REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and Administrative Committee of
the Baxter International Inc. and Subsidiaries Incentive Investment Plan
Deerfield, Illinois

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the plan) as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting in accordance with the standards of the PCAOB. As part of our

audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion in accordance with the standards of the PCAOB.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Baxter International Inc. and Subsidiaries Incentive Investment Plan’s financial statements. The supplemental schedule is the responsibility of the Plan’s management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

/s/ Crowe Horwath LLP

We have served as the Plan’s auditor since 2010.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

1. General Description of the Plan

The following description of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan the predecessor of which originally became effective on January 1, 1960. The Plan was created for the purpose of providing retirement benefits to United States employees of Baxter International Inc. (the Sponsor or the Company) and its subsidiaries, and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the United States Internal Revenue Code. Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 50% of their pre-tax monthly compensation limited to a maximum of \$18,000 a year in 2017 and 2016, respectively. Participants who have attained the age of 50 by the end of the year may contribute up to an additional \$6,000 per year in "catch-up" contributions in 2017 and 2016, respectively. Newly hired employees are deemed to have elected to contribute 4% of compensation (increased by 1% per year to a total of 10%) unless they make a contrary election. The Company matches a participant's savings contributions on a dollar for dollar basis up to 3.0% of the participant's compensation, and matches any contributions between 3% and 4% of compensation at the rate of 50 cents for each dollar of a participant's pre-tax contribution, so that the maximum matching contribution for participants who contribute at least 4% of their compensation is 3.5% of compensation. The Company also contributes an additional non-matching 3% of compensation for employees that are not eligible to participate in the Company's U.S. qualified defined benefit pension plan, which includes all new employees hired on or after January 1, 2007, and employees who had less than five years of service on January 1, 2007 and who elected to cease earning additional service in the pension plan and participate in the higher level of Company contributions in the Plan.

Participants are immediately vested in the elective contributions and matching contribution plus actual earnings thereon. The additional non-matching contributions become fully vested after three years of service. Participants are fully vested in the Company's non-matching contributions account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company. Forfeitures of nonvested accounts are used to reduce future employer contributions.

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent.

Participants or their beneficiaries may elect lump-sum benefit payments, or benefits may be paid in installments. Shares of Baxter common stock may also be distributed in kind at the participant's election. Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their pre-tax contributions, matching contributions made prior to 2008, vested non-matching contributions and related earnings in cases of financial hardship and in certain other circumstances. In the case of a participant termination by reason of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals and an allocation of Plan-related expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The net income of the Plan is posted to the participant's accounts on a daily basis. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

Upon enrollment in the Plan, a participant may direct contributions into any of 17 investment options: Stable Income Fund, Baxter Common Stock Fund, State Street S&P 500 Index Non-Lending Series Fund, State Street International Index Non-Lending Series Fund, State Street Russell Small Cap Index Non-Lending Series Fund, Northern Trust Domestic Mid Cap Fund, State Street Global Advisors Emerging Markets Fund (SSgA Emerging Markets Fund) and ten different Target Date Retirement Funds. However, non-matching contributions may not be invested in the Baxter Common Stock Fund. Participants may not direct contributions to the Self-Managed Fund but can transfer funds into the Self-Managed Fund from other investment options. In addition, certain participants may maintain shares received in connection with Baxter's 1996 spin-off of Allegiance Corporation (Allegiance), which were subsequently converted into common shares of Cardinal Health Inc. (Cardinal) upon Cardinal's acquisition of Allegiance in 1999. These shares are maintained in the Cardinal Health Common Stock Fund. Additionally, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Certain participants obtained shares in Baxalta Incorporated (Baxalta), in connection with Baxter's 2015 spin-off of its biopharmaceutical business. These shares were placed in the Baxalta Common Stock Fund, which were subsequently converted into American Depository Shares of Shire plc (Shire) upon Shire's acquisition of Baxalta in 2016. These shares are maintained in the Shire Common Stock Fund. Participants are not able to make contributions or transfer existing account balances to the Cardinal Health Common Stock Fund, Edwards Lifesciences Common Stock Fund or the Shire Common Stock Fund (f/k/a the Baxalta Common Stock Fund), but may make transfers out of these funds at any time. As of December 31, 2017, investments in shares of Cardinal, Edwards Lifesciences and Shire were liquidated and balances in these funds consisted of cash balances only. Refer to Note 10 for more information. Starting in 2013, participants are no longer able to make contributions to the Composite Fund and General Equity Fund, but may make transfers out of these funds at any time.

On June 3, 2016, a wholly-owned subsidiary of Shire merged with and into Baxalta, with Baxalta as the surviving company (the Merger). In connection with the closing of the Merger, each Baxalta stockholder received a combination of cash and Shire American Depository Shares. Participants invested in the Baxalta Common Stock Fund at the closing of the Merger were able to direct the investment of the cash portion of the related merger consideration into certain investment alternatives within the Plan. In the event that a participant did not make an investment election, the cash portion was invested in the Plan's qualified default investment alternative.

Additionally, in connection with the Merger, the Baxalta Common Stock Fund became the Shire Stock Fund, holding Shire American Depository Shares and cash (for liquidity purposes).

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

Valuation of Investments and Collateral

The fair value of Plan investments and collateral is determined as follows:

Cash and cash equivalents These largely consist of a short-term investment fund and a money market fund, the fair value of which is based on the net asset value. The investment objectives for these funds are to provide safety for principal, daily liquidity and a competitive yield by investing in high quality instruments.

Common stock Value based on closing prices on the valuation date in an active market on national securities exchanges.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

U.S. government and government agency issues Value based on reputable pricing vendors that typically use pricing matrices or models.

Corporate and other obligations Value based on reputable pricing vendors that typically use pricing matrices or models.

Common-collective trusts Value based on net asset values reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. Each fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Collateral held on loaned securities Value based upon the net asset value per unit of the short-term investment funds where the collateral is invested. Refer to Note 6 for more information on the securities lending program.

Collateral to be paid on loaned securities Value based on the fair value of the underlying securities loaned on the valuation date, plus an incremental margin.

Self-managed fund Value based on the fair value of the underlying securities in the fund. Fund contains holdings of cash and cash equivalents, common stock, corporate and other obligations and holdings with registered investment companies. Registered investment companies are valued based upon the closing price from a national security exchange on the valuation date.

Income Recognition

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized depreciation or appreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is earned on an accrual basis.

The financial statements reflect the net depreciation or appreciation in the fair value of the Plan's investments. This net depreciation or appreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as

the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

Fully Benefit-responsive Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Transamerica, Prudential and MetLife. The portfolio of assets underlying the synthetic GICs primarily includes cash and cash equivalents, U.S. government and government agency issues, and corporate and other obligations.

These Plan investments are presented at contract value on the Statements of Net Assets Available for Benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been

liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

Events that lead to market value withdrawals that exceed 15 percent of the contract value of the GIC's of Prudential and Transamerica or 10 percent of the contract value of the GIC of MetLife would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies, or legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

Notes Receivables from Participants

Participant loans are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participant's account balances.

Payment of Benefits and Fees

Benefits are recorded when paid. Loan origination fees associated with notes receivable from participants, the Plan's record keeping and trustee fees, and certain legal and communication expenses are paid by the Plan and are reflected in the financial statements as Plan expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from broker for securities sold represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of registered investment companies, U.S. government and government agency issues, corporate and other obligations, common stock, common-collective trusts, synthetic guaranteed investment contracts and short-term investments. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

Investments in U.S. government and government agency issues and corporate and other obligations underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans (corporate and other obligations). The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

3. Eligibility Requirements

Employees become eligible to participate in the Plan as of the first day of the month following the completion of thirty days of employment. Eligible employees are those who meet the following requirements:

- A. U.S. employees of Baxter or its subsidiaries which have adopted the Plan;
- B. U.S. employees not covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan; and
- C. U.S. employees who are not leased employees.

4. Administration of the Plan

State Street Bank and Trust Company (the Trustee) serves as trustee and Voya Institutional Plan Services, LLC, formerly ING Institutional Plan Services, LLC, serves as recordkeeper for the Plan.

The Administrative Committee administers the Plan. Members of the Administrative Committee are appointed by the Compensation Committee of the Board of Directors of Baxter and are employees of Baxter. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of the Investment Committee are appointed by the Board of Directors of Baxter and are employees of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

5. Fair Value Measurements

The fair value hierarchy under the accounting standard for fair value measurements consists of the following three levels:

- Level 1 - Quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities;
- Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuations in which all significant inputs are observable in the market;

and

Level 3 - Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan's management about the assumptions market participants would use in pricing the asset or liability.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

The following tables summarize the bases used to measure the Plan's financial instruments and liabilities that are carried at fair value on a recurring basis.

(in thousands)	Balance at December 31, 2017	Basis of Fair Value Measurement		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(A) The common-collective trusts, which are measured at fair value using the net asset per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the above tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the statements of net assets available for benefits. This category includes index funds and target date retirement funds for which the underlying investments may vary. These funds provide for daily redemptions by the Plan at reported net asset values per share and there are currently no redemption restrictions or unfunded commitments on these investments.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period. The Plan did not have any transfers between Levels 1 and 2 during 2017 and 2016.

See Valuation of Investments and Collateral in Note 2 above for a discussion of the methodologies used to determine the fair values of the Plan's investments and collateral. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Securities Lending Transactions

The Plan participates in a securities lending program with the Trustee. The program allows the Trustee to loan securities, which are assets of the Plan, to approved brokers (the Borrowers).

The Trustee requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrowers bear the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by any of the Borrowers, the Trustee shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, to the extent that such replacement securities are available on the open market and if to the extent that such proceeds are insufficient or the collateral is unavailable, the purchase of replacement securities shall be made at Trustee expense or, if replacement securities are not able to be purchased, the Trustee shall credit the Plan for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Plan whole. The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as an asset and the obligation to return the amount received is reflected as a liability.

As of December 31, 2017 and 2016, the Plan had securities on loan with a fair value of \$7.2 million, with cash collateral received of \$7.3 million, which was invested in the State Street Quality D Short-Term Investment Fund. Investments underlying this fund primarily consisted of cash and cash equivalents and asset-backed securities as of

both December 31, 2017 and 2016, and the net asset value of this fund was approximately \$1.00 per unit. As of December 31, 2017 and 2016 the cash collateral received is reflected at its fair value of \$7.3 million in the 2017 and 2016 Statements of Net Assets Available for Benefits, respectively.

Non-cash collateral of \$2.4 million and \$4.3 million received for securities on loan at December 31, 2017 and December 31, 2016, respectively, consisted of U.S. government and government agency issues, equity securities, and corporate and other obligations held by the Trustee on behalf of the Plan. Non-cash collateral is not included with the collateral balance on the 2017 and 2016 Statements of Net Assets Available for Benefits because it may not be sold or repledged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Trustee in its capacity as a security agent. Securities lending income allocated to the Plan amounted to \$29 thousand and \$38 thousand for 2017 and 2016, respectively. Securities lending income is classified as interest income in the Statements of Changes in Net Assets Available for Benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become

fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

8. Tax Status of the Plan

The Internal Revenue Service (IRS) has determined and informed the Plan sponsor by a letter dated February 6, 2017 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the IRC). The Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

9. Parties-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

At December 31, 2017 and 2016, the Plan held shares of registered investment companies of SSgA, and participation units in common-collective trusts and short-term investment funds of State Street Bank and Trust Company, the Plan Custodian and Charles Schwab, the brokerage provider; loans with participants; shares of common stock, shares of registered investment companies, units of common-collective trusts, fixed income securities, or bonds managed by AllianceBernstein, Northern Trust Corporation, Loomis Sayles, and Vanguard, investment managers for the Plan; shares of common stock, bonds, individual separate accounts or interest rate wrapper contracts of Prudential, Transamerica, and Metlife, issuers of the Plan's fully benefit-responsive contracts; shares of registered investment companies in various affiliates of Voya Institutional Plan Services, LLC, the recordkeeper; shares of common stock of Edward Lifesciences Corporation, Cardinal, and shares of common stock and bonds of Shire, entities the Company has either previously spun off or acquired operations that the Company previously spun off. The Plan held shares of common stock of Baxter, the Plan Sponsor. At December 31, 2017 and 2016, the Plan, inclusive of shares within the Plan's self-managed fund, held 2,226,706 and 2,396,964 shares of common stock of Baxter, valued at \$143,934,306 and \$106,281,457, respectively. Approximately \$1 million of dividend income was received in 2017 and 2016 related to shares of Baxter common stock held by the Plan. Additionally, at December 31, 2017 and 2016, the Plan held notes receivable from participants of \$35,829,168 and \$36,064,666, respectively. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

Fees paid by the Plan for investment management, recordkeeping and consulting services, also qualify as party-in-interest transactions and are included in Plan expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan. These transactions are exempt from the party-in interest transaction prohibitions of ERISA.

10. Subsequent Event

Effective January 1, 2018, the Baxter Plan eliminated the Cardinal Common Stock Fund, the Edwards Lifesciences Common Stock Fund, and the Shire Stock Fund (collectively the "Funds"). Any dollars that were

invested in these Funds automatically liquidated on January 1, 2018 and were reinvested in the Plan's qualified default investment alternative. Actual common shares held in these funds were liquidated as of December 31, 2017 and the balances in these funds as of that date consisted of cash balances only.

Additionally, effective January 1, 2018, participant balances in the Baxter Common Stock Fund are limited to no more than 25 percent of the participant's total Plan account balance, subject to certain grandfathering exceptions for those participants whose balances exceed 25 percent as of the effective date.

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2017 and 2016

Plan participants were given advance notice of the fund changes noted above and were allowed to reinvest their funds prior to the effective date.

In January 2018, the Company announced changes to its U.S. pension plans. The Company spun off the assets and liabilities of the qualified defined benefit pension plan attributable to current employees into a new plan and will freeze the pay and service amounts used to calculate pension benefits for active participants in the U.S. pension plans as of December 31, 2022. In connection with this announcement, the Company amended the Plan to provide five years of transition contributions to active participants in the U.S. pension plans that were still employed by the Company as of December 31, 2017 and who remain employed at the end of each of the five transition contribution years. These additional benefits will begin accruing on January 1, 2023. Eligible participants will receive transition benefit contributions under the Plan of (a) 20% of an employee's eligible annual compensation (to \$60,000), and (b) 3% of eligible annual compensation over \$60,000 for each of the five years beginning January 1, 2023. Payment of these transition contributions is subject to satisfaction of related eligibility requirements as of each payment date.
