UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
^x 1934

For the quarterly period ended June 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
^o 1934

Commission File Number 1-815

E. I. du Pont de Nemours and Company

(Exact Name of Registrant as Specified in Its Charter)

Delaware 51-0014090

(State or other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

974 Centre Road, Wilmington, Delaware 19805

(Address of Principal Executive Offices)

(302) 774-1000

(Registrant's Telephone Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that registrant was required to submit and post such files.) Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer

Non-Accelerated Filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).

Yes No

The Registrant had 100 shares of common stock, \$0.30 par value, outstanding at June 30, 2018, all of which are held by DowDuPont Inc.

The Registrant meets the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q (as modified by a grant of no-action relief dated February 12, 2018) and is therefore filing this form with reduced disclosure format.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Financial Statements

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto contained in the company's Annual Report on Form 10-K for the year ended December 31, 2017, collectively referred to as the "2017 Annual Report". The interim Consolidated Financial Statements include the accounts of the company and all of its subsidiaries in which a controlling interest is maintained.

Principles of Consolidation and Basis of Presentation

DowDuPont Inc. ("DowDuPont") was formed on December 9, 2015 to effect an all-stock, merger of equals strategic combination between The Dow Chemical Company ("Dow") and DuPont (the "Merger Transaction"). On August 31, 2017 at 11:59 pm ET, (the "Merger Effectiveness Time") pursuant to the Agreement and Plan of Merger, dated as of December 11, 2015, as amended on March 31, 2017 (the "Merger Agreement"), Dow and DuPont each merged with wholly owned subsidiaries of DowDuPont ("Mergers") and, as a result of the Mergers, Dow and DuPont became subsidiaries of DowDuPont (collectively, the "Merger"). Prior to the Merger, DowDuPont did not conduct any business activities other than those required for its formation and matters contemplated by the Merger Agreement. DowDuPont intends to pursue, subject to certain customary conditions, including, among others, the effectiveness of registration statements filed with the Securities and Exchange Commission and approval by the Board of Directors of DowDuPont, the separation of the combined company's agriculture business, specialty products business and materials science business through a series of tax-efficient transactions (collectively, the "Intended Business Separations").

For purposes of DowDuPont's financial statement presentation, Dow was determined to be the accounting acquirer in the Merger and DuPont's assets and liabilities are reflected at fair value as of the Merger Effectiveness Time. In connection with the Merger and the related accounting determination, DuPont has elected to apply push-down accounting and reflect in its financial statements the fair value of its assets and liabilities. DuPont's interim Consolidated Financial Statements for periods following the close of the Merger are labeled "Successor" and reflect DowDuPont's basis in the fair values of the assets and liabilities of DuPont. All periods prior to the closing of the Merger reflect the historical accounting basis in DuPont's assets and liabilities and are labeled "Predecessor." The interim Consolidated Financial Statements and footnotes include a black line division between the columns titled "Predecessor" and "Successor" to signify that the amounts shown for the periods prior to and following the Merger are not comparable. See Note 3 for additional information on the Merger.

Transactions between DuPont and DowDuPont, Dow and their affiliates and other associated companies are reflected in the Successor consolidated financial statements and disclosed as related party transactions when material. Related party transactions with Dow and DowDuPont are included in Note 7.

As a condition of the regulatory approval for the Merger Transaction, the company was required to divest certain assets related to its crop protection business and research and development ("R&D") organization, specifically the company's Cereal Broadleaf Herbicides and Chewing Insecticides portfolios, including Rynaxypyr®, Cyazypyr® and Indoxacarb as well as the crop protection R&D pipeline and organization, excluding seed treatment, nematicides, and late-stage R&D programs. On March 31, 2017, the company entered into a definitive agreement (the "FMC

Transaction Agreement") with FMC Corporation ("FMC"). Under the FMC Transaction Agreement, FMC would acquire the crop protection business and R&D assets that DuPont was required to divest in order to obtain European Commission ("EC") approval of the Merger Transaction as described above, (the "Divested Ag Business") and DuPont agreed to acquire certain assets relating to FMC's Health and Nutrition segment, excluding its Omega-3 products (the "H&N Business") (collectively, the "FMC Transactions").

On November 1, 2017, the company completed the FMC Transactions through the disposition of the Divested Ag Business and the acquisition of the H&N Business. The sale of the Divested Ag Business meets the criteria for discontinued operations and as such, results of operations are presented as discontinued operations and have been excluded from continuing operations for all periods presented. The sum of the individual earnings per share amounts from continuing operations and discontinued operations may not equal the total company earnings per share amounts due to rounding. The comprehensive income and cash flows related to the Divested Ag Business have not been segregated and are included in the interim Consolidated Statements of Comprehensive Income and interim Condensed Consolidated Statements of Cash Flows, respectively, for all periods presented. Amounts related to the Divested Ag Business are consistently included or excluded from the Notes to the interim Consolidated Financial Statements based on the respective financial statement line item. See Note 4 for additional information.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Certain reclassifications of prior year's data have been made to conform to current year's presentation. As described in Note 2, effective January 1, 2018, the company adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. In conjunction with the adoption of this ASU, the company retrospectively reclassified the non-service components of net periodic benefit cost in the interim Consolidated Income Statements. See Note 2 for more information.

Significant Accounting Policies

The company has updated its revenue recognition policy since issuance of its 2017 Annual Report as a result of the adoption of ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) in the first quarter 2018. See Notes 2 and 5 for additional information. See Note 1, "Summary of Significant Accounting Policies," in the 2017 Annual Report for more information on DuPont's other significant accounting policies.

Revenue

The company recognizes revenue when its customer obtains control of promised goods or services, in an amount that reflects the consideration which the company expects to receive in exchange for those goods or services. To determine revenue recognition for the arrangements that the company determines are within the scope of Topic 606, the company performs the following five steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. See Note 5 for additional information on revenue recognition.

Changes in Accounting and Reporting

Within the Successor periods, DuPont made the following changes in accounting and reporting to harmonize its accounting and reporting with DowDuPont.

Within the Successor periods of the interim Consolidated Income Statements:

• Included royalty income within net sales. In the Predecessor periods, royalty income is included within sundry income (expense) - net.

• Eliminated the other operating charges line item. In the Successor periods, a majority of these costs are included within cost of goods sold. These costs are also included in selling, general and administrative expenses and amortization of intangibles in the Successor periods.

• Presented amortization of intangibles as a separate line item. In the Predecessor periods, amortization is included within selling, general and administrative expenses, other operating charges, and research and development expenses.

• Presented integration and separation costs as a separate line item. In the Predecessor periods, these costs are included within selling, general and administrative expenses.

• Included interest accrued related to unrecognized tax benefits within the provision for income taxes on continuing operations. In the Predecessor periods, interest accrued related to unrecognized tax benefits is included within sundry income (expense) - net.

Within the Successor period of the interim Condensed Consolidated Statements of Cash Flows:

• Included foreign currency exchange contract settlements within cash flows from operating activities, regardless of hedge accounting qualification. In the Predecessor period, DuPont reflected non-qualified hedge programs, specifically forward contracts, options and cash collateral activity, within cash flows from investing activities. In the Predecessor period, DuPont reflected cash flows from qualified hedge programs within the line item to which the program related (i.e., revenue hedge cash flows presented within changes from accounts receivable).

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2 - RECENT ACCOUNTING GUIDANCE

Recently Adopted Accounting Guidance

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) which was further updated in March, April, May and December 2016, as well as September and November 2017. The new guidance clarifies the principles for recognizing revenue and develops a common revenue standard for GAAP. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The new standard resulted in additional disclosure requirements to describe the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The standard permits the use of either the retrospective or modified retrospective (cumulative-effect) transition method of adoption.

The company adopted this standard in the first quarter of 2018 and applied the modified retrospective transition method to contracts not completed at the date of initial application. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with historic accounting under Topic 605 (Revenue Recognition). The company recognized the cumulative effect of applying the new revenue standard as an adjustment to the opening balance of retained earnings in the beginning of 2018. See Note 5 for additional disclosures regarding the company's contracts with customers.

In accordance with Topic 606, the disclosure of the impact of adoption to the company's Consolidated Balance Sheet was as follows:

(In millions, except per share amounts)	As Reported December 31, 2017	Effect of Adoption of ASU 2014-09	Updated January 1, 2018
Current assets			
Accounts and notes receivable - net	\$ 5,239	\$ 79	\$ 5,318
Inventories	8,633	(53)	8,580
Other current assets	981	101	1,082
Deferred income taxes	\$ 480	\$ 1	\$ 481
Liabilities and Equity			
Current liabilities			
Accounts payable	\$ 4,831	\$ (3)	\$ 4,828
Accrued and other current liabilities	4,384	120	4,504
Deferred income tax liabilities	\$ 5,836	\$ 3	\$ 5,839
Retained earnings	\$ 175	\$ 8	\$ 183

The most significant changes as a result of adopting ASU No. 2014-09 relate to the reclassification of the company's return assets and refund liabilities in the agriculture product line on the interim Condensed Consolidated Balance Sheets. Under previous guidance, the company accrued the amount of expected product returns as a reduction of net sales and a reduction of accounts and notes receivable - net, and the value associated with the products expected to be recovered in inventory along with a corresponding reduction in cost of goods sold. Under Topic 606, the company

now separately presents the amount of expected product returns as refund liabilities, included in accrued and other current liabilities, and the products expected to be recovered as return assets, included in other current assets in the consolidated balance sheets. The reclassification of return assets and refund liabilities was \$61 million and \$119 million, respectively, at January 1, 2018.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The effect on the interim Condensed Consolidated Statement of Cash Flows was not material. The following table summarizes the effects of adopting the new accounting standard related to revenue recognition on the company's interim Condensed Consolidated Balance Sheet:

(In millions, except per share amounts)	June 30, 2018		
	As Reported	Effect of Change	Balance without Adoption of Topic 606
Current assets			
Accounts and notes receivable - net	\$7,734	\$(150)	\$7,584
Inventories	6,303	57	6,360
Other current assets	1,311	(119)	1,192
Deferred income taxes	\$361	\$(1)	\$360
Liabilities and Equity			
Current liabilities			
Accrued and other current liabilities	\$3,024	\$(168)	\$2,856
Deferred income tax liabilities	\$5,424	\$(11)	\$5,413
Accumulated deficit	\$(1,201)	\$(34)	\$(1,235)

In accordance with Topic 606, the impact of adoption to the company's interim Consolidated Income Statements primarily related to the accounting for interest income from its customer financing arrangements in the agriculture product line. Under previous guidance, the company recorded the interest income from these arrangements over the financing period within sundry income (expense) - net. Under Topic 606, the company elected the practical expedient and does not adjust the promised amount of consideration for the effects of a significant financing component for contracts where payment terms are one year or less. Accordingly, the entire arrangement consideration is recorded in net sales upon satisfaction of the performance obligation. Performance obligations for these arrangements are generally satisfied during the first half of the fiscal year, consistent with the North America growing season. The following tables summarize the effects of adopting the new accounting standard related to revenue recognition on the company's interim Consolidated Income Statements for the three and six months ended June 30, 2018:

(In millions, except per share amounts)	For the Three Months Ended June 30, 2018 (Successor)		
	As Reported	Effect of Change	Balance without Adoption of Topic 606
Net sales	\$8,545	\$(49)	\$ 8,496
Sundry income (expense) - net	\$194	\$ 31	\$ 225
Income from continuing operations before income taxes	\$655	\$(18)	\$ 637
Provision for income taxes on continuing operations	\$141	\$(4)	\$ 137
Income from continuing operations after income taxes	\$514	\$(14)	\$ 500

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(In millions, except per share amounts)	For the Six Months Ended June 30, 2018 (Successor)		
	As Reported	Effect of Change	Balance without Adoption of Topic 606
Net sales	\$ 15,244	\$ (72)	\$ 15,172
Sundry income (expense) - net	\$ 241	\$ 37	\$ 278
Income from continuing operations before income taxes	\$ 466	\$ (35)	\$ 431
Provision for income taxes on continuing operations	\$ 168	\$ (8)	\$ 160
Income from continuing operations after income taxes	\$ 298	\$ (27)	\$ 271

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments. The new guidance makes eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The new guidance requires adoption on a retrospective basis unless it is impracticable to apply, in which case the company would be required to apply the amendments prospectively as of the earliest date practicable. The company adopted this standard on January 1, 2018 and there was no material impact.

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740), Intra-Entity Transfers of Assets Other Than Inventory. The new guidance requires that entities recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs, rather than when the asset is sold to an outside party. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual reporting periods. Early adoption is permitted as of the beginning of an annual reporting period. The new guidance requires adoption on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The company adopted this standard on January 1, 2018 and there was no adjustment to retained earnings.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230), Restricted Cash (a consensus of the FASB Emerging Issues Task Force), which clarifies how entities should present restricted cash and restricted cash equivalents in the statement of cash flows, and, as a result, entities will no longer present transfers between cash and cash equivalents and restricted cash and restricted cash equivalents in the statement of cash flows. An entity with a material balance of restricted cash and restricted cash equivalents must disclose information about the nature of the restrictions. The company adopted this standard on January 1, 2018. See the interim Condensed Consolidated Statement of Cash Flows for the new presentation of restricted cash as well as Note 8 for a reconciliation of cash, cash equivalents and restricted cash (included in other current assets) presented on the interim Condensed Consolidated Balance Sheets to the total cash, cash equivalents and restricted cash presented in the interim Condensed Consolidated Statements of Cash Flows.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805), Clarifying the Definition of a Business. The new guidance narrows the existing definition of a business and provides a framework for evaluating whether a transaction should be accounted for as an acquisition (or disposal) of assets or a business. The guidance requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets; if so, the set of transferred assets and activities (collectively, the "set") is not a business. To be considered a business, the set would need to include an input and a

substantive process that together significantly contribute to the ability to create outputs, as defined by the ASU. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual reporting periods, and should be applied prospectively. Early adoption is permitted. The company adopted this standard on January 1, 2018 and will apply it prospectively to all applicable transactions after the adoption date.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The new guidance requires registrants to present the service cost component of net periodic benefit cost in the same income statement line item or items as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Registrants will present the other components of net periodic benefit cost separately from the service cost component; and, the line item or items used in the income statement to present the other components of net periodic benefit cost must be disclosed. The new standard must be adopted retrospectively for the presentation of the service cost component and the other components of net periodic benefit cost in the income statement, and prospectively for the capitalization of the service cost component of net periodic benefit cost in assets. The company adopted this guidance on January 1, 2018, and will record the other components of net periodic benefit cost in sundry income (expense) - net. The following tables summarize the reclassification of those costs from cost of goods sold, research and development expense, and selling, general and administrative expenses to sundry income (expense) - net in the interim Consolidated Income Statements:

Summary of Changes to the interim Consolidated Income Statement	For the Three Months		
	Ended June 30, 2017		
(in millions)	(Predecessor)		
	As	Restated	Effect
	for	of	Updated
	Discontinued	Change	
	Operations

Research and development expense	\$402	\$(15)	\$387
Selling, general and administrative expenses	\$1,287	\$(31)	\$1,256
Sundry income (expense) - net	\$(28)	\$(104)	\$(132)

Summary of Changes to the interim Consolidated Income Statement	For the Six Months		
	Ended June 30, 2017		
(in millions)	(Predecessor)		
	As	Restated	Effect
	for	of	Updated
	Discontinued	Change	
	Operations		
Cost of goods sold	\$8,230	\$(115)	\$8,115
Research and development expense	\$786	\$(31)	\$755
Selling, general and administrative expenses	\$2,508	\$(62)	\$2,446
Sundry income (expense) - net	\$278	\$(208)	\$70

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), Targeted Improvements to Accounting for Hedging Activities. The new guidance expands and refines hedge accounting for both nonfinancial and financial risk components and aligns the recognition and presentation of the effects of the hedging instrument and the hedged items in the financial statements. For cash flow and net investment hedges existing as of the date of adoption, an entity should apply a cumulative-effect adjustment related to eliminating the separate measurement of ineffectiveness to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the beginning of the fiscal year in which an entity adopts. Presentation and disclosure

guidance is required to be adopted prospectively. The new standard is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted in any interim period. All transition requirements and elections should be applied to hedging relationships existing (that is, hedging relationships in which the hedging instrument has not expired, been sold, terminated, or exercised or the entity has not removed the designation of the hedging relationship) on the date of adoption. The effect of adoption should be reflected as of the beginning of the fiscal year of adoption. The company early adopted the new guidance in the second quarter of 2018, and adoption did not have a material impact on the interim Consolidated Financial Statements.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Accounting Guidance Issued But Not Adopted as of June 30, 2018

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The amendments under the new guidance will require lessees to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability, other than leases that meet the definition of a short-term lease. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting. Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model and the new revenue recognition standard. The new leasing standard will be effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition, requiring application at the beginning of the earliest comparative period presented. The company is working to quantify the impact and anticipates that the adoption of the new standard will result in a material increase in lease-related assets and liabilities in the Consolidated Balance Sheets. The company is the lessee under various agreements for facilities and equipment that are currently accounted for as operating leases. A complete discussion of these leases is included in the company's 2017 Annual Report in Note 14, "Commitments and Contingent Liabilities."

Note 3 - BUSINESS COMBINATIONS

Merger with Dow

Upon completion of the Merger, (i) each share of common stock, par value \$0.30 per share, of the company (the "DuPont Common Stock") was converted into the right to receive 1.2820 fully paid and non-assessable shares of DowDuPont common stock, par value \$0.01 per share, ("DowDuPont Common Stock"), in addition to cash in lieu of any fractional shares of DowDuPont Common Stock, and (ii) each share of DuPont Preferred Stock— \$4.50 Series and DuPont Preferred Stock— \$3.50 Series (collectively "DuPont Preferred Stock") issued and outstanding immediately prior to the Merger Effectiveness Time remains issued and outstanding and was unaffected by the Merger.

As provided in the Merger Agreement, at the Merger Effectiveness Time, all options relating to shares of DuPont Common Stock that were outstanding immediately prior to the effective time of the Merger were generally automatically converted into options relating to shares of DowDuPont Common Stock and all restricted stock units and performance based restricted stock units relating to shares of DuPont Common Stock that were outstanding immediately prior to the effective time of the Mergers were generally automatically converted into restricted stock units relating to shares of DowDuPont Common Stock, in each case, after giving effect to appropriate adjustments to reflect the Mergers and otherwise generally on the same terms and conditions as applied under the applicable plans and award agreements immediately prior to the Merger Effectiveness Time.

Prior to the Merger, shares of DuPont Common Stock were registered pursuant to Section 12(b) of the Securities Exchange Act of 1934, as amended and listed on the New York Stock Exchange (the "NYSE"). As a result of the Merger, on August 31, 2017, the company requested that the NYSE withdraw the shares of DuPont Common Stock from listing on the NYSE and filed a Form 25 with the U.S. Securities and Exchange Commission ("SEC") to report that DuPont Common Stock is no longer listed on the NYSE. DuPont continues to have preferred stock outstanding and it remains listed on the NYSE. DowDuPont Common Stock is listed and trades on the NYSE, ticker symbol DWDP.

As a condition of the regulatory approval of the Merger, DuPont was required to divest a portion of its crop protection business, including certain research and development capabilities. See Note 4 for additional information.

Preliminary Allocation of Purchase Price

Based on an evaluation of the provisions of Accounting Standards Codification ("ASC") 805, "Business Combinations" ("ASC 805"), Dow was determined to be the accounting acquirer in the Merger. DowDuPont has applied the acquisition method of accounting with respect to the assets and liabilities of DuPont, which have been measured at fair value as of the date of the Merger. In connection with the Merger and the related accounting determination, DuPont has elected to apply push-down accounting and reflect in its financial statements the fair value of assets and liabilities. Such fair values have been reflected in the Successor periods of the Consolidated Financial Statements.

DuPont's assets and liabilities were measured at estimated fair values as of the Merger Effectiveness Time, primarily using Level 3 inputs. Estimates of fair value represent management's best estimate which require a complex series of judgments about future events and uncertainties. Third-party valuation specialists were engaged to assist in the valuation of these assets and liabilities.

The total fair value of consideration transferred for the Merger was \$74,680 million. Total consideration is comprised of the equity value of the DowDuPont shares as of the Merger Effectiveness Time that were issued in exchange for DuPont shares, the cash value for fractional shares, and the portion of DuPont's share awards and share options earned as of the Merger Effectiveness Time.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table summarizes the fair value of consideration exchanged as a result of the Merger:

(In millions, except exchange ratio)

DuPont Common Stock outstanding as of the Merger Effectiveness Time	868.3
DuPont exchange ratio	1.2820
DowDuPont Common Stock issued in exchange for DuPont Common Stock	1,113.2
Fair value of DowDuPont Common Stock issued ¹	\$74,195
Fair value of DowDuPont equity awards issued in exchange for outstanding DuPont equity awards ²	485
Total consideration	\$74,680

1. Amount was determined based on the price per share of Dow Common Stock of \$66.65 on August 31, 2017.

Represents the fair value of replacement awards issued for DuPont's equity awards outstanding immediately before

2. the Merger and attributable to the service periods prior to the Merger. The previous DuPont equity awards were converted into the right to receive 1.2820 shares of DowDuPont Common Stock.

The acquisition method of accounting requires, among other things, that identifiable assets acquired and liabilities assumed be recognized on the balance sheet at their respective fair value as of the acquisition date. In determining the fair value, DowDuPont utilized various forms of the income, cost and market approaches depending on the asset or liability being fair valued. The estimation of fair value required significant judgments related to future net cash flows (including net sales, cost of products sold, selling and marketing costs, and working capital/contributory asset charges), discount rates reflecting the risk inherent in each cash flow stream, competitive trends, market comparables and other factors. Inputs were generally determined by taking into account historical data, supplemented by current and anticipated market conditions, and growth rates.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The table below presents the preliminary fair value that was allocated to DuPont's assets and liabilities based upon fair values as determined by DowDuPont. The valuation process to determine the fair values is not yet complete. DuPont estimated the preliminary fair value of acquired assets and liabilities as of the Merger Effectiveness Time based on information currently available and continues to adjust those estimates upon refinement of market participant assumptions for integrating businesses, finalization of tax returns in the pre-merger period and application of push-down accounting at the subsidiary level. During the first half of 2018, DowDuPont made measurement period adjustments to reflect facts and circumstances in existence as of the Merger Effectiveness Time. These adjustments primarily included a \$394 million increase in goodwill, a \$230 million decrease in property, plant, and equipment, a \$117 million decrease in indefinite-lived trademarks and trade names and customer-related assets, a \$16 million decrease in assets held for sale, a \$60 million increase in other current assets, a \$56 million increase in noncontrolling interests and a \$28 million decrease in investments in nonconsolidated affiliates. The preliminary fair values are substantially complete with the exception of identifiable intangible assets; property, plant, and equipment; income taxes; and goodwill. As DuPont finalizes the fair values of assets acquired and liabilities assumed, additional purchase price adjustments may be recorded during the measurement period, but no later than one year from the date of the Merger. DuPont will reflect measurement period adjustments, if any, in the period in which the adjustments are recognized. Final determination of the fair values may result in further adjustments to the values presented in the following table.

(In millions)	Estimated fair value as adjusted
Fair Value of Assets as of the Merger Effectiveness Time	
Cash and cash equivalents	\$4,005
Marketable securities	2,849
Accounts and notes receivable	7,847
Inventories	8,806
Other current assets	420
Investment in nonconsolidated affiliates	1,626
Assets held for sale - current	3,732
Property, plant and equipment	11,711
Goodwill	45,499
Other intangible assets	27,104
Deferred income tax assets	284
Other assets	2,066
Total Assets	\$115,949
Fair Value of Liabilities	
Short-term borrowings and capital lease obligations	\$5,319
Accounts payable	3,298
Income taxes payable	261
Accrued and other current liabilities	3,517
Liabilities held for sale - current	125
Long-term debt	9,878
Deferred income tax liabilities	8,319
Pension and other post employment benefits - noncurrent	8,056
Other noncurrent obligations	2,023
Total Liabilities	\$40,796
Noncontrolling interests	234

Preferred stock	239
Fair Value of Net Assets (Consideration for the Merger)	\$74,680

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Integration and Separation Costs

Integration and separation costs have been and are expected to be significant. These costs to date primarily have consisted of financial advisory, information technology, legal, accounting, consulting, and other professional advisory fees associated with the preparation and execution of activities related to the Merger and the Intended Business Separations. These costs are recorded within integration and separation costs in the Successor periods and within selling, general and administrative expenses in the Predecessor periods within the interim Consolidated Income Statements.

(In millions)	Successor	Predecessor	Successor	Predecessor
	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Integration and separation costs	\$ 327		\$ 582	
Selling, general and administrative expenses		\$ 201		\$ 371

H&N Business

On November 1, 2017, the company completed the FMC Transactions through the acquisition of the H&N Business and the divestiture of the Divested Ag Business. The acquisition is being integrated into the nutrition and health product line to enhance DuPont's position as a leading provider of sustainable, bio-based food ingredients and allow for expanded capabilities in the pharma excipients space. The company accounted for the acquisition in accordance with ASC 805, which requires the assets acquired and liabilities assumed to be recognized on the balance sheet at their fair values as of the acquisition date. The purchase accounting and purchase price allocation for the H&N Business are substantially complete. However, the company continues to refine the preliminary valuation of certain acquired assets, such as intangibles, deferred income taxes, and property, plant and equipment, which could impact the amount of residual goodwill recorded. The company will finalize the amounts recognized as it obtains the information necessary to complete the analysis, but no later than one year from the date of the acquisition. The preliminary fair value allocated to the assets acquired and liabilities assumed for the H&N Business at November 1, 2017 was \$1,970 million. There were no material updates to the purchase accounting and purchase price allocation for the six months ended June 30, 2018. For additional information regarding the acquisition of the H&N Business, see Note 3, "Business Combinations," in the 2017 Annual Report.

NOTE 4 - DIVESTITURES AND OTHER TRANSACTIONS

Merger Remedy - Divested Ag Business

On March 31, 2017, the company and FMC entered into the FMC Transaction Agreement. Under the FMC Transaction Agreement, and effective upon the closing of the transaction on November 1, 2017, FMC acquired the Divested Ag Business that DuPont was required to divest in order to obtain EC approval of the Merger Transaction and DuPont acquired the H&N Business. See further discussion of the FMC Transactions in Note 1. The sale of the Divested Ag Business meets the criteria for discontinued operations and as such, earnings are included within income (loss) from discontinued operations after income taxes for all periods presented.

For the six months ended June 30, 2018, the company recorded a loss from discontinued operations before income taxes related to the Divested Ag Business of \$10 million (\$5 million after tax). The following table summarizes the results of operations of the Divested Ag Business presented as discontinued operations for the three and six months ended June 30, 2017:

Predecessor

(In millions)	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Net sales	\$ 453	\$ 877
Cost of goods sold	171	333
Other operating charges	8	12
Research and development expenses	39	71
Selling, general and administrative expenses	61	100
Sundry income - net	7	7
Income from discontinued operations before income taxes	181	368
Provision for income taxes	44	71
Income from discontinued operations after income taxes	\$ 137	\$ 297

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table presents depreciation and capital expenditures of the discontinued operations related to the Divested Ag Business:

(In millions)	Predecessor	
	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Depreciation	\$ 8	\$ 16
Capital expenditures	\$ 4	\$ 8

Food Safety Diagnostic Sale

In February 2017, the company completed the sale of global food safety diagnostics to Hygiena LLC. The sale resulted in a pre-tax gain of \$162 million (\$86 million net of tax). The gain was recorded in sundry income (expense) - net in the company's interim Consolidated Income Statement for the six months ended June 30, 2017.

Performance Chemicals

On July 1, 2015, DuPont completed the separation of its Performance Chemicals segment through the spin-off of all of the issued and outstanding stock of The Chemours Company (the "Separation"). In connection with the Separation, the company and The Chemours Company ("Chemours") entered into a Separation Agreement (the "Separation Agreement"). Pursuant to the Separation Agreement and the amendment to the Separation Agreement, as discussed below, Chemours indemnifies DuPont against certain litigation, environmental, workers' compensation and other liabilities that arose prior to the distribution. The term of this indemnification is generally indefinite and includes defense costs and expenses, as well as monetary and non-monetary settlements and judgments. In 2017, DuPont and Chemours amended the Separation Agreement to provide for a limited sharing of potential future perfluorooctanoic acid ("PFOA") liabilities for a period of five years beginning July 6, 2017. In connection with the recognition of liabilities related to these matters, the company records an indemnification asset when recovery is deemed probable. At June 30, 2018, the indemnification assets are \$87 million within accounts and notes receivable - net and \$324 million within other assets along with the corresponding liabilities of \$87 million within accrued and other current liabilities and \$324 million within other noncurrent obligations in the interim Condensed Consolidated Balance Sheet. See Note 14 for further discussion of the amendment to the Separation Agreement and certain litigation and environmental matters indemnified by Chemours.

Income from discontinued operations after taxes for the three months ended June 30, 2017 includes a tax benefit of \$10 million associated with an adjustment to the tax benefit recognized in the first quarter of 2017 related to the charge for the PFOA multidistrict litigation settlement. Income from discontinued operations after income taxes for the six months ended June 30, 2017 includes a charge of \$335 million (\$214 million net of tax) in connection with the PFOA multi-district litigation settlement. See Note 14 for further discussion.

NOTE 5 - REVENUE

Revenue Recognition

Products

Substantially all of DuPont's revenue is derived from product sales. Product sales consist of sales of DuPont's products to supply manufacturers, distributors, and farmers. DuPont considers purchase orders, which in some cases are governed by master supply agreements, to be a contract with a customer. Contracts with customers are considered to

be short-term when the time between order confirmation and satisfaction of the performance obligations is equal to or less than one year.

Revenue from product sales is recognized when the customer obtains control of the company's product, which occurs at a point in time according to shipping terms. Payment terms for contracts related to product lines other than agriculture generally average 30 to 60 days after invoicing, depending on business and geography. Payment terms for agriculture product line contracts are generally less than one year from invoicing. The company elected the practical expedient and will not adjust the promised amount of consideration for the effects of a significant financing component when DuPont expects it will be one year or less between when a customer obtains control of the company's product and when payment is due. The company has elected to recognize shipping and handling activities when control has transferred to the customer as an expense in cost of goods sold. Taxes collected from customers relating to product sales and remitted to governmental authorities are excluded from revenues. In addition, DuPont elected the practical expedient to expense any costs to obtain contracts as incurred, as the amortization period for these costs would have been one year or less.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The transaction price includes estimates of variable consideration, such as rights of return, rebates, and discounts, that are reductions in revenue. All estimates are based on the company's historical experience, anticipated performance, and the company's best judgment at the time the estimate is made. Estimates for variable consideration are reassessed each reporting period and are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur upon resolution of uncertainty associated with the variable consideration. The majority of contracts have a single performance obligation satisfied at a point in time and the transaction price is stated in the contract, usually as quantity times price per unit. For contracts with multiple performance obligations, DuPont allocates the transaction price to each performance obligation based on the relative standalone selling price. The standalone selling price is the observable price which depicts the price as if sold to a similar customer in similar circumstances.

Licenses of Intellectual Property

DuPont enters into licensing arrangements with customers under which it licenses its intellectual property, such as patents and trademarks. Revenue from the majority of intellectual property licenses is derived from sales-based royalties. The company estimates the expected amount of sales-based royalties based on historical sales by customer. Revenue for licensing agreements that contain sales-based royalties is recognized at the later of (i) when the subsequent sale occurs or (ii) when the performance obligation to which some or all of the royalty has been allocated is satisfied.

Contract Balances

Contract liabilities primarily reflect deferred revenue from prepayments under agriculture product line contracts with customers where the company receives advance payments for products to be delivered in future periods. DuPont classifies deferred revenue as current or noncurrent based on the timing of when the company expects to recognize revenue. Contract assets primarily include amounts related to contractual rights to consideration for completed performance not yet invoiced within the industrial biosciences product line. Accounts receivable are recorded when the right to consideration becomes unconditional.

Contract Balances (In millions)	Topic 606		
	June 30, 2018	Adjustments January 1, 2018	December 31, 2017
Accounts and notes receivable - trade ¹	\$ 6,428	\$ 87	\$ 3,976
Contract assets - current ²	\$ 62	\$ 40	\$ —
Deferred revenue - current ³	\$ 392	\$ 2	\$ 2,014
Deferred revenue - noncurrent ⁴	\$ 42	\$ —	\$ 48

1. Included in accounts and notes receivable - net in the Consolidated Balance Sheets.

2. Included in other current assets in the Consolidated Balance Sheets.

3. Included in accrued and other current liabilities in the Consolidated Balance Sheets.

4. Included in other noncurrent obligations in the Consolidated Balance Sheets.

The change in deferred revenue from December 31, 2017 to June 30, 2018 was substantially due to the timing of agriculture product line seed deliveries to customers for the North America growing season. Revenue recognized during the six months ended June 30, 2018 from amounts included in deferred revenue at the beginning of the period was \$1,815 million.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Disaggregation of Revenue

Effective with the Merger, DuPont's business activities are components of DowDuPont's business operations. DuPont's business activities, including the assessment of performance and allocation of resources, are reviewed and managed by DowDuPont. Information used by the chief operating decision maker of DuPont relates to the company in its entirety. Accordingly, there are no separate reportable business segments for DuPont under ASC 280 "Segment Reporting" and DuPont's business results are reported in this Form 10-Q as a single operating segment.

The company has one reportable segment with the following principal product lines: agriculture, packaging and specialty plastics, electronics and imaging, nutrition and health, industrial biosciences, transportation and advanced polymers and safety and construction. The company believes disaggregation of revenue by principal product line best depicts the nature, amount, timing, and uncertainty of its revenue and cash flows. Net sales by principal product line are included below:

(In millions)	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
Agriculture	\$ 4,058	\$ 6,401
Packaging and Specialty Plastics	416	835
Electronics and Imaging	553	1,080
Nutrition and Health	1,057	2,081
Industrial Biosciences	429	835
Transportation and Advanced Polymers	1,142	2,263
Safety and Construction	889	1,744
Other	1	5
Total	\$ 8,545	\$ 15,244

Sales are attributed to geographic regions based on customer location. Net sales by geographic region are included below:

(In millions)	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
U.S. & Canada	\$ 4,755	\$ 7,270
EMEA ¹	1,564	3,730
Asia Pacific	1,737	3,272
Latin America	489	972
Total	\$ 8,545	\$ 15,244

¹. Europe, Middle East, and Africa (EMEA).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 6 - RESTRUCTURING AND ASSET RELATED CHARGES - NET

DowDuPont Cost Synergy Program

In September and November 2017, DowDuPont and the company approved post-merger restructuring actions under the DowDuPont Cost Synergy Program (the "Synergy Program"), adopted by the DowDuPont Board of Directors. The Synergy Program is designed to integrate and optimize the organization following the Merger and in preparation for the Intended Business Separations. Based on all actions approved to date under the Synergy Program, DuPont expects to record total pre-tax restructuring charges of \$430 million to \$600 million, comprised of approximately \$320 million to \$360 million of severance and related benefits costs; \$110 million to \$140 million of costs related to contract terminations; and up to \$100 million of asset related charges. The Synergy Program includes certain asset actions that are reflected in the preliminary fair value measurement of DuPont's assets as of the Merger Effectiveness Time. Current estimated total pre-tax restructuring charges could be impacted by future adjustments to the preliminary fair value of DuPont's assets.

As a result of these actions, the company recorded pre-tax restructuring charges of \$187 million for the period September 1 through December 31, 2017, consisting of severance and related benefit costs of \$153 million, contract termination costs of \$31 million and asset related charges of \$3 million.

For the three and six months ended June 30, 2018, the company recorded pre-tax charges of \$94 million and \$191 million, respectively, recognized in restructuring and asset related charges - net in the company's interim Consolidated Income Statements. The charge for the three months ended June 30, 2018 is comprised of severance and related benefit costs of \$84 million, contract termination costs of \$4 million and asset-related charges of \$6 million. The charge for the six months ended June 30, 2018, is comprised of severance and related benefit costs of \$152 million, contract termination costs of \$33 million and asset-related charges of \$6 million. Substantially all of the remaining restructuring charges are expected to be incurred in 2018 and the related actions, including employee separations, associated with this plan are expected to be substantially complete by the end of 2019.

DuPont account balances and activity for the Synergy Program are summarized below:

(In millions)	Severance and Contract Related Termination Benefit Charges Costs	Asset-Related Charges	Total	
Balance at December 31, 2017	\$ 133	\$ 28	\$ —	\$ 161
Charges to income from continuing operations for the six months ended June 30, 2018	152	33	6	191
Payments	(57)	(28)	—	(85)
Net translation adjustment	(2)	—	—	(2)
Asset write-offs	—	—	(6)	(6)
Balance at June 30, 2018	\$ 226	\$ 33	\$ —	\$ 259

2017 Restructuring Program

At June 30, 2018, total liabilities related to the program were \$10 million. The actions associated with this plan were substantially complete in 2017. A complete discussion of restructuring initiatives is included in the company's 2017 Annual Report in Note 5, "Restructuring and Asset Related Charges - Net."

The company incurred pre-tax charges of \$160 million and \$312 million for the three and six months ended June 30, 2017, respectively, recognized in restructuring and asset related charges - net in the company's interim Consolidated Income Statements. The charge for the three months ended June 30, 2017 is comprised of \$160 million of asset related charges. The charge for the six months ended June 30, 2017 is comprised of \$279 million of asset-related charges and \$33 million in severance and related benefit costs. The asset related charges mainly consist of accelerated depreciation associated with the closure of the safety and construction product line at the Cooper River manufacturing site located near Charleston, South Carolina.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 7 - RELATED PARTIES

Services Provided by and to Dow and its affiliates

Following the Merger, DuPont reports transactions with Dow and its affiliates as related party transactions. The table below presents revenue earned and expenses incurred in transactions with Dow and its affiliates following the Merger. DuPont sells to and procures from Dow and its affiliates certain feedstocks and raw materials that are consumed in each company's manufacturing process, as well as finished goods.

(In millions)	Successor	
	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
Net sales	\$ 34	\$ 78
Cost of goods sold	\$ 39	\$ 63

For the three and six months ended June 30, 2018, purchases from Dow and its affiliates were \$64 million and \$107 million, respectively.

Transactions with DowDuPont

DowDuPont relies on distributions and other intercompany transfers from DuPont and Dow to fund payment of its costs and expenses. In November 2017, DowDuPont's Board of Directors authorized an initial \$4,000 million share repurchase program to buy back shares of DowDuPont common stock. In February and May 2018, the Board declared first and second quarter dividends per share of DowDuPont common stock payable on March 15, 2018 and June 15, 2018, respectively. For the six months ended June 30, 2018, DuPont declared and paid distributions to DowDuPont of about \$1,658 million, primarily to fund a portion of DowDuPont's first and second quarter share repurchases and dividend payments.

In addition, at June 30, 2018 and December 31, 2017, DuPont had a payable to DowDuPont of \$391 million and \$354 million, respectively, included in accounts payable in the Consolidated Balance Sheets related to its estimated 2017 and 2018 tax liability. See Note 9 for additional information.

NOTE 8 - SUPPLEMENTARY INFORMATION

Sundry Income (Expense) - Net	Successor		Predecessor	
	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Royalty income ¹		\$ 28		\$ 73
Interest income	\$ 30	32	58	57
Equity in earnings of affiliates - net	19	24	33	42
Net gain on sales of businesses and		11	13	203

other assets ²					
Net exchange gains (losses)	23	(140)	(109) (199
Non-operating pension and other post employment benefit credit (cost) ³	95	(104)	187	(208
Miscellaneous income and expenses - net ⁴	16	17		59	102
Sundry income (expense) - net	\$ 194	\$ (132)	\$ 241	\$ 70

1. In the Successor periods, royalty income of \$44 million and \$85 million is included in net sales for the three and six months ended June 30, 2018, respectively.
2. Includes a pre-tax gain of \$162 million (\$86 million net of tax) for the six months ended June 30, 2017 related to the sale of global food safety diagnostics. See Note 4 for additional information.
3. Includes non-service related components of net periodic benefit credits (costs) (interest cost, expected return on plan assets, amortization of unrecognized (gain) loss, amortization of prior service benefit, and curtailment/settlement gain). See Note 2 for discussion of the retrospective adoption of ASU No. 2017-07.
4. Miscellaneous income and expenses - net, includes interest items (Predecessor periods only), gains related to litigation settlements, and other items.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table summarizes the impacts of the company's foreign currency hedging program on the company's results of operations. The company routinely uses foreign currency exchange contracts to offset its net exposures, by currency, related to the foreign currency-denominated monetary assets and liabilities. The objective of this program is to maintain an approximately balanced position in foreign currencies in order to minimize, on an after-tax basis, the effects of exchange rate changes on net monetary asset positions. The hedging program gains (losses) are largely taxable (tax deductible) in the "United States" ("U.S."), whereas the offsetting exchange gains (losses) on the remeasurement of the net monetary asset positions are often not taxable (tax deductible) in their local jurisdictions. The net pre-tax exchange gains (losses) are recorded in sundry income (expense) - net and the related tax impact is recorded in provision for income taxes on continuing operations in the interim Consolidated Income Statements.

(In millions)	Successor		Predecessor	
	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Subsidiary Monetary Position (Losses) Gains				
Pre-tax exchange losses	\$ (154)	\$ (54)	\$ (105)	\$ (28)
Local tax (expenses) benefits	(8)	94	24	130
Net after-tax impact from subsidiary exchange (losses) gains	\$ (162)	\$ 40	\$ (81)	\$ 102
Hedging Program Gains (Losses)				
Pre-tax exchange gains (losses) ¹	\$ 177	\$ (86)	\$ (4)	\$ (171)
Tax (expenses) benefits	(41)	31	1	61
Net after-tax impact from hedging program exchange gains (losses)	\$ 136	\$ (55)	\$ (3)	\$ (110)
Total Exchange Gains (Losses)				
Pre-tax exchange gains (losses)	\$ 23	\$ (140)	\$ (109)	\$ (199)
Tax (expenses) benefits	(49)	125	25	191
Net after-tax exchange losses	\$ (26)	\$ (15)	\$ (84)	\$ (8)

¹ Includes a \$(50) million foreign exchange loss for the six months ended June 30, 2018 related to adjustments to foreign currency exchange contracts as a result of U.S. tax reform.

Cash, cash equivalents and restricted cash

The following table provides a reconciliation of cash and cash equivalents and restricted cash (included in other current assets) presented in the Condensed Consolidated Balance Sheets to the total cash, cash equivalents and restricted cash presented in the interim Condensed Consolidated Statements of Cash Flows.

(In millions)	Successor	
	June 30, 2018	December 31, 2017
Cash and cash equivalents	\$4,421	\$ 7,250
Restricted cash	516	558
Total cash, cash equivalents and restricted cash	\$4,937	\$ 7,808

DuPont entered into a trust agreement in 2013 (as amended and restated in 2017), establishing and requiring DuPont to fund a trust (the "Trust") for cash obligations under certain non-qualified benefit and deferred compensation plans upon a change in control event as defined in the Trust agreement. Under the Trust agreement, the consummation of the Merger was a change in control event. Restricted cash at June 30, 2018 and December 31, 2017 is related to the Trust.

Accounts and Notes Receivable - Net

Accounts and notes receivable - net was \$7,734 million at June 30, 2018 and \$5,239 million at December 31, 2017. Notes receivable, which is a component of accounts and notes receivable - net, was \$1,615 million at June 30, 2018 and \$199 million at December 31, 2017. The increase was primarily due to normal seasonality in the sales and cash collections cycle in the agriculture product line.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 9 - INCOME TAXES

On December 22, 2017, the Tax Cuts and Jobs Act (“The Act”) was enacted. The Act reduces the U.S. federal corporate income tax rate from 35 percent to 21 percent, requires companies to pay a one-time transition tax (“transition tax”) on earnings of foreign subsidiaries that were previously tax deferred, creates new provisions related to foreign sourced earnings, eliminates the domestic manufacturing deduction and moves towards a territorial system. At June 30, 2018, the company had not completed its accounting for the tax effects of The Act; however, as described below, the company has made reasonable estimates of the effects on its existing deferred tax balances and the one-time transition tax. In accordance with Staff Accounting Bulletin 118 (“SAB 118”), during the measurement period, income tax effects of the Act may be refined upon obtaining, preparing, or analyzing additional information, and such changes could be material. During the measurement period, provisional amounts may also be adjusted for the effects, if any, of interpretive guidance issued by U.S. regulatory and standard-setting bodies.

As a result of The Act, the company remeasured its U.S. federal deferred tax assets and liabilities based on the rates at which they are expected to reverse in the future, which is generally 21 percent. However, the company is still analyzing certain aspects of The Act and refining its calculations. In the three and six months ended June 30, 2018, charges of \$7 million and \$55 million, respectively, were recorded to provision for income taxes on continuing operations in the company's interim Consolidated Income Statements to adjust the provisional amount related to the remeasurement of the company's deferred tax balance, resulting in a benefit of \$(2,661) million since the enactment of The Act.

The Act requires a mandatory deemed repatriation of post-1986 undistributed foreign earnings and profits (“E&P”), which results in a one-time transition tax. The company has not yet completed its calculation of the total post-1986 foreign E&P for its foreign subsidiaries as E&P will not be finalized until the Federal income tax return is filed. The company has not recorded a change to the \$715 million provisional charge recorded during the fourth quarter 2017 with respect to the one-time transition tax.

In the six months ended June 30, 2018, the company recognized a charge of \$16 million to provision for income taxes on continuing operations in the company's interim Consolidated Income Statements as a result of an indirect impact of the Act related to certain inventory.

For tax years beginning after December 31, 2017, The Act introduces new provisions for U.S. taxation of certain global intangible low-taxed income (“GILTI”). The company is evaluating the policy election on whether the additional liability will be recorded in the period in which it is incurred or recognized for the basis differences that would be expected to reverse in future years.

DuPont and its subsidiaries are included in DowDuPont's consolidated federal income tax group and consolidated tax return. Generally, the consolidated tax liability of the DowDuPont U.S. tax group for each year will be apportioned among the members of the consolidated group based on each member's separate taxable income. DuPont and Dow intend that to the extent Federal and/or State corporate income tax liabilities are reduced through the utilization of tax attributes of the other, settlement of any receivable and payable generated from the use of the other party's sub-group attributes will be in accordance with a tax sharing agreement and/or tax matters agreement.

Each year the company files hundreds of tax returns in the various national, state and local income taxing jurisdictions in which it operates. These tax returns are subject to examination and possible challenge by the tax authorities. Positions challenged by the tax authorities may be settled or appealed by the company. As a result, there is an uncertainty in income taxes recognized in the company's financial statements in accordance with accounting for

income taxes and accounting for uncertainty in income taxes. The ultimate resolution of such uncertainties is not expected to have a material impact on the company's results of operations.

During the three months ended June 30, 2017, the company recognized tax expense of \$29 million associated with the elimination of the U.S. domestic manufacturing deduction recorded in 2016 due to taxable income limitations triggered by the company's decision to deduct the second quarter 2017 principal U.S. pension plan contribution on its 2016 consolidated U.S. tax return.

Additionally, during the six months ended June 30, 2017, the company recognized a tax benefit of \$57 million, as well as a \$50 million pre-tax benefit on associated accrued interest reversals, related to a reduction in the company's unrecognized tax benefits due to the closure of various tax statutes of limitations. Income from continuing operations during the six months ended June 30, 2017 includes a tax benefit of \$53 million and a pre-tax benefit of \$47 million for accrued interest reversals (recorded in sundry income (expense) - net). Income from discontinued operations during the six months ended June 30, 2017 includes a tax benefit of \$4 million and a pre-tax benefit of \$3 million for the accrued interest reversal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 10 - EARNINGS PER SHARE OF COMMON STOCK

Upon completion of the Merger, each share of DuPont Common Stock was converted into the right to receive 1.2820 fully paid and non-assessable shares of DowDuPont Common Stock, in addition to cash in lieu of any fractional shares of DowDuPont Common Stock issued and therefore earnings per share of common stock information is not presented for the Successor periods.

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the Predecessor periods indicated below:

(In millions, except share amounts)	Predecessor Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Numerator:		
Income from continuing operations after income taxes attributable to DuPont	\$717	\$ 1,888
Preferred dividends	(3)	(5)
Income from continuing operations after income taxes available to DuPont common stockholders	714	1,883
Income from discontinued operations after income taxes available to DuPont common stockholders	145	87
Net income available to common stockholders	\$859	\$ 1,970
Denominator:		
Weighted-average number of common shares outstanding - Basic	868,488	1,600,000
Dilutive effect of the company's employee compensation plans	4,269,000	4,000
Weighted-average number of common shares outstanding - Diluted	872,757	1,604,000

The following average number of stock options were antidilutive, and therefore not included in the dilutive earnings per share calculations:

	Predecessor Three Months Six Months Ended Ended June June 30, 2017 30, 2017
Average number of stock options	3,000

NOTE 11 - INVENTORIES

(In millions)	Successor June 30, 2018	December 31, 2017
Finished products	\$3,645	\$ 4,500

Semi-finished products	1,300	2,769
Raw materials	520	371
Stores and supplies	306	447
Total	\$5,771	\$ 8,087
Adjustment of inventories to a last-in, first out (LIFO) basis	532	546
Total inventories	\$6,303	\$ 8,633

Other ¹	378	(20)	358	459	(10)	449
Total other intangible assets with finite lives	16,239	(1,027)	15,212	16,334	(389)	15,945
Intangible assets not subject to amortization (Indefinite-lived):						
In-process research and development ("IPR&D")	630	—	630	660	—	660
Germplasm ²	6,265	—	6,265	6,265	—	6,265
Trademarks / trade names	4,759	—	4,759	4,856	—	4,856
Total other intangible assets	11,654	—	11,654	11,781	—	11,781
Total	\$27,893	\$ (1,027)	\$26,866	\$28,115	\$ (389)	\$27,726

1. Primarily consists of sales and farmer networks, marketing and manufacturing alliances and noncompetition agreements.

2. Germplasm is the pool of genetic source material and body of knowledge gained from the development and delivery stage of plant breeding. The company recognized germplasm as an intangible asset upon the acquisition of Pioneer. This intangible asset is expected to contribute to cash flows beyond the foreseeable future and there are no legal, regulatory, contractual, or other factors which limit its useful life.

The aggregate pre-tax amortization expense from continuing operations for definite-lived intangible assets was \$333 million and \$648 million for the three and six months ended June 30, 2018, respectively, and \$57 million and \$108 million for the three and six months ended June 30, 2017, respectively. The estimated aggregate pre-tax amortization expense from continuing operations for the remainder of 2018 and each of the next five years is approximately \$618 million, \$1,254 million, \$1,244 million, \$1,228 million, \$1,221 million and \$1,207 million, respectively.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 13 - SHORT-TERM BORROWINGS, LONG-TERM DEBT AND AVAILABLE CREDIT FACILITIES

Repurchase Facility

In February 2018, the company entered into a new committed receivable repurchase facility of up to \$1,300 million (the "2018 Repurchase Facility") which expires in December 2018. From time to time, the company and the banks modify the monthly commitment amounts to better align with working capital requirements. Under the 2018 Repurchase Facility, DuPont may sell a portfolio of available and eligible outstanding agriculture product line customer notes receivables to participating institutions and simultaneously agree to repurchase at a future date. The 2018 Repurchase Facility is considered a secured borrowing with the customer notes receivable inclusive of those that are sold and repurchased, equal to 105 percent of the outstanding amounts borrowed utilized as collateral. Borrowings under the 2018 Repurchase Facility have an interest rate of LIBOR + 0.75 percent.

As of June 30, 2018, \$1,208 million of notes receivable, recorded in accounts and notes receivable - net, were pledged as collateral against outstanding borrowings under the 2018 Repurchase Facility of \$1,150 million, recorded in short-term borrowings and capital lease obligations on the interim Condensed Consolidated Balance Sheet.

Term Loan and Revolving Credit Facilities

In March 2016, the company entered into a credit agreement that provides for a three-year, senior unsecured term loan facility in the aggregate principal amount of \$4,500 million (as may be amended, from time to time, the "Term Loan Facility") under which DuPont may make up to seven term loan borrowings and amounts repaid or prepaid are not available for subsequent borrowings. The proceeds from the borrowings under the Term Loan Facility will be used for the company's general corporate purposes including debt repayment, working capital and funding a portion of DowDuPont's costs and expenses. The Term Loan Facility was amended in 2018 to extend the maturity date to June 2020, at which time all outstanding borrowings, including accrued but unpaid interest, become immediately due and payable, and to extend the date on which the commitment to lend terminates to June 2019. At June 30, 2018, the company had made three term loan borrowings in an aggregate principal amount of \$1,500 million and had unused commitments of \$3,000 million under the Term Loan Facility.

In addition, in 2018 the company amended its \$3,000 million revolving credit facility to extend the maturity date to June 2020.

NOTE 14 - COMMITMENTS AND CONTINGENT LIABILITIES

Guarantees

Indemnifications

In connection with acquisitions and divestitures as of June 30, 2018, the company has indemnified respective parties against certain liabilities that may arise in connection with these transactions and business activities prior to the completion of the transactions. The term of these indemnifications, which typically pertain to environmental, tax and product liabilities, is generally indefinite. In addition, the company indemnifies its duly elected or appointed directors and officers to the fullest extent permitted by Delaware law, against liabilities incurred as a result of their activities for the company, such as adverse judgments relating to litigation matters. If the indemnified party were to incur a liability or have a liability increase as a result of a successful claim, pursuant to the terms of the indemnification, the company would be required to reimburse the indemnified party. The maximum amount of potential future payments is generally unlimited.

Obligations for Equity Affiliates & Others

The company has directly guaranteed various debt obligations under agreements with third parties related to equity affiliates, and customers. At June 30, 2018 and December 31, 2017, the company had directly guaranteed \$292 million and \$297 million, respectively, of such obligations. These amounts represent the maximum potential amount of future (undiscounted) payments that the company could be required to make under the guarantees. The company would be required to perform on these guarantees in the event of default by the guaranteed party.

The company assesses the payment/performance risk by assigning default rates based on the duration of the guarantees. These default rates are assigned based on the external credit rating of the counterparty or through internal credit analysis and historical default history for counterparties that do not have published credit ratings. For counterparties without an external rating or available credit history, a cumulative average default rate is used.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In certain cases, the company has recourse to assets held as collateral, as well as personal guarantees from customers. Assuming liquidation, these assets are estimated to cover approximately 24 percent of the \$89 million of guaranteed obligations of customers. Set forth below are the company's guaranteed obligations at June 30, 2018.

The following tables provide a summary of the final expiration year and maximum future payments for each type of guarantee:

Guarantees at June 30, 2018 (Successor) (In millions)	Final Expiration Year	Maximum Future Payments
Obligations for customers ¹ :		
Bank borrowings	2022	\$ 89
Obligations for non-consolidated affiliates ² :		
Bank borrowings	2018	167
Residual value guarantees ³	2029	36
Total guarantees		\$ 292

- Existing guarantees for select customers, as part of contractual agreements. The terms of the guarantees are
1. equivalent to the terms of the customer loans that are primarily made to finance customer invoices. Of the total maximum future payments, \$85 million had terms less than a year.
 2. Existing guarantees for non-consolidated affiliates' liquidity needs in normal operations.
 3. The company provides guarantees related to leased assets specifying the residual value that will be available to the lessor at lease termination through sale of the assets to the lessee or third parties.

Litigation

The company is subject to various legal proceedings arising out of the normal course of its current and former business operations, including product liability, intellectual property, commercial, environmental and antitrust lawsuits. It is not possible to predict the outcome of these various proceedings. Although considerable uncertainty exists, management does not anticipate that the ultimate disposition of these matters will have a material adverse effect on the company's results of operations, consolidated financial position or liquidity. However, the ultimate liabilities could be material to results of operations in the period recognized.

PFOA Matters

DuPont used PFOA (collectively, perfluorooctanoic acids and its salts, including the ammonium salt), as a processing aid to manufacture some fluoropolymer resins at various sites around the world including its Washington Works' plant in West Virginia. Pursuant to the Separation Agreement discussed in Note 4, the company is indemnified by Chemours for the PFOA matters discussed below and has recorded a total indemnification asset of \$16 million.

U.S. Environmental Protection Agency ("EPA") and New Jersey Department of Environmental Protection ("NJDEP") DuPont is obligated under agreements with the EPA, including a 2009 consent decree to which Chemours was added in 2017, and has made voluntary commitments to the NJDEP. These obligations and voluntary commitments include surveying, sampling and testing drinking water in and around certain company sites and offering treatment or an alternative supply of drinking water if tests indicate the presence of PFOA in drinking water at or greater than the national health advisory level established from time to time by the EPA. At June 30, 2018, the company had an accrual of \$16 million related to these obligations and voluntary commitments. The company recorded an indemnification asset corresponding to the accrual balance at June 30, 2018.

Leach v. DuPont

In August 2001, a class action, captioned Leach v. DuPont, was filed in West Virginia state court alleging that residents living near the Washington Works facility had suffered, or may suffer, deleterious health effects from exposure to PFOA in drinking water. A settlement was reached in 2004 that binds approximately 80,000 residents, (the "Leach Settlement"). In addition to paying \$23 million to plaintiff's attorneys for fees and expenses and \$70 million to fund a community health project, the company is obligated to fund up to \$235 million for a medical monitoring program for eligible class members and to pay administrative costs and fees associated with the program. Since the establishment in 2012 of an escrow account to fund medical monitoring as required by the settlement agreement, approximately \$2 million has been contributed to the account and approximately \$1 million has been disbursed from the account. The company also must continue to provide water treatment designed to reduce the level of PFOA in water to six area water districts, including the Little Hocking Water Association, and private well users. While it is probable that the company will incur liabilities related to funding the medical monitoring program and providing water treatment, the company does not expect any such liabilities to be material.

Under the Leach Settlement, the company funded a series of health studies which were completed in October 2012 by an independent science panel of experts (the "C8 Science Panel"). The C8 Science Panel found probable links, as defined in the Leach Settlement, between exposure to PFOA and pregnancy-induced hypertension, including preeclampsia; kidney cancer; testicular cancer; thyroid disease; ulcerative colitis; and diagnosed high cholesterol.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Leach class members may pursue personal injury claims against DuPont only for the six human diseases for which the C8 Science Panel determined a probable link exists. Following the Leach Settlement, approximately 3,550 lawsuits alleging personal injury claims were filed in various federal and state courts in Ohio and West Virginia. These lawsuits were consolidated in multi-district litigation ("MDL") in the U.S. District Court for the Southern District of Ohio.

MDL Settlement

In the first quarter of 2017, the MDL was settled for \$670.7 million in cash (the "MDL Settlement"), half of which was paid by Chemours and half paid by DuPont. The portion paid by DuPont was recorded, for the six months ended June 30, 2017, within loss from discontinued operations after income taxes in the interim Consolidated Income Statements. In 2017, all payments under the settlement agreement were made by both companies. DuPont's payment was not subject to indemnification or reimbursement by Chemours. In exchange for that payment, DuPont and Chemours are receiving releases of all claims by the settling plaintiffs. The MDL Settlement was entered into solely by way of compromise and settlement and is not in any way an admission of liability or fault by DuPont or Chemours. All of the MDL plaintiffs participated and resolved their claims within the MDL Settlement.

Post MDL Settlement PFOA Personal Injury Claims

The MDL Settlement did not resolve claims of plaintiffs who did not have claims in the MDL or whose claims are based on diseases first diagnosed after February 11, 2017. At June 30, 2018, about 35 lawsuits alleging personal injury, including kidney and testicular cancer, from exposure to PFOA in drinking water had been filed against the company in West Virginia and Ohio.

In addition, three lawsuits are pending in federal court in New York on behalf of five individuals who are residents of Hoosick Falls, New York. The plaintiffs claim personal injuries, including kidney cancer, thyroid disease and ulcerative colitis, from alleged exposure to PFOA discharged into the air and water from nearby manufacturing facilities owned and operated by defendant third parties. Plaintiffs claim that PFOA used at the facilities was purchased from or manufactured by the company and co-defendant, 3M Company.

Water Utility and Related Actions

Actions filed by local water utilities pending in Alabama state and New Jersey federal court allege contamination from PFOA, and in the case of the Alabama action, perfluorinated chemicals and compounds, including PFOA, ("PFCs") used in co-defendant manufacturers' operations. In February 2018, the State of Ohio filed an action in Ohio state court alleging natural resource damages from historical PFOA emissions from the Washington Works site. The plaintiffs in these actions seek monetary damages, remediation and other costs/damages.

While it is reasonably possible that the company could incur liabilities related to the post MDL Settlement PFOA personal injury claims and the water utility and related actions described above, any such liabilities are not expected to be material. Chemours is defending and indemnifying the company in these matters in accordance with the amendment to the Separation Agreement discussed below.

Amendment to Separation Agreement

Concurrent with the MDL Settlement, DuPont and Chemours amended the Separation Agreement to provide for a limited sharing of potential future PFOA liabilities (i.e., indemnifiable losses, as defined in the Separation Agreement) for a period of five years beginning July 6, 2017. During that five-year period, Chemours will annually pay future PFOA liabilities up to \$25 million and, if such amount is exceeded, DuPont would pay any excess amount up to the next \$25 million (which payment will not be subject to indemnification by Chemours), with Chemours annually

bearing any further excess liabilities. After the five-year period, this limited sharing agreement will expire, and Chemours' indemnification obligations under the Separation Agreement will continue unchanged. There have been no charges incurred by DuPont under this arrangement through June 30, 2018. Chemours has also agreed that it will not contest its liability to DuPont under the Separation Agreement for PFOA liabilities on the basis of ostensible defenses generally applicable to the indemnification provisions under the Separation Agreement, including defenses relating to punitive damages, fines or penalties or attorneys' fees, and waives any such defenses with respect to PFOA liabilities. Chemours has, however, retained defenses as to whether any particular PFOA claim is within the scope of the indemnification provisions of the Separation Agreement.

It is possible that new lawsuits could be filed against DuPont related to PFOA that may not be within the scope of the MDL Settlement. Any such new litigation would be subject to indemnification by Chemours under the Separation Agreement, as amended.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Fayetteville Works Facility, North Carolina

Prior to the separation of Chemours, the company introduced GenX as a polymerization processing aid and a replacement for PFOA at the Fayetteville Works facility. The facility is now owned and operated by Chemours which continues to manufacture and use GenX. Chemours is responding to ongoing inquiries and investigations from federal, state and local investigators, regulators and other governmental authorities as well as inquiries from the media and local community stakeholders. These inquiries and investigations involve the discharge of GenX and certain similar compounds from the Chemours' facility at Fayetteville Works into the Cape Fear River in Bladen County, North Carolina.

In August 2017, the U.S. Attorney's Office for the Eastern District of North Carolina served the company with a grand jury subpoena for testimony and the production of documents related to alleged discharges of GenX from the Fayetteville Works facility into the Cape Fear River. DuPont has been served with additional subpoenas relating to the same issue and in the second quarter 2018, received a subpoena expanding the scope to any PFCs discharged from the Fayetteville Works facility into the Cape Fear River. It is possible that these ongoing inquiries and investigations, including the grand jury subpoena, could result in penalties or sanctions, or that additional litigation will be instituted against Chemours and/or the company.

At June 30, 2018, several actions are pending in federal court against Chemours and the company. These actions have been consolidated into a single purported class action, on behalf of putative classes of property owners and residents in areas near or who draw drinking water from the Cape Fear River. These actions relate to the alleged discharge of certain PFCs into the river from the operations and wastewater treatment at the Fayetteville Works facility and seek various relief including medical monitoring, property damages and injunctive relief. Separate actions filed by the various North Carolina water authorities including Cape Fear Public Utility Authority and Brunswick County, North Carolina, have been consolidated into one action for purposes of litigation and seek actual and punitive damages as well as injunctive relief. In addition, an action remains pending in North Carolina state court on behalf of about 100 plaintiffs who own property near the Fayetteville Works facility. The plaintiffs seek damages for nuisance allegedly caused by releases of certain PFCs from the site.

Management believes the probability of loss with respect to these actions is remote.

The company has an indemnification claim against Chemours with respect to current and future inquiries and claims, including lawsuits, related to the foregoing. At June 30, 2018, Chemours is defending and indemnifying the company in the pending civil actions.

Environmental

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies. At June 30, 2018, the company had accrued obligations of \$426 million for probable environmental remediation and restoration costs, including \$60 million for the remediation of Superfund sites. These obligations are included in accrued and other current liabilities and other noncurrent obligations in the interim Condensed Consolidated Balance Sheets. This is management's best estimate of the costs for remediation and restoration with respect to environmental matters for which the company has accrued liabilities, although it is reasonably possible that the ultimate cost with respect to these particular matters could range up to \$860 million above the amount accrued at June 30, 2018. Consequently, it is reasonably possible that environmental remediation and restoration costs in excess of amounts accrued could have a material impact on the company's results of operations, financial condition and cash flows. It is the opinion of the company's management, however, that the possibility is remote that costs in excess of the range disclosed will have a material impact on the company's results of operations, financial condition or cash flows. Inherent uncertainties exist

in these estimates primarily due to unknown conditions, changing governmental regulations and legal standards regarding liability, and emerging remediation technologies for handling site remediation and restoration.

Pursuant to the Separation Agreement, the company is indemnified by Chemours for certain environmental matters, included in the liability of \$426 million, that have an estimated liability of \$236 million as of June 30, 2018, and a potential exposure that ranges up to approximately \$420 million above the amount accrued. As such, the company has recorded an indemnification asset of \$236 million corresponding to the company's accrual balance related to these matters at June 30, 2018, including \$41 million related to the Superfund sites.

Other Comprehensive (Loss) Income

The changes and after-tax balances of components comprising accumulated other comprehensive (loss) income are summarized below:

(In millions)	Cumulative Translation Adjustment ¹	Derivative Instruments	Pension Benefit Plans	Other Benefit Plans	Unrealized Gain (Loss) on Investments	Total
2017						
Balance January 1, 2017 (Predecessor)	\$ (2,843)	\$ 7	\$ (6,720)	\$ (357)	\$ 2	\$ (9,911)
Other comprehensive income (loss) before reclassifications	653	2	(47)	—	1	609
Amounts reclassified from accumulated other comprehensive (loss) income	—	(13)	244	7	(1)	237
Net other comprehensive income (loss)	653	(11)	197	7	—	846
Balance June 30, 2017	\$ (2,190)	\$ (4)	\$ (6,523)	\$ (350)	\$ 2	\$ (9,065)
2018						
Balance January 1, 2018 (Successor)	\$ (454)	\$ (2)	\$ 128	\$ (53)	\$ —	\$ (381)
Other comprehensive (loss) income before reclassifications	(966)	—	9	—	—	(957)
Amounts reclassified from accumulated other comprehensive (loss) income	—	(5)	(2)	—	—	(7)
Net other comprehensive (loss) income	(966)	(5)	7	—	—	(964)
Balance June 30, 2018	\$ (1,420)	\$ (7)	\$ 135	\$ (53)	\$ —	\$ (1,345)

The cumulative translation adjustment gain for the six months ended June 30, 2017 is primarily driven by the weakening of the U.S. dollar ("USD") against the European Euro ("EUR"). The currency translation loss for the six months ended June 30, 2018 was primarily driven by the strengthening of the USD against the EUR and the Brazilian Real ("BRL").

The tax benefit (expense) on the net activity related to each component of other comprehensive (loss) income were as follows:

(In millions)	Successor Three Months Ended June 30, 2018	Predecessor Three Months Ended June 30, 2017	Successor Six Months Ended June 30, 2018	Predecessor Six Months Ended June 30, 2017

Net periodic benefit cost - Continuing operations	\$ 24	\$ 30	\$ 47	\$ 60

¹. The 2018 impact relates to the curtailment and settlement of pension plans in the U.S. and Australia.

In accordance with adopted ASU No. 2017-07, service costs are included in cost of goods sold, research and development expense and selling, general and administrative expenses in the interim Consolidated Income Statements. Non-service related components of net periodic benefit (credit) cost are included in sundry income (expense) - net in the interim Consolidated Income Statements. See Notes 1, 2 and 8 for additional information.

During the six months ended June 30, 2017, the company made contributions of \$2,900 million to its principal U.S. pension plan funded through a debt offering in May of 2017; short-term borrowings, including commercial paper issuance; and cash.

NOTE 17 - FINANCIAL INSTRUMENTS

At June 30, 2018, the company had \$3,020 million (\$5,205 million at December 31, 2017) of held-to-maturity securities (primarily time deposits and money market funds) classified as cash equivalents, as these securities had maturities of three months or less at the time of purchase; and \$374 million (\$952 million at December 31, 2017) of held-to-maturity securities (primarily time deposits) classified as marketable securities as these securities had maturities of more than three months to less than one year at the time of purchase. The company's investments in held-to-maturity securities are held at amortized cost, which approximates fair value. These securities are included in cash and cash equivalents, marketable securities, and other current assets in the consolidated balance sheets.

Derivative Instruments

Objectives and Strategies for Holding Derivative Instruments

In the ordinary course of business, the company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency, interest rate and commodity price risks. The company has established a variety of derivative programs to be utilized for financial risk management. These programs reflect varying levels of exposure coverage and time horizons based on an assessment of risk.

Derivative programs have procedures and controls and are approved by the Corporate Financial Risk Management Committee, consistent with the company's financial risk management policies and guidelines. Derivative instruments used are forwards, options, futures and swaps. The company has not designated any nonderivatives as hedging instruments.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The company's financial risk management procedures also address counterparty credit approval, limits and routine exposure monitoring and reporting. The counterparties to these contractual arrangements are major financial institutions and major commodity exchanges. The company is exposed to credit loss in the event of nonperformance by these counterparties. The company utilizes collateral support annex agreements with certain counterparties to limit its exposure to credit losses. The company anticipates performance by counterparties to these contracts and therefore no material loss is expected. Market and counterparty credit risks associated with these instruments are regularly reported to management.

The notional amounts of the company's derivative instruments were as follows:

Notional Amounts (In millions)	Successor	
	June 30, 2018	December 31, 2017
Derivatives designated as hedging instruments:		
Commodity contracts	\$ 145	\$ 587
Derivatives not designated as hedging instruments:		
Foreign currency contracts	3,866,922	
Commodity contracts	8	6

Foreign Currency Risk

The company's objective in managing exposure to foreign currency fluctuations is to reduce earnings and cash flow volatility associated with foreign currency rate changes. Accordingly, the company enters into various contracts that change in value as foreign exchange rates change to protect the value of its existing foreign currency-denominated assets, liabilities, commitments and cash flows.

The company routinely uses forward exchange contracts to offset its net exposures, by currency, related to the foreign currency denominated monetary assets and liabilities of its operations. The primary business objective of this hedging program is to maintain an approximately balanced position in foreign currencies so that exchange gains and losses resulting from exchange rate changes, net of related tax effects, are minimized. The company also uses foreign currency exchange contracts to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on these contracts offset changes in the USD value of the related foreign currency-denominated revenues. The objective of the hedge program is to reduce earnings and cash flow volatility related to changes in foreign currency exchange rates.

Commodity Price Risk

Commodity price risk management programs serve to reduce exposure to price fluctuations on purchases of inventory such as corn, soybeans, soybean oil and soybean meal. The company enters into over-the-counter and exchange-traded derivative commodity instruments to hedge the commodity price risk associated with agricultural commodity exposures.

Derivatives Designated as Cash Flow Hedges**Commodity Contracts**

The company enters into over-the-counter and exchange-traded derivative commodity instruments, including options, futures and swaps, to hedge the commodity price risk associated with agriculture commodity exposures.

While each risk management program has a different time maturity period, most programs currently do not extend beyond the next two-year period. Cash flow hedge results are reclassified into earnings during the same period in which the related exposure impacts earnings. Reclassifications are made sooner if it appears that a forecasted transaction is not probable of occurring.

The following table summarizes the after-tax effect of cash flow hedges on accumulated other comprehensive loss:

	Successor Three Months Ended June 30, 2018	Predecessor Three Months Ended June 30, 2017	Successor Six Months Ended June 30, 2018	Predecessor Six Months Ended June 30, 2017
(In millions)				
Beginning balance	\$ 9	\$ 4	\$ (2)	\$ 7
Additions and revaluations of derivatives designated as cash flow hedges	(12)	—	—	2
Clearance of hedge results to earnings	(4)	(8)	(5)	(13)
Ending balance	\$ (7)	\$ (4)	\$ (7)	\$ (4)

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

At June 30, 2018, an after-tax net loss of \$5 million is expected to be reclassified from accumulated other comprehensive loss into earnings over the next twelve months.

Derivatives not Designated in Hedging Relationships

Foreign Currency Contracts

The company routinely uses forward exchange contracts to reduce its net exposure, by currency, related to foreign currency-denominated monetary assets and liabilities of its operations so that exchange gains and losses resulting from exchange rate changes are minimized. The netting of such exposures precludes the use of hedge accounting; however, the required revaluation of the forward contracts and the associated foreign currency-denominated monetary assets and liabilities intends to achieve a minimal earnings impact, after taxes. The company also uses foreign currency exchange contracts to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on the contracts offset changes in the USD value of the related foreign currency-denominated revenues.

Commodity Contracts

The company utilizes options, futures and swaps that are not designated as hedging instruments to reduce exposure to commodity price fluctuations on purchases of inventory such as corn, soybeans, soybean oil and soybean meal.

Fair Value of Derivative Instruments

Asset and liability derivatives subject to an enforceable master netting arrangement with the same counterparty are presented on a net basis in the interim Condensed Consolidated Balance Sheets. The presentation of the company's derivative assets and liabilities is as follows:

(In millions)	Balance Sheet Location	Successor June 30, 2018		Net Amounts Included in the Condensed Consolidated Balance Sheet
		Gross Counterparty and Cash Collateral Netting ¹		
Asset derivatives:				
Derivatives not designated as hedging instruments:				
Foreign currency contracts	Other current assets	\$153	\$ (35)	\$ 118
Commodity contracts	Other current assets	4	—	4
Total asset derivatives		\$157	\$ (35)	\$ 122
Liability derivatives:				
Derivatives not designated as hedging instruments:				
Foreign currency contracts	Accrued and other current liabilities	\$35	\$ 9	\$ 44
Total liability derivatives		\$35	\$ 9	\$ 44

¹. Counterparty and cash collateral amounts represent the estimated net settlement amount when applying netting and set-off rights included in master netting arrangements between the company and its counterparties and the payable

or receivable for cash collateral held or placed with the same counterparty.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statements About Forward-Looking Statements

This communication contains "forward-looking statements" within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In this context, forward-looking statements often address expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "target," similar expressions, and variations or negatives of these words.

On December 11, 2015, The Dow Chemical Company ("Dow") and E. I. du Pont de Nemours and Company ("DuPont") announced entry into an Agreement and Plan of Merger, as amended on March 31, 2017, (the "Merger Agreement") under which the companies would combine in an all-stock merger of equals transaction (the "Merger"). Effective August 31, 2017, the Merger was completed and each of Dow and DuPont became subsidiaries of DowDuPont Inc. ("DowDuPont").

Forward-looking statements by their nature address matters that are, to varying degrees, uncertain, including the intended separation, subject to approval of the DowDuPont Board of Directors and customary closing conditions, of DowDuPont's agriculture, materials science and specialty products businesses in one or more tax efficient transactions on anticipated terms (the "Intended Business Separations"). Forward-looking statements are not guarantees of future performance and are based on certain assumptions and expectations of future events which may not be realized. Forward-looking statements also involve risks and uncertainties, many of which are beyond the control of DuPont and its parent company. Some of the important factors that could cause DuPont's actual results to differ materially from those projected in any such forward-looking statements include, but are not limited to: (i) costs to achieve and achieving the successful integration of the respective agriculture, materials science and specialty products businesses of Dow and DuPont, anticipated tax treatment, unforeseen liabilities, future capital expenditures, revenues, expenses, earnings, productivity actions, economic performance, indebtedness, financial condition, losses, future prospects, business and management strategies for the management, expansion and growth of the combined operations; (ii) costs to achieve and achievement of the anticipated synergies by the combined agriculture, materials science and specialty products businesses; (iii) risks associated with the Intended Business Separations, including conditions which could delay, prevent or otherwise adversely affect the proposed transactions, including possible issues or delays in obtaining required regulatory approvals or clearances related to the Intended Business Separations, associated cost, disruptions in the financial markets or other potential barriers; (iv) disruptions or business uncertainty, including from the Intended Business Separations, could adversely impact DuPont's business or financial performance and its ability to retain and hire key personnel; and (v) risks to DuPont's business, operations and results of operations from: the availability of and fluctuations in the cost of energy and raw materials; failure to develop and market new products and optimally manage product life cycles; ability, cost and impact on business operations, including the supply chain, of responding to changes in market acceptance, rules, regulations and policies and failure to respond to such changes; delays or failures in obtaining or retaining regulatory approvals, delayed product launches, lack of market acceptance, product discontinuation, changes in the regulatory environment and litigation resulting from concerns and claims regarding the safe use of seeds with biotechnology traits and crop protection products potential impact on health and the environment, and the perceived impacts of biotechnology on health and the environment; impact of unpredictable seasonal and weather factors could impact sales and earnings from agriculture products; outcome of significant litigation, environmental matters and other commitments and contingencies; failure to appropriately manage process safety and product stewardship issues; global economic and capital market conditions, including the continued availability of capital and financing, as well as inflation, interest and currency exchange rates; changes in political conditions, including trade disputes and retaliatory actions; business or supply disruptions; security threats, such as acts of sabotage, terrorism or war, natural disasters and weather events and patterns which could result in a significant operational event for DuPont, adversely impact demand or production; ability to discover, develop and protect new

technologies and to protect and enforce the DuPont's intellectual property rights; failure to effectively manage acquisitions, divestitures, alliances, joint ventures and other portfolio changes; unpredictability and severity of catastrophic events, including, but not limited to, acts of terrorism or outbreak of war or hostilities, as well as management's response to any of the aforementioned factors. While the list of factors presented here is, considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. Consequences of material differences in results as compared with those anticipated in the forward-looking statements could include, among other things, business disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on DuPont's consolidated financial condition, results of operations, credit rating or liquidity. DuPont does not assume any obligation to publicly provide revisions or updates to any forward-looking statements whether as a result of new information, future developments or otherwise, should circumstances change, except as otherwise required by securities and other applicable laws.

For further discussion of some of the important factors that could cause the company's actual results to differ materially from those projected in any such forward-looking statements, see the Risk Factors discussion set forth under Part I, Item 1A of the company's 2017 Annual Report and in the section titled "Risk Factors" (Part II, Item 1A of this Form 10-Q).

Table of Contents

Recent Developments

DowDuPont Merger of Equals

DowDuPont Inc. ("DowDuPont") was formed on December 9, 2015 to effect an all-stock, merger of equals strategic combination between The Dow Chemical Company ("Dow") and DuPont (the "Merger Transaction"). On August 31, 2017 at 11:59 pm ET, (the "Merger Effectiveness Time") pursuant to the Agreement and Plan of Merger, dated as of December 11, 2015, as amended on March 31, 2017 (the "Merger Agreement"), Dow and DuPont each merged with wholly owned subsidiaries of DowDuPont ("Mergers") and, as a result of the Mergers, Dow and DuPont became subsidiaries of DowDuPont (collectively, the "Merger"). Prior to the Merger, DowDuPont did not conduct any business activities other than those required for its formation and matters contemplated by the Merger Agreement. DowDuPont intends to pursue, subject to the receipt of approval by the Board of Directors of DowDuPont and customary closing conditions, the separation of the combined company's agriculture business, specialty products business and materials science business through a series of tax-efficient transactions (collectively, the "Intended Business Separations"). DowDuPont anticipates materials science separating about April 1, 2019, and expects agriculture and specialty products to separate about June 1, 2019.

On February 26, 2018, DowDuPont announced the corporate brand names that each company plans to assume once the Intended Business Separations occur. Materials science will be called Dow, agriculture will be called Corteva™ Agriscience, and specialty products will be called DuPont.

As a condition of the regulatory approval for the Merger Transaction, the company was required to divest certain assets related to its crop protection business and research and development ("R&D") organization (the "Divested Ag Business"). On March 31, 2017, the company entered into a definitive agreement (the "FMC Transaction Agreement") with FMC Corporation ("FMC"). Under the FMC Transaction Agreement, and effective upon the closing of the transaction on November 1, 2017, FMC acquired the Divested Ag Business and DuPont acquired certain assets relating to FMC's Health and Nutrition segment (the "H&N Business") (collectively, the "FMC Transactions"). On November 1, 2017, the company completed the FMC Transactions through the disposition of the Divested Ag Business and the acquisition of the Acquired H&N Business. See Note 3 for further information regarding the divestiture. The sale of the Divested Ag Business meets the criteria for discontinued operations and as such, earnings are included within income from discontinued operations after income taxes in the interim Consolidated Income Statements for all periods presented.

Tax Reform

On December 22, 2017, the Tax Cuts and Jobs Act ("The Act") was enacted. The Act reduces the U.S. federal corporate income tax rate from 35 percent to 21 percent, requires companies to pay a one-time transition tax ("transition tax") on earnings of foreign subsidiaries that were previously tax deferred, creates new provisions related to foreign sourced earnings, eliminates the domestic manufacturing deduction and moves to a territorial system. In the fourth quarter of 2017, the company recorded a net benefit in provision for taxes on continuing operations of \$2.0 billion, which consisted of a provisional net benefit of \$2.7 billion due to the reduction of the U.S. federal corporate income tax rate, partially offset by a provisional charge of \$715 million due to the transition tax. At June 30, 2018, the company had not yet completed its accounting for the tax effects of enactment of the Act; however, in the three and six months ended June 30, 2018, the company recorded charges of \$7 million and \$55 million, respectively, to provision for income taxes on continuing operations with respect to the remeasurement of the company's deferred tax balance. In addition, the company recorded a charge of \$16 million associated with an indirect impact of The Act related to certain inventory for the six months ended June 30, 2018. The company continues to refine its calculations as additional information and guidance becomes available.

DowDuPont Cost Synergy Program

In September and November 2017, DowDuPont and the company approved post-merger restructuring actions to achieve targeted cost synergies under the DowDuPont Cost Synergy Program (the “Synergy Program”), adopted by the DowDuPont Board of Directors. The plan is designed to integrate and optimize the organization following the Merger and in preparation for the Intended Business Separations. Based on all actions approved to date under the Synergy Program, DuPont expects to record total pre-tax restructuring charges of \$430 million to \$600 million, comprised of approximately \$320 million to \$360 million of severance and related benefits costs; \$110 million to \$140 million of costs related to contract terminations; and up to \$100 million of asset related charges. The Synergy Program includes certain asset actions that are reflected in the preliminary fair value measurement of DuPont’s assets as of the merger date. Current estimated total pre-tax restructuring charges could be impacted by future adjustments to the preliminary fair value of DuPont’s assets. Substantially all of the remaining restructuring charges are expected to be incurred in 2018 and the related actions, including employee separations, associated with this plan are expected to be substantially complete by the end of 2019.

In connection with these actions, the company recorded pre-tax charges of \$94 million and \$191 million for the three and six months ended June 30, 2018, respectively.

Table of Contents

Future cash payments related to this program are anticipated to be approximately \$330 million to \$400 million, primarily related to the payment of severance and related benefits and contract termination costs. It is possible that additional charges and future cash payments could occur in relation to the restructuring actions. The company anticipates including savings associated with these actions within DowDuPont's cost synergy commitment of \$3.3 billion associated with the Merger Transaction.

Tyvek® Capacity Expansion

In June 2018, DuPont announced plans to invest more than \$400 million in its safety and construction product line to increase capacity for the manufacture of Tyvek® nonwoven materials at its Luxembourg site due to growing global demand. The production expansion, which includes investment in a new building and a third operating line at the site, is scheduled to occur over the next three years, with commercial production expected to begin in 2021.

Impact From Recently Enacted Tariffs

Certain countries where the company's products are manufactured, distributed or sold have recently enacted or are considering imposing new tariffs on certain products. The company has analyzed the potential impact from tariffs that took effect on July 6, 2018 and does not expect such tariffs will have a material impact on its results of operations in 2018 because of the company's mitigation actions and its global asset base. The company will continue to monitor the situation and take actions, where possible, to mitigate any potential impact as events unfold.

Note on Financial Presentation

For purposes of DowDuPont's financial statement presentation, Dow was determined to be the accounting acquirer in the Merger and DuPont's assets and liabilities are reflected at fair value as of the Merger Effectiveness Time. In connection with the Merger and the related accounting determination, the company has elected to apply push-down accounting and reflect in its financial statements, the fair value of its assets and liabilities. DuPont's Consolidated Financial Statements for periods following the close of the Merger are labeled "Successor" and reflect DowDuPont's basis in the fair values of the assets and liabilities of DuPont. All periods prior to the closing of the Merger reflect the historical accounting basis in DuPont's assets and liabilities and are labeled "Predecessor." The interim Consolidated Financial Statements and Footnotes include a black line division between the columns titled "Predecessor" and "Successor" to signify that the amounts shown for the periods prior to and following the Merger are not comparable. In addition, the company has elected to make certain changes in presentation to harmonize its accounting and reporting with that of DowDuPont in the Successor period. See Note 1, "Summary of Significant Accounting Policies" in the company's 2017 Annual Report for further discussion of these changes and Note 3 to the interim Consolidated Financial Statements for additional information on the Merger.

Results of Operations

Net Sales

Net sales were \$8.5 billion and \$7.0 billion for the three months ended June 30, 2018 and 2017, respectively. The change was primarily driven by 29 percent higher sales in U.S. & Canada, mainly driven by recovery from weather-related delays to the start of the planting seasons in the Northern Hemisphere in the agriculture product line. Sales also increased in EMEA and Asia Pacific driven by higher volume and currency benefits in those regions.

	Successor		Predecessor	
	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017
Worldwide	\$ 8.5	\$ 7.0	100	100
U.S. & Canada	4.8	3.7	56	53
Europe, Middle East & Africa (EMEA)	1.5	1.3	18	18

Asia Pacific	1.7	20	1.5	22
Latin America	0.5	6	0.5	7

40

Table of Contents

Net sales were \$15.2 billion and \$14.3 billion for the six months ended June 30, 2018 and 2017, respectively. The change was primarily driven by sales increases in EMEA and Asia Pacific of 17 percent and 12 percent, respectively, driven by higher volume and currency benefits in those regions.

	Successor		Predecessor	
	Six Months Ended June 30, 2018	Net Sales (\$ Billions)	Six Months Ended June 30, 2017	Net Sales (\$ Billions)
		%		%
Worldwide	\$15.2	100	\$14.3	100
U.S. & Canada	7.3	48	7.2	51
Europe, Middle East & Africa (EMEA)	3.7	25	3.2	22
Asia Pacific	3.2	21	2.9	20
Latin America	1.0	6	1.0	7

In the interim Consolidated Income Statements, royalty income is included within net sales in the Successor periods and is included in sundry income (expense) - net in the Predecessor periods. Royalty income does not have a significant impact on any period presented.

Cost of Goods Sold ("COGS")

COGS was \$5.7 billion and \$4.0 billion for the three months ended June 30, 2018 and 2017, respectively. The change was primarily driven by the amortization of the inventory step-up of \$682 million during the second quarter of 2018. COGS also increased due to the elimination of the other operating charges financial statement line item in the Successor period, higher depreciation related to the fair value step up of property, plant and equipment, and higher sales volume.

COGS as a percentage of net sales was 66 percent and 57 percent for the three months ended June 30, 2018 and 2017, respectively. The amortization of the inventory step-up was 8 percent of net sales in the Successor period. The remaining COGS increase as a percentage of net sales in the Successor period is due to the items discussed above.

COGS was \$10.5 billion and \$8.1 billion for the six months ended June 30, 2018 and 2017, respectively. The change was primarily driven by the amortization of the inventory step-up of \$1.4 billion during the first half of 2018 as well as increased expenses due to the elimination of the other operating charges financial statement line item in the Successor period and higher depreciation related to the fair value step up of property, plant and equipment.

COGS as a percentage of net sales was 69 percent and 57 percent for the six months ended June 30, 2018 and 2017, respectively. The amortization of the inventory step-up was 9 percent of net sales in the Successor period. The remaining COGS increase as a percentage of net sales in the Successor period is due to the items discussed above.

See Note 3 to the interim Consolidated Financial Statements for additional information regarding the Merger, including the valuation of inventory.

Other Operating Charges

Other operating charges were \$168 million and \$368 million for the three and six months ended June 30, 2017, respectively. In the Successor periods, other operating charges are included primarily in COGS, as well as selling, general and administrative expenses and amortization of intangibles.

Research and Development Expense

R&D expense was \$396 million and \$387 million for the three months ended June 30, 2018 and 2017, respectively. R&D as a percentage of net sales was 5 percent and 6 percent for the three months ended June 30, 2018 and 2017, respectively.

R&D expense was \$778 million and \$755 million for the six months ended June 30, 2018 and 2017, respectively. R&D as a percentage of net sales was 5 percent and 5 percent for the six months ended June 30, 2018 and 2017, respectively.

The changes for the three and six months ended June 30, 2018 were primarily driven by an increase in R&D expense for the agriculture and health and nutrition product lines.

Table of Contents

Selling, General and Administrative Expenses ("SG&A")

SG&A expenses were \$1.2 billion and \$1.3 billion for the three months ended June 30, 2018 and 2017, respectively. In the Successor periods, integration and separation costs and amortization of intangibles are presented as line items on the interim Consolidated Income Statement. During the three months ended June 30, 2017, the company incurred \$201 million of transaction costs in connection with the Merger and the Intended Business Separations.

SG&A as a percentage of net sales was 14 percent and 18 percent for the three months ended June 30, 2018 and 2017, respectively. Transaction costs were 3 percent of net sales for the three months ended June 30, 2017.

SG&A expenses were \$2.1 billion and \$2.4 billion for the six months ended June 30, 2018 and 2017, respectively. During the six months ended June 30, 2017, the company incurred \$371 million of transaction costs in connection with the Merger and the Intended Business Separations.

SG&A as a percentage of net sales was 14 percent and 17 percent for the six months ended June 30, 2018 and 2017, respectively. Transaction costs were 3 percent of net sales for the six months ended June 30, 2017.

Amortization of Intangibles

Intangible asset amortization was \$333 million and \$648 million for the three and six months ended June 30, 2018, respectively. In the Predecessor periods, amortization of intangibles was included within SG&A; other operating charges; R&D; and COGS. See Note 3 to the interim Consolidated Financial Statements for further information regarding the Merger, including the valuation of intangible assets.

Restructuring and Asset Related Charges - Net

Restructuring and asset related charges - net were \$91 million and \$160 million for the three months ended June 30, 2018 and 2017, respectively. The majority of the activity in the second quarter 2018 related to the Synergy Program. The charges in the second quarter 2017 related to the closure of the safety and construction product line at the Cooper River manufacturing site located near Charleston, South Carolina as part of the 2017 restructuring program.

Restructuring and asset related charges - net were \$188 million and \$312 million for the six months ended June 30, 2018 and 2017, respectively. The majority of the activity in the first half of 2018 related to the Synergy Program. The charges in the first half of 2017 related to the 2017 restructuring program.

See Note 6 to the interim Consolidated Financial Statements for additional information.

Integration and Separation Costs

Integration and separation costs were \$327 million and \$582 million for the three and six months ended June 30, 2018, respectively. In the Predecessor periods, integration and separation costs were included within SG&A. See Note 1 to the interim Consolidated Financial Statements for further discussion of the changes in presentation.

Sundry Income (Expense) - Net

Sundry income (expense) - net was income of \$194 million and expense of \$132 million for the three months ended June 30, 2018 and 2017, respectively. The three months ended June 30, 2018 included exchange gains of \$23 million, interest income of \$30 million and a non-operating pension and other post employment benefit credit of \$95 million. The non-operating pension and other post employment benefit credit in the second quarter of 2018 was a result of the absence of the amortization of net losses from accumulated other comprehensive loss. The three months ended June 30, 2017 included a net exchange loss of \$140 million and non-operating pension and other post employment benefit costs of \$104 million. These losses were offset by interest income of \$32 million and royalty income of \$28 million.

Sundry income (expense) - net was income \$241 million and \$70 million for the six months ended June 30, 2018 and 2017, respectively. The six months ended June 30, 2018 included a net exchange loss of \$109 million, offset by a non-operating pension and other post employment benefit credit of \$187 million and interest income of \$58 million. The six months ended June 30, 2017 included a net exchange loss of \$199 million and non-operating pension and other post employment benefit costs of \$208 million. These losses were partially offset by a pre-tax gain of \$162 million associated with the sale of the global food safety diagnostics business, interest income of \$57 million, and the inclusion of royalty income of \$73 million in the Predecessor period.

See Note 8 to the interim Consolidated Financial Statements for additional information.

Table of Contents

Interest Expense

Interest expense was \$86 million and \$99 million for the three months ended June 30, 2018 and 2017, respectively. Interest expense was \$166 million and \$183 million for the six months ended June 30, 2018 and 2017, respectively. The changes for the three and six months ended June 30, 2018 were primarily driven by debt amortization as a result of reflecting the company's debt at fair value upon the effective date of the Merger, partially offset by higher average debt balances.

Provision for Income Taxes on Continuing Operations

The company's provision for income taxes on continuing operations was \$141 million for the second quarter 2018 on pre-tax income from continuing operations of \$655 million, resulting in an effective tax rate of 21.5 percent. The effective tax rate was favorably impacted by the reduction of the U.S. federal corporate income tax rate from 35 percent to 21 percent. Other favorable effective tax rate impacts related to costs associated with the Merger with Dow and restructuring and asset related charges as well as geographic mix of earnings were offset by unfavorable effective tax rate impacts associated with non-tax-deductible amortization of the fair value step-up in DuPont's inventories as a result of the Merger, the tax impact of certain net exchange losses recognized on the re-measurement of the net monetary asset positions which were not deductible in their local jurisdictions, and an incremental net provisional charge of \$7 million associated with the enactment of the Act.

The company's provision for income taxes on continuing operations was \$84 million for the second quarter 2017 on pre-tax income of \$806 million, resulting in an effective tax rate of 10.4 percent. The effective tax rate was favorably impacted by certain net exchange gains recognized on the re-measurement of the net monetary asset positions which were not taxable in their local jurisdictions, as well as the impact of the costs associated with the planned Merger with Dow and related activities. These impacts were partially offset by a tax charge of \$29 million related to the elimination of a tax benefit originally recorded in 2016 due to a second quarter 2017 U.S. discretionary pension contribution.

The company's provision for income taxes on continuing operations was \$168 million for the six months ended June 30, 2018 on pre-tax income from continuing operations of \$466 million, resulting in an effective tax rate of 36.1 percent. The effective tax rate was unfavorably impacted by non-tax-deductible amortization of the fair value step-up in DuPont's inventories as a result of the Merger, in addition to an incremental net provisional charge of \$55 million associated with the enactment of the Act. These unfavorable impacts were partially offset by favorable impacts associated with the reduction of the U.S. federal corporate income tax rate from 35 percent to 21 percent, as well as the impact of costs associated with the Merger with Dow and restructuring and asset related charges.

The company's provision for income taxes on continuing operations was \$281 million for the six months ended June 30, 2017 on pre-tax income of \$2,181 million, resulting in an effective tax rate of 12.9 percent. The effective tax rate was favorably impacted by certain net exchange gains recognized on the re-measurement of the net monetary asset positions which were not taxable in their local jurisdictions. Other favorable effective tax rate impacts include tax benefits related to a reduction in the company's unrecognized tax benefits due to the closure of various tax statutes of limitations, the impact of costs associated with the planned Merger with Dow and restructuring and asset related charges, as well as geographic mix of earnings. These impacts were partially offset by the unfavorable tax consequences of non-deductible goodwill associated with the gain on the sale of the company's global food safety diagnostic business in the first quarter 2017.

Recent Accounting Pronouncements

See Note 2 to the interim Consolidated Financial Statements for a description of recent accounting pronouncements.

Table of Contents

Liquidity & Capital Resources

Information related to the company's liquidity and capital resources can be found in the company's 2017 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources. Discussion below provides the updates to this information for the six months ended June 30, 2018.

	Successor	
(Dollars in millions)	June 30, 2018	
	December 31, 2017	
Cash, cash equivalents and marketable securities	\$4,795	\$ 8,202
Total debt	13,429	13,070

The company's cash, cash equivalents and marketable securities at June 30, 2018 and December 31, 2017 are \$4.8 billion and \$8.2 billion, respectively. The decrease of \$3.4 billion was primarily due to funding the company's seasonal working capital needs and distributions to DowDuPont.

Total debt at June 30, 2018 and December 31, 2017 was \$13.4 billion and \$13.1 billion, respectively.

The company believes its ability to generate cash from operations and access to capital markets will be adequate to meet anticipated cash requirements to fund its working capital, capital spending, debt maturities as well as distributions and other intercompany transfers to DowDuPont which relies on distributions from DuPont and Dow to fund payment of its costs and expenses. DuPont's current strong financial position, liquidity and credit ratings continue to provide access as needed to the capital markets. The company's liquidity needs can be met through a variety of sources, including cash provided by operating activities, cash and cash equivalents, marketable securities, commercial paper, syndicated credit lines, bilateral credit lines, long-term debt markets, bank financing, committed receivable repurchase facilities and asset sales.

In May 2017, the company completed an underwritten public offering of \$1.25 billion of the company's 2.20 percent Notes due 2020 and \$750 million of the company's Floating Rate Notes due 2020 (the "May 2017 Debt Offering"). The proceeds from this offering were used to make a discretionary pension contribution to the company's principal U.S. pension plan.

The company's indenture covenants include customary limitations on liens, sale and leaseback transactions, and mergers and consolidations affecting manufacturing plants, mineral producing properties or research facilities located in the U.S. and the consolidated subsidiaries owning such plants, properties and facilities subject to certain limitations. The outstanding long-term debt also contains customary default provisions. In addition, the company will be required to redeem all of the Notes associated with the May 2017 Debt Offering at a redemption price equal to 100 percent of the aggregate principal amount plus any accrued and unpaid interest upon the announcement of the record date for the separation of either the agriculture or specialty products business, or the entry into an agreement to sell all or substantially all of the assets of either business to a third party.

In March 2016, the company entered into a credit agreement that provides for a three-year, senior unsecured term loan facility in the aggregate principal amount of \$4.5 billion (as may be amended, from time to time, the "Term Loan Facility") under which DuPont may make up to seven term loan borrowings and amounts repaid or prepaid are not available for subsequent borrowings. The proceeds from the borrowings under the Term Loan Facility will be used for the company's general corporate purposes including debt repayment, working capital and funding a portion of DowDuPont's costs and expenses. The Term Loan Facility was amended in 2018 to extend the maturity date to June 2020, at which time all outstanding borrowings, including accrued but unpaid interest, become immediately due and payable, and to extend the date on which the commitment to lend terminates to June 2019. At June 30, 2018, the

company had made three term loan borrowings in an aggregate principal amount of \$1.5 billion and had unused commitments of \$3.0 billion under the Term Loan Facility. In addition, in 2018 the company amended its \$3 billion revolving credit facility to extend the maturity date to June 2020.

The Term Loan Facility and the revolving credit facility contain customary representations and warranties, affirmative and negative covenants, and events of default that are typical for companies with similar credit ratings and generally consistent with those applicable to DuPont's long-term public debt. The Term Loan Facility and the revolving credit facility contain a financial covenant requiring that the ratio of Total Indebtedness to Total Capitalization for DuPont and its consolidated subsidiaries not exceed 0.6667. At June 30, 2018, the company was in compliance with this financial covenant.

The Term Loan Facility and the revolving credit facility will terminate, and the loans and other amounts thereunder would become due and payable, upon the sale, transfer, lease or other disposition of all or substantially all of the assets of the agriculture product line to DowDuPont, its shareholders or any of its non-DuPont subsidiaries.

Table of Contents

In February 2018, in line with seasonal agricultural working capital requirements, the company entered into a committed receivable repurchase agreement of up to \$1.3 billion (the "2018 Repurchase Facility") which expires in December 2018. From time to time, the company and the banks modify the monthly commitment amounts to better align with working capital requirements. Under the 2018 Repurchase Facility, the company may sell a portfolio of available and eligible outstanding customer notes receivables within the agriculture product line to participating institutions and simultaneously agree to repurchase at a future date. See further discussion of this facility in Note 13 to the interim Consolidated Financial Statements.

The company has access to approximately \$6.8 billion in committed and uncommitted unused credit lines compared to \$6.7 billion as of December 31, 2017. These unused credit lines provide support to meet the company's short-term liquidity needs and for general corporate purposes which may include funding of discretionary and non-discretionary contributions to certain benefit plans, severance payments, repayment and refinancing of debt, working capital, capital expenditures, repurchases and redemptions of securities, and funding a portion of DowDuPont's costs and expenses.

The company's cash, cash equivalents and marketable securities at June 30, 2018 and December 31, 2017 are \$4.8 billion and \$8.2 billion, respectively, of which \$4.2 billion at June 30, 2018 and \$7.9 billion at December 31, 2017 was held by subsidiaries in foreign countries, including United States territories. The company is currently evaluating the impact of The Act on its permanent reinvestment assertion. The Act requires companies to pay a one-time transition tax on earnings of foreign subsidiaries, a majority of which were previously considered permanently reinvested by the company (see Note 9 to the interim Consolidated Financial Statements for further details of The Act). A tax liability has been accrued for the estimated U.S. federal tax on all unrepatriated earnings as of December 31, 2017 in accordance with The Act. The cash held by foreign subsidiaries for permanent reinvestment is generally used to finance the subsidiaries' operational activities and future foreign investments. The company has the ability to repatriate additional funds to the US, which could result in an adjustment to the tax liability for foreign withholding taxes, foreign and/or U.S. state income taxes and the impact of foreign currency movements. During 2018, the company has and expects to continue repatriating certain funds from its foreign subsidiaries that are not needed to finance local operations or separation activities; however, these particular repatriation activities have not and are not expected to result in a significant incremental tax liability to the consolidated financial statements of the company.

The company is evaluating making a discretionary contribution in the third quarter of 2018 to its principal U.S. pension plan. Any such contribution could be funded by existing cash balances and/or cash from other available sources of liquidity. The determination to make such a contribution as well as the amount of any such contribution, depends on a number of factors including tax-deductible limits and capital structure considerations. In 2017, DuPont made contributions of \$2.9 billion to its principal U.S. pension plan and expects the amount of any contribution made to this plan in 2018 to be less than half of the contributions DuPont made to this plan in 2017.

Summary of Cash Flows

Cash used for operating activities was \$1.6 billion for the six months ended June 30, 2018 and \$4.1 billion for the six months ended June 30, 2017. The decrease was due to higher pension contributions in 2017, partially offset by higher tax payments and higher integration and separation costs in 2018.

Cash provided by investing activities was \$34 million for the six months ended June 30, 2018 compared to \$1.9 billion used by investing activities for the six months ended June 30, 2017. The change was due primarily to decreased purchases of marketable securities partially offset by lower proceeds from sales of businesses and other assets.

Cash used by financing activities was \$1.2 billion for the six months ended June 30, 2018 compared to \$4.5 billion provided by financing activities for the six months ended June 30, 2017. The change was due primarily to higher borrowings in 2017 related to pension contributions and increased distributions to DowDuPont to support share

repurchases.

As of the consummation of the Merger, shares of DuPont common stock held publicly were redeemed and DuPont's common stock is owned solely by its parent company, DowDuPont. DuPont's preferred stock remains issued and outstanding, and DuPont continues to be responsible for dividends on its preferred stock; however, the obligation is not material to the company's liquidity. Dividend payments to shareholders of DuPont preferred stock totaled \$5 million in the six months ended June 30, 2018.

DowDuPont relies on distributions and other intercompany transfers from DuPont and Dow to fund payment of its costs and expenses. In November 2017, DowDuPont's Board of Directors authorized an initial \$4 billion share repurchase program to buy back shares of DowDuPont common stock. In February and April of 2018, the Board declared first and second quarter dividends of \$0.38 per share of DowDuPont common stock payable. In the six months ended June 30, 2018, DuPont declared and paid distributions to DowDuPont of about \$1.7 billion, primarily to fund a portion of DowDuPont's first and second quarter share repurchases and dividend payments.

Table of Contents

On June 25, 2018, DowDuPont declared a dividend of \$0.38 per share, payable on September 14, 2018, to its shareholders of record on August 31, 2018. DuPont's amount of this shareholder dividend has not yet been determined. The company expects to declare and pay a dividend to DowDuPont in September 2018.

Guarantees and Off-Balance Sheet Arrangements

For detailed information related to Guarantees, Indemnifications, and Obligations for Equity Affiliates and Others, see the company's 2017 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Off- Balance Sheet Arrangements, and Note 14 to the interim Consolidated Financial Statements.

Critical Accounting Estimates

The company's significant accounting policies are more fully described in Note 1 in the company's 2017 Annual Report. Management believes that the application of these policies on a consistent basis enables the company to provide the users of the financial statements with useful and reliable information about the company's operating results and financial condition.

Valuation of Assets and Impairment Considerations

The company's assets and liabilities were measured at fair value as of the date of the Merger, and as a result, any declines in projected cash flows could have a material, negative impact on the fair value of the company's reporting units and assets and therefore result in an impairment. The company believes at this time all of the reporting units with goodwill and indefinite-lived intangible assets are at risk to have impairment charges in future periods as the carrying value and fair value of these reporting units and assets were equal at the date of the Merger resulting in little, if any, margin of fair value in excess of carrying value. The dynamic economic environments in which the company's diversified product lines operate, and key economic and product line assumptions with respect to projected selling prices, market growth and inflation rates, can significantly affect the outcome of impairment tests. Estimates based on these assumptions may differ significantly from actual results. Changes in factors, circumstances and assumptions used in assessing potential impairments can have a significant impact on the existence and magnitude of impairments, as well as the time in which such impairments are recognized.

The company's goodwill and indefinite-lived intangibles by reporting unit at June 30, 2018 is shown below (in millions):

Reporting Unit	Indefinite-Lived	
	Goodwill	Intangible Assets
Agriculture	\$ 13,267	\$ 8,749
Electronics and Communications	4,037	495
Protection Solutions	5,473	260
Nutrition and Health	8,833	1,437
Transportation and Advanced Polymers	6,360	310
Packaging and Specialty Plastics	3,597	—
Industrial Biosciences	3,394	403
Clean Tech	549	—
Total	\$ 45,510	\$ 11,654

Goodwill and indefinite-lived intangible assets are tested for impairment annually during the fourth quarter or more frequently when events or changes in circumstances indicate that the fair value is below its carrying value. During the third quarter 2018, strategic business reviews will commence with the focus on alignment of the businesses to

DowDuPont's overall growth strategy which includes a focus on core business offerings and higher margin product lines. Strategic decisions resulting from these reviews will be considered and could result in changes to the factors and assumptions used to determine the fair value of DowDuPont's reporting units and indefinite-lived intangible assets from those made in the purchase accounting from the Merger and the 2017 annual impairment testing process. Changes to those assumptions could significantly impact the results of goodwill and indefinite-lived intangible assets impairment testing including a potential third quarter impairment.

For further detailed information related to valuation of assets and impairment considerations, see the company's 2017 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Critical Accounting Estimates.

Table of Contents

Contractual Obligations

Information related to the company's contractual obligations at December 31, 2017 can be found in the company's 2017 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Off-Balance Sheet Arrangements. With the exception of the item below, there have been no material changes in the company's contractual obligations since December 31, 2017.

(Dollars in millions)	Total at June 30, 2018	Payments Due In		
		Remainder of 2018	2019-2020 and 2021-2022	2023 and beyond
Purchase obligations				
Raw material obligations	\$ 1,999	\$ 544	\$ 759	\$ 677
				\$ 19

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Registrant meets the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q (as modified by a grant of no-action relief dated February 12, 2018) and is therefore filing this form with the reduced disclosure format and has omitted the information called for by this Item pursuant to General Instruction H(2)(c) of Form 10-Q.

Item 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The company maintains a system of disclosure controls and procedures to give reasonable assurance that information required to be disclosed in the company's reports filed or submitted under the Securities Exchange Act of 1934 ("Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. These controls and procedures also give reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

As of June 30, 2018, the company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), together with management, conducted an evaluation of the effectiveness of the company's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the CEO and CFO concluded that these disclosure controls and procedures are effective.

b) Changes in Internal Control over Financial Reporting

There has been no change in the company's internal control over financial reporting that occurred during the quarter ended June 30, 2018 that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The company is subject to various litigation matters, including, but not limited to, product liability, patent infringement, antitrust claims, and claims for third party property damage or personal injury stemming from alleged environmental torts. Information regarding certain of these matters is set forth below and in Note 14 to the interim Consolidated Financial Statements.

Litigation

PFOA: Environmental and Litigation Proceedings

For purposes of this report, the term PFOA means collectively perfluorooctanoic acid and its salts, including the ammonium salt

and does not distinguish between the two forms. Information related to this matter is included in Note 14 to the interim Consolidated Financial Statements under the heading PFOA.

Fayetteville Works Facility, Fayetteville, North Carolina

In August 2017, the U.S. Attorney's Office for the Eastern District of North Carolina served the company with a grand jury subpoena for testimony and the production of documents related to alleged discharges of GenX from the Fayetteville Works facility into the Cape Fear River. DuPont has been served with additional subpoenas relating to the same issue and in the second quarter 2018, received a subpoena expanding the scope to any PFCs discharged from the Fayetteville Works facility into the Cape Fear River. Additional information related to this matter is included in Note 14 to the interim Consolidated Financial Statements under the heading Fayetteville Works Facility, North Carolina.

La Porte Plant, La Porte, Texas - Crop Protection - Release Incident Investigations

On November 15, 2014, there was a release of methyl mercaptan at the company's La Porte facility. The release occurred at the site's Crop Protection unit resulting in four employee fatalities inside the unit. DuPont continues to cooperate with governmental agencies, including the U.S. Environmental Protection Agency ("EPA"), the Chemical Safety Board and the Department of Justice ("DOJ"), which are still conducting investigations. These investigations could result in sanctions and civil or criminal penalties against the company. In the second quarter 2018, DuPont and EPA reached a resolution-in-principle regarding certain EPA civil claims. The resolution-in-principle, for \$3.1 million, is subject to court approval and public notice.

Environmental Proceedings

The company believes it is remote that the following matters will have a material impact on its financial position, liquidity or results of operations. The descriptions are included per Regulation S-K, Item 103(5)(c) of the Securities Exchange Act of 1934.

La Porte Plant, La Porte, Texas - EPA Multimedia Inspection

The EPA conducted a multimedia inspection at the La Porte facility in January 2008. DuPont, EPA and DOJ began discussions in the Fall 2011 relating to the management of certain materials in the facility's waste water treatment system, hazardous waste management, flare and air emissions. These discussions, which include possible resolatory actions, continue.

Sabine Plant, Orange, Texas - EPA Multimedia Inspection

In June 2012, DuPont began discussions with EPA and DOJ related to multimedia inspections that EPA conducted at the Sabine facility in March 2009 and December 2015. The discussions involve the management of materials in the facility's waste water treatment system, hazardous waste management, flare and air emissions, including leak detection

and repair. These discussions, which include possible resolatory actions, continue.

Item 1A. RISK FACTORS

There have been no material changes in the company's risk factors discussed in Part I, Item 1A, Risk Factors, in the company's 2017 Annual Report.

Table of Contents

Item 5. OTHER INFORMATION

As noted in Note 2 to the interim Consolidated Financial Statements, effective January 1, 2018, the company adopted Accounting Standards Update ("ASU") No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The new guidance requires registrants to present the service cost component of net periodic benefit cost in the same income statement line item or items as other employee compensation costs arising from services rendered during the period. In addition, registrants will present the other components of net periodic benefit cost separately from the service cost component; and, the line item or items used in the income statement to present the other components of net periodic benefit cost must be disclosed. In connection with the adoption of ASU No. 2017-07 in the first quarter of 2018, the company retrospectively reclassified the non-service components of net periodic benefit cost to sundry income (expense) - net. The following tables summarize the reclassification of those costs from cost of goods sold, research and development expense, and selling, general and administrative expenses to sundry income (expense) - net in the Consolidated Income Statements:

Summary of
Changes to the
Consolidated
Income Statement
(Unaudited)
