CHEMUNG FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Corporation, through its wholly owned subsidiaries, the Bank and CFS Group, Inc., provides a wide range of banking, financing, fiduciary and other financial services to its clients. The Corporation and the Bank are subject to the regulations of certain federal and state agencies and undergo periodic examinations by those regulatory authorities.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with GAAP and include the accounts of the Corporation and its subsidiaries. All significant intercompany balances and transactions are eliminated in consolidation. Amounts in the prior periods' consolidated financial statements are reclassified whenever necessary to conform with the current period's presentation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and disclosures provided, and actual results could differ. The allowance for loan losses, fair value of financial instruments, other-than-temporary impairment of investment securities and goodwill and other intangibles are particularly subject to change.

Subsequent Events

The Corporation has evaluated events and transactions through the time the unaudited consolidated financial statements were issued. Financial statements are considered issued when they are widely distributed to all shareholders and other financial statement users, or filed with the SEC. In conjunction with applicable accounting standards, all material subsequent events have been either recognized in the unaudited consolidated financial statements or disclosed in the notes to the unaudited consolidated financial statements.

Recent Accounting Pronouncements

In January 2014 the FASB issued ASU 2014-04, an amendment to Receivables-Troubled Debt Restructurings by Creditors (Subtopic 310-40), Reclassification of Residential Real Estate and Collateralized Consumer Mortgage Loans upon Foreclosure. The objective of this ASU is to improve reporting by clarifying when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable is derecognized and the real estate property recognized. The amendments in this ASU are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. The Corporation will adopt all provisions of this ASU as of January 1, 2015. The adoption of this guidance is not expected to have a material impact on the Corporation's consolidated financial statements.

In May 2014 the FASB issued ASU 2014-09, an amendment to Revenue from Contracts with Customers (Topic 606). The objective of the ASU is to align the recognition of revenue with the transfer of promised goods or services provided to customers in an amount that reflects the consideration which the entity expects to be entitled in exchange for those goods or services. The amendments in this ASU are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2016. The Corporation will adopt all

provisions of this ASU as of January 1, 2017. We are currently evaluating the potential impact on our consolidated financial statements.

In June 2014 the FASB issued ASU 2014-11, an amendment to Transfers and Servicing (Topic 860): Repurchase-to Maturity Transactions, Repurchase Financings, and Disclosures. The objective of this ASU is to improve consistency in reporting repurchase transactions as secured borrowings and providing additional information of the collateral pledged. The amendments in this ASU are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. The Corporation will adopt all provisions of this ASU as of January 1, 2015.

9

---

In August 2014 the FASB issued ASU 2014-15, an amendment to Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The objective of this ASU is to define management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. The amendments in this ASU are effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. The Corporation will adopt all provisions of this ASU as of the December 31, 2015 annual period and interim periods beginning in 2016.

NOTE 2 EARNINGS (LOSS) PER COMMON SHARE (shares in thousands)

Basic earnings (loss) per share is net income (loss) divided by the weighted average number of common shares outstanding during the period. Issuable shares, including those related to directors' restricted stock units and directors' stock compensation, are considered outstanding and are included in the computation of basic earnings (loss) per share. All outstanding unvested share based payment awards that contain rights to non-forfeitable dividends are considered participating securities for this calculation. Restricted stock awards are grants of participating securities and are considered outstanding at grant date. Earnings (loss) per share information is adjusted to present comparative results for stock splits and stock dividends that occur. Earnings (loss) per share were computed by dividing net income (loss) by 4,681 and 4,658 weighted average shares outstanding for the nine-month periods ended September 30, 2014 and 2013, respectively. Earnings (loss) per share were computed by dividing net income (loss) by 4,684 and 4,660 weighted average shares outstanding for the three-month periods ended September 30, 2014 and 2013, respectively. There were no dilutive common stock equivalents during the three or nine-month periods ended September 30, 2014 or 2013.

NOTE 3 SECURITIES

Obligations of states and political subdivisions	\$4,774	\$ 382	\$ -	\$ 5,156
Time deposits with other financial institutions	656	9	-	665
Total	\$5,430	\$ 391	\$ -	\$ 5,821

	December 31, 2013			Estimated Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
Obligations of states and political subdivisions	\$5,472	\$ 419	\$ -	\$ 5,891
Time deposits with other financial institutions	1,023	16	-	1,039
Total	\$6,495	\$ 435	\$ -	\$ 6,930

The amortized cost and estimated fair value of debt securities are shown below by expected maturity. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately (dollars in thousands):

	September 30, 2014			
	Available for Sale		Held to Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Within One Year	\$26,690	\$27,044	\$1,931	\$1,960
After One, But Within Five Years	178,884	180,813	2,347	2,547
After Five, But Within Ten Years	6,505	6,602	1,152	1,314
	212,079	214,459	5,430	5,821
Mortgage-backed securities, residential	63,858	64,571	-	-
Collateralized mortgage obligations	457	464	-	-
SBA loan pools	1,340	1,349	-	-
Total	\$277,734	\$280,843	\$5,430	\$5,821

The proceeds from sales and calls of securities resulting in gains or losses at September 30, 2014 and September 30, 2013 are listed below (dollars in thousands):

	2014	2013
Proceeds	\$55,610	\$10,534
Gross gains	\$522	\$1
Gross losses	\$-	\$-
Tax expense	\$201	\$-

The following tables summarize the investment securities available for sale with unrealized losses at September 30, 2014 and December 31, 2013 by aggregated major security type and length of time in a continuous unrealized loss position (dollars in thousands):

	Less than 12 months		12 months or longer		Total

## Other-Than-Temporary Impairment

As of September 30, 2014, the majority of the Corporation's unrealized losses in the investment securities portfolio related to obligations of U.S. Government and U.S. Government sponsored enterprises and mortgage-backed securities. Because the decline in fair value is attributable to changes in interest rates and not credit quality, and because the Corporation does not have the intent to sell these securities and it is not likely that it will be required to sell these securities before their anticipated recovery, the Corporation does not consider these securities to be other-than-temporarily impaired at September 30, 2014.

During the first quarter of 2014, the Corporation received notice that one CDO consisting of a pool of trust preferred securities was liquidated and recorded \$500 thousand in other operating income during the first quarter of 2014. The Corporation does not own any other CDO's in its investment securities portfolio.

The tables below present a roll forward of the cumulative credit losses recognized in earnings for the three and nine-month periods ending September 30, 2014 and 2013 (dollars in thousands):

	2014	2013
Beginning balance, January 1,	\$1,939	\$3,506
Amounts related to credit loss for which an other-than-temporary impairment was not previously recognized	-	-
Additions/Subtractions:		
Amounts realized for securities sold during the period	-	-
Amounts related to securities for which the company intends to sell or that it will be more likely than not that the company will be required to sell prior to recovery of amortized cost basis	-	-
Reductions for increase in cash flows expected to be collected that are recognized over the remaining life of the security	-	-
Reductions for previous credit losses realized in securities liquidated during the period	(1,939)	-
Increases to the amount related to the credit loss for which other-than-temporary impairment was previously recognized	-	-
Ending balance, September 30,	\$-	\$3,506

	2014	2013
Beginning balance, July 1,	\$ -	\$3,506
Amounts related to credit loss for which an other-than-temporary impairment was not previously recognized	-	-
Additions/Subtractions:		
Amounts realized for securities sold during the period	-	-
Amounts related to securities for which the company intends to sell or that it will be more likely than not that the company will be required to sell prior to recovery of amortized cost basis	-	-
Reductions for increase in cash flows expected to be collected that are recognized over the remaining life of the security	-	-
Reductions for previous credit losses realized in securities liquidated during the period	-	-
Increases to the amount related to the credit loss for which other-than-temporary impairment was previously recognized	-	-
Ending balance, September 30,	\$ -	\$3,506

## NOTE 4

## LOANS AND ALLOWANCE FOR LOAN LOSSES

The composition of the loan portfolio, net of deferred origination fees and cost, and unearned income is summarized as follows (dollars in thousands):

	September 30, 2014	December 31, 2013
Commercial and agricultural:		
Commercial and industrial	\$ 164,984	\$ 144,787
Agricultural	868	576
Commercial mortgages:		
Construction	46,981	27,440
Commercial mortgages	388,185	345,707
Residential mortgages	192,870	195,997
Consumer loans:		
Credit cards	1,621	1,756
Home equity lines and loans	100,991	95,905
Indirect consumer loans	196,603	164,846
Direct consumer loans	21,079	18,852
Total loans, net of deferred origination fees and costs, and unearned income	\$ 1,114,182	\$ 995,866
Interest receivable on loans	2,512	2,597
Total recorded investment in loans	\$ 1,116,694	\$ 998,463

The Corporation's concentrations of credit risk by loan type are reflected in the preceding table. The concentrations of credit risk with standby letters of credit, committed lines of credit and commitments to originate new loans generally follow the loan classifications in the table above.

The following tables present the activity in the allowance for loan losses by portfolio segment for the three and nine-month periods ending September 30, 2014 and 2013 (dollars in thousands):

	Nine Months Ended September 30, 2014					Total

Total	\$970,708	\$8,069	\$1,473	\$9,696	\$8,517	\$998,463

(1) Includes all loans on non-accrual status regardless of the number of days such loans were delinquent as of December 31, 2013.

### Troubled Debt Restructurings:

A modification of a loan may result in classification as a TDR when a borrower is experiencing financial difficulty and the modification constitutes a concession. The Corporation offers various types of modifications which may involve a change in the schedule of payments, a reduction in the interest rate, an extension of the maturity date, extending the maturity date at an interest rate lower than the current market rate for new debt with similar risk, requesting additional collateral, releasing collateral for consideration, substituting or adding a new borrower or guarantor, a permanent reduction of the recorded investment in the loan or a permanent reduction of the interest on the loan.

As of September 30, 2014 and December 31, 2013, the Corporation has a recorded investment in troubled debt restructurings of \$8.7 million and \$7.9 million, respectively. There were specific reserves of less than \$0.1 million and \$0.3 million allocated for troubled debt restructurings at September 30, 2014 and December 31, 2013, respectively. As of September 30, 2014, troubled debt restructurings totaling \$8.1 million were accruing interest under the modified terms and \$0.6 million were on non-accrual status. As of December 31, 2013, troubled debt restructurings totaling \$6.8 million were accruing interest under the modified terms and \$1.1 million were on non-accrual status. The Corporation has committed to lend additional amounts totaling up to less than \$0.1 million and \$0.2 million as of September 30, 2014 and December 31, 2013, respectively, to customers with outstanding loans that are classified as troubled debt restructurings.

During the nine months ended September 30, 2014 and 2013, the terms of certain loans were modified as troubled debt restructurings. The modification of terms of such loans included one or a combination of the following: a change in the schedule of payments, a reduction in the interest rate, an extension of the maturity date, extending the maturity date at an interest rate lower than the current market rate for new debt with similar risk or a permanent reduction of the recorded investment in the loan.

The following table presents loans by class modified as troubled debt restructurings that occurred during the nine months ended September 30, 2014 and September 30, 2013 (dollars in thousands):

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Nine months ended September 30, 2014			
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	3	\$ 908	\$ 908
Commercial mortgages:			
Commercial mortgages	3	2,236	2,192
Total	6	\$ 3,144	\$ 3,100
Nine months ended September 30, 2013			
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	4	\$841	\$841
Commercial mortgages:			
Commercial mortgages	1	133	133
Consumer loans:			
Home equity lines and loans	3	134	134
Total	8	\$1,108	\$1,108

The troubled debt restructurings described above did not increase the allowance for loan losses and resulted in less than \$0.1 million in charge offs during the nine months ended September 30, 2014. The troubled debt restructurings described above increased the allowance for loan losses by less than \$0.1 million and resulted in no charge offs during the nine months ended September 30, 2013.

There were no payment defaults on any loans previously modified as troubled debt restructurings during the nine months ending September 30, 2014 or September 30, 2013, within twelve months following the modification. A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

The following table presents loans by class modified as troubled debt restructurings that occurred during the three months ended September 30, 2014 and September 30, 2013 (dollars in thousands):

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Three months ended September 30, 2014			
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	2	\$ 405	\$ 405
Commercial mortgages:			
Commercial mortgages	1	1,869	1,869
Total	3	\$ 2,274	\$ 2,274

Three months ended September 30, 2013

Troubled debt restructurings:

Consumer loans:

Home equity lines and loans	1	\$31	\$31
Total	1	\$31	\$31

The troubled debt restructurings described above did not increase the allowance for loan losses and resulted in no charge offs during the three months ended September 30, 2014. The troubled debt restructurings described above increased the allowance for loan losses by less than \$0.1 million and resulted in no charge offs during the three months ended September 30, 2013.

There were no payment defaults on any loans previously modified as troubled debt restructurings during the three months ending September 30, 2014 or September 30, 2013, within twelve months following the modification. A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

#### Credit Quality Indicators

The Corporation establishes a risk rating at origination for all commercial loans. The main factors considered in assigning risk ratings include, but are not limited to: historic and future debt service coverage, collateral position, operating performance, liquidity, leverage, payment history, management ability, and the customer's industry. Commercial relationship managers monitor all loans in their respective portfolios for any changes in the borrower's ability to service their debt and affirm the risk ratings for the loans at least annually.

For the retail loans, which include residential mortgages, indirect and direct consumer loans, home equity lines and loans, and credit cards, once a loan is properly approved and closed, the Corporation evaluates credit quality based upon loan repayment.

The Corporation uses the risk rating system to identify criticized and classified loans. Commercial relationships within the criticized and classified risk ratings are analyzed quarterly. The Corporation uses the following definitions for criticized and classified loans (which are consistent with regulatory guidelines):

Special Mention – Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the

loan or the institution's credit position at some future date.

Substandard – Loans classified as substandard are inadequately protected by the current net worth and paying capability of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful – Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Loans listed as not rated are included in groups of homogeneous loans. Based on the analyses performed as of September 30, 2014 and December 31, 2013, the risk category of the recorded investment of loans by class of loans is as follows (dollars in thousands):

September 30, 2014							
	Not Rated	Pass	Loans acquired with deteriorated credit quality	Special Mention	Substandard	Doubtful	Total
Commercial and agricultural:							
Commercial and industrial	\$-	\$154,618	\$ 607	\$6,671	\$ 3,380	\$ 68	\$165,344

---

The Corporation considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential and consumer loan classes, the Corporation also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in residential and consumer loans based on payment activity as of September 30, 2014 and December 31, 2013 (dollars in thousands):

September 30, 2014					
Consumer Loans					
	Home Equity		Indirect	Other	
	Residential Credit	Card	Lines and	Consumer	Consumer
	Mortgages		Loans	Loans	Loans
Performing	\$ 190,242	\$ 1,621	\$ 100,761	\$ 196,717	\$ 21,103
Non-Performing	3,132	-	465	286	39
Total	\$ 193,374	\$ 1,621	\$ 101,226	\$ 197,003	\$ 21,142

December 31, 2013					
Consumer Loans					
	Home Equity		Indirect	Other	
	Residential Credit	Card	Lines and	Consumer	Consumer
	Mortgages		Loans	Loans	Loans
Performing	\$ 193,167	\$ 1,757	\$ 95,499	\$ 165,045	\$ 18,880
Non-Performing	3,358	-	635	249	45
Total	\$ 196,525	\$ 1,757	\$ 96,134	\$ 165,294	\$ 18,925

At the time of the merger with Fort Orange Financial Corp., the Corporation identified certain loans with evidence of deteriorated credit quality, and the probability that the Corporation would be unable to collect all contractually required payments from the borrower. These loans are classified as PCI loans. The Corporation adjusted its estimates of future expected losses, cash flows, and renewal assumptions on the PCI loans during the current year. These adjustments were made for changes in expected cash flows due to loans refinanced beyond original maturity dates, impairments recognized subsequent to the acquisition, advances made for taxes or insurance to protect collateral held and payments received in excess of amounts originally expected.

The table below summarizes the changes in total contractually required principal and interest cash payments, management's estimate of expected total cash payments and carrying value of the PCI loans from January 1, 2014 to September 30, 2014 and July 1, 2014 to September 30, 2014 (dollars in thousands):

	Balance at December 31, 2013	Income Accretion	All Other Adjustments	Balance at September 30, 2014
<u>Nine months ended September 30, 2014</u>				
Contractually required principal and interest	\$ 11,230	\$ -	\$ (4,359)	) \$ 6,871
Contractual cash flows not expected to be collected (non accretable discount)	(543)	) -	(43)	) (586)

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Cash flows expected to be collected	10,687	-	(4,402	)	6,285
Interest component of expected cash flows (accretable yield)	(991	)	464	12	(515
Fair value of loans acquired with deteriorating credit quality	\$ 9,696	\$ 464	\$ (4,390	)	\$ 5,770

NOTE 5

FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Corporation used the following methods and significant assumptions to estimate fair value:

Investment Securities: The fair values of securities available for sale are usually determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs), or matrix pricing, which is a mathematical technique widely used to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

Trading Assets: Securities that are held to fund a deferred compensation plan are recorded at fair value with changes in fair value included in earnings. The fair values of trading assets are determined by quoted market prices (Level 1 inputs).

Impaired Loans: At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value have been partially charged-off or receive specific allocations as part of the allowance for loan loss accounting. For collateral dependent loans, fair value is commonly based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, typically resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate Owned: Assets acquired through or instead of loan foreclosures are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and other real estate owned ("OREO") are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Corporation. Once received, appraisals are reviewed for reasonableness of assumptions, approaches utilized, Uniform Standards of Professional Appraisal Practice and other regulatory compliance, as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. Appraisals are generally completed within the previous 12-month period prior to a property being placed into OREO. On impaired loans, appraisal values are adjusted based on the age of the appraisal, the position of the lien, the type of the property and its condition.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Assets and liabilities measured at fair value on a recurring basis are summarized below (dollars in thousands):

	Fair Value	Fair Value Measurement at September 30, 2014 Using

The following table presents information related to Level 3 non-recurring fair value measurement at September 30, 2014 and December 31, 2013 (dollars in thousands):

Description	Fair Value at September 30, 2014	Technique	Unobservable Inputs
Impaired loans	\$ 1,103	Third party appraisals	Management discount based on underlying collateral 1 characteristics and market conditions
Other real estate owned	\$ 3,119	Third party appraisals	1 Estimated holding period 2 Estimated closing costs
Description	Fair Value at December 31, 2013	Technique	Unobservable Inputs
Impaired loans	\$ 999	Third party appraisals	Management discount based on underlying collateral 1 characteristics and market conditions
Other real estate owned	\$ 538	Third party appraisals	1 Estimated holding period 2 Estimated closing costs

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a principal balance of \$1.4 million with a valuation allowance of \$0.3 million as of September 30, 2014, resulting in \$0.1 million and \$0.8 million decrease in the provision for loan losses for the three and nine-month periods ended September 30, 2014. Impaired loans had a principal balance of \$2.0 million, with a valuation allowance of \$1.0 million as of December 31, 2013, resulting in an increase of \$0.9 million in the provision for loan losses for the year ending December 31, 2013.

OREO is measured by the lower of cost or fair value less costs to sell. The net carrying amount reflects the outstanding balance of \$3.1 million with no valuation allowance at September 30, 2014, which resulted in no write downs during the three-month period ending September 30, 2014 and less than \$0.1 million for the nine-month period ending September 30, 2014. OREO had a net carrying amount of \$0.5 million at December 31, 2013. The net carrying amount reflects the outstanding balance of \$0.7 million, net of a valuation allowance of \$0.2 million, at December 31, 2013, which resulted in an immaterial write down for the year ending December 31, 2013.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

The carrying amounts and estimated fair values of other financial instruments, at September 30, 2014 and December 31, 2013, are as follows (dollars in thousands):

	Fair Value Measurements at September 30, 2014 Using				
	Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Estimated Fair Value (1)

(1) Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

27

---

The methods and assumptions used to estimate fair value are described as follows:

#### Cash, Due From and Interest-Bearing Deposits in Other Financial Institutions

For those short-term instruments that generally mature in 90 days or less, the carrying value approximates fair value of which non-interest-bearing deposits are classified as Level 1 and interest-bearing deposits with the FHLBNY and FRBNY are classified as Level 1.

#### FHLBNY and FRBNY Stock

It is not practicable to determine the fair value of FHLBNY and FRBNY stock due to restrictions placed on its transferability.

#### Loans Receivable

For variable-rate loans that reprice frequently, fair values approximate carrying values. The fair values for other loans are estimated through discounted cash flow analysis using interest rates currently being offered for loans with similar terms and credit quality. Loans are classified as Level 3. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

#### Loans Held for Sale

Certain mortgage loans are originated with the intent to sell. Loans held for sale are recorded at the lower of cost or fair value in the aggregate. Loans held for sale are classified as Level 2.

#### Deposits

The fair values disclosed for demand deposits, savings accounts and money market accounts are, by definition, equal to the amounts payable on demand at the reporting date (i.e., their carrying values) and classified as Level 1.

The fair value of certificates of deposits is estimated using a discounted cash flow approach that applies interest rates currently being offered on certificates to a schedule of the weighted-average expected monthly maturities and classified as Level 2.

#### Securities Sold Under Agreements to Repurchase

These instruments bear both variable and fixed rates of interest. Therefore, the carrying value approximates fair value for the variable rate instruments and the fair value of fixed rate instruments is based on discounted cash flows to maturity. These are classified as Level 2.

#### FHLBNY Term Advances

These instruments bear a stated rate of interest to maturity and, therefore, the fair value is based on discounted cash flows to maturity and classified as Level 2.

#### Commitments to Extend Credit

The fair value of commitments to extend credit is based on fees currently charged to enter into similar agreements, the counter-party's credit standing and discounted cash flow analysis. The fair value of these commitments to extend

credit approximates the recorded amounts of the related fees and is not material at September 30, 2014 and December 31, 2013.

Accrued Interest Receivable and Payable

For these short-term instruments, the carrying value approximates fair value resulting in a classification of Level 1, Level 2 or Level 3 depending upon the classification of the asset/liability they are associated with.

28

---

## NOTE 6

## GOODWILL AND INTANGIBLE ASSETS

The changes in goodwill included in the core banking segment during the periods ending September 30, 2014 and 2013 were as follows (dollars in thousands):

	2014	2013
Beginning of year	\$21,824	\$21,824
Acquired goodwill	-	-
Ending balance September 30,	\$21,824	\$21,824

Acquired intangible assets were as follows at September 30, 2014 and December 31, 2013 (dollars in thousands):

	At September 30, 2014		At December 31, 2013	
	Balance	Accumulated Amortization	Balance	Accumulated Amortization
Core deposit intangibles	\$5,975	\$ 3,054	\$5,975	\$ 2,338
Other customer relationship intangibles	5,633	3,170	6,063	3,323
Total	\$11,608	\$ 6,224	\$12,038	\$ 5,661

Aggregate amortization expense was \$1.0 million and \$0.7 million for the nine-month periods ended September 30, 2014 and 2013, respectively.

The remaining estimated aggregate amortization expense at September 30, 2014 is listed below (dollars in thousands):

Year	Estimated Expense
2014	\$ 318
2015	1,136
2016	986
2017	859
2018	734
2019 and thereafter	1,351
Total	\$ 5,384

## NOTE 7

## ACCUMULATED OTHER COMPREHENSIVE INCOME OR LOSS

Accumulated other comprehensive income or loss represents the net unrealized holding gains or losses on securities available for sale and the funded status of the Corporation's defined benefit pension plan and other benefit plans, as of the consolidated balance sheet dates, net of the related tax effect.

The following is a summary of the changes in accumulated other comprehensive income or loss by component, net of tax, for the periods indicated (dollars in thousands):

	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at December 31, 2013	\$ 6,043	\$(5,888)	\$ 155
Other comprehensive income before reclassification	391	-	391
Amounts reclassified from accumulated other comprehensive income	(321 )	263	(58 )
Net current period other comprehensive income	70	263	333
Balance at September 30, 2014	\$ 6,113	\$(5,625)	\$ 488
	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at June 30, 2014	\$ 6,962	\$(5,712)	\$ 1,250
Other comprehensive (loss) before reclassification	(849 )	-	(849 )
Amounts reclassified from accumulated other comprehensive income	-	87	87
Net current period other comprehensive (loss) income	(849 )	87	(762 )
Balance at September 30, 2014	\$ 6,113	\$(5,625)	\$ 488
	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at December 31, 2012	\$ 8,023	\$(10,830)	\$(2,807)

The following is the reclassification out of accumulated other comprehensive income for the periods indicated (dollars in thousands):

Details about Accumulated Other Comprehensive Income Components	Nine Months Ended September 30, 2014 2013		Affected Line Item in the Statement Where Net Income is Presented
Unrealized gains and losses on securities available for sale:			
Reclassification adjustment for other-than-temporary gains (losses) realized in income	\$-	\$-	
Realized gains on securities available for sale	522	1	Net gains on securities transactions
Tax effect	201	-	Income tax expense
Net of tax	321	1	
Amortization of defined pension plan and other benefit plan items:			
Prior service costs (a)	66	63	Pension and other employee benefits
Actuarial losses (a)	(499)	(1,202)	Pension and other employee benefits
Tax effect	170	438	Income tax expense
Net of tax	(263)	(701 )	
Total reclassification for the period, net of tax	\$58	\$(700 )	

(a) These accumulated other comprehensive income components are included in the computation of net periodic pension and other benefit plan costs (see Note 9 for additional information).

Details about Accumulated Other Comprehensive Income Components	Three Months Ended September 30, 2014 2013		Affected Line Item in the Statement Where Net Income is Presented
Unrealized gains and losses on securities available for sale:			
Reclassification adjustment for other-than-temporary gains (losses) realized in income	\$-	\$-	
Realized gains on securities available for sale	-	-	Net gains on securities transactions
Tax effect	-	-	Income tax expense
Net of tax	-	-	
Amortization of defined pension plan and other benefit plan items:			
Prior service costs (a)	22	21	Pension and other employee benefits
Actuarial losses (a)	(169)	(401)	Pension and other employee benefits
Tax effect	60	146	Income tax expense
Net of tax	(87 )	(234)	
Total reclassification for the period, net of tax	\$(87 )	\$(234)	

(a) These accumulated other comprehensive income components are included in the computation of net periodic pension and other benefit plan costs (see Note 9 for additional information).

## NOTE 8

## COMMITMENTS AND CONTINGENCIES

The Corporation is a party to certain financial instruments with off-balance sheet risk such as commitments under standby letters of credit, unused portions of lines of credit, overdraft protection and commitments to fund new loans. In accordance with GAAP, these financial instruments are not recorded in the financial statements. The Corporation's policy is to record such instruments when funded. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are generally used by the Corporation to manage clients' requests for funding and other client needs.

The following table lists the contractual amounts of financial instruments with off-balance sheet risk at September 30, 2014 and December 31, 2013 (dollars in thousands):

	September 30, 2014		December 31, 2013	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
Commitments to make loans	\$29,126	\$14,973	\$21,049	\$7,893
Unused lines of credit	\$1,738	\$173,196	\$2,190	\$187,061
Standby letters of credit	\$-	\$16,687	\$-	\$17,290

The Bank is a party in two legal proceedings involving its Wealth Management Group. In both proceedings, the Bank, as trustee pursuant to written trust instruments, has sought judicial settlement of trust accounts in the New York Surrogate's Court for Chemung County. Individuals who are beneficiaries under the trusts have filed formal objections and/or demand letters with the Court in both of these accounting proceedings, objecting to the final settlement of the trust accounts. The objectants primarily assert that the Bank acted imprudently by failing to diversify the trusts' investments and they claim \$13.2 million (an increase from the previously claimed \$9.6 million based on an asserted new measure of damages) and \$24.1 million, consisting of damages and disallowed trustee's commissions, plus unspecified legal fees in the respective proceedings. For both legal proceedings, the Bank agreed to participate in non-binding mediation which began November 10, 2014. As a result of mediation and in anticipation of a settlement with both parties, the Bank's Board of Directors approved the establishment of an accrual for legal settlement in the amount of \$4.3 million as of September 30, 2014. In the event that a formal agreement is not executed, legal proceedings will continue in the Surrogate's Court. The first trial is scheduled to begin January 12, 2015 and the second trial is scheduled to begin February 23, 2015.

In the normal course of business, there are various outstanding claims and legal proceedings involving the Corporation or its subsidiaries. Except for the above matter, we believe that we are not a party to any pending legal, arbitration, or regulatory proceedings that could have a material adverse impact on our financial results or liquidity.

## NOTE 9 COMPONENTS OF QUARTERLY AND YEAR TO DATE NET PERIODIC BENEFIT COSTS

The components of net periodic expense for the Corporation's pension and other benefit plans for the periods indicated are as follows (dollars in thousands):

	Nine Months Ended		Three Months	
	September 30, 2014	September 30, 2013	Ended September 30, 2014	Ended September 30, 2013
Qualified Pension				

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Service cost, benefits earned during the period	\$813	\$ 1,048	\$271	\$ 349
Interest cost on projected benefit obligation	1,305	1,226	435	409
Expected return on plan assets	(2,379)	(2,181 )	(793)	(727 )
Amortization of unrecognized prior service cost	6	10	2	3
Amortization of unrecognized net loss	480	1,172	160	391

## NOTE 10

## SEGMENT REPORTING

The Corporation manages its operations through two primary business segments: core banking and wealth management group services. The core banking segment provides revenues by attracting deposits from the general public and using such funds to originate consumer, commercial, commercial real estate, and residential mortgage loans, primarily in the Corporation's local markets and to invest in securities. The wealth management group services segment provides revenues by providing trust and investment advisory services to clients.

Accounting policies for the segments are the same as those described in Note 1. Summarized financial information concerning the Corporation's reportable segments and the reconciliation to the Corporation's consolidated results are shown in the following table. Income taxes are allocated based on the separate taxable income of each entity and indirect overhead expenses are allocated based on reasonable and equitable allocations applicable to the reportable segment. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the Holding Company and Other column below, along with amounts to eliminate transactions between segments (dollars in thousands).

	Nine Months Ended September 30, 2014			
	Core Banking	Wealth Management Group Services	Holding Company And Other	Consolidated Totals
Net interest income	\$36,525	\$ -	\$ 9	\$ 36,534
Provision for loan losses	2,330	-	-	2,330
Net interest income after provision for loan losses	34,195	-	9	34,204
Other operating income	8,930	5,816	610	15,356
Other operating expenses	35,836	8,199	650	44,685
Income (loss) before income tax expense	7,289	(2,383)	(31)	4,875
Income tax expense (benefit)	2,179	(916)	(64)	1,199
Segment net income (loss)	\$5,110	\$ (1,467)	\$ 33	\$ 3,676
Segment assets	\$1,515,658	\$ 6,332	\$ 1,567	\$ 1,523,557

	Nine Months Ended September 30, 2013			
	Core Banking	Wealth Management Group Services	Holding Company And Other	Consolidated Totals
Net interest income	\$34,553	\$ -	\$ 8	\$ 34,561
Provision for loan losses	1,755	-	-	1,755
Net interest income after provision for loan losses	32,798	-	8	32,806
Other operating income	6,715	5,448	684	12,847
Other operating expenses	30,137	4,174	617	34,928
Income before income tax expense	9,376	1,274	75	10,725
Income tax expense (benefit)	2,995	490	(6)	3,479
Segment net income	\$6,381	\$ 784	\$ 81	\$ 7,246

Segment assets	\$1,334,376	\$ 5,023	\$ 1,692	\$ 1,341,091
----------------	-------------	----------	----------	--------------

## Three Months Ended September 30, 2014

	Core Banking	Wealth Management Group Services	Holding Company And Other	Consolidated Totals
Net interest income	\$12,424	\$ -	\$ 2	\$ 12,426
Provision for loan losses	589	-	-	589
Net interest income after provision for loan losses	11,835	-	2	11,837

Income tax expense (benefit)	860	170	(28 )	1,002
Segment net income	\$1,907	\$ 272	\$ -	\$ 2,179

## NOTE 11

## STOCK COMPENSATION

## Board of Director's Stock Compensation

Members of the Board of Directors receive common shares of the Corporation equal in value to the amount of fees individually earned during the previous year for service as a director. The common shares are distributed to the Corporation's individual board members from treasury shares of the Corporation on or about January 15 following the calendar year of service.

Additionally, the President and Chief Executive Officer of the Corporation, who does not receive cash compensation as a member of the Board of Directors, is awarded common shares equal in value to the average of those awarded to board members not employed by the Corporation who have served for 12 months during the prior year.

During January 2014 and 2013, 8,385 and 7,969 shares, respectively, were re-issued from treasury to fund the stock component of directors' compensation. An expense of \$187 thousand and \$185 thousand related to this compensation was recognized during the nine-month periods ending September 30, 2014 and September 30, 2013, respectively. This expense is accrued as shares are earned.

## Restricted Stock Plan

Pursuant to the Corporation's Restricted Stock Plan (the "Plan"), the Corporation may make discretionary grants of restricted stock to officers other than the Corporation's Chief Executive Officer. Compensation expense is recognized over the vesting period of the awards based on the fair value of the stock at issue date.

A summary of restricted stock activity from December 31, 2013 to September 30, 2014 is presented below:

	Shares	Weighted–Average Grant Date Fair Value
Nonvested at December 31, 2013	20,639	\$ 27.17
Granted	990	30.33
Vested	(415 )	23.07
Forfeited or Cancelled	-	-
Nonvested at September 30, 2014	21,214	\$ 27.40

As of September 30, 2014, there was \$468 thousand of total unrecognized compensation cost related to nonvested shares granted under the Plan. The cost is expected to be recognized over a weighted-average period of 3.50 years. The total fair value of shares vested during the nine months ended September 30, 2014 was \$12 thousand.

## NOTE 12 SUBSEQUENT EVENT

As discussed in Footnote 8 Commitments and Contingencies, on November 14, 2014 the Board of Directors approved the establishment of an accrual for legal settlement in the amount of \$4.3 million as of September 30, 2014, as a result of mediation and in anticipation of a legal settlement.. For accounting purposes, \$4.3 million was recorded as expense in the for legal settlement line in the Consolidated Statements of Income and increased accrued interest payable and other liabilities in the Consolidated Balance Sheets. A related tax benefit of \$1.7 million was recorded in the income tax expense (benefit) line in the Consolidated Statements of Income and increased accrued interest payable and other assets in the Consolidated Balance Sheets.

The Corporation's October 23, 2014 earnings release did not reflect the accrual for legal settlement, as the Corporation was unable to reasonably estimate a potential loss relating to the two legal proceedings at that point in time. The accrual for legal settlement changed the previously reported 2014 year-to-date amounts for net income of \$6.3 million to \$3.7 million, income tax expense of \$2.9 million to \$1.2 million, non-interest expense of \$40.4 million to \$44.7 million and earnings per share of \$1.34 to \$0.79. In addition, total shareholders' equity decreased from \$142.1 million to \$139.6 million, while total assets increased from \$1.522 billion to \$1.524 billion.

## Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The purpose of this discussion is to focus on information about the financial condition and results of operations of the Corporation for the three and nine-month periods ended September 30, 2014 and 2013. Reference should be made to the accompanying unaudited consolidated financial statements and footnotes, and the Corporation's 2013 Annual Report on Form 10-K, which was filed with the SEC on March 14, 2014, for an understanding of the following discussion and analysis.

## Forward-looking Statements

This discussion contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"). The Corporation intends its forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the PSLRA. Forward-looking statements are not historical in nature, but instead are based on our assumptions, estimates and projections about future events and trends. All statements regarding the Corporation's expected financial position and operating results, the Corporation's business strategy, the Corporation's financial plans, forecasted demographic and economic trends relating to the Corporation's industry and similar matters are forward-looking statements. These statements can sometimes be identified by the Corporation's use of forward-looking words such as "may," "will," "anticipate," "estimate," "expect," or "intend." The Corporation cannot promise that its expectations in such forward-looking statements will turn out to be correct. The Corporation's actual results could be materially different from expectations because of various factors, including changes in economic conditions or interest rates, credit risk, difficulties in managing the Corporation's growth, competition, changes in law or the regulatory environment, including the Dodd-Frank Act, and changes in general business and economic trends. Information concerning these and other factors can be found in the Corporation's periodic filings with the SEC, including the discussion under the heading "Item 1A. Risk Factors" in the Corporation's 2013 Annual Report on Form 10-K. These filings are available publicly on the SEC's web site at <http://www.sec.gov>, on the Corporation's web site at <http://www.chemungcanal.com> or upon request from the Corporate Secretary at (607) 737-3746. Except as otherwise required by law, the Corporation undertakes no obligation to publicly update or revise its forward-looking statements, whether as a result of new information, future events, or otherwise.

## Use of Non-GAAP Financial Measures

The SEC has adopted Regulation G, which applies to all public disclosures, including earnings releases, made by registered companies that contain "non-GAAP financial measures." Under Regulation G, companies making public disclosures containing non-GAAP financial measures must also disclose, along with each non-GAAP financial measure, certain additional information, including a reconciliation of the non-GAAP financial measure to the closest comparable GAAP financial measure and a statement of the Corporation's reasons for utilizing the non-GAAP financial measure as part of its financial disclosures. The SEC has exempted from the definition of "non-GAAP financial measures" certain commonly used financial measures that are not based on GAAP. When these exempted measures are included in public disclosures, supplemental information is not required. The following measures used in this Report, which are commonly utilized by financial institutions, have not been specifically exempted by the SEC and may constitute "non-GAAP financial measures" within the meaning of the SEC's new rules, although we are unable to state with certainty that the SEC would so regard them.

## Tax-Equivalent Net Interest Income and Net Interest Margin

Net interest income is commonly presented on a tax-equivalent basis. That is, to the extent that some component of the institution's net interest income, which is presented on a before-tax basis, is exempt from taxation (e.g., is received by the institution as a result of its holdings of state or municipal obligations), an amount equal to the tax benefit derived from that component is added to the actual before-tax net interest income total. This adjustment is considered helpful in comparing one financial institution's net interest income to that of other institutions or in analyzing any institution's net interest income trend line over time, to correct any analytical distortion that might otherwise arise from the fact that financial institutions vary widely in the proportions of their portfolios that are invested in tax-exempt securities, and that even a single institution may significantly alter over time the proportion of its own portfolio that is invested in tax-exempt obligations. Moreover, net interest income is itself a component of a second financial measure commonly used by financial institutions, net interest margin, which is the ratio of net interest income to average interest-earning assets. For purposes of this measure as well, fully taxable equivalent net interest income is generally used by financial institutions, as opposed to actual net interest income, again to provide a better basis of comparison from institution to institution and to better demonstrate a single institution's performance over time. The Corporation follows these practices.

## Tangible Book Value per Share

Tangible equity is total shareholders' equity less intangible assets. Tangible book value per share is tangible equity divided by total shares issued and outstanding. Tangible book value per share is often regarded as a more meaningful comparative ratio than book value per share as calculated under GAAP, that is, total shareholders' equity including intangible assets divided by total shares issued and outstanding. Intangible assets include goodwill and other intangible assets resulting from business combinations.

## Adjustments for Certain Items of Income or Expense

In addition to disclosures of certain GAAP financial measures, including net income, basic and diluted earnings per share ("EPS"), return on average assets ("ROA"), and return on average equity ("ROE"), we may also provide comparative disclosures that adjust these GAAP financial measures for a particular period by removing from the calculation thereof the impact of certain transactions or other material items of income or expense occurring during the period, including certain nonrecurring items. The Corporation believes that the resulting non-GAAP financial measures may improve an understanding of its results of operations by separating out any such transactions or items that may have had a disproportionate positive or negative impact on the Corporation's financial results during the particular period in question. In the Corporation's presentation of any such non-GAAP (adjusted) financial measures not specifically discussed in the preceding paragraphs, the Corporation supplies the supplemental financial

information and explanations required under Regulation G.

The Corporation believes that the non-GAAP financial measures disclosed by it from time-to-time are useful in evaluating the Corporation's performance and that such information should be considered as supplemental in nature and not as a substitute for or superior to the related financial information prepared in accordance with GAAP. The Corporation's non-GAAP financial measures may differ from similar measures presented by other companies.

36

---

## Overview

The Corporation is a bank holding company and a financial holding company registered with the FRB. The Bank is a New York chartered commercial bank established in 1833 and is a wholly owned subsidiary of the Corporation. Through the Bank and CFS Group, Inc., its wholly owned financial services subsidiary, the Corporation provides a wide range of services, including demand, savings and time deposits; commercial, residential and consumer loans and letters of credit; wealth management services, employee benefit plans and securities and insurance brokerage services. The Bank relies substantially on a foundation of locally generated deposits.

The Corporation does not engage in any material operations apart from its ownership of the Bank and CFS Group, Inc. The Bank derives its income primarily from interest and fees on loans, interest on investment securities, Wealth Management Group fee income and fees received in connection with deposit and other services. The Bank's operating expenses are interest expense paid on deposits and borrowings, salaries and employee benefit plans and general operating expenses.

## Three and Nine Months Ended September 30, 2014 Highlights

The Bank is a party to two legal proceedings involving its Wealth Management Group. For both legal proceedings, the Bank agreed to participate in non-binding mediation which began November 10, 2014. As a result of mediation and in anticipation of a formal agreement with both parties, the Bank's Board of Directors approved the establishment of an accrual for legal settlement in the amount of \$4.3 million as of September 30, 2014. The accrual for legal settlement was recorded as an expense in the quarter ended September 30, 2014, with a related tax benefit of \$1.7 million.

The Corporation's October 23, 2014 earnings release did not reflect the accrual for legal settlement, as the Corporation was unable to reasonably estimate a potential loss relating to the two legal proceedings at that point in time. The accrual for legal settlement changed the previously reported 2014 year-to-date amounts for net income of \$6.3 million to \$3.7 million, income tax expense of \$2.9 million to \$1.2 million, non-interest expense of \$40.4 million to \$44.7 million and basic and diluted earnings per share of \$1.34 to \$0.79. In addition, total shareholders' equity decreased from \$142.1 million to \$139.6 million, while total assets increased from \$1.522 billion to \$1.524 billion.

The net loss for the third quarter of 2014 was \$0.3 million, or \$(0.07) per share, compared with net income of \$2.2 million, or \$0.47 per share, for the same quarter in the prior year. Net income for the nine months ended September 30, 2014 was \$3.7 million, or \$0.79 per share, compared with \$7.2 million, or \$1.56 per share for the same period in the prior year.

Net interest margin (fully taxable equivalent) for the third quarter of 2014 was 3.56%, compared with 3.51% for the preceding quarter and 3.90% for the same quarter in the prior year. Net interest margin (fully taxable equivalent) for the nine months ended September 30, 2014 was 3.55%, down from 3.99% for the same period in the prior year.

Average interest-earning assets increased \$218.5 million year-over-year as a result of organic loan growth and the fourth quarter 2013 branch acquisition.

Total loans increased \$118.3 million, or 11.9%, from \$995.9 million at December 31, 2013 to \$1.114 billion at September 30, 2014. This increase was attributable to growth of \$82.5 million, or 15.9%, in commercial loans and \$38.9 million, or 13.8%, in consumer loans, due primarily to indirect consumer loans.

Non-performing assets to total assets ratio was 0.68% at September 30, 2014 compared with 0.61% at December 31, 2013 and 0.61% at September 30, 2013.

Book value per share was \$29.78 at September 30, 2014 compared with \$29.67 at December 31, 2013, an increase of \$0.11, or 0.4%, and \$28.93 at September 30, 2013, an increase of \$0.85, or 2.9%. Tangible book value per share was \$23.98 at September 30, 2014 compared with \$23.63 at December 31, 2013, an increase of \$0.35, or 1.5%, and \$23.28 at September 30, 2013, an increase of \$0.70, or 3.0%.

Dividends declared during the quarter ended September 30, 2014 were \$0.26 per share, level with the prior year.

#### Critical Accounting Policies, Estimates and Risks and Uncertainties

Critical accounting policies include the areas where the Corporation has made what it considers to be particularly difficult, subjective or complex judgments concerning estimates, and where these estimates can significantly affect the Corporation's financial results under different assumptions and conditions. The Corporation prepares its financial statements in conformity with GAAP. As a result, the Corporation is required to make certain estimates, judgments and assumptions that it believes are reasonable based upon the information available at that time. These estimates, judgments and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. Actual results could be different from these estimates.

Management considers the accounting policy relating to the allowance for loan losses to be a critical accounting policy given the uncertainty in evaluating the level of the allowance required to cover probable incurred credit losses inherent in the loan portfolio, and the material effect that such judgments can have on the Corporation's results of operations. While management's current evaluation of the allowance for loan losses indicates that the allowance is adequate, under adversely different conditions or assumptions the allowance would need to be increased. For example, if historical loan loss experience significantly worsened or if current economic conditions significantly deteriorated, additional provisions for loan losses would be required to increase the allowance. In addition, the assumptions and estimates used in the internal reviews of the Corporation's non-performing loans and potential problem loans, and the associated evaluation of the related collateral coverage for these loans, has a significant impact on the overall analysis of the adequacy of the allowance for loan losses. Real estate values in the Corporation's market area did not increase dramatically in the prior several years, and, as a result, any declines in real estate values have been modest. While management has concluded that the current evaluation of collateral values is reasonable under the circumstances, if collateral evaluations were significantly lowered, the Corporation's allowance for loan losses policy would also require additional provisions for loan losses.

Management also considers the accounting policy relating to the valuation of goodwill and other intangible assets to be a critical accounting policy. The initial carrying value of goodwill and other intangible assets is determined using estimated fair values developed from various sources and other generally accepted valuation techniques. Estimates are based upon financial, economic, market and other conditions as they existed as of the date of a particular acquisition. These estimates of fair value are the results of judgments made by the Corporation based upon estimates that are inherently uncertain and changes in the assumptions upon which the estimates were based may have a significant impact on the resulting estimates. In addition to the initial determination of the carrying value, on an ongoing basis management must assess whether there is any impairment of goodwill and other intangible assets that would require an adjustment in carrying value and recognition of a loss in the consolidated statement of income.

#### Financial Condition

Consolidated assets at September 30, 2014 totaled \$1.524 billion, an increase of \$47.4 million, or 3.2%, since December 31, 2013. The growth was due primarily to increases of \$118.3 million, or 11.9%, in total portfolio loans, partially offset by decreases of \$59.1 million in investment securities and \$16.6 million in cash and cash equivalents. The increase in portfolio loans was due to strong growth of \$82.5 million in commercial loans and \$38.9 million in consumer loans. The proceeds from the sales and calls of securities and the decrease in cash and cash equivalents were used to fund the growth in the loan portfolio.

Total liabilities increased \$46.4 million to \$1.384 billion at September 30, 2014, due primarily to an increase of \$44.7 million in deposits. The increase in deposits was due in part to the seasonal inflow of public deposits.

Total shareholders' equity was \$139.6 million at September 30, 2014, an increase of \$1.0 million from December 31, 2013, due primarily to the Corporation's net income of \$3.7 million, an increase of \$0.3 million in accumulated other comprehensive income and a reduction of \$0.4 million in treasury stock. These items were partially offset by declared dividends of \$3.6 million. The reduction in treasury stock was due to the issuance of common shares for the Board of Director's Stock Compensation Plan and the Corporation's Restricted Stock Plan.

The market value of total assets under management or administration in the Corporation's Wealth Management Group was \$1.910 billion at September 30, 2014 compared with \$1.888 billion at December 31, 2013.

#### Cash and Cash Equivalents

Total cash and cash equivalents decreased since December 31, 2013, due primarily to a decrease of \$16.9 million in interest-bearing deposits in other financial institutions. As stated above, the decrease was used to help fund the growth in the loan portfolio. The Corporation continues to evaluate alternative investment of these funds with caution, given the current low interest rate environment.

## Securities

The Corporation's Funds Management Policy includes an investment policy that in general, requires debt securities purchased for the bond portfolio to carry a minimum agency rating of "A". After an independent credit analysis is performed, the policy also allows the Corporation to purchase local municipal obligations that are not rated. The Corporation intends to maintain a reasonable level of securities to provide adequate liquidity and in order to have securities available to pledge to secure public deposits, repurchase agreements and other types of transactions. Fluctuations in the fair value of the Corporation's securities relate primarily to changes in interest rates.

Marketable securities are classified as Available for Sale, while investments in local municipal obligations are generally classified as Held to Maturity. The composition of the available for sale segment of the securities portfolio is summarized in Table 1 as follows (in thousands of dollars):

	September 30, 2014			December 31, 2013		
	Amortized Cost	Estimated Fair Value	Unrealized Gains (Losses)	Amortized Cost	Estimated Fair Value	Unrealized Gains (Losses)
Securities Available for Sale						
Obligations of U.S. Government and U.S. Government sponsored enterprises	\$175,960	\$177,215	\$ 1,255	\$187,098	\$188,106	\$ 1,008
Mortgage-backed securities, residential	63,858	64,571	713	104,069	104,356	287
Collateralized mortgage obligations	457	464	7	1,001	1,015	14
Obligations of states and political subdivisions	32,710	33,680	970	37,339	38,376	1,037
Corporate bonds and notes	1,505	1,539	34	2,879	2,946	67
SBA loan pools	1,340	1,349	9	1,471	1,488	17
Trust preferred securities	1,904	2,025	121	1,898	2,034	136
Corporate stocks	433	7,254	6,821	444	7,695	7,251
Totals	\$278,167	\$288,097	\$ 9,930	\$336,199	\$346,016	\$ 9,817

The available for sale segment of the securities portfolio totaled \$288.1 million at September 30, 2014, a decrease of \$57.9 million, or 16.7%, from \$346.0 million at December 31, 2013. The decrease resulted primarily from sales and calls of \$55.6 million, and maturities and principal collected of \$19.4 million, partially offset by purchases of \$18.3 million. The proceeds from the sales and calls of securities were used to help fund the growth in the loan portfolio.

The held to maturity segment of the securities portfolio consists of obligations of political subdivisions in the Corporation's market areas. These securities totaled \$5.4 million at September 30, 2014, a net decrease of \$1.1 million due primarily to maturities and principal collected of \$3.0 million, partially offset by purchases of \$2.0 million.

## Loans

The Corporation has reporting systems to monitor: (i) loan origination and concentrations, (ii) delinquent loans, (iii) non-performing assets, including non-performing loans, troubled debt restructurings and other real estate owned, (iv) impaired loans, and (v) potential problem loans. Management reviews these systems on a regular basis.

Table 2 shows the Corporation's loan composition by segment for the periods indicated, and the dollar and percent change from December 31, 2013 to September 30, 2014 (in thousands of dollars):

TABLE 2. LOANS

	September 30, 2014	December 31, 2013	Dollar Change	Percent Change
Commercial and agricultural	\$165,852	\$145,363	\$20,489	14.1 %
Commercial mortgages	435,166	373,147	62,019	16.6 %
Residential mortgages	192,870	195,997	(3,127 )	-1.6 %
Indirect consumer loans	196,603	164,846	31,757	19.3 %
Consumer loans	123,691	116,513	7,178	6.2 %
Loans, net	\$1,114,182	\$995,866	\$118,316	11.9 %

Portfolio loans totaled \$1.114 billion at September 30, 2014, an increase of \$118.3 million, or 11.9%, from \$995.9 million at December 31, 2013. The increase in portfolio loans was due to strong growth of \$62.0 million, or 16.6%, in commercial mortgages and \$31.8 million, or 19.3%, in indirect consumer loans. The growth in commercial mortgages was due primarily to loans originated by the Capital Bank division in the Albany, New York region. The growth in indirect consumer loans was a result of the Corporation's plan to extend into 2014 its loan program with reduced pricing on high quality indirect auto loans.

Residential mortgage loans totaled \$192.8 million at September 30, 2014, a decrease of \$3.1 million, or 1.6%, from December 31, 2013. In addition, during the nine months ended September 30, 2014, \$9.1 million of newly originated residential mortgages were sold in the secondary market to Freddie Mac and \$0.1 million in residential mortgages were sold to the State of New York Mortgage Agency. During the twelve months ended December 31, 2013, \$18.8 million of residential mortgages were sold in the secondary market to Freddie Mac, with an additional \$0.7 million of residential mortgages sold to the State of New York Mortgage Agency.

The Corporation anticipates that future growth in portfolio loans will continue to be in commercial mortgages, commercial and industrial loans and indirect consumer loans.

#### Non-Performing Assets

Non-performing assets consist of non-accrual loans, non-accrual troubled debt restructurings and other real estate owned that has been acquired in partial or full satisfaction of loan obligations or upon foreclosure.

Past due status on all loans is based on the contractual terms of the loan. It is generally the Corporation's policy that a loan 90 days past due be placed in non-accrual status unless factors exist that would eliminate the need to place a loan in this status. A loan may also be designated as non-accrual at any time if payment of principal or interest in full is not expected due to deterioration in the financial condition of the borrower. At the time loans are placed in non-accrual status, the accrual of interest is discontinued and previously accrued interest is reversed. All payments received on non-accrual loans are applied to principal. Loans are considered for return to accrual status when they become current as to principal and interest and remain current for a period of six consecutive months or when, in the opinion of management, the Corporation expects to receive all of its contractual principal and interest. In the case of non-accrual loans where a portion of the loan has been charged off, the remaining balance is kept in non-accrual status until the entire principal balance has been recovered.

Table 3 summarizes the Corporation's non-performing assets, excluding acquired PCI loans (in thousands of dollars):

TABLE 3. NON-PERFORMING ASSETS		September	December		
		30, 2014	31, 2013		
Non-accrual loans		\$ 6,599	\$ 7,456		
Non-accrual troubled debt restructurings		610	1,061		
Total non-performing loans		\$ 7,209	\$ 8,517		
Other real estate owned		3,119	538		
Total non-performing assets		\$ 10,328	\$ 9,055		
Ratio of non-performing loans to total loans		0.65	%	0.86	%
Ratio of non-performing assets to total assets		0.68	%	0.61	%
Ratio of allowance for loan losses to non-performing loans		182.42	%	150.01	%

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Accruing loans past due 90 days or more (1)	\$2,527	\$1,473
Accruing troubled debt restructurings (1)	\$8,108	\$6,831

(1) These loans are not included in non-performing assets above.

Non-Performing Loans

Non-performing loans consist of non-accrual loans and non-accrual troubled debt restructurings.

The recorded investment in non-performing loans at September 30, 2014 totaled \$7.2 million compared to \$8.5 million at December 31, 2013, a decrease of \$1.3 million. The decrease in non-performing loans was due primarily to decreases of \$1.0 million in non-accrual commercial and industrial loans and \$0.2 million in non-accrual residential mortgages.

The recorded investment in accruing loans past due 90 days or more totaled \$2.5 million at September 30, 2014, up from \$1.5 million at December 31, 2013. The increase in accruing loans past due 90 days or more was in commercial mortgages.

Not included in non-performing loan totals are \$5.8 million of acquired loans which the Corporation has identified as PCI loans. The PCI loans are accounted for under separate accounting guidance, Accounting Standards Codification ("ASC") Subtopic 310-30, "Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality" as disclosed in Note 4 of the financial statements.

#### Troubled Debt Restructurings

The Corporation works closely with borrowers that have financial difficulties to identify viable solutions that minimize the potential for loss. In that regard, the Corporation modified the terms of select loans to maximize their collectability. These modifications may be considered TDRs under current accounting guidance. The Corporation offers various types of modifications which may involve a change in the schedule of payments, a reduction in the interest rate, an extension of the maturity date, extending the maturity date at an interest rate lower than the current market rate for new debt with similar risk, requesting additional collateral, releasing collateral for consideration, substituting or adding a new borrower or guarantor, a permanent reduction of the recorded investment in the loan or a permanent reduction of the interest on the loan. As of September 30, 2014, the Corporation had \$0.6 million of non-accrual TDRs compared with \$1.1 million as of December 31, 2013. As of September 30, 2014, the Corporation had \$8.1 million of accruing TDRs compared with \$6.8 million as of December 31, 2013. The increase in total TDRs was primarily in the commercial loan segment of the loan portfolio.

#### Impaired Loans

A loan is classified as impaired when, based on current information and events, it is probable that the Corporation will be unable to collect both the principal and interest due under the contractual terms of the loan agreement. Impaired loans at September 30, 2014 totaled \$14.0 million, including TDRs of \$8.7 million, compared to \$13.9 million at December 31, 2013, including TDRs of \$7.9 million. Not included in the impaired loan totals are acquired loans which the Corporation has identified as PCI loans, as these loans are accounted for under ASC Subtopic 310-30 as noted under the above discussion of non-performing loans. Included in the impaired loan total at September 30, 2014, are loans totaling \$1.4 million for which impairment allowances of \$0.3 million have been specifically allocated to the allowance for loan losses. As of December 31, 2013, the impaired loan total included \$2.0 million of loans for which specific impairment allowances of \$1.0 million were allocated to the allowance for loan losses. The decrease in the amount of impaired loans for which specific allowances were allocated to the allowance for loan losses was due primarily to a decrease of \$1.0 million in impaired commercial and industrial loans, partially offset by an increase in of \$0.3 million in impaired commercial mortgages.

The majority of the Corporation's impaired loans are secured and measured for impairment based on collateral evaluations. It is the Corporation's policy to obtain updated appraisals, by independent third parties, on loans secured by real estate at the time a loan is determined to be impaired. An impairment measurement is performed based upon the most recent appraisal on file to determine the amount of any specific allocation or charge-off. In determining the amount of any specific allocation or charge-off, the Corporation will make adjustments to reflect the estimated costs to sell the property. Upon receipt and review of the updated appraisal, an additional measurement is performed to determine if any adjustments are necessary to reflect the proper provisioning or charge-off. Impaired loans are reviewed on a quarterly basis to determine if any changes in credit quality or market conditions would require any additional allocation or recognition of additional charge-offs. Real estate values in the Corporation's market area have been holding steady. Non-real estate collateral may be valued using (i) an appraisal, (ii) net book value of the collateral per the borrower's financial statements, or (iii) accounts receivable aging reports, that may be adjusted based on management's knowledge of the client and client's business. If market conditions warrant, future appraisals are obtained for both real estate and non-real estate collateral.

#### Allowance for Loan Losses

The allowance is an amount that management believes will be adequate to absorb probable incurred losses on existing loans. The allowance is established based on management's evaluation of the probable incurred losses in our portfolio in accordance with GAAP, and is comprised of both specific valuation allowances and general valuation allowances.

Specific valuation allowances are established based on management's analyses of individually impaired loans. Factors considered by management in determining impairment include payment status, evaluations of the underlying collateral, expected cash flows, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. If a loan is determined to be impaired and is placed on nonaccrual status, all future payments received are applied to principal and a portion of the allowance is allocated so that the loan is reported, net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral.

41

---

The general component covers non-impaired loans and is based on historical loss experience adjusted for current factors. Loans not impaired but classified as substandard and special mention use a historical loss factor on a rolling five year history of net losses. For all other unclassified loans, the historical loss experience is determined by portfolio class and is based on the actual loss history experienced by the Corporation over the most recent two years. This actual loss experience is supplemented with other qualitative factors based on the risks present for each portfolio class. These qualitative factors include consideration of the following: (1) lending policies and procedures, including underwriting standards and collection, charge-off and recovery policies, (2) national and local economic and business conditions and developments, including the condition of various market segments, (3) loan profiles and volume of the portfolio, (4) the experience, ability, and depth of lending management and staff, (5) the volume and severity of past due, classified and watch-list loans, non-accrual loans, troubled debt restructurings, and other modifications (6) the quality of the Bank's loan review system and the degree of oversight by the Bank's Board of Directors, (7) collateral related issues: secured vs. unsecured, type, declining valuation environment and trend of other related factors, (8) the existence and effect of any concentrations of credit, and changes in the level of such concentrations, (9) the effect of external factors, such as competition and legal and regulatory requirements, on the level of estimated credit losses in the Bank's current portfolio and (10) the impact of the global economy.

The allowance for loan losses is increased through a provision for loan losses charged to operations. Loans are charged against the allowance for loan losses when management believes that the collectability of all or a portion of the principal is unlikely. Management's evaluation of the adequacy of the allowance for loan losses is performed on a periodic basis and takes into consideration such factors as the credit risk grade assigned to the loan, historical loan loss experience and review of specific impaired loans. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's allowance for loan losses. Such agencies may require the Corporation to recognize additions to the allowance based on their judgments about information available to them at the time of their examination.

The allowance for loan losses was \$13.2 million at September 30, 2014, up from \$12.8 million at December 31, 2013. The ratio of allowance for loan losses to total loans was 1.18% at September 30, 2014, compared with 1.28% at December 31, 2013. The increase in the allowance for loan losses was due primarily to loan portfolio growth. Net charge-offs for the nine months ended September 30, 2014 were \$1.1 million compared with net recoveries of \$0.3 million for the prior year. The increase in net charge-offs was primarily in the commercial loan portfolio, along with a slight increase in the consumer loan portfolio.

Table 4 summarizes the Corporation's loan loss experience for the nine months ended September 30, 2014 and 2013 (in thousands of dollars, except ratio data):

**TABLE 4. SUMMARY OF LOAN LOSS EXPERIENCE**

	Nine Months Ended	
	September	
	30,	September
	2014	30, 2013

---

## Deposits

Table 5 shows the Corporation's deposit composition by segment for the periods indicated, and the dollar and percent change from December 31, 2013 to September 30, 2014 (in thousands of dollars):

	September 30, 2014	December 31, 2013	Dollar Change	Percent Change
Non-interest-bearing demand deposits	\$372,916	\$351,222	\$21,694	6.2 %
Interest-bearing demand deposits	138,751	114,679	24,072	21.0 %
Insured money market accounts	391,671	361,095	30,576	8.5 %
Savings deposits	196,406	194,768	1,638	0.8 %
Time deposits	211,255	244,492	(33,237)	-13.6 %
Total	\$1,310,999	\$1,266,256	\$44,743	3.5 %

Deposits totaled \$1.311 billion at September 30, 2014, compared with \$1.266 billion at December 31, 2013, an increase of \$44.7 million, or 3.5%. The increase was due primarily to the increase of \$30.6 million in money market accounts, due in part to the seasonal inflow of municipal deposits, \$21.7 million in non-interest bearing demand deposits, \$24.1 million in interest-bearing demand deposits and \$1.6 million in saving accounts. These items were partially offset by a decrease of \$33.2 million in time deposits.

In addition to consumer, commercial and public deposits, other sources of funds include brokered deposits. Brokered deposits include funds obtained through brokers, and the Bank's participation in the Certificate of Deposit Account Registry Service ("CDARS") and Insured Cash Sweep Service ("ICS") programs. The CDARS and ICS programs involve a network of financial institutions that exchange funds among members in order to ensure FDIC insurance coverage on customer deposits above the single institution limit. Using a sophisticated matching system, funds are exchanged on a dollar-for-dollar basis, so that the equivalent of an original deposit comes back to the originating institution. Deposits obtained through brokers were \$2.5 million at September 30, 2014 compared with \$5.0 million as of December 31, 2013. Deposits obtained through the CDARS and ICS programs were \$74.6 million at September 30, 2014 compared with \$35.7 million as of December 31, 2013. The increase in CDARS and ICS deposits was due to the Corporation offering the programs to local municipalities.

The Corporation's deposit strategy is to fund the Bank with stable, low-cost deposits, primarily checking account deposits and other low interest-bearing deposit accounts. A checking account is the driver of a banking relationship and consumers consider the bank where they have their checking account as their primary bank. These customers will typically turn to their primary bank first when in need of other financial services. Strategies that have been developed and implemented to generate these deposits include: (i) acquire deposits by entering new markets through de novo branching, (ii) an annual checking account marketing campaign, (iii) training branch employees to identify and meet client financial needs with Bank products and services, (iv) link business and consumer loans to primary checking account at the Bank, (v) aggressively promote direct deposit of client's payroll checks or benefit checks and (vi) constantly monitor the Corporation's pricing strategies to ensure competitive products and services.

The Corporation also considers brokered deposits to be an element of its deposit strategy and anticipates that it will continue using brokered deposits as a secondary source of funding to support growth.

## Borrowings

FHLB term advances were \$24.1 million at September 30, 2014, a decrease of \$1.1 million from December 31, 2013. The decrease in FHLB term advances was due to scheduled repayments. Securities sold under agreements to

repurchase decreased \$1.7 million from \$32.7 million at December 31, 2013 to \$31.0 million at September 30, 2014. The decrease in securities sold under agreements to repurchase was related to normal fluctuations in client accounts.

## Shareholders' Equity

Total shareholders' equity was \$139.6 million at September 30, 2014 compared with \$138.6 million at December 31, 2013. The increase was due primarily to the Corporation's net income of \$3.7 million, an increase of \$0.3 million in accumulated other comprehensive income and a reduction of \$0.4 million in treasury stock. These items were partially offset by declared dividends of \$3.6 million. The total shareholders' equity to total assets ratio was 9.16% at September 30, 2014 compared with 9.39% at December 31, 2013. The tangible equity to tangible assets ratio was 7.51% at September 30, 2014 compared with 7.62% at December 31, 2013. Book value per share increased to \$29.78 at September 30, 2014 from \$29.67 at December 31, 2013.

The Corporation and the Bank are subject to capital adequacy guidelines of the Federal Reserve which establish a framework for the classification of financial holding companies and financial institutions into five categories: well-capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized. As of September 30, 2014, both the Corporation's and the Bank's capital ratios were in excess of those required to be considered well-capitalized under regulatory capital guidelines.

## Liquidity and Capital Resources

Liquidity management involves the ability to meet the cash flow requirements of deposit clients, borrowers, and the operating, investing and financing activities of the Corporation. The Corporation uses a variety of resources to meet its liquidity needs. These include short term investments, cash flow from lending and investing activities, core-deposit growth and non-core funding sources, such as time deposits of \$100,000 or more, securities sold under agreements to repurchase and other borrowings.

The Corporation is a member of the FHLBNY which allows it to access borrowings which enhance management's ability to satisfy future liquidity needs. Based on available collateral and current advances outstanding, the Corporation was eligible to borrow up to a total of \$108.3 million and \$73.1 million at September 30, 2014 and December 31, 2013, respectively. The Corporation also had a total of \$28.0 million of unsecured lines of credit with four different financial institutions, all of which was available at September 30, 2014 and December 31, 2013.

During the nine months ended September 30, 2014, cash and cash equivalents decreased \$16.6 million. The major sources of cash during the nine months ended September 30, 2014 included \$12.4 million provided by operating activities, \$78.1 million in proceeds from sales, maturities, calls and principal reductions on investment securities and \$44.7 million in deposit growth. These proceeds were used primarily to fund purchases of securities totaling \$20.3 million, a \$123.3 million net increase in loans and payment of cash dividends in the amount of \$3.6 million.

## Results of Operations

### Comparison of Nine Months Ended September 30, 2014 and 2013

#### Net Income

Net income for the nine months ended September 30, 2014 was \$3.7 million, a decrease of \$3.5 million, or 49.3%, compared with \$7.2 million for the nine months ended September 30, 2013. Earnings per share for the nine months ended September 30, 2014 was \$0.79 compared with \$1.56 for the nine months ended September 30, 2013. Return on average assets and return on average equity for the nine months ended September 30, 2014 were 0.33% and 3.46%, respectively, compared with 0.76% and 7.25%, respectively, for the same period in the prior year.

The decline in net income for the nine months ended September 30, 2014 was due primarily to increases of \$9.8 million in non-interest expense and \$0.6 million in the provision for loan losses. These items were partially offset by increases of \$1.9 million in net interest income and \$2.3 million in non-interest income, and a reduction of \$2.3 million in income taxes. A majority of the increase in non-interest expense was related to the \$4.3 million proposed legal settlement and operating expenses directly related to the branches acquired in the fourth quarter of 2013.

## Net Interest Income

Net interest income, which is the difference between the income we receive on interest-earning assets, such as loans and securities and the interest we pay on interest-bearing liabilities, such as deposits and borrowings, is the largest contributor to the Corporation's earnings.

Net interest income for the nine months ended September 30, 2014 totaled \$36.5 million, an increase of \$1.9 million, or 5.7%, compared with \$34.6 million for the same period in the prior year. Fully taxable equivalent net interest margin was 3.55% for the nine months ended September 30, 2014 compared with 3.99% for the same period in the prior year. The increase in net interest income was due primarily to an increase of \$218.5 million in interest-earning assets related to the branch acquisition in the fourth quarter of 2013. The decline in net interest margin was due in part to a 52 basis point decrease in the yield on interest-earning assets, partially offset by a 12 basis point decline in the cost of funds and the increase in interest-earning assets. The decrease in yield on interest-earning assets was attributable to a 44 basis point decrease in yields on loans, a result of loans continuing to reprice at current historically low market rates and the investment of cash from the acquired branch offices into investment securities.

45

---

## Average Consolidated Balance Sheet and Interest Analysis

Table 6 sets forth certain information related to the Corporation's average consolidated balance sheets and its consolidated statements of income for the nine month periods ended September 30, 2014 and 2013. Table 6 also reflects the average yield on assets and average cost of liabilities for the nine month periods ended September 30, 2014 and 2013. For the purpose of the table below, non-accruing loans are included in the daily average loan amounts outstanding. Daily balances were used for average balance computations. Investment securities are stated at amortized cost. Tax equivalent adjustments have been made in calculating yields on obligations of states and political subdivisions, tax-free commercial loans and dividends on equity investments.

TABLE 6. AVERAGE BALANCES AND YIELDS

Distribution of Assets, Liabilities and Shareholders' Equity, Interest Rates and Interest Differential

(in thousands of dollars)	Nine Months Ended September 30, 2014			Nine Months Ended September 30, 2013

Shareholders' equity	142,114			133,714		
Total	\$1,500,760			\$1,273,206		
Fully taxable equivalent net interest income		37,036			35,105	

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Net interest rate spread(1)	3.44 %	3.84 %
Net interest margin, fully taxable equivalent (2)	3.55 %	3.99 %
Taxable equivalent adjustment	502	544
Net interest income	\$36,534	\$34,561

(1) Net interest rate spread is the difference in the yield received on earning assets less the rate paid on interest-bearing liabilities.

(2) Net interest margin is the ratio of fully taxable equivalent net interest income divided by average earning assets.

46

---

## Changes Due to Volume and Rate

Net interest income can be analyzed in terms of the impact of changes in rates and volumes. Table 7 illustrates the extent to which changes in interest rates and in the volume of average interest-earning assets and interest-bearing liabilities have affected the Corporation's interest income and interest expense during the nine month periods ended September 30, 2014 and 2013. Information is provided in each category with respect to (i) changes attributable to changes in volume (changes in volume multiplied by prior rate); (ii) changes attributable to changes in rates (changes in rates multiplied by prior volume); and (iii) the net changes. Due to the numerous simultaneous volume and rate changes during the periods analyzed, it is not possible to precisely allocate changes between volume and rates. For purposes of this table, changes that are not due solely to volume or rate changes have been allocated to these categories based on the respective percentage changes in average volume and rate. In addition, average earning assets include non-accrual loans and taxable equivalent adjustments were made.

TABLE 7. RATE/VOLUME ANALYSIS OF NET INTEREST INCOME

(in thousands of dollars)	Nine Months Ended September 30, 2014 vs. 2013		
	Increase/(Decrease)		
	Total Change	Due to Volume	Due to Rate
Interest and dividends earned on:			
Loans	\$978	\$4,153	\$(3,175)
Taxable investment securities	773	1,178	(405 )
Tax-exempt investment securities	(132 )	(59 )	(73 )
Interest-bearing deposits	38	38	-
Total earning assets	\$1,657	\$5,310	\$(3,653)
Interest paid on:			
Interest-bearing demand deposits		\$3	\$19
Savings and insured money market deposits		117	171
Time deposits		(361 )	1
FHLB advances, securities sold under agreements to repurchase and other debt		(33 )	(124 )
Total interest-bearing liabilities		\$(274 )	\$67
Net interest income		\$1,931	\$5,243
			\$(3,312)

## Provision for Loan Losses

The provision for loan losses for the nine months ended September 30, 2014 totaled \$2.3 million compared with \$1.8 million for the nine months ended September 30, 2013. The increase in the provision for loan losses was due primarily to an increase in net charge-offs and growth in the loan portfolio. Net charge-offs for the nine months ended September 30, 2014 were \$2.0 million compared with \$0.3 million for the same period in the prior year. The increase in net charge-offs from the prior year was due primarily to the charge-off of three commercial loans, the majority attributable to two acquired PCI loans.

## Non-Interest Income

Non-interest income for the nine months ended September 30, 2014 totaled \$15.4 million, an increase of \$2.6 million, or 19.5%, compared with \$12.8 million for the same period in the prior year. The increase was due primarily to a \$0.5 million net gain on securities transactions, increases of \$0.6 million in service charges on deposit accounts attributable to branches acquired in the fourth quarter of 2013, \$0.4 million in Wealth Management fee income, and a gain of \$0.5 million from the liquidation of the Corporation's investment in a pool of trust preferred securities.

#### Non-Interest Expense

Non-interest expense for the nine months ended September 30, 2014 totaled \$44.7 million, an increase of \$9.8 million, or 27.9%, compared with \$34.9 million for the same period in the prior year. The increase was due primarily to a \$4.3 million proposed legal settlement and increases of \$1.5 million in salaries and wages, \$1.2 million in occupancy expense, \$0.9 million in data processing expense, \$0.5 million in furniture and equipment expense, \$0.3 million in amortization of intangible assets, and \$0.7 million in other non-interest expense related to various items. A portion of the increase in non-interest expense was due to operating expenses directly related to the branches acquired in the fourth quarter of 2013, along with annual merit increases in salaries and wages and upgrades for ATMs and software.

## Income Taxes

Income tax expense for the nine months ended September 30, 2014 totaled \$1.2 million, a decrease of \$2.3 million, compared with \$3.5 million for the same period in the prior year. Income tax expense reflects an effective tax rate of 24.6% for the nine months ended September 30, 2014 compared with 32.4% for the same period in the prior year. The decrease in the effective tax rate was due primarily to lower pre-tax income and an increase in the relative percentage of tax exempt income to pre-tax income.

## Comparison of Three Months Ended September 30, 2014 and 2013

### Net Income

The net loss for the three months ended September 30, 2014 was \$0.3 million, a decrease of \$2.5 million, or 114.6%, compared with net income of \$2.2 million for the three months ended September 30, 2013. Loss per share for the three months ended September 30, 2014 was \$(0.07) compared with earnings per share of \$0.47 for the three months ended September 30, 2013. Return on average assets and return on average equity for the three months ended September 30, 2014 were (0.08)% and (0.89)%, respectively, compared with 0.67% and 6.45%, respectively, for the same period in the prior year.

### Net Interest Income

Net interest income, which is the difference between the income we receive on interest-earning assets, such as loans and securities and the interest we pay on interest-bearing liabilities, such as deposits and borrowings, is the largest contributor to the Corporation's earnings.

Net interest income for the three months ended September 30, 2014 totaled \$12.4 million, an increase of \$0.9 million, or 7.9%, compared with \$11.5 million for the same period in the prior year. Fully taxable equivalent net interest margin was 3.56% for the three months ended September 30, 2014 compared with 3.90% for the same period in the prior year. The increase in net interest income was due primarily to an increase of \$214.5 million in interest-earning assets related to the branch acquisition in the fourth quarter of 2013. The decline in net interest margin was due in part to a 41 basis point decrease in the yield on interest-earning assets, partially offset by a 10 basis point decline in the cost of funds and the increase in interest-earning assets. The decrease in yield on interest-earning assets was attributable to a 37 basis point decrease in yields on loans, a result of loans continuing to reprice at current historically low market rates and the investment of cash from the acquired branch offices into investment securities.

## Average Consolidated Balance Sheet and Interest Analysis

Table 8 sets forth certain information related to the Corporation's average consolidated balance sheets and its consolidated statements of income for the three month periods ended September 30, 2014 and 2013. Table 8 also reflects the average yield on assets and average cost of liabilities for the three month periods ended September 30, 2014 and 2013. For the purpose of the table below, non-accruing loans are included in the daily average loan amounts outstanding. Daily balances were used for average balance computations. Investment securities are stated at amortized cost. Tax equivalent adjustments have been made in calculating yields on obligations of states and political subdivisions, tax-free commercial loans and dividends on equity investments.

TABLE 8. AVERAGE BALANCES AND YIELDS

Distribution of Assets, Liabilities and Shareholders' Equity, Interest Rates and Interest Differential

(in thousands of dollars)	Three Months Ended September 30, 2014			Three Months Ended September 30, 2013		
	Average Balance	Interest	Yield/ Rate	Average Balance	Interest	Yield/ Rate
<b>Assets</b>						
Earning assets:						
Loans	\$1,097,133	\$12,004	4.34 %	\$950,657	\$11,278	4.71 %
Taxable securities	244,269	1,142	1.86 %	195,337	1,021	2.07 %
Tax-exempt securities	37,734	350	3.68 %	39,470	377	3.79 %
Interest-bearing deposits	25,029	16	0.25 %	4,514	3	0.25 %
Total earning assets	1,404,165	13,512	3.82 %	1,189,978	12,679	4.23 %
Non-earning assets:						
Cash and due from banks	26,766			23,512		
Premises and equipment, net	30,160			25,006		
Other assets	51,063			46,465		
Allowance for loan losses	(13,694 )			(11,300 )		
AFS valuation allowance	10,855			9,916		
Total	\$1,509,315			\$1,283,577		
<b>Liabilities and Shareholders' Equity</b>						
Interest-bearing liabilities:						
Interest-bearing demand deposits	\$124,490	24	0.08 %	\$88,854	22	0.10 %
Savings and insured money market deposits	589,022	256	0.17 %	458,836	205	0.18 %
Time deposits	218,748	231	0.42 %	226,278	345	0.61 %
FHLB advances, securities sold under agreements to repurchase and other debt	56,278	404	2.85 %	66,889	420	2.50 %
Total interest-bearing liabilities	988,538	915	0.37 %	840,857	992	0.47 %
Non-interest-bearing liabilities:						
Demand deposits	368,823			299,603		
Other liabilities	9,010			9,162		
Total liabilities	1,366,371			1,149,622		
Shareholders' equity	142,944			133,955		
Total	\$1,509,315			\$1,283,577		
Fully taxable equivalent net interest income		12,597			11,687	

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Net interest rate spread(1)	3.45 %	3.76 %
Net interest margin, fully taxable equivalent (2)	3.56 %	3.90 %
Taxable equivalent adjustment	171	170
Net interest income	\$12,426	\$11,517

(1) Net interest rate spread is the difference in the yield received on earning assets less the rate paid on interest-bearing liabilities.

(2) Net interest margin is the ratio of fully taxable equivalent net interest income divided by average earning assets.

49

---

## Changes Due to Volume and Rate

Net interest income can be analyzed in terms of the impact of changes in rates and volumes. Table 9 illustrates the extent to which changes in interest rates and in the volume of average interest-earning assets and interest-bearing liabilities have affected the Corporation's interest income and interest expense during the three month periods ended September 30, 2014 and 2013. Information is provided in each category with respect to (i) changes attributable to changes in volume (changes in volume multiplied by prior rate); (ii) changes attributable to changes in rates (changes in rates multiplied by prior volume); and (iii) the net changes. Due to the numerous simultaneous volume and rate changes during the periods analyzed, it is not possible to precisely allocate changes between volume and rates. For purposes of this table, changes that are not due solely to volume or rate changes have been allocated to these categories based on the respective percentage changes in average volume and rate. In addition, average earning assets include non-accrual loans and taxable equivalent adjustments were made.

TABLE 9. RATE/VOLUME ANALYSIS OF NET INTEREST INCOME

(in thousands of dollars)	Three Months Ended September 30, 2014 vs. 2013		
	Total Change	Due to Volume	Due to Rate
Interest and dividends earned on:			
Loans	\$726	\$1,649	\$(923 )
Taxable investment securities	121	237	(116 )
Tax-exempt investment securities	(27 )	(17 )	(10 )
Interest-bearing deposits	13	13	-
Total earning assets	\$833	\$1,882	\$(1,049)
Interest paid on:			
Interest-bearing demand deposits		\$2	\$7
Savings and insured money market deposits		51	57
Time deposits		(114)	(11 )
FHLB advances, securities sold under agreements to repurchase and other debt		(16 )	(72 )
Total interest-bearing liabilities		\$(77 )	\$(19 )
Net interest income		\$910	\$1,901

## Provision for Loan Losses

The provision for loan losses for the three months ended September 30, 2014 totaled \$0.6 million compared with \$0.9 million for the three months ended September 30, 2013. Net charge-offs for the current quarter were \$1.1 million compared with \$0.3 million for the same period in the prior year. The increase in net charge-offs was due primarily to a \$0.9 million charge-off of an acquired PCI loan that was transferred to other real estate owned.

## Non-Interest Income

Non-interest income for the three months ended September 30, 2014 totaled \$5.0 million, an increase of \$0.6 million, or 14.6%, compared with \$4.4 million for the same period in the prior year. The increase was due primarily to

increases of \$0.2 million in check fee income, \$0.2 million in service charges on deposit accounts and \$0.1 million in Wealth Management fee income.

#### Non-Interest Expense

Non-interest expense for the three months ended September 30, 2014 totaled \$17.8 million, an increase of \$6.0 million, or 50.4%, compared with \$11.8 million for the same period in the prior year. The increase was due primarily to a \$4.3 million proposed legal settlement and increases of \$0.6 million in salaries and wages, \$0.4 million in occupancy expense, \$0.3 million in data processing expense and \$0.2 million in furniture and equipment expense. A portion of the increase in non-interest expense was due to operating expenses directly related to the branches acquired in the fourth quarter of 2013, along with annual merit increases in salaries and wages and upgrades for ATMs and software.

## Income Taxes

An income tax benefit for the three months ended September 30, 2014 totaled \$0.6 million, compared with income tax expense of \$1.0 million for the same period in the prior year. The income tax benefit for the three months ended September 30, 2014 was related to the proposed legal settlement. Income tax expense reflects an effective tax rate of 31.5% for the three months ended September 30, 2013.

## ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

### Interest Rate Risk

Management considers interest rate risk to be the most significant market risk for the Corporation. Market risk is the risk of loss from adverse changes in market prices and rates. Interest rate risk is the exposure to adverse changes in the net income of the Corporation as a result of changes in interest rates.

The Corporation's primary earnings source is net interest income, which is affected by changes in the level of interest rates, the relationship between rates, the impact of interest rate fluctuations on asset prepayments, the level and composition of deposits and liabilities, and credit quality of earning assets.

The Corporation's objectives in its asset and liability management are to maintain a strong, stable net interest margin, to utilize its capital effectively without taking undue risks, to maintain adequate liquidity, and to reduce vulnerability of its operations to changes in interest rates. The Corporation's Asset/Liability Committee ("ALCO") has the strategic responsibility for setting the policy guidelines on acceptable exposure to interest rate risk. These guidelines contain specific measures and limits regarding the risks, which are monitored on a regular basis. The ALCO is made up of the president and chief executive officer, the chief financial officer, the asset liability management officer, and other officers representing key functions.

Interest rate risk is the risk that net interest income will fluctuate as a result of a change in interest rates. It is the assumption of interest rate risk, along with credit risk, that drives the net interest margin of a financial institution. For that reason, the ALCO has established tolerance limits based upon a 200-basis point change in interest rates, with appropriate floors set for interest-bearing liabilities. At September 30, 2014, it is estimated that an immediate 200-basis point decrease in interest rates would negatively impact the next 12 months net interest income by 9.07% and an immediate 200-basis point increase would negatively impact the next 12 months net interest income by 9.02%. Both are within the Corporation's policy guideline of 15%. Given the overall low level of current interest rates and the unlikely event of a 200-basis point decline from this point, management additionally modeled an immediate 100-basis point decline and an immediate 300-basis point increase in interest rates. When applied, it is estimated these scenarios would result in negative impacts to net interest income of 3.96% and 13.45%, respectively.

A related component of interest rate risk is the expectation that the market value of the Corporation's capital account will fluctuate with changes in interest rates. This component is a direct corollary to the earnings-impact component: an institution exposed to earnings erosion is also exposed to shrinkage in market value. At September 30, 2014, it is estimated that an immediate 200-basis point decrease in interest rates would negatively impact the market value of the Corporation's capital account by 7.41% and an immediate 200-basis point increase in interest rates would negatively impact the market value by 3.71%. Both are within the Corporation's policy guideline of 15%. Management also modeled the impact to the market value of the Corporation's capital with an immediate 100-basis point decline and an immediate 300-basis point increase in interest rates, based on the current interest rate environment. When applied, it is estimated these scenarios would result in negative impacts to the market value of the Corporation's capital of 3.65% and 5.69%, respectively.

Management does recognize the need for certain hedging strategies during periods of anticipated higher fluctuations in interest rates and the Funds Management Policy provides for limited use of certain derivatives in asset liability management. These strategies were not employed during the nine months ended September 30, 2014.

51

---

## Credit Risk

The Corporation manages credit risk consistent with state and federal laws governing the making of loans through written policies and procedures; loan review to identify loan problems at the earliest possible time; collection procedures (continued even after a loan is charged off); an adequate allowance for loan losses; and continuing education and training to ensure lending expertise. Diversification by loan product is maintained through offering commercial loans, 1-4 family mortgages, and a full range of consumer loans.

The Corporation monitors its loan portfolio carefully. The Loan Committee of the Corporation's Board of Directors is designated to receive required loan reports, oversee loan policy, and approve loans above authorized individual and Senior Loan Committee lending limits. The Senior Loan Committee, consisting of the President and Chief Executive Officer, Chief Financial Officer (non-voting member) Chief Administrative and Risk Officer (non-voting member), business client division manager, retail client division manager, commercial loan manager, consumer loan manager, mortgage loan manager, and the President and commercial loan manager of the Capital Bank division, implements the Board-approved loan policy.

## ITEM 4: CONTROLS AND PROCEDURES

### Evaluation of Disclosure Controls and Procedures

The Corporation's management, with the participation of our President and Chief Executive Officer, who is the Corporation's principal executive officer, and our Chief Financial Officer and Treasurer, who is the Corporation's principal financial officer, have evaluated the effectiveness of the Corporation's disclosure controls and procedures as of September 30, 2014 pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the principal executive officer and principal financial officer have concluded that the Corporation's disclosure controls and procedures are not effective as a result of the material weakness that existed in the Corporation's internal control over financial reporting as previously described in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2013.

### Previously Identified Material Weakness

As of December 31, 2013 management concluded that its internal control over financial reporting was not effective because a material weakness existed in its internal control over the identification and evaluation of troubled debt restructurings. The process surrounding the identification of troubled debt restructurings is to include the completion of a checklist which guides the identification process for all loans modified, renewed or extended which meet certain credit grade and principal balance criteria. A key control to identify all loans which may be subject to a checklist has been implemented and will be tested for effectiveness during 2014.

In response to the material weakness, during the quarter ended March 31, 2014, the Corporation improved its process of identifying and evaluating trouble debt restructurings in order to remediate the material weakness. The Corporation has provided additional guidance and strengthened processes regarding the identification and evaluation of trouble debt restructurings, within our loan underwriting and credit administration functions, and provided additional training to our loan underwriting and credit administration staff. Additionally, the Corporation's internal audit personnel will be sampling and testing transactions related to troubled debt restructurings as a part of the Corporation's internal audit plan for 2014.

The remediation of the material weakness described above is ongoing. Management believes that its efforts, when fully implemented, will be effective in remediating the material weakness by the end of 2014. In addition,

management will continue to monitor the results of the remediation activities and test the new controls as part of its review of its internal control over financial reporting for 2014. Management remains committed to a strong internal control environment.

Except for the material weakness noted above, there have been no changes in the Corporation's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For information related to this item, please see Note 8 to the Corporation's financial statements included herein.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors set forth in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2013, filed with the Securities and Exchange Commission on March 14, 2014.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities (1)

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
7/1/14-7/30/14	-	\$ -	-	121,906
8/1/14-8/31/14	-	\$ -	-	121,906
9/1/14-9/30/14	-	\$ -	-	121,906
Quarter ended 9/30/14	-	\$ -	-	121,906

(1) On December 19, 2012, the Corporation's Board of Directors approved a stock repurchase plan authorizing the purchase of up to 125,000 shares of the Corporation's outstanding common stock. Purchases may be made from time to time on the open market or in private negotiated transactions and will be at the discretion of management. As of June 30, 2014, a total of 3,094 shares had been purchased under this plan.
