Item 2.05 Costs Associated with Exit or Disposal Activities

On June 8, 2010, Gerber Scientific, Inc. (the “Company”) approved and committed to a plan to consolidate the operations of its Massachusetts-based Gerber Innovations business, a business unit of the Sign Making and Specialty Graphics segment, into its Tolland, Connecticut manufacturing facility, with an expected completion date of September 30, 2010. As a result of the consolidation, the Company expects to generate annualized savings of approximately \$0.9 million. The Company estimated the costs related to this facility consolidation to be approximately \$1.1 million, the substantial majority of which will require the outlay of cash. The Company expects that \$0.3 million of these costs will be restructuring charges related principally to employee severance costs and \$0.2 million will relate to lease contract termination costs. Other costs are expected to be non-severance employee costs of \$0.4 million and moving expenses of \$0.2 million. These costs are expected to be incurred during the Company’s first and second quarters of fiscal 2011. A copy of the press release announcing this action has been furnished as Exhibit 99.1.
