W.W. Grainger, Inc. and Subsidiaries
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. BACKGROUND AND BASIS OF PRESENTATION

W.W. Grainger, Inc. is a broad line distributor of maintenance, repair and operating supplies, and other related products and services used by businesses and institutions. W.W. Grainger, Inc.'s operations are primarily in the United States and Canada, with an expanding presence in Asia and Latin America. In this report, the words "Company" or "Grainger" mean W.W. Grainger, Inc. and its subsidiaries.

The Condensed Consolidated Financial Statements of the Company and the related notes are unaudited and should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2009, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC).

The Condensed Consolidated Balance Sheet as of December 31, 2009, has been derived from the audited consolidated financial statements at that date, but does not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

The unaudited financial information reflects all adjustments (primarily consisting of normal recurring adjustments) which, in the opinion of management, are necessary for a fair presentation of the statements contained herein.

2. DIVIDEND

On July 28, 2010, the Company's Board of Directors declared a quarterly dividend of 54 cents per share, payable September 1, 2010, to shareholders of record on August 9, 2010.

3. WARRANTY RESERVES

The Company generally warrants the products it sells against defects for one year. For a significant portion of warranty claims, the manufacturer of the product is responsible for the expenses associated with this warranty program. For warranty expenses not covered by the manufacturer, the Company provides a reserve for future costs based on historical experience. The warranty reserve activity was as follows (in thousands of dollars):

	Six Months Ended June 30,	
	2010	2009
Beginning balance	\$ 3,238	\$ 3,218
Returns	(5,144)	(5,626)
Provision	5,303	5,550
Ending balance	\$ 3,397	\$ 3,142

4. EMPLOYEE BENEFITS

Retirement Plans

A majority of the Company's employees are covered by a noncontributory profit sharing plan. This plan provides for annual employer contributions based upon a formula related primarily to earnings before federal income taxes with a minimum contribution of 8% and a maximum contribution of 18% of total eligible compensation paid to eligible employees.

Postretirement Benefits

The Company has a postretirement healthcare benefits plan that provides coverage for a majority of its employees and their dependents should they elect to maintain such coverage upon retirement. Covered employees become eligible for participation when they qualify for retirement while working for the Company. Participation in the plan is voluntary and requires participants to make contributions toward the cost of the plan, as determined by the Company.

The net periodic benefit costs charged to operating expenses, which are valued at the measurement date of January 1 and recognized evenly throughout the year, consisted of the following components (in thousands of dollars):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Service cost	\$ 3,573	\$ 3,076	\$ 7,146	\$ 6,152
Interest cost	3,213	2,682	6,426	5,365
Expected return on assets	(1,108)	(851)	(2,217)	(1,701)
Amortization of transition asset	(36)	(35)	(71)	(71)
Amortization of unrecognized losses	912	1,033	1,824	2,067
Amortization of prior service credits	(123)	(318)	(247)	(607)
Net periodic benefit costs	\$ 6,431	\$ 5,587	\$ 12,861	\$ 11,205

The Company has established a Group Benefit Trust to fund the plan and process benefit payments. The funding of the trust is an estimated amount which is intended to allow the maximum deductible contribution under the Internal Revenue Code of 1986 (IRC), as amended. There are no minimum funding requirements and the Company intends to follow its practice of funding the maximum deductible contribution under the IRC. During the three and six months ended June 30, 2010, the Company contributed \$1.1 million and \$1.9 million, respectively, to the trust.

5. SEGMENT INFORMATION

The Company has two reportable segments: the United States and Canada. The United States segment reflects the results of Grainger's US operating segment. The Canada segment reflects the results for Acklands – Grainger Inc., the Company's Canadian operating segment. Other Businesses include the following operating segments which are not material individually and in the aggregate: MonotaRO Co., Ltd. (Japan), Grainger, S.A. de C.V. (Mexico), Grainger Industrial Supply India Private Limited (India), Grainger Caribe Inc. (Puerto Rico), Grainger China LLC (China) and Grainger Panama S.A. (Panama). Operating segments generate revenue almost exclusively through the distribution of maintenance, repair and operating supplies as service revenues account for less than 1% of total revenues for each operating segment. Following is a summary of segment results (in thousands of dollars):

Unallocated assets	526,272	564,780
Total consolidated assets	\$ 3,731,928	\$ 3,726,332

Unallocated expenses and unallocated assets primarily relate to the Company headquarters' support services, which are not part of any business segment. Unallocated expenses include payroll and benefits, depreciation and other costs associated with headquarters-related support services. Unallocated assets primarily include non-operating cash and cash equivalents, certain prepaid expenses, deferred income taxes and non-operating property, buildings and equipment.

Unallocated expenses increased \$9.7 million for the six months of 2010 primarily due to higher bonus and profit sharing expense.

8. CONTINGENCIES AND LEGAL MATTERS

As previously reported, in December 2007, the Company received a letter from the Commercial Litigation Branch of the Civil Division of the Department of Justice (the "DOJ") regarding the Company's contract with the United States General Services Administration (the "GSA"). The letter suggested that the Company had not complied with its disclosure obligations and the contract's pricing provisions, and had potentially overcharged government customers under the contract.

Discussions relating to the Company's compliance with its disclosure obligations and the contract's pricing provisions are ongoing. The timing and outcome of these discussions are uncertain and could include settlement or civil litigation by the DOJ to recover, among other amounts, treble damages and penalties under the False Claims Act. While this matter is not expected to have a material adverse effect on the Company's financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with the GSA contract in all material respects.

As previously reported, the Company received a subpoena dated August 29, 2008 from the United States Postal Service ("USPS") Office of Inspector General seeking information about the Company's pricing compliance under the

Company's contract with the USPS covering the sale of certain Maintenance Repair and Operating Supplies (the "MRO Contract"). The Company has provided responsive information to the USPS and discussions relating to the Company's compliance with the pricing provisions are ongoing.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

As previously reported, the Company received a subpoena dated June 30, 2009, from the USPS Office of Inspector General seeking information about the Company's pricing practices and compliance under the Company's contract with the USPS covering the sale of certain janitorial and custodial items (the "Custodial Contract"). The Company has provided responsive information to the USPS and discussions relating to the Company's pricing practices and compliance with the pricing provisions are ongoing.

The timing and outcome of the USPS investigations of the MRO Contract and the Custodial Contract are uncertain and could include settlement or civil litigation by the USPS to recover, among other amounts treble damages and penalties under the False Claims Act. While these matters are not expected to have a material adverse effect on the Company's financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with each of the MRO Contract and the Custodial Contract in all material respects.

9. SUBSEQUENT EVENT

On July 16, 2010, the Company replaced an existing \$250 million line of credit with a new \$400 million line of credit to be used for general corporate purposes. There were no borrowings under the existing line of credit. The new line does not contain any financial performance covenants.

Item 2.
Overview

General

Grainger is a broad line distributor of maintenance, repair and operating supplies, and other related products and services used by businesses and institutions. W.W. Grainger, Inc.'s operations are primarily in the United States and Canada, with an expanding presence in Asia and Latin America. Grainger uses a multichannel business model to provide customers with a range of options for finding and purchasing products utilizing sales representatives, direct marketing materials and catalogs. Grainger serves approximately 2.0 million customers through a network of highly integrated branches, distribution centers and multiple Web sites.

Grainger's two reportable segments are the United States and Canada. The United States segment reflects the results of Grainger's US operating segment. The Canada segment reflects the results for Acklands – Grainger Inc., Grainger's Canadian operating segment. Other Businesses include the following operating segments which are not material individually and in the aggregate: MonotaRO Co., Ltd. (Japan), Grainger, S.A. de C.V. (Mexico), Grainger Industrial Supply India Private Limited (India), Grainger Caribe Inc. (Puerto Rico), Grainger China LLC (China) and Grainger Panama S.A. (Panama).

Business Environment

Several economic factors and industry trends tend to shape Grainger's business environment. The overall economy and leading economic indicators provide insight into anticipated economic factors for the near term and help in forming the development of projections for the rest of the year. Historically, Grainger's sales trends have tended to correlate with industrial production and non-farm payrolls. According to the Federal Reserve, overall industrial production increased 8.2% from June 2009 to June 2010. The improvement in the economy has positively affected Grainger's sales growth for the six months of 2010. In July 2010, Consensus Forecast-USA projected 2010 Industrial Production and GDP growth for the United States of 5.6% and 3.1%, and GDP growth of 3.5% for Canada.

The light and heavy manufacturing customer segments have historically correlated with manufacturing output and employment levels. Manufacturing output increased 8.3% from June 2009 to June 2010, while manufacturing employment levels were down 1%. Grainger's heavy and light manufacturing customer segments outperformed these indicators as sales to these segments increased in the low twenties and low double-digits, respectively, for the second quarter of 2010. For the six months of 2010, sales to heavy and light manufacturing customers increased in the high teens and low double-digits, respectively.

Outlook

Grainger continues to see signs of improvement in the overall economy as sales growth increased 15 percent for the six months of 2010, however job growth is still expected to continue to lag the economic recovery. Although there continues to be uncertainty as to the extent and duration of the economic recovery, given the results in the six months of 2010, Grainger raised 2010 sales growth guidance on July 15, 2010 to a range of 12 to 14 percent. Positive sales growth will be realized through the impact of acquisitions made in 2009, favorable foreign exchange rates and organic growth. Earnings per share guidance for 2010 was also raised on July 15, 2010 to a range of \$6.10 to \$6.40, which excludes a charge for the effect of the healthcare legislation and a benefit that resulted from a paid time off policy change.

Matters Affecting Comparability

Grainger completed several acquisitions throughout 2009 and 2010, all of which were immaterial individually, and in the aggregate. Grainger's operating results have included the results of each business acquired since the respective acquisition dates.

The following table is included as an aid to understanding the changes in Grainger's Condensed Consolidated Statements of Earnings:

Grainger's net sales of \$1,783.7 million for the second quarter of 2010 increased 16.3% compared with sales of \$1,533.3 million for the comparable 2009 quarter. For the quarter, approximately 9 percentage points of the sales growth came from an increase in volume and approximately 5 percentage points of the sales growth came from business acquisitions. In addition, sales were positively affected by 2 percentage points due to foreign exchange. Sales of products used to assist with the oil spill clean up in the Gulf of Mexico contributed approximately 1 percentage point to sales growth in the quarter. This growth was, however, essentially offset by sales in the 2009 second quarter of H1N1-related product that did not repeat. Sales in all customer segments increased for the second quarter of 2010, except the government and contractor customer segments which were both down in the low single-digits. The overall increase in net sales was led by a low twenty percent increase in the heavy manufacturing customer segment, followed by a high teen increase in the reseller customer segment and a high single-digit increase in the light manufacturing customer segment. Refer to the Segment Analysis below for further details.

Gross profit of \$747.1 million for the second quarter of 2010 increased 19.5% over the second quarter of 2009. The gross profit margin during the second quarter of 2010 increased 1.1 percentage points when compared to the same period in 2009, primarily driven by price increases exceeding product cost increases and lower freight and handling costs. Approximately half of the year-over-year increase in gross profit margins resulted from a 3-month free-freight promotion in the 2009 second quarter, which had a negative impact on margins last year. These improvements were partially offset by faster sales growth from the lower margin international businesses and by an increase in sales to large customers which are generally at lower margins.

Operating expenses of \$532.2 million for the second quarter of 2010 increased 13.0% over the second quarter of 2009. Operating expenses increased primarily due to higher commissions, bonus expense and profit sharing due to improved Company performance, partially offset by a \$10.3 million benefit that resulted from a paid time off policy change, which reduced the related liability.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings for the second quarter of 2010 were \$214.9 million, an increase of 39.6% compared to the second quarter of 2009. The increase in operating earnings was primarily due to the increase in sales, operating expenses which increased at a slower rate than sales and an improved gross profit margin.

Net earnings for the second quarter of 2010 increased by 39.6% to \$129.1 million from \$92.5 million in the second quarter of 2009. The increase in net earnings for the quarter primarily resulted from an increase in operating earnings. Diluted earnings per share of \$1.73 in the second quarter of 2010 were 43.0% higher than the \$1.21 for the second quarter of 2009 due to increased net earnings and fewer shares outstanding. Excluding the benefit for the paid time off policy change, earnings per share would have been \$1.65 or 36.4% higher than the second quarter of 2009.

Segment Analysis

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 5 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$1,497.4 million for the second quarter of 2010, an increase of \$143.6 million, or 10.6%, when compared with net sales of \$1,353.8 million for the same period in 2009. Sales of products used to assist with the oil spill clean up in the Gulf of Mexico contributed approximately 1 percentage point to growth in the quarter, although this contribution was essentially offset by the strong sales of H1N1-related product in the second quarter of 2009 that did not repeat. Sales in all customer segments increased for the second quarter of 2010, except the government and contractor customer segments which were both down in the low single-digits. The overall increase in net sales was led by a low twenty percent increase in both the heavy manufacturing and reseller customer segments, followed by a high single-digit increase in the light manufacturing customer segment.

Since 2006, approximately 234,000 new products have been added in product areas such as plumbing, fastener, material handling and security product lines as part of the business' ongoing product line expansion initiative. The most recent catalog, issued in February 2010, offers a total of 307,000 products, an increase of 70,000 products over the 2009 catalog. Additional products are being added throughout 2010 and almost 365,000 products are planned to be in the 2011 catalog.

The gross profit margin increased 1.8 percentage points in the 2010 second quarter over the comparable quarter of 2009. The gross profit margin benefited from price increases exceeding product cost increases and lower freight and handling costs. Approximately one-third of the year-over-year increase in gross profit margins resulted from a 3-month free-freight promotion in the 2009 second quarter, which had a negative impact on margins last year. These improvements were partially offset by an increase in sales to large customers which are generally at lower margins.

Operating expenses were up 8.2% in the second quarter of 2010 versus the second quarter of 2009. Operating expenses increased primarily due to higher commissions, bonus expense and profit sharing due to improved Company performance, partially offset by the benefit that resulted from a paid time off policy change, which reduced the related liability.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings of \$231.0 million for the second quarter of 2010 increased 30.9% from \$176.5 million for the second quarter of 2009. The improvement in operating earnings for the quarter was primarily due to an increase in net sales and gross profit margin, and operating expenses which increased at a slower rate than sales.

Canada

Net sales were \$207.9 million for the second quarter of 2010, an increase of \$47.2 million, or 29.3%, when compared with \$160.7 million for the same period in 2009. In local currency, daily sales increased 14.2% for the quarter. The increase in net sales was led by growth in the oil and gas, heavy manufacturing, agriculture and mining and forestry customer segments, partially offset by weakness in sales to the government.

The gross profit margin increased 2.0 percentage points in the 2010 second quarter versus the second quarter of 2009, primarily driven by lower product costs resulting from the positive effect of foreign currency exchange rates.

Operating expenses were up 38.6% in the second quarter of 2010 versus the second quarter of 2009. In local currency, operating expenses increased 22.2% primarily due to increased payroll and benefits costs including higher commissions and bonus expense, increased volume related headcount, and incremental costs for two acquisitions made during the last 12 months. Non-payroll related expenses also increased primarily driven by higher occupancy and professional services costs, partially offset by lower bad debt expense.

Operating earnings of \$12.7 million for the second quarter of 2010 were up \$3.0 million, or 30.4% over the second quarter of 2009. In local currency, operating earnings increased 15.7% in the second quarter of 2010 over the same period in 2009. The increase in operating earnings was primarily due to higher net sales and gross profit margins partially offset by operating expenses increasing at a faster rate than sales.

Other Businesses

Net sales for other businesses, which include Japan, Mexico, India, Puerto Rico, China and Panama, increased 225.5% for the second quarter of 2010 when compared to the same period in 2009. The sales increase was due to the inclusion of results for Japan after obtaining a controlling interest in September 2009, along with strong contributions from Mexico and India. Operating earnings for other businesses were \$1.9 million for the second quarter of 2010, an improvement over operating losses of \$3.3 million in the second quarter 2009.

Other Income and Expense

Other income and expense was expense of \$2.1 million in the second quarter of 2010 compared to \$2.3 million of expense in the second quarter of 2009. The decrease in other non-operating expense in the second quarter of 2010 was primarily due to higher foreign currency transaction gains.

Income Taxes

Grainger's effective income tax rates were 39.1% and 39.0% for the second quarter of 2010 and 2009, respectively.

Grainger's net sales of \$3,456.1 million for the six months of 2010 increased 15.3% compared with sales of \$2,998.5 million for the comparable 2009 period. For the six months of 2010, approximately 8 percentage points of the sales growth came from an increase in volume and approximately 5 percentage points came from business acquisitions. In addition, sales were positively affected by 2 percentage points due to foreign exchange. Sales in all customer segments increased for the six months of 2010, except the contractor customer segment which was flat. The overall increase in net sales was led by a low twenty percent increase in the reseller customer segment, followed by a high teen increase in the heavy manufacturing customer segment and a low double-digit increase in the light manufacturing customer segment. Refer to the Segment Analysis below for further details.

The gross profit margin during the six months of 2010 increased 0.2 percentage point when compared to the same period in 2009, primarily driven by price increases exceeding product cost increases and lower freight and handling costs. These improvements were partially offset by faster sales growth from the lower margin international businesses and by an increase in sales to large customers which are generally at lower margins.

Operating expenses of \$1,055.0 million for the six months of 2010 increased 12.1% over the six months of 2009. Operating expenses increased primarily due to higher commissions, bonus expense and profit sharing due to improved Company performance, partially offset by a \$20.6 million benefit that resulted from a paid time off policy change, which reduced the related liability.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings for the six months of 2010 were \$397.8 million, an increase of 27.0% compared to the six months of 2009. The increase in operating earnings was primarily due to the increase in sales, operating expenses which increased at a slower rate than sales and an improved gross profit margin.

Net earnings for the six months of 2010 increased by 20.9% to \$228.3 million from \$188.8 million in the six months of 2009. The increase in net earnings for the six months primarily resulted from an increase in operating earnings. Diluted earnings per share of \$3.04 in the six months of 2010 were 23.6% higher than the \$2.46 for the six months of 2009 due to increased net earnings and fewer shares outstanding. Grainger recorded a non-cash charge of \$11.2 million, or \$0.15 cents per share, during the first quarter of 2010 to write down a deferred income tax asset related to the tax treatment of the Medicare Part D Subsidy retiree healthcare benefit following the passage of the Patient Protection and Affordable Care Act. Grainger also recognized a \$20.6 million benefit that resulted from a paid time off policy change, which reduced the related liability and which positively benefited earnings per share by \$0.17 cents. Excluding these items, earnings per share would have been \$3.02 or 22.8% higher than the six months of 2009.

Segment Analysis

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 5 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$2,905.6 million for the six months of 2010, an increase of \$243.1 million, or 9.1%, when compared with net sales of \$2,662.5 million for the same period in 2009. Sales in all customer segments increased for the six months of 2010, except the contractor customer segment which was down in the mid single-digits. The overall increase in net sales was led by a mid teen increase in the heavy manufacturing customer segment, followed by a low double-digit increase in both the light manufacturing and reseller customer segments.

Since 2006, approximately 234,000 new products have been added in product areas such as plumbing, fastener, material handling and security product lines as part of the business' ongoing product line expansion initiative. Operating expenses increased primarily due to higher commissions, bonus expense and profit sharing due to improved Company performance, partially offset by the benefit that resulted from a paid time off policy change, which reduced the related liability.

Operating earnings of \$432.6 million for the six months of 2010 increased 23.7% from \$349.7 million for the six months of 2009. The improvement in operating earnings for the six months of 2010 was primarily due to an increase in net sales and gross profit margin, and operating expenses which increased at a slower rate than sales.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Canada

Net sales were \$402.0 million for the six months of 2010, an increase of \$97.5 million, or 32.0%, when compared with \$304.5 million for the same period in 2009. In local currency, daily sales increased 13.5% for the six months of 2010. The increase in net sales was led by growth in the oil and gas, agriculture and mining and forestry customer segments, partially offset by weakness in sales to the government.

The gross profit margin increased 0.8 percentage point in the 2010 six months versus the six months of 2009, primarily driven by lower product costs resulting from the positive effect of foreign currency exchange rates.

Operating expenses were up 37.6% in the six months of 2010 versus the six months of 2009. In local currency, operating expenses increased 18.1% primarily due to increased payroll and benefits costs including higher commissions and bonus expense, increased volume related headcount and incremental costs for two acquisitions made over the last 12 months. Non-payroll related expenses also increased driven by higher travel and entertainment and advertising due to the sponsorship of the Winter Olympic Games and increased occupancy costs, partially offset by lower bad debt expense.

Operating earnings of \$19.0 million for the six months of 2010 were up \$3.3 million, or 21.1% over the six months of 2009. In local currency, operating earnings increased 4.9% in the six months of 2010 over the same period in 2009. The increase in operating earnings was primarily due to higher net sales and the increase in gross profit margin, partially offset by higher operating expenses.

Other Businesses

Net sales for other businesses, which include Japan, Mexico, India, Puerto Rico, China and Panama, increased 240.5% for the six months of 2010 when compared to the same period in 2009. The net sales increase was due to the inclusion of results for Japan after obtaining a controlling interest in September 2009, along with strong contributions from Mexico and India. Operating earnings for other businesses were \$1.9 million for the six months of 2010, an improvement over operating losses of \$6.2 million in the six months 2009.

Other Income and Expense

Other income and expense was expense of \$4.0 million in the six months of 2010, an increase of \$1.0 million compared to \$3.0 million of expense in the six months of 2009. The increase in other non-operating expense in the six months of 2010 was primarily due to lower equity in net income of unconsolidated entities primarily due to the increase in ownership of MonotaRO Co., Ltd., which is now fully consolidated.

Income Taxes

Grainger's effective income tax rates were 41.8% and 39.1% for the six months of 2010 and 2009, respectively. The increase in the effective rate is due to the write-down of the deferred tax asset related to the tax treatment of the Medicare Part D Subsidy retiree healthcare benefit following the passage of the Patient Protection and Affordable Care Act. Excluding the effect of this charge, the effective tax rate for the six months of 2010 was 39.3%.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Financial Condition

For the six months ended June 30, 2010, working capital of \$1,323.9 million decreased by \$30.8 million when compared to \$1,354.7 million at December 31, 2009. The decrease in working capital primarily relates to a lower cash balance. The ratio of current assets to current liabilities was 2.7 at June 30, 2010, flat to 2.7 at December 31, 2009.

Net cash provided by operating activities was \$286.3 million and \$232.6 million for the six months ended June 30, 2010 and 2009, respectively. Net cash flows from operating activities serve as Grainger's primary source to fund its growth initiatives. Contributing to cash flows from operations were net earnings in the six months ended June 30, 2010 of \$229.1 million and the effect of non-cash expenses such as depreciation and amortization. Partially offsetting these amounts were changes in operating assets and liabilities, which resulted in a net use of cash of \$38.5 million for the six months of 2010.

Net cash used in investing activities was \$68.0 million and \$49.6 million for the six months ended June 30, 2010 and 2009, respectively. Net cash expended for additions to property, buildings, equipment and capitalized software was \$26.9 million in the six months of 2010 versus \$51.9 million in the six months of 2009. Capital expenditures in 2010 included funding of infrastructure improvement projects in the distribution centers in the United States, Canada and Mexico. Cash expended for business acquisitions and other investments was \$41.0 million for the six months of 2010, versus net cash received in business acquisitions and other investments of \$2.3 million for the six months of 2009.

Net cash used in financing activities was \$287.1 million and \$163.8 million for the six months ended June 30, 2010 and 2009, respectively. The \$123.3 million increase in cash used in financing activities for the six months ended June 30, 2010 was due primarily to higher treasury share repurchases. Cash paid for treasury stock purchases was \$256.5 million for the six months of 2010 versus \$127.7 million for the six months of 2009. Grainger also used cash to pay dividends to shareholders of \$74.6 million and \$65.2 million for the six months of 2010 and 2009, respectively, and repaid \$20.6 million of long-term debt in the first six months of 2010.

Grainger maintains a debt ratio and liquidity position that provide flexibility in funding working capital needs and long-term cash requirements. In addition to internally generated funds, Grainger has various sources of financing available, including commercial paper sales and bank borrowings under lines of credit. Total debt as a percent of total capitalization was 18.6% at June 30, 2010, and 19.1% at December 31, 2009.

W.W. Grainger, Inc. and Subsidiaries
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements. Management bases its estimates on historical experience and other assumptions, which it believes are reasonable. If actual amounts are ultimately different from these estimates, the revisions are included in Grainger's results of operations for the period in which the actual amounts become known.

Accounting policies are considered critical when they require management to make assumptions about matters that are uncertain at the time the estimate is made and when different estimates than those management reasonably could have made have a material impact on the presentation of Grainger's financial condition, changes in financial condition or results of operations. For a description of Grainger's critical accounting policies see the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

Forward-Looking Statements

This Form 10-Q contains statements that are not historical in nature but concern future results and business plans, strategies and objectives and other matters that may be deemed to be "forward-looking statements" under the federal securities laws. Grainger has generally identified such forward-looking statements by using words such as "anticipated, believes, continue, continues, continues to believe it complies, could, earnings per share guidance, expected, had potentially, intended, intends, may, planned, projections, range, reasonably likely, sales growth guidance, should, tended, timing and outcome are uncertain, and will" or similar expressions.

Grainger cannot guarantee that any forward-looking statement will be realized although Grainger does believe that its assumptions underlying its forward-looking statements are reasonable. Achievement of future results is subject to risks and uncertainties which could cause Grainger's results to differ materially from those which are presented.

Factors that could cause actual results to differ materially from those presented or implied in a forward-looking statement include, without limitation: higher product costs or other expenses; a major loss of customers; loss or disruption of source of supply; increased competitive pricing pressures; failure to develop or implement new technologies or business strategies; the outcome of pending and future litigation or governmental or regulatory proceedings; investigations, inquiries, audits and changes in laws and regulations; disruption of information technology or data security systems; general industry or market conditions; general global economic conditions; currency exchange rate fluctuations; market volatility; commodity price volatility; labor shortages; facilities disruptions or shutdowns; higher fuel costs or disruptions in transportation services; natural and other catastrophes and unanticipated weather conditions.

Caution should be taken not to place undue reliance on Grainger's forward-looking statements and Grainger undertakes no obligation to publicly update the forward-looking statements, whether as a result of new information, future events or otherwise.

PART I – FINANCIAL INFORMATION

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about market risk, see “Item 7A: Quantitative and Qualitative Disclosures About Market Risk” in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Grainger carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of Grainger’s disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that Grainger’s disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There were no changes in Grainger’s internal control over financial reporting that occurred during the six months that have materially affected, or are reasonably likely to materially affect, Grainger’s internal control over financial reporting.

PART II – OTHER INFORMATION

Items 1A, 3, 4 and 5 not applicable.

Item 1. Legal Proceedings

As previously reported, in December 2007, the Company received a letter from the Commercial Litigation Branch of the Civil Division of the Department of Justice (the “DOJ”) regarding the Company’s contract with the United States General Services Administration (the “GSA”). The letter suggested that the Company had not complied with its disclosure obligations and the contract’s pricing provisions, and had potentially overcharged government customers under the contract.

Discussions relating to the Company’s compliance with its disclosure obligations and the contract’s pricing provisions are ongoing. The timing and outcome of these discussions are uncertain and could include settlement or civil litigation by the DOJ to recover, among other amounts, treble damages and penalties under the False Claims Act. While this matter is not expected to have a material adverse effect on the Company’s financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with the GSA contract in all material respects.

W.W. Grainger, Inc. and Subsidiaries

As previously reported, the Company received a subpoena dated August 29, 2008 from the United States Postal Service (“USPS”) Office of Inspector General seeking information about the Company’s pricing compliance under the Company’s contract with the USPS covering the sale of certain Maintenance Repair and Operating Supplies (the “MRO Contract”). The Company has provided responsive information to the USPS and discussions relating to the Company’s compliance with the pricing provisions are ongoing.

As previously reported, the Company received a subpoena dated June 30, 2009, from the USPS Office of Inspector General seeking information about the Company’s pricing practices and compliance under the Company’s contract with the USPS covering the sale of certain janitorial and custodial items (the “Custodial Contract”). The Company has provided responsive information to the USPS and discussions relating to the Company’s pricing practices and compliance with the pricing provisions are ongoing.

The timing and outcome of the USPS investigations of the MRO Contract and the Custodial Contract are uncertain and could include settlement or civil litigation by the USPS to recover, among other amounts treble damages and penalties under the False Claims Act. While these matters are not expected to have a material adverse effect on the Company’s financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with each of the MRO Contract and the Custodial Contract in all material respects.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities – Second quarter
