SPECTIV	E INFORMATION	

A number of the matters and subject areas discussed in this Form 10-Q contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of forward-looking words or phrases such as "anticipate," "believe," "would," "expect," "intend," "may," "planned," "potential," "will," and "could," or the negative of these terms or words of similar meaning. These statements include expected future financial results, product offerings, global expansion, liquidity needs, financing ability, planned capital expenditures, management's or the Company's expectations and beliefs, and similar matters discussed in this Form 10-Q. The discussions of such matters and subject areas are qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company's actual future experience.

The Company's business, operations and financial performance are subject to certain risks and uncertainties, which could result in material differences in actual results from the Company's current expectations. These risks and uncertainties include, but are not limited to, general economic conditions, in particular relating to the automotive industry, consumer demand for the Company's and its customers' products, competitive and technological developments, customer purchasing actions, foreign currency fluctuations, fluctuations in costs of operations (including fluctuations in the cost of raw materials) and other matters described in the section titled "Risk Factors" in the Company's Form 10-K report filed on September 9, 2013 with the Securities and Exchange Commission for the year ended June 30, 2013.

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The

forward-looking statements made herein are only made as of the date of this Form 10-Q and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances
occurring after the date of this Form 10-Q.

STRATTEC SECURITY CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Basis of Financial Statements

STRATTEC SECURITY CORPORATION designs, develops, manufactures and markets automotive access control products, including mechanical locks and keys, electronically enhanced locks and keys, steering column and instrument panel ignition lock housings, latches, power sliding door systems, power lift gate systems, power deck lid systems, door handles and related products for primarily North American automotive customers. We also supply global automotive manufacturers through a unique strategic relationship with WITTE Automotive of Velbert, Germany, and ADAC Automotive of Grand Rapids, Michigan. Under this relationship, STRATTEC, WITTE and ADAC market each company's products to global customers under the "VAST" brand name.

During April 2013, we acquired a 51 percent ownership interest in NextLock LLC, a newly formed joint venture which was formed to introduce a new generation of biometric security products based upon the designs of Actuator Systems LLC, our partner and the owner of the remaining 49 percent interest. We anticipate shipment of new biometric security products to begin in the fourth quarter of our 2014 fiscal year through this new NextLock joint venture. STRATTEC products are shipped to customer locations in the United States, Canada, Mexico, Europe, South America, Korea and China, and we provide full service and aftermarket support for our products.

The accompanying condensed consolidated financial statements reflect the consolidated results of STRATTEC SECURITY CORPORATION, its wholly owned Mexican subsidiary, STRATTEC de Mexico, and its majority owned subsidiaries, ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC. STRATTEC SECURITY CORPORATION is located in Milwaukee, Wisconsin. STRATTEC de Mexico is located in Juarez, Mexico. ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC have operations in El Paso, Texas and Juarez, Mexico. Equity investments in Vehicle Access Systems Technology LLC ("VAST LLC") and NextLock LLC for which we exercise significant influence but do not control and are not the primary beneficiary, are accounted for using the equity method. VAST LLC consists primarily of three wholly owned subsidiaries in China and one joint venture in Brazil. NextLock LLC is located in El Paso, Texas. We have only one reporting segment.

In the opinion of management, the accompanying condensed consolidated balance sheet as of June 30, 2013, which has been derived from our audited financial statements, and the related unaudited interim condensed consolidated financial statements included herein contain all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and in accordance with Rule 10-01 of Regulation S-X. All significant intercompany transactions have been eliminated.

Interim financial results are not necessarily indicative of operating results for an entire year. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis and the financial statements and notes thereto included in the STRATTEC SECURITY CORPORATION 2013 Annual Report, which was filed with the Securities and Exchange Commission as an exhibit to our Form 10-K on September 9, 2013.

New Accounting Pronouncement Adopted

In February 2013, the Financial Accounting Standards Board ("FASB") issued an amendment to the accounting guidance for the reporting of amounts reclassified out of accumulated other comprehensive income ("AOCI"). The amendment expands the existing disclosure by requiring entities to present information about significant items reclassified out of AOCI by component. In addition, an entity is required to provide information about the effects on

net income of significant amounts reclassified out of each component of AOCI to net income either on the face of the statement where net income is presented or as a separate disclosure in the notes of the financial statements. The amendment is effective prospectively for annual or interim reporting periods beginning after December 15, 2012. The adoption of this accounting pronouncement did not have a material impact on our financial statement disclosures. See Accumulated Other Comprehensive Loss included herein.

Derivative Instruments

We own and operate manufacturing operations in Mexico. As a result, a portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate as a result of changes in the U.S. dollar / Mexican peso exchange rate. During fiscal 2013, we had agreements with Bank of Montreal that provided for two weekly Mexican peso currency option contracts to cover a portion of our weekly estimated peso denominated operating costs. The contracts with Bank of Montreal expired on June 28, 2013. The two weekly option contracts were for equivalent notional amounts and provided for the purchase of Mexican pesos at an average U.S. dollar / Mexican peso exchange rate of 12.40 if the spot rate at the weekly expiry date was below an average of 12.40 or for the purchase of Mexican pesos at an average U.S. dollar / Mexican peso exchange rate of 13.40 if the spot rate at the weekly expiry date was above an average of 13.40. Our objective in entering into these currency option contracts was to

minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso option contracts were not used for speculative purposes and were not designated as hedges. As a result, all currency option contracts were recognized in our accompanying consolidated financial statements at fair value and changes in the fair value of the currency option contracts were reported in current earnings as part of Other (Expense) Income, net. The premiums paid and received under the weekly Mexican peso currency option contracts netted to zero. As a result, premiums related to the contracts did not impact our earnings. No Mexican peso currency option contracts were outstanding as of December 29, 2013 or June 30, 2013.

The pre-tax effects of the Mexican peso option contracts on the accompanying Condensed Consolidated Statements of Income and Comprehensive Income consisted of the following (thousands of dollars):

	Other (Expense) Income, net Three Months						
	Ended			Six Months Ended			ed
	December 30,			Decemberedaber 30,			
	201 3 2012			2013 2012			
Not Designated as Hedging Instruments:							
Realized Loss	\$-	\$	-	\$ -	\$	(34)
Unrealized Gain	\$-	\$	38	\$ -	\$	349	

Fair Value of Financial Instruments

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and borrowings under our credit facility approximated book value as of December 29, 2013 and June 30, 2013. Fair value is defined as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of December 29, 2013 (in thousands of dollars):

	Fair Value Inputs								
	Level 1 Assets:								
	Quoted Level 2 Assets:								
	Prices	Observable							
	In	Inp	uts Other	Level 3 Assets:					
	Active	Tha	an Market	Unobservable

Fixed Income Fund:									
Bond Funds	471		-		-				
Cash and Cash Equivalents	-		568		-				
Total Assets at Fair Value	\$1,374	\$	568	\$	-				

The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan and are included in Other Long-term Assets in the accompanying Condensed Consolidated Balance Sheets. There were no transfers between Level 1 and Level 2 assets during the six months ended December 29, 2013.

Equity Earnings (Loss) of Joint Ventures

We hold a one-third interest in a joint venture company, Vehicle Access Systems Technology LLC ("VAST LLC"), with WITTE Automotive of Velbert, Germany ("WITTE"), and ADAC Automotive of Grand Rapids, Michigan ("ADAC"). VAST LLC exists to seek opportunities to manufacture and sell all three companies' products in areas of the world outside of North America and Europe. VAST LLC consists primarily of three wholly owned subsidiaries in China and one joint venture in Brazil. Our investment in VAST LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method.

The following are summarized statements of operations for VAST LLC (thousands of dollars):

	Three Months Ended			hs Ended Six Months Ended			ed	
	December D 9cember 30,			Γ	ecember 29,		December 30,	
	2013	20	012	2	013		2012

Credit Facilities and Guarantees

STRATTEC has a \$25 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank N.A.. ADAC-STRATTEC LLC has a \$5 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A, which is guaranteed by STRATTEC. The credit facilities both expire on August 1, 2016. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory and fixed assets located in the U.S. Interest on borrowings under the STRATTEC Credit Facility is at varying rates based, at our option, on the London Interbank Offering Rate ("LIBOR") plus 1.0 percent or the bank's prime rate. Interest on borrowings under the ADAC-STRATTEC Credit Facility for periods prior to January 22, 2014 was at varying rates based, at our option, on LIBOR plus 1.75 percent or the bank's prime rate. As a result of an amendment to the ADAC-STRATTEC Credit Facility, effective January 22, 2014 and thereafter, interest on borrowings under the facility will be based on LIBOR plus 1.0 percent or the bank's prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level.

The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. There were no outstanding borrowings under the STRATTEC Credit Facility at December 29, 2013 or June 30, 2013. There were no borrowings under the STRATTEC Credit Facility during fiscal 2014 to date or during fiscal 2013. Borrowings under the ADAC-STRATTEC Credit Facility totaled \$3.0 million at December 29, 2013 and \$2.25 million at June 30, 2013. The average outstanding borrowings and weighted average interest rate on the ADAC-STRATTEC Credit Facility loans were approximately \$2.8 million and 1.9 percent, respectively, during the six months ended December 29, 2013. The average outstanding borrowings and weighted average interest rate on the ADAC-STRATTEC Credit Facility loans were approximately \$1.9 million and 2.0 percent, respectively, during the six months ended December 30, 2012.

Environmental Reserve

In 1995, we recorded a provision of \$3 million for estimated costs to remediate an environmental contamination site at our Milwaukee facility. The site was contaminated by a solvent spill, which occurred in 1985, from a former above ground solvent storage tank located on the east side of the facility. The reserve was originally established based on third party estimates to adequately cover the cost for active remediation of the contamination. Due to changing technology and related costs associated with active remediation of the contamination, an updated analysis and estimate was obtained during fiscal 2010. As a result of this analysis, the reserve was reduced by approximately \$1.1 million, to \$1.5 million in 2010, to reflect the revised monitoring and remediation cost estimate. From 1995 through December 29, 2013, costs of approximately \$470,000 have been incurred related to the installation of monitoring wells on the property and ongoing monitoring costs. We continue to monitor and evaluate the site with the use of these groundwater monitoring wells. An environmental consultant samples these wells one or two times a year to determine the status of the contamination and the potential for remediation of the contamination by natural attenuation, the dissipation of the contamination over time to concentrations below applicable standards. If such sampling evidences a sufficient degree of and trend toward natural attenuation of the contamination at the site, we may be able to obtain a closure letter from the regulatory authorities resolving the issue without the need for active remediation. If a sufficient degree and trend toward natural attenuation is not evidenced by sampling, a more active form of remediation beyond natural attenuation may be required. The sampling has not yet satisfied all of the requirements for closure by natural attenuation. As a result, sampling continues and the reserve remains at an amount to reflect the estimated cost of active remediation. The reserve is not measured on a discounted basis. We believe, based on findings-to-date and known environmental regulations, that the remaining environmental reserve of \$1.4 million at December 29, 2013, is adequate.

Shareholders' Equity

A summary of activity impacting shareholders' equity for the six month period ended December 29, 2013 was as follows (in thousands):

			Equity
		Equity	Attributable
	Total	Attributable	to
	Shareholders'	to	Non-Controlling
	Equity	STRATTEC	Interest
Balance, June 30, 2013	\$ 111,880	\$ 104,218	\$ 7,662
