ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On July 24, 2013, Aaron's, Inc. (the "Company") issued a press release to announce its financial results for the second quarter and first six months of 2013. A copy of the press release is furnished herewith as Exhibit 99.1.

The press release presents the Company's net earnings and diluted earnings per share excluding:

a reversal in the first quarter of 2012 of a charge recorded in the second quarter of 2011 related to a previously announced lawsuit verdict against the Company, and associated legal fees and expenses (the reversal was recorded in connection with the settlement of the lawsuit);

an accrual in the second quarter of 2013 for loss contingencies in a pending regulatory investigation by the California Attorney General; and

charges recorded in the second quarter of 2013 related to retirement and a change in vacation policies.

These measures are not presented in accordance with generally accepted accounting principles in the United States ("GAAP").

While neither the lawsuit nor the regulatory investigation may be considered as non-recurring in nature in a strictly accounting sense, management regards the circumstances and magnitude of these particular legal proceedings as not arising out of the ordinary course of business and as not entirely susceptible to prediction or effective management. Similarly, while charges related to retirement or employee benefit actions or policy changes do arise from time to time, management regards the charges incurred in the quarter ended June 30, 2013 as uncommon in both nature and size. For these reasons, management believes that presentation of net earnings and diluted earnings per share excluding these adjustments is useful because it gives investors supplemental information to evaluate and compare the performance of the Company's underlying core business from period to period. Non-GAAP financial measures, however, should not be used as a substitute for, or considered superior to, measures of financial performance prepared in accordance with GAAP, such as the Company's GAAP basis net earnings and diluted earnings per share, which are also presented in the press release.
