MOVADO GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared by Movado Group, Inc. (the "Company") in a manner consistent with that used in the preparation of the consolidated financial statements included in the Company's fiscal 2007 Annual Report filed on Form 10-K. In the opinion of management, the accompanying consolidated financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair statement of the financial position and results of operations for the periods presented. These consolidated financial statements should be read in conjunction with the aforementioned Annual Report. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full year.

NOTE 1 – RECLASSIFICATIONS

Certain reclassifications were made to prior year's financial statement amounts and related note disclosures to conform to the fiscal 2008 presentation.

NOTE 2 - INCOME TAXES

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, on February 1, 2007. As a result of adoption, the Company recognized a charge of approximately \$7.7 million to the February 1, 2007 retained earnings balance. As of the date of adoption, the Company had gross unrecognized tax benefits of \$30.0 million (exclusive of interest) of which \$16.1 million, if recognized, would affect the effective tax rate. Interest and penalties, if any, related to unrecognized tax benefits are recorded in income tax expense. As of the date of adoption, the Company had \$2.5 million of accrued interest (net of tax) related to unrecognized tax benefits. For the six months ended July 31, 2007, the Company accrued an additional \$0.4 million of interest (net of tax) and reduced \$0.4 million of unrecognized tax benefits as a result of a lapse of the applicable statute of limitations.

The Company conducts business globally and, as a result, files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities in many countries, including such major jurisdictions as Switzerland, Hong Kong, Canada and the United States. The Company is no longer subject to U.S. federal income tax examinations for years before the fiscal year ended January 31, 2004 and with few exceptions, is no longer subject to state and local or foreign income tax examinations by tax authorities for years before the fiscal year ended January 31, 2003.

The Internal Revenue Service commenced examinations of the Company's consolidated U.S. federal income tax returns for fiscal years 2004 through 2006 in the second quarter of fiscal 2007. It is possible that the examination phase of the audit may conclude in fiscal 2008 and it is reasonably possible a change in the unrecognized tax benefits may occur; however, quantification of an estimated range cannot be made at this time.

Tax expense for the three months ended July 31, 2007 and 2006 was \$4.1 million and \$2.4 million, respectively. Taxes were recorded at a rate of 24.9% for the three months ended July 31, 2007 as compared to 17.5% for the three months ended July 31, 2006. Tax expense for the six months ended July 31, 2007 and 2006 was \$4.8 million and \$3.0 million, respectively. Taxes were recorded at a rate of 24.2% for the six months ended July 31, 2007 as compared to 17.6% for the six months ended July 31, 2006. Taxes for both the three and six months ended July 31, 2006 included a benefit related to the adoption of tax planning strategies in Switzerland which utilized a greater portion of the Swiss net operating loss carryforward.

NOTE 6 – EARNINGS PER SHARE

The Company presents net income per share on a basic and diluted basis. Basic earnings per share are computed using weighted-average shares outstanding during the period. Diluted earnings per share are computed using the weighted-average number of shares outstanding adjusted for dilutive common stock equivalents.

The weighted-average number of shares outstanding for basic earnings per share were 26,016,000 and 25,661,000 for the three months ended July 31, 2007 and 2006, respectively. For diluted earnings per share, these amounts were increased by 1,256,000 and 923,000 for the three months ended July 31, 2007 and 2006,

respectively, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans.

The weighted-average number of shares outstanding for basic earnings per share were 25,967,000 and 25,550,000 for the six months ended July 31, 2007 and 2006, respectively. For diluted earnings per share, these amounts were increased by 1,292,000 and 956,000 for the six months ended July 31, 2007 and 2006, respectively, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

At July 31, 2007, the Company had outstanding letters of credit totaling \$1.2 million with expiration dates through August 31, 2008. One bank in the domestic bank group has issued 11 irrevocable standby letters of credit for retail and operating facility leases to various landlords, for the administration of the Movado Boutique private-label credit card and Canadian payroll to the Royal Bank of Canada.

As of July 31, 2007, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the amount of \$1.7 million in various foreign currencies.

The Company is involved from time to time in legal claims involving trademarks and other intellectual property, contracts, employee relations and other matters incidental to the Company's business. Although the outcome of such matters cannot be determined with certainty, the Company's general counsel and management believe that the final outcome would not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 8 – RECENTLY ISSUED ACCOUNTING STANDARDS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the impact of SFAS No. 157 on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FAS 115." SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS No. 159 on the Company's consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking statements are subject to certain risks and uncertainties, some of which cannot be predicted or quantified. Actual results and future events could differ materially from those indicated in the forward-looking statements, due to several important factors herein identified, among others, and other risks and factors identified from time to time in the Company's reports filed with the SEC including, without limitation, the following: general economic and business conditions which may impact disposable income of consumers in the United States and the other significant markets where the Company's products are sold, general uncertainty related to possible terrorist attacks and the impact on consumer spending, changes in consumer preferences and popularity of particular designs, new product development and introduction, competitive products and pricing, seasonality, availability of alternative sources of supply in the case of the loss of any significant supplier, the loss of significant customers, the Company's dependence on key employees and officers, the ability to successfully integrate the operations of acquired businesses without disruption to other business activities, the continuation of licensing arrangements with third parties, the ability to secure and protect trademarks, patents and other intellectual property rights, the ability to lease new stores on suitable terms in desired markets and to complete construction on a timely basis, the continued availability to the Company of financing and credit on favorable terms, business disruptions, disease, general risks associated with doing business outside the United States including, without limitation, import duties, tariffs, quotas, political and economic stability, and success of hedging strategies with respect to currency exchange rate fluctuations.

These risks and uncertainties, along with the risk factors discussed under Item 1A "Risk Factors" in the Company's Annual Report on Form 10-K, should be considered in evaluating any forward-looking statements contained in this Quarterly Report on Form 10-Q or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to the Company or any person acting on its behalf are qualified by the cautionary statements in this section. The Company undertakes no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial

statements. These estimates and assumptions also affect the reported amounts of revenues and expenses. Estimates by their nature are based on judgments and available information. Therefore, actual results could materially differ from those estimates under different assumptions and conditions.

Critical accounting policies are those that are most important to the portrayal of the Company's financial condition and the results of operations and require management's most difficult, subjective and complex judgments as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company's most critical accounting policies have been discussed in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2007. In applying such policies, management must use significant estimates that are based on its informed judgment. Because of the uncertainty inherent in these estimates, actual results could differ from estimates used in applying the critical accounting policies. Changes in such estimates, based on more accurate future information, may affect amounts reported in future periods.

As of July 31, 2007, except as noted below, there have been no material changes to any of the critical accounting policies as disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2007.

On February 1, 2007, the Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (an interpretation of FASB Statement No. 109). This interpretation clarifies the accounting for uncertainty in income taxes recognized in the financial statements by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. As a result of adoption, the Company recognized a charge of approximately \$7.7 million to the February 1, 2007 retained earnings balance. As of the date of adoption, the Company had gross unrecognized tax benefits of \$30.0 million (exclusive of interest) of which \$16.1 million, if recognized, would affect the effective tax rate.

Results of operations for the three months ended July 31, 2007 as compared to the three months ended July 31, 2006

Net Sales: Comparative net sales by business segment were as follows (in thousands):

	Three Months Ended July 31,	
	2007	2006
Wholesale:		
United States	\$ 58,072	\$ 63,639
International	58,239	42,469
Total Wholesale	116,311	106,108
Retail		
Retail	23,156	20,480
Net Sales	\$ 139,467	\$ 126,588

Net sales for the three months ended July 31, 2007 were \$139.5 million, above prior year by \$12.9 million or 10.2%. The liquidation of excess discontinued inventory accounted for approximately \$8.3 million of the increase. Net sales excluding the liquidation of excess discontinued inventory were \$131.2 million, representing an increase of \$4.6 million or 3.6% over the prior year period. There were no liquidation sales in the prior year period.

Net sales in the wholesale segment increased by \$10.2 million or 9.6% to \$116.3 million. The increase was driven by the licensed brand and luxury categories. Net sales in the licensed brand category were above prior year by \$7.9 million or 35.1%. The expansion of HUGO BOSS and the introduction of the LACOSTE brand in the current fiscal year were the primary drivers of the increase. Net sales in the luxury category were above prior year by \$6.7 million or 28.7%. Excluding the liquidation sales of \$8.1 million in the fiscal 2008 second quarter, net sales in the luxury category were below prior year by \$1.4 million or 6.0%. The decrease was the result of reduced volume due to the repositioning of the Concord brand. The accessible luxury category sales were below prior year by \$4.9 million or 8.7%. The principal reason for the decrease was the shift in the retail calendar which shifted retailer purchases from the first half to the second half of fiscal 2008. The retail calendar primarily affects United States chain jewelers and department stores, which make up a larger portion of the accessible luxury brands' customer base.

Net sales in the U.S. wholesale segment were \$58.1 million for the three months ended July 31, 2007, representing an 8.7% decrease when compared to prior year sales of \$63.6 million. The decrease in net sales was primarily attributable to lower sales in the accessible luxury category of \$6.3 million. This decrease was primarily the result of the impact of the shift in the retail calendar. Net sales in the luxury category were above prior year by \$1.3 million or 19.5%. Excluding sales of excess discontinued inventory of approximately \$2.7 million, net sales in the luxury category were below prior year by 22.1% due to the repositioning of the Concord brand. Net sales in the licensed brand category were relatively flat year over year.

Net sales in the international wholesale segment were \$58.2 million for the three months ended July 31, 2007, representing an increase of \$15.7 million or 37.1% above prior year sales of \$42.5 million. The increase was driven by the licensed brand and luxury categories. Net sales in the licensed brand category were above prior year by \$8.5 million or 59.3%. The increase was primarily the result of the launches and market expansion of the newer licensed brands. The Tommy Hilfiger brand also continued to benefit from strong international

growth. Net sales in the luxury category were above prior year by \$5.5 million or 32.2%. Excluding the liquidation sales of \$5.4 million in the fiscal 2008 second quarter, net sales in the luxury category were relatively flat year over year. This was the result of a strong demand for Ebel, offset by reduced volume in Concord due to the repositioning of the brand. Net sales in the accessible luxury category were \$11.0 million or above prior year by \$1.4 million or 15.1%. The increase was primarily driven by stronger demand for the Movado brand in the Caribbean.

Net sales in the retail segment were \$23.2 million for the three months ended July 31, 2007, representing a 13.1% increase above prior year sales of \$20.5 million. The increase was driven by an overall increase in outlets store sales, resulting from an 8.3% comparable store sales increase along with sales increases from non-comparable stores. Sales by the Movado Boutiques were above prior year by 4.8%, resulting from increases in sales from non-comparable stores somewhat offset by a decrease of 2.3%, or \$0.2 million, in comparable store sales. The Company operated 31 Movado Boutiques and 31 outlet stores at July 31, 2007, compared to 28 Movado Boutiques and 29 outlet stores at July 31, 2006.

The Company considers comparable store sales to be sales from stores that were open as of February 1 of last year through January 31 of the current year. The Company had 25 comparable Movado Boutiques and 28 comparable outlet stores for the three months ended July 31, 2007. The sales from stores that have been relocated, renovated or refurbished are included in the calculation of comparable store sales. The method of calculating comparable store sales varies across the retail industry. As a result, the Company's calculation of comparable store sales may not be the same as measures reported by other companies.

Gross Profit. Gross profit for the three months ended July 31, 2007 was \$83.3 million or 59.8% of net sales as compared to \$78.5 million or 62.0% of net sales for the three months ended July 31, 2006. The increase in gross profit of \$4.8 million was primarily the result of a stronger gross profit percentage in base business sales excluding liquidation, as well as the increase in sales. The gross profit percentage was negatively impacted by the liquidation sales of \$8.3 million. Excluding the liquidation sales, the gross profit percentage was 63.6%. The increase was the result of higher margins across most brands resulting from better margins on new model introductions, the favorable impact of price increases, the mix of sales by market and the favorable impact of foreign exchange on the growing international business. In addition, higher margins were recorded in the retail segment resulting from better margins on jewelry and watches, as well as favorable product mix.

Selling, General and Administrative ("SG&A"). SG&A expenses for the three months ended July 31, 2007 were \$67.0 million as compared to \$64.4 million for the three months ended July 31, 2006. The increase of \$2.6 million includes higher spending to support retail expansion of \$2.2 million, higher payroll and related costs of \$1.1 million reflecting compensation and benefit cost increases and increased equity compensation expense of \$0.5 million. These expenses were somewhat offset by a decrease in accounts receivable related expenses of \$1.1 million and reduced advertising expense of \$0.8 million due to a shift in spending from the first to the second half of fiscal 2008 to coincide with the shift in sales between the two periods. In addition, as a result of the consolidation of the Company's majority-owned joint venture with Swico Limited ("Swico") established to distribute the licensed brands in the United Kingdom, \$0.3 million of expense was included in the consolidated results.

Wholesale Operating Income. Operating income in the wholesale segment increased by \$2.8 million to \$16.0 million. The increase was the net result of higher gross profit of \$3.4 million offset by an increase in SG&A expenses of \$0.6 million. The higher gross profit of \$3.4 million was primarily the result of improved gross margin percentages achieved over the prior year. The increase in SG&A expenses of \$0.6 million related principally to higher payroll and related costs of \$1.1 million and increased equity compensation expense of \$0.5 million, somewhat offset by decreases in accounts receivable related expenses of \$1.1 million and reduced advertising expense of \$0.5 million. In addition, as a result of the consolidation of the Company's majority-owned joint venture with Swico, \$0.3 million of expense was recorded in the wholesale segment's results.

Retail Operating Income. Operating income of \$0.4 million and \$0.9 million were recorded in the retail segment for the three months ended July 31, 2007 and 2006, respectively. The \$0.5 million decrease was the net result of higher gross profit of \$1.4 million more than offset by higher SG&A expenses of \$1.9 million. The increased gross profit was primarily attributable to higher sales as well as an increase in the gross margin percentage primarily due to higher gross profit on jewelry and watches. The increase in SG&A expenses was primarily the result of increased selling and occupancy expenses due to the increase in the number of stores.

Interest Expense. Interest expense for the three months ended July 31, 2007 and 2006 was \$0.9 million for both periods. Average borrowings were \$75.1 million at an average borrowing rate of 4.5% for the three months ended July 31, 2007 compared to average borrowings of \$99.3 million at an average rate of 3.7% for the three months ended July 31, 2006.

Interest Income. Interest income was \$1.1 million for the three months ended July 31, 2007 as compared to \$0.6 million for the three months ended July 31, 2006. The higher interest income resulted from greater cash invested as well as a higher earned rate. The cash invested generated interest income at the rate of 5.2% and 4.9% for the periods ending July 31, 2007 and 2006, respectively.

Income Taxes. Tax expense for the three months ended July 31, 2007 and 2006 was \$4.1 million and \$2.4 million, respectively. Taxes were recorded at a rate of 24.9% for the three months ended July 31, 2007 as compared to 17.5% for the three months ended July 31, 2006. Taxes for the prior year period included a benefit related to the adoption of tax planning strategies in Switzerland which utilized a greater portion of the Swiss net operating loss carryforward.

Net Income. For the three months ended July 31, 2007, the Company recorded net income of \$12.3 million as compared to \$11.3 million for the three months ended July 31, 2006.

Excluding the liquidation sales of \$1.5 million, net sales in the accessible luxury category were below prior year by 10.4%. includes higher spending to support retail expansion of \$3.8 million, higher payroll and related costs of \$1.5 million reflecting compensation and benefit cost increases, increased equity compensation expense of \$0.9 million and higher costs related to the Baselworld watch and jewelry show of \$0.5 million, primarily due to the additional new brands displayed at the show. These expenses were somewhat offset by a decrease in accounts receivable related expenses of \$1.4 million and reduced advertising expense of \$1.0 million due to a shift in spending from the first to the second half of fiscal 2008 to coincide with the shift in sales between the two periods. The increase in cash provided by operating activities is primarily attributed to improvements in accounts receivable. This is principally the result of the

mix of business in the current year. The sales growth was primarily in the licensed brand category where shorter payment terms are the norm and in the retail segment which is a cash business.

Cash used in investing activities amounted to \$12.0 million and \$7.2 million for the six months ended July 31, 2007 and 2006, respectively. As of July 31, 2007, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the amount of \$1.7 million in various foreign currencies. As of July 31, 2007, there were no outstanding borrowings against these lines.

The Company paid dividends of \$0.16 per share or approximately \$4.2 million, for the six months ended July 31, 2007 and \$0.12 per share or approximately \$3.1 million for the six months ended July 31, 2006.

Cash at July 31, 2007 amounted to \$112.5 million compared to \$78.1 million at July 31, 2006. The increase in cash is a result of strong cash flow from operations from July 31, 2006 to the end of the current period.

Management believes that the cash on hand in addition to the expected cash flow from operations and the Company's short-term borrowing capacity will be sufficient to meet its working capital needs for at least the next 12 months.

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet financing or unconsolidated special-purpose entities.

RECENTLY ISSUED ACCOUNTING STANDARDS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the impact of SFAS No. 157 on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FAS 115." SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS No. 159 on the Company's consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency and Commodity Price Risk

A significant portion of the Company's purchases are denominated in Swiss francs. The Company reduces its exposure to the Swiss franc exchange rate risk through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. The Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward and option contracts. These derivatives either (a) are used to hedge the Company's Swiss franc liabilities and are recorded at fair value with the changes in fair value reflected in earnings or (b) are documented as cash flow hedges with the gains and losses on this latter hedging activity first reflected in other comprehensive income, and then later classified into earnings in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended by SFAS No. 137, SFAS No. 138 and SFAS No. 149. In both cases, the earnings impact is partially offset by the effects of currency movements on the underlying hedged transactions. If the Company did not engage in a hedging program, any change in the Swiss franc to local currency would have an equal effect on the Company's cost of sales. In addition, the Company hedges its Swiss franc payable exposure with forward contracts. As of July 31, 2007, the Company's entire net forward contracts hedging portfolio consisted of 141.0 million Swiss francs equivalent for various expiry dates ranging through October 30, 2008. If the Company were to settle its Swiss franc forward contracts at July 31, 2007, the net result would have been a gain of \$0.6 million, net of tax of \$0.4 million. As of July 31, 2007, the Company had 16.0 million Swiss franc option contracts related to cash flow hedges for various expiry dates ranging through April 30, 2008. If the Company were to settle its Swiss franc option contracts at July 31, 2007, the net result would have been a net gain of less than \$0.1 million.

The Company's Board of Directors authorized the hedging of the Company's Swiss franc denominated investment in its wholly-owned Swiss subsidiaries using purchase options under certain limitations. These hedges are treated as net investment hedges under SFAS No. 133. As of July 31, 2007, the Company did not hold a purchased option hedge portfolio related to net investment hedging.

Commodity Risk

Additionally, the Company has a hedging program related to gold used in the manufacturing of the Company's watches. Under this hedging program, the Company purchases various commodity derivative instruments, primarily future contracts. These derivatives are documented as SFAS No. 133 cash flow hedges, and gains and losses on these derivative instruments are first reflected in other comprehensive income, and later reclassified into earnings, partially offset by the effects of gold market price changes on the underlying actual gold purchases. If the Company did not engage in a gold hedging program, any changes in the gold price would have an equal effect on the Company's cost of sales. The Company did not hold any futures contracts in its gold hedge portfolio related to cash flow hedges as of July 31, 2007.

Debt and Interest Rate Risk

In addition, the Company has certain debt obligations with variable interest rates, which are based on Swiss LIBOR plus a fixed additional interest rate. The Company does not hedge these interest rate risks. The Company also has certain debt obligations with fixed interest rates. The differences between the market based interest rates at July 31, 2007, and the fixed rates were unfavorable. The Company believes that a 1% change in interest rates would affect the Company's net income by approximately \$0.3 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures, as such terms are defined in Rule 13a-15(e) under the Securities Exchange Act, as amended. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective as of the end of the period covered by this report.

It should be noted that while the Company's Chief Executive Officer and Chief Financial Officer believe that the Company's disclosure controls and procedures provide a reasonable level of assurance that they are effective, they do not expect that the Company's disclosure controls and procedures or internal control over financial reporting will prevent all errors and fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the six months ended July 31, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION*Item 1. Legal Proceedings*

The Company is involved in pending legal proceedings and claims in the ordinary course of business. Although the outcome of such matters cannot be determined with certainty, the Company's general counsel and management believe that the final outcome would not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

As of July 31, 2007, there have been no material changes to any of the risk factors previously reported in the Annual Report on Form 10-K for the fiscal year ended January 31, 2007.
