and as a recipient of the Edison Electric Institute's Utility of the Year award, PSE is recognized as leading the way in today's changing energy marketplace," said Beltz.

Alliance Data has also gained significant product and industry expertise with the addition of ConsumerLinX to our core service offerings for this industry. We expect to deploy these added capabilities and view them as an additional competitive advantage for us in the marketplace," Beltz added.

William S. Weaver, chairman, president and chief executive officer of Puget Sound Energy, stated that the relationship is equally beneficial for PSE.

By association with a recognized leader in this specialized field, we believe we will be better positioned to extract value from the tremendous functionality of ConsumerLinX and its capabilities of delivering real time energy usage and price information, as well as from the other CIS services. This relationship is in the best interests of Puget Energy shareholders, Puget Sound Energy customers, ConneXt® and Alliance Data Systems.

This multi-year agreement enables PSE to maximize the value from the investment in our technology, and to benefit in the future as Alliance Data leverages the ConneXt® product line with its customer relationship business services," Weaver stated.
