There are important factors that could cause our actual results, level of activity, performance, or achievements to differ materially from the results, level of activities, performance, or achievements expressed or implied by the forward-looking statements, including, but not limited to, delay in the Company's ability to obtain all requisite permits and approvals from relevant government authorities in relation to the redevelopment of two parcels of properties in Guangming, Shenzhen, and Gushu, Shenzhen, respectively, and the successful redevelopment of the two parcels of properties into Nam Tai Inno Park and Nam Tai Inno City; the sufficiency of the Company's cash position and other sources of liquidity to fund its property developments; continued inflation and appreciation of the Renminbi against the US dollar; rising labor costs in China and changes in the labor supply and labor relations. In particular, you should consider the risks outlined under the heading “Risk Factors” in our most recent Annual Report on Form 20-F and in our Current Report filed on Form 6-K from time to time. The Company's decision to continue dividend payments in 2018 does not necessarily mean that dividend payments will continue thereafter. Whether future dividends will be declared depends upon the Company's future growth and earnings, of which there can be no assurance, as well as the Company's cash flow needs for further expansion. Accordingly, there can be no assurance that cash dividends on the Company's common shares will be declared beyond

those declared for 2018, what amount those dividends may be or whether such dividends, once declared for a specific period, will continue for any future period, or at all; and whether we will purchase any of our shares in the open markets or otherwise.
