting, audit, legal, and filing fees. Our ability to continue as a going concern will be dependent upon acquiring assets to generate cash flow because marketable securities are our only revenue generating assets and will not generate enough cash flow to allow us to continue as a going concern.

There can be no assurance that the Company will be able to acquire an operating company, be acquired by or merge with another company, raise capital or otherwise continue to exist as a going concern. Even if our management is successful in closing a transaction, investors may not value the transaction in the same manner as we did, and investors may not value the transaction as they would value other transactions or alternatives. Failure to obtain external sources of capital and complete a transaction will materially and adversely affect the Company's ability to continue operations.

Note 3 – Summary of Significant Accounting Policies

Use of Estimates in the Preparation of Financial Statements

In order to conform with generally accepted accounting principles, management, in preparation of our consolidated financial statements, is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of December 31, 2014 and December 31, 2013, and the reported amounts of revenues and expenses for the years ended December 31, 2014 and 2013. Actual results could differ from those estimates. Significant estimates include deferred taxes and the related valuation allowance for deferred taxes, and these significant estimates, as well as other estimates and assumptions, may change in the near term.

Investments in Equipment

Our investments in equipment assets are reported at cost.

Depreciation expense is computed using the straight-line method based on the following useful lives:

	Years
Furniture, fixtures and equipment	3-7

There was no depreciation expense for the year ended December 31, 2014 because the equipment assets of \$5,370 are fully depreciated.

Cash

We maintain our cash in bank accounts that are federally insured.

Other Assets

As of December 31, 2014, other assets of \$9,953 are prepaid expenses for director and officer liability insurance of \$9,203 and \$750 of prepaid SEC filing charges.

As of December 31, 2013, other assets of \$8,826 are prepaid expenses for director and officer liability insurance.

Revenue Recognition

Revenues include interest and dividends earned on cash balances and marketable securities.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with Accounting Standards Codification 718 (“ASC 718”), Compensation – Stock Compensation, which addresses the accounting for stock-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise’s equity instruments or that may be settled by the issuance of such equity instruments. ASC 718 generally requires that these transactions be accounted for using a fair-value-based method. The Company uses the Black-Scholes option-pricing model to determine the fair-value of stock-based awards.

Income Taxes

Because we have not elected to be taxed as a Real Estate Investment Trust (“REIT”) for federal income tax purposes, we account for income taxes using the liability method under which deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the period in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company evaluates potential uncertain tax positions on an annual basis in conjunction with the board of trustees and its tax accountants. Authoritative literature provides a two-step approach to recognize and measure tax benefits when realization of the benefits is uncertain. The first step is to determine whether the benefit meets the more-likely-than-not condition for recognition and the second step is to determine the amount to be recognized based on the cumulative probability that exceeds 50%. The Company has no uncertain tax positions that required adjustments to our consolidated financial statements in 2014 or 2013.

At December 31, 2014, we have net operating losses totaling \$2,507,000. While these losses created a deferred tax asset, a valuation allowance was applied against the asset because of the uncertainty of whether we will be able to use these loss carryovers, which will expire in varying amounts through the year 2034. Pursuant to Internal Revenue Code regulations, Paragon will be limited to using \$869,000 of the prior net operating losses of \$11,100,000. These same regulations also limit the amount of loss used in any one year.

We are also subject to certain state and local income, excise and franchise taxes. The provision for state and local taxes has been reflected in general and administrative expense in the consolidated statements of operations and has not been separately stated due to its insignificance.

The Company is no longer subject to U.S. federal income tax examinations for the years before 2011 and, with few exceptions, is no longer subject to state and local or non-U.S. income tax examinations by tax authorities for years before 2011.

Fair Value of Financial Instruments

We adopted Accounting Standards Codification 820 ("ASC 820"), Fair Value Measurements and Disclosures, as it applies to our financial instruments, and Accounting Standards Codification 825 ("ASC 825"), Financial Instruments. ASC 820 defines fair value, outlines a framework for measuring fair value, and details the required disclosures about fair value measurements. ASC 825 permits companies to irrevocably choose to measure certain financial instruments and other items at fair value. ASC 825 also establishes presentation and disclosure requirements designed to facilitate comparison between entities that choose different measurement attributes for similar types of assets and liabilities.

Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market. ASC 820 establishes a hierarchy in determining the fair value of an asset or liability. The fair value hierarchy has three levels of inputs, both observable and unobservable. ASC 820 requires the utilization of the lowest possible level of input to determine fair value. Level 1 inputs include quoted market prices in an active market for identical assets or liabilities. Level 2 inputs are market data, other than Level 1, that are observable either directly or indirectly.

Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data. Level 3 inputs are unobservable and corroborated by little or no market data.

Except for those assets and liabilities which are required by authoritative accounting guidance to be recorded at fair value in our Consolidated Balance Sheets, we have elected not to record any other assets or liabilities at fair value, as permitted by ASC 825. No events occurred during 2014 which would require adjustment to the recognized balances of assets or liabilities which are recorded at fair value on a nonrecurring basis.

F-9

The following table provides information on those assets and liabilities measured at fair value on a recurring basis.

	Fair Value Measurement Using		
	Level 1	Level 2	Level 3
Marketable Securities			
December 31, 2014:			
Money Market Investment	\$ 19,378		
December 31, 2013:			
Money Market Investment	\$ 77,374		

The fair value of the marketable securities is based on quoted market prices in an active market.

Recent Accounting Pronouncements

Management has reviewed recently issued accounting pronouncements and does not expect the implementation of these pronouncements to have a significant effect on the Company's consolidated financial statements.

Note 4 – Marketable Securities

We did not have any investments in marketable securities as of December 31, 2014. All of the Company's investments in marketable securities were sold during 2013 and the funds were deposited in an insured deposit account at a securities brokerage firm. During 2014, the Company transferred \$58,000 from the account at the securities brokerage firm to the operating account. The interest earned on the cash balances during 2014 of \$4 is shown as purchases in marketable securities.

The Company recognizes gain or loss on the sale of marketable securities based upon the first-in-first-out method. During the year ended December 31, 2013, the Company sold \$76,341 of marketable securities having a cost basis of \$73,568 and recorded a gain of \$2,773. The proceeds of \$76,341 were deposited into an insured deposit account at a securities brokerage firm. The Company transferred \$53,000 to the operating account and the difference of \$23,341 plus the dividends earned on the marketable securities and interest earned on cash balances during 2013 of \$634, for a total of \$23,975, are shown as purchases in marketable securities.

As of December 31, 2013, we had no marketable securities. We had a net unrealized gain on marketable securities during 2013 of \$7,794 and a reclassification adjustment for the realized gain of \$2,773 on the sale of marketable securities. As of December 31, 2013, we have no unrealized gain or loss shown in shareholders' equity.

Note 5 – Shareholders' Equity

Preferred Shares

The Company has outstanding 96,826 Class A Cumulative Convertible Preferred Shares ("Class A Preferred Shares") that were issued to the public. The Class A Preferred Shares bear a liquidation value of \$10.00 per share. The Class A Preferred Shares are convertible into 0.046 common shares subject to certain formulas. We have the right to redeem the Class A Preferred Shares.

Effective June 30, 2003, we issued 696,078 Class A Preferred Shares valued at approximately \$2.4 million to Messrs. Mastandrea and Dee pursuant to separate restricted share agreements. Under each restricted share agreement, the restricted shares vest upon the later of the following dates:

the date our gross assets exceed \$50.0 million, or

50% of the restricted shares on March 4, 2004; 25% of the shares on March 4, 2005 and the remaining 25% of the shares on March 4, 2006.

In conjunction with a one-time incentive exchange offer for Class A preferred shareholders, Messrs. Mastandrea and Dee exchanged 534,668 of these restricted Class A Preferred Shares into 163,116 restricted common shares. The restrictions described above are also applicable to their common shares. The remaining 161,410 restricted Class A preferred shares held by Messrs. Mastandrea and Dee can each be converted into 0.305 restricted common shares.

During 2014 and 2013, no Class A Preferred Shares were converted to common shares.

Effective September 29, 2006, Paragon filed articles supplementary to its declaration of trust, as amended, restated and supplemented with the State Department of Assessment and Taxation of Maryland designating 300,000 Class C Convertible Preferred Shares ("Class C Preferred Shares"). The Class C Preferred Shares have voting rights equal to the number of common shares into which they are convertible. Each Class C Preferred Share is convertible into common shares by dividing by the sum of \$10.00 and any accrued but unpaid dividends on the Class C Preferred Shares by the conversion price of \$1.00. The Class C Preferred Shares have a liquidation preference of \$10.00 per share, plus any accrued but unpaid dividends, and can be redeemed by the board of trustees at any time, with notice, at the same price per share.

Effective September 29, 2006, three independent trustees of Paragon signed subscription agreements to purchase 125,000 Class C Preferred Shares for an aggregate contribution of \$500,000 to maintain Paragon as a corporate shell current in its SEC filings.

In addition, on September 29, 2006, James C. Mastandrea, President, Chief Executive Officer, and Chairman of the Board of Trustees of Paragon, signed a subscription agreement to purchase 44,444 restricted shares of Class C Convertible Preferred Shares. The consideration for the purchase was Mr. Mastandrea's services as an officer of Paragon for the period beginning September 29, 2006 and ending September 29, 2008. The Class C Convertible Preferred Shares are subject to forfeiture and are restricted from being sold by Mr. Mastandrea until the latest to occur of a public offering by Paragon sufficient to liquidate the Class C Convertible Preferred Shares, an exchange of Paragon's existing shares for new shares, or September 29, 2008. This agreement was amended to extend the service period and vesting period restriction dates to September 30, 2015.

Each of the trustees of Paragon, namely Daryl J. Carter, John J. Dee, Daniel G. DeVos, Paul T. Lambert, James C. Mastandrea and Michael T. Oliver, signed a restricted share agreement with Paragon, dated September 29, 2006, to receive a total of 12,500 restricted Class C Convertible Preferred Shares in lieu of receiving fees in cash for service as a trustee for the two years ending September 29, 2008. The restrictions on the Class C Convertible Preferred Shares were to be removed upon the latest to occur of a public offering by Paragon sufficient to liquidate the Class C Convertible Preferred Shares, an exchange of Paragon's existing shares for new shares, or September 29, 2008. These agreements were amended to extend the service period and vesting period restriction dates to September 30, 2015. No compensation expense was recognized due to the modification as it did not increase the value of the original grant.

Shares Held in Treasury

On October 1, 2003, we completed the sale of our 92.9% general partnership interest in our four commercial properties. A portion of the proceeds from the sale was paid in 38,130 of our common shares at an average closing price for the 30 calendar days prior to June 27, 2003 of \$21.00 or approximately \$801,000. These shares are recorded at cost in the accompanying consolidated balance sheets under treasury shares.

F-11

Restricted Common Shares

The following table summarizes the activity of our unvested restricted common shares for the years ended December 31, 2014 and 2013:

	Unvested Restricted Common Shares	
	Number of Shares	Weighted-Average Grant-Date Fair Value
Unvested at December 31, 2012	168,449	\$ 11.44
Vested	—	—
Unvested at December 31, 2013	168,449	\$ 11.44
Vested	—	—
Unvested at December 31, 2014	168,449	\$ 11.44

In the above table, 163,116 restricted shares vest upon meeting performance goals as discussed under “Preferred Shares.” Since the grant date, we have determined that meeting these performance goals is not probable and no compensation expense has been recognized related to this grant. The grant date fair value of \$1,847,000 would be recognized upon meeting the performance goals. The balance of 5,333 restricted shares had grant date fair values totaling \$79,000, which was recognized in prior periods though the restrictions remain on the shares.

On June 30, 2003, our shareholders approved the issuance of additional common shares to Paragon Real Estate Development, LLC for James C. Mastandrea, our Chief Executive Officer and President, and John J. Dee, our Chief Financial Officer and Senior Vice President, to encourage them to substantially grow the asset base, net operating income, funds from operations, net value, and share value of Paragon. On September 29, 2006, Paragon amended this agreement to add each of the trustees to the agreement so that if a trustee brings a new transaction to Paragon, he would receive additional common shares of Paragon in accordance with a formula in the agreement. We will issue restricted common shares if they locate and close on our behalf future acquisition, development or re-development transactions. Any of these transactions would be subject to approval by the members of our board of trustees who are not receiving the additional common shares. The maximum number of common shares they may receive under the additional contribution agreement is limited to a total value of \$26 million based on the average closing price of the common shares for 30 calendar days preceding the closing of any acquisition. The common shares will be restricted until we achieve the five-year pro forma income target for the acquisition, as approved by the board of trustees, and an increase of 5% in Paragon’s net operating income and funds from operations. The restricted shares would vest immediately upon any “shift in ownership,” as defined in the agreement.

Options

On November 16, 1998, we adopted the 1998 Share Option Plan. In 2004 the board of trustees unanimously recommended and the shareholders approved amendments to our 1998 Share Option Plan to increase the number of shares available for grant from 42,222 to 46,666 and to conform with current tax regulations (“2004 Plan”). The 2004 Plan provides for the grant of “incentive stock options,” as defined under Section 422(b) of the tax code, options that are not qualified under the tax code (referred to in this annual report as “non-statutory options”), share appreciation rights (“SARs”) and restricted share grants and performance share awards and dividend equivalents. The 2004 Plan is administered by our management, organization and compensation committee of the board. The committee has the authority, subject to approval by our board, to determine the terms of each award, to interpret the provisions of the 2004 plan and to make all other determinations for the administration of the 2004 Plan. The 2004 Plan expired in 2014; outstanding grants of shares and options remain effective until the terms of their individual agreements expire.

The 2004 Plan provided for the granting of share options to officers, trustees and employees at a price determined by a formula in the 2004 Plan agreement. The options are to be exercisable over a period of time determined by the 2004 Plan committee, but no longer than ten years after the grant date. Compensation resulting from the share options was initially measured at the grant date based on fair market value of the shares.

The assumptions made in estimating the fair value of the options on the grant date are based upon the Black-Scholes option-pricing model. There were no option grants during 2014 and 2013.

The following table summarizes the activity for outstanding stock options:

	Options Outstanding			Aggregate Intrinsic Value (1)
	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	
Balance at December 31, 2012	4,666	\$ 16.39	1.5	
Granted	-	-		
Exercised	-	-		
Canceled/forfeited/expired	(1,333)	\$ 16.50		
Balance at December 31, 2013	3,333	\$ 16.35	1.0	\$ 0.00
Granted	-	-		
Exercised	-	-		
Canceled/forfeited/expired	(1,333)	\$ 13.50		
Balance at December 31, 2014	2,000	\$ 18.25	0.7	\$ 0.00
Vested and exercisable as of December 31, 2014	2,000	\$ 18.25	0.7	\$ 0.00

The aggregate intrinsic value is calculated as approximately the difference between the weighted average exercise price of the underlying awards and the Company's estimated current fair market value at December 31, 2014. (1) Because the weighted average exercise price exceeds fair market value at December 31, 2014, there is no aggregate intrinsic value for the options.

The Company did not recognize any stock-based compensation expense during the years ending December 31, 2014 and 2013. As of December 31, 2014 and December 31, 2013, there was no remaining unrecognized cost related to stock options. To the extent the forfeiture rate is different than we have anticipated, stock-based compensation related to these awards will be different from our expectations.

Note 6 – Loss Per Share

The Company applies the guidance of Accounting Standards Codification 260 ("ASC 260"), Earnings Per Share ("EPS") for all periods presented herein. Net loss per weighted average common share outstanding - basic and diluted - are computed based on the weighted average number of common shares outstanding for the period. The weighted average number of common shares outstanding for the years ended December 31, 2014 and 2013 was 405,096. Common share equivalents of 2,448,892 as of December 31, 2014 and December 31, 2013 include outstanding convertible preferred shares, and stock options, and are not included in net loss per weighted average common share outstanding—diluted as they would be anti-dilutive.

	For the year ended December 31,	
	2014	2013
Numerator		
Net loss attributable to Common Shareholders	\$(57,470)	\$(53,655)
Denominator		
Weighted average Common Shares outstanding at December 31, 2014 and December 31, 2013	405,096	405,096
- Basic and Diluted		
Basic and Diluted EPS		
Net loss attributable to Common Shareholders – Basic and Diluted	\$(0.14)	\$(0.13)

F-13

Note 7 – Dividends/Distributions

No cash distributions were declared during 2014 and 2013 with respect to the common or preferred shares.

Note 8 – Income Taxes

There was no income tax provision for the years ended December 31, 2014 and 2013.

	For the year ended December 31,	
	2014	2013
Current	\$—	\$—
Deferred tax benefit	(23,000)	(21,000)
Change in valuation allowance	23,000	21,000
Total tax provision	\$—	\$—

The tax provision differs from the expense that would result from applying Federal statutory rates as follows:

	For the year ended December 31,	
	2014	2013
Tax / (Benefit) at Federal statutory rate	\$(20,000)	\$(18,000)
State income tax / (benefit), net of Federal tax effect	(3,000)	(3,000)
Change in valuation allowance	23,000	21,000
Tax provision	\$—	\$—

Deferred tax assets and liabilities consist of the following:

	At December 31,	
	2014	2013
Deferred tax assets:		
Net operating loss carryovers	\$ 1,003,000	\$ 980,000
Valuation allowance	(1,003,000)	(980,000)

Net deferred tax assets \$— \$—

Realization of deferred tax assets is dependent upon generation of sufficient future taxable income and the effects of other loss utilization provisions. Management has determined that sufficient uncertainty exists regarding the realizability of a significant portion of the net deferred tax assets and has provided a valuation allowance of \$1,003,000 and \$980,000, against the net deferred tax assets of the Company as of December 31, 2014 and 2013, respectively. A valuation allowance is considered to be a significant estimate that may change in the near term.

At December 31, 2014, the Company had net operating loss carryovers of \$2,507,000 available to be carried to future periods. Net operating loss carryovers of \$1,581,000 are available for Paragon to use without any limitation or restriction imposed by tax regulations. Changes in the ownership of Paragon's shares that occurred in 2001, 2003 and 2006 have limited the amount of net operating losses to be used to approximately \$72,500 per year for another 12 years, or a total of \$869,000. Prior net loss carryovers of approximately \$11,100,000 cannot be used due to the limitations imposed by Section 382 of the Internal Revenue Code related to the 2001, 2003 and 2006 changes of share ownership. The loss carryovers expire as follows:

Year Expiring	Net Operating Loss
2026	\$1,551,000
2027	364,000
2028	248,000
2029	81,000
2030	52,000
2031	39,000
2032	61,000
2033	54,000
2034	57,000
Total loss carryovers	\$2,507,000

Note 9 – Commitments and Contingencies

Employment Agreements

On April 3, 2006, the board of trustees of Paragon authorized modifications to the employment agreement of James C. Mastandrea, President and Chief Executive Officer. The modification agreement allows Mr. Mastandrea to devote time to other business and personal investments while performing his duties for Paragon. The original employment agreement with Mr. Mastandrea provides for an annual salary of \$60,000 effective as of March 4, 2003. The initial term of Mr. Mastandrea's employment is for two years and may be extended for terms of one year. Mr. Mastandrea's base annual salary may be adjusted from time to time, except that the adjustment may not be lower than the preceding year's base salary. The employment agreement provides that Mr. Mastandrea will be entitled to base salary and bonus at the rate in effect before any termination for a period of three years in the event that his employment is terminated without cause by us or for good reason by Mr. Mastandrea. Effective September 29, 2006, in lieu of an annual salary of \$100,000 and to conserve cash, Mr. Mastandrea agreed to receive 44,444 Class C Convertible Preferred Shares for his services as an officer of Paragon through September 29, 2008. This agreement was amended to extend the service period and vesting period restriction dates to September 30, 2015, though the shares were fully amortized by the original date in 2008.

The employment agreement with John J. Dee was also modified on April 3, 2006 in a similar way to Mr. Mastandrea's employment agreement as explained above, except he does not receive any Class C Convertible Preferred Shares for his services as an officer of Paragon. Mr. Dee's base annual salary may be adjusted from time to time, except that the adjustment may not be lower than the preceding year's base salary. The employment agreement provides that Mr. Dee will be entitled to base salary and bonus at the rate in effect before any termination for a period of three years in the event that his employment is terminated without cause by us or for good reason by Mr. Dee. The board of trustees approved in 2006 for Mr. Dee to receive compensation of \$125 per hour, up to a maximum of \$5,000 per month, though Mr. Dee has received no cash compensation under this arrangement in order to preserve the Company's cash.
