SECURITIES AND EXCHANGE COMMISSION

Washington D.C. 20549

FORM 10-Q

(Mark One)

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

OR

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-33307

RadNet, Inc.

(Exact name of registrant as specified in charter)

Delaware **13-3326724**
(State or other jurisdiction of (I.R.S. Employer
Incorporation or organization) Identification No.)
1510 Cotner Avenue
Los Angeles, California **90025**
(Address of principal executive offices) (Zip Code)

(310) 478-7808
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer o Accelerated filer x
Non-accelerated filer o Smaller reporting company o
Emerging growth company o

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes o No x

The number of shares of the registrant's common stock outstanding on August 6, 2018 was 48,284,926 shares.

RADNET, INC. AND SUBSIDIARIES

CONDENSED CONSOLIDATED STATEMENTS OF CASH FLOWS (CONTINUED)

(unaudited)

Supplemental Schedule of Non-Cash Investing and Financing Activities

We acquired equipment and certain leasehold improvements for approximately \$13.6 million and \$17.5 million during the six months ended June 30, 2018 and 2017, respectively, which were not paid for as of June 30, 2018 and 2017, respectively. The offsetting amounts due were recorded in our condensed consolidated balance sheet under accounts payable, accrued expenses and other.

During the six months ended June 30, 2017 we added capital lease debt of approximately \$5.2 million.

We recorded an investment in joint venture of \$3.0 million to ScriptSender, LLC, on January 6, 2017, representing our capital contribution to the venture. The offsetting amount was recorded on the due to affiliates account of ScriptSender, LLC. As of June 30, 2018, the balance remaining to be contributed is approximately \$1.3 million. See Note 2, Significant Accounting Policies Investment in Joint Ventures section to the condensed consolidated financial statements contained herein for further information.

The Company received \$16.8 million in fixed assets and assumed \$4.0 million in capital lease debt in January 2018 from the Company's partner in Beach Imaging LLC. See Note 4, Facility Acquisitions and Assets Held for Sale contained herein for further information.

RADNET, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

NOTE 1 – NATURE OF BUSINESS AND BASIS OF PRESENTATION

We are a leading national provider of freestanding, fixed-site outpatient diagnostic imaging services in the United States based on number of locations and annual imaging revenue. At June 30, 2018, we operated directly or indirectly through joint ventures with hospitals, 304 centers located in California, Delaware, Florida, Maryland, New Jersey, and New York. Our centers provide physicians with imaging capabilities to facilitate the diagnosis and treatment of diseases and disorders. Our services include magnetic resonance imaging (MRI), computed tomography (CT), positron emission tomography (PET), nuclear medicine, mammography, ultrasound, diagnostic radiology (X-ray), fluoroscopy and other related procedures. The vast majority of our centers offer multi-modality imaging services. Our multi-modality strategy diversifies revenue streams, reduces exposure to reimbursement changes and provides patients and referring physicians one location to serve the needs of multiple procedures.

The consolidated financial statements include the accounts of Radnet Management, Inc. (or “Radnet Management”) and Beverly Radiology Medical Group III, a professional partnership (“BRMG”). BRMG is a partnership of ProNet Imaging Medical Group, Inc., Beverly Radiology Medical Group, Inc. and Breastlink Medical Group, Inc. (formerly known as Westchester Medical Group Inc.). The consolidated financial statements also include Radnet Management I, Inc., Radnet Management II, Inc., Radiologix, Inc., Radnet Managed Imaging Services, Inc., Delaware Imaging Partners, Inc., New Jersey Imaging Partners, Inc. and Diagnostic Imaging Services, Inc., all wholly owned subsidiaries of Radnet Management. All of these affiliated entities are referred to collectively as “RadNet”, “we”, “us”, “our” or the “Company” in this report.

Accounting Standards Codification (“ASC”) 810-10-15-14, *Consolidation*, stipulates that generally any entity with a) insufficient equity to finance its activities without additional subordinated financial support provided by any parties, or b) equity holders that, as a group, lack the characteristics specified in the ASC which evidence a controlling financial interest, is considered a Variable Interest Entity (“VIE”). We consolidate all VIEs in which we are the primary beneficiary. We determine whether we are the primary beneficiary of a VIE through a qualitative analysis that identifies which variable interest holder has the controlling financial interest in the VIE. The variable interest holder who has both of the following has the controlling financial interest and is the primary beneficiary: (1) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (2) the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE. In performing our analysis, we consider all relevant facts and circumstances, including: the design and activities of the VIE, the terms of the contracts the VIE has entered into, the nature of the VIE’s variable interests issued and how they were negotiated with or marketed to potential investors, and which parties participated significantly in the design or

redesign of the entity.

Howard G. Berger, M.D., is our President and Chief Executive Officer, a member of our Board of Directors, and also owns, indirectly, 99% of the equity interests in BRMG. BRMG is responsible for all of the professional medical services at nearly all of our facilities located in California under a management agreement with us, and employs physicians or contracts with various other independent physicians and physician groups to provide the professional medical services at most of our California facilities. We generally obtain professional medical services from BRMG in California, rather than provide such services directly or through subsidiaries, in order to comply with California's prohibition against the corporate practice of medicine. However, as a result of our close relationship with Dr. Berger and BRMG, we believe that we are able to better ensure that medical service is provided at our California facilities in a manner consistent with our needs and expectations and those of our referring physicians, patients and payors than if we obtained these services from unaffiliated physician groups.

We contract with six medical groups which provide professional medical services at all of our facilities in Manhattan and Brooklyn, New York ('the NY Groups'). These contracts are similar to our contract with BRMG. Four of the NY Groups are owned by John V. Crues, III, M.D., RadNet's Medical Director, a member of our Board of Directors, and a 1% owner of BRMG. Dr Berger owns a controlling interest in two of the NY Groups which provide professional medical services at one of our Manhattan facilities.

RadNet provides non-medical, technical and administrative services to BRMG and the NY Groups for which it receives a management fee, pursuant to the related management agreements. Through the management agreements we have exclusive authority over all non-medical decision making related to the ongoing business operations of BRMG and the NY Groups and we determine the annual budget of BRMG and the NY Groups. BRMG and the NY Groups both have insignificant operating assets and liabilities, and de minimis equity. Through management agreements with us, substantially all cash flows of BRMG and the NY Groups after expenses including professional salaries are transferred to us.

We have determined that BRMG and the NY Groups are VIEs, that we are the primary beneficiary, and consequently, we consolidate the revenue and expenses, assets and liabilities of each. BRMG and the NY Groups on a combined basis recognized \$33.5 million and \$33.5 million of revenue, net of management service fees to RadNet, for the three months ended June 30, 2018 and 2017, respectively, and \$33.5 million and \$33.5 million of operating expenses for the three months ended June 30, 2018 and 2017, respectively. RadNet recognized in its condensed consolidated statement of operations \$133.4 million and \$108.2 million of net revenues for the three months ended June 30, 2018, and 2017 respectively, for management services provided to BRMG and the NY Groups relating primarily to the technical portion of total billed revenue.

BRMG and the NY Groups on a combined basis recognized \$67.5 million and \$69.0 million of revenue, net of management service fees to RadNet, for the six months ended June 30, 2018 and 2017, respectively, and \$67.5 million and \$69.0 million of operating expenses for the six months ended June 30, 2018 and 2017, respectively. RadNet recognized in its condensed consolidated statement of operations \$252.0 million and \$221.5 million of net revenues for the six months ended June 30, 2018, and 2017 respectively, for management services provided to BRMG and the NY Groups relating primarily to the technical portion of total billed revenue.

The cash flows of BRMG and the NY Groups are included in the accompanying consolidated statements of cash flows. All intercompany balances and transactions have been eliminated in consolidation. In our consolidated balance sheets at June 30, 2018 and December 31, 2017, we have included approximately \$102.0 million and \$96.3 million, respectively, of accounts receivable and approximately \$12.6 million and \$7.4 million of accounts payable and accrued liabilities related to BRMG and the NY Groups.

The creditors of BRMG and the NY Groups do not have recourse to our general credit and there are no other arrangements that could expose us to losses on behalf of BRMG and the NY Groups. However, RadNet may be required to provide financial support to cover any operating expenses in excess of operating revenues.

We also own a 49% economic interest in ScriptSender, LLC, which provides secure data transmission services of medical information. Through a management agreement, RadNet provides management and accounting services and receives an agreed upon fee. ScriptSender LLC is dependent on the Company to finance its own activities, and as such

we determined that it is a VIE but we are not a primary beneficiary since we do not have the power to direct the activities of the entity that most significantly impact the entity's economic performance.

At all of our centers we have entered into long-term contracts with radiology groups in the area to provide physician services at those facilities. These radiology practices provide professional services, including supervision and interpretation of diagnostic imaging procedures, in our diagnostic imaging centers. The radiology practices maintain full control over the provision of professional services. In these facilities we enter into long-term agreements with radiology practice groups (typically 40 years). Under these arrangements, in addition to obtaining technical fees for the use of our diagnostic imaging equipment and the provision of technical services, we provide management services and receive a fee based on the value of the services we provide. Except in New York City, the fee is based on the practice group's professional revenue, including revenue derived outside of our diagnostic imaging centers. In New York City we are paid a fixed fee set in advance for our services. We own the diagnostic imaging equipment and, therefore, receive 100% of the technical reimbursements associated with imaging procedures. The radiology practice groups retain the professional reimbursements associated with imaging procedures after deducting management service fees paid to us and we have no financial controlling interest in the radiology practices.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and, therefore, do not include all information and footnotes necessary for conformity with U.S. generally accepted accounting principles for complete financial statements; however, in the opinion of our management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods ended June 30, 2018 and 2017 have been made. The results of operations for any interim period are not necessarily indicative of the results for a full year. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto contained in our annual report on Form 10-K for the year ended December 31, 2017.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

During the period covered in this report, there have been no material changes to the significant accounting policies we use and have explained, in our annual report on Form 10-K for the fiscal year ended December 31, 2017. The information below is intended only to supplement the disclosure in our annual report on Form 10-K for the fiscal year ended December 31, 2017.

On January 1, 2018, the Company adopted the new revenue recognition accounting standard issued by the Financial Accounting Standards Board (“FASB”) and codified in the ASC as topic 606 (“ASC 606”). The revenue recognition standard in ASC 606 outlines a single comprehensive model for recognizing revenue as performance obligations, defined in a contract with a customer as goods or services transferred to the customer in exchange for consideration, are satisfied. The standard also requires expanded disclosures regarding the Company’s revenue recognition policies and significant judgments employed in the determination of revenue.

REVENUES - The Company applied the modified retrospective approach to all contracts when adopting ASC 606. As a result, at the adoption of ASC 606 the majority of what was previously classified as the provision for bad debts in the statement of operations is now reflected as implicit price concessions (as defined in ASC 606) and therefore included as a reduction to net operating revenues in 2018. For changes in credit issues not assessed at the date of service, the Company will prospectively recognize those amounts in other operating expenses on the statement of operations. For periods prior to the adoption of ASC 606, the provision for bad debts has been presented consistent with the previous revenue recognition standards that required it to be presented separately as a component of net operating revenues. Additionally, upon adoption of ASC 606 the allowance for doubtful accounts of approximately \$13.6 million as of January 1, 2018 was reclassified as a component of net patient accounts receivable. Other than these changes in presentation on the condensed consolidated statement of operations and condensed consolidated balance sheet, the adoption of ASC 606 did not have a material impact on the consolidated results of operations for the three and six months ended June 30, 2018, and the Company does not expect it to have a material impact on its consolidated results of operations for the remainder of 2018 and on a prospective basis.

Our revenues generally relate to net patient fees received from various payers and patients themselves under contracts in which our performance obligations are to provide diagnostic services to the patients. Revenues are recorded during the period our obligations to provide diagnostic services are satisfied. Our performance obligations for diagnostic services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges and generally provide for payments based upon predetermined rates per diagnostic services or discounted fee-for-service rates. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

As it relates to BRMG centers, this service fee revenue includes payments for both the professional medical interpretation revenue recognized by BRMG as well as the payment for all other aspects related to our providing the imaging services, for which we earn management fees from BRMG. As it relates to non-BRMG centers, this service fee revenue is earned through providing the use of our diagnostic imaging equipment and the provision of technical services as well as providing administration services such as clerical and administrative personnel, bookkeeping and accounting services, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

Our revenues are based upon the estimated amounts we expect to be entitled to receive from patients and third-party payers. Estimates of contractual allowances under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record estimated implicit price concessions (based primarily on historical collection experience) related to uninsured accounts to record self-pay revenues at the estimated amounts we expect to collect.

As part of the adoption of ASC 606, the Company elected two of the available practical expedients provided for in the standard. First, the Company did not adjust the transaction price for any financing components as those were deemed to be insignificant. Additionally, the Company expensed all incremental customer contract acquisition costs as incurred as such costs are not material and would be amortized over a period less than one year.

Under capitation arrangements with various health plans, we earn a per-enrollee amount each month for making available diagnostic imaging services to all plan enrollees under the capitation arrangement. Revenue under capitation arrangements is recognized in the period in which we are obligated to provide services to plan enrollees under contracts with various health plans.

The Company's total net revenues during the three and six months ended June 30, 2018 and 2017 are presented in the table below based on an allocation of the estimated transaction price with the patient between the primary patient classification of insurance coverage (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Commercial insurance	\$145,538	\$142,691	\$281,981	\$283,683
Medicare	50,302	47,611	95,867	95,291
Medicaid	6,928	6,525	13,179	13,259
Workers' compensation/personal injury	8,660	8,867	17,407	17,925
Other ⁽¹⁾	7,988	8,362	15,150	16,648
Service fee revenue, net of contractual allowances and discounts	219,416	214,056	423,584	426,806
Provision for bad debts	—	(11,854)	—	(23,500)
Net service fee revenue	219,416	202,202	423,584	403,306
Revenue under capitation arrangements	24,979	27,812	52,203	55,721
Total net revenue	\$244,395	\$230,014	\$475,787	\$459,027

- (1) Other consists of revenue from teleradiology services, consulting fees and software revenue.

The collection of outstanding receivables for Medicare, Medicaid, managed care payers, other third-party payers and patients is our primary source of cash and is critical to our operating performance. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed.

The estimates for implicit price concessions are based upon management's assessment of historical write offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical write offs and collections at facilities that represent a majority of our revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectability of our accounts receivable. We perform the hindsight analysis quarterly and believe our quarterly updates to the estimated implicit price concession amounts provide reasonable estimates of our revenues and valuations of our accounts receivable. These routine, quarterly changes in estimates have not resulted in material adjustments to the valuations of our accounts receivable or period-to-period comparisons of our results of operations.

RECLASSIFICATION – We have reclassified certain amounts within other income and expenses for 2017 to conform to our 2018 presentation.

ACCOUNTS RECEIVABLE - Substantially all of our accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. We continuously monitor collections from our payors and maintain an allowance for bad debts based upon specific payor collection issues that we have identified and our historical experience.

On June 30, 2018, we entered into a factoring arrangement with a third party and sold certain accounts receivable under a non-recourse agreement. The amount factored under this agreement was \$10.5 million and the cost of factoring was approximately \$440,000. Proceeds will be received as a combination of cash and payments on a note receivable through August of 2020 bearing an annual rate of 4%, and will be reflected as operating activities on our statement of cash flows and on our balance sheet as prepaid expenses and other current assets for the current portion and deposits and other for the long term portion. We do not utilize factoring arrangements as an integral part of our financing for working capital.

DEFERRED FINANCING COSTS - Costs of financing are deferred and amortized on a straight-line basis over the life of the associated loan, which approximates the effective interest rate method. Deferred financing costs, net of accumulated amortization, were \$1.6 million and \$1.9 million, as of June 30, 2018 and December 31, 2017, respectively and related to the Company's line of credit. See Note 5, Revolving Credit Facility, Notes Payable, and Capital Leases for more information.

INVENTORIES - Inventories, consisting mainly of medical supplies, are stated at the lower of cost or net realizable value with cost determined by the first-in, first-out method.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization of property and equipment are provided using the straight-line method over the estimated useful lives, which range from 3 to 15 years. Leasehold improvements are amortized at the lesser of lease term or their estimated useful lives, which range from 3 to 30 years. Maintenance and repairs are charged to expense as incurred.

BUSINESS COMBINATION - In January 2017, the FASB issued ASU No. 2017-01 (“ASU 2017-01”), *Clarifying the Definition of a Business*. The update provides a framework for evaluating whether a transaction should be accounted for as an acquisition and/or disposal of a business versus assets. In order for a purchase to be considered an acquisition of a business, and receive business combination accounting treatment, the set of transferred assets and activities must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. If substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets, then the set of transferred assets and activities is not a business. The adoption of this standard requires future purchases to be evaluated under the new framework. The impact on our financial statements as a result of this adoption was immaterial.

When the qualifications for business combination accounting treatment are met, it requires us to recognize separately from goodwill the assets acquired and the liabilities assumed at their acquisition date fair values. Goodwill as of the acquisition date is measured as the excess of consideration transferred over the net of the acquisition date fair values of the assets acquired and the liabilities assumed. While we use our best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

GOODWILL- Goodwill at June 30, 2018 totaled \$275.3 million. Goodwill is recorded as a result of business combinations. Management evaluates goodwill at a minimum, on an annual basis and whenever events and changes in circumstances suggest that the carrying amount may not be recoverable. We tested goodwill for impairment on October 1, 2017, noting no impairment, and have not identified any indicators of impairment through June 30, 2018. Activity in goodwill for the six months ended June 30, 2018 is provided below (in thousands):

Balance as of December 31, 2017	\$256,776
Goodwill acquired through the acquisition of Imaging Services Company of New York, LLC	2,692
Goodwill acquired through the acquisition of certain assets of MemorialCare Medical Foundation	10,158
Goodwill transferred to assets held for sale	(1,059)
Goodwill acquired through the acquisition of Women's Imaging Specialists in Healthcare	4,089
Goodwill acquired through the acquisition of Valley Metabolic Imaging	1,469
Goodwill acquired through the acquisition of Sierra Imaging Associates	1,147
Balance as of June 30, 2018	\$275,272

INCOME TAXES - Income tax expense is computed using an asset and liability method and using expected annual effective tax rates. Under this method, deferred income tax assets and liabilities result from temporary differences in the financial reporting bases and the income tax reporting bases of assets and liabilities. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefit that, based on available evidence, is not expected to be realized. When it appears more likely than not that deferred taxes will not be realized, a valuation allowance is recorded to reduce the deferred tax asset to its estimated realizable value. For net deferred tax assets we consider estimates of future taxable income in determining whether our net deferred tax assets are more likely than not to be realized.

The Company recorded an income tax expense of \$2.5 million, or an effective tax rate of 27.9%, for the three months ended June 30, 2018 compared to income tax expense for the three months ended June 30, 2017 of \$3.5 million, or an effective tax rate of 38.5%. The Company recorded an income tax expense of \$8,000, or an effective tax rate of 0.8% for the six months ended June 30, 2018 compared to income tax expense for the six months ended June 30, 2017 of \$3.1 million, or an effective tax rate of 39.2%. The income tax rates for the three and six months ended June 30, 2018

diverge from the federal statutory rate primarily due to (i) noncontrolling interests due to the controlled partnerships; (ii) effects of state income taxes; (iii) excess tax benefits attributable to share-based compensation; and adjustments associated with uncertain tax positions.

U.S. GAAP requires that the impact of tax legislation be recognized in the period in which the law was enacted. As a result, the Company recorded provisional amounts due to the revaluation of deferred tax assets and liabilities and the transition tax on deemed repatriation of accumulated foreign income during the year ended December 31, 2017. Both of these tax charges represent provisional amounts and the Company's current best estimates. Any adjustments recorded to the provisional amounts will be included as an adjustment to tax expense. The provisional amounts incorporate assumptions made based upon the Company's current interpretation of the Tax Reform Act and may change as the Company receives additional clarification and implementation guidance.

The Company is not under examination in any jurisdiction and the years ended December 31, 2017, 2016, and 2015 remain subject to examination. The Company believes no significant changes in the unrecognized tax benefits will occur within the next 12 months.

EQUITY BASED COMPENSATION – We have one long-term incentive plan that we adopted in 2006 and which we first amended and restated as of April 20, 2015, and again on March 9, 2017 (the “Restated Plan”). The Restated Plan was approved by our stockholders at our annual stockholders meeting on June 8, 2017. We have reserved for issuance under the Restated Plan 14,000,000 shares of common stock. We can issue options, stock awards, stock appreciation rights, stock units and cash awards under the Restated Plan. Certain options granted under the Restated Plan to employees are intended to qualify as incentive stock options under existing tax regulations. Stock options and warrants generally vest over three to five years and expire five to ten years from date of grant. The compensation expense recognized for all equity-based awards is recognized over the awards’ service periods. Equity-based compensation is classified in operating expenses within the same line item as the majority of the cash compensation paid to employees. See Note 6 Stock-Based Compensation for more information.

COMPREHENSIVE INCOME - ASC 220, *Comprehensive Income*, establishes rules for reporting and displaying comprehensive income and its components. Our unrealized gains or losses on foreign currency translation adjustments and our interest rate cap agreement are included in comprehensive income. The components of comprehensive income for the three and six months in the period ended June 30, 2018 are included in the consolidated statements of comprehensive income.

DERIVATIVE INSTRUMENTS - In the fourth quarter of 2016, we entered into two forward interest rate cap agreements ("2016 Caps"). The 2016 Caps will mature in September and October 2020. The 2016 Caps had notional amounts of \$150,000,000 and \$350,000,000, respectively, which were designated at inception as cash flow hedges of future cash interest payments associated with portions of the our variable rate bank debt. Under these arrangements, the Company purchased a cap on 3 month LIBOR at 2.0%. We are liable for a \$5.3 million premium to enter into the caps which is being accrued over the life of the agreements.

At inception, we designated our 2016 Caps as cash flow hedges of floating-rate borrowings. In accordance with ASC Topic 815, derivatives that have been designated and qualify as cash flow hedging instruments are reported at fair value. The gain or loss of the hedge (i.e. change in fair value) is reported as a component of accumulated other comprehensive income in the consolidated statement of equity. See Fair Value Measurements section below for the fair value of the 2016 Caps at June 30, 2018.

A tabular presentation of the effect of derivative instruments on our consolidated statement of comprehensive loss is as follows (amounts in thousands):

For the three months ended June 30, 2018

Account	April 1, 2018 Balance	Amount of gain recognized on derivative	June 30, 2018 Balance	Location
Other Comprehensive Income	2,725	1,199	3,924	Current Assets & Equity

For the six months ended June 30, 2018

Account	Jan 1, 2018 Balance	Amount of gain recognized on derivative	June 30, 2018 Balance	Location
Other Comprehensive Income	(370) 4,294	3,924	Current Assets & Equity

FAIR VALUE MEASUREMENTS – Assets and liabilities subject to fair value measurements are required to be disclosed within a fair value hierarchy. The fair value hierarchy ranks the quality and reliability of inputs used to determine fair value. Accordingly, assets and liabilities carried at, or permitted to be carried at, fair value are classified within the fair value hierarchy in one of the following categories based on the lowest level input that is significant to a fair value measurement:

Level 1—Fair value is determined by using unadjusted quoted prices that are available in active markets for identical assets and liabilities.

Level 2—Fair value is determined by using inputs other than Level 1 quoted prices that are directly or indirectly observable. Inputs can include quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets and liabilities in inactive markets. Related inputs can also include those used in valuation or other pricing models such as interest rates and yield curves that can be corroborated by observable market data.

Level 3—Fair value is determined by using inputs that are unobservable and not corroborated by market data. Use of these inputs involves significant and subjective judgment.

The table below summarizes the estimated fair values of certain of our financial assets that are subject to fair value measurements, and the classification of these assets on our consolidated balance sheets, as follows (in thousands):

As of June 30, 2018				
	Level 1	Level 2	Level 3	Total
Current and other non-current liabilities				
Interest Rate Contracts	\$—	\$5,159	\$—	\$5,159

As of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Current assets				
Interest Rate Contracts	\$—	\$(595)	\$—	\$(595)

The estimated fair value of these contracts was determined using Level 2 inputs. More specifically, the fair value was determined by calculating the value of the difference between the fixed interest rate of the interest rate swaps and the counterparty's forward LIBOR curve. The forward LIBOR curve is readily available in the public markets or can be

derived from information available in the public markets.

The table below summarizes the estimated fair value and carrying amount of our long-term debt as follows (in thousands):

As of June 30, 2018				
	Level 1	Level 2	Level 3	Total Fair Value
First Lien Term Loans	\$—	\$605,240	\$—	\$605,240
				\$603,731

As of December 31, 2017				
	Level 1	Level 2	Level 3	Total Fair Value
First Lien Term Loans	\$—	\$628,801	\$—	\$628,801
				\$620,272

Our revolving credit facility had no aggregate principal amount outstanding as of June 30, 2018.

The estimated fair value of our long-term debt, which is discussed in Note 5, was determined using Level 2 inputs primarily related to comparable market prices.

We consider the carrying amounts of cash and cash equivalents, receivables, other current assets, current liabilities and other notes payables to approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization or payment. Additionally, we consider the carrying amount of our capital lease obligations to approximate their fair value because the weighted average interest rate used to formulate the carrying amounts approximates current market rates.

EARNINGS PER SHARE - Earnings per share is based upon the weighted average number of shares of common stock and common stock equivalents outstanding, net of common stock held in treasury, as follows (in thousands except share and per share data):

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018		2017	
Net income (loss) attributable to RadNet, Inc.'s common stockholders	\$5,406	\$5,310	\$(1,932)	\$4,100	
BASIC NET INCOME (LOSS) PER SHARE ATTRIBUTABLE TO RADNET, INC.'S COMMON STOCKHOLDERS						
Weighted average number of common shares outstanding during the period	47,969,003	46,756,276	47,896,216		46,662,420	
Basic net income (loss) per share attributable to RadNet, Inc.'s common stockholders	\$0.11	\$0.11	\$(0.04)	\$0.09	
DILUTED NET INCOME (LOSS) PER SHARE ATTRIBUTABLE TO RADNET, INC.'S COMMON STOCKHOLDERS						
Weighted average number of common shares outstanding during the period	47,969,003	46,756,276	47,896,216		46,662,420	
Add nonvested restricted stock subject only to service vesting	409,162	250,153	—		198,477	
Add additional shares issuable upon exercise of stock options and warrants	147,868	189,469	—		207,666	
Weighted average number of common shares used in calculating diluted net income per share	48,526,033	47,195,898	47,896,216		47,068,563	
Diluted net income (loss) per share attributable to RadNet, Inc.'s common stockholders	\$0.11	\$0.11	\$(0.04)	\$0.09	
Stock options excluded from the computation of diluted per share amounts:						
Weighted average shares for which the exercise price exceeds average market price of common stock	—	165,000	—		325,575	

For the six months ended June 30, 2018 we excluded all outstanding options and restricted stock awards in the calculation of diluted earnings per share because their effect would be antidilutive.

EQUITY INVESTMENTS AT FAIR VALUE– In January 2016, the FASB issued ASU 2016-01, which amends the measurement, presentation and disclosure requirements for equity investments, other than those accounted for under the equity method or that require consolidation of the investee. The ASU eliminates the classification of equity investments as available-for-sale with any changes in fair value of such investments recognized in other comprehensive income, and requires entities to measure equity investments at fair value, with any changes in fair value recognized in net income. If there is no readily determinable fair value, the guidance allows entities the ability to measure investments at cost less impairment, whereby impairment is based on a qualitative assessment. We adopted this ASU on January 1, 2018, and there was no cumulative effect of adoption.

As of June 30, 2018, we have two equity investments for which a fair value is not readily determinable and therefore the total amounts invested are recognized at cost as follows:

Medic Vision:

Medic Vision, based in Israel, specializes in software packages that provide compliant radiation dose structured reporting and enhanced images from reduced dose CT scans.

On March 24, 2017, we acquired an initial 12.5% equity interest in Medic Vision – Imaging Solutions Ltd for \$1.0 million. We also received an option to exercise warrants to acquire up to an additional 12.5% equity interest for \$1.4 million within one year from the initial share purchase date, if exercised in full. On March 1, 2018 we exercised our warrant in part and acquired an additional 1.96% for \$200,000. Our initial equity interest has been diluted to 12.25% and our total equity investment stands at 14.21%.

In accordance with accounting guidance, as we exercise no significant influence over Medic Vision's operations, the investment is recorded at its cost of \$1.2 million, given that the fair value is not readily determinable. No impairment in our investment was noted as of the six months ended June 30, 2018.

Turner Imaging:

Turner Imaging Systems, based in Utah, develops and markets portable X-ray imaging systems that provide a user the ability to acquire X-ray images wherever and whenever they are needed.. On February 1, 2018, we purchased 2.1 million preferred shares in Turner Imaging Systems for \$2.0 million. No impairment in our investment was noted for the six months ended June 30, 2018.

INVESTMENT IN JOINT VENTURES – We have 15 unconsolidated joint ventures with ownership interests ranging from 25% to 55%. These joint ventures represent partnerships with hospitals, health systems or radiology practices and were formed for the purpose of owning and operating diagnostic imaging centers. Professional services at the joint venture diagnostic imaging centers are performed by contracted radiology practices or a radiology practice that participates in the joint venture. Our investment in these joint ventures is accounted for under the equity method, since RadNet does not have a controlling financial interest in such ventures. We evaluate our investment in joint ventures, including cost in excess of book value (equity method goodwill) for impairment whenever indicators of impairment exist. No indicators of impairment existed as of June 30, 2018.

Formation of a joint venture:

On April 12, 2018 we acquired a 25% economic interest in Nulogix, Inc. for \$2.0 million. The Company and Nulogix will collaborate on projects to improve practices in the imaging industry. As we do not have a controlling economic interest in Nulogix, the investment is accounted for under the equity method.

Joint venture investment and financial information

The following table is a summary of our investment in joint ventures during the six months ended June 30, 2018 (in thousands):

Balance as of December 31, 2017	\$52,435
Equity in earnings in these joint ventures	6,725
Distribution of earnings	(7,083)
Equity contributions in existing and purchase of interest in joint ventures	2,000
Balance as of June 30, 2018	\$54,077

We charged management service fees from the centers underlying these joint ventures of approximately \$3.3 million and \$3.5 million for the quarters ended June 30, 2018 and 2017, respectively and \$7.1 million and \$6.6 million for the six months ended June 30, 2018 and 2017 respectively. We eliminate any unrealized portion of our management service fees with our equity in earnings of joint ventures.

The following table is a summary of key balance sheet data for these joint ventures as of June 30, 2018 and December 31, 2017 and income statement data for the six months ended June 2018 and 2017 (in thousands):

Balance Sheet Data:	June 30, 2018	December 31, 2017
Current assets	\$42,880	\$47,813
Noncurrent assets	106,758	107,481
Current liabilities	(14,324)	(16,655)
Noncurrent liabilities	(37,745)	(42,072)
Total net assets	\$97,569	\$96,567
Book value of RadNet joint venture interests	\$45,964	\$45,935
Cost in excess of book value of acquired joint venture interests	8,113	6,500
Total value of Radnet joint venture interests	\$54,077	\$52,435
Total book value of other joint venture partner interests	\$51,605	\$50,632
Income statement data for the six months ended June 30,	2018	2017
Net revenue	\$91,559	\$86,981
Net income	\$14,174	\$10,285

NOTE 3 – RECENT ACCOUNTING STANDARDS

Accounting standards not yet adopted

In February 2016, the FASB issued ASU No. 2016-02 (“ASU 2016-02”), *Leases*, (Topic 842): Amendments to the FASB Accounting Standards Codification. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The new standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. The amendments in this update are effective for fiscal years (and interim reporting periods within fiscal years) beginning after December 15, 2018. Early adoption of the amendments is permitted for all entities. Because of the number of leases we use to

support our operations, the adoption of this ASU is expected to have a significant impact on the Company's consolidated financial statements. Management is currently evaluating the extent of this anticipated impact on our consolidated financial position and results of operations, and the quantitative and qualitative factors that will impact the Company as part of the adoption of this ASU, as well as any changes to its leasing strategy that may occur because of the changes to the accounting and recognition of leases.

In February 2018, the FASB issued ASU No. 2018-02 ("ASU 2018-02"), *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. ASU 2018-02 allows for the reclassification of certain income tax effects related to the Tax Cuts and Jobs Act between "Accumulated other comprehensive income" and "Retained earnings." This ASU relates to the requirement that adjustments to deferred tax liabilities and assets related to a change in tax laws or rates to be included in "Income from continuing operations", even in situations where the related items were originally recognized in "Other comprehensive income" (rather than in "Income from continuing operations"). ASU 2018-02 is effective for all entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years, with early adoption permitted. Adoption of this ASU is to be applied either in the period of adoption or retrospectively to each period in which the effect of the change in the tax laws or rates were recognized. We are evaluating the effect of this guidance.

In January 2017, the FASB issued ASU No. 2017-04 (“ASU 2017-04”), *Simplifying the Test for Goodwill Impairment*. ASU 2017-04 eliminates the requirement to calculate the implied fair value of goodwill (i.e., Step 2 of the current goodwill impairment test) to measure a goodwill impairment charge. Instead, entities will record an impairment charge based on the excess of a reporting unit’s carrying amount over its fair value (i.e., measure the charge based on the current Step 1). ASU 2017-04 is effective for annual and any interim impairment tests for periods beginning after December 15, 2019, with early adoption permitted. We are evaluating the effect of this guidance.

NOTE 4 – FACILITY ACQUISITIONS AND ASSETS HELD FOR SALE

Acquisitions

On January 1, 2018 we formed Beach Imaging Group, LLC (“Beach Imaging”) and contributed the operations of 24 imaging facilities spread across southern Los Angeles and Orange Counties. On the same day, MemorialCare Medical Foundation contributed \$22.3 million in cash and \$16.8 million in net assets. As a result of the transaction, the Company will retain a 60% controlling interest in Beach Imaging and MemorialCare Medical Foundation will retain a 40% noncontrolling interest in Beach Imaging.

On February 22, 2018 we completed our acquisition of certain assets of Imaging Services Company of New York, LLC, consisting of a single multi-modality center located in New York, New York, for purchase consideration of \$5.8 million. We have made a fair value determination of the acquired assets and approximately \$874,000 in fixed assets, \$2.1 million in equipment, a \$100,000 covenant not to compete, and \$2.7 million in goodwill were recorded.

On April 1, 2018 we completed our acquisition of certain assets of Women’s Imaging Specialists in Healthcare, consisting of a single multi-modality center located in the city of Fresno California, for purchase consideration of \$5.1 million in cash. We have made a preliminary fair value determination of the acquired assets and approximately \$628,000 of fixed assets and equipment, \$383,000 in intangible covenants not to compete, and \$4.1 million in goodwill were recorded.

On April 1, 2018 we completed our acquisition of certain assets of Valley Metabolic Imaging LLC, consisting of a single multi-modality center located in Fresno, California, for purchase consideration of \$1.7 million in cash. We have made a preliminary fair value determination of the acquired assets and approximately \$22,000 of fixed assets and equipment, \$183,000 in intangible covenants not to compete, and \$1.5 million in goodwill were recorded.

On April 1, 2018 we completed our acquisition of certain assets of Sierra Imaging Associates LLC, consisting of a single multi-modality center located in Clovis, California, for purchase consideration of \$1.5 million in cash. We have made a preliminary fair value determination of the acquired assets and approximately \$270,000 of fixed assets and equipment, \$83,000 in intangible covenants not to compete, and \$1.1 million in goodwill were recorded.

Assets held for sale:

Effective January 1, 2018 we agreed to sell certain assets of four women's imaging centers to MemorialCare Medical Foundation. The sale is anticipated within the next 12 months. The following table summarizes the major categories of assets which remain classified as held for sale in the accompanying condensed consolidated balance sheets at June 30, 2018 (in thousands):

Property and equipment, net	\$1,440
Goodwill	1,059
Total assets held for sale	\$2,499

NOTE 5 – REVOLVING CREDIT FACILITY, NOTES PAYABLE AND CAPITAL LEASESRevolving credit facility, notes payable, and capital lease obligations:

As of the six months ended June 30, 2018 our debt obligations consist of the following (in thousands):

	June 30, 2018	December 31, 2017
First Lien Term Loans	603,731	620,272
Discounts on first lien term loans	(16,791)	(18,470)
Promissory note payable to the former owner of a practice acquired at an interest rate of 1.5% due through 2019	396	592
Equipment notes payable at interest rates ranging from 4.3% to 5.6%, due through 2020, collateralized by medical equipment	140	195
Obligations under capital leases at interest rates ranging from 3.7% to 11.2%, due through 2022, collateralized by medical and office equipment	7,417	6,538
Total debt obligations	594,893	609,127
Less: current portion	(33,583)	(34,090)
Long term portion debt obligations	\$561,310	\$575,037

Term Loans, Revolving Credit Facility and Financing Activity Information:

At June 30, 2018, our credit facilities were comprised of one tranche of term loans (“First Lien Term Loans”) and a revolving credit facility of \$117.5 million (the “Revolving Credit Facility”). As of June 30, 2018, we were in compliance with all covenants under our credit facilities.

The balance of our First Lien Term Loans at June 30, 2018, net of unamortized discounts of \$16.8 million, was \$586.9 million.

Deferred financing costs at June 30, 2018, net of accumulated amortization, was \$1.6 million and is specifically related to the Company's line of credit.

We had no balance on our Revolving Credit Facility at June 30, 2018 but had reserved \$8.2 million for certain letters of credit. The remaining \$109.3 million of our revolving credit facility was available to draw upon as of June 30, 2018.

The following describes our recent financing activities:

Amendment No. 5, Consent and Incremental Joinder Agreement to Credit and Guaranty Agreement

On August 22, 2017, we entered into Amendment No. 5, Consent and Incremental Joinder Agreement to Credit and Guaranty Agreement (the "Fifth Amendment") with respect to our First Lien Credit Agreement. Pursuant to the Fifth Amendment, we issued \$170.0 million in incremental First Lien Term Loans, the proceeds of which were used to repay in full all outstanding Second Lien Term Loans and all other obligations under the Second Lien Credit Agreement (as defined below).

Pursuant to the Fifth Amendment, we also changed the interest rate margin applicable to borrowings under the First Lien Credit Agreement. While borrowings under the First Lien Credit Agreement continue to bear interest at either an Adjusted Eurodollar Rate or a Base Rate (in each case, as more fully defined in the First Lien Credit Agreement) or a combination of both, at the election of the Company, plus an applicable margin. The applicable margin for Adjusted Eurodollar Rate borrowings and Base Rate borrowings was changed from 3.25% and 2.25%, respectively, to 3.75% and 2.75%, respectively, through an initial period which ends when financial reporting was delivered for the period ended September 30, 2017. Thereafter, the rates of the applicable margin for borrowing under the First Lien Credit Agreement adjust depending on our leverage ratio, according to the following schedule:

First Lien Leverage Ratio	Eurodollar Rate Spread	Base Rate Spread
> 5.50x	4.50%	3.50%
> 4.00x but ≤ 5.50x	3.75%	2.75%
> 3.50x but ≤ 4.00x	3.50%	2.50%
≤ 3.50x	3.25%	2.25%

At June 30, 2018 the effective Adjusted Eurodollar Rate and the Base Rate for the First Lien Term Loans was 2.35% and 5.0%, respectively and the applicable margin for Adjusted Eurodollar Rate and Base Rate borrowings was at 3.75% and 2.75%, respectively.

Pursuant to the Fifth Amendment, the First Lien Credit Agreement was amended so that we can elect to request 1) an increase to the existing Revolving Credit Facility and/or 2) additional First Lien Term Loans, provided that the aggregate amount of such increases and additions does not exceed (a) \$100.0 million and (b) as long as the First Lien Leverage Ratio (as defined in the First Lien Credit Agreement) would not exceed 4.00:1.00 after giving effect to such incremental facilities, an uncapped amount of incremental facilities, in each case subject to the conditions and limitations set forth in the First Lien Credit Agreement. Each lender approached to provide all or a portion of any incremental facility may elect or decline, in its sole discretion, to provide an incremental commitment or loan.

Pursuant to the Fifth Amendment, the First Lien Credit Agreement was also amended to (i) provide for quarterly payments of principal of the First Lien Term Loans in the amount of approximately \$8.3 million, as compared to approximately \$6.1 million prior to the Fifth Amendment, (ii) extend the call protection provided to the holders of the First Lien Term Loans for a period of twelve months following the date of the Fifth Amendment and (iii) provide us with additional operating flexibility, including the ability to incur certain additional debt and to make certain additional restricted payments, investments and dispositions, in each case as more fully set forth in the Fifth Amendment. Total issue costs for the Fifth Amendment aggregated to approximately \$4.7 million. Of this amount, \$4.1 million was identified and capitalized as discount on debt, \$350,000 was capitalized as deferred financing costs and the remaining \$235,000 was expensed. Amounts capitalized will be amortized over the remaining term of the agreement.

Fourth Amendment to First Lien Credit Agreement

On February 2, 2017, we entered into Amendment No. 4 to Credit and Guaranty Agreement (the “Fourth Amendment”) with respect to our First Lien Credit Agreement. Pursuant to the Fourth Amendment, the interest rate margin per annum on the First Lien Term Loans and the Revolving Credit Facility was reduced by 50 basis points, from 3.75% to 3.25%. Except for such reduction in the interest rate on credit extensions, the Fourth Amendment did not result in any other material modifications to the First Lien Credit Agreement. RadNet incurred expenses for the transaction in the amount of \$543,000, which was recorded to discount on debt and will be amortized over the remaining term of the agreement.

The following describes our applicable financing prior to giving effect to the Fourth Amendment and Fifth Amendment discussed above.

First Lien Credit Agreement

On July 1, 2016, we entered into the First Lien Credit Agreement pursuant to which we amended and restated our then existing first lien credit facilities. Pursuant to the First Lien Credit Agreement, we originally issued \$485 million of First Lien Term Loans and established the \$117.5 million Revolving Credit Facility. Proceeds from the First Lien Credit Agreement were used to repay the previously outstanding first lien loans under the First Lien Credit Agreement, make a \$12.0 million principal payment of the Second Lien Term Loans, pay costs and expenses related to the First Lien Credit Agreement and provide approximately \$10.0 million for general corporate purposes.

Interest. Prior to the Fourth Amendment and Fifth Amendment, the interest rates payable on the First Lien Term Loans were (a) the Adjusted Eurodollar Rate (as defined in the First Lien Credit Agreement) plus 3.75% per annum or (b) the Base Rate (as defined in the First Lien Credit Agreement) plus 2.75% per annum. As applied to the First Lien Term Loans, the Adjusted Eurodollar Rate has a minimum floor of 1.0%.

Payments. Prior to the Fourth Amendment and Fifth Amendment, the scheduled quarterly principal payment of the First Lien Term Loans was approximately \$6.1 million, with the balance due at maturity.

Maturity Date. The maturity date for the First Lien Term Loans shall be on the earliest to occur of (i) July 1, 2023, (ii) the date on which all First Lien Term Loans shall become due and payable in full under the First Lien Credit Agreement, whether by acceleration or otherwise, and (iii) September 25, 2020 if our indebtedness under the Second Lien Credit Agreement had not been repaid, refinanced or extended prior to such date.

Revolving Credit Facility: The First Lien Credit Agreement provides for a \$117.5 million Revolving Credit Facility. Revolving loans borrowed under the Revolving Credit Facility bear interest at either an Adjusted Eurodollar Rate or a Base Rate (in each case, as more fully defined in the First Lien Credit Agreement), plus an applicable margin. Pursuant to the Fifth Amendment, the applicable margin was amended to vary based on our leverage ratio in accordance with the following schedule:

First Lien Leverage Ratio	Eurodollar Rate Spread	Base Rate Spread
> 5.50x	4.50%	3.50%
> 4.00x but ≤ 5.50x	3.75%	2.75%
>3.50x but ≤ 4.00x	3.50%	2.50%
≤ 3.50x	3.25%	2.25%

For letters of credit issued under the Revolving Credit Facility, letter of credit fees accrue at the applicable margin (see table above) for Adjusted Eurodollar Rate revolving loans and fronting fees accrue at 0.25% per annum, in each case on the average aggregate daily maximum amount available to be drawn under all letters of credit issued under the First Lien Credit Agreement. In addition a commitment fee of 0.5% per annum accrues on the unused revolver commitments under the Revolving Credit Facility. As of June 30, 2018, the interest rate payable on revolving loans was 7.75%. The letters of credit issued under the agreement totaled \$8.2 million and the amount available to borrow under the Revolving Credit Facility was \$109.3 million.

The Revolving Credit Facility will terminate on the earliest to occur of (i) July 1, 2021, (ii) the date we voluntarily agree to permanently reduce the Revolving Credit Facility to zero pursuant to section 2.13(b) of the First Lien Credit Agreement, and (iii) the date the Revolving Credit Facility is terminated due to specific events of default pursuant to section 8.01 of the First Lien Credit Agreement.

Second Lien Credit Agreement:

On March 25, 2014, we entered into the Second Lien Credit and Guaranty Agreement (the “Second Lien Credit Agreement”) pursuant to which we issued \$180 million of second lien term loans (the “Second Lien Term Loans”). The proceeds from the Second Lien Term Loans were used to redeem our 10 3/8% senior unsecured notes, due 2018, to pay the expenses related to the transaction and for general corporate purposes. On July 1, 2016, in conjunction with the restated First Lien Credit Agreement, a \$12.0 million principal payment was made on the Second Lien Term Loans. On August 22, 2017 the Second Lien Credit Agreement was repaid in full with the proceeds of First Lien Term Loans issued under the Fifth Amendment, as described above.

NOTE 6 – STOCK-BASED COMPENSATION

Stock Incentive Plans

We have one long-term equity incentive plan which we refer to as the 2006 Equity Incentive Plan, which we first amended and restated as of April 20, 2015 and again on March 9, 2017 (“the Restated Plan”). The Restated Plan was approved by our stockholders at our annual stockholders meeting on June 8, 2017. We have reserved for issuance under the 2017 Restated Plan 14,000,000 shares of common stock. We can issue options, stock awards, stock appreciation rights, stock units and cash awards under the 2017 Restated Plan.

Options

Certain options granted under the Restated Plan to employees are intended to qualify as incentive stock options under existing tax regulations. Stock options generally vest over three to five years and expire five to ten years from the date of grant.

As of June 30, 2018, we had outstanding options to acquire 553,282 shares of our common stock, of which options to acquire 100,211 shares were exercisable. The following summarizes all of our option transactions for the six months ended June 30, 2018:

Outstanding Options	Shares	Aggregate
---------------------	--------	-----------

Edgar Filing: RadNet, Inc. - Form 10-Q

Under the 2006 Plan		Weighted Average	Weighted Average	Intrinsic Value
		Exercise price	Remaining Contractual Life (in years)	
Balance, December 31, 2017	420,149	\$ 6.82		
Granted	133,133	10.05		
Balance, June 30, 2018	553,282	7.05	7.71	\$4,398,199
Exercisable at June 30, 2018	100,211	4.39	4.28	\$1,063,418

Aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between our closing stock price on June 30, 2018 and the exercise price, multiplied by the number of in-the-money options as applicable) that would have been received by the holder had all holders exercised their options on June 30, 2018. No options were exercised during the six months ended June 30, 2018. As of June 30, 2018, total unrecognized stock-based compensation expense related to non-vested employee awards was \$1.3 million which is expected to be recognized over a weighted average period of approximately 2.7 years.

Restricted Stock Awards (“RSA’s”)

The Restated Plan permits the award of restricted stock awards (“RSA’s”). As of June 30, 2018, we have issued a total of 5,457,620 RSA’s of which 289,254 were unvested at June 30, 2018. The following summarizes all unvested RSA’s activities during the six months ended June 30, 2018:

	RSA's	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Fair Value
RSA's unvested at December 31, 2017	447,351		\$ 6.17
Changes during the period			
Granted	512,160		\$ 10.30
Vested	(669,107)		\$ 7.93
Forfeited or Cancelled	(1,150)		\$ 6.00
RSA's unvested at June 30, 2018	289,254	0.89	\$ 9.67

We determine the fair value of all RSA’s based on the closing price of our common stock on award date.

Other stock bonus awards

The Restated Plan also permits the award of stock bonuses not subject to any future service period. These awards are valued and expensed based on the closing price of our common stock on the date of award. During the six months ended June 30, 2018 no such awards were granted.

Plan summary

In sum, of the 14,000,000 shares of common stock reserved for issuance under the Restated Plan, at June 30, 2018, we had issued 13,840,452 total shares between options, RSA’s and other stock awards. With options cancelled and RSA’s forfeited amounting to 3,140,009 and 60,203 shares, respectively, there remain 3,359,760 shares available under the Restated Plan for future issuance.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes and other financial information appearing elsewhere in this quarterly report.

Forward-Looking Statements

This quarterly report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements reflect current views about future events and are based on our currently available financial, economic and competitive data and on current business plans. Actual events or results may differ materially depending on risks and uncertainties that may affect our operations, markets, services, prices and other factors.

In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” “assumption” or the negative of these terms or other comparable terminology. Statements in this quarterly report concerning our ability to successfully acquire and integrate new operations, to grow our contract management business, our financial guidance, our future cost saving efforts, our ability to increase business from new equipment or operations and our ability to finance our operations and repay our outstanding indebtedness, including our increased amortization payments, are forward-looking statements.

Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, the factors included in “Risk Factors,” in our annual report on Form 10-K for the fiscal year ended December 31, 2017 or supplemented by the information in Part II– Item 1A below. You should consider the inherent limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of predictions contained in such forward-looking statements.

These forward-looking statements speak only as of the date when they are made. We assume no obligation to revise or update any forward-looking statements for any reason, except as required by law.

Overview

We are a leading national provider of freestanding, fixed-site outpatient diagnostic imaging services in the United States based on number of locations and annual imaging revenue. At June 30, 2018, we operated directly or indirectly through joint ventures with hospitals, 304 centers located in California, Delaware, Florida, Maryland, New Jersey, and New York. Our centers provide physicians with imaging capabilities to facilitate the diagnosis and treatment of diseases and disorders and may reduce unnecessary invasive procedures, often reducing the cost and amount of care for patients

Our services include magnetic resonance imaging (MRI), computed tomography (CT), positron emission tomography (PET), nuclear medicine, mammography, ultrasound, diagnostic radiology (X-ray), fluoroscopy and other related procedures. The vast majority of our centers offer multi-modality imaging services. Our multi-modality strategy diversifies revenue streams, reduces exposure to reimbursement changes and provides patients and referring physicians one location to serve the needs of multiple procedures. Our operations compose a single segment for financial reporting purposes.

We seek to develop leading positions in regional markets in order to leverage operational efficiencies. Our scale and density within selected geographies provides close, long-term relationships with key payors, radiology groups and referring physicians. Each of our facility managers is responsible for managing relationships with local physicians and payors, meeting our standards of patient service and maintaining profitability. We provide corporate training programs, standardized policies and procedures and sharing of best practices among the physicians in our regional networks.

We derive substantially all of our revenue, directly or indirectly, from fees charged for the diagnostic imaging services performed at our facilities. The following table shows our facilities in operation and revenues for the six months ended June 30, 2018 and June 30, 2017:

	Six Months Ended June 30,	
	2018	2017
Facilities in operation	304	295
Net revenues (millions)	\$475.8	\$459.0

Our revenue is derived from a diverse mix of payors, including private payors, managed care capitated payors and government payors. We believe our payor diversity mitigates our exposure to possible unfavorable reimbursement trends within any one payor class. In addition, our experience with capitation arrangements over the last several years has provided us with the expertise to manage utilization and pricing effectively, resulting in a predictable stream of revenue. The Company's total net revenues during the three and six months ended June 30, 2018 and 2017 are presented in the table below based on an allocation of the estimated transaction price with the patient between the primary patient classification of insurance coverage (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Commercial insurance	\$145,538	\$142,691	\$281,981	\$283,683
Medicare	50,302	47,611	95,867	95,291
Medicaid	6,928	6,525	13,179	13,259
Workers' compensation/personal injury	8,660	8,867	17,407	17,925
Other ⁽¹⁾	7,988	8,362	15,150	16,648
Service fee revenue, net of contractual allowances and discounts	219,416	214,056	423,584	426,806
Provision for bad debts	—	(11,854)	—	(23,500)
Net service fee revenue	219,416	202,202	423,584	403,306
Revenue under capitation arrangements	24,979	27,812	52,203	55,721
Total net revenue	\$244,395	\$230,014	\$475,787	\$459,027

We typically experience some seasonality to our business. During the first quarter of each year we generally experience the lowest volumes of procedures and the lowest level of revenue for any quarter during the year. This is primarily the result of two factors. First, our volumes and revenue are typically impacted by winter weather conditions in our northeastern operations. It is common for snowstorms and other inclement weather to result in patient appointment cancellations and, in some cases, imaging center closures. Second, in recent years, we have observed greater participation in high deductible health plans by patients. As these high deductibles reset in January for most of these patients, we have observed that patients utilize medical services less during the first quarter,

when securing medical care will result in significant out-of-pocket expenditures.

During the first quarter of 2018, unusually severe winter weather conditions in our northeastern and mid-Atlantic operations, which represent slightly over 50% of our total revenue, impacted significantly our operating results, and consequently our results for the six months ended June 30, 2018. Based on our experience we do not believe that lost imaging slots in one quarter are made up later in the quarter or in subsequent quarters.

Investment, Acquisition, and Joint Venture Activity

We have developed our medical imaging business through a combination of organic growth, equity investments, acquisitions and joint venture formations. The information below updates our activity of such matters contained in our annual report on Form 10-K for the year ended December 31, 2017.

Equity Investments:

Medic Vision:

Medic Vision, based in Israel, specializes in software packages that provide compliant radiation dose structured reporting and enhanced images from reduced dose CT scans. On March 24, 2017, we acquired an initial 12.5% equity interest in Medic Vision – Imaging Solutions Ltd for \$1.0 million. We also received an option to exercise warrants to acquire up to an additional 12.5% equity interest for \$1.4 million within one year from the initial share purchase date, if exercised in full. On March 1, 2018 we exercised our warrant in part and acquired an additional 1.96% for \$200,000. Our initial equity interest has been diluted to 12.25% and our total equity investment stands at 14.21%.

Turner Imaging:

Turner Imaging Systems, based in Utah, develops and markets portable X-ray imaging systems that provide a user the ability to acquire X-ray images wherever and whenever they are needed. On February 1, 2018, we purchased 2.1 million preferred shares in Turner Imaging Systems for \$2.0 million.

Facility acquisitions

On February 22, 2018 we completed our acquisition of certain assets of Imaging Services Company of New York, LLC, consisting of a single multi-modality center located in New York, New York, for purchase consideration of \$5.8 million in cash.

On April 1, 2018 we completed our acquisition of certain assets of Women's Imaging Specialists in Healthcare, consisting of a single multi-modality center located in the city of Fresno, California, for purchase consideration of \$5.1 million in cash.

On April 1, 2018 we completed our acquisition of certain assets of Valley Metabolic Imaging LLC, consisting of a single multi-modality center located in Fresno, California, for purchase consideration of \$1.7 million in cash.

On April 1, 2018 we completed our acquisition of certain assets of Sierra Imaging Associates LLC, consisting of a single multi-modality center located in Clovis, California, for purchase consideration of \$1.5 million in cash.

Formation of Joint Ventures

On January 1, 2018 we formed Beach Imaging Group, LLC ("Beach Imaging") and contributed the operations of 24 imaging facilities spread across southern Los Angeles and Orange Counties. On the same day, MemorialCare Medical Foundation contributed \$22.3 million in cash and \$16.8 million in net assets, including 10 imaging facilities. As a result of the transaction, the Company will retain a 60% controlling interest in Beach Imaging and MemorialCare Medical Foundation will retain a 40% noncontrolling interest in Beach Imaging.

On April 12, 2018 we acquired a 25% economic interest in Nulogix, Inc. for \$2.0 million. The Company and Nulogix will collaborate on projects to improve practices in the imaging industry.

The following table is a summary of our investment in joint ventures during the quarter ended June 30, 2018 (in thousands):

Balance as of December 31, 2017	\$52,435
Equity in earnings in these joint ventures	6,725
Distribution of earnings	(7,083)
Equity contributions in existing and purchase of interest in joint ventures	2,000
Balance as of June 30, 2018	\$54,077

We charged management service fees from the centers underlying these joint ventures of approximately \$3.3 million and \$3.5 million for the quarters ended June 30, 2018 and 2017, respectively and \$7.1 million and \$6.6 million for the six months ended June 30, 2018 and 2017 respectively.

The following table is a summary of key balance sheet data for these joint ventures as of June 30, 2018 and December 31, 2017 and income statement data for the six months ended June 2018 and 2017 (in thousands):

Balance Sheet Data:	June 30, 2018	December 31, 2017
Current assets	\$42,880	\$47,813
Noncurrent assets	106,758	107,481
Current liabilities	(14,324)	(16,655)
Noncurrent liabilities	(37,745)	(42,072)
Total net assets	\$97,569	\$96,567
Book value of RadNet joint venture interests	\$45,964	\$45,935
Cost in excess of book value of acquired joint venture interests	8,113	6,500
Total value of Radnet joint venture interests	\$54,077	\$52,435
Total book value of other joint venture partner interests	\$51,605	\$50,632
Income statement data for the six months ended June 30,	2018	2017
Net revenue	\$91,559	\$86,981
Net income	\$14,174	\$10,285

Critical Accounting Policies

The Securities and Exchange Commission defines critical accounting estimates as those that are both most important to the portrayal of a company's financial condition and results of operations and require management's most difficult, subjective or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. In Note 2 to our consolidated financial statements in this quarterly report and in our annual report on Form 10-K for the year ended December 31, 2017, we discuss our significant accounting policies, including those that do not require management to make difficult, subjective or complex judgments or estimates. The most significant areas involving management's judgments and estimates are described below.

Use of Estimates

The financial statements included in this quarterly report were prepared in accordance with U.S. generally accepted accounting principles (GAAP), which requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates and assumptions affect various matters, including our reported amounts of assets and liabilities in our consolidated balance sheets at the dates of the financial statements; our disclosure of contingent assets and liabilities at the dates of the financial statements; and our reported amounts of revenues and expenses in our consolidated statements of operations during the reporting periods. These estimates involve judgments with respect to numerous factors that are difficult to predict and are beyond management's control. As a result, actual amounts could materially differ from these estimates. During the period covered in this report, there were no material changes to the critical accounting estimates we use, and have described in our annual report on Form 10-K for the fiscal year ended December 31, 2017.

Revenues

On January 1, 2018, the Company adopted the new revenue recognition accounting standard issued by the Financial Accounting Standards Board ("FASB") and codified in the ASC as topic 606 ("ASC 606"). The revenue recognition standard in ASC 606 outlines a single comprehensive model for recognizing revenue as performance obligations, defined in a contract with a customer as goods or services transferred to the customer in exchange for consideration, are satisfied. The standard also requires expanded disclosures regarding the Company's revenue recognition policies and significant judgments employed in the determination of revenue.

The Company applied the modified retrospective approach to all contracts when adopting ASC 606. As a result, at the adoption of ASC 606 the majority of what was previously classified as the provision for bad debts in the statement of operations is now reflected as implicit price concessions (as defined in ASC 606) and therefore included as a reduction to net operating revenues in 2018. For changes in credit issues not assessed at the date of service, the Company will prospectively recognize those amounts in other operating expenses on the statement of operations. For periods prior to the adoption of ASC 606, the provision for bad debts has been presented consistent with the previous revenue recognition standards that required it to be presented separately as a component of net operating revenues. Additionally, upon adoption of ASC 606 the allowance for doubtful accounts of approximately \$13.6 million as of January 1, 2018 was reclassified as a component of net patient accounts receivable. Other than these changes in presentation on the condensed consolidated statement of operations and condensed consolidated balance sheet, the adoption of ASC 606 did not have a material impact on the consolidated results of operations for the three and six months ended June 30, 2018, and the Company does not expect it to have a material impact on its consolidated results of operations for the remainder of 2018 and on a prospective basis.

Our revenues generally relate to net patient fees received from various payers and patients themselves under contracts in which our performance obligations are to provide diagnostic services to the patients. Revenues are recorded during the period our obligations to provide diagnostic services are satisfied. Our performance obligations for diagnostic services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges and generally provide for payments based upon predetermined rates per diagnostic services or discounted fee-for-service rates. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

As it relates to BRMG centers, this service fee revenue includes payments for both the professional medical interpretation revenue recognized by BRMG as well as the payment for all other aspects related to our providing the imaging services, for which we earn management fees from BRMG. As it relates to non-BRMG centers, this service fee revenue is earned through providing the use of our diagnostic imaging equipment and the provision of technical services as well as providing administration services such as clerical and administrative personnel, bookkeeping and accounting services, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

Our revenues are based upon the estimated amounts we expect to be entitled to receive from patients and third-party payers. Estimates of contractual allowances under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record estimated implicit price concessions (based primarily on historical collection experience) related to uninsured accounts to record self-pay revenues at the estimated amounts we expect to collect.

As part of the adoption of ASC 606, the Company elected two of the available practical expedients provided for in the standard. First, the Company did not adjust the transaction price for any financing components as those were deemed to be insignificant. Additionally, the Company expensed all incremental customer contract acquisition costs as incurred as such costs are not material and would be amortized over a period less than one year.

Under capitation arrangements with various health plans, we earn a per-enrollee amount each month for making available diagnostic imaging services to all plan enrollees under the capitation arrangement. Revenue under capitation arrangements is recognized in the period in which we are obligated to provide services to plan enrollees under contracts with various health plans.

Accounts Receivable

Substantially all of our accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. Receivables generally are collected within industry norms for third-party payors. We continuously monitor collections from our payors and maintain an allowance for bad debts based upon specific payor collection issues that we have identified and our historical experience.

Depreciation and Amortization of Long-Lived Assets

We depreciate our long-lived assets over their estimated economic useful lives with the exception of leasehold improvements where we use the shorter of the assets useful lives or the lease term of the facility for which these assets are associated.

Income Taxes

Income tax expense is computed using an asset and liability method and using expected annual effective tax rates. Under this method, deferred income tax assets and liabilities result from temporary differences in the financial reporting bases and the income tax reporting bases of assets and liabilities. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefit that, based on available evidence, is not expected to be realized. When it appears more likely than not that deferred taxes will not be realized, a valuation allowance is recorded to reduce the deferred tax asset to its estimated realizable value. For net deferred tax assets we consider estimates of future taxable income, including tax planning strategies, in determining whether our net deferred tax assets are more likely than not to be realized.

Valuation of Goodwill and Indefinite Lived Intangibles

Goodwill at June 30, 2018 totaled \$275.3 million. Indefinite Lived Intangible Assets at June 30, 2018 totaled \$7.9 million and are associated with the value of certain trade name intangibles. Goodwill and trade name intangibles are recorded as a result of business combinations. Management evaluates goodwill and trade name intangibles, at a minimum, on an annual basis and whenever events and changes in circumstances suggest that the carrying amount may not be recoverable. Impairment of goodwill is tested at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair value of a reporting unit is estimated using a combination of the income or discounted cash flows approach and the market approach, which uses comparable market data. If the carrying amount of the reporting unit exceeds its fair value, goodwill is considered impaired and a second step is performed to measure the amount of impairment loss, if any. Impairment of trade name intangibles is tested at the subsidiary level by comparing the subsidiary's trade name carrying amount to its respective fair value. We tested both goodwill and trade name intangibles for impairment on October 1, 2017, noting no impairment, and have not identified any indicators of impairment through June 30, 2018.

Long-Lived Assets

We evaluate our long-lived assets (property and equipment) and intangibles, other than goodwill, for impairment whenever indicators of impairment exist. The accounting standards require that if the sum of the undiscounted expected future cash flows from a long-lived asset or definite-lived intangible is less than the carrying value of that asset, an asset impairment charge must be recognized. The amount of the impairment charge is calculated as the excess of the asset's carrying value over its fair value, which generally represents the discounted future cash flows from that asset or in the case of assets we expect to sell, at fair value less costs to sell. No indicators of impairment were identified with respect to our long-lived assets as of June 30, 2017.

Recent Accounting Standards

See Note 3 to our consolidated financial statements in this quarterly report.

Results of Operations

The following table sets forth, for the three and six months ended June 30, 2018, the percentage that certain items in the statements of operations bears to total net revenue, and for the three and six months ended June 30, 2017, the

percentage that certain items in the statements of operations bears to revenue, net of contractual allowances and discounts and inclusive of revenue under capitation contracts.

Three Months Ended June 30, 2018 Compared to the Three Months Ended June 30, 2017***Total Net Revenue***

Total net revenue for the three months ended June 30, 2018 was \$244.4 million compared to \$230.0 million for the three months ended June 30, 2017, an increase of \$14.4 million or 6.3%.

Total net revenue, limited to centers which were in operation throughout the first quarters of 2018 and 2017, increased \$9.2 million or 4.2%. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, total net revenue from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$16.4 million. For the three months ended June 30, 2017, revenue under capitation arrangements from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$11.2 million.

Operating Expenses

Cost of operations for the three months ended June 30, 2018 increased approximately \$11.4 million, or 5.8%, from \$198.6 million for the three months ended June 30, 2017 to \$210.1 million for the three months ended June 30, 2018. The following table sets forth our cost of operations and total operating expenses for the three months ended June 30, 2018 and 2017 (in thousands):

	Three Months Ended June 30,	
	2018	2017
Salaries and professional reading fees, excluding stock-based compensation	\$ 134,247	\$ 119,503
Stock-based compensation	1,146	1,038
Building and equipment rental	22,047	19,244
Medical supplies	8,249	12,930
Other operating expenses *	44,366	45,896
Cost of operations	210,055	198,611
Depreciation and amortization	18,086	16,612
Loss on sale and disposal of equipment	105	453
Severance costs	279	177

Total operating expenses	\$228,525	\$215,853
--------------------------	-----------	-----------

* Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, telecom, utilities, marketing, travel and other expenses.

Salaries and professional reading fees, excluding stock-based compensation and severance

Salaries and professional reading fees increased \$14.7 million, or 12.3%, to \$134.2 million for the three months ended June 30, 2018 compared to \$119.5 million for the three months ended June 30, 2017.

Salaries and professional reading fees, limited to only those centers which were in operation throughout the second quarters of both 2018 and 2017, increased \$12.8 million, or 11.3%. 2% of the total increase related to physician staffing while the remaining 9.3% was attributable to a non-physician staffing ramp up in our reimbursement and self-pay operations to improve collection rates, which happened over the second through fourth quarters of 2017. This comparison excludes expenses from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, salaries and professional reading fees from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$8.0 million. For the three months ended June 30, 2017, salaries and professional reading fees from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$6.1 million.

Stock-based compensation

Stock-based compensation increased \$108,000, or 10.4% to \$1.1 million for the three months ended June 30, 2018 compared to \$1.0 million for the three months ended June 30, 2017. This increase was driven by the higher fair value of RSA's awarded and vested in the three months ended June 30, 2018 as compared to RSA's awarded and vested in the same period in 2017.

Building and equipment rental

Building and equipment rental expenses increased \$2.8 million or 14.6%, to \$22.0 million for the three months ended June 30, 2018 compared to \$19.2 million for the three months ended June 30, 2017.

Building and equipment rental expenses increased \$1.2 million or 6.7% for only centers which were in operation throughout the second quarters of both 2018 and 2017 and was related to new facility and radiology equipment leases in support of imaging operations. This comparison excludes expenses from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, building and equipment rental expenses from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$2.3 million. For the three months ended June 30, 2017, building and equipment rental expenses from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$729,000.

Medical supplies

Medical supplies expense decreased \$4.7 million, or 36.2%, to \$8.2 million for the three months ended June 30, 2018 compared to \$12.9 million for the three months ended June 30, 2017.

Medical supplies expenses, including only those centers which were in operation throughout the second quarters of both 2018 and 2017, decreased \$1.5 million or 16.8%. Vendor volume rebates based off usage were responsible for the decline in expense. This comparison excludes expenses from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, medical supplies expenses from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$797,000. For the three months ended June 30, 2017, medical supplies expenses from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$4.0 million.

Other operating expenses

Other operating expenses decreased \$1.5 million, or 3.3%, to \$44.4 million for the three months ended June 30, 2018 compared to \$45.9 million for the three months ended June 30, 2017.

Other operating expenses dropped \$3.1 million or 7.0% for only centers which were in operation throughout the second quarters of both 2018 and 2017. Lower utility costs stemming from mild spring weather on the eastern seaboard and consulting fees reduction owing to successfully completed projects were the main drivers of the decrease. This comparison excludes expenses from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, other operating expense from centers that were acquired or divested subsequent April 1, 2017 and excluded from the above comparison was approximately \$3.6 million. For the three months ended June 30, 2017, other operating expenses from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$2.0 million.

Depreciation and amortization

Depreciation and amortization increased \$1.5 million, or 8.9%, to \$18.1 million for the three months ended June 30, 2018 compared to \$16.6 million for the three months ended June 30, 2017.

Depreciation and amortization, limited to centers which were in operation throughout the second quarters of both 2018 and 2017, increased \$126,000, or 0.8%. This comparison excludes expenses from centers that were acquired or divested subsequent to April 1, 2017. For the three months ended June 30, 2018, depreciation expense from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$1.6 million. For the three months ended June 30, 2017, depreciation expense from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$246,000.

Loss on sale and disposal of equipment

We recorded a loss on sale of equipment of approximately \$105,000 for the three months ended June 30, 2018 and approximately \$453,000 for the three months ended June 30, 2017.

Interest expense

Interest expense increased approximately \$338,000, or 3.3%, to \$10.6 million for the three months ended June 30, 2018 compared to \$10.3 million for the three months ended June 30, 2017. Interest expense included \$976,000 and \$829,000 of non-cash amortization for the three months ended June 30, 2018 and June 30, 2017, respectively. Excluding these non-cash amounts for each period, interest expense increased approximately \$191,000 or 2.0% for the three months ended June 30, 2018 compared to the three months ended June 30, 2017. This increase was primarily due to the current economic environment of rising interest rates. To mitigate our interest expense exposure the Company has entered into two forward interest rate cap agreements. See Derivative Instruments section of Note 2 to the consolidated condensed financial statements contained herein and ITEM 3. Quantitative and Qualitative Disclosure About Market Risk below for more details on our derivative transactions.

Equity in earnings from unconsolidated joint ventures

For the three months ended June 30, 2018, we recognized equity in earnings from unconsolidated joint ventures of \$3.7 million against \$3.0 million earned over the same period ended June 30, 2017.

Gain on sale of imaging centers

We recognized a gain on the sale of five wholly owned imaging centers to the Rhode Island Medical Imaging, Inc. of approximately \$1.9 million and a gain of \$361,000 on the sale of two oncology practices to Cedars Sinai Medical Center for the three months ended June 30, 2017.

Provision for income taxes

We had an income tax expense for the three months ended June 30, 2018 of \$2.5 million or 27.9% of income before income taxes, compared to the three months ended June 30, 2017 of an income tax expense of \$3.5 million or 38.5% of the income before income taxes. The effective tax rate decreased by 10.6% over the periods reported because the federal tax rate was significantly impacted by the recent changes in federal tax law. The Tax Cuts and Jobs Act or Tax Act was enacted on December 22, 2017 and reduced the US federal corporate tax rate to 21% from 34%.

Six Months Ended June 30, 2018 Compared to the Six Months Ended June 30, 2017***Total Net Revenue***

Total net revenue for the six months ended June 30, 2018 was \$475.8 million compared to \$459.0 million for the six months ended June 30, 2017, an increase of \$16.8 million or 3.7%.

Total net revenue, limited to centers which were in operation throughout the first two quarters of 2018 and 2017, increased \$12.4 million or 2.8%. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to April 1, 2017. For the six months ended June 30, 2018, total net revenue from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$28.1 million. For the six months ended June 30, 2017, revenue under capitation arrangements from centers that were acquired or divested subsequent to April 1, 2017 and excluded from the above comparison was \$23.7 million.

Operating Expenses

Cost of operations for the six months ended June 30, 2018 increased approximately \$21.6 million, or 5.4%, from \$404.1 million for the six months ended June 30, 2017 to \$425.7 million for the six months ended June 30, 2018. The following table sets forth our cost of operations and total operating expenses for the six months ended June 30, 2018 and 2017 (in thousands):

	Six Months Ended June 30,	
	2018	2017
Salaries and professional reading fees, excluding stock-based compensation	\$268,163	\$243,323
Stock-based compensation	4,890	4,314
Building and equipment rental	43,231	38,810
Medical supplies	17,783	26,168
Other operating expenses *	91,623	91,450
Cost of operations	425,690	404,065
Depreciation and amortization	35,942	33,266
Loss on sale and disposal of equipment	(1,831)	408
Severance costs	1,005	380

Total operating expenses	\$460,806	\$438,119
--------------------------	-----------	-----------

* Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, telecom, utilities, marketing, travel and other expenses.

Salaries and professional reading fees, excluding stock-based compensation and severance

Salaries and professional reading fees increased \$24.8 million, or 10.2%, to \$268.2 million for the six months ended June 30, 2018 compared to \$243.3 million for the six months ended June 30, 2017.

Salaries and professional reading fees, limited to only centers which were in operation throughout the first two quarters of 2018 and 2017, increased \$22.2 million or 9.6%. 2% of the total increase related to physician staffing while the remaining 7.6% was attributable to a non-physician staffing ramp up in our reimbursement and self-pay operations to improve collection rates, which happened over the second through fourth quarters of 2017. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2017. For the six months ended June 30, 2018, salaries and professional reading fees from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$14.8 million. For the six months ended June 30, 2017, salaries and professional reading fees from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was approximately \$12.2 million.

Stock-based compensation

Stock-based compensation increased \$576,000, or 13.4%, to approximately \$4.9 million for the six months ended June 30, 2018 compared to \$4.3 million for the six months ended June 30, 2017. This increase was driven by the higher fair value of RSA's awarded and vested in the first six months of 2018 as compared to RSA's awarded and vested in the same period in 2017.

Building and equipment rental

Building and equipment rental expenses increased \$4.4 million, or 11.4%, to \$43.2 million for the six months ended June 30, 2018 compared to \$38.8 million for the six months ended June 30, 2017.

Building and equipment rental expenses, for only those centers which were in operation throughout the first and second quarters of 2018 and 2017, increased \$2.2 million or 5.9% as a result of the addition of new imaging facilities and related added radiology equipment. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2017. For the six months ended June 30, 2018, building and equipment rental expenses from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$3.9 million. For the six months ended June 30, 2017, building and equipment rental expenses from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was approximately \$1.7 million.

Medical supplies

Medical supplies expense decreased \$8.4 million, or 32.0%, to \$17.8 million for the six months ended June 30, 2018 compared to \$26.2 million for the six months ended June 30, 2017.

Medical supplies expenses, including only those centers which were in operation throughout the first and second quarters of both 2018 and 2017, decreased \$986,000, or 5.6%, due to reductions in purchases of pharmaceutical supplies. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2017. For the six months ended June 30, 2018, medical supplies expenses from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$1.2 million. For the six months ended

June 30, 2017, medical supplies expense from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$8.6 million.

Other operating expenses

Other operating expenses increased \$173,000 or 0.2%, to \$91.6 million for the six months ended June 30, 2018 compared to \$91.5 million for the six months ended June 30, 2017.

Other operating expenses, limited to centers which were in operation throughout the first and second quarters of both 2018 and 2017, decreased \$1.9 million, or 2.2%. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2017. For the six months ended June 30, 2018, other operating expense from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$6.2 million. For the six months ended June 30, 2017, other operating expense from centers that were acquired or divested subsequent to January 1, 2017 was \$4.1 million.

Depreciation and amortization

Depreciation and amortization increased \$2.7 million, or 8.0%, to \$35.9 million for the six months ended June 30, 2018 compared to \$33.3 million for the six months ended June 30, 2017.

Depreciation and amortization, including only those centers which were in operation throughout the first and second quarters of both 2018 and 2017, increased \$791,000, or 2.4%. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2017. For the six months ended June 30, 2018, depreciation expense from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$2.5 million. For the six months ended June 30, 2017, depreciation and amortization from centers that were acquired or divested subsequent to January 1, 2017 and excluded from the above comparison was \$633,000.

Gain and loss on sale and disposal of equipment

We recorded a gain on sale of equipment of approximately \$1.8 million for the six months ended June 30, 2018 and a loss on the sale of equipment of approximately \$408,000 for the six months ended June 30, 2017.

Interest expense

Interest expense increased approximately \$137,000, or 0.7%, to \$20.7 million for the six months ended June 30, 2018 compared to \$20.5 million for the six months ended June 30, 2017. Interest expense included \$2.0 million and \$1.7 million of non-cash amortization for the six months ended June 30, 2018 and June 30, 2017, respectively. Excluding these non-cash amounts for each period, interest expense decreased approximately \$167,000 or 0.9% for the six months ended June 30, 2018 compared to the six months ended June 30, 2017. To mitigate our future interest expense exposure the Company has entered into two forward interest rate cap agreements. See Derivative Instruments section of Note 2 to the consolidated condensed financial statements contained herein and ITEM 3. Quantitative and Qualitative Disclosure About Market Risk below for more details on our derivative transactions.

Equity in earnings from unconsolidated joint ventures

For the six months ended June 30, 2018 we recognized equity in earnings from unconsolidated joint ventures of \$6.7 million versus \$4.9 million for the six months ended June 30, 2017, an increase of \$1.8 million or 36.6%.

Gain on sale of imaging centers

During the six months ended June 30, 2017, we recognized a gain on the sale of five wholly owned imaging centers to the Rhode Island Medical Imaging, Inc. of approximately \$1.9 million and a gain of \$361,000 on the sale of two oncology practices to Cedars Sinai Medical Center.

Provision for income taxes

We had a tax provision for the six months ended June 30, 2018 of \$8,000 or 0.8% of income before income taxes, compared to a tax provision for the six months ended June 30, 2017 of \$3.1 million or 39.2% of income before income taxes. The effective tax rate was lower in the six months ended June 30, 2018 due to the effect of a windfall from restricted stock release. In addition, the federal tax rate was significantly impacted by the recent changes in federal tax law. The Tax Cuts and Jobs Act or Tax Act was enacted on December 22, 2017 and reduced the US federal corporate tax rate to 21% from 34%.

Adjusted EBITDA

We use both GAAP and non-GAAP metrics to measure our financial results. One non-GAAP measure we believe assists us is Adjusted EBITDA. We believe that, in addition to GAAP metrics, these non-GAAP metrics assist us in measuring our cash generated from operations and ability to service our debt obligations. We believe this information is useful to investors and other interested parties because we are highly leveraged and our non-GAAP metrics remove non-cash and certain other charges that occur in the affected period and provide a basis for measuring the Company's financial condition against other quarters.

We define Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, each from continuing operations and exclude losses or gains on the disposal of equipment, other income or loss, loss on debt extinguishments, bargain purchase gains and non-cash equity compensation. Adjusted EBITDA includes equity earnings in unconsolidated operations and subtracts allocations of earnings to noncontrolling interests in subsidiaries, and is adjusted for non-cash or extraordinary and one-time events taking place during the period.

Adjusted EBITDA is a non-GAAP financial measure used as an analytical indicator by us and the healthcare industry to assess business performance, and is a measure of leverage capacity and ability to service debt. Adjusted EBITDA should not be considered a measure of financial performance under GAAP, and the items excluded from Adjusted EBITDA should not be considered in isolation or as alternatives to net income, cash flows generated by operating, investing or financing activities or other financial statement data presented in the consolidated financial statements as an indicator of financial performance or liquidity. As Adjusted EBITDA is not a measurement determined in accordance with GAAP and is therefore susceptible to varying methods of calculation, this metric, as presented, may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is most comparable to the GAAP financial measure, net income (loss) attributable to RadNet, Inc. common stockholders. The following is a reconciliation of GAAP net income (loss) attributable to RadNet, Inc. common stockholders to Adjusted EBITDA for the three and six months ended June 30, 2018 and 2017, respectively.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Net income (loss) attributable to RadNet, Inc. common stockholders	\$5,406	\$5,310	\$(1,932)	\$4,100
Plus provision for income taxes	2,505	3,523	8	3,065
Plus other expenses	5	7	6	10
Less gain on sale of imaging centers	—	(2,301)	—	(2,301)
Plus expenses of divested/closed operations	—	1,200	—	1,200
Plus interest expense	10,641	10,303	20,680	20,543
Plus severance costs	279	177	1,005	380
Plus loss/less (gain) on sale and disposal of equipment	105	453	(1,831)	408
Plus reimbursable legal expenses	—	723	—	723
Plus depreciation and amortization	18,086	16,612	35,942	33,266
Plus gain on sale of equipment attributable to noncontrolling interest	—	—	440	—
Plus non-cash employee stock-based compensation	1,146	1,038	4,890	4,314
Adjusted EBITDA	\$38,173	\$37,045	\$59,208	\$65,708

Liquidity and Capital Resources

The following table is a summary of key balance sheet data as of June 30, 2018 and December 31, 2017 and income statement data for the six months ended June 2018 and 2017 (in thousands):

Balance Sheet Data:

Edgar Filing: RadNet, Inc. - Form 10-Q

	June 30, 2018	December 31, 2017
Cash and cash equivalents	\$ 16,252	\$ 51,322
Accounts receivable	152,174	155,518
Working capital	12,159	43,745
Stockholders' equity	87,305	61,560

Income statement data for the three months ended June 30,	2018	2017
Total net revenue	\$244,395	\$230,014
Net income attributable to RadNet common stockholders	5,406	5,310

Income statement data for the six months ended June 30,		
Total net revenue	\$475,787	\$459,027
Net (loss) income attributable to RadNet common stockholders	(1,932)	4,100

We operate in a capital intensive, high fixed-cost industry that requires significant amounts of capital to fund operations. In addition to operations, we require a significant amount of capital for the initial start-up and development of new diagnostic imaging facilities, the acquisition of additional facilities and new diagnostic imaging equipment. Because our cash flows from operations have been insufficient to fund all of these capital requirements, we have depended on the availability of financing under credit arrangements with third parties.

Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings from our senior secured credit facilities, will be adequate to meet our liquidity needs. Our future liquidity requirements will be for working capital, capital expenditures, debt service and general corporate purposes. Our ability to meet our working capital and debt service requirements, however, is subject to future economic conditions and to financial, business and other factors, many of which are beyond our control. If we are not able to meet such requirements, we may be required to seek additional financing. There can be no assurance that we will be able to obtain financing from other sources on terms acceptable to us, if at all.

On a continuing basis, we also consider various transactions to increase shareholder value and enhance our business results, including acquisitions, divestitures and joint ventures. These types of transactions may result in future cash proceeds or payments but the general timing, size or success of any acquisition, divestiture or joint venture effort and the related potential capital commitments cannot be predicted. We expect to fund any future acquisitions primarily with cash flow from operations and borrowings, including borrowing from amounts available under our senior secured credit facilities or through new equity or debt issuances.

We and our subsidiaries or affiliates may from time to time, in our sole discretion, purchase, repay, redeem or retire any of our outstanding debt or equity securities in privately negotiated or open market transactions, by tender offer or otherwise.

Sources and Uses of Cash

Cash provided by operating activities was \$46.9 million and \$50.2 million for the six months ended June 30, 2018 and June 30, 2017, respectively.

Cash used in investing activities was \$61.1 million and \$46.0 million for the six months ended June 30, 2018 and 2017, respectively. For the six months ended June 30, 2018, we purchased property and equipment for approximately \$45.1 million, acquired imaging facilities for \$14.1 million, made investments at cost of \$2.2 million and an equity investment at \$2.0 million. In addition, we received proceeds from the sale of equipment of \$2.3 million.

Cash used in financing activities was \$20.8 million and \$12.1 million for the six months ended June 30, 2018 and 2017, respectively. The cash used in financing activities for the six months ended June 30, 2018, mainly was due to principal payments on our \$603.7 million face value term loans and pay down of \$4.3 million on equipment notes and capital leases.

On June 30, 2018, we entered into a factoring arrangement with a third party and sold certain accounts receivable under a non-recourse agreement. The amount factored under this agreement was \$10.5 million and the cost of factoring was approximately \$440,000. Proceeds will be received as a combination of cash and payments on a note receivable through August of 2020 bearing an annual rate of 4%.

Senior Secured Credit Facilities

At June 30, 2018, our credit facilities were comprised of one tranche of term loans (“First Lien Term Loans”) and a revolving credit facility of \$117.5 million (the “Revolving Credit Facility”). As of June 30, 2018, we were in compliance with all covenants under our credit facilities.

The balance of our First Lien Term Loans at June 30, 2018, net of unamortized discounts of \$16.8 million, was \$586.9 million.

Deferred financing costs at June 30, 2018, net of accumulated amortization, was \$1.6 million and is specifically related to the Company's line of credit.

We had no balance on our Revolving Credit Facility at June 30, 2018 but had reserved \$8.2 million for certain letters of credit. The remaining \$109.3 million of our revolving credit facility was available to draw upon as of June 30, 2018.

The following describes our recent financing activities:

Amendment No. 5, Consent and Incremental Joinder Agreement to Credit and Guaranty Agreement

On August 22, 2017, we entered into Amendment No. 5, Consent and Incremental Joinder Agreement to Credit and Guaranty Agreement (the "Fifth Amendment") with respect to our First Lien Credit Agreement. Pursuant to the Fifth Amendment, we issued \$170.0 million in incremental First Lien Term Loans, the proceeds of which were used to repay in full all outstanding Second Lien Term Loans and all other obligations under the Second Lien Credit Agreement (as defined below).

Pursuant to the Fifth Amendment, we also changed the interest rate margin applicable to borrowings under the First Lien Credit Agreement. While borrowings under the First Lien Credit Agreement continue to bear interest at either an Adjusted Eurodollar Rate or a Base Rate (in each case, as more fully defined in the First Lien Credit Agreement) or a combination of both, at the election of the Company, plus an applicable margin. The applicable margin for Adjusted Eurodollar Rate borrowings and Base Rate borrowings was changed from 3.25% and 2.25%, respectively, to 3.75% and 2.75%, respectively, through an initial period which ended when financial reporting was delivered for the period ending September 30, 2017. Thereafter, the rates of the applicable margin for borrowing under the First Lien Credit Agreement adjust depending on our leverage ratio, according to the following schedule:

First Lien Leverage Ratio	Eurodollar Rate Spread	Base Rate Spread
> 5.50x	4.50%	3.50%
> 4.00x but ≤ 5.50x	3.75%	2.75%
>3.50x but ≤ 4.00x	3.50%	2.50%

≤ 3.50x	3.25%	2.25%
---------	-------	-------

At June 30, 2018 the effective Adjusted Eurodollar Rate and the Base Rate for the First Lien Term Loans was 2.35% and 5.0%, respectively and the applicable margin for Adjusted Eurodollar Rate and Base Rate borrowings was at 3.75% and 2.75%, respectively.

Pursuant to the Fifth Amendment, the First Lien Credit Agreement was amended so that we can elect to request 1) an increase to the existing Revolving Credit Facility and/or 2) additional First Lien Term Loans, provided that the aggregate amount of such increases and additions does not exceed (a) \$100.0 million and (b) as long as the First Lien Leverage Ratio (as defined in the First Lien Credit Agreement) would not exceed 4.00:1.00 after giving effect to such incremental facilities, an uncapped amount of incremental facilities, in each case subject to the conditions and limitations set forth in the First Lien Credit Agreement. Each lender approached to provide all or a portion of any incremental facility may elect or decline, in its sole discretion, to provide an incremental commitment or loan.

Pursuant to the Fifth Amendment, the First Lien Credit Agreement was also amended to (i) provide for quarterly payments of principal of the First Lien Term Loans in the amount of approximately \$8.3 million, as compared to approximately \$6.1 million prior to the Fifth Amendment, (ii) extend the call protection provided to the holders of the First Lien Term Loans for a period of twelve months following the date of the Fifth Amendment and (iii) provide us with additional operating flexibility, including the ability to incur certain additional debt and to make certain additional restricted payments, investments and dispositions, in each case as more fully set forth in the Fifth Amendment. Total issue costs for the Fifth Amendment aggregated to approximately \$4.7 million. Of this amount, \$4.1 million was identified and capitalized as discount on debt, \$350,000 was capitalized as deferred financing costs and the remaining \$235,000 was expensed. Amounts capitalized will be amortized over the remaining term of the agreement.

Fourth Amendment to First Lien Credit Agreement

On February 2, 2017, we entered into Amendment No. 4 to Credit and Guaranty Agreement (the “Fourth Amendment”) with respect to our First Lien Credit Agreement. Pursuant to the Fourth Amendment, the interest rate margin per annum on the First Lien Term Loans and the Revolving Credit Facility was reduced by 50 basis points, from 3.75% to 3.25%. Except for such reduction in the interest rate on credit extensions, the Fourth Amendment did not result in any other material modifications to the First Lien Credit Agreement. RadNet incurred expenses for the transaction in the amount of \$543,000, which was recorded to discount on debt and will be amortized over the remaining term of the agreement.

The following describes our applicable financing prior to giving effect to the Fourth Amendment and Fifth Amendment discussed above.

First Lien Credit Agreement

On July 1, 2016, we entered into the First Lien Credit Agreement pursuant to which we amended and restated our then existing first lien credit facilities. Pursuant to the First Lien Credit Agreement, we originally issued \$485 million of First Lien Term Loans and established the \$117.5 million Revolving Credit Facility. Proceeds from the First Lien Credit Agreement were used to repay the previously outstanding first lien loans under the First Lien Credit Agreement, make a \$12.0 million principal payment of the Second Lien Term Loans, pay costs and expenses related to the First Lien Credit Agreement and provide approximately \$10.0 million for general corporate purposes.

Interest. Prior to the Fourth Amendment and Fifth Amendment, the interest rates payable on the First Lien Term Loans were (a) the Adjusted Eurodollar Rate (as defined in the First Lien Credit Agreement) plus 3.75% per annum or

(b) the Base Rate (as defined in the First Lien Credit Agreement) plus 2.75% per annum. As applied to the First Lien Term Loans, the Adjusted Eurodollar Rate has a minimum floor of 1.0%.

Payments. Prior to the Fourth Amendment and Fifth Amendment, the scheduled quarterly principal payment of the First Lien Term Loans was approximately \$6.1 million, with the balance due at maturity.

Maturity Date. The maturity date for the First Lien Term Loans shall be on the earliest to occur of (i) July 1, 2023, (ii) the date on which all First Lien Term Loans shall become due and payable in full under the First Lien Credit Agreement, whether by acceleration or otherwise, and (iii) September 25, 2020 if our indebtedness under the Second Lien Credit Agreement had not been repaid, refinanced or extended prior to such date.

Revolving Credit Facility: The First Lien Credit Agreement provides for a \$117.5 million Revolving Credit Facility. Revolving loans borrowed under the Revolving Credit Facility bear interest at either an Adjusted Eurodollar Rate or a Base Rate (in each case, as more fully defined in the First Lien Credit Agreement), plus an applicable margin. Pursuant to the Fifth Amendment, the applicable margin was amended to vary based on our leverage ratio in accordance with the following schedule:

First Lien Leverage Ratio	Eurodollar Rate Spread	Base Rate Spread
> 5.50x	4.50%	3.50%
> 4.00x but ≤ 5.50x	3.75%	2.75%
> 3.50x but ≤ 4.00x	3.50%	2.50%
≤ 3.50x	3.25%	2.25%

For letters of credit issued under the Revolving Credit Facility, letter of credit fees accrue at the applicable margin (see table above) for Adjusted Eurodollar Rate revolving loans and fronting fees accrue at 0.25% per annum, in each case on the average aggregate daily maximum amount available to be drawn under all letters of credit issued under the First Lien Credit Agreement. In addition a commitment fee of 0.5% per annum accrues on the unused revolver commitments under the Revolving Credit Facility. As of June 30, 2018, the interest rate payable on revolving loans was 7.75%. The letters of credit issued under the agreement totaled \$8.2 million and the amount available to borrow under the Revolving Credit Facility was \$109.3 million.

The Revolving Credit Facility will terminate on the earliest to occur of (i) July 1, 2021, (ii) the date we voluntarily agree to permanently reduce the Revolving Credit Facility to zero pursuant to section 2.13(b) of the First Lien Credit Agreement, and (iii) the date the Revolving Credit Facility is terminated due to specific events of default pursuant to section 8.01 of the First Lien Credit Agreement.

Second Lien Credit Agreement:

On March 25, 2014, we entered into the Second Lien Credit and Guaranty Agreement (the “Second Lien Credit Agreement”) pursuant to which we issued \$180 million of second lien term loans (the “Second Lien Term Loans”). The proceeds from the Second Lien Term Loans were used to redeem our 10 3/8% senior unsecured notes, due 2018, to pay the expenses related to the transaction and for general corporate purposes. On July 1, 2016, in conjunction with the restated First Lien Credit Agreement, a \$12.0 million principal payment was made on the Second Lien Term Loans. On August 22, 2017 the Second Lien Credit Agreement was repaid in full with the proceeds of First Lien Term Loans issued under the Fifth Amendment, as described above.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Exchange Risk. We receive payment for our services exclusively in United States dollars. As a result, our financial results are unlikely to be affected by factors such as changes in foreign currency, exchange rates or weak economic conditions in foreign markets.

We maintain research and development facilities in Prince Edward Island, Canada and Budapest, Hungary for which expenses are paid in the local currency. Accordingly, we do have currency risk resulting from fluctuations between such local currency and the United States Dollar. At the present time, we do not have any foreign currency exchange contracts to mitigate this risk. At June 30, 2018, a hypothetical 1% decline in the currency exchange rates between the U.S. dollar against the Canadian dollar and the Hungarian Forint would have resulted in an annual increase of approximately \$36,000 in operating expenses.

Interest Rate Sensitivity We pay interest on various types of debt instruments to our suppliers and lending institutions. The agreements entail either fixed or variable interest rates. Instruments which have fixed rates are mainly leases on radiology equipment. Variable rate interest obligations relate primarily to amounts borrowed under our outstanding credit facilities. Accordingly, our interest expense and consequently, our earnings, are affected by changes in short term interest rates. However due to our purchase of caps, described below, the effects of interest rate changes are limited.

At June 30, 2018, we had \$603.7 million outstanding subject to an adjusted Eurodollar election on First Lien Term Loans. We can elect Eurodollar or Base Rate (Prime) interest rate options on amounts outstanding under the First Lien Term Loans.

To mitigate interest rate risk sensitivity, in the fourth quarter of 2016 we entered into two forward interest rate cap agreements (the “2016 Caps”) which were designated at inception as cash flow hedges of future cash interest payments. Under these arrangements, we purchased a cap on 3 month LIBOR at 2.0%. At June 30, 2018, the company elected 3 month LIBOR rate was 2.35%. The 2016 Caps are designed to provide a hedge against interest rate increases. The 2016 Caps have a notional amount of \$150,000,000 and \$350,000,000 and will mature in September and October 2020. We are liable for a \$5.3 million premium to enter into the caps which is being accrued over the life of the 2016 Caps. See Note 2 to the consolidated financial statements contained herein.

At June 30, 2018, \$603.7 million of First Lien Term Loans are subject to LIBOR rate sensitivity. A hypothetical 1% increase in the adjusted Eurodollar rates under the First Lien Term Loan Agreement and Second Lien Term Loan Agreement over the rates experienced in 2018 would, after considering the effects of the 2016 Caps, result in an increase of \$1.1 million in annual interest expense and a corresponding decrease in income before taxes. At June 30, 2018, an additional \$8.2 million in debt instruments is tied to the prime rate. A hypothetical 1% increase in the prime rate would result in an annual increase in interest expense of approximately \$82,000 and a corresponding decrease in income before taxes. These amounts are determined by considering the impact of the hypothetical interest rates on the borrowing costs and cap agreements. These analyses do not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, our management would likely take actions to further mitigate its exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no changes in our financial structure.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of June 30, 2018. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of June 30, 2018 because deficiencies in the operating effectiveness of several information technology dependent manual controls related to the revenue and accounts receivable process caused a material weakness in our internal control over financial reporting as described in more detail below.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles ("GAAP"). Internal control over financial reporting includes policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are transacted in accordance with authorizations of management and directors of the Company, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Our management, under the supervision of our Chief Executive Officer and Chief Financial Officer, conducted an assessment of the effectiveness of its internal control over financial reporting as of June 30, 2018 based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on this assessment, management concluded that our internal control over financial reporting was not effective as of June 30, 2018 because of the material weakness described below.

A material weakness is defined as “a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis.”

Management concluded that, as of December 31, 2015 and 2016, certain user access, program change and operations control components of information technology general controls and information technology dependent manual control deficiencies related to the Company’s revenue and accounts receivable process were not designed and operating effectively, which aggregate to a material weakness in the Company’s internal control over financial reporting.

Management concluded that our internal controls over financial reporting were not effective as of June 30, 2018 because the following control deficiency related to the Company’s revenue and accounts receivable process identified in the years ended December 31, 2015 and 2016 has not been remediated and therefore a material weakness continues to be present in the Company’s internal control over financial reporting:

Certain information technology dependent manual controls which are (i) designed to ensure the completeness of revenue transaction processing, and (ii) designed to ensure a reasonable valuation of the Company’s accounts receivable balance were not performed timely, accurately or reviewed with sufficient precision.

The ineffective operation of these information technology dependent manual controls impacts a material portion of our revenue transactions.

Remediation Plan for Material Weakness

Management, with oversight of our Audit Committee, has been actively engaged in developing and executing a remediation plan to address the material weakness originally identified in the year ended December 31, 2015. The remediation efforts, which are ongoing, are to continue to focus on executing certain information technology dependent manual controls which are designed to ensure the completeness of revenue transaction processing, and to ensure a reasonable valuation of the Company’s accounts receivable balance on a timely basis and with an adequate level of precision.

Limitations on Effectiveness of Controls and Procedures

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of management override or improper acts, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of the inherent limitations in a cost-effective control system, misstatements due to management override, error or improper acts may occur and not be detected. Any resulting misstatement or loss may have an adverse and material effect on our business, financial condition and results of operations.

Changes in Internal Control over Financial Reporting

Except for the remediation efforts described above, management did not identify any change in internal control over financial reporting occurring during the quarter ended June 30, 2018 that materially affected, or was reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. Legal Proceedings

We are engaged from time to time in the defense of lawsuits arising out of the ordinary course and conduct of our business. We do not believe that the outcome of any of our current litigation will have a material adverse impact on our business, financial condition and results of operations. However, we could be subsequently named as a defendant in other lawsuits that could adversely affect us.

ITEM 1A. Risk Factors

For information about the risks and uncertainties related to our business, please see the risk factors described in our annual report on Form 10-K for the year ended December 31, 2017. The risks described in our Form 10-K, as amended, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

ITEM 3. Defaults Upon Senior Securities

None.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

None.

ITEM 6. Exhibits

Reference is made to the Exhibit Index immediately following the signature page of this report on Form 10-Q.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
