**Notes to Condensed Financial Statements**

*(unaudited)*

**1. Basis of Presentation**

The accompanying unaudited interim financial statements reflect all adjustments that are, in the opinion of management, necessary to present fairly the financial position, results of operations, and cash flows of LOGIC Devices Incorporated (the Company) for the periods indicated.

The accompanying unaudited interim financial statements have been prepared in accordance with the instructions for Form 10-Q, and, therefore, do not include all information and footnotes necessary for a complete presentation of the financial position, results of operations, and cash flows for the Company, in conformity with accounting principles generally accepted in the United States of America. The accompanying unaudited interim financial statements should be read in conjunction with the audited financial statements that include all information and footnotes necessary for such a presentation of the Company's financial position, results of operations, and cash flows for the fiscal years ended September 30, 2010 and 2009. The audited financial statements and notes thereto are included in the Company's Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on December 27, 2010. It is suggested that the accompanying unaudited interim financial statements be read in conjunction with the aforementioned audited financial statements. In the opinion of management, the unaudited interim financial statements reflect all adjustments (consisting of normal and recurring accruals) necessary to make the results of operations for the interim periods a fair statement of such operations. The results of operations for the interim period ended June 30, 2011 are not necessarily indicative of the results to be expected for the full fiscal year to end September 30, 2011.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. This contemplates that assets will be realized and liabilities and commitments satisfied in the normal course of business. We have incurred operating losses in the past four years and require additional funds to maintain our operations. The Company's continuance of operations is contingent on raising additional working capital, and on the increase of revenues from new product introductions. Accordingly, these factors raise substantial doubt about the Company's ability to continue as a going concern. While the Company has established a limited line of credit with a commercial finance company and an equity line with an investment fund, our limited financing, cash on-hand and cash from operations may not be sufficient to meet the increased demands of our market. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue operating as a going concern.

## 2. Inventories

A summary of inventories follows:

	<b>June 30, 2011</b>	<b>September 30, 2010</b>
Raw materials	\$ 103,000	\$ 92,100
Work-in-process	222,800	181,300
Finished goods	734,800	690,200
	\$ 1,060,600	\$ 963,600

---

### 3. Shareholders Equity and Related Party Transactions

The Company issues options to purchase common stock to its employees, certain consultants, and certain of its board members. Options are generally granted with an exercise price equal to the closing market value of a common share at the date of grant, have five- to ten-year terms and typically vest over periods ranging from immediately to three years from the date of grant. There are 1,105,000 authorized shares remaining for granting of future options.

In calculating compensation related to stock option grants, the fair value of each stock option is estimated on the date of grant using the Black-Scholes option-pricing model and the following weighted average assumptions:

	2011	2010
Dividend yield	None	None
Expected volatility	128.60%	134.30%
Expected annual forfeiture rate	10%	10%
Risk-free interest rate	1.10%	1.50%
Expected term (years)	4	4

The computation of expected volatility used in the Black-Scholes option-pricing model is based on the historical volatility of our share price. The expected term is estimated based on a review of historical exercise behavior with respect to option grants.

The estimated fair value of equity-based awards, less expected forfeitures, is amortized over the award's vesting period on a straight-line, generally over three years. Share-based compensation expense recognized in the statements of operations for the nine months ended June 30, 2011 and 2010 related to common stock option grants was \$22,200 and \$45,000 (fair value of \$0.52 and \$1.24 per share), respectively. There was no share-based compensation expense recognized during the quarter ended June 30, 2011 and 2010.

During the nine months ended June 30, 2011, the Company raised \$425,000 through ten private placements to the Company's president, chairman of the board, and one other board member, as detailed below:

	# of Shares	Amount
To chairman of the board, November 9, 2010	62,500	\$ 50,000

Edgar Filing: LOGIC DEVICES Inc - Form 10-Q

To president, December 6, 2010	83,333	50,000
To chairman of the board, December 9, 2010	75,758	50,000
To president, December 27, 2010	39,062	25,000
To president, January 13, 2011	64,935	50,000
To president, January 27, 2011	60,241	50,000
To board member, January 31, 2011	27,778	25,000
To chairman of the board, February 7, 2011	64,935	50,000
To chairman of the board, April 11, 2011	106,383	50,000
To board member, April 29, 2011	33,333	25,000
	618,258	\$ 425,000

These shares have not been registered with the SEC. However, the Company's president, chairman of the board, and additional board member received demand registration rights, subject to certain limitations, and unlimited piggyback registration rights, with respect to the shares. The Company is only obligated to use its best efforts to obtain an effective registration statement.

---

#### **4. Working Capital**

On February 25, 2011, the Company entered into an asset-based line of credit with Summit Financial Resources LP for its accounts receivable. The Company may borrow up to 80% of domestic accounts receivable at a daily interest rate of prime plus 2%, plus a monthly management fee of 1.1% of the borrowed accounts. As of June 30, 2011, the Company owes \$173,900 on the line of credit. Interest expense on these borrowings was \$6,100 for the nine months ended June 30, 2011.

On March 10, 2011, the Company entered an equity line agreement (the Agreement) with Dutchess Opportunity Fund, II, LP (Dutchess). Subject to the terms and conditions of the Agreement, the Company has the right to put, or sell up to \$5.0 million in shares of its common stock to Dutchess. It will not receive any proceeds from the resale of these shares of common stock offered by Dutchess. The Company will, however, receive proceeds from the sale of shares to Dutchess, pursuant to the Agreement. When the Company puts an amount of shares to Dutchess, the per share purchase price that Dutchess will pay to it in respect of such put will be determined in accordance with a formula set forth in the Agreement. Generally, in respect of each put, Dutchess will pay the Company a per share purchase price equal to 95% of the lowest daily volume weighted average price of its common stock during the five consecutive trading day period beginning on the trading day immediately following the date Dutchess receives the put notice.

Dutchess is not obligated to purchase shares if its total number of shares beneficially held at that time would exceed 4.99% of the number of shares of the Company's outstanding common stock as determined in accordance with Rule 13d-1 of the Securities Exchange Act of 1934, as amended. In addition, the Company is not permitted to draw on the facility unless there is an effective registration statement to cover the resale of the shares.

Pursuant to the terms of a Registration Rights Agreement between the Company and Dutchess, the Company was obligated to file a registration statement with the SEC to register the resale by the Investor of 1,740,000 shares of the common stock underlying the Investment Agreement on or before 21 calendar days of the date of the Registration Rights Agreement. The Company filed the required registration statement and it was declared effective on July 14, 2011.

During the nine months ended June 30, 2011, the Company has obtained working capital bridge loans from its president aggregating \$55,000. These loans are non-interest bearing and due on demand.

#### **5. Earnings Per Share**

Basic earnings per share is calculated by dividing net income by the weighted average common shares outstanding during the period. Diluted earnings per share reflects the net incremental shares that would be issued if dilutive outstanding stock options were exercised, using the treasury stock method. In the case of a net loss, no incremental shares would be issued because they are antidilutive. Stock options with exercise prices above the average market price during the period are also antidilutive.

There were 258,000 and 280,000 common stock options outstanding at June 30, 2011 and 2010, respectively. No options were considered in calculating the diluted loss per share for the quarters and nine months ended June 30, 2011 and 2010, as their effect would have been antidilutive. As a result, for the quarters ended June 30, 2011 and 2010, the Company's basic and diluted loss per share are the same.

## **6. Subsequent Events**

The Company raised \$50,000 through two private placements to the Company's chairman of the board and another board member during July 2011 (46,296 shares for \$25,000 and 48,077 shares for \$25,000). These shares have not been registered with the SEC. However, the Company's chairman of the board and the board member received demand registration rights, subject to certain limitations, and unlimited piggyback registration rights, with respect to the shares. The Company is only obligated to use its best efforts to obtain an effective registration statement.

On July 12, 2011, the president loaned the Company \$35,000 for working capital until it can raise more funds through the sale of shares to non-related parties.

---

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion of our financial condition and results of operations should be read in conjunction with the accompanying unaudited interim financial statements and notes to those statements included elsewhere in this Quarterly Report on Form 10-Q as of June 30, 2011 and our audited consolidated financial statements for the year ended September 30, 2010 included in our Annual Report on Form 10-K, that was filed with the Securities and Exchange Commission on December 27, 2010.*

*This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this report, the words expects, anticipates, suggests, believes, intends, estimates, plans, continue, ongoing, potential, expect, predict, believe, intend, may, will, should, could, would are intended to identify forward-looking statements.*

*Forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to the risks described in our Annual Report on Form 10-K including but not limited to: operating results, new product introductions and sales, competitive conditions, customer demand, capital expenditures and resources, manufacturing capacity utilization, and intellectual property claims and defense. These forward-looking statements speak only as of the date hereof. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based, except as required by law.*

## **Overview**

We develop and market high-speed digital integrated circuits that perform high-density storage and signal/image processing functions. Our products enable high definition video display, transport, editing, composition, and special effects. We also provide solutions for digital filtering in television broadcast stations and image enhancement in medical diagnostic scanning and imaging equipment.

Our products are used in the broadcast, medical, military, and consumer electronics markets. Our products address storage and digital signal processing (DSP) requirements that involve high-performance arithmetic computation. We focus on developing proprietary catalog products to address specific functional application needs or performance levels that are not otherwise commercially available. We seek to provide related groups of circuits that original equipment manufacturers (OEMs) incorporate into high-performance electronic systems.

## ***Results of Operations***

For the quarter ended June 30, 2011, our net revenues increased by \$134,300 (49%) compared to the same quarter of fiscal 2010. This increase was primarily the result of military program orders in fiscal 2011. For the nine months ended June 30, 2011, our net revenues decreased by \$742,900 (39%), which was mainly the result of digital cinema revenues declining compared to fiscal 2010. We are seeing a continuing increase in interest and inquiry regarding our newer products. In addition, bookings and quoting activity for military programs continue to be strong.

Our cost of revenues for the quarter and nine months ended June 30, 2011 decreased \$118,800 (51%) and \$485,100 (53%) respectively compared to the same periods of fiscal 2010. This decrease is the result of reductions in staffing and the reduction in net revenues for the nine-month period.

Research and development expenditures (R&D expenditures) decreased \$276,900 (34%) for the nine-month period ended June 30, 2011 compared to the same period of fiscal 2010, as we reduced staffing. R&D expenditures were consistent in the quarter ended June 30, 2011 compared to June 30, 2010 as the staffing reductions of fiscal 2010 had occurred earlier in the year. In addition, there were higher prototype expenses in the prior fiscal year. Sales, general, and administrative expenditures decreased \$38,500 (14%) and \$98,300 (10%) for the quarter and nine months of fiscal 2011, respectively, compared to the same periods of fiscal 2010. Unfortunately, there are many fixed operating expenses that we cannot reduce any further.

As a result of the similar net revenues being offset by reductions in expenses, we had a reduced net loss of \$119,800 and \$630,800 respectively for the third quarter and nine-month period of fiscal 2011 compared to a net loss of \$404,800 and \$739,600 in the same quarter and nine-month period of fiscal 2010.

---

## ***Liquidity and Capital Resources***

### ***Cash Flows***

A net loss of \$630,800 for the nine months ended June 30, 2011 resulted in our net cash used by operations being \$701,100. We used \$97,000 of cash to increase inventory for new products, \$81,300 on prepaid expenses and deposits to vendors, and \$33,200 to reduce accrued payroll and vacation. During the nine months ended June 30, 2011, we received a total of \$653,900 from financing activities, including: \$425,000 from private placements of our common stock, \$717,600 from bank borrowings, and \$55,000 from a related party note payable, offset by repayments of bank borrowings of \$543,700. During the nine months ended June 30, 2011, we invested \$70,200 and \$108,700 for capital expenditures and capitalized test software development, respectively.

While we had a net loss of \$739,600 for the nine months ended June 30, 2010, our operations used net cash of only \$73,900. Reductions of accounts receivable and inventory produced cash of \$144,200 and \$251,400, respectively, while we used cash of \$48,600 to reduce accrued expenses. During the nine months ended June 30, 2010, we used cash of \$259,500 for capital equipment purchases, mainly for the testing and production of new products, and \$257,600 for capitalized test software development.

### *Working Capital*

Historically, due to order scheduling by our customers, up to 60% of our quarterly revenues are often shipped in the last month of the quarter, so a large portion of shipments included in our quarter-end accounts receivable are not yet due per our net 30 day terms. As a result, quarter-end accounts receivable balances are typically at their highest level for the respective period.

As a fabless semiconductor company with products having longer than normal product life cycles, our investment in inventories has been, and will continue to be, significant. Although high levels of inventory impact liquidity, we believe these costs are a less costly alternative to owning a wafer fabrication facility. Over the past few years, we have attempted to streamline our product offerings, in turn reducing our inventory levels. Going forward, we will need to produce more inventory for new product offerings, while selling off existing inventory. Therefore, our goal is to keep our inventory levels relatively consistent with their current state.

### *Financing*

Cost reductions over the past few years have allowed us to generate enough cash from operations to fund current operations and capital expenditures. As we have multiple new products being introduced, our capital requirements have increased, while cash on-hand and cash from operations is not sufficient to meet these increased demands.

As such, our continuance of operations may depend on raising additional working capital, and on the increase of revenues from new product introductions. Accordingly, these factors raise substantial doubt about the Company's ability to continue as a going concern. While we have established a limited line of credit with a commercial finance company and an equity line with an investment fund, our limited financing, cash on-hand and cash from operations may not be sufficient to meet the increased demands of our market. We have also received working capital bridge loans from our president.

### *Impact of New Financial Accounting Standards*

In January 2010, the Financial Accounting Standards Board issued amended standards that require additional fair value disclosures. These disclosure requirements are effective in two phases. In the first quarter of 2010, we adopted the requirements for disclosures about inputs and valuation techniques used to measure fair value as well as disclosures about significant transfers. During the first quarter of 2011, these amended standards required presentation of disaggregated activity within the reconciliation for fair value measurements using significant unobservable inputs (Level 3). These amended standards did not affect our statements of operations or balance sheets.

---

*Off-Balance Sheet Arrangements*

We currently have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We conduct all of our transactions, including those with foreign suppliers and customers, in U.S. dollars. We are therefore not directly subject to the risks of foreign currency fluctuations and do not hedge or otherwise deal in currency instruments in an attempt to minimize such risks. Demand from foreign customers and the ability or willingness of foreign suppliers to perform their obligations to us may be affected by the relative change in value of such customer or supplier's domestic currency to the value of the U.S. dollar. Furthermore, changes in the relative value of the U.S. dollar may change the price of our products relative to the prices of our foreign competitors.

Item 4. Controls and Procedures

*Evaluation of Effectiveness of Disclosure Controls and Procedures*

Based upon their evaluation as of June 30, 2011, the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective.

*Changes in Internal Control over Financial Reporting*

There have been no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Part II OTHER INFORMATION****Item 1. Legal Proceedings**

We may be involved from time to time in ordinary litigation, negotiation and settlement matters that we believe will not have a material effect on our operations or finances. From time to time, we also receive demands from various parties asserting patent infringement or other claims in the ordinary course of business. These demands are often not based on any specific knowledge of our products or operations. Because of the uncertainties inherent in litigation, the outcome of any such claim, including simply the cost of a successful defense against such a claim, could have a material adverse impact on our business.

We are not aware of any pending or threatened litigation against us or our officers and directors in their capacity as such that could have a material impact on our operations or finances.

**Item 1A. Risk Factors**

There have been no other material changes to the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended September 30, 2010, as filed with the SEC on December 27, 2010.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

During the three months ended June 30, 2011, we raised \$75,000 through two private placements to our chairman of the board and one additional board member for the sale of 139,716 shares of common stock in the aggregate.

<b>Date of Sale</b>	<b>Title</b>	<b>Amount of Securities Sold</b>	<b>Price Per Share</b>	<b>Purchaser</b>	<b>Aggregate Offering Price</b>	<b>Exemption from Securities Claimed</b>
4/11/2011	Common Stock	106,383	\$0.47	Howard L. Farkas	\$50,000.00	Section 4(2)
4/29/2011	Common Stock	33,333	\$0.75	Robert Stanley	\$25,000.00	Section 4(2)
TOTAL	Common Stock	139,716			\$75,000.00	

From June 30, 2011 through July 22, 2011, we raised \$50,000 through two private placements to our chairman of the board and one additional board member for the sale of 94,373 shares of common stock in the aggregate.

<b>Date of Sale</b>	<b>Title</b>	<b>Purchaser</b>
---------------------	--------------	------------------

Edgar Filing: LOGIC DEVICES Inc - Form 10-Q

		<b>Amount of Securities Sold</b>	<b>Price Per Share</b>		<b>Aggregate Offering Price</b>	<b>Exemption from Securities Claimed</b>
7/13/2011	Common Stock	46,296	\$0.54	Robert Stanley	\$25,000.00	Section 4(2)
7/14/2011	Common Stock	48,077	\$0.52	Howard L. Farkas	\$25,000.00	Section 4(2)
TOTAL	Common Stock	94,373			\$50,000.00	

The proceeds from the private placements were used for working capital and to fund operations. These shares have not been registered with the SEC. However, our chairman of the board and the additional board member received demand registration rights, subject to certain limitations, and unlimited piggyback registration rights, with respect to the shares. We are only obligated to use our best efforts to obtain an effective registration statement.

With respect to the sales of our common stock described above, we relied on the Section 4(2) exemption from securities registration under the federal securities laws for transactions not involving any public offering. No advertising or general solicitation was employed in offering the shares. The shares were sold to accredited investors. The securities were offered for investment purposes only and not for the purpose of resale or distribution, and the transfer thereof was appropriately restricted by us.
