REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

American Electric Power Service Corporation, as Plan Administrator:

We have audited the accompanying statements of net assets available for benefits of the American Electric Power System Retirement Savings Plan (the "Plan") as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by Plan management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the Table of Contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic 2006 financial statements taken as a whole.

AMERICAN ELECTRIC POWER SYSTEM RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006 AND 2005

1. **PLAN DESCRIPTION**

The following description of the American Electric Power System Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

The Plan is a defined contribution plan that became effective and commenced operations on January 1, 1978. The Plan covers eligible regularly scheduled full-time and part-time employees of the participating subsidiaries of American Electric Power Company, Inc. ("AEP" or the "Company"). Eligible employees may enroll in the Plan upon commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Generally, eligible employees participating in the Plan may make contributions (as pre-tax, after-tax or, effective beginning July 1, 2006, designated Roth 401(k) contributions) in 1% increments up to 30% of their eligible pay (within IRS limits). That 30% limit will be increased to 50% effective beginning July 1, 2007. Participants who are age 50 and older are able to save additional pre-tax or Roth 401(k) dollars; the catch-up contribution limit was \$5,000 and \$4,000 for 2006 and 2005, respectively. The Company contributes to the Plan, on behalf of each participant, an amount equal to 75% of the participant's contributions up to 6% of the participant's eligible compensation for each payroll period, subject to certain limitations. All contributions are deposited to the American Electric Power System Retirement Savings Plan Trust after each pay period. The Plan, in a manner consistent with the requirements under section 401 et seq., of the Internal Revenue Code, restricts the amount that certain participants who are deemed highly compensated may contribute to the Plan. Participants are allowed to change investment elections, change investment percentages in the funds, or move existing fund balances on a daily basis. Participants are immediately vested in their pre-tax, after-tax, Roth 401(k) and the Company matching contributions, including earnings thereon.

American Electric Power Service Corporation ("AEPSC") is the plan administrator (Plan Administrator) and plan sponsor (Plan Sponsor). AEPSC is a wholly-owned subsidiary of AEP. Until July 1, 2006, Fidelity Management Trust Company ("Fidelity") was the trustee for all funds and the record keeper for the entire Plan.

Effective July 1, 2006, Fidelity Management Trust Company was replaced by JP Morgan Chase Bank N.A. as custodian and trustee and JP Morgan Retirement Plan Services LLC as record keeper with respect to the Plan. Also effective July 1, 2006, the investment options offered by the Plan were changed to a series of separately managed accounts, interests in commingled and collective trusts and self-directed mutual fund brokerage accounts for which JP Morgan affiliates provide custody, trustee, recordkeeping and other services.

The AEP Stock Fund, a Plan investment option, is an Employee Stock Ownership Plan ("ESOP"). As a result, participants can elect to have dividends generated from their AEP Stock Fund holdings paid out in cash, rather than automatically reinvested in the fund. The dividend payouts are made periodically, but no less often than annually, and are treated as ordinary income for tax purposes. The 10 percent early withdrawal penalty for individuals under age 59-1/2 does not apply to these dividend payouts.

Participants may transfer the value of their own cumulative contributions, in any whole percentage or dollar amount, among investments, and change their investment elections on a daily basis. Participants may change their payroll contribution elections coinciding with Company payroll periods. Excluding their pre-tax and Roth 401(k) contributions, participants may make an unlimited number of withdrawals of their interest in the Plan, including Company matching contributions, which are immediately vested. Pre-tax and Roth 401(k) contributions are not eligible for withdrawal by participants not yet age 59-1/2, except under hardship as defined by the Plan or severance

of employment.

Participants may borrow from their savings plan accounts, a minimum of \$1,000 but no more than the lesser of \$50,000 or 50% of their account balance. Loan terms range from 12 months to 60 months (or up to 180 months for certain residential loans), or any monthly increment in-between. Interest rates, fixed for the life of the loan, are calculated by adding 1% to the prime rate, as reported in the Wall Street Journal. For loans taken before July 1, 2006, the interest rate is in effect as of the first business day of the calendar *quarter* in which the loan is taken. For loans taken after July 1, 2006, the interest rate is in effect as of the first business day of the calendar *month* in which the loan is taken. Active employees make principal and interest payments through payroll deductions.

Retirees/surviving spouses may make monthly payments using a coupon book or through automatic withdrawal from their bank account. Participant loans and the accrued interest are collateralized by the account balance, and upon default, the outstanding balance is subjected to income taxes and possibly penalty taxes.

2. ACCOUNTING POLICIES

The accompanying financial statements are prepared on the accrual basis of accounting.

Certain amounts in the 2005 financial statements have been reclassified to conform with the 2006 presentation.

Investments are reported in the Statements of Net Assets Available for Benefits at fair value, except for its benefit responsive investment contract investments, which are stated at contract value.

The shares of AEP common stock held in the AEP Stock Fund investments are valued at year-end quoted stock closing prices.

Quoted market prices are used to value investments (including, but not limited to, the shares of AEP common stock held in the AEP Stock Fund), except investments in registered investment companies, collective trust funds or commingled funds, which are stated at estimated fair values based on the value of the underlying securities and assets as provided by the Trustee. All participant loans are valued at the outstanding loan balances.

The Managed Income Fund includes investment contracts valued at contract value, which is equal to cost (contributions), plus interest, less withdrawals. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1, *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP AAG INV-1"), investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan adopted FSP AAG INV-1 in 2006. The adoption did not have a material effect on the Plan's financial statements as interest rates are adjusted to the market quarterly. Accordingly, contract value approximates fair value.

Purchases and sales of securities have been recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. These amounts are reinvested by the Trustee in the same funds that generated such income with the exception of the AEP Stock Fund, which pays out or reinvests dividends at each participant direction.

Administrative and Management Fees paid to both Fidelity and JPMorgan for 2006 totaled \$1,941,205 and such fees paid to Fidelity for 2005 totaled \$904,495. The structure for the payment of the Plan's administrative and management fees changed in connection with the transition from Fidelity to JPMorgan effective July 1, 2006 (as described in Footnote 1). Prior to July 1, 2006, the Plan was not charged separate fees to Fidelity for recordkeeping services. Fidelity received compensation in the form of management fees directly from the Plan's holdings in various mutual funds as many of the holdings were managed by Fidelity. Effective July 1, 2006, the Plan directly pays for administrative, recordkeeping and management fees.

Distributions are recorded when paid. There were no material amounts due to participants who requested distributions from the Plan as of December 31, 2006 and 2005.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

The Plan utilizes various investment instruments, including common stock, bonds, commingled funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

3. **INVESTMENT CONTRACTS**

During the year ended December 31, 2005 and the six month period ended June 30, 2006, the Plan had a Managed Income Fund with Fidelity as trustee, which invested primarily in fully benefit responsive investment contracts. Fidelity maintained the assets in a custodian account. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The account was credited with earnings on the underlying investments and charged for Plan withdrawals (credited interest rates ranged from 5.65% to 4.05% and 5.65% to 3.76% for 2006 and 2005, respectively). The average yield for each investment contract ranged from 5.04% to 4.16% and 4.16% to 3.87% for fiscal years ending December 31, 2006 and 2005, respectively. The investment is recorded in the 2005 financial statements based on the contract value of the underlying investment contracts as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less withdrawals. All investment contracts maintained by Fidelity were terminated in June of 2006 as part of the transfer of recordkeeping and investment functions from Fidelity to JPMorgan Retirement Plan Services LLC.

At December 31, 2006, the Managed Income Fund provides a self managed stable value investment option to participants that includes synthetic guaranteed investment contracts (“GIC”) which simulates the performance of a guaranteed investment contract through an issuer’s guarantee of a specific interest rate (the wrapper contract) and a portfolio of financial instruments that are owned by the Plan. The Plan entered into four synthetic GIC contracts in July 2006. The synthetic GIC contracts include underlying assets which are held in a trust owned by the Plan and utilizes benefit-responsive wrapper contracts issued by four banking institutions. The contracts provide that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments and the spread between the market value and contract value, but the rate cannot be less than 0%. Certain events such as plan termination or a plan merger initiated by the Plan Sponsor, may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. The Plan Sponsor does not believe that any events that may limit the ability of the plan to transact at contract value are probable. At December 31, 2006 the credited rate and the average yield based on annualized earnings and interest credited to participants was 5.50% and 5.29%, respectively.

4. **INVESTMENTS EXCEEDING 5% OF PLAN NET ASSETS**

Investments exceeding five percent of net assets as of December 31, 2006 and 2005 were:

	FAIR VALUE	
	2006	2005
American Electric Power Company, Inc. Common Stock	\$ 401,083,727	\$ 517,452,122

Fidelity Blue Chip Growth Fund	\$	-	\$ 245,710,255
Fidelity US Equity Index Commingled Pool	\$	-	\$ 211,263,445
Morgan Guaranty Act Contract	\$	-	\$ 206,692,392
Bank of America Contract	\$	-	\$ 206,691,132
State Street Bank & Trust Company Contract	\$	-	\$ 206,691,243
Rabobank Nederland Contract	\$	-	\$ 206,684,414
Fidelity Low-Priced Stock Fund	\$	-	\$ 152,202,523
Intermediate Bond Fund - JPMorgan Chase Bank	\$ 828,681,084	\$	-
EB Daily Liquidity Aggregate Bond Index Fund	\$ 185,242,997	\$	-
EB Daily Liquidity Stock Index Fund	\$ 339,905,703	\$	-

5. **NET APPRECIATION IN FAIR VALUE OF INVESTMENTS**

During 2006 and 2005, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated in value as follows:

	Year Ended December 31,	
	2006	2005
Investment at Fair Value:		
American Electric Power Company, Inc. – Common Stock	\$ 50,371,670	\$ 39,600,019
Investments at Estimated Fair Value:		
Securities, Mutual Funds and Group Annuity, Bank Investment and Other		
Fixed Income Contracts	\$ 165,708,477	\$ 48,173,123
Total Net Appreciation	\$ 216,080,147	\$ 87,773,142

6. **FEDERAL INCOME TAX**

The Internal Revenue Service (IRS) has determined that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code (the Code); therefore, the Plan's Trust is exempt from federal income tax pursuant to Section 501(a) of the Code.

The Plan obtained its latest determination letter on February 15, 2005, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code; provided however, the letter merely acknowledges receipt of (without approving) the provisions intended to satisfy the requirements of the Code, as amended by the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA") and it contemplates that AEP will make some additional changes to the plan documents that were proposed in correspondence sent to the IRS in connections with its determination letter application. Those changes were made pursuant to documents signed on May 11, 2005.

On January 30, 2007, the Company submitted an application to the IRS for an updated determination letter with respect to compliance of the Plan and its trust with the applicable requirements of the Code. That application remains pending. The Company may timely further amend the Plan so that it remains in compliance with the requirements of the Code. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code, and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Under current income tax laws and regulations, participants are not subject to federal income tax on the employer contributions to their accounts or on the accumulated earnings on employee and Company contributions until such amounts are distributed to participants. Employees have the option to make contributions to the Plan on a pre-tax basis, in which case federal income tax is deferred until such amounts are distributed. Effective beginning July 1, 2006, employees have the option to make designated Roth Contributions to the Plan, in which case federal income tax does not apply to accumulated earnings distributed as part of a qualified distribution.

7. **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants remain 100 percent vested in their accounts.

8. **EXEMPT PARTY-IN-INTEREST TRANSACTIONS**

Certain transactions involving the Plan and its assets involved parties in interest with respect to the Plan, but those transactions were not prohibited transactions under ERISA because of the applicability of one or more exemptions. The exempt party-in-interest transactions involving the Plan included the following: While Fidelity Management Trust Company was acting as trustee and custodian and record keeper under the plan, its affiliate was acting as the investment manager or investment advisor with respect to certain mutual funds made available as investment options under the Plan. While JPMorgan Chase Bank, N.A., was acting as trustee and custodian under the Plan, its affiliates have been acting as investment manager for a number of the Plan's investment options, the Plan's record keeper and investment advisor or investment manager for a number of plan participants with respect to the amounts held in their plan.

At December 31, 2006 and 2005, the Plan held 9,420,072 and 13,951,257 shares, respectively of common stock of American Electric Power, Inc., the parent company and Plan Sponsor, with a cost basis of \$303,523,152 and \$449,014,903, respectively. During the years ended December 31, 2006 and 2005, the Plan recorded dividend income of \$18,700,272 and \$19,772,636, respectively.

9. **LEGAL ISSUES**

Kermit Bridges v. American Electric Power Company, Inc. et al.; John N. Suhayda v. American Electric Power Company, Inc. et al.; and Selena Plentl v. American Electric Power Company, Inc. et al. In the fourth quarter of 2002 and the first quarter of 2003, three putative class action lawsuits were filed on behalf of the Plan against American Electric Power Company, Inc., certain AEP Executives, and AEP's ERISA Plan Administrator alleging violations of ERISA in the selection of AEP Stock as an investment alternative and in the allocation of assets to AEP stock. The complaint requested compensation for losses suffered by the Plan, plus equitable relief, costs, attorney fees and other relief the court considers appropriate. The ERISA actions were originally pending in Federal District Court in Columbus, Ohio. In July 2006, following the withdrawal of two of the plaintiffs, the Federal District Court entered judgment denying the remaining plaintiff's motion for class certification and dismissing all claims without prejudice. In August 2006, the plaintiff filed a notice of appeal of that judgment in the U.S. Court of Appeals for the Sixth Circuit. The parties have filed briefs, and the Court will hear the oral argument on July 27, 2007. The U.S. Department of Labor has intervened and filed a brief in support of the plaintiff, now appellant, and has been allocated

part of appellant's oral argument time. The position of the defendants, now appellees, is that the Order of the Federal District Court should be affirmed. The outcome of the appeal cannot be determined at this time. However, a recent opinion issued by the U.S. Court of Appeals for the Seventh Circuit raising a similar issue was decided in favor of the plaintiff/appellant, and there are similar cases pending before other courts.
