AMREP CORPORATION AND SUBSIDIARIES Notes to Consolidated Financial Statements (Unaudited) Six Months Ended October 31, 2007 and 2006

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements included herein have been prepared by AMREP Corporation (the "Registrant" or the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial information, and do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments, which are of a normal recurring nature, necessary to reflect a fair presentation of the results for the interim periods presented. The results of operations for such interim periods are not necessarily indicative of what may occur in future periods.

The unaudited consolidated financial statements herein should be read in conjunction with the Company's annual report on Form 10-K for the year ended April 30, 2007, which was previously filed with the Securities and Exchange Commission.

(2) Adoption of FIN 48

The Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"), on May 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with FASB Statement No. 5, "Accounting for Contingencies". As required by FIN 48, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that management believes has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. Unrecognized tax benefits

Edgar Filing: AMREP CORP. - Form 10-Q

are tax benefits claimed in the Company's tax returns that do not meet these recognition and measurement standards.

At the adoption date, the Company applied FIN 48 to all tax positions for which the statute of limitations remained open. The adoption of FIN 48 had no impact on the Company's financial statements. The Company's deferred income taxes and other long-term liabilities include an unrecognized tax benefit of \$1,354,000 at May 1, 2007, which had been previously recorded under FASB Statement No. 5 or FASB Statement No. 109. The Company's unrecognized tax benefit at October 31, 2007 was \$1,381,000. If recognized, the unrecognized tax benefit would have an impact on the effective tax rate.

The Company is subject to U.S. Federal income taxes, and also to various state and foreign income taxes. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. The Company is not currently under examination by any tax authorities with respect to its income tax returns. In nearly all jurisdictions, the tax years through fiscal April 30, 2003 are no longer subject to examination.

There were no significant changes in unrecognized tax positions ("UTP") during the period. The total amount of UTP could increase or decrease within the next twelve months for a number of reasons, including the expiration of statutes of limitations, audit settlements, tax examinations and the recognition and measurement considerations under FIN 48. The Company does not believe that the total amount of UTP will significantly increase or decrease over the next twelve months.

5

The Company has elected to retain its existing accounting policy with respect to the treatment of interest and penalties attributable to income taxes in accordance with FIN 48, and continues to reflect interest and penalties attributable to income taxes, to the extent they arise, as a component of its income tax provision or benefit as well as its outstanding income tax assets and liabilities. The total amount of interest and penalties recognized in the accompanying consolidated balance sheets was \$529,000 at October 31, 2007 and \$395,000 at May 1, 2007 (date of adoption).

(3) Restricted Cash

Restricted cash consists of amounts held in escrow that were received in connection with sales of investment assets that are identified as "1031 Exchange assets" and which are restricted pending the purchase or identification of replacement assets.

(4) Receivables

Media services operations accounts receivable, net consist of the following (in thousands):

	October 31, 2007	April 30, 2007
	-----	-----
Fulfillment Services	\$ 31,350	\$ 29,606
Newsstand Distribution Services, net of estimated returns	22,883	19,550

Less allowance for doubtful accounts	(1,080)	(1,331)
	-----	-----
	\$ 53,153	\$ 47,825
	=====	=====

Newsstand Distribution Services accounts receivable are net of estimated magazine returns of \$56,172,000 at October 31, 2007 and \$52,275,000 at April 30, 2007. In addition, under a distribution arrangement with one publisher customer of the Newsstand Distribution Services business, that publisher bears the ultimate credit risk of non-collection of related amounts due from the customers to which the Company distributes the publisher's magazines. Accounts receivable subject to this arrangement were netted against the related accounts payable due the publisher on the accompanying consolidated balance sheets (\$22,835,000 was netted at October 31, 2007 and \$21,106,000 at April 30, 2007).

(5) Investment Assets -----

Investment assets, net consist of the following (in thousands):

Less accumulated amortization	(5,696)	(4,704)
	-----	-----
	\$ 33,150	\$ 34,014
	=====	=====

Software development costs include internal and external costs of the development of new or enhanced software programs and are generally amortized over five years. Deferred order entry costs represent costs incurred in connection with the data entry of customer subscription information to database files and are charged directly to operations over a 12-month period. Customer contracts and relationships are amortized over 12 years.

(8) Accounts Payable, Net and Accrued Expenses

Accounts payable, net and accrued expenses consist of the following (in thousands):

	October 31, 2007	April 30, 2007
Publisher payables, net	\$ 68,101	\$ 63,759
Accrued expenses	7,247	6,803

Other	6,361	9,294
	-----	-----
	\$ 85,892	\$ 83,557
	=====	=====

Pursuant to an arrangement with a publisher customer of the Newsstand Distribution Services business, the Company has netted \$22,835,000 and \$21,106,000 of accounts receivable against the related accounts payable at October 31, 2007 and April 30, 2007 (see Note 4).

(9) Notes Payable

Notes payable consist of the following (in thousands):

Edgar Filing: AMREP CORP. - Form 10-Q

	October 31, 2007	April 30, 2007
Line-of-credit borrowings:		
Real estate operations and other	\$ 17,000	\$ 6,000

Other notes payable	5,216	3,835
	<u>\$ 43,769</u>	<u>\$ 32,299</u>
	=====	=====

The Company's AMREP Southwest Inc. subsidiary has a revolving credit facility with a bank that originally was to mature in September 2008. During September 2007, the maturity date was extended to September 2009, with all other terms remaining unchanged.

(10) Discontinued Operations

Loss from operations of discontinued business (net of income taxes) in the six month period ended October 31, 2007 reflects costs associated with the settlement of all litigation related to the Company's El Dorado, New Mexico water utility subsidiary that were in addition to costs that were estimated and accrued for this matter in the fourth quarter of 2007.

(11) Acquisition

The Company received a refund of \$195,000 in the second quarter of 2008 in excess of a receivable valuation related to the acquisition of Palm Coast in 2007. The Company adjusted the original amount of goodwill recorded in the purchase accounting for the acquisition, in accordance with Financial Accounting Standards Board Statement No. 141, "Business Combinations".

(12) Subsequent Event

On December 5, 2007 a warehouse of approximately 30,000 square feet leased by the Company in Oregon, Illinois was totally destroyed by fire. The warehouse was used principally to store back issues of a number of magazines published by certain customers for which the Company fills back-issue orders as part of its services to these customers. The Company is in the very earliest stage of reviewing its insurance coverage and evaluating the impact of this event on its operations and is unable at this point to reach any conclusions as to these matters or to determine the effect on its financial position, results of operations and cash flows.

(13) Information About the Company's Operations in Different Industry

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

The Company, through its subsidiaries, is primarily engaged in three business segments: the Real Estate business operated by AMREP Southwest Inc. and its subsidiaries (collectively, "AMREP Southwest") and the Fulfillment Services and Newsstand Distribution Services businesses operated by Kable Media Services, Inc. and its subsidiaries (collectively, "Kable" or "Media Services"). The Company's foreign sales and activities are not significant.

The following provides information that management believes is relevant to an assessment and understanding of the Company's consolidated results of operations and financial condition. The discussion should be read in conjunction with the 2007 consolidated financial statements and accompanying notes. All references in this Item 2 to the second quarter or first six months of 2008 and 2007 mean the fiscal three or six-month periods ended October 31, 2007 and 2006, respectively.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of financial condition and results of operations is based on the accounting policies used and disclosed in the 2007 consolidated financial statements and accompanying notes that were prepared in

Edgar Filing: AMREP CORP. - Form 10-Q

accordance with accounting principles generally accepted in the United States of America and included as part of the Company's annual report on Form 10-K for the year ended April 30, 2007 (the "2007 Form 10-K"). The preparation of those consolidated financial statements required management to make estimates and assumptions that affected the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual amounts or results could differ from those estimates.

The significant accounting policies of the Company are described in Note 1 to the 2007 consolidated financial statements, and the critical accounting policies and estimates are described in Management's Discussion and Analysis included in Item 7 of the 2007 Form 10-K. There have been no changes in the critical accounting policies. Information concerning the implementation and the impact of new accounting standards issued by the Financial Accounting Standards Board ("FASB") is included in the notes to the 2007 consolidated financial statements. The Company adopted FASB Interpretation No. 48 ("FIN 48") effective May 1, 2007. The adoption of FIN 48 had no impact on the Company's financial condition, liquidity or results of operations. The Company did not adopt any other accounting policies in the first six months of 2008.

RESULTS OF OPERATIONS

For the second quarter of 2008, net income was \$3,467,000, or \$0.55 per share, compared to net income of \$16,062,000, or \$2.42 per share, in the second quarter of the prior year. Results for the second quarter of both 2008 and 2007 were

10

entirely from continuing operations. For the first six months of 2008, net income was \$9,730,000, or \$1.50 per share, compared to net income of \$31,866,000, or \$4.79 per share, for the same period of 2007. Results for the first six months of 2008 included a loss on discontinued operations of \$57,000, or \$.01 per share, that reflected costs incurred in connection with the settlement of all litigation related to the Company's El Dorado, New Mexico water utility subsidiary that were in addition to costs estimated and accrued for this matter in the fourth quarter of 2007, while the results for the same period in 2007 were entirely from continuing operations. Revenues were \$42,090,000 and \$93,449,000 in the second quarter and first six months of 2008 compared to \$56,055,000 and \$114,324,000 in the same periods last year.

Revenues from land sales at AMREP Southwest were \$3,161,000 and \$21,311,000 for the three and six month periods ended October 31, 2007 compared to \$31,707,000 and \$64,197,000 for the same periods of the prior year. These decreases were the result of a substantial decline in land sales in the Company's principal market of Rio Rancho, New Mexico, due to the softening of the real estate market in the greater Albuquerque-metro and Rio Rancho areas. The number of permits for new home construction in both markets was down significantly for the first ten months of calendar 2007 compared to the same period in 2006, with Rio Rancho showing a decrease of almost 50%. The Company believes that this decline reflected the well-publicized problems of the national homebuilding industry, including fewer sales of both new and existing homes, increasing numbers of mortgage delinquencies and foreclosures and a tightening of mortgage availability. As a result of these factors, builders have slowed the pace of building on land previously purchased from the Company in Rio Rancho and, in some cases, have delayed or cancelled the purchase of additional land. These factors are also believed to have contributed to a decline in sales of undeveloped land to both builders and investors.

Edgar Filing: AMREP CORP. - Form 10-Q

In Rio Rancho, the Company sells both developed and undeveloped lots to national, regional and local homebuilders, commercial and industrial property developers and others. For the second quarter and first six months of 2008 and 2007, the Company's land sales in Rio Rancho have been as follows:

	2007			2006	
	Acres Sold	Revenues (in 000's)	Revenues Per Acre (in 000's)	Acres Sold	Revenue (in 000's)
Three months ended October 31:

Variances in the average selling price per acre of developed land in the three and six month periods of 2008 compared to 2007 were generally due to a change in

the mix and the stage of development of specific projects from which the land was sold. The Company offers developed and undeveloped land in Rio Rancho from a number of different projects and selling prices may vary from project to project and within projects depending on location, the stage of development and other factors. The decrease in the average selling price of undeveloped land in the second quarter and first six months of 2008 was primarily attributable to a higher proportion of undeveloped investment land sold in the current year from locations in Rio Rancho that are further removed from developed areas and thus generally have lower average selling prices. The average gross profit percentage on land sales decreased from 75% and 70% for the second quarter and first six months of 2007 to 50% and 66% for the same periods of 2008. The reduced gross profit percentages in fiscal 2008 were principally attributable to a change in the mix of sales between developed and undeveloped lots sold in each of the periods, with sales in both the three and six month periods of fiscal 2008

Edgar Filing: AMREP CORP. - Form 10-Q

including a higher percentage of revenues from sales of developed lots which generally have lower gross profit percentages than undeveloped lots. Revenues and related gross profits from land sales can vary significantly from period to period as a result of many factors, including the nature and timing of specific transactions, and prior results are not necessarily a good indication of what may occur in future periods.

Revenues from Media Services, including both Fulfillment Services and Newsstand Distribution Services, increased from \$22,913,000 and \$43,740,000 for the second quarter and first six months of 2007 to \$35,574,000 and \$67,852,000 for the same periods in 2008. These increases were attributable to the January 2007 acquisition of Palm Coast Data Holdco, Inc. ("Palm Coast") by Kable. Revenues from Fulfillment Services operations, including the revenues of Palm Coast, were \$32,028,000 and \$61,011,000 for the second quarter and first six months of 2008 compared to \$18,965,000 and \$36,537,000 in the same periods of the prior year. The increase in Fulfillment Services revenues resulting from the Palm Coast acquisition (\$14,207,000 and \$27,326,000 in the second quarter and first six months) was partly offset by decreases in revenues from other parts of Kable's Fulfillment Services business that resulted from competitive market pressures and customer losses that occurred in earlier periods. Revenues from Kable's Newsstand Distribution Services operations decreased from \$3,948,000 and \$7,203,000 for the second quarter and first six months of 2007 to \$3,546,000 and \$6,841,000 the same periods in 2008. The decrease in Newsstand Distribution Services revenues was due primarily to reduced billings and lower commission rates. Kable's operating expenses increased by \$11,571,000 (62%) and \$23,492,000 (64%) for the second quarter and first six months of 2008 compared to the same periods in 2007, with such increase being primarily attributable to the additional operating expenses of Palm Coast, which were offset in part by decreased payroll and benefit expenses resulting from lower sales volumes in other parts of the Fulfillment Services business.

The Company has announced a project to consolidate the Kable and Palm Coast fulfillment operations in order to improve operating efficiencies and customer service and also to reduce costs. In connection with this consolidation effort, the first quarter results for 2008 included a charge of approximately \$300,000 for severance costs relating to a workforce reduction of approximately 75 people that was announced in August 2007 and which is expected to reduce annual operating costs by approximately \$2,700,000. In October 2007, the Company announced the planned redistribution of the fulfillment services work performed at the Marion, Ohio facility of its Fulfillment Services business and the scheduled closing of the Ohio facility. Approximately \$700,000 in severance-related costs are projected to be paid in connection with the Ohio facility closure, which will be recorded as positions are eliminated during the eleven month transitional period ending September 2008. Following the completion of this program, the Company anticipates realizing cost savings of approximately \$2,000,000 annually, which will bring the total estimated cost savings of the two actions to approximately \$4,700,000 annually.

Interest and other revenues were \$3,355,000 and \$4,286,000 for the three and six-month periods ended October 31, 2007 compared to \$1,435,000 and \$6,387,000 for the same periods in the prior year. During the second quarter of 2008, the Company sold a commercial rental property at AMREP Southwest that resulted in a pre-tax gain of \$1,873,000. In addition, the Company recognized pre-tax income of \$618,000 from the forfeiture of a deposit for the purchase of land by a

homebuilder who did not exercise a purchase option. During the first quarter of 2007, the Company sold certain of AMREP Southwest's investment assets, including the Company's office building in Rio Rancho, which in the aggregate contributed a pre-tax gain of \$4,107,000.

Edgar Filing: AMREP CORP. - Form 10-Q

Real Estate commissions and selling expenses decreased by \$402,000 and \$573,000 in the second quarter and first six months of 2008 compared to the same periods in 2007, principally due to decreases in variable commissions and selling expenses. Such costs generally vary depending upon the terms of specific land sale transactions. Real estate and corporate general and administrative expenses in the second quarter and first six months of 2008 decreased by \$414,000 and \$289,000 compared to the same periods in 2007 primarily due to reduced professional and consulting fees. General and administrative costs of magazine operations increased \$1,233,000 and \$2,871,000 in the second quarter and first six months of 2008 compared to the same periods in 2007, primarily due to the addition of Palm Coast partially offset by reduced spending in other Media Services operations.

LIQUIDITY AND CAPITAL RESOURCES

During the past several years, the Company has financed its operations from internally generated funds from real estate sales and Media Services operations, and from borrowings under its various lines-of-credit and development loan agreements.

Cash Flows From Financing Activities

AMREP Southwest has a revolving credit facility with a bank that originally was to mature in September 2008. During September 2007, the maturity date was extended to September 2009, with all other terms remaining unchanged.

On August 24, 2007, the Company paid a special cash dividend of \$1.00 per share to shareholders of record at the close of business on August 10, 2007.

Cash Flows From Operating Activities

Real Estate inventory was \$60,475,000 at October 31, 2007 compared to \$46,584,000 at April 30, 2007. Inventory in the Company's core real estate market of Rio Rancho was \$53,554,000 at October 31, 2007 and \$39,770,000 at April 30, 2007. The increase in Real Estate inventory in Rio Rancho was attributable to capitalized costs incurred for the improvement of certain projects that are in the initial stages of site development. The balance of inventory consisted of properties in Colorado. Real estate investment assets, which includes land held for long-term investment located in areas not planned to be developed in the near term and thus not offered for sale, decreased from \$12,165,000 at April 30, 2007 to \$10,274,000 at October 31, 2007 primarily as a result of the commercial rental property sold at AMREP Southwest.

Real Estate receivables decreased from \$25,117,000 at April 30, 2007 to \$18,921,000 at October 31, 2007, resulting primarily from the net effect of payments received on previously issued mortgage notes offset in part by mortgage notes received in connection with real estate sales that closed during the second quarter of 2008. Receivables from Media Services operations increased from \$47,825,000 at April 30, 2007 to \$53,153,000 at October 31, 2007, primarily due to higher quarter-end billings at October 31, 2007 compared to April 30, 2007.

Accounts payable and accrued expenses increased from \$83,557,000 at April 30, 2007 to \$85,892,000 at October 31, 2007, primarily as a result of an increase in the amounts due publishers. In addition, under a distribution arrangement with one publisher customer of the Newsstand Distribution Services business, that publisher bears the ultimate credit risk of non-collection of related amounts

due from the customers to which the Company distributes the publisher's magazines. Accounts receivable subject to this arrangement were netted (\$22,835,000 was netted at October 31, 2007 and \$21,106,000 was netted at April 30, 2007) against the related accounts payable due the publisher on the accompanying consolidated balance sheets.

Deferred revenue relates to consideration received on certain real estate land sales which are accounted for under the percentage of completion method and which will be recognized as revenue as the Company completes land development work which it is obligated to perform. Deferred revenue decreased from \$4,352,000 at April 30, 2007 to none at October 31, 2007 as related sales recorded under the percentage of completion were completed.

Cash Flows From Investing Activities

Capital expenditures amounted to \$4,019,000 and \$3,590,000 in the first six months of 2008 and 2007, primarily for computer hardware and software development expenditures related to Kable's Fulfillment Services business and the acquisition of real estate investment property. The Company believes that it has adequate cash and financing capability to provide for its anticipated future capital expenditures.

Future Payments Under Contractual Obligations

The Company is obligated to make future payments under various contracts, including its debt agreements and lease agreements, and is subject to certain other commitments and contingencies. The table below summarizes significant contractual obligations as of October 31, 2007 for the items indicated (in thousands):

Contractual Obligations	Total	Less than 1 year	1 - 3 years	3 - 5 years
	-----	-----	-----	-----
Notes payable	\$43,769	\$10,129	\$33,215	\$ 425
Operating leases and other	24,337	4,968	8,602	5,077
	-----	-----	-----	-----
Total	\$68,106	\$15,097	\$41,817	\$ 5,502
	=====	=====	=====	=====

The increase in notes payable was primarily due to additional borrowings under the AMREP Southwest revolving line of credit. Operating leases and other includes \$1,910,000 of unrecognized tax benefits and related interest accrued in accordance with FIN 48. Refer to Notes 9, 14 and 15 to the consolidated financial statements included in the 2007 Form 10-K for additional information on long-term debt and commitments and contingencies.

Discretionary Stock Repurchase Program

On July 16, 2007, the Company announced that its Board of Directors had

Edgar Filing: AMREP CORP. - Form 10-Q

authorized the repurchase of up to 500,000 shares of the Company's common stock from time-to-time in the open market or through negotiated private transactions with non-affiliates of the Company. On October 8, 2007, the Company announced that it had completed its 500,000-share repurchase program. The shares were purchased in open market transactions for a total purchase price, including commissions, of \$15,933,000, or an average of \$31.87 per share.

The Company also announced on October 8, 2007 that its Board of Directors had authorized a further repurchase of up to an additional 500,000 shares of the Company's common stock. The purchases may be made from time-to-time either in the open market or through negotiated private transactions with non-affiliates of the Company. As of October 31, 2007, the Company had purchased 116,400 shares of the additional 500,000 shares in open market transactions for a total purchase price, including commissions, of \$4,063,000, or an average of \$34.91 per share.

14

During the period from November 1, 2007 through December 7, 2007, the Company repurchased 10,000 shares, all in the open market, for an aggregate purchase price, including commissions, of \$318,900, or an average of \$31.89 per share.

All repurchases were funded from cash on hand and borrowings, and the Company expects to fund any future purchases from internally generated cash or borrowings.

Risk Factors

In addition to the other information set forth in this report, the factors discussed in Part I, "Item 1A. Risk Factors." in the Company's 2007 Form 10-K, which could materially affect the Company's business, financial condition or future results, should be carefully considered. The risks described in the Company's 2007 Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that currently are deemed to be immaterial also may materially adversely affect the Company's business, financial condition or operating results.

Statement of Forward-Looking Information

The Private Securities Litigation Reform Act of 1995 (the "Act") provides a safe harbor for forward-looking statements made by or on behalf of the Company. The Company and its representatives may from time to time make written or oral statements that are "forward-looking", including statements contained in this report and other filings with the Securities and Exchange Commission, reports to the Company's shareholders and news releases. All statements that express expectations, estimates, forecasts or projections are forward-looking statements within the meaning of the Act. In addition, other written or oral statements, which constitute forward-looking statements, may be made by or on behalf of the Company. Words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", "projects", "forecasts", "may", "should", variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and contingencies that are difficult to predict. These risks and uncertainties include, but are not limited to, the risks described above under the heading "Risk Factors". Many of the factors that will determine the Company's future results are beyond the ability of management to control or predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in or suggested by such

Edgar Filing: AMREP CORP. - Form 10-Q

forward-looking statements. The forward-looking statements contained in this report include, but are not limited to, statements regarding the project to consolidate the operations of the Fulfillment Services business and the estimated cost savings of the workforce reduction. The Company undertakes no obligation to revise or update any forward-looking statements, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company has several credit facilities that require the Company to pay interest at a rate that may change periodically. These variable rate obligations expose the Company to the risk of increased interest expense in the event of increases in short-term interest rates. At October 31, 2007, borrowings of \$40,053,000 were subject to variable interest rates. Refer to Item 7(A) of the 2007 Form 10-K for additional information regarding quantitative and qualitative disclosures about market risk.

15

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's chief financial officer and the other executive officers whose certifications accompany this quarterly report, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. As a result of such evaluation, the chief financial officer and such other executive officers have concluded that such disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding disclosure. The Company believes that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control over Financial Reporting

No change in the Company's system of internal control over financial reporting occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company purchased shares of its common stock in open market transactions

Edgar Filing: AMREP CORP. - Form 10-Q

during the three-month period ended October 31, 2007 as summarized in the following table:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Shares th Purchase Plans
August 1, 2007 - August 31, 2007	250,000	\$33.62	250,000	25
September 1, 2007 - September 30, 2007	186,000	\$30.83	186,000	6
October 1, 2007 - October 31, 2007	180,400	\$32.36	180,400	38
Total	616,400	\$32.41	616,400	38

Note (1) - On July 16, 2007, the Company announced that its Board of Directors had authorized the repurchase of up to 500,000 shares of the Company's common stock from time to time in the open market or through negotiated private transactions. The 500,000 shares repurchase was completed on October 8, 2007. On October 8, 2007, the Company announced that its Board of Directors had authorized a further repurchase of up to 500,000 shares of the Company's common stock from time to time in the open market or through negotiated private transactions. There is no designated expiration date for the program. All of the purchases were made in the open market and were part of the publicly announced programs.

16

Item 4. Submission of Matters to a Vote of Security Holders

The 2007 Annual Meeting of Shareholders of the Company was held on October 2, 2007. At the meeting, Samuel N. Seidman and Lonnie A. Coombs were reelected directors of the Company by the following votes:

	For	Withheld
Samuel N. Seidman	6,103,096	144,678
Lonnie A. Coombs	6,125,372	122,402

Item 5. Other Information

On December 5, 2007 a warehouse of approximately 30,000 square feet leased by the Company in Oregon, Illinois was totally destroyed by fire. The warehouse was used principally to store back issues of a number of magazines published by certain customers for which the Company fills back-issue orders as part of its services to these customers. The Company is in the very earliest stage of reviewing its insurance coverage and evaluating the impact of this event on its operations and is unable at this point to reach any conclusions as to these matters or to determine the effect on its financial position, results of operations and cash flows.
