FIESTA RESTAURANT GROUP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of dollars, except share and per share amounts)

1. Basis of Presentation

Business Description. Fiesta Restaurant Group, Inc. ("Fiesta Restaurant Group" or "Fiesta") owns, operates and franchises two fast-casual restaurant brands through its wholly-owned subsidiaries Pollo Operations, Inc., and its subsidiaries, and Pollo Franchise, Inc., (collectively "Pollo Tropical") and Taco Cabana, Inc. and its subsidiaries (collectively "Taco Cabana"). Unless the context otherwise requires, Fiesta and its subsidiaries, Pollo Tropical and Taco Cabana, are collectively referred to as the "Company". At June 28, 2015, Fiesta owned and operated 136 Pollo Tropical® restaurants, of which 111 were located in Florida, sixteen were located in Texas, seven were located in Georgia and two were located in Tennessee and franchised a total of 35 Pollo Tropical restaurants, including 17 in Puerto Rico, five in Panama, two in Guatemala, two in Trinidad & Tobago, one in Venezuela, one in the Bahamas, one in Ecuador, one in Honduras and five on college campuses in Florida. At June 28, 2015, Fiesta owned and operated 163 Taco Cabana® restaurants, of which 160 were located in Texas, one was located in Oklahoma and, under the Cabana Grill® logo, which is an elevated, non-24 hour format for Taco Cabana, one was located in Georgia and one was located in Florida, and franchised a total of six Taco Cabana restaurants, including four in New Mexico, and two non-traditional locations (college campuses) in Texas.

Basis of Consolidation. The unaudited condensed consolidated financial statements presented herein reflect the consolidated financial position, results of operations and cash flows of Fiesta and its wholly-owned subsidiaries.

Fiscal Year. The Company uses a 52-53 week fiscal year ending on the Sunday closest to December 31. The fiscal year ended December 28, 2014 contained 52 weeks. The three and six months ended June 28, 2015 and June 29, 2014 each contained thirteen and twenty-six weeks, respectively. The fiscal year ending January 3, 2016 will contain 53 weeks.

Basis of Presentation. The accompanying unaudited condensed consolidated financial statements for the three and six months ended June 28, 2015 and June 29, 2014 have been prepared without an audit pursuant to the rules and regulations of the Securities and Exchange Commission and do not include certain information and footnotes required by GAAP for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair presentation of such financial statements have been included. The results of operations for the three and six months ended June 28, 2015 and June 29, 2014 are not necessarily indicative of the results to be expected for the full year.

These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 28, 2014 included in the Company's Annual Report on Form 10-K for the fiscal year ended December 28, 2014. The December 28, 2014 balance sheet data is derived from those audited financial statements.

Fair Value of Financial Instruments. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. In determining fair value, the accounting standards establish a three level hierarchy for inputs used in measuring fair value as follows: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs are observable for the asset or liability, either directly or indirectly, including quoted prices in active markets for similar assets or liabilities; and Level 3 inputs are unobservable and reflect our own assumptions. The following methods were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate the fair value:

Current Assets and Liabilities. The carrying values reported on the balance sheet of cash, accounts receivable and accounts payable approximate fair value because of the short maturity of those financial instruments.

Revolving Credit Borrowings. The fair value of outstanding revolving credit borrowings under our senior credit facility, which is considered Level 2, is based on current LIBOR rates and at June 28, 2015, was approximately \$71.0 million.

Long-Lived Assets. The Company reviews its long-lived assets, principally property and equipment, for impairment at the restaurant level. In addition to considering management's plans, known regulatory or governmental actions and damage due to acts of God (hurricanes, tornadoes, etc.), the Company considers a triggering event to have occurred related to a specific restaurant if the restaurant's cash flows for the last twelve months are less than a minimum threshold or if consistent levels of cash flows for the remaining lease period are less than the carrying value of the restaurant's assets. If an indicator of impairment exists for any of its assets, an estimate of undiscounted future cash flows over the life of the primary asset for each restaurant is compared to that long-lived asset's carrying value. If the carrying value is greater than the undiscounted cash flow, the Company then determines the fair value of the asset and if an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value. For closed restaurant locations, the Company reviews the future minimum lease payments and

Table of Contents

FIESTA RESTAURANT GROUP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands of dollars, except share and per share amounts)

related ancillary costs from the date of the restaurant closure to the end of the remaining lease term and records a lease charge for the lease liabilities to be incurred, net of any estimated sublease recoveries.

Use of Estimates. The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements. Estimates also affect the reported amounts of expenses during the reporting periods. Significant items subject to such estimates and assumptions include: accrued occupancy costs, insurance liabilities, evaluation for impairment of goodwill and long-lived assets and lease accounting matters. Actual results could differ from those estimates.

2. Other Liabilities

Other liabilities, current, consisted of the following:

	June 28, 2015	December 28, 2014
Accrued workers' compensation and general liability claims	\$4,503	\$3,996
Sales and property taxes	2,000	1,933
Accrued occupancy costs	531	508
Other	1,863	1,873
	\$8,897	\$8,310

Other liabilities, long-term, consisted of the following:

	June 28, 2015	December 28, 2014
Accrued occupancy costs	\$13,391	\$12,254
Deferred compensation	1,465	1,102
Accrued workers' compensation and general liability claims	1,075	977
Other	1,359	1,610
	\$17,290	\$15,943

Accrued occupancy costs include obligations pertaining to closed restaurant locations and accruals to expense operating lease rental payments on a straight-line basis over the lease term.

The following table presents the activity in the closed-store reserve, of which \$0.9 million and \$1.0 million are included in long-term accrued occupancy costs at June 28, 2015 and December 28, 2014, respectively, with the remainder in other current liabilities:

	Six Months Ended June 28, 2015	Year Ended December 28, 2014
Balance, beginning of period	\$1,251	\$1,439
Additional lease charges, net of recoveries	—	5
Payments, net	(110) (321
Other adjustments	85	128
Balance, end of period	\$1,226	\$1,251

3. Stock-Based Compensation

During the six months ended June 28, 2015 and June 29, 2014, the Company granted 22,597 and 71,891 non-vested restricted shares, respectively, under the Fiesta Plan to certain employees. These shares vest and become non-forfeitable over a four year vesting period. The weighted average fair value at grant date for these non-vested shares issued to employees during the six months ended June 28, 2015 and June 29, 2014 was \$62.05 and \$45.04, respectively.

During the six months ended June 28, 2015 and June 29, 2014, the Company granted 10,007 and 24,252 restricted stock units, respectively, under the Fiesta Plan to certain employees. Certain of the restricted stock units vest and become non-forfeitable over a four year vesting period and certain of the restricted stock units vest and become non-forfeitable at the end of a four year

Table of Contents

FIESTA RESTAURANT GROUP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(In thousands of dollars, except share and per share amounts)

vesting period. The weighted average fair value at grant date for these restricted stock units issued to employees during the six months ended June 28, 2015 and June 29, 2014 was \$62.05 and \$45.04, respectively.

During the three months ended June 28, 2015 and June 29, 2014, the Company granted 8,698 and 8,399 non-vested restricted shares, respectively, to non-employee directors. The weighted average fair value at the grant date for restricted non-vested shares issued to directors during the three months ended June 28, 2015 and June 29, 2014 was \$54.06 and \$37.23, respectively. These shares vest and become non-forfeitable over a one year vesting period.

Also during the six months ended June 28, 2015, the Company granted in the aggregate 17,501 non-vested restricted shares and 17,501 restricted stock units under the Fiesta Plan to certain employees subject to performance conditions. The non-vested restricted shares vest and become non-forfeitable over a four year vesting period subject to the attainment of performance conditions. The restricted stock units vest and become non-forfeitable at the end of a three year vesting period. The number of shares into which the restricted stock units convert is determined based on the attainment of certain performance conditions, and ranges from no shares if the minimum performance condition is not met to 35,002 shares if the maximum performance condition is met. The weighted average fair value at the grant date for restricted non-vested shares and restricted stock units subject to performance conditions issued during the six months ended June 28, 2015 was \$65.01.

Stock-based compensation expense for the six months ended June 28, 2015 and June 29, 2014 was \$2.0 million and \$1.8 million, respectively. As of June 28, 2015, the total unrecognized stock-based compensation expense relating to non-vested restricted shares and restricted stock units was approximately \$9.0 million. At June 28, 2015, the remaining weighted average vesting period for non-vested restricted shares and restricted stock units was 2.0 years.

A summary of all non-vested restricted shares and restricted stock units activity for the six months ended June 28, 2015 was as follows:

	Non-Vested Shares		Restricted Stock Units	
	Shares	Weighted Average Grant Date Price	Units	Weighted Average Grant Date Price
Outstanding at December 28, 2014	424,497	\$20.50	20,783	\$45.04
Granted	48,796	61.69	27,508	63.93
Vested	(172,923)) 17.56	(108)) 45.04
Forfeited	(245)) 32.12	(2,419)) 49.37
Outstanding at June 28, 2015	300,125	\$28.88	45,764	\$56.17

The fair value of the non-vested restricted shares and restricted stock units is based on the closing price on the date of grant.

4. Business Segment Information

The Company is engaged in the fast-casual restaurant industry, with two restaurant concepts (each of which is an operating segment): Pollo Tropical and Taco Cabana. Pollo Tropical is a fast-casual restaurant brand offering a wide variety of freshly prepared Caribbean inspired food, while our Taco Cabana restaurants offer a broad selection of hand-made, freshly prepared and authentic Mexican food.

The accounting policies of each segment are the same as those described in the summary of significant accounting policies discussed in Note 1. The Company reports more than one measure of segment profit or loss to the chief operating decision maker for the purposes of allocating resources to the segments and assessing their performance. The primary measures of segment profit or loss used to assess performance and allocate resources are income before taxes and Adjusted EBITDA, which is defined as earnings attributable to the applicable operating segment before interest, income taxes, depreciation and amortization, impairment and other lease charges, stock-based compensation expense and other income and expense. Although the chief operating decision maker uses Adjusted EBITDA as a

measure of segment profitability, in accordance with Accounting Standards Codification 280, Segment Reporting, the following table includes segment income before taxes, which is the measure of segment profit or loss determined in accordance with the measurement principles that are most consistent with the principles used in measuring the corresponding amounts in the consolidated financial statements.

(In thousands of dollars, except share and per share amounts)

5. Net Income per Share

We compute basic net income per share by dividing net income applicable to common shares by the weighted average number of common shares outstanding during each period. Our non-vested restricted shares contain a non-forfeitable right to receive dividends on a one-to-one per share ratio to common shares and are thus considered participating securities. The impact of the participating securities is included in the computation of basic net income per share pursuant to the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings attributable to common shares and participating securities according to dividends declared (whether paid or unpaid) and participation rights in undistributed earnings. Net income per common share was computed by dividing undistributed earnings allocated to common shareholders by the weighted average number of common shares outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both common shares and non-vested restricted shares based on the weighted average shares outstanding during the period.

Diluted earnings per share reflects the potential dilution that could occur if our restricted stock units were converted into common shares. Restricted stock units with performance conditions are only included in the diluted earnings per share calculation to the extent that the performance conditions have been met at the measurement date. We compute diluted earnings per share by adjusting the basic weighted average number of common shares by the dilutive effect of the restricted stock units, determined using the treasury stock method. Weighted average outstanding restricted stock units totaling 9,391 and 23,596 shares were not included in the computation of diluted earnings per share for the three months ended June 28, 2015 and June 29, 2014, respectively, because to do so would have been antidilutive.

The computation of basic and diluted net income per share is as follows:

	Three Months Ended		Six Months Ended	
	June 28, 2015	June 29, 2014	June 28, 2015	June 29, 2014
Basic and diluted net income per share:				
Net income	\$11,249	\$9,314	\$21,750	\$18,033
Less: income allocated to participating securities	(142)	(178)	(285)	(354)
Net income available to common stockholders	\$11,107	\$9,136	\$21,465	\$17,679
Weighted average common shares, basic	26,490,673	26,271,116	26,462,919	26,236,432
Restricted stock units	6,985	—	7,211	281
Weighted average common shares, diluted	26,497,658	26,271,116	26,470,130	26,236,713
Basic net income per common share	\$0.42	\$0.35	\$0.81	\$0.67
Diluted net income per common share	\$0.42	\$0.35	\$0.81	\$0.67

6. Commitments and Contingencies

Legal Matters. The Company is a party to legal proceedings incidental to the conduct of business. The Company records accruals for outstanding legal matters when it believes it is probable that a loss will be incurred and the amount can be reasonably estimated. The Company evaluates, on a quarterly basis, developments in legal matters that could affect the amount of any accrual and developments that would make a loss contingency both probable and reasonably estimable. If a loss contingency is not both probable and estimable, the Company does not establish an accrued liability.

There were no material changes to the status of the class action suit filed by Daisy, Inc., an automotive repair shop in Cape Coral, Florida, against Fiesta Restaurant Group, Inc. during the six months ended June 28, 2015. The amount of any loss related to this matter cannot be reasonably estimated at this time. The Company does not have insurance coverage for this claim.

The Company is a party to various other litigation matters incidental to the conduct of business. The Company does not believe that the outcome of any of these matters will have a material effect on its consolidated financial statements.

7. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which amends the guidance in former ASC 605, Revenue Recognition, and provides for either a full retrospective adoption in which the standard is applied to all of the periods presented or a modified retrospective adoption in which the cumulative effect of initially applying the standard is recognized at the date of initial application. The new standard provides accounting guidance for all revenue arising from contracts with customers and affects all entities that enter into contracts to provide goods or services to their customers unless the contracts are in the scope of other US GAAP requirements. The guidance also provides a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property and equipment, including real estate. The Company is currently evaluating the impact of the provisions of ASC 606; however, the Company expects the provisions to primarily impact certain franchise revenues and does not expect the standard to have a material effect on its financial statements. For the Company, the new standard is effective for interim and annual periods beginning after December 15, 2016.

In April 2015, the Financial Accounting Standards Board issued ASU 2015-03, Interest-Imputation of Interest (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs, which changes the presentation of debt issuance costs. ASU 2015-03 generally requires debt issuance costs related to a recognized liability to be reported as a direct reduction from the carrying amount of the debt. However, cost incurred in connection with revolving-debt arrangements may continue to be presented as an asset. The new standard does not change the recognition and measurement of debt issuance costs. Because the Company's debt issuance costs are related to its revolving credit facility, the Company may continue to classify its debt issuance costs as an asset. For the Company, the new standard is effective for interim and annual periods beginning after December 15, 2015.

ITEM 2-MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of financial condition and results of operations ("MD&A") is written to help the reader understand our company. The MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited condensed consolidated financial statements and the accompanying financial statement notes. Any reference to restaurants refers to company-owned restaurants unless otherwise indicated.

We use a 52-53 week fiscal year ending on the Sunday closest to December 31. The fiscal year ended December 28, 2014 contained 52 weeks. The three and six months ended June 28, 2015 and June 29, 2014 each contained thirteen and twenty-six weeks, respectively. The fiscal year ending January 3, 2016 will contain 53 weeks.

Company Overview

We own, operate and franchise two fast-casual restaurant brands, Pollo Tropical® and Taco Cabana®, which have over 25 years and 35 years, respectively, of operating history and loyal customer bases. Our Pollo Tropical restaurants offer a wide variety of freshly prepared Caribbean inspired food, while our Taco Cabana restaurants offer a broad selection of hand-made, freshly prepared and authentic Mexican food. We believe that both brands are differentiated from other restaurant concepts and offer a unique dining experience. We are positioned within the value-oriented fast-casual restaurant segment, which combines the convenience and value of quick-service restaurants with the variety, food quality, décor and atmosphere more typical of casual dining restaurants. Our open display kitchen format allows guests to view and experience our food being freshly-prepared and cooked to order. Additionally, nearly all of our restaurants offer the convenience of drive-thru windows. As of June 28, 2015, our company-owned restaurants included 136 Pollo Tropical restaurants and 163 Taco Cabana restaurants (including two restaurants under the Cabana Grill® logo, which is an elevated, non-24 hour format for Taco Cabana which we are currently testing outside of Texas).

We franchise our Pollo Tropical restaurants primarily internationally and as of June 28, 2015, we had 30 franchised Pollo Tropical restaurants located in Puerto Rico, Ecuador, Honduras, Trinidad & Tobago, the Bahamas, Venezuela, Panama and Guatemala, and five non-traditional licensed locations on college campuses in Florida. We have agreements for the continued development of franchised Pollo Tropical restaurants in certain of our existing franchised markets, and we have commitments for additional non-traditional locations in U.S. markets in which we currently operate.

As of June 28, 2015, we had four Taco Cabana franchised restaurants located in New Mexico and two non-traditional Taco Cabana licensed locations in Texas.

Executive Summary-Consolidated Operating Performance for the Three Months Ended June 28, 2015

Our second quarter 2015 results and highlights include the following:

- Net income increased \$1.9 million to \$11.2 million in the second quarter of 2015, or \$0.42 per diluted share, compared to net income of \$9.3 million, or \$0.35 per diluted share in the second quarter of 2014, primarily due to the net impact of the growth in revenues discussed below.
- Total revenues increased 11.5% in the second quarter of 2015 to \$171.9 million compared to \$154.2 million in the second quarter of 2014, driven primarily by an increase in the number of our company-owned restaurants and an increase in comparable restaurant sales of 4.3% for our Pollo Tropical restaurants and 5.6% for our Taco Cabana restaurants. The growth in comparable restaurant sales resulted primarily from an increase in average check of 4.5% at Pollo Tropical and 4.6% at Taco Cabana and an increase in transactions of 1.0% at Taco Cabana, partially offset by a decrease in transactions at Pollo Tropical of 0.2%.
- During the second quarter of 2015, we opened six new company-owned Pollo Tropical restaurants and one Taco Cabana restaurant and permanently closed two company-owned Taco Cabana restaurants. During the second quarter of 2014, we opened six new company-owned Pollo Tropical restaurants and one restaurant under our elevated non-24 hour Taco Cabana format, Cabana Grill.
- Adjusted EBITDA increased \$4.6 million in the second quarter of 2015 to \$27.0 million compared to \$22.4 million in the second quarter of 2014, also primarily due to the net impact of the increase in revenues. Adjusted EBITDA is a non-GAAP financial measure of performance. For a discussion of our use of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net income, see "Management's Use of Non-GAAP Financial Measures".

Pre-opening costs	1.3	% 1.3	% 0.1	% 0.3	% 0.7	% 0.8		%

Table of Contents

Consolidated Revenues. Revenues include restaurant sales, which consist of food and beverage sales, net of discounts, at our company-owned restaurants, and franchise royalty revenues and fees, which represent ongoing royalty payments that are determined based on a percentage of franchisee sales, franchise fees associated with new restaurant openings, and development fees associated with the opening of new franchised restaurants in a given market. Restaurant sales are influenced by new restaurant openings, closures of restaurants and changes in comparable restaurant sales.

Total revenues increased 11.5% to \$171.9 million in the second quarter of 2015 from \$154.2 million in the second quarter of 2014. Restaurant sales increased 11.6% to \$171.3 million in the second quarter of 2015 from \$153.5 million in the second quarter of 2014. The following table presents the primary drivers of the increase in restaurant sales for both Pollo Tropical and Taco Cabana for the second quarter of 2015 compared to the second quarter of 2014 (in millions):

Pollo Tropical:

Increase in comparable restaurant sales	\$3.0
Incremental sales related to new restaurants, net of temporarily closed restaurant	11.3
Total increase	\$14.3

Taco Cabana:

Increase in comparable restaurant sales	\$4.2
Decrease in sales related to closed restaurants, net of new restaurants	(0.8)
Total increase	\$3.4

Comparable restaurant sales for Pollo Tropical restaurants increased 4.3% in the second quarter of 2015. Comparable restaurant sales for Taco Cabana restaurants increased 5.6% in the second quarter of 2015. Restaurants are included in comparable restaurant sales after they have been open for 18 months. Increases in comparable restaurant sales result primarily from an increase in average check and an increase in guest traffic. The increase in average check is primarily driven by menu price increases. For Pollo Tropical, menu price increases drove an increase in restaurant sales of 5.4% in the second quarter of 2015 as compared to the second quarter of 2014, partially offset by a decrease due to sales mix and higher discounting. For Taco Cabana, menu price increases drove an increase in restaurant sales of 2.9% in the second quarter of 2015 as compared to the second quarter of 2014, and the remaining increase in average check was primarily driven by a positive change in sales mix due to the implementation of new menu boards during the first quarter of 2015. Comparable restaurant sales for Taco Cabana also reflect transaction growth of 1.0% in the second quarter of 2015.

Restaurants in markets that haven't reached media efficiency generally have lower sales than restaurants in existing media-efficient markets.

Franchise revenues decreased to \$0.6 million in the second quarter of 2015 from \$0.7 million in the second quarter of 2014.

Operating costs and expenses. Operating costs and expenses include cost of sales, restaurant wages and related expenses, other restaurant expenses and advertising expenses. Cost of sales consists of food, paper and beverage costs including packaging costs, less rebates and purchase discounts. Cost of sales is generally influenced by changes in commodity costs, the sales mix of items sold and the effectiveness of our restaurant-level controls to manage food and paper costs. Key commodities, including chicken and beef, are generally purchased under contracts for future periods of up to one year.

Restaurant wages and related expenses include all restaurant management and hourly productive labor costs, employer payroll taxes, restaurant-level bonuses and related benefits. Payroll and related taxes and benefits are subject to inflation, including minimum wage increases and increased costs for health insurance, workers' compensation insurance and state unemployment insurance.

Other restaurant operating expenses include all other restaurant-level operating costs, the major components of which are utilities, repairs and maintenance, general liability insurance, real estate taxes and credit card fees.

Advertising expense includes all promotional expenses including television, radio, billboards and other sponsorships and promotional activities.

Pre-opening costs include costs incurred prior to opening a restaurant, including restaurant employee wages and related expenses, travel expenditures, recruiting, training, promotional costs associated with the restaurant opening and rent, including any non-cash rent expense recognized during the construction period. Pre-opening costs are generally incurred beginning four to six months prior to a restaurant opening.

Table of Contents

The following tables present the primary drivers of the changes in the components of restaurant operating margins for Pollo Tropical and Taco Cabana for the second quarter of 2015 compared to the second quarter of 2014. All percentages are stated as a percentage of applicable segment restaurant sales.

Pollo Tropical:

Cost of sales:

Higher commodity costs	2.1	%
Menu price increases	(1.8))%
Other	0.1	%
Net increase in cost of sales as a percentage of restaurant sales	0.4	%

Restaurant wages and related expenses:

Impact of higher sales volumes on fixed labor costs for comparable stores	(0.9))%
Higher labor costs and impact of lower sales volumes for new stores	0.9	%
Lower medical benefit costs	(0.3))%
Higher workers' compensation claim costs	0.2	%
Other	(0.2))%
Net decrease in restaurant wages and related costs as a percentage of restaurant sales	(0.3))%

Other operating expenses:

Lower repairs and maintenance costs ⁽¹⁾	(0.5))%
Lower insurance claims	(0.2))%
Other ⁽²⁾	0.4	%
Net decrease in other restaurant operating expenses as a percentage of restaurant sales	(0.3))%

Advertising expense:

Impact of higher sales	(0.1))%
Net decrease in advertising expense as a percentage of restaurant sales	(0.1))%

Pre-opening costs:

Net change in pre-opening costs as a percentage of restaurant sales	—	%
---	---	---

(1) The prior year includes additional costs related to the conversion to Coca-Cola products under a new five year contract.

(2) Includes higher costs related to real estate taxes, sanitation and various other costs.

Table of Contents

Taco Cabana:

Cost of sales:

Higher commodity costs	0.1	%
Menu price increases	(0.9))%
Menu board changes and sales mix	(0.5))%
Other	0.2	%
Net decrease in cost of sales as a percentage of restaurant sales	(1.1))%

Restaurant wages and related expenses:

Impact of higher sales volumes on fixed labor costs for comparable stores	(0.5))%
Lower workers' compensation claim costs	(0.2))%
Net decrease in restaurant wages and related costs as a percentage of restaurant sales	(0.7))%

Other operating expenses:

Lower repairs and maintenance costs	(0.3))%
Other ⁽¹⁾	0.3	%
Net change in other restaurant operating expenses as a percentage of restaurant sales	—	%

Advertising expense:

Timing of promotions	0.1	%
Net increase in advertising expense as a percentage of restaurant sales	0.1	%

Pre-opening costs:

Increased sales and timing of restaurant openings	(0.2))%
Net decrease in pre-opening costs as a percentage of restaurant sales	(0.2))%

(1) Includes higher costs related to sanitation, security and various other costs.

Consolidated Restaurant Rent Expense. Restaurant rent expense includes base rent and contingent rent on our leases characterized as operating leases, reduced by amortization of gains on sale-leaseback transactions. Restaurant rent expense, as a percentage of total restaurant sales, decreased to 4.7% in the second quarter of 2015 from 4.8% the second quarter of 2014 primarily as a result of the impact of higher sales, partially offset by new restaurants, which generally have higher rent.

Consolidated General and Administrative Expenses. General and administrative expenses are comprised primarily of (1) salaries and expenses associated with the development and support of our company and brands and the management oversight of the operation of our restaurants; and (2) legal, auditing and other professional fees and stock-based compensation expense.

General and administrative expenses were \$13.6 million in the second quarter of 2015 and \$12.1 million in the second quarter of 2014, and as a percentage of total revenues, general and administrative expenses were 7.9% in both the second quarter of 2015 and the second quarter of 2014. General and administrative expenses increased \$1.5 million in the second quarter of 2015 compared to the second quarter of 2014 primarily due to brand and corporate personnel and training to support the ongoing Pollo Tropical expansion into new markets.

Adjusted EBITDA. Adjusted EBITDA, which is one of the measures of segment profit or loss used by our chief operating decision maker for purposes of allocating resources to our segments and assessing their performance, is defined as earnings attributable to the applicable segment before interest, income taxes, depreciation and amortization, impairment and other lease charges, stock-based compensation expense and other income and expense. Adjusted EBITDA may not be necessarily comparable to other similarly titled captions of other companies due to differences in methods of calculation. Adjusted EBITDA for each of our segments includes an allocation of general and administrative expenses associated with administrative support for executive management, information systems and certain accounting, legal, supply chain, development, and other administrative functions. Adjusted EBITDA is a non-GAAP financial measure of performance. For a discussion of our use of Adjusted EBITDA and a reconciliation

of Adjusted EBITDA to net income, see the heading entitled "Management's Use of Non-GAAP Financial Measures".

Table of Contents

Adjusted EBITDA for Pollo Tropical increased to \$15.9 million in the second quarter of 2015 from \$13.4 million in the second quarter of 2014 due primarily to the net impact of the increase in revenues. Adjusted EBITDA for Taco Cabana increased to \$11.1 million in the second quarter of 2015 from \$8.9 million in the second quarter of 2014 also primarily due to the net impact of the increase in revenues.

Depreciation and Amortization. Depreciation and amortization expense increased to \$7.4 million in the second quarter of 2015 from \$5.6 million in the second quarter of 2014 due primarily to increased depreciation relating to new restaurant openings.

Impairment and Other Lease Charges. Each quarter we assess the potential impairment of any long-lived assets that have experienced a triggering event, including restaurants for which the related cash flows are below a certain threshold. After reviewing the specific cash flows and management's plans related to the restaurants for which an impairment review was performed, we determined that no impairment was currently necessary. However, for two Pollo Tropical restaurants and one Taco Cabana restaurant, the projected cash flows were not substantially in excess of their carrying values. If the performance of these restaurants does not improve as projected, an impairment charge could be recognized in future periods, and such charge could be material.

Other (Income) Expense. Other income in the second quarter of 2015 primarily consisted of expected business interruption insurance proceeds for a Pollo Tropical location that was temporarily closed due to a fire.

Interest Expense. Interest expense decreased \$0.2 million to \$0.4 million in the second quarter of 2015 from \$0.6 million in the second quarter 2014 due primarily to lower borrowing rates and higher capitalized interest in 2015.

Provision for Income Taxes. The provision for income taxes was derived using an estimated effective annual income tax rate of 38.3% for the second quarter of 2015 and 2014. There were no discrete tax adjustments in the second quarter of 2015 or 2014.

Net Income. As a result of the foregoing, we had net income of \$11.2 million in the second quarter of 2015 compared to net income of \$9.3 million in the second quarter of 2014.

Six Months Ended June 28, 2015 Compared to Six Months Ended June 29, 2014

The following table sets forth, for the six months ended June 28, 2015 and June 29, 2014, selected consolidated operating results as a percentage of consolidated restaurant sales:

	Six Months Ended							
	June 28,	June 29,	June 28,	June 29,	June 28,	June 29,		
	2015	2014	2015	2014	2015	2014		
	Pollo Tropical		Taco Cabana		Consolidated			
Restaurant sales:								
Pollo Tropical					52.8	% 49.1	%	
Taco Cabana					47.2	% 50.9	%	
Consolidated restaurant sales					100.0	% 100.0	%	
Costs and expenses:								
Cost of sales	33.2	% 32.9	% 29.6	% 30.5	% 31.5	% 31.7	%	
Restaurant wages and related expenses	21.5	% 21.6	% 28.5	% 29.0	% 24.8	% 25.3	%	
Restaurant rent expense	4.2	% 4.1	% 5.4	% 5.7	% 4.8	% 4.9	%	
Other restaurant operating expenses	11.9	% 12.1	% 12.8	% 12.9	% 12.3	% 12.5	%	
Advertising expense	2.4	% 2.5	% 4.1	% 4.3	% 3.2	% 3.4	%	
Pre-opening costs	1.1	% 1.0	% 0.1	% 0.2	% 0.6	% 0.6	%	

Total revenues increased 12.1% to \$335.8 million in the six months ended June 28, 2015 from \$299.6 million in the six months ended June 29, 2014. Restaurant sales also increased 12.1% to \$334.3 million in the six months ended June 28, 2015 from \$298.3 million in the six months ended June 29, 2014. The following table presents the primary drivers of the increase in restaurant sales for both Pollo Tropical and Taco Cabana for the six months ended June 28, 2015 compared to the six months ended June 29, 2014 (in millions):

Table of Contents

Pollo Tropical:

Increase in comparable restaurant sales	\$7.4
Incremental sales related to new restaurants, net of temporarily closed restaurant	22.4
Total increase	\$29.8

Taco Cabana:

Increase in comparable restaurant sales	\$6.9
Decrease in sales related to closed restaurants, net of new restaurants	(0.8)
Total increase	\$6.1

Comparable restaurant sales for Pollo Tropical restaurants increased 5.4% in the six months ended June 28, 2015.

Comparable restaurant sales for Taco Cabana restaurants increased 4.7% in the six months ended June 28, 2015. For

Pollo Tropical, menu price increases drove an increase in restaurant sales of 5.4% in the six months ended June 28, 2015 as compared to the six months ended June 29, 2014. For Taco Cabana, menu price increases drove an increase in restaurant sales of 2.4% in the six months ended June 28, 2015 as compared to the six months ended June 29, 2014, and the remaining increase in average check was primarily driven by a positive change in sales mix due to the implementation of new menu boards in the first quarter of 2015. Comparable restaurant sales for Taco Cabana also reflect transaction growth of 0.9% in the six months ended June 28, 2015.

Restaurants in markets that haven't reached media efficiency generally have lower sales than restaurants in existing media-efficient markets.

Franchise revenues increased to \$1.4 million in the six months ended June 28, 2015 from \$1.3 million in the six months ended June 29, 2014.

Table of Contents

The following tables present the primary drivers of the changes in the components of restaurant operating margins for Pollo Tropical and Taco Cabana for the six months ended June 28, 2015 compared to the six months ended June 29, 2014. All percentages are stated as a percentage of applicable segment restaurant sales.

Pollo Tropical:

Cost of sales:

Higher commodity costs	2.0	%
Menu price increases	(1.8))%
Other	0.1	%
Net increase in cost of sales as a percentage of restaurant sales	0.3	%

Restaurant wages and related expenses:

Impact of higher sales volumes on fixed labor costs for comparable stores	(1.0))%
Higher labor costs and impact of lower sales volumes for new stores	0.9	%
Lower medical benefit costs	(0.2))%
Higher workers' compensation claim costs	0.3	%
Other	(0.1))%
Net decrease in restaurant wages and related costs as a percentage of restaurant sales	(0.1))%

Other operating expenses:

Lower repairs and maintenance costs ⁽¹⁾	(0.4))%
Other	0.2	%
Net decrease in other restaurant operating expenses as a percentage of restaurant sales	(0.2))%

Advertising expense:

Impact of higher sales	(0.1))%
Net decrease in advertising expense as a percentage of restaurant sales	(0.1))%

Pre-opening costs:

Timing of restaurant openings	0.1	%
Net increase in pre-opening costs as a percentage of restaurant sales	0.1	%

(1) The prior year includes additional costs related to the conversion to Coca-Cola products under a new five year contract.

Table of Contents

Taco Cabana:

Cost of sales:

Higher commodity costs	0.3	%
Menu price increases	(0.7))%
Menu board changes and sales mix	(0.5))%
Net decrease in cost of sales as a percentage of restaurant sales	(0.9))%

Restaurant wages and related expenses:

Impact of higher sales volumes on fixed labor costs for comparable stores	(0.3))%
Lower workers' compensation claim costs	(0.2))%
Net decrease in restaurant wages and related costs as a percentage of restaurant sales	(0.5))%

Other operating expenses:

Lower insurance costs	(0.1))%
Net decrease in other restaurant operating expenses as a percentage of restaurant sales	(0.1))%

Advertising expense:

Timing of promotions and impact of higher sales	(0.2))%
Net decrease in advertising expense as a percentage of restaurant sales	(0.2))%

Pre-opening costs:

Increased sales and timing of restaurant openings	(0.1))%
Net decrease in pre-opening costs as a percentage of restaurant sales	(0.1))%

Consolidated Restaurant Rent Expense. Restaurant rent expense includes base rent and contingent rent on our leases characterized as operating leases, reduced by amortization of gains on sale-leaseback transactions. Restaurant rent expense, as a percentage of total restaurant sales, decreased to 4.8% in the six months ended June 28, 2015 from 4.9% in the six months ended June 29, 2014 primarily as a result of the impact of higher sales, partially offset by new restaurants, which generally have higher rent.

Consolidated General and Administrative Expenses. General and administrative expenses were \$27.4 million in the six months ended June 28, 2015 and \$24.3 million in the six months ended June 29, 2014 and as a percentage of total revenues, general and administrative expenses increased to 8.2% in the six months ended June 28, 2015 compared to 8.1% in the six months ended June 29, 2014. General and administrative expenses increased \$3.1 million in the six months ended June 28, 2015 compared to the six months ended June 29, 2014 primarily due to brand and corporate personnel and training to support the ongoing Pollo Tropical expansion into new markets.

Adjusted EBITDA. Adjusted EBITDA, which is one of the measures of segment profit or loss used by our chief operating decision maker for purposes of allocating resources to our segments and assessing their performance, is defined as earnings attributable to the applicable segment before interest, income taxes, depreciation and amortization, impairment and other lease charges, stock-based compensation expense and other income and expense. Adjusted EBITDA may not be necessarily comparable to other similarly titled captions of other companies due to differences in methods of calculation. Adjusted EBITDA for each of our segments includes an allocation of general and administrative expenses associated with administrative support for executive management, information systems and certain accounting, legal, supply chain, development, and other administrative functions. Adjusted EBITDA is a non-GAAP financial measure of performance. For a discussion of our use of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net income, see the heading entitled "Management's Use of Non-GAAP Financial Measures". Adjusted EBITDA for Pollo Tropical increased to \$31.9 million in the six months ended June 28, 2015 from \$27.1 million six months ended June 29, 2014 due primarily to the net impact of the increase in revenues, partially offset by an increase in pre-opening costs. Adjusted EBITDA for Taco Cabana increased to \$20.1 million in the six months ended June 28, 2015 from \$16.0 million in the six months ended June 29, 2014 also primarily due to the net impact of the increase in revenues.

Table of Contents

Depreciation and Amortization. Depreciation and amortization expense increased to \$14.2 million in the six months ended June 28, 2015 from \$10.9 million in the six months ended June 29, 2014 due primarily to increased depreciation relating to new restaurant openings.

Impairment and Other Lease Charges. Impairment and other lease charges were \$0.1 million in the six months ended June 28, 2015 and consisted of impairment charges for Taco Cabana locations that have closed or will be closed. Each quarter we assess the potential impairment of any long-lived assets that have experienced a triggering event, including restaurants for which the related cash flows are below a certain threshold. After reviewing the specific cash flows and management's plans related to the restaurants for which an impairment review was performed, we determined that no impairment was currently necessary. However, for two Pollo Tropical restaurants and one Taco Cabana restaurant, the projected cash flows were not substantially in excess of their carrying values. If the performance of these restaurants does not improve as projected, an impairment charge could be recognized in future periods, and such charge could be material.

Other (Income) Expense. Other income in the six months ended June 28, 2015 primarily consisted of a previously deferred gain from a sale-leaseback transaction that was recognized upon termination of the lease as a result of an eminent domain proceeding and expected business interruption insurance proceeds for a Pollo Tropical location that was temporarily closed due to a fire.

Interest Expense. Interest expense decreased \$0.3 million to \$0.9 million in the six months ended June 28, 2015 from \$1.2 million in the six months ended June 29, 2014 due primarily to lower borrowing rates and higher capitalized interest in 2015.

Provision for Income Taxes. The provision for income taxes was derived using an estimated effective annual income tax rate of 38.3% for the six months ended June 28, 2015 and six months ended June 29, 2014. There were no discrete tax adjustments in the six months ended June 28, 2015 or six months ended June 29, 2014.

Net Income. As a result of the foregoing, we had net income of \$21.8 million in the six months ended June 28, 2015 compared to net income of \$18.0 million in the six months ended June 29, 2014.

Liquidity and Capital Resources

We do not have significant receivables or inventory and receive trade credit based upon negotiated terms in purchasing food products and other supplies. We are able to operate with a substantial working capital deficit because:

- restaurant operations are primarily conducted on a cash basis;
- rapid turnover results in a limited investment in inventories; and
- cash from sales is usually received before related liabilities for food, supplies and payroll become due.

Capital expenditures and payments related to our lease obligations represent significant liquidity requirements for us. We believe cash generated from our operations, availability of borrowings under our senior credit facility and proceeds from any sale-leaseback transactions which we may choose to do will provide sufficient cash availability to cover our anticipated working capital needs, capital expenditures and debt service requirements for the next twelve months.

Operating Activities. Net cash provided by operating activities in the first six months of 2015 and 2014 was \$34.2 million and \$25.9 million, respectively. The increase in net cash provided by operating activities in the first six months of 2015 was primarily driven by the increase in Adjusted EBITDA. Adjusted EBITDA is a non-GAAP financial measure of performance. For a discussion of our use of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net income, see "Management's Use of Non-GAAP Financial Measures".

Investing Activities. Net cash used in investing activities in the first six months of 2015 and 2014 was \$39.8 million and \$29.3 million, respectively. Capital expenditures are the largest component of our investing activities and include: (1) new restaurant development, which may include the purchase of real estate; (2) restaurant remodeling/reimaging, which includes the renovation or rebuilding of the interior and exterior of our existing restaurants; (3) other restaurant capital expenditures, which include capital maintenance expenditures for the ongoing reinvestment and enhancement of our restaurants; and (4) corporate and restaurant information systems.

Table of Contents

The following table sets forth our capital expenditures for the periods presented (in thousands):

	Pollo Tropical	Taco Cabana	Other	Consolidated
Six Months Ended June 28, 2015:				
New restaurant development	\$30,559	\$2,903	\$—	\$33,462
Restaurant remodeling	—	1,526	—	1,526
Other restaurant capital expenditures (1)	1,559	1,120	—	2,679
Corporate and restaurant information systems	26	109	2,098	2,233
Total capital expenditures	\$32,144	\$5,658	\$2,098	\$39,900
Number of new restaurant openings	12	1		13
Six Months Ended June 29, 2014:				
New restaurant development	\$22,506	\$4,098	\$—	\$26,604
Restaurant remodeling	—	4,350	—	4,350
Other restaurant capital expenditures (1)	1,496	1,143	—	2,639
Corporate and restaurant information systems	121	180	2,130	2,431
Total capital expenditures	\$24,123	\$9,771	\$2,130	\$36,024
Number of new restaurant openings	10	1		11

Excludes restaurant repair and maintenance expenses included in other restaurant operating expenses in our 1) consolidated financial statements. For the six months ended June 28, 2015 and June 29, 2014, total restaurant repair and maintenance expenses were approximately \$7.2 million and \$7.0 million, respectively.

In the first six months of 2014, investing activities also included two sale-leaseback transactions related to our restaurant properties, the net proceeds from which were \$5.7 million, as well as the sale of an excess Taco Cabana property, the net proceeds from which were \$1.0 million.

Financing Activities. Net cash provided by financing activities in the first six months of 2015 was \$6.0 million and included net revolving credit borrowings under our senior credit facility of \$5.0 million and the excess tax benefit from vesting of restricted shares of \$1.0 million. Net cash used by financing activities in the first six months of 2014 was \$3.8 million and included net repayments of revolving credit borrowings under our senior credit facility of \$5.0 million, partially offset by the excess tax benefit from vesting of restricted shares of \$1.3 million.

Senior Credit Facility. In December 2013, we terminated our former senior credit facility and entered into a new senior credit facility. The senior credit facility provides for aggregate revolving credit borrowings of up to \$150 million (including \$15 million available for letters of credit) and matures on December 11, 2018. The senior credit facility also provides for potential incremental increases of up to \$50 million to the revolving credit borrowings available under the senior credit facility. On June 28, 2015, there were \$71.0 million in outstanding revolving credit borrowings under our senior credit facility.

Borrowings under the senior credit facility bear interest at a per annum rate, at our option, equal to either (all terms as defined in the senior credit facility):

- 1) the Alternate Base Rate plus the applicable margin of 0.50% to 1.50% based on our Adjusted Leverage Ratio (with a margin of 0.50% as of June 28, 2015), or
- 2) the LIBOR Rate plus the applicable margin of 1.50% to 2.50% based on our Adjusted Leverage Ratio (with a margin of 1.50% at June 28, 2015).

In addition, the senior credit facility requires us to pay (i) a commitment fee based on the applicable Commitment Fee margin of 0.25% to 0.45%, based on our Adjusted Leverage Ratio, (with a margin of 0.25% at June 28, 2015) and the unused portion of the facility and (ii) a letter of credit fee based on the applicable LIBOR margin and the dollar amount of outstanding letters of credit.

All obligations under the senior credit facility are guaranteed by all of our material domestic subsidiaries. In general, our obligations under our senior credit facility and our subsidiaries' obligations under the guarantees are secured by a first priority lien and security interest on substantially all of our assets and the assets of our material subsidiaries (including a pledge of all of the capital stock and equity interests of our material subsidiaries), other than certain

specified assets, including real property owned by us or our subsidiaries.

24

Table of Contents

The outstanding borrowings under the senior credit facility are prepayable without penalty (other than customary breakage costs). The senior credit facility requires us to comply with customary affirmative, negative and financial covenants, including, without limitation, those limiting our and our subsidiaries' ability to (i) incur indebtedness, (ii) incur liens, (iii) loan, advance, or make acquisitions and other investments or other commitments to construct, acquire or develop new restaurants (subject to certain exceptions), (iv) pay dividends, (v) redeem and repurchase equity interests, (vi) conduct asset and restaurant sales and other dispositions (subject to certain exceptions), (vii) conduct transactions with affiliates and (viii) change our business. In addition, the senior credit facility requires us to maintain certain financial ratios, including minimum Fixed Charge Coverage and maximum Adjusted Leverage Ratios (all as defined under the senior credit facility).

Our senior credit facility contains customary default provisions, including without limitation, a cross default provision pursuant to which it is an event of default under this facility if there is a default under any of our indebtedness having an outstanding principal amount of \$5.0 million or more which results in the acceleration of such indebtedness prior to its stated maturity or is caused by a failure to pay principal when due.

As of June 28, 2015, we were in compliance with the covenants under our senior credit facility. After reserving \$5.5 million for letters of credit issued under the senior credit facility, \$73.5 million was available for borrowing under the senior credit facility at June 28, 2015.

Off-Balance Sheet Arrangements and Contractual Obligations

We have no off-balance sheet arrangements other than our operating leases, which are primarily for our restaurant properties and not recorded on our consolidated balance sheet.

There have been no significant changes outside the ordinary course of business to our contractual obligations since December 28, 2014. Information regarding our contractual obligations is included under "Contractual Obligations" in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 28, 2014.

Inflation

The inflationary factors that have historically affected our results of operations include increases in food and paper costs, labor and other operating expenses and energy costs. Labor costs in our restaurants are impacted by changes in the Federal and state hourly minimum wage rates as well as changes in payroll related taxes, including Federal and state unemployment taxes. We typically attempt to offset the effect of inflation, at least in part, through periodic menu price increases and various cost reduction programs. However, no assurance can be given that we will be able to fully offset such inflationary cost increases in the future.

Application of Critical Accounting Policies

Our unaudited interim condensed consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. Preparing consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by the application of our accounting policies. Our significant accounting policies are described in the "Significant Accounting Policies" footnote in the notes to our consolidated financial statements for the year ended December 28, 2014 included in our Annual Report on Form 10-K for the fiscal year ended December 28, 2014. Critical accounting estimates are those that require application of management's most difficult, subjective or complex judgments, often as a result of matters that are inherently uncertain and may change in subsequent periods. There have been no material changes affecting our critical accounting policies for the six months ended June 28, 2015.

Management's Use of Non-GAAP Financial Measures

Adjusted EBITDA is a non-GAAP financial measure. We use Adjusted EBITDA in addition to net income, income from operations, and income before income taxes to assess our performance, and we believe it is important for investors to be able to evaluate us using the same measures used by management. We believe this measure is an important indicator of our operational strength and the performance of our business. Adjusted EBITDA as calculated by us is not necessarily comparable to similarly titled measures reported by other companies, and should not be considered as an alternative to net income, earnings per share, cash flows from operating activities or other financial information determined under GAAP.

Adjusted EBITDA is defined as earnings before interest, income taxes, depreciation and amortization, impairment and other lease charges, stock-based compensation expense and other income and expense. Adjusted EBITDA for each of our segments includes an allocation of general and administrative expenses associated with administrative support for executive management, information systems and certain accounting, legal, supply chain, development and other administrative functions.

Table of Contents

Management believes that Adjusted EBITDA, when viewed with our results of operations calculated in accordance with GAAP and our reconciliation of Adjusted EBITDA to net income (i) provide useful information about our operating performance and period-over-period growth, (ii) provide additional information that is useful for evaluating the operating performance of our business and (iii) permit investors to gain an understanding of the factors and trends affecting our ongoing earnings, from which capital investments are made and debt is serviced. However, such measures are not measures of financial performance or liquidity under GAAP and, accordingly, should not be considered as alternatives to net income or cash flow from operating activities as indicators of operating performance or liquidity. Also these measures may not be comparable to similarly titled captions of other companies.

All of such non-GAAP financial measures have important limitations as analytical tools. These limitations include the following:

- such financial information does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments to purchase capital equipment;

- such financial information does not reflect interest expense or the cash requirements necessary to service payments on our debt;

- although depreciation and amortization are non-cash charges, the assets that we currently depreciate and amortize will likely have to be replaced in the future, and such financial information does not reflect the cash required to fund such replacements; and

- such financial information does not reflect the effect of earnings or charges resulting from matters that our management does not consider to be indicative of our ongoing operations. However, some of these charges (such as impairment and other lease charges, other income and expense and stock-based compensation expense) have recurred and may recur.

A reconciliation of Adjusted EBITDA to consolidated net income follows:

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 28, 2015	June 29, 2014	June 28, 2015	June 29, 2014
Adjusted EBITDA:				
Pollo Tropical	\$ 15,862	\$ 13,425	\$ 31,873	\$ 27,102
Taco Cabana	11,138	8,927	20,095	16,030
Consolidated	27,000	22,352	51,968	43,132
Less:				
Depreciation and amortization	7,401	5,578	14,248	10,923
Impairment and other lease charges	—	32	94	17
Interest expense	414	568	852	1,171
Provision for income taxes	6,983	5,781	13,502	11,194
Stock-based compensation expense	1,095	1,079	2,036	1,800
Other (income) expense	(142)	—	(514)	(6)
Net income	\$ 11,249	\$ 9,314	\$ 21,750	\$ 18,033

Forward Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

“Forward-looking statements” are any statements that are not based on historical information. Statements other than statements of historical facts included herein, including, without limitation, statements regarding our future financial position and results of operations, business strategy, budgets, projected costs and plans and objectives of management for future operations, are “forward-looking statements.” Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” “continue” or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be

correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or “cautionary statements,” include, but are not limited to:

26

Table of Contents

Increases in food and other commodity costs;
Risks associated with the expansion of our business;
Our ability to manage our growth and successfully implement our business strategy;
General economic conditions, particularly in the retail sector;
Competitive conditions;
Weather conditions;
Fuel prices;
Significant disruptions in service or supply by any of our suppliers or distributors;
Changes in consumer perception of dietary health and food safety;
Labor and employment benefit costs;
Regulatory factors;
The outcome of pending or future legal claims or proceedings;
Environmental conditions and regulations;
Our borrowing costs;
The availability and terms of necessary or desirable financing or refinancing and other related risks and uncertainties;
The risk of an act of terrorism or escalation of any insurrection or armed conflict involving the United States or any other national or international calamity; and
Factors that affect the restaurant industry generally, including product recalls, liability if our products cause injury, ingredient disclosure and labeling laws and regulations, reports of cases of food borne illnesses such as “mad cow” disease and "avian" flu, and the possibility that consumers could lose confidence in the safety and quality of certain food products, as well as negative publicity regarding food quality, illness, injury or other health concerns.

ITEM 3—QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price Risk

We purchase certain products which are affected by commodity prices and are, therefore, subject to price volatility caused by weather, market conditions and other factors which are not considered predictable or within our control. Although many of the products purchased are subject to changes in commodity prices, certain purchasing contracts or pricing arrangements have been negotiated in advance to minimize price volatility. Where possible, we use these types of purchasing techniques to control costs as an alternative to using financial instruments to hedge commodity prices. In many cases, we believe we will be able to address commodity cost increases that are significant and appear to be long-term in nature by adjusting our menu pricing. However, long-term increases in commodity prices may result in lower restaurant-level operating margins.

There were no material changes from the information presented in Item 7A included in our Annual Report on Form 10-K for the year ended December 28, 2014 with respect to our market risk sensitive instruments.

ITEM 4—CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. Our senior management is responsible for establishing and maintaining disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures. We have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report, with the participation of our Chief Executive Officer and Chief Financial Officer, as well as other key members of our

Table of Contents

management. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 28, 2015.

Changes in Internal Control over Financial Reporting. No change occurred in our internal control over financial reporting during the second quarter of 2015 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes to the legal proceedings previously disclosed in Part 1 - Item 1 our Annual Report on Form 10-K for the fiscal year ended December 28, 2014.

Item 1A. Risk Factors

Part 1 - Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 28, 2014 describes important factors that could cause our actual operating results to differ materially from those indicated or suggested by forward-looking statements made in this Form 10-Q or presented elsewhere by management from time-to-time. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 28, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information

None
