October 27, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 1-3247

CORNING INCORPORATED

(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of incorporation or organization)

16-0393470
(I.R.S. Employer Identification No.)

One Riverfront Plaza, Corning, New York
(Address of principal executive offices)

14831
(Zip Code)

607-974-9000
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes

No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: CORNING INC /NY - Form 10-Q

Large accelerated filer	Accelerated filer	..
Non-accelerated filer	Smaller reporting company	..

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of October 14, 2016
Corning's Common Stock, \$0.50 par value per share	951,225,180 shares

CORNING INCORPORATED AND SUBSIDIARY COMPANIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Significant Accounting Policies

Basis of Presentation

In these notes, the terms “Corning,” “Company,” “we,” “us,” or “our” mean Corning Incorporated and its subsidiary companies.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”) for interim financial information. Certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been omitted or condensed. These interim consolidated financial statements should be read in conjunction with Corning’s consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended December 31, 2015 (“2015 Form 10-K”).

The unaudited consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of operations, financial position and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. The results for interim periods are not necessarily indicative of results which may be expected for any other interim period or for the full year.

Certain prior year amounts have been reclassified to conform to the current-year presentation. These reclassifications had no impact on our results of operations, financial position, or changes in shareholders’ equity.

New Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. (“ASU”) 2014-09, Revenue from Contracts with Customers, as a new Topic, Accounting Standards Codification (“ASC”) Topic 606. The new revenue recognition standard provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU originally was effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. This ASU shall be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption.

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606), deferring the effective date of ASU 2014-09 by one year. We can elect to adopt the provisions of ASU 2014-09 for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The FASB also agreed to allow entities to choose to adopt the standard as of the original effective date. We are currently assessing the adoption date and potential impact of adopting ASU 2014-09 on our financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes all existing guidance on accounting for leases in ASC Topic 840. ASU 2016-02 is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet. ASU 2016-02 will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. ASU 2016-02 is required to be applied with a modified retrospective approach to each prior reporting period presented with various

optional practical expedients. We are currently assessing the adoption date and the potential impact of adopting ASU 2016-02 on our financial statements and related disclosures.

© 2016 Corning Incorporated. All Rights Reserved.

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 changes how companies account for certain aspects of share-based payment awards to employees, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2016, including interim periods within those annual periods. If an entity early adopts in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period and the entity must adopt all of the amendments from ASU 2016-09 in the same period. We are currently assessing the potential impact of adopting ASU 2016-09 on our financial statements and related disclosures. Corning does not expect adoption of this standard to have a material impact on its consolidated results of operations and financial condition.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 refines how companies classify certain aspects of the cash flow statement in regards to debt prepayment, settlement of debt instruments, contingent consideration payments, proceeds from insurance claims and life insurance policies, distribution from equity method investees, beneficial interests in securitization transactions and separately identifiable cash flows. ASU 2016-15 is effective for annual periods beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted. We are currently assessing the adoption date and the potential impact of adopting ASU 2016-15 on our financial statements and related disclosures.

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory, which reduces the complexity in the accounting standards by allowing the recognition of current and deferred income taxes for an intra-entity asset transfer, other than inventory, when the transfer occurs. Historically, recognition of the income tax consequence was not recognized until the asset was sold to an outside party. This amendment should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. ASU 2016-16 is effective for annual periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. Early adoption is permitted for all entities as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance. We are currently evaluating the impact of ASU 2016-16 on our consolidated financial statements and related disclosures.

2. Restructuring, Impairment and Other Charges

2016 Activity

In the first three quarters of 2016, we recorded charges of \$78 million, pre-tax, for employee related costs, asset disposals, and exit costs associated with some minor restructuring activities in all of the segments, with total cash expenditures estimated to be \$15 million.

© 2016 Corning Incorporated. All Rights Reserved.

The following table summarizes the restructuring, impairment and other charges for the nine months ended September 30, 2016 (in millions):

	Reserve at January 1, 2016	Net Charges/ Reversals	Non-cash adjustments	Cash payments	Reserve at September 30, 2016
Restructuring:					
Employee related costs	\$ 3	\$ 15	\$ (1)	\$ (9)	\$ 8
Other charges		1		(1)	
Total restructuring activity	\$ 3	\$ 16	\$ (1)	\$ (10)	\$ 8
Disposal of long-lived assets		\$ 62			
Total restructuring, impairment and other charges		\$ 78			

Cash payments for employee-related and exit activity related to the 2016 restructuring activities are expected to be substantially completed in 2016.

The year-to-date cost of these plans for each of our reportable segments was as follows (in millions):

	Employee- related and other charges
Operating segment	
Display Technologies	\$ 4
Optical Communications	6
Environmental Technologies	5
Specialty Materials	12
Life Sciences	3
All Other	40
Corporate	8
Total restructuring, impairment and other charges	\$ 78

© 2016 Corning Incorporated. All Rights Reserved.

3. Commitments, Contingencies and Guarantees

Asbestos Claims

Corning and PPG Industries, Inc. each owned 50% of the capital stock of Pittsburgh Corning Corporation (“PCC”). PCC filed for Chapter 11 reorganization in 2000 and the Modified Third Amended Plan of Reorganization for PCC (the “Plan”) became effective in April 2016. At December 31, 2015, the Company’s liability under the Plan was estimated to be \$528 million. At September 30, 2016, this estimated liability was \$290 million, due to the Company’s contribution, in the second quarter of 2016, of its equity interests in PCC and Pittsburgh Corning Europe N.V. in the total amount of \$238 million, as required by the Plan. Corning recognized a gain of \$56 million in the second quarter of 2016 in the selling, general and administrative expenses line of the Company’s Consolidated Statements of Income for the difference between the fair value of the asbestos litigation liability and carrying value of the investment. The remaining \$290 million liability is for the fixed series of payments required by the Plan. At September 30, 2016, the total amount of the payments due in years 2018 through 2022 is \$220 million and is classified as a non-current liability. The remaining \$70 million payment due in the second quarter of 2017 is classified as a current liability as it is expected to be made within the next twelve months. Additionally, Corning is a defendant in other cases alleging injuries from asbestos unrelated to PCC (the “non-PCC asbestos claims”) which had been stayed pending the confirmation of the Plan. The stay was lifted on August 25, 2016. Corning previously established a \$150 million reserve for these non-PCC asbestos claims. The estimated reserve represents the undiscounted projection of claims and related legal fees over the next 20 years. The amount may need to be adjusted in future periods as more data becomes available; however, we cannot estimate any lesser or greater liabilities at this time.

A summary of changes of the estimated asbestos litigation liability is as follows (in millions):

	Amended PCC Plan			Total Asbestos
	Equity	Fixed Series	Non-PCC	Litigation Liability
	Interests	of Payments		
Fair Value of Asbestos Litigation Liability as of Dec. 31, 2015	\$ 238	\$ 290	\$ 150	\$ 678
Less: Contribution of PCC & PCE Equity Interests - Carrying Value	182	-	-	182
Gain on Contribution of Equity Interests	56	-	-	56
Asbestos Litigation Liability as of September 30, 2016	\$ -	\$ 290	\$ 150	\$ 440

Non-PCC Asbestos Claims Insurance Litigation

Several of Corning’s insurers have commenced litigation in state courts for a declaration of the rights and obligations of the parties under insurance policies, including rights that may be affected by the potential resolutions described above. Corning has resolved these issues with a majority of its relevant insurers, and is vigorously contesting these cases with the remaining relevant insurers. Management is unable to predict the outcome of the litigation with these remaining insurers.

Other Commitments and Contingencies

We are required, at the time a guarantee is issued, to recognize a liability for the fair value or market value of the obligation it assumes. In the normal course of our business, we do not routinely provide significant third-party guarantees. Generally, any third party guarantees provided by Corning are limited to certain financial guarantees including stand-by letters of credit and performance bonds, and the incurrence of contingent liabilities in the form of purchase price adjustments related to attainment of milestones. When provided, these guarantees have various terms, and none of these guarantees are individually significant.

As of September 30, 2016 and December 31, 2015, contingent guarantees totaled a notional value of \$201 million and \$184 million, respectively. We believe a significant majority of these contingent guarantees will expire without being funded. We also were contingently liable for purchase obligations of \$255 million and \$220 million, at September 30, 2016 and December 31, 2015, respectively.

Product warranty liability accruals were considered insignificant at September 30, 2016 and December 31, 2015.

Corning is a defendant in various lawsuits, including environmental, product-related suits, and is subject to various claims that arise in the normal course of business. In the opinion of management, the likelihood that the ultimate disposition of these matters will have a material adverse effect on Corning's consolidated financial position, liquidity, or results of operations, is remote. Other than certain asbestos related claims, there are no other material loss contingencies related to litigation.

Corning has been named by the Environmental Protection Agency ("the Agency") under the Superfund Act, or by state governments under similar state laws, as a potentially responsible party for 17 active hazardous waste sites. Under the Superfund Act, all parties who may have contributed any waste to a hazardous waste site, identified by the Agency, are jointly and severally liable for the cost of cleanup unless the Agency agrees otherwise. It is Corning's policy to accrue for its estimated liability related to Superfund sites and other environmental liabilities related to property owned by Corning based on expert analysis and continual monitoring by both internal and external consultants. At September 30, 2016 and December 31, 2015, Corning had accrued approximately \$45 million (undiscounted) and \$37 million (undiscounted), respectively, for the estimated liability for environmental cleanup and related litigation. Based upon the information developed to date, management believes that the accrued reserve is a reasonable estimate of the Company's liability and that the risk of an additional loss in an amount materially higher than that accrued is remote.

The ability of certain subsidiaries and affiliated companies to transfer funds is limited by provisions of foreign government regulations, affiliate agreements and certain loan agreements. At September 30, 2016, the amount of equity subject to such restrictions for consolidated subsidiaries and affiliated companies was not significant. While this amount is legally restricted, it does not result in operational difficulties since we have generally permitted subsidiaries to retain a majority of equity to support their growth programs.

4. Debt

Based on borrowing rates currently available to us for loans with similar terms and maturities, the fair value of long-term debt was \$4.3 billion at September 30, 2016 and \$4.1 billion at December 31, 2015, compared to recorded book values of \$3.9 billion at September 30, 2016 and December 31, 2015. The Company measures the fair value of its long-term debt using Level 2 inputs based primarily on current market yields for its existing debt traded in the secondary market.

On July 20, 2016, Corning's Board of Directors approved a \$1 billion increase to our commercial paper program, raising it to \$2 billion. If needed, this program is supported by our \$2 billion revolving credit facility that expires in 2019. Corning did not have outstanding commercial paper at September 30, 2016.

© 2016 Corning Incorporated. All Rights Reserved.

Debt Issuances

2015

In the second quarter of 2015, we issued \$375 million of 1.50% senior unsecured notes that mature on May 8, 2018 and \$375 million of 2.90% senior unsecured notes that mature on May 15, 2022. We can redeem these debentures at any time, subject to certain stipulations.

5. Income Taxes

Our benefit (provision) for income taxes and the related effective income tax rates were as follows (in millions):

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Benefit (provision) for income taxes	\$ 27	\$ (6)	\$ 835	\$ (202)
Effective tax rate	(10.5%)	2.8%	(64.8%)	15.3%

For the three months ended September 30, 2016, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of foreign earnings in U.S. income.

For the nine months ended September 30, 2016, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of foreign earnings in U.S. income;
 - The impact of equity in earnings of nonconsolidated affiliates reported in the financials, net of tax; and
- The tax-free nature of the realignment of our equity interest in Dow Corning during the period, as well as the release of the deferred tax liability related to Corning's tax on Dow Corning's undistributed earnings as of the date of the transaction.

For the three and nine months ended September 30, 2015, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of high-taxed foreign earnings in U.S. income; and
 - The impact of equity in earnings of nonconsolidated affiliates reported in the financials, net of tax.

Corning continues to indefinitely reinvest substantially all of its foreign earnings, with the exception of an immaterial amount of current earnings that have very low or no tax cost associated with their repatriation. Our current analysis indicates that we have sufficient U.S. liquidity, including borrowing capacity, to fund foreseeable U.S. cash needs without requiring the repatriation of foreign cash. Significant one time or unusual items that may impact our ability or intent to keep our foreign earnings and cash indefinitely reinvested include significant U.S. acquisitions, stock repurchases, shareholder dividends, changes in tax laws, derivative contract settlements or the development of tax planning ideas that allow us to repatriate earnings at minimal or no tax cost, and/or a change in our circumstances or economic conditions that negatively impact our ability to borrow or otherwise fund U.S. needs from existing U.S.

sources. While it remains impracticable to calculate the tax cost of repatriating our total unremitted foreign earnings, such cost could be material to the results of operations of Corning in a particular period.

© 2016 Corning Incorporated. All Rights Reserved.

While we expect the amount of unrecognized tax benefits to change in the next 12 months, we do not expect the change to have a significant impact on the results of operations or our financial position.

6. Earnings per Common Share

The following table sets forth the computation of basic and diluted earnings per common share (in millions, except per share amounts):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Net income attributable to Corning Incorporated	\$ 284	\$ 212	\$ 2,123	\$ 1,115
Less: Series A convertible preferred stock dividend	24	24	73	73
Net income available to common stockholders – basic	260	188	2,050	1,042
Plus: Series A convertible preferred stock dividend (1)	24		73	73
Net income available to common stockholders – diluted	\$ 284	\$ 188	\$ 2,123	\$ 1,115
Weighted-average common shares outstanding – basic	978	1,210	1,046	1,241
Effect of dilutive securities:				
Stock options and other dilutive securities	9	8	9	10
Series A convertible preferred stock (1)	115		115	115
Weighted-average common shares outstanding – diluted	1,102	1,218	1,170	1,366
Basic earnings per common share	\$ 0.27	\$ 0.16	\$ 1.96	\$ 0.84
Diluted earnings per common share	\$ 0.26	\$ 0.15	\$ 1.81	\$ 0.82
Antidilutive potential shares excluded from diluted earnings per common share:				
Series A convertible preferred stock (1)		115		
Employee stock options and awards	13	29	18	22
Accelerated share repurchase forward contract	14		14	
Total	27	144	32	22

(1) In the three months ended September 30, 2015, the Series A convertible preferred stock was anti-dilutive and therefore excluded from the calculation of diluted earnings per share.

7. Available-for-Sale Investments

At September 30, 2016 and December 31, 2015, the Company held \$0 million and \$100 million of short-term investments (U.S. government and agency securities), respectively. At September 30, 2016 and December 31, 2015, the Company held long-term investments of \$30 million and \$33 million in asset-backed securities, respectively. The Company's investments in available-for-sale securities are held at fair value with amortized cost of \$33 million and \$37 million at September 30, 2016 and December 31, 2015, respectively.

We have no plans to sell, nor do we believe it is more likely than not that we would be required to sell, the long-term investment asset-backed securities (which are collateralized by mortgages) before recovery of their amortized cost basis. It is possible that a significant degradation in the delinquency or foreclosure rates in the underlying assets could cause further temporary or other-than-temporary impairments in the future.

For the nine months ended September 30, 2016 and 2015, proceeds from sales and maturities of short-term investments totaled approximately \$121 million and \$1.0 billion, respectively.

8. Inventories, Net of Inventory Reserves

Inventories, net of inventory reserves comprise the following (in millions):

	September 30, 2016	December 31, 2015
Finished goods	\$ 636	\$ 633
Work in process	301	264
Raw materials and accessories	278	200
Supplies and packing materials	301	288
Total inventories, net of inventory reserves	\$ 1,516	\$ 1,385

9. Investments

On May 31, 2016, Corning completed the strategic realignment of its equity investment in Dow Corning Corporation (“Dow Corning”) pursuant to the Transaction Agreement announced in December 2015. Under the terms of the Transaction Agreement, Corning exchanged with Dow Corning its 50% stock interest in Dow Corning for 100% of the stock of a newly formed entity, which holds an equity interest in Hemlock Semiconductor Group (“HSG”) and approximately \$4.8 billion in cash.

Prior to realignment, HSG, a wholly owned and consolidated subsidiary of Dow Corning, was an indirect equity investment of Corning. Upon completion of the exchange, Corning now has a direct equity investment in HSG. Because our ownership percentage in HSG did not change as a result of the realignment, the investment in HSG is recorded at its carrying value, which had a negative carrying value of \$383 million at the transaction date. The negative carrying value resulted from a one-time charge to this entity in 2014 for the permanent abandonment of certain assets. Excluding this charge, the entity is profitable and is expected to recover its equity in the near term.

Corning’s financial statements as of September 30, 2016 include the positive impact of the release of a deferred tax liability of \$105 million related to Corning’s tax on Dow Corning’s earnings that were not distributed as of the date of the transaction and a non-taxable gain of \$2,676 million on the realignment. Details of the gain are illustrated below (in millions):

Cash	\$ 4,818
Carrying Value of Dow Corning Equity Investment	(1,560)
Carrying Value of HSG Equity Investment	(383)
Other (1)	(199)
Gain	\$ 2,676

(1) Primarily consists of the release of accumulated other comprehensive income items related to unamortized actuarial losses related to Dow Corning’s pension plan and foreign currency translation gains in the amounts of \$260 million and \$45 million, respectively.

© 2016 Corning Incorporated. All Rights Reserved.

Investments comprise the following (in millions):

	Ownership interest	September 30, 2016	December 31, 2015
Affiliated companies accounted for by the equity method			
Dow Corning (1)	50%		\$ 1,483
All other (1)	20% to 50%	\$ 285	422
		285	1,905
Other investments		67	70
Subtotal Investment Assets		\$ 352	\$ 1,975
Affiliated companies accounted for by the equity method			
HSG (2)(3)	50%	\$ 343	
Subtotal Investment Liabilities		\$ 343	

(1) Amounts reflect Corning's direct ownership interests in the respective affiliated companies at September 30, 2016 and December 31, 2015. Corning does not control any of such entities.

(2) HSG indirectly holds an 80.5% interest in a HSG operating partnership.

(3) The negative carrying value of the investment in HSG is recorded in Other Liabilities.

10. Goodwill and Other Intangible Assets

The carrying amount of goodwill by segment for the periods ended September 30, 2016 and December 31, 2015 is as follows (in millions):

	Optical Communications	Display Technologies	Specialty Materials	Life Sciences	All Other	Total
Balance at December 31, 2015	\$ 439	\$ 128	\$ 150	\$ 562	\$ 101	\$ 1,380
Acquired goodwill (1)	175					175
Measurement period adjustment (2)	(6)					(6)
Foreign currency translation adjustment	7	5		6	2	20
Balance at September 30, 2016	\$ 615	\$ 133	\$ 150	\$ 568	\$ 103	\$ 1,569

(1) The Company completed an acquisition in the Optical Communications segment during the second quarter of 2016 with a purchase price of \$296 million.

(2) In the third quarter of 2016, minor adjustments were made to the preliminary allocation of the total purchase consideration related to a second quarter acquisition. The allocation is expected to be finalized in the fourth quarter of 2016, and any adjustments are not expected to be material.

Corning's gross goodwill balances for the periods ended September 30, 2016 and December 31, 2015 were \$8.1 billion and \$7.9 billion, respectively. Accumulated impairment losses were \$6.5 billion for the periods ended September 30, 2016 and December 31, 2015, and were generated primarily through goodwill impairments related to the Optical Communications segment.

© 2016 Corning Incorporated. All Rights Reserved.

Other intangible assets are as follows (in millions):

	September 30, 2016			December 31, 2015		
	Gross	Accumulated amortization	Net	Gross	Accumulated amortization	Net
Amortized intangible assets:						
Patents, trademarks, and trade names	\$ 367	\$ 176	\$ 191	\$ 350	\$ 162	\$ 188
Customer lists and other	744	138	606	621	103	518
Total	\$1,111	\$ 314	\$ 797	\$ 971	\$ 265	\$ 706

Corning's amortized intangible assets are primarily related to the Optical Communications and Life Sciences segments. The net carrying amount of intangible assets increased during the first nine months of 2016, primarily due to acquisitions of \$127 million of other intangible assets and foreign currency translation adjustments of \$11 million, offset by amortization of \$46 million.

Amortization expense related to these intangible assets is estimated to be \$67 million for 2016, \$72 million annually from 2017 to 2018, \$71 million for 2019, and \$66 million annually from 2020 to 2021.

11. Employee Retirement Plans

The following table summarizes the components of net periodic benefit cost for Corning's defined benefit pension and postretirement health care and life insurance plans (in millions):

	Pension benefits				Postretirement benefits			
	Three months ended September 30,		Nine months ended September 30,		Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015	2016	2015	2016	2015
Service cost	\$ 22	\$ 22	\$ 65	\$ 67	\$ 3	\$ 3	\$ 7	\$ 10
Interest cost	31	36	93	109	6	8	19	24
Expected return on plan assets	(41)	(44)	(124)	(133)				
Amortization of net loss						1	(1)	3
Amortization of prior service cost (credit)	1	2	4	5	(1)	(2)	(3)	(5)
Recognition of actuarial loss	26		60	8				
Total pension and postretirement benefit expense	\$ 39	\$ 16	\$ 98	\$ 56	\$ 8	\$ 10	\$ 22	\$ 32

The recognition of actuarial loss in the three months ended September 30, 2016 resulted from small settlements in several of our benefit plans which triggered plan remeasurements. In addition to the settlements occurring in the third quarter of 2016, results in the nine months ended September 30, 2016 also included the impact of the finalization of our 2015 benefit plan valuations.

12. Other Liabilities

Other liabilities follow (in millions):

	September 30, 2016	December 31, 2015
Current liabilities:		
Wages and employee benefits	\$ 472	\$ 491
Income taxes	149	53
Asbestos and other litigation reserves	73	238
Derivative instruments	204	55
Other current liabilities	456	471
Other accrued liabilities	\$ 1,354	\$ 1,308
Non-current liabilities:		
Asbestos and other litigation reserves	\$ 394	\$ 440
Derivative instruments	1,543	88
Investment in Hemlock Semiconductor Group (1)	343	
Defined benefit pension plan liabilities	762	672
Other non-current liabilities	1,062	1,042
Other liabilities	\$ 4,104	\$ 2,242

(1) The negative carrying value resulted from a one-time charge to this entity in 2014 for the permanent abandonment of certain assets.

Asbestos Litigation

Corning and PPG each owned 50% of the capital stock of PCC. Over a period of more than two decades, PCC and several other defendants were named in numerous lawsuits involving claims alleging personal injury from exposure to asbestos. Refer to Note 3 (Commitments, Contingencies and Guarantees) to the consolidated financial statements for additional information on the asbestos litigation.

13. Hedging Activities

Undesignated Hedges

The table below includes a total gross notional value for translated earnings contracts of \$17.6 billion and \$12.0 billion at September 30, 2016 and December 31, 2015, respectively. The translated earnings contracts include purchased and zero-cost collars of \$2.8 billion and \$5.6 billion and average rate forwards of \$14.8 billion and \$6.4 billion at September 30, 2016 and December 31, 2015, respectively. With respect to the purchased and zero-cost collars, the gross notional amount includes the value of both the put and call options. However, due to the nature of the purchased and zero-cost collars, either the put or the call option can be exercised at maturity. The total net notional value of the purchased and zero-cost collars was \$1.4 billion and \$2.9 billion at September 30, 2016 and December 31, 2015, respectively.

© 2016 Corning Incorporated. All Rights Reserved.

The following tables summarize the notional amounts and respective fair values of Corning's derivative financial instruments on a gross basis for September 30, 2016 and December 31, 2015 (in millions):

	U.S. Dollar		Asset derivatives		Liability derivatives			
	Gross notional amount Sept. 30, 2016	Dec. 31, 2015	Balance sheet location	Fair value Sept. 30, 2016	Dec. 31, 2015	Balance sheet location	Fair value Sept. 30, 2016	Dec. 31, 2015

14. Fair Value Measurements

Fair value standards under U.S. GAAP define fair value, establish a framework for measuring fair value in applying generally accepted accounting principles, and require disclosures about fair value measurements. The standards also identify two kinds of inputs that are used to determine the fair value of assets and liabilities: observable and unobservable. Observable inputs are based on market data or independent sources while unobservable inputs are based on the Company's own market assumptions. Once inputs have been characterized, the inputs are prioritized into one of three broad levels (provided in the table below) used to measure fair value. Fair value standards apply whenever an entity is measuring fair value under other accounting pronouncements that require or permit fair value measurement and require the use of observable market data when available.

The following tables provide fair value measurement information for the Company's major categories of financial assets and liabilities measured on a recurring basis (in millions):

	Fair value measurements at reporting date using			
	September 30, 2016	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Current assets:				
Other current assets (1)	\$ 68		\$ 68	
Non-current assets:				
Other assets (1)(2)	\$ 350		\$ 64	\$ 286
Current liabilities:				
Other accrued liabilities (1)	\$ 204		\$ 204	
Non-current liabilities:				
Other liabilities (1)	\$ 1,543		\$ 1,543	

(1) Derivative assets and liabilities include foreign exchange forward and zero-cost collar contracts, and interest rate swaps which are measured using observable quoted prices for similar assets and liabilities.

(2) Other assets include asset-backed securities which are measured using observable quoted prices for similar assets and contingent consideration assets or liabilities which are measured by applying an option pricing model using projected future revenue and forecasted foreign exchange rates.

	Fair value measurements at reporting date using			
	December 31, 2015	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Current assets:				
Short-term investments	\$ 100	\$ 100		
Other current assets (1)	\$ 522		\$ 522	
Non-current assets:				
Other assets (1)(2)	\$ 752		\$ 506	\$ 246
Current liabilities:				
Other accrued liabilities (1)	\$ 55		\$ 55	
Non-current liabilities:				
Other liabilities (1)	\$ 98		\$ 88	\$ 10

(1) Derivative assets and liabilities include foreign exchange contracts which are measured using observable quoted prices for similar assets and liabilities.

(2) Other assets include asset-backed securities which are measured using observable quoted prices for similar assets and contingent consideration assets or liabilities which are measured by applying an option pricing model using projected future revenues.

As a result of the acquisition of Samsung Corning Precision Materials in January 2014, the Company has contingent consideration that was measured using unobservable (Level 3) inputs. Changes in the fair value of the contingent consideration in future periods are valued using an option pricing model and are recorded in Corning's results in the period of the change. As of September 30, 2016 and December 31, 2015, the fair value of the potential receipt of the contingent consideration in 2018 was \$286 million and \$246 million, respectively.

© 2016 Corning Incorporated. All Rights Reserved.

There were no significant financial assets and liabilities measured on a nonrecurring basis during the nine months ended September 30, 2016.

15. Shareholders' Equity

Fixed Rate Cumulative Convertible Preferred Stock, Series A

On January 15, 2014, Corning designated a new series of its preferred stock as Fixed Rate Cumulative Convertible Preferred Stock, Series A, par value \$100 per share, and issued 2,300 shares of Preferred Stock at an issue price of \$1 million per share, for an aggregate issue price of \$2.3 billion. The Preferred Stock is convertible at the option of the holder and the Company upon certain events, at a conversion rate of 50,000 shares of Corning's common stock per one share of Preferred Stock, subject to certain anti-dilution provisions. As of September 30, 2016, the Preferred Stock has not been converted, and none of the anti-dilution provisions have been triggered.

Share Repurchases

On July 28, 2016, Corning entered into an accelerated share repurchase transaction ("ASR") with Morgan Stanley & Co. LLC ("Morgan Stanley") to repurchase \$2 billion of Corning's common stock in two tranches of \$1.5 billion and \$500 million, respectively, each with its own scheduled termination date. The ASR was executed under the \$4 billion share repurchase program authorized on October 26, 2015 (the "2015 Repurchase Program"). Under the ASR, Corning made a \$2 billion aggregate payment to Morgan Stanley on July 28, 2016 and received an initial aggregate delivery of 74.4 million shares of Corning common stock from Morgan Stanley on the same day. Each tranche is subject to acceleration at Morgan Stanley's option during an acceleration period prior to its scheduled termination date. The total number of shares Corning will repurchase under each tranche of the ASR will be based generally upon the average daily volume weighted average price of Corning's common stock during the repurchase period for such tranche, less a discount and subject to adjustments pursuant to the terms and conditions of the ASR. Depending on the circumstances at settlement of each tranche, Morgan Stanley may be required to deliver additional shares of common stock to Corning or Corning may be required either to deliver shares of common stock or to make a cash payment to Morgan Stanley. Final settlement of both tranches of the ASR is scheduled to occur in the fourth quarter of 2016.

In addition to the ASR, during the three and nine months ended September 30, 2016, the Company repurchased 15.3 million and 96 million shares of common stock on the open market for approximately \$340 million and \$1,901 million, respectively, as part of its 2015 Repurchase Program.

Accumulated Other Comprehensive Income

In the three and nine months ended September 30, 2016 and 2015, the primary changes in accumulated other comprehensive income ("AOCI") were related to the foreign currency translation adjustment component and the unamortized actuarial losses component.

A summary of changes in the foreign currency translation adjustment component of AOCI is as follows (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Beginning balance	\$ (547)	\$ (877)	\$ (1,171)	\$ (581)
Other comprehensive income (loss)	235	(163)	860	(399)
Equity method affiliates	10	(18)	9	(78)
	245	(181)	869	(477)

Net current-period other comprehensive income
(loss)

Ending balance	\$ (302)	\$ (1,058)	\$ (302)	\$ (1,058)
----------------	----------	------------	----------	------------

© 2016 Corning Incorporated. All Rights Reserved.

In the second quarter of 2016, \$45 million cumulative foreign currency translation gain was released as a result of the realignment of Dow Corning and included in the gain on realignment of equity investment.

In the second quarter of 2016, a \$22 million cumulative foreign currency translation loss was released as a result of the contribution of our investment in PCE to the PCC litigation trust and included in selling, general and administrative expenses.

There were no material tax effects related to foreign currency translation gains and losses for the three months ended September 30, 2016 and 2015, and for the nine months ended September 30, 2015. In the nine months ended September 30, 2016, Corning recorded a tax impact of \$45 million related to foreign currency translation gains and losses.

A summary of changes in the unamortized actuarial gains (losses) component of AOCI is as follows (in millions) (1):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Beginning balance	\$ (323)	\$ (703)	\$ (588)	\$ (709)
Other comprehensive (loss) income before reclassifications (2)	(31)	(1)	(64)	5
Amounts reclassified from accumulated other comprehensive income (2)	26	1	60	11
Equity method affiliates (3)		6	264	(4)
Net current-period other comprehensive income	(5)	6	260	12
Ending balance	\$ (328)	\$ (697)	\$ (328)	\$ (697)

(1) All amounts are after tax. Amounts in parentheses indicate debits to accumulated other comprehensive income.

(2) Tax effects are not significant.

(3) For the three months ended September 30, 2016, tax effects are not significant. For the nine months ended September 30, 2016, amounts are net of total tax expense of \$19 million. For the three and nine months ended September 30, 2015, tax effects are not significant.

In the second quarter of 2016, a \$260 million cumulative unamortized actuarial loss, net of tax of \$19 million, was released as a result of the realignment of Dow Corning and included in the gain on realignment of equity investment.

In the second quarter of 2016, a \$2 million cumulative unamortized actuarial loss was released as a result of the contribution of our investment in PCE to the PCC litigation trust and included in selling, general and administrative expenses.

16. Share-based Compensation

Stock Compensation Plans

The Company measures and recognizes compensation cost for all share-based payment awards made to employees and directors based on estimated fair values. Fair values for stock options were estimated using a multiple-point Black-Scholes valuation model. Share-based compensation cost was approximately \$10 million and \$11 million for the three months ended September 30, 2016 and 2015, respectively, and approximately \$33 million and \$36 million for the nine months ended September 30, 2016 and 2015, respectively. Amounts for all periods presented included compensation expense for employee stock options and time-based restricted stock and restricted stock units.

© 2016 Corning Incorporated. All Rights Reserved.

Stock Options

Corning's stock option plans provide non-qualified and incentive stock options to purchase authorized but unissued shares, or treasury shares, at the market price on the grant date and generally become exercisable in installments from one to five years from the grant date. The maximum term of non-qualified and incentive stock options is 10 years from the grant date.

The following table summarizes information concerning stock options outstanding including the related transactions under the stock option plans for the nine months ended September 30, 2016:

	Number of Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term in Years	Aggregate Intrinsic Value (in thousands)
Options Outstanding as of December 31, 2015	42,738	\$19.40		
Granted	1,669	19.98		
Exercised	(5,838)	15.63		
Forfeited and Expired	(4,317)	26.02		
Options Outstanding as of September 30, 2016	34,252	19.24	3.96	\$164,226
Options Expected to Vest as of September 30, 2016	34,208	19.23	3.95	164,091
Options Exercisable as of September 30, 2016	29,475	18.99	3.21	150,477

The aggregate intrinsic value (market value of stock less option exercise price) in the preceding table represents the total pretax intrinsic value, based on the Company's closing stock price on September 30, 2016, which would have been received by the option holders had all option holders exercised their "in-the-money" options as of that date.

As of September 30, 2016, there was approximately \$7 million of unrecognized compensation cost related to stock options granted under the plans. The cost is expected to be recognized over a weighted-average period of 1.8 years. Compensation cost related to stock options was approximately \$2 million for the three months ended September 30, 2016 and 2015, respectively, and approximately \$10 million and \$13 million for the nine months ended September 30, 2016 and 2015, respectively.

Proceeds received from the exercise of stock options were \$86 million and \$99 million for the nine months ended September 30, 2016 and 2015, respectively. Proceeds received from the exercise of stock options were included in financing activities on the Company's Consolidated Statements of Cash Flows. The total intrinsic value of options exercised for the nine months ended September 30, 2016 and 2015 was approximately \$36 million and \$46 million, respectively. The income tax benefit realized from share-based compensation was not significant for the three and nine months ended September 30, 2016 and 2015, respectively. Refer to Note 5 (Income Taxes) to the Consolidated Financial Statements.

The following inputs were used for the valuation of option grants under our stock option plans:

	Three months ended		Nine months ended			
	September 30,		September 30,			
	2016	2015	2016	2015	2016	2015
Expected volatility	38.6%	44.2%	38.6	43.1%	44.2	44.9%
Weighted-average volatility	38.6%	44.2%	38.6	43.1%	44.2	44.9%
Expected dividends	2.34%	2.67%	2.34	2.94%	1.92	2.67%
Risk-free rate	1.4%	2.0%	1.4	1.6%	1.9	2.0%
Average risk-free rate	1.4%	2.0%	1.4	1.6%	1.9	2.0%
Expected term (in years)	7.4	7.2	7.4	7.4	7.2	7.2
Pre-vesting departure rate	0.6%	0.6%	0.6	0.6%	0.6	0.6%

Expected volatility is based on a blended approach defined as the weighted average of the short-term implied volatility, the most recent volatility for the period equal to the expected term, and the most recent 15-year historical volatility. The expected term assumption is the period of time the options are expected to be outstanding, and is calculated using a combination of historical exercise experience adjusted to reflect the current vesting period of options being valued, and partial life cycles of outstanding options. The risk-free rate assumption is the implied rate for a zero-coupon U.S. Treasury bond with a term equal to the option's expected term.

Incentive Stock Plans

The Corning Incentive Stock Plan permits restricted stock and restricted stock unit grants, either determined by specific performance goals or issued directly, in most instances, subject to the possibility of forfeiture and without cash consideration. Restricted stock and restricted stock units under the Incentive Stock Plan are granted at the closing market price on the grant date, contingently vest over a period of generally one to ten years, and generally have contractual lives of one to ten years. The fair value of each restricted stock grant or restricted stock unit awarded under the Incentive Stock Plan is based on the grant date closing price of the Company's stock.

Time-Based Restricted Stock and Restricted Stock Units:

Time-based restricted stock and restricted stock units are issued by the Company on a discretionary basis, and are payable in shares of the Company's common stock upon vesting. The fair value is based on the closing market price of the Company's stock on the grant date. Compensation cost is recognized over the requisite vesting period and adjusted for actual forfeitures before vesting.

The following table represents a summary of the status of the Company's non-vested time-based restricted stock and restricted stock units as of December 31, 2015, and changes which occurred during the nine months ended September 30, 2016:

	Shares (000's)	Weighted Average Grant-Date Fair Value
Non-vested shares and share units at December 31, 2015	5,242	\$ 17.91
Granted	1,415	20.57
Vested	(1,802)	14.48
Forfeited	(75)	20.78
Non-vested shares and share units at September 30, 2016	4,780	\$ 19.95

As of September 30, 2016, there was approximately \$31 million of unrecognized compensation cost related to non-vested time-based restricted stock and restricted stock units compensation arrangements granted under the Plan. The cost is expected to be recognized over a weighted-average period of 1.9 years. Compensation cost related to time-based restricted stock and restricted stock units was approximately \$8 million and \$9 million for the three months ended September 30, 2016 and 2015, respectively, and approximately \$23 million for the nine months ended September 30, 2016 and 2015, respectively.

17. Reportable Segments

Our reportable segments are as follows:

- Display Technologies – manufactures glass substrates primarily for flat panel liquid crystal displays.
- Optical Communications – manufactures carrier and enterprise network components for the telecommunications industry.
- Environmental Technologies – manufactures ceramic substrates and filters for automotive and diesel emission control applications.
- Specialty Materials – manufactures products that provide more than 150 material formulations for glass, glass ceramics and fluoride crystals to meet demand for unique customer needs.
- Life Sciences – manufactures glass and plastic labware, equipment, media and reagents enabling workflow solutions for scientific applications.

All other segments that do not meet the quantitative threshold for separate reporting have been grouped as “All Other.” This group is primarily comprised of the results of Corning’s Pharmaceutical Technologies business, which consists of a pharmaceutical glass business and a glass tubing business used in the pharmaceutical packaging industry. This segment also includes Corning Precision Materials’ non-LCD business and new product lines and development projects, as well as certain corporate investments such as Eurokera and Keraglass equity affiliates.

We prepared the financial results for our reportable segments on a basis that is consistent with the manner in which we internally disaggregate financial information to assist in making internal operating decisions. We included the earnings of equity affiliates that are closely associated with our reportable segments in the respective segment’s net income. We have allocated certain common expenses among reportable segments differently than we would for stand-alone financial information. Segment net income may not be consistent with measures used by other companies. The accounting policies of our reportable segments are the same as those applied in the consolidated financial statements.

(1) Depreciation expense for Corning's reportable segments includes an allocation of depreciation of corporate property not specifically identifiable to a segment.

(2) Research, development and engineering expenses include direct project spending that is identifiable to a segment.

(3) Many of Corning's administrative and staff functions are performed on a centralized basis. Where practicable, Corning charges these expenses to segments based upon the extent to which each business uses a centralized function. Other staff functions, such as corporate finance, human resources and legal, are allocated to segments, primarily as a percentage of sales. Expenses that are not allocated to the segments are included in the reconciliation of reportable net segment net income to consolidated net income below.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

ORGANIZATION OF INFORMATION

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") provides a historical and prospective narrative on the Company's financial condition and results of operations. This interim MD&A should be read in conjunction with the MD&A in our 2015 Form 10-K. The various sections of this MD&A contain a number of forward-looking statements that involve a number of risks and uncertainties. Words such as "anticipates," "expects," "intends," "plans," "goals," "believes," "seeks," "estimates," "continues," "may," "will," "should," and such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, our anticipated growth and trends in our businesses, uncertain events or assumptions, and other characterizations of future events or circumstances are forward-looking statements. Such statements are based on our current expectations and could be affected by the uncertainties and risk factors described throughout this filing and particularly in "Risk Factors" in Part I, Item 1A of our 2015 Form 10-K, and as may be updated in our Forms 10-Q. Our actual results may differ materially, and these forward-looking statements do not reflect the potential impact of any divestitures, mergers, acquisitions, or other business combinations that had not been completed as of September 30, 2016.

Our MD&A includes the following sections:

- Overview
- Results of Operations
- Core Performance Measures
 - Reportable Segments
- Capital Resources and Liquidity
- Critical Accounting Estimates
 - New Accounting Standards
 - Environment
- Forward-Looking Statements

OVERVIEW

Strategy and Capital Allocation Framework

In October 2015, Corning announced a new strategy and capital allocation framework that reflects the Company's financial and operational strengths, as well as its ongoing commitment to increasing shareholder value.

Our probability of success increases as we invest in our world-class capabilities. Over the next four years, Corning will concentrate approximately 80% of its research, development and engineering investment and capital spending on a cohesive set of three core technologies, four manufacturing and engineering platforms, and five market-access platforms. This strategy will allow us to quickly apply our talents and repurpose our assets as needed.

Our financial strength also allows us to increase our return to shareholders. Through 2019, we expect to generate and deploy over \$26 billion and return greater than \$12.5 billion to shareholders through share repurchases and dividends. We intend to increase our dividend per common share by at least 10% annually through 2019.

Investing in our Future

Corning is one of the world's leading innovators in materials science. For more than 160 years, Corning has applied its unparalleled expertise in specialty glass, ceramics, and optical physics to develop products that have created new industries and transformed people's lives. In the third quarter and first three quarters of 2016, our spending on research, development and engineering was \$187 million and \$569 million, respectively, consistent with the same periods in 2015. We continue to maintain our innovation strategy focusing on growing our existing businesses, developing opportunities adjacent or closely related to our existing technical and manufacturing capabilities, and investing in long-range opportunities in each of our market segments. We continue to make investments aimed at developing new products, including glass substrates for high-performance displays and LCD applications, precision glass for advanced displays, emission control products for cars, trucks and off-road vehicles, products that accelerate drug discovery and manufacturing and the optical fiber, cable and hardware and equipment that enable fiber-to-the-premises, and next generation data centers. In addition, we are focusing on wireless solutions for diverse venue applications, such as distributed antenna systems. We have also focused our research, development and engineering spending to support the advancement of new product attributes for our Corning® Gorilla® Glass suite of products, including Gorilla Glass in automotive and architectural markets. We will continue to focus on adjacent glass opportunities which leverage existing materials or manufacturing processes, including Corning® Willow™ Glass, our ultra-slim flexible glass substrate for use in next-generation consumer electronic and architectural applications.

Summary of results for the three and nine months ending September 30, 2016

Net sales in the third quarter and first three quarters of 2016 were \$2.5 billion and \$6.9 billion, respectively, compared to \$2.3 billion and \$6.9 billion in the same periods in 2015. Net sales increased in all of our segments in the third quarter of 2016, led by the Display Technologies and Optical Communications segments, up \$145 million and \$48 million, respectively. The increase in sales in the first three quarters of 2016 was driven by the Display Technologies segment and the Corning Pharmaceutical Technologies business, which increased by \$54 million and \$80 million, respectively. Lower sales in the Optical Communications segment due to production issues related to the implementation of new manufacturing software, which limited our ability to fulfill customer orders in the first half of 2016, partially offset the increase in these segments.

In the third quarter of 2016, we generated net income of \$284 million or \$0.26 per share, compared to net income of \$212 million or \$0.15 per share for the same period in 2015. The increase in net income was driven by the following items (amounts presented after-tax):

- The decrease in unrealized losses from our foreign currency hedges related to translated earnings in the amount of \$50 million;
- An increase in net income of \$24 million in the Display Technologies, driven by an increase in volume in the low-teens in percentage terms, the positive impact of the change in the contingent consideration fair value adjustment in the amount of \$51 million and improvements in manufacturing efficiency, offset somewhat by LCD glass price declines slightly above 10%; and
- An increase in net income of \$8 million in the Optical Communications segment, driven by an increase in fiber-to-the-home products volume, favorable product mix and improvements in manufacturing efficiency.

Partially offsetting these events were the following items:

- A decrease of \$20 million in equity earnings as a result of our strategic realignment of our ownership interest in Dow Corning; and
- Pension mark-to-market adjustments of \$17 million resulting from small settlements in several of our benefit plans.

The translation impact of fluctuations in foreign currency exchange rates positively affected Corning's consolidated net income in the three months ended September 30, 2016 in the amount of \$83 million when compared to the same period in 2015, largely due to the strengthening of the Japanese yen. This impact was offset by a decrease of \$105 million in the realized gain from our foreign currency translation hedges.

In the first three quarters of 2016, we generated net income of \$2,123 million or \$1.81 per share, compared to net income of \$1,115 million or \$0.82 per share for the same period in 2015. The increase in net income in the first nine months of 2016 was driven by the following items (amounts presented after tax):

- A \$2.7 billion non-taxable gain and \$105 million positive tax adjustment on the strategic realignment of our ownership interest in Dow Corning completed on May 31, 2016; and
- The gain of \$25 million on the contribution of our equity interests in PCC and PCE as partial settlement of the asbestos litigation.

Partially offsetting these events were the following items:

- The increase in unrealized losses from our foreign currency translation hedges in the amount of \$1,257 million;
- Lower net income in the Display Technologies segment, down \$160 million, or 19%, primarily driven by LCD glass price declines slightly higher than 10% and a decrease of \$220 million in net realized gains from our yen and won-denominated currency hedge contracts, offset somewhat by an increase in volume and the positive impact on operations from the strengthening of the Japanese yen versus the U.S. dollar exchange rate;
- A decrease in net income of \$32 million, or 16%, in the Optical Communications segment, driven by lower sales primarily due to production issues related to the implementation of new manufacturing software, which limited our ability to fulfill customer orders in the first half of 2016; and
- The resolution of an investigation by the U.S. Department of Justice and related costs in the total amount of \$86 million.

The translation impact of fluctuations in foreign currency exchange rates positively affected Corning's consolidated net income in the nine months ended September 30, 2016 in the amount of \$171 million when compared to the same period in 2015, largely due to the strengthening of the Japanese yen versus the U.S. dollar. This impact was offset by a decrease of \$215 million in the realized gain from our foreign currency translation hedges.

2016 Corporate Outlook

Corning expects its Display Technologies segment to experience continued moderate sequential LCD glass price declines in the fourth quarter. For the full year we expect the LCD glass market and our LCD glass demand to grow in the mid-single digit percentage year over year. We anticipate that sales in the Optical Communications segment will grow by a high-single digit percentage in the fourth quarter driven by strong fiber-to-the-home demand, resulting in low-single digits growth for the full-year. In the Environmental Technologies segment, we expect fourth quarter sales to be down low-single digits versus the fourth quarter last year driven by continued weakness in the heavy-duty truck markets, resulting in sales being down slightly for the full year. In the Specialty Materials segment we expect high-single digit growth year-over-year in the fourth quarter, resulting in sales being down slightly for the full year. We will continue to execute our strategy and capital allocation framework begun in the fourth quarter of 2015, under which we plan to grow and sustain our leadership position in our markets and return more than \$12.5 billion to shareholders through 2019.

RESULTS OF OPERATIONS

Selected highlights for the third quarter follow (dollars in millions):

	Three months ended September 30,		% change 16 vs. 15	Nine months ended September 30,		% change 16 vs. 15

Net Sales

The following table presents net sales by reportable segment (in millions):

	Three months ended			Nine months ended		
	September 30,		%	September 30,		%
	2016	2015	Change 16 vs. 15	2016	2015	Change 16 vs. 15
Display Technologies	\$ 902	\$ 757	19%	\$ 2,408	\$ 2,354	2%
Optical Communications	795	747	6%	2,186	2,244	(3)%
Environmental Technologies	264	257	3%	787	799	(2)%
Specialty Materials	295	288	2%	788	832	(5)%
Life Sciences	214	211	1%	633	619	2%
All Other	37	12	208%	112	32	250%
Total net sales	\$ 2,507	\$ 2,272	10%	\$ 6,914	\$ 6,880	-

For the three months ended September 30, 2016, net sales increased by \$235 million, or 10%, when compared to the same period in 2015. The primary sales drivers by segment were as follows:

- An increase of \$145 million in the Display Technologies segment, driven by the positive impact from the strengthening of the Japanese yen in the amount of \$138 million and an increase in volume in the low-teens in percentage terms, partially offset by LCD glass price declines slightly higher than 10%;
- An increase of \$48 million in the Optical Communications segment primarily due to higher sales of fiber-to-the-home products in North America;
- An increase of \$7 million in the Environmental Technologies segment, driven by record quarterly sales of light-duty substrate products due to market strength in North America, Europe and China;
 - An increase of \$7 million in the Specialty Materials segment;
 - An increase of \$3 million in the Life Sciences segment; and
- An increase of \$25 million in the All Other segment, driven by the acquisition of a glass tubing business and the formation of the Corning Pharmaceutical Technologies business completed in the fourth quarter of 2015.

For the nine months ended September 30, 2016, net sales increased by \$34 million when compared to the same period in 2015. The primary sales drivers by segment were as follows:

- An increase of \$54 million in the Display Technologies segment, driven by the positive impact from the strengthening of the Japanese yen in the amount of \$274 million and a low-single digit percentage volume increase, offset somewhat by LCD glass price declines slightly higher than 10%;
- A decrease of \$58 million in the Optical Communications segment, driven primarily by production issues related to the implementation of new manufacturing software;
- A decrease of \$12 million in the Environmental Technologies segment driven by lower sales of heavy-duty diesel products due to the weakening of the North American truck market, offset partially by an increase in sales of light-duty substrates, driven by strength in the North American and European markets;
- A decrease of \$44 million in the Specialty Materials segment, driven by a decline in volume of Corning Gorilla Glass products;
- An increase of \$14 million in the Life Sciences segment, driven by volume growth in Europe, North America and China; and
- An increase of \$80 million in the All Other segment, driven by the acquisition of a glass tubing business and the formation of the Corning Pharmaceutical Technologies business completed in the fourth quarter of 2015.

In the three and nine months ended September 30, 2016, the translation impact of fluctuations in foreign currency exchange rates, primarily the Japanese yen, positively impacted Corning's consolidated net sales by \$133 million and

\$246 million, respectively, when compared to the same periods in 2015.

© 2016 Corning Incorporated. All Rights Reserved.

Cost of Sales

The types of expenses included in the cost of sales line item are: raw materials consumption, including direct and indirect materials; salaries, wages and benefits; depreciation and amortization; production utilities; production-related purchasing; warehousing (including receiving and inspection); repairs and maintenance; inter-location inventory transfer costs; production and warehousing facility property insurance; rent for production facilities; and other production overhead.

Gross Margin

In the three months ended September 30, 2016, gross margin dollars and gross margin as a percentage of net sales increased when compared to the same period last year, up \$149 million and 3%, respectively, driven by higher sales, cost reductions and improvements in manufacturing efficiency in the majority of our segments. The Optical Communications segment experienced the largest increase, driven by an increase in volume and favorable product mix.

In the nine months ended September 30, 2016, gross margin dollars and gross margin as a percentage of net sales decreased when compared to the same period last year, down \$40 million and 1%, respectively. The decrease was primarily driven by LCD glass price declines in the Display Technologies segment and the impact of a power outage that temporarily halted production at our Tainan, Taiwan manufacturing location in the first half of 2016, resulting in asset write-offs and charges for facility repairs. Additionally, in the first half of 2016, gross margin was negatively impacted by issues with a manufacturing software implementation in the Optical Communications segment which limited our ability to fulfill customer orders. Lower manufacturing costs in the Specialty Materials segment and the stronger Japanese yen and Korean won versus the U.S. dollar exchange rate partially offset the decline in these periods.

Selling, General and Administrative Expenses

When compared to the third quarter of 2015, selling, general and administrative expenses decreased by \$5 million in the three months ended September 30, 2016, driven by the positive impact of the change in the contingent consideration fair value adjustment of \$61 million, offset somewhat by an increase of \$26 million in the mark-to-market of our defined benefit pension plans resulting from small settlements in several of our benefit plans and \$25 million in higher variable compensation and benefit expenses.

When compared to the first three quarters of 2015, selling, general and administrative expenses increased by \$144 million in the nine months ended September 30, 2016, driven by the following items:

- An increase of \$58 million in acquisition-related costs primarily related to the realignment of our equity interest in Dow Corning and an acquisition completed in the second quarter of 2016;
- An increase of \$60 million in litigation, regulatory and other legal costs related to the resolution of an investigation by the U.S. Department of Justice and an environmental matter, partially offset by the gain on the contribution of our equity interests in PCC and PCE as partial settlement of the asbestos litigation;
 - An increase of \$52 million in the mark-to-market of our defined benefit pension plans; and
- Higher operating expenses in the Optical Communications, Environmental Technologies and Specialty Materials segments.

The positive impact of the change in the contingent consideration fair value adjustment of \$40 million and a decrease of \$25 million in post-combination expenses, which were higher in 2015 due to the completion of four acquisitions, partially offset the increases detailed above.

The types of expenses included in the selling, general and administrative expenses line item are: salaries, wages and benefits; stock-based compensation expense; travel; sales commissions; professional fees; and depreciation and amortization, utilities and rent for administrative facilities.

© 2016 Corning Incorporated. All Rights Reserved.

Research, Development and Engineering Expenses

For the three and nine months ended September 30, 2016, research, development and engineering expenses and as a percentage of sales were relatively consistent with the same periods last year.

Equity in Earnings of Affiliated Companies

The following provides a summary of equity in earnings of affiliated companies (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Dow Corning Corporation (1)		\$ 36	\$ 82	\$ 185
Hemlock Semiconductor Group (2)	\$ 22		44	
All other	(3)	3	(7)	10
Total equity earnings	\$ 19	\$ 39	\$ 119	\$ 195

(1) Results include equity earnings for Dow Corning, which includes the silicones business and Hemlock Semiconductor business, through May 31, 2016, the date of the realignment of our ownership interest in Dow Corning.

(2) Results include equity earnings for Hemlock Semiconductor Group beginning on June 1, 2016.

On May 31, 2016, Corning completed the strategic realignment of its equity investment in Dow Corning Corporation (“Dow Corning”) pursuant to the Transaction Agreement announced on December 10, 2015. Under the terms of the Transaction Agreement, Corning exchanged with Dow Corning its 50% stock interest in Dow Corning for 100% of the stock of a newly formed entity, which holds an equity interest in Hemlock Semiconductor Group and approximately \$4.8 billion in cash.

The equity in earnings line on our income statement for the nine months ending September 30, 2016 reflects both the equity earnings from the silicones and polysilicones (Hemlock Semiconductor) businesses of Dow Corning from January 1, 2016 through May 31, 2016, the closing date of the Transaction Agreement, and four months of equity earnings from Hemlock Semiconductor Group. Prior to the realignment of Dow Corning, equity earnings from the Hemlock Semiconductor business were reported on the equity in earnings line in Corning’s income statement, net of Dow Corning’s 35% U.S. tax. Additionally, Corning reported its tax on equity earnings from Dow Corning on the tax provision line on its income statement at a U.S. tax provision rate of 7%. As part of the realignment, Hemlock Semiconductor Group was converted to a partnership. Each of the partners is responsible for the taxes on their portion of equity earnings. Therefore, post-realignment, Hemlock Semiconductor Group’s equity earnings is reported before tax on the equity in earnings line and Corning’s tax is reported on the tax provision line.

Refer to Note 9 (Investments) to the consolidated financial statements for additional information.

Translated earnings contract (loss) gain, net

Included in the line item Translated earnings contract (loss) gain, net, is the impact of foreign currency hedges which hedge our translation exposure arising from movements in the Japanese yen, South Korean won and euro against the U.S. dollar and its impact on our net earnings. The following table provides detailed information on the impact of our translated earnings contract losses and gains:

(in millions)	Three months ended September 30, 2016		Three months ended September 30, 2015		Change 2016 vs. 2015	
	Income before income taxes	Net income	Income before income taxes	Net income	Income before income taxes	Net income
Hedges related to translated earnings:						
Realized gains (losses), net	\$ 2	\$ 1	\$ 168	\$ 106	\$ (166)	\$ (105)
Unrealized (losses) gains, net	(239)	(150)	(317)	(200)	78	50
Total translated earnings contract loss, net	\$ (237)	\$ (149)	\$ (149)	\$ (94)	\$ (88)	\$ (55)

(in millions)	Nine months ended September 30, 2016		Nine months ended September 30, 2015		Change 2016 vs. 2015	
	Income before income taxes	Net income	Income before income taxes	Net income	Income before income taxes	Net income
Hedges related to translated earnings:						
Realized gains (losses), net	\$ 146	\$ 92	\$ 489	\$ 307	\$ (343)	\$ (215)
Unrealized losses, net	(2,441)	(1,539)	(447)	(282)	(1,994)	(1,257)
Total translated earnings contract (loss) gain, net	\$ (2,295)	\$ (1,447)	\$ 42	\$ 25	\$ (2,337)	\$ (1,472)

The gross notional amount outstanding for our foreign currency hedges related to translated earnings is \$17.6 billion, and is comprised of the following: 1) Japanese yen-denominated hedges - \$16 billion; 2) South Korean won-denominated hedges - \$1.3 billion; and 3) euro-denominated hedges - \$0.3 billion.

Income Before Income Taxes

The impact of fluctuations in foreign exchange rates positively impacted Corning's consolidated income before income taxes in the three and nine months ended September 30, 2016 when compared to the same periods in 2015 in the amounts of \$98 million and \$215 million, respectively.

Benefit (Provision) for Income Taxes

Our benefit (provision) for income taxes and the related effective income tax rates were as follows (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Benefit (provision) for income taxes	\$ 27	\$ (6)	\$ 835	\$ (202)
Effective tax rate	(10.5%)	2.8%	(64.8%)	15.3%

© 2016 Corning Incorporated. All Rights Reserved.

For the three months ended September 30, 2016, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of foreign earnings in U.S. income.

For the nine months ended September 30, 2016, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of foreign earnings in U.S. income;
 - The impact of equity in earnings of nonconsolidated affiliates reported in the financials, net of tax; and
- The tax-free nature of the realignment of our equity interest in Dow Corning during the period, as well as the release of the deferred tax liability related to Corning's tax on Dow Corning's undistributed earnings as of the date of the transaction.

For the three and nine months ended September 30, 2015, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following benefits:

- Rate differences on income (loss) of consolidated foreign companies, including the benefit of excess foreign tax credits resulting from the inclusion of high-taxed foreign earnings in U.S. income; and
 - The impact of equity in earnings of nonconsolidated affiliates reported in the financials, net of tax.

Refer to Note 5 (Income Taxes) to the consolidated financial statements for additional information.

Net Income Attributable to Corning Incorporated

As a result of the above, our net income and per share data is as follows (in millions, except per share amounts):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Net income attributable to Corning Incorporated	\$ 284	\$ 212	\$ 2,123	\$ 1,115
Net income attributable to Corning Incorporated used in basic earnings per common share calculation (1)	\$ 260	\$ 188	\$ 2,050	\$ 1,042
Net income attributable to Corning Incorporated used in diluted earnings per common share calculation (1)	\$ 284	\$ 188	\$ 2,123	\$ 1,115
Basic earnings per common share	\$ 0.27	\$ 0.16	\$ 1.96	\$ 0.84
Diluted earnings per common share	\$ 0.26	\$ 0.15	\$ 1.81	\$ 0.82
Weighted-average common shares outstanding - basic	978	1,210	1,046	1,241
Weighted-average common shares outstanding - diluted	1,102	1,218	1,170	1,366

(1) Refer to Note 6 (Earnings per Common Share) to the consolidated financial statements for additional information.

Comprehensive Income

For the three and nine months ended September 30, 2016, comprehensive income increased by \$535 million and \$2,600 million, respectively, when compared to the same periods in 2015, driven by the following items:

- An increase in net income attributable to Corning Incorporated of \$72 million and \$1,008 million, respectively;
- The positive impact due to the change in foreign currency translation gains and losses of \$426 million and \$1,346 million, respectively, largely driven by the strengthening of the Japanese yen; and
- The change in the amount of unamortized actuarial losses released in the amounts of \$11 million and \$248 million, respectively. The significant change in the first three quarters of 2016 was driven by the release of Dow Corning's unamortized actuarial loss in the amount of \$260 million, which was included in the gain on the realignment of our ownership interests in Dow Corning.

Refer to Note 15 (Shareholders' Equity) to the consolidated financial statements for additional information.

CORE PERFORMANCE MEASURES

In managing the Company and assessing our financial performance, we supplement certain measures provided by our consolidated financial statements with measures adjusted to exclude certain items, to arrive at core performance measures. We believe reporting core performance measures provides investors greater transparency to the information used by our management team to make financial and operational decisions. Corning has adopted the use of constant currency reporting for the Japanese yen and South Korean won, and uses an internally derived yen-to-dollar management rate of ¥99 and won-to-dollar management rate of 1,100.

Net sales, equity in earnings of affiliated companies and net income are adjusted to exclude the impacts of changes in the Japanese yen and the South Korean won, gains and losses on our foreign currency hedges related to translated earnings, acquisition-related costs, discrete tax items, restructuring and restructuring-related charges, certain litigation-related expenses, pension mark-to-market adjustments and other items which do not reflect on-going operating results of the Company or our equity affiliates. Management's discussion and analysis on our reportable segments has also been adjusted for these items, as appropriate. These measures are not prepared in accordance with Generally Accepted Accounting Principles in the United States ("GAAP"). We believe investors should consider these non-GAAP measures in evaluating our results as they are more indicative of our core operating performance and how management evaluates our operational results and trends. These measures are not, and should not be viewed as a substitute for GAAP reporting measures. With respect to the Company's outlooks for future periods, it is not able to provide reconciliations for these non-GAAP measures because the Company does not forecast the movement of the Japanese yen and South Korean won against the U.S. dollar, or other items that do not reflect ongoing operations, nor does it forecast items that have not yet occurred or are out of the Company's control. As a result, the Company is unable to provide outlook information on a GAAP basis.

See "Use of Non-GAAP Financial Measures" for details on core performance measures. For a reconciliation of non-GAAP performance measures to their most directly comparable GAAP financial measure, please see "Reconciliation of Non-GAAP Measures" below.

RESULTS OF OPERATIONS – CORE PERFORMANCE MEASURES

Selected highlights from our continuing operations, excluding certain items, follow (in millions):

	Three months ended			Nine months ended		
	September 30,		%	September 30,		%
	2016	2015	change	2016	2015	change
Core net sales	\$ 2,548	\$ 2,451	4%	\$ 7,159	\$ 7,398	(3)%
	\$ 19	\$ 58	(67)%	\$ 138	\$ 182	(24)%

Core equity in earnings of
affiliated companies

Core earnings	\$ 466	\$ 447	4%	\$ 1,240	\$ 1,453	(15)%
---------------	--------	--------	----	----------	----------	-------

Core Net Sales

The following table presents core net sales by reportable segment (in millions):

	Three months ended			Nine months ended		
	September 30,		%	September 30,		%
	2016	2015	16 vs. 15	2016	2015	16 vs. 15
Display Technologies	\$ 943	\$ 936	1%	\$ 2,652	\$ 2,871	(8)%
Optical Communications	795	747	6%	2,186	2,244	(3)%
Environmental						
Technologies	264	257	3%	787	799	(2)%
Specialty Materials	295	288	2%	788	832	(5)%
Life Sciences	214	211	1%	633	619	2%
All Other	37	12	208%	113	33	242%
Total core net sales	\$ 2,548	\$ 2,451	4%	\$ 7,159	\$ 7,398	(3)%

Core net sales increased by \$97 million and decreased by \$239 million in the three and nine months ended September 30, 2016, respectively, when compared to the same periods in 2015. In all segments except Display Technologies, core net sales are consistent with GAAP net sales. Because a significant portion of revenues in the Display Technologies segment are denominated in Japanese yen, this segment's net sales are adjusted to remove the impact of translating yen into dollars.

When compared to the third quarter of 2015, core net sales in the Display Technologies segment increased by \$7 million, or 1%, in the third quarter of 2016, driven by an increase in volume in the low-teens in percentage terms, offset somewhat by LCD glass price declines slightly higher than 10%.

When compared to the first three quarters of 2015, core net sales in the Display Technologies segment decreased by \$219 million, or 8%, in the first three quarters of 2016, driven by LCD glass price declines slightly higher than 10%.

Core Equity in Earnings of Affiliated Companies

The following provides a summary of core equity in earnings of affiliated companies (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Dow Corning Corporation (1)		\$ 53	\$ 98	\$ 167
Hemlock Semiconductor Group (2)	\$ 22		44	
All other	(3)	5	(4)	15
Total core equity earnings	\$ 19	\$ 58	\$ 138	\$ 182

(1) Results include equity earnings for Dow Corning, which includes the silicones business and Hemlock Semiconductor business, through May 31, 2016, the date of the realignment of our ownership interest in Dow Corning.

(2) Results include equity earnings for Hemlock Semiconductor Group beginning on June 1, 2016.

Core Earnings

In the three and nine months ended September 30, 2016, we generated core earnings of \$466 million or \$0.42 per share and \$1,240 million, or \$1.06 per share, respectively, compared to \$447 million or \$0.34 per share and \$1,453 million or \$1.06 per share, respectively, in the same periods in 2015. The increase of \$19 million in the third quarter of 2016 was primarily due to an increase in core earnings of \$27 million in the Optical Communications segment,

driven by an increase in fiber-to-the-home products volume, favorable product mix and improvements in manufacturing efficiency. Display Technologies core earnings also increased, up \$13 million, driven by an increase in volume in the low-teens in percentage terms and improvements in manufacturing efficiency, offset somewhat by the LCD glass price declines slightly above 10%. The decrease of \$213 million in the nine months ended September 30, 2016 was driven by lower core earnings in the Display Technologies segment, down \$111 million, driven by LCD glass price declines slightly higher than 10%.

© 2016 Corning Incorporated. All Rights Reserved.

Included in core earnings for the three and nine months ended September 30, 2016 is net periodic pension expense in the amounts of \$13 million and \$38 million, respectively, and for the same periods in 2015, \$16 million and \$48 million, respectively. Refer to Note 11 (Employee Retirement Plans) to the Consolidated Financial Statements for additional information.

Core Earnings per Common Share

The following table sets forth the computation of core basic and core diluted earnings per common share (in millions, except per share amounts):

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Core earnings attributable to Corning Incorporated	\$ 466	\$ 447	\$ 1,240	\$ 1,453
Less: Series A convertible preferred stock dividend	24	24	73	73
Core earnings available to common stockholders - basic	442	423	1,167	1,380
Add: Series A convertible preferred stock dividend	24	24	73	73
Core earnings available to common stockholders - diluted	\$ 466	\$ 447	\$ 1,240	\$ 1,453
Weighted-average common shares outstanding - basic	978	1,210	1,046	1,241
Effect of dilutive securities:				
Stock options and other dilutive securities	9	8	9	10
Series A convertible preferred stock	115	115	115	115
Weighted-average common shares outstanding - diluted	1,102	1,333	1,170	1,366
Core basic earnings per common share	\$ 0.45	\$ 0.35	\$ 1.12	\$ 1.11
Core diluted earnings per common share	\$ 0.42	\$ 0.34	\$ 1.06	\$ 1.06

Reconciliation of Non-GAAP Measures

We utilize certain financial measures and key performance indicators that are not calculated in accordance with GAAP to assess our financial and operating performance. A non-GAAP financial measure is defined as a numerical measure of a company's financial performance that (i) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the comparable measure calculated and presented in accordance with GAAP in the statement of income or statement of cash flows, or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the comparable measure as calculated and presented in accordance with GAAP in the statement of income or statement of cash flows.

Core net sales, core equity in earnings of affiliated companies and core earnings are non-GAAP financial measures utilized by our management to analyze financial performance without the impact of items that are driven by general economic conditions and events that do not reflect the underlying fundamentals and trends in the Company's operations.

© 2016 Corning Incorporated. All Rights Reserved.

The following tables reconcile our non-GAAP financial measures to their most directly comparable GAAP financial measure (amounts in millions except percentages and per share amounts):

Three months ended September 30, 2016

	Net sales	Equity earnings	Income before taxes	Net income	Effective tax rate	Per share

© 2016 Corning Incorporated. All Rights Reserved.

Items which we exclude from GAAP measures to arrive at core performance measures are as follows:

- (1) Constant-currency adjustments:
Constant-yen: Because a significant portion of Display Technologies segment revenues and manufacturing costs are denominated in Japanese yen, management believes it is important to understand the impact on core earnings of translating yen into dollars. Presenting results on a constant-yen basis mitigates the translation impact of the Japanese yen, and allows management to evaluate performance period over period, analyze underlying trends in our businesses, and establish operational goals and forecasts. As of January 1, 2015, we used an internally derived management rate of ¥99, which is closely aligned to our current yen portfolio of foreign currency hedges, and have recast all periods presented based on this rate in order to effectively remove the impact of changes in the Japanese yen.
Constant-won: Because a significant portion of Corning Precision Materials' costs are denominated in South Korean won, management believes it is important to understand the impact on core earnings from translating won into dollars. Presenting results on a constant-won basis mitigates the translation impact of the South Korean won, and allows management to evaluate performance period over period, analyze underlying trends in our businesses, and establish operational goals and forecasts without the variability caused by the fluctuations caused by changes in the rate of this currency. We use an internally derived management rate of 1,100, which is consistent with historical prior period averages of the won.
- (2) Foreign currency hedges related to translated earnings: We have excluded the impact of the gains and losses of our foreign currency hedges related to translated earnings for each period presented.
- (3) Acquisition-related costs: These expenses include intangible amortization, inventory valuation adjustments and external acquisition-related deal costs.
- (4) Discrete tax items and other tax-related adjustments: This represents the removal of discrete adjustments attributable to changes in tax law and other non-operational tax-related adjustments.
- (5) Litigation, regulatory and other legal matters: Includes amounts related to the Pittsburgh Corning Corporation (PCC) asbestos litigation, adjustments to our estimated liability for environmental-related items and other legal matters.
- (6) Restructuring, impairment and other charges: This amount includes restructuring, impairment and other charges, including goodwill impairment charges and other expenses and disposal costs not classified as restructuring expense.
- (7) Equity in earnings of affiliated companies: These adjustments relate to items which do not reflect expected on-going operating results of our affiliated companies, such as restructuring, impairment and other charges and settlements under "take-or-pay" contracts.
- (8) Impacts from the acquisition of Samsung Corning Precision Materials: Fair value adjustments to the indemnity asset related to contingent consideration and other items related to the acquisition of Samsung Corning Precision Materials.
- (9) Post-combination expenses: Post-combination expenses incurred as a result of an acquisition in the first quarter of 2015.
- (10) Pension mark-to-market adjustment: Mark-to-market pension gains and losses, which arise from changes in actuarial assumptions and the difference between actual and expected returns on plan assets and discount rates.
- (11) Gain on realignment of equity investment: Gain recorded upon the completion of the strategic realignment of our ownership interest in Dow Corning.
- (12) Taiwan power outage: Impact of the power outage that temporarily halted production at our Tainan, Taiwan manufacturing location in the first half of 2016. The impact includes asset write-offs and charges for facility repairs, offset somewhat by partial reimbursement through our

insurance program. We expect to receive the remainder of the insurance reimbursement in the fourth quarter of 2016.

REPORTABLE SEGMENTS

Our reportable segments are as follows:

- Display Technologies – manufactures glass substrates primarily for flat panel liquid crystal displays.
- Optical Communications – manufactures carrier and enterprise network components for the telecommunications industry.
- Environmental Technologies – manufactures ceramic substrates and filters for automotive and diesel emission control applications.
- Specialty Materials – manufactures products that provide more than 150 material formulations for glass, glass ceramics and fluoride crystals to meet demand for unique customer needs.
- Life Sciences – manufactures glass and plastic labware, equipment, media and reagents enabling workflow solutions for scientific applications.

All other segments that do not meet the quantitative threshold for separate reporting have been grouped as “All Other.” This group is primarily comprised of the results of Corning’s Pharmaceutical Technologies business, which consists of a pharmaceutical glass business and a glass tubing business used in the pharmaceutical packaging industry. This segment also includes Corning Precision Materials’ non-LCD business and new product lines and development projects, as well as certain corporate investments such as Eurokera and Keraglass equity affiliates.

We prepared the financial results for our reportable segments on a basis that is consistent with the manner in which we internally disaggregate financial information to assist in making internal operating decisions. We included the earnings of equity affiliates that are closely associated with our reportable segments in the respective segment’s net income. We have allocated certain common expenses among our reportable segments differently than we would for stand-alone financial information prepared in accordance with GAAP. Our reportable segments include non-GAAP measures which are not prepared in accordance with GAAP. We believe investors should consider these non-GAAP measures in evaluating our results as they are more indicative of our core operating performance and how management evaluates our operational results and trends. These measures are not, and should not be viewed as a substitute for GAAP reporting measures. For a reconciliation of non-GAAP performance measures to their most directly comparable GAAP financial measure, please see “Reconciliation of Non-GAAP Measures” above. Segment net income may not be consistent with measures used by other companies. The accounting policies of our reportable segments are the same as those applied in the consolidated financial statements.

Display Technologies

The following tables provide net sales and net income for the Display Technologies segment and reconcile the non-GAAP financial measures for the Display Technologies segment with our financial statements presented in accordance with GAAP (in millions):

(in millions)	Three months ended September 30, 2016		Nine months ended September 30, 2016

See Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Results of Operations – Core Performance Measures, Reconciliation of Non-GAAP Measures, “Items which we exclude from GAAP measures to arrive at core performance measures” for the descriptions of the footnoted reconciling items.

As Reported

Net sales in the Display Technologies segment increased by \$145 million, or 19%, in the third quarter of 2016 when compared to the third quarter of 2015. The increase was driven by the positive impact from the strengthening of the Japanese yen in the amount of \$138 million and an increase in volume in the low-teens in percentage terms, partially offset by LCD glass price declines slightly higher than 10%. Net income increased by \$24 million, or 9%, in the third quarter of 2016, when compared to the third quarter of 2015. The increase was driven by the positive impact of the strengthening of the yen in the amount of \$72 million, an increase in volume in the low-teens in percentage terms, the positive impact of the change in the contingent consideration fair value adjustment in the amount of \$51 million and improvements in manufacturing efficiency, offset somewhat by the LCD glass price declines described above and a decrease of \$104 million in the realized gain from our yen and won-denominated currency hedges.

Net sales in the Display Technologies segment increased by \$54 million, or 2%, in the first nine months of 2016 when compared to the same period in 2015, driven by the positive impact from the strengthening of the Japanese yen in the amount of \$274 million and a low-single digit percentage volume increase, offset somewhat by LCD glass price declines slightly higher than 10%. Net income decreased by \$160 million, or 19%, in the nine months ended September 30, 2016, when compared to the same period in 2015. The decrease was driven primarily by the LCD glass price declines described above and a decrease of \$220 million in the realized gain from our yen and won-denominated currency hedges, offset partially by the impact of the strengthening of the yen of \$140 million, an increase in volume in the low-single digit percentage, the positive impact of the change in the contingent consideration fair value adjustment in the amount of \$38 million, improvements in manufacturing efficiency and a decline in operating expenses.

Core Performance

Core net sales increased in the third quarter of 2016 by \$7 million, or 1%, when compared to the third quarter of 2015, driven by an increase in volume in the low-teens in percentage terms, partially offset by LCD glass price declines slightly higher than 10%. Core earnings also increased in the third quarter of 2016, up \$13 million, or 5%, driven by the increase in volume described above, improvements in manufacturing efficiency and a decline in operating expenses. LCD glass price declines slightly higher than 10% partially offset the increase.

Core net sales decreased by \$219 million, or 8%, in the first three quarters of 2016, when compared to the third quarter of 2015, driven by LCD glass price declines slightly higher than 10%, partially offset by a low-single digit

percentage volume increase. Core earnings also decreased in this period, down \$111 million, or 13%, driven by LCD glass price declines slightly higher than 10%, partially offset by a low-single digit percentage volume increase, improvements in manufacturing efficiency and a decline in operating expenses.

© 2016 Corning Incorporated. All Rights Reserved.

Outlook:

The company expects panel maker utilization to remain high and for LCD glass supply to remain tight in the fourth quarter. Sequentially, fourth-quarter volume is expected to be consistent to slightly down, in line with the glass market.

Optical Communications

The following tables provide net sales and net income for the Optical Communications segment and reconcile the non-GAAP financial measures for the Optical Communications segment with our financial statements presented in accordance with GAAP (in millions):

(in millions)	Three months ended September 30, 2016		Nine months ended September 30, 2016

Post-combination expenses (9)				16
Core performance	\$ 747	\$ 71	\$ 2,244	\$ 234

See Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Results of Operations – Core Performance Measures, Reconciliation of Non-GAAP Measures, "Items which we exclude from GAAP measures to arrive at core performance measures" for the descriptions of the footnoted reconciling items.

As Reported

Net sales in the Optical Communications segment increased by \$48 million, or 6%, in the third quarter of 2016 when compared to the same period in 2015. The increase was due to higher sales of fiber-to-the-home products in North America and the impact of an acquisition completed in the second quarter of 2016. Net income in the third quarter of 2016 increased by \$8 million, or 11%, when compared to the third quarter of 2015, driven by an increase in volume, favorable product mix and improvements in manufacturing efficiency, offset slightly by higher operating expenses driven by restructuring, impairment and other charges and pension mark-to-market costs. Movements in foreign exchange rates positively impacted segment net sales in the amount of \$2 million and net income in the amount of \$3 million in the third quarter of 2016 when compared to the same period in 2015.

Net sales and net income in the Optical Communications segment decreased by \$58 million, or 3%, and \$32 million, or 16%, respectively, in the nine months ended September 30, 2016, when compared to the same period in 2015. This decline was driven by production issues related to the implementation of new manufacturing software, which constrained our ability to manufacture product in the first half of 2016. Production returned to normal levels at the end of the second quarter, and the increase in volume in the third quarter partially offset the lower first half results. Movements in foreign exchange rates negatively impacted segment net sales in the amount of \$6 million and positively impacted net income in the amount of \$10 million, respectively, in the third quarter of 2016 when compared to the same period in 2015.

Core Performance

Core earnings increased in the third quarter of 2016 by \$27 million, or 38%, respectively, driven by an increase in volume, favorable product mix and improvements in manufacturing efficiency. Core earnings were lower in the first nine months of 2016, down \$24 million, or 10%, driven by the production issues described above, offset slightly by higher sales in the third quarter of 2016. Movements in foreign exchange rates positively impacted core earnings in the amounts of \$3 million and \$10 million, respectively, in the three and nine months ended September 30, 2016 when compared to the same periods in 2015.

Outlook:

In the fourth quarter, Corning expects Optical Communications sales to increase by a high-single digit percentage on a year-over-year basis driven by continued fiber-to-the-home strength.

Environmental Technologies

The following table provides net sales and net income for the Environmental Technologies segment and reconciles the non-GAAP financial measures for the Environmental Technologies segment with our financial statements presented in accordance with GAAP (in millions):

(in millions)	Three months ended September 30, 2016		Nine months ended September 30, 2016	
	Net sales	Net income	Net sales	Net income
As reported - GAAP	\$ 264	\$ 35	\$ 787	\$ 106
Restructuring, impairment and other charges (6)				3
Core performance measures	\$ 264	\$ 35	\$ 787	\$ 109

(in millions)	Three months ended September 30, 2015		Nine months ended September 30, 2015	
	Net sales	Net income	Net sales	Net income
As reported - GAAP	\$ 257	\$ 38	\$ 799	\$ 132
Core performance measures	\$ 257	\$ 38	\$ 799	\$ 132

See Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Results of Operations – Core Performance Measures, Reconciliation of Non-GAAP Measures, "Items which we exclude from GAAP measures to arrive at core performance measures" for the descriptions of the footnoted reconciling items.

As Reported

Net sales in the Environmental Technologies segment increased by \$7 million, or 3%, in the third quarter of 2016 when compared to the same period in 2015. Sales of light-duty substrate products were at record levels in the third

quarter, driven by market strength in North America, Europe and China. Lower sales of heavy-duty diesel products in North America and China partially offset this increase. Net income in the third quarter of 2016 decreased by \$3 million, or 8%, driven by increased expenses in support of new product launches. Movements in foreign exchange rates versus the U.S. dollar negatively impacted net sales and net income in this segment in the amounts of \$5 million and \$2 million, respectively, in the third quarter of 2016, when compared to the same period in 2015.

© 2016 Corning Incorporated. All Rights Reserved.

Net sales in the Environmental Technologies segment decreased by \$12 million, or 2%, in the first three quarters of 2016 when compared to the same period in 2015, driven by lower sales of diesel products due to the weakening of the North American truck market, offset partially by an increase in sales of light-duty substrates, driven by strength in the North American, European and Chinese markets. Net income decreased by \$26 million, or 20%, driven by lower sales of heavy-duty diesel products and increased expenses in support of new product launches. Movements in foreign exchange rates versus the U.S. dollar negatively impacted net sales and net income in this segment in the amounts of \$15 million and \$6 million, respectively, in the nine months ended September 30, 2016, when compared to the same period in 2015.

Core Performance

Core earnings decreased by \$3 million, or 8%, and \$23 million, or 17%, in the third quarter and first three quarters of 2016, driven by the items impacting our As Reported results described above.

Outlook:

In the fourth quarter, the Company anticipates Environmental Technologies sales to be down by a low-single digit percentage on a year-over-year basis driven by continued weakness in the heavy-duty truck markets.

Specialty Materials

The following tables provide net sales and net income for the Specialty Materials segment and reconciles the non-GAAP financial measures for the Specialty Materials segment with our financial statements presented in accordance with GAAP (in millions):

(in millions)	Three months ended September 30, 2016		Nine months ended September 30, 2016

Core performance	\$ 288	\$ 44	\$ 832	\$ 134

See Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Results of Operations – Core Performance Measures, Reconciliation of Non-GAAP Measures, "Items which we exclude from GAAP measures to arrive at core performance measures" for the descriptions of the footnoted reconciling items.

As Reported

Net sales in the Specialty Materials segment increased by \$7 million, or 2%, in the third quarter of 2016 when compared to the same period in 2015, driven by higher sales of advanced optics products and an increase in Corning Gorilla Glass volume. Net income in the third quarter of 2016 decreased by \$4 million, or 9%, impacted by ramp up costs associated with launch of new products, and customer mix. Movements in foreign exchange rates did not materially impact net sales and net income in the Specialty Materials segment in the three months ended September 30, 2016 when compared to the same period in 2015.

Net sales in the Specialty Materials segment decreased by \$44 million, or 5%, in the first three quarters of 2016 when compared to the same period in 2015, driven by a decrease in sales of Corning Gorilla Glass products. The mobile consumer electronics industry is experiencing lower smartphone and tablet demand in 2016, driven by worldwide macroeconomic conditions, fewer major product launches and longer repurchases cycles. Net income decreased by \$22 million, or 17%, driven by higher restructuring, impairment and other charges and the impact of a power outage that temporarily halted production at our Tainan, Taiwan manufacturing location. Movements in foreign exchange rates did not materially impact net sales and net income in the Specialty Materials segment in the nine months ended September 30, 2016 when compared to the same period in 2015.

Core Performance

Core earnings in the third quarter of 2016 was consistent with the same period in 2015. Core earnings declined by \$10 million, or 7%, in the nine months ended September 30, 2016, driven primarily by a decline in sales of Corning Gorilla Glass products and higher research and development costs.

Outlook:

Fourth-quarter segment sales are expected to increase by a high-single digit percentage year over year driven by volume growth in Corning Gorilla Glass.

Life Sciences

The following tables provide net sales and net income for the Life Sciences segment and reconcile the non-GAAP financial measures for the Life Sciences segment with our financial statements presented in accordance with GAAP (in millions):

(in millions)	Three months ended September 30, 2016		Nine months ended September 30, 2016	
	Net sales	Net income	Net sales	Net income
As reported – GAAP	\$ 214	\$ 16	\$ 633	\$ 45
Acquisition-related costs (3)		3		9
Restructuring, impairment and other charges (6)		2		6
Core performance	\$ 214	\$ 21	\$ 633	\$ 60

(in millions)	Three months ended September 30, 2015		Nine months ended September 30, 2015	
	Net sales	Net income	Net sales	Net income

Core performance	\$ 211	\$ 21	\$ 619	\$ 61

See Part 1, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Results of Operations – Core Performance Measures, Reconciliation of Non-GAAP Measures, “Items which we exclude from GAAP measures to arrive at core performance measures” for the descriptions of the footnoted reconciling items.

© 2016 Corning Incorporated. All Rights Reserved.

As Reported

Net sales in the Life Sciences segment increased by \$3 million, or 1%, in the third quarter of 2016 when compared to the same period in 2015, driven by volume growth in Europe, North America and China, slightly offset by the impact of movements in foreign exchange rates in the amount of \$2 million. Net income declined by \$2 million, or 11%, driven by the negative impact of movements in foreign exchange rates.

Net sales in the Life Sciences segment increased by \$14 million, or 2%, in the nine months ended September 30, 2016 when compared to the same period in 2015, driven by volume growth in Europe, North America and China, slightly offset by the impact of movements in foreign exchange rates in the amount of \$7 million. Net income declined by \$7 million, or 13%, driven by the negative impact of movements in foreign exchange rates.

Core Performance

Core earnings in the three and nine months ended September 30, 2016 were consistent with the prior year.

Outlook:

Fourth-quarter sales are expected to grow by a low single-digit percentage when compared to the fourth quarter of 2015.

All Other

All other segments that do not meet the quantitative threshold for separate reporting have been grouped as “All Other.” This group is primarily comprised of the results of Corning’s Pharmaceutical Technologies business, which consists of a pharmaceutical glass business and a glass tubing business used in the pharmaceutical packaging industry. This segment also includes Corning Precision Materials’ non-LCD business and new product lines and development projects, as well as certain corporate investments such as Eurokera and Keraglass equity affiliates.

The following table provides net sales and other data for All Other (in millions):

As Reported	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Net sales	\$ 37	\$ 12	\$ 112	\$ 32
Research, development and engineering expenses	\$ 47	\$ 34	\$ 139	\$ 123
Equity earnings of affiliated companies	\$ (3)	\$ 4	\$ (8)	\$ 12
Net loss	\$ (47)	\$ (38)	\$ (187)	\$ (131)

The increase in net sales of this segment in the three and nine months ended September 30, 2016 reflects the impact of an acquisition in the Corning Pharmaceutical Technologies business completed in the fourth quarter of 2015 and an increase in sales in our emerging businesses. The increase in the net loss of this segment was driven by asset write-offs in emerging businesses, offset slightly by the addition of the Corning Pharmaceutical Technologies business net income.

CAPITAL RESOURCES AND LIQUIDITY**Financing and Capital Resources**

The following items impacted Corning’s financing and capital structure in the nine months ended September 30, 2016 and 2015:

2016

On July 20, 2016, Corning's Board of Directors approved a \$1 billion increase to our commercial paper program, raising it to \$2 billion. If needed, this program is supported by our \$2 billion revolving credit facility that expires in 2019.

© 2016 Corning Incorporated. All Rights Reserved.

2015

In the second quarter of 2015, we issued \$375 million of 1.50% senior unsecured notes that mature on May 8, 2018 and \$375 million of 2.90% senior unsecured notes that mature on May 15, 2022. The net proceeds of \$745 million will be used for general corporate purposes. We can redeem these debentures at any time, subject to certain stipulations.

Common Stock Dividends

On February 3, 2016, Corning's Board of Directors declared a 12.5% increase in the Company's quarterly common stock dividend, which increased the quarterly dividend from \$0.12 to \$0.135 per share of common stock, beginning with the dividend paid in the first quarter of 2016.

Share Repurchase Program

On July 28, 2016, Corning entered into an accelerated share repurchase transaction ("ASR") with Morgan Stanley & Co. LLC ("Morgan Stanley") to repurchase \$2 billion of Corning's common stock in two tranches of \$1.5 billion and \$500 million, respectively, each with its own scheduled termination date. The ASR was executed under the \$4 billion share repurchase program authorized on October 26, 2015 (the "2015 Repurchase Program"). Under the ASR, Corning made a \$2 billion aggregate payment to Morgan Stanley on July 28, 2016 and received an initial aggregate delivery of 74.4 million shares of Corning common stock from Morgan Stanley on the same day. Each tranche is subject to acceleration at Morgan Stanley's option during an acceleration period prior to its scheduled termination date. The total number of shares Corning will repurchase under each tranche of the ASR will be based generally upon the average daily volume weighted average price of Corning's common stock during the repurchase period for such tranche, less a discount and subject to adjustments pursuant to the terms and conditions of the ASR. Depending on the circumstances at settlement of each tranche, Morgan Stanley may be required to deliver additional shares of common stock to Corning or Corning may be required either to deliver shares of common stock or to make a cash payment to Morgan Stanley. Final settlement of both tranches of the ASR is scheduled to occur in the fourth quarter of 2016.

In addition to the ASR, during the three and nine months ended September 30, 2016, the Company repurchased 15.3 million and 96 million shares of common stock on the open market for approximately \$340 million and \$1,901 million, respectively, as part of its 2015 Repurchase Program.

Capital Spending

Capital spending totaled \$815 million and \$939 million for the nine months ended September 30, 2016 and 2015, respectively. Spending in the first nine months of 2016 was driven primarily by the Display Technologies segment, and focused on finishing line optimization and tank rebuilds. We expect our 2016 capital spending to be approximately \$1.2 billion.

Cash Flow

Summary of cash flow data (in millions):

	Nine months ended September 30,	
	2016	2015
Net cash provided by operating activities	\$ 1,095	\$ 1,845
Net cash provided by (used in) investing activities	\$ 3,956	\$ (822)
Net cash used in financing activities	\$ (4,858)	\$ (1,589)

Net cash provided by operating activities decreased by \$750 million in the nine months ended September 30, 2016 when compared to the same period last year, driven largely by a decline of \$123 million in dividends received from equity affiliates primarily driven by the strategic realignment of our ownership interest in Dow Corning and an

increase in accounts receivable in all of our segments, notably in the Display Technologies and Optical Communications segments, offset somewhat by a decrease in accounts payable and other current liabilities.

© 2016 Corning Incorporated. All Rights Reserved.

Net cash provided by investing activities increased substantially in the nine months ended September 30, 2016, when compared to the same period last year, driven by the cash received on the realignment of Dow Corning, lower capital expenditures and a decrease in acquisition spending, offset slightly by a decrease in realized gains on our translated earnings contracts.

Net cash used in financing activities in the nine months ended September 30, 2016 increased when compared to the same period last year, driven by an increase in share repurchases, net commercial paper repayments and the absence of cash received from the issuance of long-term debt in the third quarter of 2015.

Key Balance Sheet Data

Balance sheet and working capital measures are provided in the following table (dollars in millions):

	As of September 30, 2016	As of December 31, 2015
Working capital	\$ 6,185	\$ 5,455
Current ratio	3.7:1	2.9:1
Trade accounts receivable, net of allowances	\$ 1,645	\$ 1,372
Days sales outstanding	59	55
Inventories	\$ 1,516	\$ 1,385
Inventory turns	3.8	4.0
Days payable outstanding (1)	43	42
Long-term debt	\$ 3,916	\$ 3,890
Total debt to total capital	18%	19%

(1) Includes trade payables only.

Credit Rating

Our credit ratings remain the same as those disclosed in our 2015 Form 10-K.

RATING AGENCY	Rating Long-Term Debt	Outlook last update
Fitch	BBB+	Stable October 29, 2015
Standard & Poor's	BBB+	Stable October 27, 2015
Moody's	Baa1	Stable October 28, 2015

Management Assessment of Liquidity

We ended the third quarter of 2016 with approximately \$4.8 billion of cash and cash equivalents, an increase of \$321 million from December 31, 2015. We believe the Company has adequate sources of liquidity and we are confident in our ability to generate cash to meet reasonably likely future cash requirements. Our cash and cash equivalents, which are generally unrestricted, are held in various locations throughout the world, with approximately 64% of the consolidated amount held outside of the United States at September 30, 2016. We believe we have sufficient U.S. liquidity, including borrowing capacity, to fund foreseeable U.S. cash needs without requiring the repatriation of

foreign cash. We utilize a variety of financing strategies to ensure that our worldwide cash is available in the locations in which it is needed.

© 2016 Corning Incorporated. All Rights Reserved.

Corning also has a commercial paper program pursuant to which we may issue short-term, unsecured commercial paper notes. On July 20, 2016, Corning's Board of Directors approved an increase to the allowable maximum aggregate principal amount outstanding at any time from \$1 billion to \$2 billion. Under this program, the Company may issue the notes from time to time and will use the proceeds for general corporate purposes. The Company's \$2 billion revolving credit facility is available to support obligations under the commercial paper program, if needed. Corning did not have outstanding commercial paper at September 30, 2016.

Other

We complete comprehensive reviews of our significant customers and their creditworthiness by analyzing their financial strength at least annually or more frequently for customers where we have identified a measure of increased risk. We closely monitor payments and developments which may signal possible customer credit issues. We currently have not identified any potential material impact on our liquidity resulting from customer credit issues.

Our major source of funding for 2016 and beyond will be our operating cash flow, our existing balances of cash and cash equivalents and proceeds from any issuances of debt. We believe we have sufficient liquidity for the next several years to fund operations, acquisitions, the asbestos litigation, capital expenditures, scheduled debt repayments and dividend payments and share repurchase programs.

Corning has access to a \$2 billion unsecured committed revolving credit facility. This credit facility includes a leverage ratio financial covenant. The required leverage ratio, which measures debt to total capital, is a maximum of 50%. At September 30, 2016, our leverage using this measure was approximately 18% and we are in compliance with the financial covenant.

Our debt instruments contain customary event of default provisions, which allow the lenders the option of accelerating all obligations upon the occurrence of certain events. In addition, some of our debt instruments contain a cross default provision, whereby an uncured default in excess of a specified amount on one debt obligation of the Company, also would be considered a default under the terms of another debt instrument. As of September 30, 2016, we were in compliance with all such provisions.

Management is not aware of any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in a material decrease in our liquidity. In addition, other than items discussed, there are no known material trends, favorable or unfavorable, in our capital resources and no expected material changes in the mix and relative cost of such resources.

Off Balance Sheet Arrangements

There have been no material changes outside the ordinary course of business in our off balance sheet arrangements as disclosed in our 2015 Form 10-K under the caption "Off Balance Sheet Arrangements."

Contractual Obligations

There have been no material changes outside the ordinary course of business in the contractual obligations disclosed in our 2015 Form 10-K under the caption "Contractual Obligations."

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect amounts reported therein. The estimates that required management's most difficult, subjective or complex judgments are described in our 2015 Form 10-K and remain unchanged through the first nine months of 2016. For certain items, additional details are provided below.

Impairment of Assets Held for Use

We are required to assess the recoverability of the carrying value of long-lived assets when an indicator of impairment has been identified. We review our long-lived assets in each quarter in which impairment indicators are present. We must exercise judgment in assessing whether an event of impairment has occurred.

Manufacturing equipment includes certain components of production equipment that are constructed of precious metals, primarily platinum and rhodium. These metals are not depreciated because they have very low physical losses and are repeatedly reclaimed and reused in our manufacturing process and have a very long useful life. Precious metals are reviewed for impairment as part of our assessment of long-lived assets. This review considers all of the Company's precious metals that are either in place in the production process; in reclamation, fabrication, or refinement in anticipation of re-use; or awaiting use to support increased capacity. Precious metals are only acquired to support our operations and are not held for trading or other purposes.

At September 30, 2016 and December 31, 2015, the carrying value of precious metals was higher than the fair market value by \$868 million and \$976 million, respectively. These precious metals are utilized by the Display Technologies and Specialty Materials segments. Corning believes these precious metal assets to be recoverable due to the significant positive cash flow in both segments. The potential for impairment exists in the future if negative events significantly decrease the cash flow of these segments. Such events include, but are not limited to, a significant decrease in demand for products or a significant decrease in profitability in our Display Technologies or Specialty Materials segments.

NEW ACCOUNTING STANDARDS

Refer to Note 1 (Significant Accounting Policies) to the Consolidated Financial Statements.

ENVIRONMENT

Corning has been named by the Environmental Protection Agency ("the Agency") under the Superfund Act, or by state governments under similar state laws, as a potentially responsible party for 17 active hazardous waste sites. Under the Superfund Act, all parties who may have contributed any waste to a hazardous waste site, identified by the Agency, are jointly and severally liable for the cost of cleanup unless the Agency agrees otherwise. It is Corning's policy to accrue for its estimated liability related to Superfund sites and other environmental liabilities related to property owned by Corning based on expert analysis and continual monitoring by both internal and external consultants. At September 30, 2016 and December 31, 2015, Corning had accrued approximately \$45 million (undiscounted) and \$37 million (undiscounted), respectively, for the estimated liability for environmental cleanup and related litigation. Based upon the information developed to date, management believes that the accrued reserve is a reasonable estimate of the Company's liability and that the risk of an additional loss in an amount materially higher than that accrued is remote.

FORWARD-LOOKING STATEMENTS

The statements in this Quarterly Report on Form 10-Q, in reports subsequently filed by Corning with the Securities and Exchange Commission ("SEC") on Forms 8-K, and related comments by management that are not historical facts or information and contain words such as "will," "believe," "anticipate," "expect," "intend," "plan," "seek," "see," "would," and similar expressions are forward-looking statements. Such statements relate to future events that by their nature address matters that are, to different degrees, uncertain. These forward-looking statements relate to, among other things, the company's future operating performance, the company's share of new and existing markets, the company's revenue and earnings growth rates, the company's ability to innovate and commercialize new products, and the

company's implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the company's manufacturing capacity.

© 2016 Corning Incorporated. All Rights Reserved.

Although the company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, current estimates and forecasts, general economic conditions, its knowledge of its business, and key performance indicators that impact the company, actual results could differ materially. The company does not undertake to update forward-looking statements. Some of the risks, uncertainties and other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

- global business, financial, economic and political conditions;
- tariffs and import duties;
- currency fluctuations between the U.S. dollar and other currencies, primarily the Japanese yen, New Taiwan dollar, euro, Chinese renminbi and South Korean won;
- product demand and industry capacity;
- competitive products and pricing;
- availability and costs of critical components and materials;
- new product development and commercialization;
- order activity and demand from major customers;
- capital allocation plans, as such plans may change including with respect to the timing and size of share repurchases, acquisitions, joint ventures, dispositions and other strategic actions;
- the effectiveness of our risk management framework;
- fluctuations in capital spending by customers;
- the amount and timing of our cash flows and earnings and other conditions, which may affect our ability to pay our quarterly dividend at the planned level or to repurchase shares at planned levels;
- possible disruption in commercial activities due to terrorist activity, cyber-attack, armed conflict, political or financial instability, natural disasters, or major health concerns;
- unanticipated disruption to equipment, facilities, IT systems or operations;
- facility expansions and new plant start-up costs;
- effect of regulatory and legal developments;
- ability to pace capital spending to anticipated levels of customer demand;
- credit rating and ability to obtain financing and capital on commercially reasonable terms;
- adequacy and availability of insurance;
- financial risk management;
- acquisition and divestiture activities;
- rate of technology change;
- level of excess or obsolete inventory;
- ability to enforce patents and protect intellectual property and trade secrets;
- adverse litigation;
- product and components performance issues;
- retention of key personnel;
- stock price fluctuations;
- trends for the continued growth of the Company's businesses;
- the ability of research and development projects to produce revenues in future periods;
- a downturn in demand or decline in growth rates for LCD glass substrates;
- customer ability, most notably in the Display Technologies segment, to maintain profitable operations and obtain financing to fund their ongoing operations and manufacturing expansions and pay their receivables when due;
- loss of significant customers;
- fluctuations in supply chain inventory levels;
- equity company activities;
- changes in tax laws and regulations;

- changes in accounting rules and standards;
- the potential impact of legislation, government regulations, and other government action and investigations;
- temporary idling of capacity or delaying expansion;
- the ability to implement productivity, consolidation and cost reduction efforts, and to realize anticipated benefits;
- restructuring actions and charges; and
- other risks detailed in Corning's SEC filings.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk Disclosures

As noted in our 2015 Form 10-K, we operate and conduct business in many foreign countries and as a result are exposed to fluctuations between the U.S. dollar and other currencies. Volatility in the global financial markets could increase the volatility of foreign currency exchange rates which would, in turn, impact our sales and net income. For a discussion of our exposure to market risk and how we mitigate that risk, refer to Part II, Item 1A, Risk Factors in this Quarterly Report on Form 10-Q and Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risks, contained in our 2015 Form 10-K.

During the nine months ended September 30, 2016 the Company entered into a series of average rate forwards with no associated premium, which partially hedge the impact of Japanese yen translation on the Company's projected 2018 through 2022 net income. At September 30, 2016 the total gross notional value for the yen translated earnings contracts was \$16.0 billion (at December 31, 2015: \$8.3 billion), including zero-cost collars of \$1.5 billion (at December 31, 2015: \$2.0 billion) and average rate forwards of \$14.5 billion (at December 31, 2015: \$6.3 billion). With respect to the zero-cost collars, the gross notional amount includes the value of both the put and call options. However, due to the nature of the zero-cost collars, either the put or the call option can be exercised at maturity. As of September 30, 2016, the total net notional value of the zero-cost collars was \$0.7 billion (at December 31, 2015: \$1.0 billion).

The fair value of our unsettled foreign exchange forward and option contracts is most significantly impacted by fluctuations in the Japanese yen. At September 30, 2016, a hypothetical 10% adverse movement in Japanese yen exchange rates could result in an unrealized loss in fair value of these instruments of \$1.8 billion (at December 31, 2015: \$0.7 billion). Changes in fair values of these instruments are ultimately offset in the period of settlement by changes in the fair value of the underlying exposure. Prior to settlement, the unrealized fair value changes could cause material volatility in our earnings.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision of and with the participation of Corning's management, including our chief executive officer and chief financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended), as of September 30, 2016, the end of the period covered by this report. Based on that evaluation, we have concluded that the Company's disclosure controls and procedures were effective as of that date. Corning's disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by Corning in the reports that it files or submits under the Exchange Act is accumulated and communicated to Corning's management, including Corning's principal executive and principal financial officers, or other persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

An evaluation of our internal controls over financial reporting was also performed to determine whether any changes have occurred during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. The chief executive officer and chief financial officer concluded that there was no change in Corning's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

Part II – Other Information

ITEM 1. LEGAL PROCEEDINGS

Dow Corning Corporation. See our 2015 Form 10-K, Part I, Item 3. Given the realignment of our ownership interest in Dow Corning on May 31, 2016, the Company no longer has an ownership interest in Dow Corning and will no longer provide litigation disclosure regarding Dow Corning Corporation.

Pittsburgh Corning Corporation. See our 2015 Form 10-K, Part I, Item 3. On April 27, 2016, the Modified Third Amended Plan of Reorganization for Pittsburgh Corning Corporation (the “Plan”) became effective. Given the effectiveness of the Plan and the contribution of PCC and PCE to the settlement trust, the Company will no longer provide litigation disclosure regarding Pittsburgh Corning Corporation. For additional information and updates to estimated liabilities as of September 30, 2016, see Part I, Item 1, Financial Statements, Note 3 (Commitments, Contingencies and Guarantees) of the Notes to Unaudited Consolidated Financial Statements included under Item 1 of this quarterly report, which is incorporated herein by reference.

Non-PCC Asbestos Litigation. See our 2015 Form 10-K, Part I, Item 3. For additional information and updates to estimated liabilities as of September 30, 2016, see Part I, Item 1, Financial Statements, Note 3 (Commitments, Contingencies and Guarantees) of the Notes to Unaudited Consolidated Financial Statements included under Item 1 of this quarterly report, which is incorporated herein by reference.

Environmental Litigation. See our 2015 Form 10-K, Part I, Item 3. For updates to estimated liabilities as of September 30, 2016, see Part I, Item 1, Financial Statements, Note 3 (Commitments, Contingencies and Guarantees) of the Notes to Unaudited Consolidated Financial Statements included under Item 1 of this quarterly report, which is incorporated herein by reference.

Chinese Anti-Dumping Investigation Involving Optical Fiber Preforms Produced in the United States. See our 2015 Form 10-K, Part I, Item 3.

ITEM 1A. RISK FACTORS

In addition to other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our 2015 Form 10-K, which could materially impact our business, financial condition or future results. Risks disclosed in our 2015 Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may materially adversely impact our business, financial condition or operating results. There have been no material changes to Part I, Item 1A. Risk Factors in our 2015 Form 10-K except for the updated risk factor listed below.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

This table provides information about our purchases of our common stock during the third quarter of 2016:

Issuer Purchases of Equity Securities

Period	Total number of shares purchased (1)	Average price paid per share (1)	Number of shares purchased as part of publicly announced plan or program (2)	Approximate dollar value of shares that may yet be purchased under the plans or programs (2)
July 1-31, 2016	79,260,346	\$21.47	79,189,464	\$1,010,581,646
August 1-31, 2016	5,525,500	\$22.71	5,523,401	\$ 885,135,880
September 1-30, 2016	5,006,403	\$22.88	5,004,963	\$ 770,601,760
Total	89,792,249	\$21.62	89,717,828	\$ 770,601,760

(1) This column reflects the following transactions during the third quarter of 2016: (i) the deemed surrender to us of 25,679 shares of common stock to satisfy tax withholding obligations in connection with the vesting of employee restricted stock units; (ii) the surrender to us of 48,742 shares of common stock to satisfy tax withholding obligations in connection with the vesting of restricted stock issued to employees; and (iii) the purchase of 89,717,828 shares of common stock in conjunction with the repurchase program announced on October 26, 2015.

(2) On October 26, 2015, Corning's Board of Directors authorized the repurchase of up to \$4 billion worth of shares of common stock between date of announcement and December 31, 2016.
