Form 10-Q
October 30, 2012

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

(MARK ONE)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 29, 2012.

OR

/ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-14225

HNI Corporation
(Exact name of registrant as specified in its charter)

Iowa 42-0617510
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification Number)

P. O. Box 1109, 408 East Second Street 52761-0071
Muscatine, Iowa 52761-0071 (Zip Code)
(Address of principal executive offices)

Registrant's telephone number, including area code: 563/272-7400

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Edgar Filing: HNI CORP - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date.

Class	Outstanding at September 29, 2012
Common Shares, \$1 Par Value	45,148,538

HNI Corporation and SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

September 29, 2012

Note A. Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The December 31, 2011 consolidated balance sheet included in this Form 10-Q was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. An adjustment was made in the third quarter of 2012 to correct a second quarter freight over accrual of \$0.9 million. This correction of the freight accrual (included in "Accounts payable and accrued expenses" in the Condensed Consolidated Balance Sheet) was determined to be immaterial to the current and prior period interim financial statements. Operating results for the nine-month period ended September 29, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending December 29, 2012. For further information, refer to the consolidated financial statements and accompanying notes included in HNI Corporation's (the "Corporation") Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Note B. Stock-Based Compensation

The Corporation measures stock-based compensation expense at grant date, based on the fair value of the award, and recognizes expense over the employee requisite service period. For the three and nine months ended September 29, 2012, and October 1, 2011, the Corporation recognized \$1.4 million and \$5.0 million, and \$1.8 million and \$5.2 million, respectively, of stock-based compensation expense for the cost of stock options and time-based restricted stock units issued under the HNI Corporation 2007 Stock-Based Compensation Plan and shares issued under the HNI Corporation 2002 Members' Stock Purchase Plan.

At September 29, 2012, there was \$9.3 million of unrecognized compensation cost related to nonvested stock-based compensation awards, which the Corporation expects to recognize over a weighted-average remaining service period of 1.3 years.

Note C. Inventories

The Corporation values its inventory at the lower of cost or market with approximately 72% valued by the last-in, first-out ("LIFO") costing method.

(In thousands)	September 29, 2012	December 31, 2011
Finished products	\$61,859	\$65,136
Materials and work in process	68,920	62,638
LIFO allowance	(25,900) (25,901
	\$104,879	\$101,873

Note D. Accumulated Other Comprehensive Income and Shareholders' Equity

The following table summarizes the components of accumulated other comprehensive income and the changes in accumulated other comprehensive income, net of tax, as applicable for the nine months ended September 29, 2012:

(In thousands)	Foreign Currency Translation Adjustment	Unrealized Gains on Marketable Securities	Pension Postretirement Liability	Derivative Financial Instruments	Accumulated Other Comprehensive Income
Balance at December 31, 2011	\$5,211	\$143	\$(3,583)	\$(56)	\$1,715
Year-to date change	1,500	93	241	(127)	1,707
Balance at September 29, 2012	\$6,711	\$236	\$(3,342)	\$(183)	\$3,422

During the nine months ended September 29, 2012, the Corporation repurchased 528,000 shares of its common stock at a cost of approximately \$13.4 million. As of September 29, 2012, \$122.4 million of the Corporation's Board of Directors' current repurchase authorization remained unspent.

During the nine months ended September 29, 2012, the Corporation paid dividends to shareholders of \$0.71 per share.

Note E. Earnings Per Share

The following table reconciles the numerators and denominators used in the calculation of basic and diluted earnings per share ("EPS"):

(In thousands, except per share data)	Three Months Ended		Nine Months Ended	
	September 29, 2012	October 1, 2011	September 29, 2012	October 1, 2011
Numerators:				
Numerator for both basic and diluted EPS attributable to HNI Corporation net income	\$24,490	\$24,947	\$31,374	\$27,849
Denominators:				
Denominator for basic EPS weighted-average common shares outstanding	45,224	44,787	45,265	44,795
Potentially dilutive shares from stock-based compensation plans	596	850	575	889
Denominator for diluted EPS	45,820	45,637	45,840	45,684
Earnings per share – basic	\$0.54	\$0.56	\$0.69	\$0.62
Earnings per share – diluted	\$0.53	\$0.55	\$0.68	\$0.61

The weighted average common stock equivalents presented above do not include the effect of 1,762,597 and 1,762,597, and 2,210,257 and 1,815,085 of common stock equivalents for the three and nine months ended September 29, 2012 and October 1, 2011, respectively, because their inclusion would be anti-dilutive.

Note F. Restructuring Reserve and Plant Closures

As a result of the Corporation's ongoing business simplification and cost reduction strategies, the Corporation has closed, consolidated and realigned a number of its office furniture facilities during the past few years. In connection with these closures, consolidations and realignments, the Corporation recorded \$0.2 million and \$1.8 million of charges during the three and nine months ended September 29, 2012 which included \$0.2 million and \$1.4 million of current period restructuring costs and \$0.0 million and \$0.4 million of accelerated depreciation recorded in cost of sales, respectively.

The following is a summary of changes in restructuring accruals during the nine months ended September 29, 2012.

(In thousands)	Severance	Facility Exit Costs & Other	Total
Balance as of December 31, 2011	\$1,068	\$31	\$1,099
Restructuring charges	(43) 1,404	1,361
Cash payments	(538) (1,435) (1,973
Balance as of September 29, 2012	\$487	\$—	\$487

Note G. Business Combinations

The Corporation completed the acquisition of 97.8% of the capital stock of BP Ergo Limited, a leading manufacturer and marketer of office furniture in India, on August 13, 2012 for a purchase price of approximately \$25.5 million which included assumption of \$4.2 million of short-term bank debt. BP Ergo goes to market through a national network of sales branches and dealers supported by two manufacturing locations. The Corporation is in the process of finalizing the allocation of the purchase price, with valuations and determination of working capital adjustments. The determination of fair value for the identifiable tangible and intangible assets acquired and liabilities assumed requires use of estimates and judgments. There are approximately \$20.9 million of intangibles associated with this acquisition, which have all been currently classified as goodwill and will be reclassified based on final valuations.

The Corporation completed the acquisition of the pellet stove business of Dansons, Inc. on August 29, 2012 for a purchase price of approximately \$1.5 million. There were approximately \$1.4 million of intangible assets other than goodwill associated with this acquisition with estimated useful lives of eight years and amortization recorded based on the projected cash flow associated with the respective intangible assets' existing relationship.

The results of the acquired businesses have been included in the Consolidated Financial Statements since the dates of acquisition and are not material to the results for the quarter ended September 29, 2012.

Note H. Goodwill and Other Intangible Assets

The table below summarizes amortizable definite-lived intangible assets as of September 29, 2012 and December 31, 2011, which are reflected in the "Other Assets" line item in the Corporation's Condensed Consolidated Balance Sheets:

(In thousands)	September 29, 2012	December 31, 2011
----------------	-----------------------	----------------------

Edgar Filing: HNI CORP - Form 10-Q

Patents	\$ 18,905	\$ 18,905
Customer relationships and other	104,252	102,825
Less: accumulated amortization	66,260	61,214
	\$56,897	\$60,516

Aggregate amortization expense for the nine months ended September 29, 2012 and October 1, 2011 was \$5.0 million and \$4.3 million, respectively. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the following five fiscal years is as follows:

Edgar Filing: HNI CORP - Form 10-Q

(In millions)	2012	2013	2014	2015	2016
Amortization Expense	\$6.7	\$6.5	\$5.9	\$5.6	\$5.4

As events such as potential acquisitions, dispositions or impairments occur in the future, these amounts may change.

The Corporation also owns trademarks and trade names with a net carrying amount of \$41.0 million. The trademarks are deemed to have indefinite useful lives because they are expected to generate cash flows indefinitely.

The changes in the carrying amount of goodwill since December 31, 2011 are as follows by reporting segment:

(In thousands)	Office Furniture	Hearth Products	Total
Balance as of December 31, 2011			
Goodwill	\$134,075	\$166,188	\$300,263
Accumulated impairment losses	(29,359) (143) (29,502
	104,716	166,045	270,761
Goodwill acquired	22,598	—	22,598
Balance as of September 29, 2012			
Goodwill	156,673	166,188	322,861
Accumulated impairment losses	(29,359) (143) (29,502
	\$127,314	\$166,045	\$293,359

The Corporation evaluates its goodwill and indefinite-lived intangible assets for impairment on an annual basis during the fourth quarter, or whenever indicators of impairment exist. No indicators existed during the nine months ended September 29, 2012. The Corporation estimates the fair value of its reporting units using various valuation techniques, with the primary technique being a discounted cash flow method. This method employs assumptions that are market participant based. The increase in the office furniture segment relates to final purchase price allocations for an acquisition completed during the fourth quarter of 2011 as well as the BP Ergo acquisition completed in third quarter 2012. See Note G. Business Combinations footnote.

Note I. Product Warranties

The Corporation issues certain warranty policies on its office furniture and hearth products that provide for repair or replacement of any covered product or component that fails during normal use because of a defect in design or workmanship. Reserves have been established for the various costs associated with the Corporation's warranty programs and are included in "Accounts payable and accrued expenses" in the Condensed Consolidated Balance Sheets.

A warranty reserve is determined by recording a specific reserve for known warranty issues and an additional reserve for unknown claims that are expected to be incurred based on historical claims experience. Actual claims incurred could differ from the original estimates, requiring adjustments to the reserve. Activity associated with warranty obligations was as follows during the periods noted:

(In thousands)	Nine Months Ended	
	September 29, 2012	October 1, 2011
Balance at beginning of period	\$12,910	\$12,930

Edgar Filing: HNI CORP - Form 10-Q

Accruals for warranties issued during period	9,846	10,471	
Adjustments related to pre-existing warranties	845	(261)
Settlements made during the period	(10,700) (10,906)
Balance at end of period	\$12,901	\$12,234	

Note J. Postretirement Health Care

The following table sets forth the components of net periodic benefit cost included in the Corporation's Condensed Consolidated Statements of Comprehensive Income for:

(In thousands)	Nine Months Ended	
	September 29, 2012	October 1, 2011
Service cost	\$337	\$273
Interest cost	540	603
Amortization of transition obligation	381	381
Amortization of (gain)/loss	—	(12)
Net periodic benefit cost	\$1,258	\$1,245

Note K. Income Taxes

The provision for income taxes for continuing operations for the three months ended September 29, 2012 reflects an effective tax rate of 38.3 percent compared to 34.6 percent for the same period last year. The increase is due primarily to the research and development tax credit not being extended in 2012.

Note L. Derivative Financial Instruments

The Corporation uses derivative financial instruments to reduce its exposure to adverse fluctuations in interest rates and diesel fuel prices. On the date a derivative is entered into, the Corporation designates the derivative as (i) a fair value hedge, (ii) a cash flow hedge, (iii) a hedge of a net investment in a foreign operation or (iv) a risk management instrument not designated for hedge accounting. The Corporation recognizes all derivatives on its Condensed Consolidated Balance Sheets at fair value.

Interest Rate Risk

In June 2008, the Corporation entered into an interest rate swap agreement, designated as a cash flow hedge, for purposes of managing its benchmark interest rate fluctuation risk. Under the interest rate swap agreement, the Corporation paid a fixed rate of interest and received a variable rate of interest equal to the one-month London Interbank Offered Rate (LIBOR) as determined on the last day of each monthly settlement period on an aggregated notional principal amount of \$50 million. The net amount paid or received upon monthly settlements was recorded as an adjustment to interest expense, while the effective change in fair value was recorded as a component of accumulated other comprehensive income in the equity section of the Corporation's Condensed Consolidated Balance Sheets. The interest rate swap agreement matured on May 27, 2011.

Diesel Fuel Risk

The Corporation uses independent freight carriers to deliver its products. These carriers charge the Corporation a basic rate per mile that is subject to a mileage surcharge for diesel fuel price increases. The Corporation enters into variable to fixed rate commodity swap agreements with two financial counterparties to manage fluctuations in fuel costs. The Corporation hedges approximately 50% of its diesel fuel surcharge exposure for the next twelve months. The Corporation uses the hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges, and not to speculate on the future price of diesel fuel. The hedge agreements are designed to add stability to the Corporation's costs, enabling the Corporation to make pricing decisions and lessen the economic impact of

abrupt changes in diesel fuel prices over the term of the contract. The hedging instruments consist of a series of financially settled fixed forward contracts with expiration dates ranging up to twelve months. The contracts have been designated as cash flow hedges of future diesel purchases, and as such, the net amount paid or received upon monthly settlements is recorded as an adjustment to freight expense, while the effective change in fair value is recorded as a component of accumulated other comprehensive income in the equity section of the Corporation's Condensed Consolidated Balance Sheets.

As of September 29, 2012, \$0.2 million of deferred net losses, net of tax, included in equity ("Accumulated other comprehensive income" in the Corporation's Condensed Consolidated Balance Sheets) related to the diesel hedge agreements are expected to be reclassified to current earnings ("Selling and administrative expenses" in the Corporation's Condensed Consolidated Statements of Comprehensive Income) over the next twelve months.

Edgar Filing: HNI CORP - Form 10-Q

The location and fair value of derivative instruments reported in the Corporation's Condensed Consolidated Balance Sheets are as follows (in thousands):

	Balance Sheet Location	Asset (Liability) Fair Value	
		September 29, 2012	December 31, 2011
Diesel fuel swap	Accounts payable and accrued expenses	\$(407)	\$(256)

Note M. Fair Value Measurements

For recognition purposes, on a recurring basis the Corporation is required to measure at fair value its marketable securities and derivative instruments. The marketable securities were comprised of government securities, corporate bonds and money market funds. When available the Corporation uses quoted market prices to determine fair value and classifies such measurements within Level 1. In some cases where market prices are not available, the Corporation makes use of observable market-based inputs (prices or quotes from published exchanges/indexes) to calculate fair value using the market approach, in which case the measurements are classified within Level 2.

Assets measured at fair value as of September 29, 2012 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Government securities	\$ 15,732	\$—	\$ 15,732	\$—
Corporate bonds	\$ 4,691	\$—	\$ 4,691	\$—
Derivative financial instruments	\$(289)	\$—	\$(289)	\$—

Assets measured at fair value as of December 31, 2011 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Government securities	\$ 15,863	\$—	\$ 15,863	\$—
Corporate bonds	\$ 3,751	\$—	\$ 3,751	\$—
Derivative financial instruments	\$(91)	\$—	\$(91)	\$—

In addition to the methods and assumptions the Corporation uses to record the fair value of financial instruments as discussed in the section above, it uses the following methods and assumptions to estimate the fair value of its financial

instruments.

Cash and cash equivalents - Level 1

The carrying amount approximated fair value and includes money market funds.

Long-term debt (including current portion) - Level 2

The carrying value of the Corporation's outstanding variable-rate, long-term debt obligations at September 29, 2012 and December 31, 2011, the end of the Corporation's 2011 fiscal year, approximated the fair value. The fair value of the Corporation's outstanding fixed-rate, long-term debt obligations is estimated based on discounted cash flow method to be \$159 million at September 29, 2012 and \$160 million at December 31, 2011, compared to the carrying value of \$150 million.

14

Note N. Commitments and Contingencies

The Corporation utilizes letters of credit in the amount of \$14 million to back certain insurance policies and payment obligations. The letters of credit reflect fair value as a condition of their underlying purpose and are subject to competitively determined fees.

The Corporation has contingent liabilities which have arisen in the ordinary course of its business, including liabilities relating to pending litigation, environmental remediation, taxes, and other claims. It is the Corporation's opinion that liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, cash flows or on the Corporation's quarterly or annual operating results when resolved in a future period.

Note O. New Accounting Standards

In July 2012, the FASB issued accounting guidance intended to reduce the cost and complexity of the annual impairment test for indefinite-lived intangible assets other than goodwill by providing the option of performing a qualitative assessment to determine whether future impairment testing is necessary. This guidance will be effective December 30, 2012, the beginning of the Corporation's 2013 fiscal year, with early adoption allowed. The Corporation does not expect the adoption to have a material impact on its financial statements.

Note P. Business Segment Information

Management views the Corporation as operating in two business segments: office furniture and hearth products with the former being the principal business segment.

The office furniture segment manufactures and markets a broad line of metal and wood office furniture which includes storage products, desks, credenzas, chairs, tables, bookcases, freestanding office partitions and panel systems and other related products. The hearth products segment manufactures and markets a broad line of manufactured gas, electric, wood and biomass burning fireplaces, inserts, stoves, facings and accessories, principally for the home.

For purposes of segment reporting, intercompany sales transfers between segments are not material and operating profit is income before income taxes exclusive of certain unallocated corporate expenses. These unallocated corporate expenses include the net cost of the Corporation's corporate operations, interest income and interest expense. Management views interest income and expense as corporate financing costs rather than a business segment cost. In addition, management applies one effective tax rate to its consolidated income before income taxes so income taxes are not reported or viewed internally on a segment basis.

The Corporation's primary market and capital investments are concentrated in the United States.

Edgar Filing: HNI CORP - Form 10-Q

Reportable segment data reconciled to the Corporation's condensed consolidated financial statements for the three and nine month periods ended September 29, 2012, and October 1, 2011, is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Corporation has two reportable segments: office furniture and hearth products. The Corporation is the second largest office furniture manufacturer in the world and the nation's leading manufacturer and marketer of gas- and wood-burning fireplaces. The Corporation utilizes its split and focus, decentralized business model to deliver value to its customers with its various brands and selling models. The Corporation is focused on growing its existing businesses while seeking out and developing new opportunities for growth.

Net sales for the third quarter of fiscal 2012 increased 9.2 percent to \$550.9 million when compared to the third quarter of fiscal 2011. The increase was driven by new acquisitions in the office furniture segment and higher sales in the new construction channel of the hearth products segment. Gross margins for the quarter decreased from prior year levels due to unfavorable mix, seasonal ramp up inefficiencies and the impact of acquisitions offset partially by better price realization and lower material costs. Total selling and administrative expenses increased due to investments in growth initiatives and the impact of acquisitions. The Corporation completed the acquisition of BP Ergo, a leading manufacturer and marketer of office furniture in India, during the third quarter of 2012.

Results of Operations

The following table presents certain key highlights from the results of operations for the periods indicated:

(In thousands)	Three Months Ended			Nine Months Ended			
	September 29, 2012	October 1, 2011	Percent Change	September 29, 2012	October 1, 2011	Percent Change	
Net sales	\$550,855	\$504,220	9.2	% \$1,476,467	\$1,333,181	10.7	%
Cost of sales	359,519	324,825	10.7	% 973,191	872,132	11.6	%
Gross profit	191,336	179,395	6.7	% 503,276	461,049	9.2	%
Selling and administrative expenses	149,421	138,671	7.8	% 444,610	407,281	9.2	%
Restructuring and impairment charges	172	277	(37.9))% 1,361	2,130	(36.1))%
Operating income	41,743	40,447	3.2	% 57,305	51,638	11.0	%
Interest expense, net	2,503	2,345	6.7	% 7,571	8,724	(13.2))%
Income before income taxes	39,240	38,102	3.0	% 49,734	42,914	15.9	%
Income taxes	15,036	13,186	14.0	% 18,785	15,192	23.7	%
Net income	\$24,204	\$24,916	(2.9))% \$30,949	\$27,722	11.6	%

Consolidated net sales for the third quarter of 2012 increased 9.2 percent or \$46.6 million compared to the same quarter last year. The increase was driven by new acquisitions in the office furniture segment and higher sales in the new construction channel of the hearth products segment. Acquisitions contributed \$42.6 million of sales, or 8.5 percent sales growth to the third quarter of 2012.

Gross margin for the third quarter of 2012 decreased to 34.7 percent compared to 35.6 percent for the same quarter last year. The decrease in gross margin was driven by unfavorable mix, seasonal ramp up inefficiencies and the impact of acquisitions offset partially by better price realization and lower material costs. Third quarter 2012 included

\$0.2 million of accelerated depreciation and transition costs related to the closure and consolidation of office furniture manufacturing facilities compared to \$0.3 million in the same period in the prior year.

Total selling and administrative expenses, including restructuring charges, as a percentage of net sales decreased to 27.2 percent compared to 27.6 percent for the same quarter last year. Benefits from sales leverage were partially offset by investments in growth initiatives and acquisition related transaction expenses. Third quarter 2012 included \$0.6 million of restructuring and transition charges associated with plant consolidations compared to \$0.3 million in the same period in the prior year.

The provision for income taxes for continuing operations for the three months ended September 29, 2012 reflect an effective tax rate of 38.3 percent compared to 34.6 percent for the same period last year. The increase is due primarily to the research and development tax credit not being extended in 2012. The 2012 estimated annual effective tax rate is expected to be 38 percent.

Net income attributable to HNI Corporation was \$24.5 million or \$0.53 per diluted share in the third quarter of 2012 compared to \$24.9 million or \$0.55 per diluted share in the third quarter of 2011.

For the first nine months of 2012, consolidated net sales increased \$143.3 million, or 10.7 percent, to \$1.5 billion compared to \$1.3 billion for the first nine months of 2011. Gross margins decreased to 34.1 percent compared to 34.6 percent for the same period last year. Net income attributable to HNI Corporation was \$31.4 million for the first nine months of 2012 compared to \$27.8 million for the first nine months of 2011. Earnings per share increased to \$0.68 per diluted share compared to \$0.61 per diluted share for the same period last year.

Office Furniture

Third quarter 2012 sales for the office furniture segment increased 10.9 percent or \$45.9 million to \$467.8 million from \$421.9 million for the same quarter last year. Acquisitions contributed \$42.6 million of sales, or 10.1 percent sales growth to the third quarter of 2012. Organic growth was effectively flat across all channels of the office furniture segment. Third quarter 2012 operating profit prior to unallocated corporate expenses decreased 7.4 percent or \$3.1 million to \$38.4 million as a result of unfavorable mix, seasonal ramp up inefficiencies, investments in growth initiatives and higher restructuring and transition costs. These were partially offset by better price realization and lower material costs. Third quarter 2012 included \$0.8 million of restructuring and transition costs compared to \$0.5 million of restructuring and transition costs in third quarter 2011.

Net sales for the first nine months of 2012 increased 12.4 percent or \$139.3 million to \$1.3 billion compared to \$1.1 billion for the same period in 2011. Acquisitions contributed \$83.0 million of sales, or 7.4 percent sales growth for the first nine months of 2012. Organic growth was across all channels of the office furniture segment. Operating profit for the first nine months of 2012 increased 1.3 percent or \$0.9 million to \$68.3 million compared to \$67.5 million for the same period in 2011.

Hearth Products

Third quarter 2012 net sales for the hearth products segment increased 0.9 percent or \$0.7 million to \$83.1 million from \$82.3 million for the same quarter last year. The increase was driven by an increase in the new construction channel partially offset by a decrease in the remodel-retrofit channel. Operating profit prior to unallocated corporate expenses increased \$2.2 million to \$9.1 million compared to \$6.9 million in the prior year quarter due to higher price realization and lower material costs offset partially by investments in selling and growth initiatives.

Net sales for the first nine months of 2012 increased 1.9 percent or \$4.0 million to \$211.5 million compared to \$207.5 million for the same period in 2011. Operating profit for the first nine months of 2012 increased \$5.7 million to \$11.1 million compared to \$5.3 million for the same period in 2011.

Liquidity and Capital Resources

Cash Flow – Operating Activities

Operating activities generated \$80.8 million of cash in the first nine months of 2012 compared to \$67.0 million in the first nine months of 2011. Working capital performance resulted in a \$0.4 million use of cash in the first nine months of the current fiscal year compared to a \$18.8 million use of cash in the same period of the prior year driven primarily by sell through of existing inventory at a newly acquired subsidiary and change in sales momentum.

Cash Flow – Investing Activities

Capital expenditures, including capitalized software, for the first nine months of fiscal 2012 were \$44.7 million compared to \$20.2 million in the same period of fiscal 2011 and were primarily for tooling and equipment for new products and the implementation of new integrated software systems to support business process transformation. For the full year 2012, capital expenditures are expected to be approximately \$55 to \$60 million, primarily focused on new product development and related tooling and the business systems transformation project referred to above.

The Corporation completed the acquisition of BP Ergo during the third quarter ended September 29, 2012 for a purchase price of approximately \$25.5 million (including assumed indebtedness). The Corporation also completed the acquisition of the pellet stove business of Dansons, Inc. during the third quarter for a purchase price of approximately \$1.5 million.

Cash Flow – Financing Activities

During the first nine months of fiscal 2012, net borrowings under the revolving credit facility peaked at \$80 million. The net borrowings at the end of third quarter were \$40 million and are classified as short-term as the Corporation expects to repay the borrowings within a year. The Corporation assumed \$4.2 million of short-term bank debt with the acquisition of BP Ergo.

The Credit Agreement governing the Corporation's revolving credit facility contains a number of covenants, including covenants requiring maintenance of the following financial ratios as of the end of any fiscal quarter:

a consolidated interest coverage ratio of not less than 4.0 to 1.0, based upon the ratio of (a) consolidated EBITDA (as defined in the Credit Agreement) for the last four fiscal quarters to (b) the sum of consolidated interest charges; and a consolidated leverage ratio of not greater than 3.0 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the Credit Agreement) to (b) consolidated EBITDA for the last four fiscal quarters; or
a consolidated leverage ratio of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness to (b) consolidated EBITDA for the last four fiscal quarters following any qualifying debt financed acquisition.

The note purchase agreement pertaining to the Corporation's Senior Notes also contains a number of covenants, including a covenant requiring maintenance of consolidated debt to consolidated EBITDA (as defined in the note purchase agreement) of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the note purchase agreement) to (b) consolidated EBITDA for the last four fiscal quarters.

The revolving credit facility is the primary source of committed funding from which the Corporation finances its planned capital expenditures and strategic initiatives, such as acquisitions, repurchases of common stock and certain working capital needs. Non-compliance with the various financial covenant ratios in the revolving credit facility or the Senior Notes could prevent the Corporation from being able to access further borrowings under the revolving credit facility, require immediate repayment of all amounts outstanding with respect to the revolving credit facility and Senior Notes and/or increase the cost of borrowing.

The most restrictive of the financial covenants is the consolidated leverage ratio requirement of 3.0 to 1.0 included in the Credit Agreement. Under the Credit Agreement, adjusted EBITDA is defined as consolidated net income before interest expense, income taxes and depreciation and amortization of intangibles, as well as non-cash, nonrecurring charges and all non-cash items increasing net income. At September 29, 2012, the Corporation was well below the maximum allowable ratio and was in compliance with all of the covenants and other restrictions in the Credit Agreement and the note purchase agreement. The Corporation currently expects to remain in compliance over the next twelve months.

The Corporation's Board of Directors (the "Board") declared a regular quarterly cash dividend of \$0.24 per share on the Corporation's common stock on August 7, 2012, to shareholders of record at the close of business on August 17, 2012. The dividend was paid on August 31, 2012.

During the nine months ended September 29, 2012, the Corporation repurchased 528,000 shares of common stock at a cost of approximately \$13.4 million, or an average price of \$25.30 per share. As of September 29, 2012,

approximately \$122.4 million of the Board's current repurchase authorization remained unspent.

Cash, cash equivalents and short-term investments, coupled with cash from future operations, borrowing capacity under the existing facility and the ability to access capital markets, are expected to be adequate to fund operations and satisfy cash flow needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Corporation does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on the Corporation's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations

Contractual obligations associated with ongoing business and financing activities will result in cash payments in future periods. A table summarizing the amounts and estimated timing of these future cash payments was provided in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2011. During the first nine months of fiscal 2012, there were no material changes outside the ordinary course of business in the Corporation's contractual obligations or the estimated timing of the future cash payments.

Commitments and Contingencies

The Corporation is involved in various kinds of disputes and legal proceedings that have arisen in the ordinary course of business, including pending litigation, environmental remediation, taxes and other claims. It is the Corporation's opinion, after consultation with legal counsel, that additional liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, cash flows or on the Corporation's quarterly or annual operating results when resolved in a future period.

Critical Accounting Policies

The preparation of the financial statements requires the Corporation to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Corporation continually evaluates its accounting policies and estimates. The Corporation bases its estimates on historical experience and on a variety of other assumptions believed by management to be reasonable in order to make judgments about the carrying value of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. A summary of the more significant accounting policies that require the use of estimates and judgments in preparing the financial statements is provided in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2011. During the first nine months of fiscal 2012, there were no material changes in the accounting policies and assumptions previously disclosed.

New Accounting Standards

For information pertaining to the Corporation's adoption of new accounting standards and any resulting impact to the Corporation's financial statements, please refer to Note O. New Accounting Standards of the Notes to the Condensed Consolidated Financial Statements, in Part 1, Item 1 of this Quarterly Report on Form 10-Q.

Looking Ahead

Despite near-term economic and political uncertainties, management remains positive about the office furniture and hearth products markets and the prospects for long-term profitable growth. The Corporation continues its investments in selling, marketing and product initiatives to drive growth. Management believes the Corporation is well positioned for growth.

The Corporation continues to focus on creating long-term shareholder value by growing its businesses through investment in building brands, product solutions and selling models, enhancing its strong member-owner culture and remaining focused on its long-standing continuous improvement programs to build best total cost and a lean enterprise.

Forward-Looking Statements

Statements in this report that are not strictly historical, including statements as to plans, outlook, objectives and future financial performance, are "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words, such as "anticipate," "believe," "could," "confident," "estimate," "expect," "forecast," "hope," "intend," "likely," "may," "plan," "possible," "potential," "predict," "project," "should," "will," "would" and variations of such words and similar expressions identify forward-looking statements. Forward-looking statements involve known and unknown risks, which may cause the Corporation's actual results in the future to differ materially from expected results. These risks include, without limitation: the Corporation's ability to realize financial benefits from its (a) price increases, (b) cost containment and business simplification initiatives, (c) investments in strategic acquisitions, new products and brand building, (d) investments in distribution and rapid continuous improvement, (e) ability to maintain its effective tax rate, (f) repurchases of common stock and (g) consolidation and logistical realignment initiatives; uncertainty related to the availability of cash and credit, and the terms and interest rates on which credit would be available, to fund operations and future growth; lower than expected demand for the Corporation's products due to uncertain political and economic conditions, slow or negative growth rates in global and domestic economies and the protracted decline in the housing market; lower industry growth than expected; major disruptions at our key facilities or in the supply of any key raw materials, components or finished goods; competitive pricing pressure from foreign and

domestic competitors; higher than expected costs and lower than expected supplies of materials; higher costs for energy and fuel; changes in the mix of products sold and of customers purchasing; relationships with distribution channel partners, including the financial viability of distributors and dealers; restrictions imposed by the terms of the Corporation's revolving credit facility and note purchase agreement; currency fluctuations and other factors described in the Corporation's annual and quarterly reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q. The Corporation undertakes no obligation to update, amend, or clarify forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 29, 2012, there were no material changes to the financial market risks that affect the quantitative and qualitative disclosures presented in Item 7A of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2011.

Item 4. Controls and Procedures

Disclosure controls and procedures are designed to ensure information required to be disclosed by the Corporation in the reports it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Corporation carried out an evaluation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rules 13a – 15(e) and 15d – 15(e). As of September 29, 2012, based on this evaluation, the chief executive officer and chief financial officer have concluded these disclosure controls and procedures are effective.

Furthermore, there have been no changes in the Corporation's internal control over financial reporting during the fiscal quarter covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There are no new legal proceedings or material developments to report other than ordinary routine litigation incidental to the business.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
