

CITIGROUP INC
Form 10-Q
May 01, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

Commission file number 1-9924

Citigroup Inc.

(Exact name of registrant as specified in its charter)

Delaware

52-1568099

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

388 Greenwich Street, New York, NY

10013

(Address of principal executive offices)

(Zip code)

(212) 559-1000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒	Accelerated filer ☐	Non-accelerated filer ☐ (Do not check if a smaller reporting company)	Smaller reporting company ☐ Emerging growth company ☐
--	---	--	--

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. Yes ☐ No ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

OVERVIEW

This Quarterly Report on Form 10-Q should be read in conjunction with Citigroup's Annual Report on Form 10-K for the year ended December 31, 2017 (2017 Annual Report on Form 10-K).

Additional information about Citigroup is available on Citi's website at www.citigroup.com. Citigroup's annual reports on Form 10-K, quarterly reports on Form 10-Q and proxy statements, as well as other filings with the U.S. Securities and Exchange Commission (SEC), are available free of charge through Citi's website by clicking on the "Investors" page and selecting "All SEC Filings." The SEC's website also contains current reports on Form 8-K, and other information regarding Citi at www.sec.gov.

Certain reclassifications, including a realignment of certain businesses, have been made to the prior periods' financial statements and disclosures to conform to the current period's presentation. For additional information on certain recent reclassifications, see Notes 1 and 3 to the Consolidated Financial Statements below and Notes 1 and 3 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

Throughout this report, "Citigroup," "Citi" and "the Company" refer to Citigroup Inc. and its consolidated subsidiaries.

Citigroup is managed pursuant to two business segments: Global Consumer Banking and Institutional Clients Group, with the remaining operations in Corporate/Other.

The following are the four regions in which Citigroup operates. The regional results are fully reflected in the segment results above.

(1) Latin America GCB consists of Citi's consumer banking business in Mexico.

(2) Asia GCB includes the results of operations of GCB activities in certain EMEA countries for all periods presented.

(3) North America includes the U.S., Canada and Puerto Rico, Latin America includes Mexico and Asia includes Japan.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE SUMMARY

First Quarter of 2018—Balanced Operating Results and Continued Momentum

As described further throughout this Executive Summary, Citi reported balanced operating results in the first quarter of 2018, reflecting continued momentum across businesses and geographies, including many of those areas where Citi has been making investments. During the quarter, Citi had revenue and loan growth in the Institutional Clients Group (ICG) and across products and all three regions in Global Consumer Banking (GCB). Citi also continued to demonstrate expense and credit discipline, resulting in positive operating leverage and an improvement in pre-tax earnings.

In the first quarter of 2018, Citi continued to return capital to shareholders. During the quarter, Citi returned approximately \$3.1 billion in the form of common stock repurchases and dividends and repurchased approximately 30 million common shares as outstanding common shares declined 7% from the prior-year period. Despite the continued progress in improving the capital return for shareholders, each of Citi's key regulatory capital metrics remained strong (see "Capital" below).

While global economic growth has continued and the macroeconomic environment remains positive, there continue to be various economic, political and other risks and uncertainties that could impact Citi's businesses and future results. For a discussion of the risks and uncertainties that could impact Citi's businesses, results of operations and financial condition during 2018, see each respective business's results of operations and "Forward-Looking Statements" below, as well as each respective business's results of operations and the "Managing Global Risk" and "Risk Factors" sections in Citi's 2017 Annual Report on Form 10-K.

First Quarter of 2018 Summary Results

Citigroup

Citigroup reported net income of \$4.6 billion, or \$1.68 per share, compared to net income of \$4.1 billion, or \$1.35 per share, in the prior-year period. The 13% increase in net income was driven by higher revenues and a significantly lower effective tax rate due to the impact of the Tax Cuts and Jobs Act (Tax Reform), partially offset by higher expenses and cost of credit. Earnings per share increased 24% due to the growth in net income and a 7% reduction in average shares outstanding driven by the capital return to common shareholders.

Citigroup revenues of \$18.9 billion in the first quarter of 2018 increased 3%, driven by 7% aggregate growth in GCB and ICG, partially offset by a 51% decrease in Corporate/Other, primarily due to the continued wind-down of legacy assets.

Citigroup's end-of-period loans increased 7% to \$673 billion versus the prior-year period. Excluding the impact of foreign currency translation in U.S. dollars for reporting

purposes (FX translation), Citigroup's end-of-period loans grew 6%, as 7% aggregate growth in GCB and ICG was partially offset by the continued wind-down of legacy assets in Corporate/Other (Citi's results of operations excluding the impact of FX translation are non-GAAP financial measures). Citigroup's end-of-period deposits increased 5% to \$1.0 trillion versus the prior-year period. Excluding the impact of FX translation, Citigroup's deposits were up 3%, driven by a 5% increase in ICG deposits, while GCB deposits were largely unchanged.

Expenses

Citigroup operating expenses increased 2% to \$10.9 billion versus the prior-year period, as the impact of higher volume-related expenses and ongoing investments were offset by efficiency savings and the wind-down of legacy assets. Year-over-year, ICG operating expenses were up 7% and GCB operating expenses increased 5%, while Corporate/Other operating expenses declined 35%, all versus the prior-year period.

Cost of Credit

Citi's total provisions for credit losses and for benefits and claims of \$1.9 billion increased 12% from the prior-year period. The increase was mostly driven by a \$158 million increase in net credit losses, primarily in North America GCB, and a net loan loss reserve release of \$36 million, compared to a net loan loss reserve release of \$77 million in the prior-year period. The increase reflected volume growth and seasoning in the North America cards portfolios, as well as a lower net reserve release in ICG.

Net credit losses of \$1.9 billion increased 9% versus the prior-year period. Consumer net credit losses increased 6% to \$1.8 billion, mostly reflecting volume growth and seasoning in the North America cards portfolios. The increase in consumer net credit losses was partially offset by the continued wind-down of legacy assets in Corporate/Other. Corporate net credit losses increased \$59 million to \$96 million.

For additional information on Citi's consumer and corporate credit costs and allowance for loan losses, see each respective business's results of operations and "Credit Risk" below.

Capital

Citigroup's Common Equity Tier 1 Capital and Tier 1 Capital ratios, on a fully implemented basis, were 12.1% and 13.7% as of March 31, 2018 (based on the Basel III Standardized Approach for determining risk-weighted assets), respectively, compared to 12.8% and 14.5% as of March 31, 2017 (based on the Basel III Advanced Approaches for determining risk-weighted assets). The decline in regulatory capital ratios reflected the return of capital to common shareholders and the previously disclosed approximate \$6 billion reduction in Common Equity Tier 1 (CET1) Capital in the fourth quarter of 2017 due to the impact of Tax Reform, partially offset by net income. Citigroup's Supplementary Leverage ratio as of

March 31, 2018, on a fully implemented basis, was 6.7%, compared to 7.3% as of March 31, 2017. For additional information on Citi's capital ratios and related components, including the impact of Tax Reform on its capital ratios, see "Capital Resources" below.

Global Consumer Banking

GCB net income of \$1.4 billion increased 40%, as higher revenues and a lower effective tax rate were partially offset by higher expenses and higher cost of credit. Operating expenses were \$4.7 billion, up 5%, as higher volume-related expenses and continued investments were partially offset by efficiency savings across all three regions.

GCB revenues of \$8.4 billion increased 7% versus the prior-year period, driven by growth across all regions and the impact of the Hilton portfolio sale in North America Citi-branded cards. The sale resulted in a pre-tax gain of \$150 million, partially offset by the loss of operating revenues, for a net year-over-year benefit of approximately \$120 million. North America GCB revenues increased 4% to \$5.2 billion, driven by higher revenues across all businesses. Citi-branded cards revenues of \$2.2 billion were up 6% versus the prior-year period, driven by the sale of the Hilton portfolio. Excluding Hilton, revenues were roughly flat, as growth in interest-earning balances was mostly offset by higher cost of funds and the impact of additional partnership terms. Citi retail services revenues of \$1.6 billion increased 2% versus the prior-year period, primarily reflecting continued loan growth. Retail banking revenues increased 4% from the prior-year period to \$1.3 billion. Excluding mortgage revenues, retail banking revenues of \$1.2 billion were up 8% from the prior-year period, driven by continued growth in deposit margins, growth in investments and loans and increased commercial banking activity.

North America GCB average deposits of \$181 billion decreased 2% year-over-year, primarily driven by lower mortgage escrow balances as well as a reduction in money market balances, reflecting transfers to investments. North America GCB average retail loans of \$56 billion grew 1% and assets under management of \$61 billion grew 10%. Average Citi-branded card loans of \$87 billion increased 5%, while Citi-branded card purchase sales of \$79 billion increased 8% versus the prior-year period. Average Citi retail services loans of \$47 billion increased 4% versus the prior-year period, while Citi retail services purchase sales of \$17 billion were up 3%. For additional information on the results of operations of North America GCB for the first quarter of 2018, see "Global Consumer Banking—North America GCB" below.

International GCB revenues (consisting of Latin America GCB and Asia GCB (which includes the results of operations in certain EMEA countries)) increased 13% versus the prior-year period to \$3.3 billion. Excluding the impact of FX translation, international GCB revenues increased 8% versus the prior-year period. Latin America GCB revenues increased 8% versus the prior-year period, reflecting growth in cards revenues as well as volume growth across retail loans and deposits and improved deposit spreads. Asia GCB revenues increased 7% (6% excluding a modest one-time gain in the first quarter of 2018) versus the prior-year period, primarily

reflecting an increase in wealth management and cards revenues. For additional information on the results of operations of Latin America GCB and Asia GCB for the first quarter of 2018, including the impact of FX translation, see "Global Consumer Banking—Latin America GCB" and "Global Consumer Banking—Asia GCB" below.

Year-over-year, international GCB average deposits of \$128 billion increased 3%, average retail loans of \$91 billion increased 4%, assets under management of \$103 billion increased 10%, average card loans of \$25 billion increased 4% and card purchase sales of \$26 billion increased 7%, all excluding the impact of FX translation.

Institutional Clients Group

ICG net income of \$3.3 billion increased 11%, driven by higher revenues and a lower effective tax rate, partially offset by higher operating expenses and cost of credit. ICG operating expenses increased 7% to \$5.5 billion, driven by the impact of FX translation and a higher level of investment spending.

ICG revenues were \$9.8 billion in the first quarter of 2018, up 6% from the prior-year period, primarily driven by a 9% increase in Banking revenues and a 3% increase in Markets and securities services. The increase in Banking revenues included the impact of \$23 million of gains on loan hedges within corporate lending, compared to losses of \$115 million in the prior-year period.

Banking revenues of \$4.8 billion (excluding the impact of gains (losses) on loan hedges within corporate lending) increased 6%, driven by solid growth in treasury and trade solutions, private bank and corporate lending, partially offset by lower revenues in investment banking. Investment banking revenues of \$1.1 billion decreased 10% versus the prior-year period, reflecting declines in the overall market wallet and the timing of episodic deal activity. Advisory revenues decreased 14% to \$215 million, equity underwriting revenues decreased 14% to \$216 million and debt underwriting revenues decreased 8% to \$699 million, all versus the prior-year period.

Private bank revenues increased 21% to \$904 million, versus the prior-year period, driven by growth in clients, loans, investments and deposits, as well as improved deposit spreads. Corporate lending revenues increased 68% to \$544 million. Excluding the impact of gains (losses) on loan hedges, corporate lending revenues increased 19% versus the prior-year period, primarily driven by loan growth and lower hedging costs. Treasury and trade solutions revenues of \$2.3 billion increased 8% versus the prior-year period, reflecting volume growth and improved deposit spreads, with growth in both net interest and fee income.

Markets and securities services revenues of \$5.0 billion increased 3% from the prior-year period, as strong revenue growth in equity markets and securities services was partially offset by a decline in fixed income markets revenues. Fixed income markets revenues of \$3.4 billion decreased 7% from the prior-year period, driven by a less favorable environment and lower investor client activity in G10 rates and spread products, partially offset by strong corporate client activity in G10 foreign exchange and local markets rates and currencies. Equity markets revenues of \$1.1 billion increased 38% from the prior-year period, with growth across all products, as

volatility increased and momentum with investor clients continued. Securities services revenues of \$641 million increased 16%, driven by continued growth in client volumes and higher interest revenue. For additional information on the results of operations of ICG for the first quarter of 2018, see “Institutional Clients Group” below.

Corporate/Other

Corporate/Other net loss was \$86 million in the first quarter of 2018, compared to net income of \$97 million in the prior-year period, reflecting lower revenues, partially offset by lower operating expenses. Operating expenses of \$741 million declined 35% from the prior-year period, largely reflecting the wind-down of legacy assets.

Corporate/Other revenues were \$591 million, down 51% from the prior-year period, primarily reflecting the continued wind-down of legacy assets.

For additional information on the results of operations of Corporate/Other for the first quarter of 2018, see “Corporate/Other” below.

(1) The first quarter of 2018 reflects the impact of Tax Reform. For additional information on Tax Reform, including the impact on Citi's fourth quarter and full-year 2017 results, see Citi's 2017 Annual Report on Form 10-K.

(2) See Note 2 to the Consolidated Financial Statements for additional information on Citi's discontinued operations.

The return on average common stockholders' equity is calculated using net income less preferred stock dividends divided by average common stockholders' equity. The return on average total Citigroup stockholders' equity is calculated using net income divided by average Citigroup stockholders' equity.

Citi's reportable Common Equity Tier 1 (CET1) Capital and Tier 1 Capital ratios were the lower derived under the U.S. Basel III Standardized Approach at March 31, 2018, and U.S. Basel III Advanced Approaches at March 31, 2017. Citi's reportable Total Capital ratios were derived under the U.S. Basel III Advanced Approaches for both periods presented. This reflects the U.S. Basel III requirement to report the lower of risk-based capital ratios under both the Standardized Approach and Advanced Approaches in accordance with the Collins Amendment of the Dodd-Frank Act.

(4) Citi's risk-based capital and leverage ratios as of March 31, 2017 are non-GAAP financial measures, which reflect full implementation of regulatory capital adjustments and deductions prior to the effective date of January 1, 2018.

(6) Dividends declared per common share as a percentage of net income per diluted share.

Total common dividends declared plus common stock repurchases as a percentage of net income available to common shareholders. See "Consolidated Statement of Changes in Stockholders' Equity," Note 9 to the Consolidated Financial Statements and "Equity Security Repurchases" below for the component details.

(8)

For information on TBV, see “Capital Resources—Tangible Common Equity, Book Value Per Share, Tangible Book Value Per Share and Returns on Equity” below.

GLOBAL CONSUMER BANKING

Global Consumer Banking (GCB) consists of consumer banking businesses in North America, Latin America (consisting of Citi's consumer banking business in Mexico) and Asia. GCB provides traditional banking services to retail customers through retail banking, including commercial banking, and Citi-branded cards and Citi retail services (for additional information on these businesses, see "Citigroup Segments" above). GCB is focused on its priority markets in the U.S., Mexico and Asia with 2,433 branches in 19 countries and jurisdictions as of March 31, 2018. At March 31, 2018, GCB had approximately \$423 billion in assets and \$314 billion in deposits.

GCB's overall strategy is to leverage Citi's global footprint and be the pre-eminent bank for the emerging affluent and affluent consumers in large urban centers. In credit cards and in certain retail markets, Citi serves customers in a somewhat broader set of segments and geographies.

NORTH AMERICA GCB

North America GCB provides traditional retail banking, including commercial banking, and its Citi-branded cards and Citi retail services card products to retail customers and small to mid-size businesses, as applicable, in the U.S. North America GCB's U.S. cards product portfolio includes its proprietary portfolio (including the Citi Double Cash, Thank You and Value cards) and co-branded cards (including, among others, American Airlines and Costco) within Citi-branded cards as well as its co-brand and private label relationships (including, among others, Sears, The Home Depot, Best Buy and Macy's) within Citi retail services.

As of March 31, 2018, North America GCB's 694 retail bank branches are concentrated in the six key metropolitan areas of New York, Chicago, Miami, Washington, D.C., Los Angeles and San Francisco. Also as of March 31, 2018, North America GCB had approximately 9.1 million retail banking customer accounts, \$55.4 billion in retail banking loans and \$184.3 billion in deposits. In addition, North America GCB had approximately 119.3 million Citi-branded and Citi retail services credit card accounts with \$131.7 billion in outstanding card loan balances.

1Q18 vs. 1Q17

Net income increased 36% due to higher revenues and a lower effective tax rate due to the impact of Tax Reform, partially offset by higher expenses and higher cost of credit.

Revenues increased 4%, reflecting higher revenues across retail banking, Citi retail services and Citi-branded cards, which included the impact of the Hilton portfolio sale (see below).

Retail banking revenues increased 4%. Excluding mortgage revenues (decline of 18%), retail banking revenues were up 8%, driven by continued growth in deposit margins, growth in both assets under management (up 10%) and average loans (up 1%), as well as increased commercial banking activity. The decline in mortgage revenues was driven by lower origination activity and higher cost of funds reflecting the higher interest rate environment.

Cards revenues increased 4%. In Citi-branded cards, revenues increased 6%, driven by the impact of the Hilton portfolio sale, which resulted in a gain of approximately \$150 million in the first quarter of 2018, partially offset by the loss of operating revenues, for a net year-over-year benefit of approximately \$120 million. Excluding Hilton, revenues were largely unchanged, as growth in interest-earning balances was offset by higher cost of funds and the impact of additional partnership terms. Average loans increased 5% and purchase sales increased 8%.

Citi retail services revenues increased 2%, reflecting continued loan growth. Average loans increased 4% and purchase sales increased 3%.

Expenses increased 2%, as higher volume-related expenses and continued investments were partially offset by efficiency savings.

Provisions increased 5% from the prior-year period, driven by higher net credit losses, partially offset by a lower net loan loss reserve build.

Net credit losses increased 9% to \$1.3 billion, largely driven by higher net credit losses in Citi-branded cards (up 3% to \$651 million) and Citi retail services (up 16% to \$602 million). The increase in net credit losses primarily reflected volume growth and seasoning in both cards portfolios as well as an increase in net flow rates in later delinquency buckets versus the prior-year period, primarily in Citi retail services.

The net loan loss reserve build in the first quarter of 2018 was \$119 million (compared to a build of \$159 million in the prior-year period), as volume growth and seasoning in both cards portfolios were partially offset by a loan loss reserve release in the commercial portfolio.

For additional information on North America GCB's retail banking, including commercial banking, and its Citi-branded cards and Citi retail services portfolios, see "Credit Risk—Consumer Credit" below.

LATIN AMERICA GCB

Latin America GCB provides traditional retail banking, including commercial banking, and its Citi-branded card products to retail customers and small to mid-size businesses in Mexico through Citibanamex, one of Mexico's largest banks.

At March 31, 2018, Latin America GCB had 1,462 retail branches in Mexico, with approximately 28.2 million retail banking customer accounts, \$21.2 billion in retail banking loans and \$29.6 billion in deposits. In addition, the business had approximately 5.7 million Citi-branded card accounts with \$5.7 billion in outstanding loan balances.

NM Not meaningful

The discussion of the results of operations for Latin America GCB below excludes the impact of FX translation for all periods presented. Presentations of the results of operations, excluding the impact of FX translation, are non-GAAP financial measures. For a reconciliation of certain of these metrics to the reported results, see the table above.

1Q18 vs. 1Q17

Net income increased 24%, reflecting higher revenues and a lower effective tax rate as a result of Tax Reform, partially offset by higher expenses and cost of credit.

Revenues increased 8%, driven by higher revenues in both retail banking and cards.

Retail banking revenues increased 7%, reflecting continued growth in volumes (average loans up 5% and average deposits up 6%), largely driven by the commercial banking business and mortgages, as well as improved deposit spreads, driven by higher interest rates. Cards revenues increased 13%, reflecting continued growth in purchase sales (up 10%) and full-rate revolving loans, as well as favorable comparisons to the first quarter of 2017. Average card loans grew 8%.

Expenses increased 8%, as ongoing investment spending and business growth were partially offset by efficiency savings.

Provisions increased 11%, primarily driven by a higher net loan loss reserve build (\$43 million), largely reflecting volume growth and seasoning.

For additional information on Latin America GCB's retail banking, including commercial banking, and its Citi-branded cards portfolios, see "Credit Risk—Consumer Credit" below.

ASIA GCB

Asia GCB provides traditional retail banking, including commercial banking, and its Citi-branded card products to retail customers and small to mid-size businesses, as applicable. During the first quarter of 2018, Citi's most significant revenues in the region were from Singapore, Hong Kong, Korea, India, Australia, Taiwan, Philippines, Thailand, Indonesia and Malaysia. Included within Asia GCB, traditional retail banking and Citi-branded card products are also provided to retail customers in certain EMEA countries, primarily Poland, Russia and the United Arab Emirates. At March 31, 2018, on a combined basis, the businesses had 277 retail branches, approximately 15.9 million retail banking customer accounts, \$70.8 billion in retail banking loans and \$100.5 billion in deposits. In addition, the businesses had approximately 16.2 million Citi-branded card accounts with \$19.2 billion in outstanding loan balances.

1Q18 vs. 1Q17

Net income increased 46%, reflecting higher revenues, a lower effective tax rate as a result of Tax Reform and lower cost of credit, partially offset by higher expenses.

Revenues increased 7%, driven by solid growth in both retail banking and cards.

Retail banking revenues increased 8%, reflecting strong growth in wealth management and a modest one-time gain.

Excluding the gain, retail banking revenues grew 6%. Wealth management revenues increased due to continued improvement in investor sentiment, stronger equity markets and increases in assets under management (14%) and investment sales (32%). Average deposits increased 2%. Retail lending revenues modestly improved (up 1%), as an increase in volumes (average loans up 3%) was largely offset by spread compression.

Cards revenues increased 5%, reflecting 3% growth in average loans and 7% growth in purchase sales, both of which benefited from the previously disclosed portfolio acquisition in Australia in the first quarter of 2017.

Expenses increased 3%, resulting from volume growth and ongoing investment spending, partially offset by efficiency savings.

Provisions decreased 20%, primarily driven by a net loan loss reserve release compared to a net loan loss reserve build in the prior-year period. Overall credit quality continued to remain stable in the region.

For additional information on Asia GCB's retail banking, including commercial banking, and its Citi-branded cards portfolios, see "Credit Risk—Consumer Credit" below.

INSTITUTIONAL CLIENTS GROUP

Institutional Clients Group (ICG) includes Banking and Markets and securities services (for additional information on these businesses, see “Citigroup Segments” above). ICG provides corporate, institutional, public sector and high-net-worth clients around the world with a full range of wholesale banking products and services, including fixed income and equity sales and trading, foreign exchange, prime brokerage, derivative services, equity and fixed income research, corporate lending, investment banking and advisory services, private banking, cash management, trade finance and securities services. ICG transacts with clients in both cash instruments and derivatives, including fixed income, foreign currency, equity and commodity products.

ICG revenue is generated primarily from fees and spreads associated with these activities. ICG earns fee income for assisting clients with transactional services and clearing, providing brokerage and investment banking services and other such activities. Such fees are recognized at the point in time when Citigroup’s performance under the terms of a contractual arrangement is completed, which is typically at the trade/execution date or closing of a transaction.

Revenue generated from these activities is recorded in Commissions and fees and Investment banking. Revenue is also generated from assets under custody and administration which is recognized as/when the associated promised service is satisfied, which normally occurs at the point in time the service is requested by the customer and provided by Citi. Revenue generated from these activities is primarily recorded in Administration and other fiduciary fees. For additional information on these various types of revenues, see Note 5 to the Consolidated Financial Statements.

In addition, as a market maker, ICG facilitates transactions, including holding product inventory to meet client demand, and earns the differential between the price at which it buys and sells the products. These price differentials and the unrealized gains and losses on the inventory are recorded in Principal transactions (for additional information on Principal transactions revenue, see Note 6 to the Consolidated Financial Statements). Other primarily includes mark-to-market gains and losses on certain credit derivatives, gains and losses on available-for-sale (AFS) debt securities, gains and losses on equity securities not held in trading accounts, and other non-recurring gains and losses. Interest income earned on assets held, less interest paid to customers on deposits and long- and short-term debt, is recorded as Net interest revenue.

The amount and types of Markets revenues are impacted by a variety of interrelated factors, including market liquidity; changes in market variables such as interest rates, foreign exchange rates, equity prices, commodity prices and credit spreads, as well as their implied volatilities; investor confidence; and other macroeconomic conditions. Assuming all other market conditions do not change, increases in client activity levels or bid/offer spreads generally result in increases in revenues. However, changes in market conditions can significantly impact client activity levels, bid/offer spreads and the fair value of product inventory. For example, a decrease in market liquidity may increase bid/offer spreads, decrease client activity levels and widen credit spreads on product inventory positions.

ICG’s management of the Markets businesses involves daily monitoring and evaluating of the above factors at the trading desk as well as the country level. ICG does not separately track the impact on total Markets revenues of the volume of transactions, bid/offer spreads, fair value changes of product inventory positions and economic hedges because, as noted above, these components are interrelated and are not deemed useful or necessary individually to manage the Markets businesses at an aggregate level.

In the Markets businesses, client revenues are those revenues directly attributable to client transactions at the time of inception, including commissions, interest or fees earned. Client revenues do not include the results of client facilitation activities (for example, holding product inventory in anticipation of client demand) or the results of certain economic hedging activities.

ICG’s international presence is supported by trading floors in approximately 80 countries and a proprietary network in 98 countries and jurisdictions. At March 31, 2018, ICG had approximately \$1.4 trillion of assets and \$666 billion of deposits, while two of its businesses—securities services and issuer services—managed approximately \$17.7 trillion of assets under custody compared to \$15.9 trillion at the end of the prior-year period.

Credit derivatives are used to economically hedge a portion of the corporate loan portfolio that includes both accrual loans and loans at fair value. Gains (losses) on loan hedges include the mark-to-market on the credit

(1) derivatives and the mark-to-market on the loans in the portfolio that are at fair value. The fixed premium costs of these hedges are netted against the corporate lending revenues to reflect the cost of credit protection. Citigroup's results of operations excluding the impact of gains (losses) on loan hedges are non-GAAP financial measures.

(2) Excludes principal transactions revenues of ICG businesses other than Markets, primarily treasury and trade solutions and the private bank.

NM Not meaningful

1Q18 vs. 1Q17

Net income increased 11%, driven by higher revenues and a lower effective tax rate due to the impact of Tax Reform, partially offset by higher expenses and cost of credit.

Revenues increased 6%, driven by higher revenues in Banking (increase of 9%; increase of 6% excluding gains (losses) on loan hedges) and higher revenues in Markets

and securities services (increase of 3%). The increase in Banking revenues was driven by continued strong momentum and performance in treasury and trade solutions, private bank and corporate lending, partially offset by investment banking. Markets and securities services revenues reflected solid growth in equity markets and securities services, partially offset by a decline in fixed income markets. Citi expects Markets and securities services revenues will likely continue to reflect the overall

market environment during the remainder of 2018, including a normal seasonal decline sequentially in the second quarter of 2018.

Within Banking:

Investment banking revenues declined 10%, driven by a decline in overall market wallet from the prior-year period, particularly in North America. Advisory and equity underwriting revenues both declined 14% versus the prior-year period, reflecting the decline in market wallet as well as timing of episodic deal activity. Debt underwriting revenues decreased 8% due to a decline in market wallet and wallet share.

Treasury and trade solutions revenues increased 8%, reflecting strong growth across both net interest and fee income. Excluding the impact of FX translation, revenues increased 6%, primarily reflecting strength in EMEA and Asia. Revenue growth in the cash business was primarily driven by higher transaction volumes from both new and existing clients, continued growth in deposit balances and improved deposit spreads across most regions. Growth in the trade business was driven by episodic fees and continued focus on high-quality loan growth, but was partially offset by industry-wide tightening of loan spreads. Average deposit balances increased 6% (3% excluding the impact of FX translation). Average loans increased 10% (7% excluding the impact of FX translation), driven by strong loan growth in Asia and EMEA.

Corporate lending revenues increased from \$323 million to \$544 million. Excluding the impact of gains/losses on loan hedges, revenues increased 19% versus the prior-year period. The increase in revenues was driven by lower hedging costs and higher loan volumes. Average loans increased 11% versus the prior-year period.

Private bank revenues increased 21%, driven by strong momentum in client activity across all products and regions. Revenue growth reflected higher loan and deposit volumes, higher deposit spreads, higher managed investments revenues and increased capital markets activity.

Within Markets and securities services:

Fixed income markets revenues decreased 7%, primarily due to lower revenues in North America. The decline in revenues was largely driven by lower net interest revenue (decrease of 24%) in both rates and currencies and spread products, mainly due to a change in the mix of trading positions in support of client activity as well as higher funding costs, given the higher interest rate environment. The decline in revenues was also due to lower principal transactions revenues (decrease of 7%), reflecting lower investor client activity in a less favorable and more volatile market environment than the prior-year period, particularly in G10 rates and spread products in March.

Rates and currencies revenues decreased 2%, driven by lower G10 rates revenues due to the lower investor client activity and a less favorable trading environment in

North America, and the comparison to a strong prior-year period in EMEA. The decline in G10 rates was largely offset by an increase in G10 foreign exchange revenues that benefited from the return of volatility in the currency markets as well as strong corporate client activity in both G10 foreign exchange and local markets rates and currencies.

Spread products and other fixed income revenues decreased 17%, primarily driven by lower revenues in credit markets in North America and EMEA due to lower investor client activity and the comparison to a strong prior-year period. The year-over-year revenue decline was also driven by lower municipal products revenues in North America, largely due to the comparison to a strong prior-year period, where municipals markets recovered post U.S. elections. Equity markets revenues increased 38%, with growth across all products, reflecting strength in Asia, North America and EMEA, given the favorable operating environment with higher volatility and increased client activity, particularly with investor clients. Equity derivatives revenues increased across all regions, benefiting from both improved overall market conditions and continued client momentum, in line with the business' investment strategy. The increase in equity markets revenues was also driven by growth in cash equities and higher balances in prime finance. Principal transactions revenues increased, reflecting client facilitation gains in the favorable trading environment.

Securities services revenues increased 16%, reflecting particular strength in EMEA and Asia. The increase in revenues was driven by growth in fee revenues from higher assets under custody and increased client activity, as well as higher net interest revenue driven by higher deposit volume and higher interest rates.

Expenses increased 7%, largely driven by the impact of FX translation and a higher level of investment spending. Provisions increased \$164 million to a benefit of \$41 million, primarily due to lower releases in the current period and higher net credit losses (\$105 million in 2018, compared to \$25 million in 2017). Net credit losses in 2018 were largely offset by previously established loan loss reserves, due to the continued stability in commodities prices and net ratings upgrades.

CORPORATE/OTHER

Corporate/Other includes certain unallocated costs of global staff functions (including finance, risk, human resources, legal and compliance), other corporate expenses and unallocated global operations and technology expenses, Corporate Treasury, certain North America and international legacy consumer loan portfolios, other legacy assets and discontinued operations (for additional information on Corporate/Other, see “Citigroup Segments” above). At March 31, 2018, Corporate/Other had \$92 billion in assets, a decrease of 4% year-over-year.

In millions of dollars	First Quarter		% Change
	2018	2017	
Net interest revenue	\$538	\$558	(4)%
Non-interest revenue	53	643	(92)
Total revenues, net of interest expense	\$591	\$1,201	(51)%
Total operating expenses	\$741	\$1,134	(35)%
Net credit losses	\$26	\$81	(68)%
Credit reserve build (release)	(33)	(35)	6
Provision (release) for unfunded lending commitments	—	1	(100)
Provision for benefits and claims	—	5	(100)
Provisions for credit losses and for benefits and claims	\$(7)	\$52	NM
Income (loss) from continuing operations before taxes	\$(143)	\$15	NM
Income taxes (benefits)	(69)	(94)	27
Income (loss) from continuing operations	\$(74)	\$109	NM
Income (loss) from discontinued operations, net of taxes	(7)	(18)	61
Net income (loss) before attribution of noncontrolling interests	\$(81)	\$91	NM
Noncontrolling interests	5	(6)	NM
Net income (loss)	\$(86)	\$97	NM

1Q18 vs. 1Q17

The net loss was \$86 million, compared to net income of \$97 million in the prior-year period, due to lower revenues, partially offset by lower expenses.

Revenues decreased 51%, driven by the continued wind-down of legacy assets.

Expenses decreased 35%, primarily driven by the wind-down of legacy assets and lower legal and related expenses.

Citi expects that revenues and expenses in Corporate/Other should continue to decline with the ongoing wind-down of legacy assets during the remainder of 2018.

Provisions decreased \$59 million to a net benefit of \$7 million, primarily due to lower net credit losses. Net credit losses declined 68% to \$26 million, primarily reflecting the impact of ongoing divestiture activity.

OFF-BALANCE SHEET ARRANGEMENTS

The table below shows where a discussion of Citi's various off-balance sheet arrangements in this Form 10-Q may be found. For additional information, see "Off-Balance Sheet Arrangements" and Notes 1, 21 and 26 to the Consolidated Financial Statements in Citigroup's 2017 Annual Report on Form 10-K.

CAPITAL RESOURCES

Overview

Capital is used principally to support assets in Citi's businesses and to absorb credit, market and operational losses. Citi primarily generates capital through earnings from its operating businesses. Citi may augment its capital through issuances of common stock, noncumulative perpetual preferred stock and equity issued through awards under employee benefit plans, among other issuances.

Further, Citi's capital levels may also be affected by changes in accounting and regulatory standards, as well as U.S. corporate tax laws and the impact of future events on Citi's business results, such as changes in interest and foreign exchange rates, as well as business and asset dispositions.

During the first quarter of 2018, Citi returned a total of \$3.1 billion of capital to common shareholders in the form of share repurchases (approximately 30 million common shares) and dividends.

Capital Management

Citi's capital management framework is designed to ensure that Citigroup and its principal subsidiaries maintain sufficient capital consistent with each entity's respective risk profile, management targets and all applicable regulatory standards and guidelines. Based on Citigroup's current regulatory capital requirements, as well as consideration of potential future changes to the U.S. Basel III rules, management currently believes that a targeted Common Equity Tier 1 Capital ratio of approximately 11.5% represents the amount necessary to prudently operate and invest in Citi's franchise, including when considering future growth plans, capital return projections and other factors that may impact Citi's businesses. However, management may revise Citigroup's targeted Common Equity Tier 1 Capital ratio in response to changing regulatory capital requirements as well as other relevant factors. For additional information regarding Citi's capital management, see "Capital Resources—Capital Management" in Citigroup's 2017 Annual Report on Form 10-K.

Stress Testing Component of Capital Planning

Citi is subject to an annual assessment by the Federal Reserve Board as to whether Citigroup has effective capital planning processes as well as sufficient regulatory capital to absorb losses during stressful economic and financial conditions, while also meeting obligations to creditors and counterparties and continuing to serve as a credit intermediary. This annual assessment includes two related programs: the Comprehensive Capital Analysis and Review (CCAR) and Dodd-Frank Act Stress Testing (DFAST). For additional information regarding the stress testing component of capital planning, including a recent proposed rulemaking and other potential changes in Citi's regulatory capital requirements and future CCAR processes, see "Regulatory Capital Standards Developments" and

"Forward-Looking Statements" below and "Capital Resources—Current Regulatory Capital Standards—Stress Testing Component of Capital Planning" and "Risk Factors—Strategic Risks" in Citigroup's 2017 Annual Report on Form 10-K.

Current Regulatory Capital Standards

Citi is subject to regulatory capital standards issued by the Federal Reserve Board, which constitute the U.S. Basel III rules. These rules establish an integrated capital adequacy framework, encompassing both risk-based capital ratios and leverage ratios. For additional information regarding the risk-based capital ratios, Tier 1 Leverage ratio and Supplementary Leverage ratio, see "Capital Resources—Current Regulatory Capital Standards" in Citigroup's 2017 Annual Report on Form 10-K. For additional information regarding a recent proposed rulemaking that would modify the enhanced Supplementary Leverage ratio standards applicable to U.S. bank holding companies that are identified as global systemically important bank holding companies (GSIBs) and certain of their insured depository institution subsidiaries, see "Regulatory Capital Standards Developments" below.

GSIB Surcharge

The Federal Reserve Board also adopted a rule that imposes a risk-based capital surcharge upon U.S. GSIBs, including Citi. Citi's GSIB surcharge effective for 2018 remains unchanged from 2017 at 3.0%. For additional

information regarding the identification of a GSIB and the methodology for annually determining the GSIB surcharge, see “Capital Resources—Current Regulatory Capital Standards—GSIB Surcharge” in Citigroup’s 2017 Annual Report on Form 10-K.

Transition Provisions

The U.S. Basel III rules contain several differing, largely multi-year transition provisions (i.e., “phase-ins” and “phase-outs”). Moreover, the GSIB surcharge, Capital Conservation Buffer, and any Countercyclical Capital Buffer (currently 0%), commenced phase-in on January 1, 2016, becoming fully effective on January 1, 2019. With the exception of the non-grandfathered trust preferred securities, which do not fully phase-out until January 1, 2022, and the capital buffers and GSIB surcharge, which do not fully phase-in until January 1, 2019, all other transition provisions are entirely reflected in Citi’s regulatory capital ratios beginning January 1, 2018. Accordingly, commencing with the first quarter of 2018, Citi is presenting a single set of regulatory capital components and ratios, reflecting current regulatory capital standards in effect throughout 2018. Citi previously disclosed its Basel III risk-based capital and leverage ratios and related components reflecting Basel III Transition Arrangements with respect to regulatory capital adjustments and deductions, as well as Full Implementation, in Citi’s 2017

Annual Report on Form 10-K and Quarterly Reports on Form 10-Q; however, beginning January 1, 2018, that distinction is no longer relevant.

For additional information regarding the transition provisions under the U.S. Basel III rules, including with respect to the GSIB surcharge, see “Capital Resources—Current Regulatory Capital Standards—Transition Provisions” in Citigroup’s 2017 Annual Report on Form 10-K. For information regarding Citigroup’s capital resources reflecting Basel III Transition Arrangements as of December 31, 2017, see “Capital Resources—Current Regulatory Capital Standards—Citigroup’s Capital Resources Under Current Regulatory Standards” in Citigroup’s 2017 Annual Report on Form 10-K.

Citigroup’s Capital Resources

Citi is required to maintain stated minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios of 4.5%, 6.0% and 8.0%, respectively.

Citi’s effective minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios during 2018, inclusive of the 75% phase-in of both the 2.5% Capital Conservation Buffer and the 3.0% GSIB surcharge (all of which is to be composed of Common Equity Tier 1 Capital), are 8.625%, 10.125% and 12.125%, respectively. Citi’s effective minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios during 2017,

inclusive of the 50% phase-in of both the 2.5% Capital Conservation Buffer and the 3.0% GSIB surcharge (all of which is to be composed of Common Equity Tier 1 Capital), were 7.25%, 8.75% and 10.75%, respectively.

Citi currently estimates that its effective minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratio requirements during 2019, inclusive of the 2.5% Capital Conservation Buffer and the Countercyclical Capital Buffer at its current level of 0%, as well as a 3.0% GSIB surcharge, may be 10.0%, 11.5% and 13.5%, respectively. Furthermore, to be “well capitalized” under current federal bank regulatory agency definitions, a bank holding company must have a Tier 1 Capital ratio of at least 6.0%, a Total Capital ratio of at least 10.0%, and not be subject to a Federal Reserve Board directive to maintain higher capital levels.

Under the U.S. Basel III rules, Citi must comply with a 4.0% minimum Tier 1 Leverage ratio requirement. Effective January 1, 2018, Citi must also comply with an effective 5.0% minimum Supplementary Leverage ratio requirement. The following tables set forth the capital tiers, total risk-weighted assets and underlying risk components, risk-based capital ratios, quarterly adjusted average total assets, Total Leverage Exposure and leverage ratios for Citi as of March 31, 2018 and December 31, 2017.

Citigroup Capital Components and Ratios

In millions of dollars, except ratios	March 31, 2018		December 31, 2017	
	Advanced Approaches	Standardized Approach	Advanced Approaches	Standardized Approach
Common Equity Tier 1 Capital	\$144,128	\$144,128	\$142,822	\$142,822
Tier 1 Capital	163,490	163,490	162,377	162,377
Total Capital (Tier 1 Capital + Tier 2 Capital)	188,668	200,892	187,877	199,989
Total Risk-Weighted Assets	1,178,127	1,195,981	1,152,644	1,155,099
Credit Risk	\$790,466	\$1,125,602	\$767,102	\$1,089,372
Market Risk	69,577	70,379	65,003	65,727
Operational Risk	318,084	—	320,539	—
Common Equity Tier 1 Capital ratio ⁽¹⁾⁽²⁾	12.23	% 12.05	% 12.39	% 12.36
Tier 1 Capital ratio ⁽¹⁾⁽²⁾	13.88	13.67	14.09	14.06
Total Capital ratio ⁽¹⁾⁽²⁾	16.01	16.80	16.30	17.31
In millions of dollars, except ratios	March 31, 2018	December 31, 2017		
Quarterly Adjusted Average Total Assets ⁽³⁾	\$1,862,802	\$1,868,326		
Total Leverage Exposure ⁽⁴⁾	2,436,817	2,432,491		

Edgar Filing: CITIGROUP INC - Form 10-Q

Tier 1 Leverage ratio ⁽²⁾	8.78	%	8.69	%
Supplementary Leverage ratio ⁽²⁾	6.71		6.68	

As of March 31, 2018 and December 31, 2017, Citi's reportable Common Equity Tier 1 Capital and Tier 1 Capital (1) ratios were the lower derived under the Basel III Standardized Approach, whereas the reportable Total Capital ratio was the lower derived under the Basel III Advanced Approaches framework.

Citi's risk-based capital and leverage ratios and related components as of December 31, 2017 are non-GAAP (2) financial measures, which reflect full implementation of regulatory capital adjustments and deductions prior to the effective date of January 1, 2018.

(3) Tier 1 Leverage ratio denominator.

(4) Supplementary Leverage ratio denominator.

As indicated in the table above, Citigroup's risk-based capital ratios at March 31, 2018 were in excess of the stated and effective minimum requirements under the U.S. Basel III rules. In addition, Citi was also "well capitalized" under current federal bank regulatory agency definitions as of March 31, 2018.

Common Equity Tier 1 Capital Ratio

Citi's Common Equity Tier 1 Capital ratio was 12.1% at March 31, 2018, compared to 12.4% at December 31, 2017. The quarter-over-quarter decline in the ratio was primarily due to an increase in credit risk-weighted assets driven by loan growth and client activity, as well as the return of \$3.1 billion of capital to common shareholders, partially offset by quarterly net income of \$4.6 billion.

Components of Citigroup Capital

In millions of dollars	March 31, December 2018 31, 2017	
Common Equity Tier 1 Capital		
Citigroup common stockholders' equity ⁽¹⁾	\$182,943	\$181,671
Add: Qualifying noncontrolling interests	140	153
Regulatory Capital Adjustments and Deductions:		
Less: Accumulated net unrealized losses on cash flow hedges, net of tax ⁽²⁾	(920)	(698)
Less: Cumulative unrealized net loss related to changes in fair value of financial liabilities attributable to own creditworthiness, net of tax ⁽³⁾	(498)	(721)
Less: Intangible assets:		
Goodwill, net of related DTLs ⁽⁴⁾	22,482	22,052
Identifiable intangible assets other than MSRs, net of related DTLs	4,209	4,401
Less: Defined benefit pension plan net assets	871	896
Less: DTAs arising from net operating loss, foreign tax credit and general business credit carry-forwards ⁽⁵⁾	12,811	13,072
Total Common Equity Tier 1 Capital (Standardized Approach and Advanced Approaches)	\$144,128	\$142,822
Additional Tier 1 Capital		
Qualifying noncumulative perpetual preferred stock ⁽¹⁾	\$18,972	\$19,069
Qualifying trust preferred securities ⁽⁶⁾	1,379	1,377
Qualifying noncontrolling interests	59	61
Regulatory Capital Deductions:		
Less: Permitted ownership interests in covered funds ⁽⁷⁾	997	900
Less: Minimum regulatory capital requirements of insurance underwriting subsidiaries ⁽⁸⁾	51	52
Total Additional Tier 1 Capital (Standardized Approach and Advanced Approaches)	\$19,362	\$19,555
Total Tier 1 Capital (Common Equity Tier 1 Capital + Additional Tier 1 Capital) (Standardized Approach and Advanced Approaches)	\$163,490	\$162,377
Tier 2 Capital		
Qualifying subordinated debt	\$23,430	\$23,673
Qualifying trust preferred securities ⁽⁹⁾	334	329
Qualifying noncontrolling interests	51	50
Eligible allowance for credit losses ⁽¹⁰⁾	13,638	13,612
Regulatory Capital Deduction:		
Less: Minimum regulatory capital requirements of insurance underwriting subsidiaries ⁽⁸⁾	51	52
Total Tier 2 Capital (Standardized Approach)	\$37,402	\$37,612
Total Capital (Tier 1 Capital + Tier 2 Capital) (Standardized Approach)	\$200,892	\$199,989
Adjustment for excess of eligible credit reserves over expected credit losses ⁽¹⁰⁾	\$(12,224)	\$(12,112)
Total Tier 2 Capital (Advanced Approaches)	\$25,178	\$25,500
Total Capital (Tier 1 Capital + Tier 2 Capital) (Advanced Approaches)	\$188,668	\$187,877

Issuance costs of \$184 million related to noncumulative perpetual preferred stock outstanding at March 31, 2018 and December 31, 2017 are excluded from common stockholders' equity and netted against such preferred stock in accordance with Federal Reserve Board regulatory reporting requirements, which differ from those under U.S. GAAP.

(1) Common Equity Tier 1 Capital is adjusted for accumulated net unrealized gains (losses) on cash flow hedges included in AOCI that relate to the hedging of items not recognized at fair value on the balance sheet.

(2) The cumulative impact of changes in Citigroup's own creditworthiness in valuing liabilities for which the fair value option has been elected, and own-credit valuation adjustments on derivatives, are excluded from Common Equity

Tier 1 Capital, in accordance with the U.S. Basel III rules.

(4) Includes goodwill “embedded” in the valuation of significant common stock investments in unconsolidated financial institutions.

Footnotes continue on the following page.

- Of Citi's \$23.0 billion of net DTAs at March 31, 2018, \$11.0 billion were includable in Common Equity Tier 1 Capital pursuant to the U.S. Basel III rules, while \$12.0 billion were excluded. Excluded from Citi's Common Equity Tier 1 Capital as of March 31, 2018 was \$12.8 billion of net DTAs arising from net operating loss, foreign tax credit and general business credit carry-forwards, which was reduced by \$0.8 billion of net DTLs primarily associated with goodwill and certain other intangible assets. Separately, under the U.S. Basel III rules, goodwill
- (5) and these other intangible assets are deducted net of associated DTLs in arriving at Common Equity Tier 1 Capital. DTAs arising from net operating loss, foreign tax credit and general business credit carry-forwards are required to be entirely deducted from Common Equity Tier 1 Capital under the U.S. Basel III rules. Commencing with December 31, 2017, Citi's DTAs arising from temporary differences were less than the 10% limitation under the U.S. Basel III rules and therefore not subject to deduction from Common Equity Tier 1 Capital, but are subject to risk-weighting at 250%.
- (6) Represents Citigroup Capital XIII trust preferred securities, which are permanently grandfathered as Tier 1 Capital under the U.S. Basel III rules.
- Banking entities are required to be in compliance with the Volcker Rule of the Dodd-Frank Act, which prohibits conducting certain proprietary investment activities and limits their ownership of, and relationships with, covered
- (7) funds. Accordingly, Citi is required by the Volcker Rule to deduct from Tier 1 Capital all permitted ownership interests in covered funds that were acquired after December 31, 2013.
- (8) 50% of the minimum regulatory capital requirements of insurance underwriting subsidiaries must be deducted from each of Tier 1 Capital and Tier 2 Capital.
- (9) Represents the amount of non-grandfathered trust preferred securities eligible for inclusion in Tier 2 Capital under the U.S. Basel III rules, which will be fully phased-out of Tier 2 Capital by January 1, 2022.
- Under the Standardized Approach, the allowance for credit losses is eligible for inclusion in Tier 2 Capital up to 1.25% of credit risk-weighted assets, with any excess allowance for credit losses being deducted in arriving at credit risk-weighted assets, which differs from the Advanced Approaches framework, in which eligible credit
- (10) reserves that exceed expected credit losses are eligible for inclusion in Tier 2 Capital to the extent the excess reserves do not exceed 0.6% of credit risk-weighted assets. The total amount of eligible credit reserves in excess of expected credit losses that were eligible for inclusion in Tier 2 Capital, subject to limitation, under the Advanced Approaches framework was \$1.4 billion and \$1.5 billion at March 31, 2018 and December 31, 2017, respectively.

Citigroup Capital Rollforward

Citigroup Risk-Weighted Assets Rollforward (Basel III Standardized Approach)

In millions of dollars	Three Months Ended March 31, 2018
Total Risk-Weighted Assets, beginning of period	\$1,155,099
Changes in Credit Risk-Weighted Assets	
Net decrease in general credit risk exposures ⁽¹⁾	(1,252)
Net increase in repo-style transactions ⁽²⁾	8,253
Net increase in securitization exposures	1,827
Net increase in equity exposures	878
Net increase in over-the-counter (OTC) derivatives ⁽³⁾	10,433
Net increase in other exposures ⁽⁴⁾	7,952
Net increase in off-balance sheet exposures ⁽⁵⁾	8,139
Net increase in Credit Risk-Weighted Assets	\$36,230
Changes in Market Risk-Weighted Assets	
Net increase in risk levels ⁽⁶⁾	\$7,232
Net decrease due to model and methodology updates ⁽⁷⁾	(2,580)
Net increase in Market Risk-Weighted Assets	\$4,652
Total Risk-Weighted Assets, end of period	\$1,195,981

General credit risk exposures include cash and balances due from depository institutions, securities, and loans and (1) leases. General credit risk exposures increased during the three months ended March 31, 2018 primarily due to corporate loan growth.

(2) Repo-style transactions include repurchase or reverse repurchase transactions and securities borrowing or securities lending transactions.

(3) OTC derivatives increased during the three months ended March 31, 2018 primarily due to increased notional amounts for bilateral trades resulting from increased seasonal business activity.

Other exposures include cleared transactions, unsettled transactions, and other assets. Other exposures increased (4) during the three months ended March 31, 2018 primarily due to additional DTAs arising from temporary differences, which are subject to risk-weighting at 250%.

(5) Off-balance sheet exposures increased during the three months ended March 31, 2018 primarily due to an increase in commitments to extend credit that will drive future corporate loan growth.

(6) Risk levels increased during the three months ended March 31, 2018 primarily due to increases in exposure levels subject to Stressed Value at Risk and Value at Risk.

(7) Risk-weighted assets declined during the three months ended March 31, 2018 primarily due to methodology changes for standard specific risk charges.

Citigroup Risk-Weighted Assets Rollforward (Basel III Advanced Approaches)

In millions of dollars	Three Months Ended March 31, 2018
Total Risk-Weighted Assets, beginning of period	\$1,152,644
Changes in Credit Risk-Weighted Assets	
Net decrease in retail exposures ⁽¹⁾	(9,405)
Net increase in wholesale exposures ⁽²⁾	9,288
Net increase in repo-style transactions ⁽³⁾	4,189
Net increase in securitization exposures	1,980
Net increase in equity exposures	1,029
Net increase in over-the-counter (OTC) derivatives ⁽⁴⁾	3,047
Net increase in derivatives CVA ⁽⁵⁾	7,120
Net increase in other exposures ⁽⁶⁾	5,196
Net increase in supervisory 6% multiplier ⁽⁷⁾	920
Net increase in Credit Risk-Weighted Assets	\$23,364
Changes in Market Risk-Weighted Assets	
Net increase in risk levels ⁽⁸⁾	\$7,154
Net decrease due to model and methodology updates ⁽⁹⁾	(2,580)
Net increase in Market Risk-Weighted Assets	\$4,574
Net decrease in Operational Risk-Weighted Assets ⁽¹⁰⁾	\$(2,455)
Total Risk-Weighted Assets, end of period	\$1,178,127

(1) Retail exposures decreased during the three months ended March 31, 2018 primarily due to reductions in qualifying revolving (cards) exposures attributable to seasonal holding spending repayments.

(2) Wholesale exposures increased during the three months ended March 31, 2018 primarily due to increases in commercial loans and loan commitments.

(3) Repo-style transactions include repurchase or reverse repurchase transactions and securities borrowing or securities lending transactions.

(4) OTC derivatives increased during the three months ended March 31, 2018 primarily due to increases in notional amounts, potential future exposure and fair value for bilateral trades.

(5) Derivatives CVA increased during the three months ended March 31, 2018 primarily due to increased volatility and exposures.

(6) Other exposures include cleared transactions, unsettled transactions, assets other than those reportable in specific exposure categories and non-material portfolios. Other exposures increased during the three months ended March 31, 2018 primarily due to additional temporary difference deferred tax assets subject to risk weighting.

(7) Supervisory 6% multiplier does not apply to derivatives CVA.

(8) Risk levels increased during the three months ended March 31, 2018 primarily due to increases in exposure levels subject to Stressed Value at Risk and Value at Risk.

(9) Risk-weighted assets declined during the three months ended March 31, 2018 primarily due to methodology changes for standard specific risk charges.

(10) Operational risk-weighted assets decreased during the three months ended March 31, 2018 primarily due to changes in operational loss severity and frequency.

As set forth in the table above, total risk-weighted assets under the Basel III Standardized Approach increased from year-end 2017, substantially due to higher credit risk-weighted assets, primarily resulting from increased OTC derivative trade activity, additional temporary difference deferred tax assets subject to risk weighting and an increase

in corporate loan commitments.

Total risk-weighted assets under the Basel III Advanced Approaches increased from year-end 2017, driven by substantially higher credit risk-weighted assets as well as an increase in market risk-weighted assets, partially offset by a decrease in operational risk-weighted assets. The increase in credit risk-weighted assets was primarily due to changes in OTC derivative trade activity and portfolio credit quality as well as increase in commercial loans and loan commitments, partially offset by a decline in retail exposures due to reductions in qualifying revolving (cards) exposures attributable to seasonal holiday spending repayments. The increase in market risk-weighted assets

was primarily due to increases in exposure levels subject to Stressed Value at Risk and Value at Risk, partially offset by methodology changes for standard specific risk charges. Operational risk-weighted assets decreased from year-end 2017 primarily due to changes in operational loss severity and frequency.

Supplementary Leverage Ratio

As set forth in the table below, Citigroup's Supplementary Leverage ratio was 6.7% for the first quarter of 2018, unchanged from the fourth quarter of 2017, as net income of \$4.6 billion was offset by the return of capital to common shareholders and a slight increase in Total Leverage Exposure.

The following table sets forth Citi's Supplementary Leverage ratio and related components for the three months ended March 31, 2018 and December 31, 2017.

Citigroup Basel III Supplementary Leverage Ratio and Related Components

In millions of dollars, except ratios	March 31, 2018	December 31, 2017
Tier 1 Capital	\$ 163,490	\$ 162,377
Total Leverage Exposure (TLE)		
On-balance sheet assets ⁽¹⁾	\$ 1,904,223	\$ 1,909,699
Certain off-balance sheet exposures: ⁽²⁾		
Potential future exposure on derivative contracts	190,824	191,555
Effective notional of sold credit derivatives, net ⁽³⁾	51,006	59,207
Counterparty credit risk for repo-style transactions ⁽⁴⁾	26,673	27,005
Unconditionally cancellable commitments	68,240	67,644
Other off-balance sheet exposures	237,272	218,754
Total of certain off-balance sheet exposures	\$574,015	\$564,165
Less: Tier 1 Capital deductions	41,421	41,373
Total Leverage Exposure	\$2,436,817	\$2,432,491
Supplementary Leverage ratio	6.71	% 6.68 %

(1) Represents the daily average of on-balance sheet assets for the quarter.

(2) Represents the average of certain off-balance sheet exposures calculated as of the last day of each month in the quarter.

(3) Under the U.S. Basel III rules, banking organizations are required to include in TLE the effective notional amount of sold credit derivatives, with netting of exposures permitted if certain conditions are met.

(4) Repo-style transactions include repurchase or reverse repurchase transactions and securities borrowing or securities lending transactions.

Capital Resources of Citigroup's Subsidiary U.S. Depository Institutions

Citigroup's subsidiary U.S. depository institutions are also subject to regulatory capital standards issued by their respective primary federal bank regulatory agencies, which are similar to the standards of the Federal Reserve Board. During 2018, Citi's primary subsidiary U.S. depository institution, Citibank, N.A. (Citibank), is subject to effective minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios, inclusive of the 75% phase-in of the 2.5% Capital Conservation Buffer, of 6.375%, 7.875% and 9.875%, respectively. Citibank's effective minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios during 2017, inclusive of the 50% phase-in of

the 2.5% Capital Conservation Buffer, were 5.75%, 7.25% and 9.25%, respectively. Citibank is required to maintain stated minimum Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios of 4.5%, 6% and 8%, respectively.

The following tables set forth the capital tiers, total risk-weighted assets and underlying risk components, risk-based capital ratios, quarterly adjusted average total assets, Total Leverage Exposure and leverage ratios for Citibank, Citi's primary subsidiary U.S. depository institution, as of March 31, 2018 and December 31, 2017.

Citibank Capital Components and Ratios

	March 31, 2018		December 31, 2017		
In millions of dollars, except ratios	Advanced Approaches	Standardized Approach	Advanced Approaches	Standardized Approach	
Common Equity Tier 1 Capital	\$126,413	\$126,413	\$122,848	\$122,848	
Tier 1 Capital	128,546	128,546	124,952	124,952	
Total Capital (Tier 1 Capital + Tier 2 Capital) ⁽¹⁾	141,702	152,431	138,008	148,946	
Total Risk-Weighted Assets	962,395	1,039,774	965,435	1,024,502	
Credit Risk	\$677,461	\$999,860	\$674,659	\$980,324	
Market Risk	39,328	39,914	43,300	44,178	
Operational Risk	245,606	—	247,476	—	
Common Equity Tier 1 Capital ratio ⁽²⁾⁽³⁾⁽⁴⁾	13.14	% 12.16	% 12.72	% 11.99	%
Tier 1 Capital ratio ⁽²⁾⁽³⁾⁽⁴⁾	13.36	12.36	12.94	12.20	
Total Capital ratio ⁽²⁾⁽³⁾⁽⁴⁾	14.72	14.66	14.29	14.54	
In millions of dollars, except ratios	March 31, 2018	December 31, 2017			
Quarterly Adjusted Average Total Assets ⁽⁵⁾	\$1,386,249	\$1,401,187			
Total Leverage Exposure ⁽⁶⁾	1,897,742	1,900,641			
Tier 1 Leverage ratio ⁽²⁾⁽⁴⁾	9.27	% 8.92	%		
Supplementary Leverage ratio ⁽²⁾⁽⁴⁾	6.77	6.57			

Under the Advanced Approaches framework, eligible credit reserves that exceed expected credit losses are eligible for inclusion in Tier 2 Capital to the extent the excess reserves do not exceed 0.6% of credit risk-weighted assets, (1) which differs from the Standardized Approach in which the allowance for credit losses is eligible for inclusion in Tier 2 Capital up to 1.25% of credit risk-weighted assets, with any excess allowance for credit losses being deducted in arriving at credit risk-weighted assets.

Citibank's risk-based capital and leverage ratios and related components as of December 31, 2017 are non-GAAP (2) financial measures, which reflect full implementation of regulatory capital adjustments and deductions prior to the effective date of January 1, 2018.

As of March 31, 2018, Citibank's reportable Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital ratios were the lower derived under the Basel III Standardized Approach. As of December 31, 2017, Citibank's reportable (3) Common Equity Tier 1 Capital and Tier 1 Capital ratios were the lower derived under the Basel III Standardized Approach, whereas the reportable Total Capital ratio was the lower derived under the Basel III Advanced Approaches framework.

- Citibank must maintain minimum Common Equity Tier 1 Capital, Tier 1 Capital, Total Capital and Tier 1 Leverage ratios of 6.5%, 8.0%, 10.0% and 5.0%, respectively, to be considered “well capitalized” under the revised Prompt Corrective Action (PCA) regulations applicable to insured depository institutions as established by the U.S. Basel III rules. Effective January 1, 2018, Citibank must also maintain a minimum Supplementary Leverage ratio of 6.0% to be considered “well capitalized.” For additional information, see “Capital Resources—Current Regulatory Capital Standards—Prompt Corrective Action Framework” in Citigroup’s 2017 Annual Report on Form 10-K.
- (4) Basel III rules. Effective January 1, 2018, Citibank must also maintain a minimum Supplementary Leverage ratio of 6.0% to be considered “well capitalized.” For additional information, see “Capital Resources—Current Regulatory Capital Standards—Prompt Corrective Action Framework” in Citigroup’s 2017 Annual Report on Form 10-K.
 - (5) Tier 1 Leverage ratio denominator.
 - (6) Supplementary Leverage ratio denominator.

As indicated in the table above, Citibank’s capital ratios at March 31, 2018 were in excess of the stated and effective minimum requirements under the U.S. Basel III

rules. In addition, Citibank was also “well capitalized” as of March 31, 2018 under the revised PCA regulations.

Impact of Changes on Citigroup and Citibank Capital Ratios

The following tables present the estimated sensitivity of Citigroup's and Citibank's capital ratios to changes of \$100 million in Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital (numerator), and changes of \$1 billion in Advanced Approaches and Standardized Approach risk-weighted assets and quarterly adjusted average total assets, as well as Total Leverage Exposure (denominator), as of March 31, 2018. This information is provided for the

purpose of analyzing the impact that a change in Citigroup's or Citibank's financial position or results of operations could have on these ratios. These sensitivities only consider a single change to either a component of capital, risk-weighted assets, quarterly adjusted average total assets or Total Leverage Exposure. Accordingly, an event that affects more than one factor may have a larger basis point impact than is reflected in these tables.

Impact of Changes on Citigroup and Citibank Risk-Based Capital Ratios

In basis points	Common Equity Tier 1 Capital ratio		Tier 1 Capital ratio		Total Capital ratio	
	Impact of \$100 million change in Common Equity Tier 1 Capital	Impact of \$1 billion change in risk-weighted assets	Impact of \$100 million change in Tier 1 Capital	Impact of \$1 billion change in risk-weighted assets	Impact of \$100 million change in Total Capital	Impact of \$1 billion change in risk-weighted assets
Citigroup						
Advanced Approaches	0.8	1.0	0.8	1.2	0.8	1.4
Standardized Approach	0.8	1.0	0.8	1.1	0.8	1.4
Citibank						
Advanced Approaches	1.0	1.4	1.0	1.4	1.0	1.5
Standardized Approach	1.0	1.2	1.0	1.2	1.0	1.4

Impact of Changes on Citigroup and Citibank Leverage Ratios

In basis points	Tier 1 Leverage ratio		Supplementary Leverage ratio	
	Impact of \$100 million change in Tier 1 Capital	Impact of \$1 billion change in quarterly adjusted average total assets	Impact of \$100 million change in Tier 1 Capital	Impact of \$1 billion change in Total Leverage Exposure
Citigroup	0.5	0.5	0.4	0.3
Citibank	0.7	0.7	0.5	0.4

Citigroup Broker-Dealer Subsidiaries

At March 31, 2018, Citigroup Global Markets Inc., a U.S. broker-dealer registered with the SEC that is an indirect wholly owned subsidiary of Citigroup, had net capital, computed in accordance with the SEC's net capital rule, of \$10.4 billion, which exceeded the minimum requirement by \$8.1 billion.

Moreover, Citigroup Global Markets Limited, a broker-dealer registered with the United Kingdom's Prudential Regulation Authority (PRA) that is also an indirect wholly owned subsidiary of Citigroup, had total capital of \$19.1 billion at March 31, 2018, which exceeded the PRA's minimum regulatory capital requirements.

In addition, certain of Citi's other broker-dealer subsidiaries are subject to regulation in the countries in which they do business, including requirements to maintain specified levels of net capital or its equivalent. Citigroup's other broker-dealer subsidiaries were in compliance with their regulatory capital requirements at March 31, 2018.

Regulatory Capital Standards Developments

Stress Buffer Requirements

In April 2018, the Federal Reserve Board released a notice of proposed rulemaking that would create a single, integrated capital requirement by combining the quantitative assessment of the Comprehensive Capital Analysis and Review (CCAR) program with the buffer requirements in the U.S. Basel III rules. The proposed rule would revise CCAR such that the Federal Reserve Board would no longer object to a bank holding company's capital plan based on a quantitative assessment of its capital adequacy, and would instead use the results of the supervisory severely adverse scenario in the annual stress test to size specific buffer requirements above certain minimum capital requirements. As with the current U.S. Basel III rules, any breach of the buffers to absorb losses during periods of financial or economic stress would result in restrictions on earnings distributions (e.g., dividends, equity repurchases and discretionary executive bonuses), based upon the extent to which the buffer(s) are breached.

With respect to each of the risk-based capital ratios (i.e., Common Equity Tier 1 Capital ratio, Tier 1 Capital ratio and Total Capital ratio) calculated under the Standardized Approach, the proposed rule would replace the Capital Conservation Buffer, which is fixed at 2.5% under the U.S. Basel III rules, with a variable buffer known as the Stress Capital Buffer. The Stress Capital Buffer would be equal to the maximum decline in a bank holding company's Common Equity Tier 1 Capital ratio under the severely adverse scenario of the supervisory stress test, plus planned common stock dividends for each of the fourth through seventh quarters of the planning horizon (expressed as a percentage of risk-weighted assets), and would be subject to a floor of 2.5%. The Capital Conservation Buffer would remain unchanged at 2.5% for each of the risk-based capital ratios calculated using the Advanced Approaches. Under either approach, the GSIB surcharge and, if invoked, any Countercyclical Capital Buffer, would continue to augment the Stress Capital Buffer or Capital Conservation Buffer, as applicable.

In addition to the Stress Capital Buffer, the proposed rule would establish a new Stress Leverage Buffer requirement above the stated minimum Tier 1 Leverage ratio requirement. The Stress Leverage Buffer would be equal to the maximum decline in a bank holding company's Tier 1 Leverage ratio under the severely adverse scenario of the supervisory stress test, plus planned common stock dividends for each of the fourth through seventh quarters of the planning horizon (expressed as a percentage of risk-weighted assets).

Finally, the proposed rule would also modify certain assumptions in the supervisory stress test to determine a bank holding company's stress buffer requirements. The modified assumptions include a narrower set of planned capital actions assumed to occur in the supervisory stress test, as well as an assumption that the bank holding company would take actions to maintain a constant level of assets in a stress scenario.

Under the timeline for stress testing and CCAR cycles included within the proposed rule, the Federal Reserve Board would generally release its calculation of each bank holding company's Stress Capital Buffer and Stress Leverage Buffer by June 30 of each year. The effective date of the proposed rule would be December 31, 2018, with the initial stress buffer requirements becoming effective October 1, 2019. If adopted as proposed, Citi would likely be subject to higher effective minimum regulatory capital requirements.

Enhanced Supplementary Leverage Ratio and Total Loss-Absorbing Capacity (TLAC) Requirements

In April 2018, the Federal Reserve Board (Board) and the Office of the Comptroller of the Currency (OCC) jointly issued a notice of proposed rulemaking that would modify the enhanced Supplementary Leverage ratio standards applicable to U.S. GSIBs and their Board- or OCC-regulated insured depository institution subsidiaries. The proposed rule would replace the currently fixed 2.0% leverage buffer requirement that applies uniformly to all U.S. GSIBs, such as Citi, with a variable leverage buffer requirement equal to 50% of the U.S. GSIB's currently applicable GSIB surcharge. Similarly, for Board- or OCC-regulated insured depository institution subsidiaries of U.S. GSIBs, such as Citibank, the proposed rule would replace the currently fixed 6.0% threshold at which these subsidiaries are considered to be "well capitalized" under the Prompt Corrective Action framework with a threshold set at the stated minimum requirement of 3.0% plus 50% of the GSIB surcharge applicable to the U.S. GSIB of which it is a subsidiary.

The proposed rule would also make corresponding modifications to certain of the Board's TLAC buffer requirements applicable to U.S. GSIBs. Accordingly, under the proposed rule, each U.S. GSIB's fixed 2.0% leverage-based TLAC buffer would be replaced with a buffer equal to 50% of the GSIB surcharge, and the leverage component of each U.S. GSIB's Long-Term Debt (LTD) requirement would be revised to equal Total Leverage Exposure multiplied by 2.5% plus 50% of the U.S. GSIB's applicable GSIB surcharge.

If adopted as proposed, and assuming that Citi maintains a GSIB surcharge of 3.0%, Citigroup's and Citibank's effective minimum Supplementary Leverage ratio requirements would be reduced to 4.5%, down from the current effective minimum requirements of 5.0% and 6.0%, respectively. Additionally, Citi's leverage-based TLAC buffer would decrease from 2.0% to 1.5%, and the leverage component of Citi's LTD requirement would decrease from 4.5% to 4.0%.

Regulatory Capital Treatment—Implementation and Transition of the Current Expected Credit Losses (CECL) Methodology

In April 2018, the U.S. banking agencies released a notice of proposed rulemaking that would afford banking organizations an optional phase-in over a three-year period of the “Day One” adverse regulatory capital effects resulting from adoption of the CECL methodology. The proposed rule is in recognition of the issuance by the Financial Accounting Standards Board of ASU No. 2016-13, “Financial Instruments—Credit Losses,” which will replace the current incurred loss methodology for recognizing credit losses with the CECL methodology. The ASU will be effective for Citi as of January 1, 2020, and will generally result in earlier recognition of credit losses compared to current practice. For additional information regarding the CECL methodology, see “Future Application of Accounting Standards” below. Under the proposed rule, the election to phase in the “Day One” adverse regulatory capital effects arising from adoption of the CECL methodology must be made as of the date of adopting CECL. Bank holding companies, such as Citi, and insured depository institution subsidiaries, such as Citibank, may choose to elect transitional regulatory capital relief independent of one another.

The proposed rule does not change the timing or the U.S. GAAP result of implementing the CECL methodology. However, if adopted as proposed, the proposed rule would provide both Citigroup and Citibank with additional flexibility to phase in the Day One adverse regulatory capital effects resulting from adoption of the CECL methodology.

Revisions to the Minimum Capital Requirements for Market Risk

In March 2018, the Basel Committee on Banking Supervision (Basel Committee) issued a consultative document which proposes revisions to the market risk capital framework previously finalized in 2016. The consultative document proposes revisions to the assessment process to determine whether a bank’s internal risk management models appropriately reflect the risks of individual trading desks, as well as clarifications to the requirements for identification of risk factors that are eligible for internal modeling. In addition, the consultative document proposes a recalibration of the risk weights for general interest rate risk, equity risk and foreign exchange risk under the Standardized Approach.

The U.S. banking agencies may revise the minimum capital requirements for market risk in the future, based upon any revisions adopted by the Basel Committee.

Pillar 3 Disclosure Requirements—Updated Framework

In February 2018, the Basel Committee issued a consultative document which proposes to revise the “Pillar 3” disclosure requirements last finalized in March 2017, by largely reflecting finalization of the Basel III post-crisis regulatory reforms in December 2017. The consultative document includes several new or revised disclosure requirements related to credit risk, credit valuation adjustments, operational risk and the leverage ratio. Further, the proposal introduces disclosure requirements for benchmarking risk-weighted assets calculated under banks’ internal models with those calculated according to the standardized approaches. Additionally, the consultative document proposes new disclosure requirements related to the prudential treatment of problem assets, asset encumbrance and capital distribution constraints, as well as seeks feedback on the advantages and disadvantages of expanding the scope of application for disclosures related to the composition of regulatory capital to resolution groups.

The Advanced Approaches disclosure requirements under the U.S. Basel III rules may be revised by the U.S. banking agencies in the future, as a result of the Basel Committee’s proposed new and revised Pillar 3 disclosure requirements.

Tangible Common Equity, Book Value Per Share, Tangible Book Value Per Share and Returns on Equity
Tangible common equity (TCE), as defined by Citi, represents common stockholders' equity less goodwill and identifiable intangible assets (other than MSRs). Other companies may calculate TCE in a different manner. TCE, tangible book value per share and returns on average TCE are non-GAAP financial measures.

In millions of dollars or shares, except per share amounts	March 31, December 31,	
	2018	2017
Total Citigroup stockholders' equity	\$ 201,915	\$ 200,740
Less: Preferred stock	19,156	19,253
Common stockholders' equity	\$ 182,759	\$ 181,487
Less:		
Goodwill	22,659	22,256
Identifiable intangible assets (other than MSRs)	4,450	4,588
Goodwill and identifiable intangible assets (other than MSRs) related to assets held-for-sale (HFS)	48	32
Tangible common equity (TCE)	\$ 155,602	\$ 154,611
Common shares outstanding (CSO)	2,549.9	2,569.9
Book value per share (common equity/CSO)	\$ 71.67	\$ 70.62
Tangible book value per share (TCE/CSO)	61.02	60.16

In millions of dollars	Three Months Ended March 31, 2018	Three Months Ended March 31, 2017
Net income available to common shareholders	\$4,348	\$3,789
Average common stockholders' equity ⁽¹⁾	\$181,628	\$206,903
Average TCE	\$155,107	\$180,210
Return on average common stockholders' equity	9.7	% 7.4
Return on average TCE (ROTCE) ⁽²⁾	11.4	8.5

(1) Average common stockholders' equity for the three months ended March 31, 2018 includes the \$22.6 billion impact from Tax Reform recorded at the end of the fourth quarter of 2017.

(2) ROTCE represents annualized net income available to common shareholders as a percentage of average TCE.

MANAGING GLOBAL RISK

For Citi, effective risk management is of primary importance to its overall operations. Accordingly, Citi's risk management process has been designed to identify, monitor, evaluate and manage the principal risks it assumes in conducting its activities. Specifically, the activities that Citi engages in, and the risks those activities generate, must be consistent with Citi's mission and value proposition, the key principles that guide it and Citi's risk appetite.

For more information on Citi's management of global risk, including its three lines of defense, see "Managing Global Risk" in Citi's 2017 Annual Report on Form 10-K.

CREDIT RISK

For additional information on credit risk, including Citi's credit risk management, measurement and stress testing, see "Credit Risk" and "Risk Factors" in Citi's 2017 Annual Report on Form 10-K.

CONSUMER CREDIT

Citi provides traditional retail banking, including commercial banking, and credit card products in 19 countries and jurisdictions through North America GCB, Latin America GCB and Asia GCB. The retail banking products include consumer mortgages, home equity, personal and commercial loans and lines of credit and similar related products with a focus on lending to prime customers. Citi uses its risk appetite

framework to define its lending parameters. In addition, Citi uses proprietary scoring models for new customer approvals. As stated in "Global Consumer Banking" above, GCB's overall strategy is to leverage Citi's global footprint and be the pre-eminent bank for the affluent and emerging affluent consumers in large urban centers. In credit cards and in certain retail markets, Citi serves customers in a somewhat broader set of segments and geographies. GCB's commercial banking business focuses on small to mid-sized businesses.

Consumer Credit Portfolio

The following table shows Citi's quarterly end-of-period consumer loans⁽¹⁾

In billions of dollars	1Q'17	2Q'17	3Q'17	4Q'17	1Q'18
Retail banking:					
Mortgages	\$81.2	\$81.4	\$81.4	\$81.7	\$82.1
Commercial banking	33.9	34.8	35.5	36.3	36.8
Personal and other	26.3	27.2	27.3	27.9	28.5
Total retail banking	\$141.4	\$143.4	\$144.2	\$145.9	\$147.4
Cards:					
Citi-branded cards	\$105.7	\$109.9	\$110.7	\$115.7	\$110.6
Citi retail services	44.2	45.2	45.9	49.2	46.0
Total cards	\$149.9	\$155.1	\$156.6	\$164.9	\$156.6

GCB regional distribution:					
North America	62	% 62	% 62	% 63	% 61
Latin America	9	9	9	8	9
Asia ⁽²⁾	29	29	29	29	30
Total GCB	100	% 100	% 100	% 100	% 100
Corporate/Other ⁽³⁾	\$29.3	\$26.8	\$24.8	\$22.9	\$21.1
Total consumer loans	\$320.6	\$325.3	\$325.6	\$333.7	\$325.1

- (1) End-of-period loans include interest and fees on credit cards.
- (2) Asia includes loans and leases in certain EMEA countries for all periods presented.
- (3) Primarily consists of legacy assets, principally North America consumer mortgages.

For information on changes to Citi's end-of-period consumer loans, see "Liquidity Risk—Loans" below.

Overall Consumer Credit Trends

The following charts show the quarterly trends in delinquencies and net credit losses across both retail banking, including commercial banking, and cards for total GCB and by region.

Global Consumer Banking

North America GCB

North America GCB provides mortgages, home equity loans, personal loans and commercial banking products through Citi's retail banking network and card products through Citi-branded cards and Citi retail services businesses. The retail bank is concentrated in six major metropolitan cities in the United States (for additional information on the U.S. retail bank, see "North America GCB" above).

As of March 31, 2018, approximately 70% of North America GCB consumer loans consisted of Citi-branded and Citi retail services cards, which generally drives the overall credit performance of North America GCB, including the credit performance year-over-year as of the first quarter of 2018 (for additional information on North America GCB's cards portfolios, including delinquency and net credit loss rates, see "Credit Card Trends" below). Quarter-over-quarter, 90+ days past due delinquencies remained relatively unchanged, while the net credit loss rate increased quarter-over-quarter, primarily due to seasonality in both cards portfolios. Year-over-year increases in loss and delinquency rates were driven by Citi retail services, due to seasoning and an increase in net flow rates in later delinquency buckets.

Latin America GCB

Latin America GCB operates in Mexico through Citibanamex, one of Mexico's largest banks, and provides credit cards, consumer mortgages, personal loans and commercial banking products. Latin America GCB serves a more mass market segment in Mexico and focuses on developing multi-product relationships with customers.

As set forth in the chart above, 90+ days past due delinquencies and net credit loss rates improved quarter-over-quarter and year-over-year as of the first quarter of 2018. The decrease was driven by the commercial portfolio, partially offset by an increase in cards due to seasoning of the portfolio.

Asia⁽¹⁾ GCB

(1) Asia includes GCB activities in certain EMEA countries for all periods presented.

Asia GCB operates in 17 countries in Asia and EMEA and provides credit cards, consumer mortgages, personal loans and commercial banking products.

As shown in the chart above, 90+ days past due delinquency and net credit loss rates were largely stable in Asia GCB year-over-year and quarter-over-quarter as of the first quarter of 2018. This stability reflects the strong credit profiles in Asia GCB's target customer segments. In addition, regulatory changes in many markets in Asia over the past few years have resulted in stable or improved portfolio credit quality.

For additional information on cost of credit, loan delinquency and other information for Citi's consumer loan portfolios, see each respective business's results of operations above and Note 13 to the Consolidated Financial Statements.

Credit Card Trends

The following charts show the quarterly trends in delinquencies and net credit losses for total GCB cards, Citi's North America Citi-branded cards and Citi retail services portfolios as well as for Citi's Latin America and Asia Citi-branded cards portfolios.

Global Cards

North America Citi-Branded Cards

North America GCB's Citi-branded cards portfolio issues proprietary and co-branded cards. As shown in the chart above, the 90+ days past due delinquency rate in Citi-branded cards was stable year-over-year and quarter-over-quarter. The net credit loss rate declined modestly year-over-year, and increased quarter-over-quarter primarily due to seasonality.

North America Citi Retail Services

Citi retail services partners directly with more than 20 retailers and dealers to offer private-label and co-branded consumer and commercial cards. Citi retail services' target market is focused on select industry segments such as home improvement, specialty retail, consumer electronics and fuel. Citi retail services continually evaluates opportunities to add partners within target industries that have strong loyalty, lending or payment programs and growth potential. Citi retail services' delinquency and net credit loss rates increased year-over-year, primarily due to seasoning and an increase in net flow rates in later delinquency buckets. The quarter-over-quarter increase in loss rates was primarily driven by seasonality.

Latin America Citi-Branded Cards

Latin America GCB issues proprietary and co-branded cards. As set forth in the chart above, the net credit loss and delinquency rates increased year-over-year primarily due to seasoning. The quarter-over-quarter net credit loss rate increase was primarily due to seasonality.

Asia Citi-Branded Cards⁽¹⁾

(1) Asia includes loans and leases in certain EMEA countries for all periods presented.

Asia GCB issues proprietary and co-branded cards. As set forth in the chart above, 90+ days past due delinquency and net credit loss rates have remained broadly stable, driven by the mature and well-diversified cards portfolios.

For additional information on cost of credit, delinquency and other information for Citi's cards portfolios, see each respective business's results of operations above and Note 13 to the Consolidated Financial Statements.

North America Cards FICO Distribution

The following tables show the current FICO score distributions for Citi's North America Citi-branded cards and Citi retail services portfolios based on end-of-period receivables. FICO scores are updated monthly for substantially all of the portfolio and on a quarterly basis for the remaining portfolio.

Citi-Branded

FICO distribution	March 2018	December 31, 2017	March 31, 2017
> 760	41 %	42 %	40 %
680 - 760	42	41	44
< 680	17	17	16
Total	100 %	100 %	100 %

Citi Retail Services

FICO distribution	March 2018	December 31, 2017	March 31, 2017
> 760	22 %	24 %	22 %
680 - 760	43	43	43
< 680	35	33	35
Total	100 %	100 %	100 %

The percentage of loans outstanding with borrowers with FICO scores greater than 760 declined sequentially due to seasonality in Citi retail services. Otherwise, the portfolios continued to demonstrate strong underlying credit quality. For additional information on FICO scores, see Note 13 to the Consolidated Financial Statements.

North America Consumer Mortgage Lending

Citi's North America consumer mortgage portfolio consists of both residential first mortgages and home equity loans. The following table shows the outstanding quarterly end-of-period loans for Citi's North America residential first mortgage and home equity loan portfolios:

In billions of dollars 1Q'17 2Q'17 3Q'17 4Q'17 1Q'18

GCB:

Residential firsts	\$40.3	\$40.2	\$40.1	\$40.1	\$40.1
Home equity	4.0	4.1	4.1	4.2	4.1
Total GCB	\$44.3	\$44.3	\$44.2	\$44.3	\$44.2

Corporate/Other:

Residential firsts	\$12.3	\$11.0	\$10.1	\$9.3	\$8.1
Home equity	13.4	12.4	11.5	10.6	9.9
Total Corporate/Other	\$25.7	\$23.4	\$21.6	\$19.9	\$18.0

Total Citigroup—North America	\$70.0	\$67.7	\$65.8	\$64.2	\$62.2
-------------------------------	--------	--------	--------	--------	--------

For additional information on delinquency and net credit loss trends in Citi's consumer mortgage portfolio, see "Additional Consumer Credit Details" below.

Home Equity Loans—Revolving HELOCs

As set forth in the table above, Citi had \$14.0 billion of home equity loans as of March 31, 2018, of which \$3.3 billion were fixed-rate home equity loans and \$10.7 billion were extended under home equity lines of credit (Revolving HELOCs). Fixed-rate home equity loans are fully amortizing. Revolving HELOCs allow for amounts to be drawn for a period of time with the payment of interest only until the end of the draw period, when the outstanding amount is converted to an amortizing loan, or "reset" (the interest-only payment feature during the revolving period is standard for this product across the industry). Upon reset, these borrowers will be required to pay both interest, usually at a variable rate, and principal that amortizes typically over 20 years, rather than the standard 30-year amortization. Of the Revolving HELOCs at March 31, 2018, \$6.6 billion had reset (compared to \$6.8 billion at December 31, 2017) and \$4.1 billion were still within their revolving period and had not reset (compared to \$4.6 billion at December 31, 2017). The following chart indicates the FICO and combined loan-to-value (CLTV) characteristics of Citi's Revolving HELOCs portfolio and the year in which they reset:

North America Home Equity Lines of Credit Amortization – Citigroup

Total ENR by Reset Year

In billions of dollars as of March 31, 2018

Note: Totals may not sum due to rounding.

Approximately 62% of Citi's total Revolving HELOCs portfolio had reset as of March 31, 2018 (compared to 60% as of December 31, 2017). Of the remaining Revolving HELOCs portfolio, approximately 19% will commence amortization during the remainder of 2018. Citi's customers with Revolving HELOCs that reset could experience "payment shock" due to the higher required payments on the loans. Citi currently estimates that the monthly loan payment for its Revolving HELOCs that reset during the remainder of 2018 could increase on average by approximately \$284, or 120%. Increases in interest rates could further increase these payments given the variable nature of the interest rates on these loans post-reset. Borrowers' high loan-to-value positions, as well as the cost and availability of refinancing options, could limit borrowers' ability to refinance their Revolving HELOCs as these loans begin to reset.

Approximately 5.4% of the Revolving HELOCs that have reset as of March 31, 2018 were 30+ days past due, compared to 3.6% of the total outstanding home equity loan portfolio (amortizing and non-amortizing). This

compared to 5.9% and 3.9%, respectively, as of December 31, 2017. As newly amortizing loans continue to season, the delinquency rate of Citi's total home equity loan portfolio could increase. In addition, resets to date have generally occurred during a period of historically low interest rates, which Citi believes has likely reduced the overall "payment shock" to the borrower.

Citi monitors this reset risk closely and will continue to consider any potential impact in determining its allowance for loan loss reserves. In addition, management continues to review and take additional actions to offset potential reset risk, such as a borrower outreach program to provide reset risk education and proactively working with high-risk borrowers through a specialized single point of contact unit.

(1) End-of-period (EOP) loans include interest and fees on credit cards.

(2) The ratios of 90+ days past due and 30–89 days past due are calculated based on EOP loans, net of unearned income.

The 90+ days past due balances for North America—Citi-branded and North America—Citi retail services are generally still accruing interest. Citigroup's policy is generally to accrue interest on credit card loans until 180 days past due, unless notification of bankruptcy filing has been received earlier.

(4) The 90+ days past due and 30–89 days past due and related ratios for GCB North America exclude U.S. mortgage loans that are guaranteed by U.S. government-sponsored entities since the potential loss predominantly resides within the U.S. government-sponsored entities. The amounts excluded for loans 90+ days past due and (EOP loans)

were \$272 million (\$0.9 billion), \$298 million (\$0.7 billion) and \$313 million (\$0.8 billion) at March 31, 2018, December 31, 2017 and March 31, 2017, respectively. The amounts excluded for loans 30–89 days past due (EOP loans have the same adjustment as above) were \$92 million, \$88 million and \$84 million at March 31, 2018, December 31, 2017 and March 31, 2017, respectively.

(5) Asia includes delinquencies and loans in certain EMEA countries for all periods presented.

The 90+ days past due and 30–89 days past due and related ratios for Corporate/Other—North America consumer exclude U.S. mortgage loans that are guaranteed by U.S. government-sponsored entities since the potential loss predominantly resides within the U.S. government-sponsored entities. The amounts excluded for loans 90+ days

(6) past due (and EOP loans) were \$0.5 billion (\$0.9 billion), \$0.6 billion (\$1.1 billion) and \$0.8 billion (\$1.4 billion) at March 31, 2018, December 31, 2017 and March 31, 2017, respectively. The amounts excluded for loans 30–89 days past due (EOP loans have the same adjustment as above) for each period were \$0.1 billion, \$0.1 billion and \$0.1 billion at March 31, 2018, December 31, 2017 and March 31, 2017, respectively.

The March 31, 2018, December 31, 2017 and March 31, 2017 loans 90+ days past due and 30–89 days past due and (7)related ratios for North America exclude \$4 million, \$4 million and \$7 million, respectively, of loans that are carried at fair value.

(1) Average loans include interest and fees on credit cards.

(2) The ratios of net credit losses are calculated based on average loans, net of unearned income.

(3) In October 2016, Citi entered into agreements to sell Citi's Brazil and Argentina consumer banking businesses and classified these businesses as HFS. The sale of the Argentina consumer banking business was completed at the end of the first quarter 2017. As a result of HFS accounting treatment, approximately \$40 million and \$13 million of net credit losses (NCLs) were recorded as a reduction in revenue (Other revenue) during the first quarter of 2017 and fourth quarter of 2017, respectively. Accordingly, these NCLs are not included in this table. Loans classified as HFS are excluded from this table as they are recorded in

Other assets.

(4) Asia includes NCLs and average loans in certain EMEA countries for all periods presented.

CORPORATE CREDIT

Consistent with its overall strategy, Citi's corporate clients are typically large, multinational corporations that value the depth and breadth of Citi's global network. Citi aims to establish relationships with these clients that encompass multiple products, consistent with client needs, including cash management and trade services, foreign exchange, lending, capital markets and M&A advisory.

Corporate Credit Portfolio

The following table sets forth Citi's corporate credit portfolio within ICG (excluding private bank), before consideration of collateral or hedges, by remaining tenor for the periods indicated:

In billions of dollars	At March 31, 2018				At December 31, 2017			
	Due within 1 year	Greater than 1 year but within 5 years	Greater than 5 years	Total exposure	Due within 1 year	Greater than 1 year but within 5 years	Greater than 5 years	Total exposure
Direct outstandings (on-balance sheet) ⁽¹⁾	\$ 135	\$ 101	\$ 21	\$ 257	\$ 127	\$ 96	\$ 22	\$ 245
Unfunded lending commitments (off-balance sheet) ⁽²⁾	121	238	23	382	111	222	20	353
Total exposure	\$ 256	\$ 339	\$ 44	\$ 639	\$ 238	\$ 318	\$ 42	\$ 598

(1) Includes drawn loans, overdrafts, bankers' acceptances and leases.

(2) Includes unused commitments to lend, letters of credit and financial guarantees.

Portfolio Mix—Geography, Counterparty and Industry

Citi's corporate credit portfolio is diverse across geography and counterparty. The following table shows the percentage of this portfolio by region based on Citi's internal management geography:

	March 31, 2018		December 31, 2017	
North America	53	%	54	%
EMEA	28		27	
Asia	12		12	
Latin America	7		7	
Total	100	%	100	%

The maintenance of accurate and consistent risk ratings across the corporate credit portfolio facilitates the comparison of credit exposure across all lines of business, geographic regions and products. Counterparty risk ratings reflect an estimated probability of default for a counterparty and are derived primarily through the use of validated statistical models, scorecard models and external agency ratings (under defined circumstances), in combination with consideration of factors specific to the obligor or market, such as management experience, competitive position, regulatory environment and commodity prices. Facility risk ratings are assigned that reflect the probability of default of

the obligor and factors that affect the loss-given-default of the facility, such as support or collateral. Internal obligor ratings that generally correspond to BBB and above are

considered investment grade, while those below are considered non-investment grade.

Citigroup also has incorporated environmental factors like climate risk assessment and reporting criteria for certain obligors, as necessary. Factors evaluated include consideration of climate risk to an obligor's business and physical assets and, when relevant, consideration of cost-effective options to reduce greenhouse gas emissions.

The following table presents the corporate credit portfolio by facility risk rating as a percentage of the total corporate credit portfolio:

	Total exposure	
	March 31, 2018	December 31, 2017
AAA/AA/A	48 %	49 %
BBB	34	34
BB/B	17	16
CCC or below	1	1
Total	100 %	100 %

Note: Total exposure includes direct outstandings and unfunded lending commitments.

Citi's corporate credit portfolio is also diversified by industry. The following table shows the allocation of Citi's total corporate credit portfolio by industry:

	Total exposure			
	March 31, 2018		December 31, 2017	
		%		%

Total	100	%	100	%

Credit Risk Mitigation

As part of its overall risk management activities, Citigroup uses credit derivatives and other risk mitigants to hedge portions of the credit risk in its corporate credit portfolio, in addition to outright asset sales. The results of the mark-to-market and any realized gains or losses on credit derivatives are reflected primarily in Other revenue in the Consolidated Statement of Income.

At March 31, 2018 and December 31, 2017, \$17.0 billion and \$16.3 billion, respectively, of the corporate credit portfolio was economically hedged. Citigroup's expected loss model used in the calculation of its loan loss reserve does not include the favorable impact of credit derivatives and other mitigants that are marked to market. In addition, the reported amounts of direct outstandings and unfunded lending commitments in the tables above do not reflect the impact of these hedging transactions. The credit protection was economically hedging underlying corporate credit portfolio exposures with the following risk rating distribution:

Rating of Hedged Exposure

	March 31, December 31,			
	2018		2017	
		%		%
AAA/AA/A	26	%	23	%
BBB	43		43

---	------	-------	-------	-------	-------	---

(1) Loans secured primarily by real estate.

(2) Unearned income on consumer loans primarily represents unamortized origination fees and costs, premiums and discounts.

(3) Unearned income on corporate loans primarily represents interest received in advance, but not yet earned, on loans originated on a discounted basis.

(4) All periods exclude loans that are carried at fair value.

(1) Recoveries have been reduced by certain collection costs that are incurred only if collection efforts are successful.

(2) Includes all adjustments to the allowance for credit losses, such as changes in the allowance from acquisitions, dispositions, securitizations, FX translation, purchase accounting adjustments, etc.

The first quarter of 2018 includes a reduction of approximately \$55 million related to the sale or transfer to held-for-sale (HFS) of various loan portfolios, including a reduction of \$53 million related to the transfer of a real estate loan portfolio to HFS. Additionally, the first quarter includes an increase of approximately \$118 million related to FX translation.

(4) The fourth quarter of 2017 includes a reduction of approximately \$47 million related to the sale or transfer to HFS of various loan portfolios, including a reduction of \$22 million related to the transfer of a real estate loan portfolio to HFS. Additionally, the fourth quarter includes a decrease of approximately \$106 million related to FX translation.

(5) The third quarter of 2017 includes a reduction of approximately \$34 million related to the sale or transfer to HFS of various loan portfolios, including a reduction of \$28 million related to the transfer of a real estate loan portfolio to HFS. Additionally, the third quarter includes an increase of approximately \$7 million related to FX translation.

The second quarter of 2017 includes a reduction of approximately \$19 million related to the sale or transfer to HFS of various loan portfolios, including a reduction of \$19 million related to the transfer of a real estate loan portfolio to HFS. Additionally, the second quarter includes an increase of approximately \$50 million related to FX translation.

The first quarter of 2017 includes a reduction of approximately \$161 million related to the sale or transfer to HFS of various loan portfolios, including a reduction of \$37 million related to the transfer of a real estate loan portfolio to HFS. Additionally, the first quarter includes an increase of approximately \$164 million related to FX translation.

March 31, 2018, December 31, 2017, September 30, 2017, June 30, 2017, and March 31, 2017 exclude \$4.5 billion, \$4.9 billion, \$4.3 billion, \$4.2 billion and \$4.0 billion, respectively, of loans which are carried at fair value.

Represents additional credit reserves recorded as Other liabilities on the Consolidated Balance Sheet.

Allowance for loan losses represents management's best estimate of probable losses inherent in the portfolio, as well as probable losses related to large individually evaluated impaired loans and troubled debt restructurings. See "Significant Accounting Policies and Significant Estimates" and Note 1 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K. Attribution of the allowance is made for analytical purposes only and the entire allowance is available to absorb probable credit losses inherent in the overall portfolio.

Allowance for Loan Losses

The following tables detail information on Citi's allowance for loan losses, loans and coverage ratios:

In billions of dollars	March 31, 2018			
	Allowance for loan losses	net of unearned income	as a percentage of loans	(1)
North America cards ⁽²⁾	\$6.2	\$ 131.8	4.7	%
North America mortgages ⁽³⁾	0.7	62.2	1.1	
North America other	0.3	12.4	2.4	
International cards	1.4	25.5	5.5	
International other ⁽⁴⁾	1.5	93.2	1.6	
Total consumer	\$10.1	\$ 325.1	3.1	%
Total corporate	2.3	347.8	0.7	
Total Citigroup	\$12.4	\$ 672.9	1.8	%

(1) Allowance as a percentage of loans excludes loans that are carried at fair value.

(2) Includes both Citi-branded cards and Citi retail services. The \$6.2 billion of loan loss reserves represented approximately 15 months of coincident net credit loss coverage.

Of the \$0.7 billion, approximately \$0.6 billion was allocated to North America mortgages in Corporate/Other. Of the \$0.7 billion, approximately \$0.2 billion and \$0.5 billion are determined in accordance with ASC 450-20 and ASC 310-10-35 (troubled debt restructurings), respectively. Of the \$62.2 billion in loans, approximately \$58.7 billion and \$3.4 billion of the loans are evaluated in accordance with ASC 450-20 and ASC 310-10-35 (troubled debt restructurings), respectively. For additional information, see Note 14 to the Consolidated Financial Statements.

(4) Includes mortgages and other retail loans.

In billions of dollars	December 31, 2017			
	Allowance for loan losses	net of unearned income	as a percentage of loans	(1)
North America cards ⁽²⁾	\$6.1	\$ 139.7	4.4	%

North America mortgages ⁽³⁾	0.7	64.2	1.1	
North America other	0.3	13.0	2.3	
International cards	1.3	25.7	5.1	
International other ⁽⁴⁾	1.5	91.1	1.6	
Total consumer	\$9.9	\$ 333.7	3.0	%
Total corporate	2.5	333.3	0.8	
Total Citigroup	\$12.4	\$ 667.0	1.9	%

(1) Allowance as a percentage of loans excludes loans that are carried at fair value.

(2) Includes both Citi-branded cards and Citi retail services. The \$6.1 billion billion of loan loss reserves represented approximately 16 months of coincident net credit loss coverage.

Of the \$0.7 billion, approximately \$0.6 billion was allocated to North America mortgages in Corporate/Other. Of the \$0.7 billion, approximately \$0.2 billion and \$0.5 billion are determined in accordance with ASC 450-20 and ASC 310-10-35 (troubled debt restructurings), respectively. Of the \$64.2 billion in loans, approximately \$60.4 billion and \$3.7 billion of the loans are evaluated in accordance with ASC 450-20 and ASC 310-10-35 (troubled debt restructurings), respectively. For additional information, see Note 14 to the Consolidated Financial Statements.

(4) Includes mortgages and other retail loans.

Non-Accrual Loans and Assets and Renegotiated Loans

There is a certain amount of overlap among non-accrual loans and assets and renegotiated loans. The following summary provides a general description of each category:

Non-Accrual Loans and Assets:

• Corporate and consumer (including commercial banking) non-accrual status is based on the determination that payment of interest or principal is doubtful.

A corporate loan may be classified as non-accrual and still be performing under the terms of the loan structure.

• Payments received on corporate non-accrual loans are generally applied to loan principal and not reflected as interest income. Approximately 65%, 74% and 65% of Citi's corporate non-accrual loans were performing at March 31, 2018, December 31, 2017 and March 31, 2017, respectively.

• Consumer non-accrual status is generally based on aging, i.e., the borrower has fallen behind on payments.

Consumer mortgage loans, other than Federal Housing Administration (FHA) insured loans, are classified as non-accrual within 60 days of notification that the borrower has filed for bankruptcy. In addition, home equity loans are classified as non-accrual if the related residential first mortgage loan is 90 days or more past due.

North America Citi-branded cards and Citi retail services are not included because, under industry standards, credit card loans accrue interest until such loans are charged off, which typically occurs at 180 days of contractual delinquency.

Renegotiated Loans:

• Includes both corporate and consumer loans whose terms have been modified in a troubled debt restructuring (TDR).

• Includes both accrual and non-accrual TDRs.

Non-Accrual Loans

The table below summarizes Citigroup's non-accrual loans as of the periods indicated. Non-accrual loans may still be current on interest payments. In situations where Citi reasonably expects that only a portion of the principal owed will ultimately be collected, all payments received are reflected as a reduction of principal and not as interest income. For all other non-accrual loans, cash interest receipts are generally recorded as revenue.

	Mar. 31, 2018	Dec. 31, 2017	Sept. 30, 2017	Jun. 30, 2017	Mar. 31, 2017
In millions of dollars					
Corporate non-accrual loans ⁽¹⁾					
North America	\$817	\$784	\$915	\$944	\$993
EMEA	561	849	681	727	828

Paydowns/settlements	(884)	(270)	(1,154)	(183)	(280)	(463)
Charge-offs	(106)	(454)	(560)	(54)	(524)	(578)
Other	(21)	41	20	(25)	76	51
Ending balance	\$1,668	\$2,575	\$4,243	\$2,339	\$2,955	\$5,294

The table below summarizes Citigroup's other real estate owned (OREO) assets as of the periods indicated. This represents the carrying value of all real estate property acquired by foreclosure or other legal proceedings when Citi has taken possession of the collateral:

In millions of dollars	Mar. 31, 2018	Dec. 31, 2017	Sept. 30, 2017	Jun. 30, 2017	Mar. 31, 2017
OREO					
North America	\$70	\$89	\$97	\$128	\$136
EMEA	—	2	1	1	1
Latin America	29	35	30	31	31
Asia	15	18	15	8	5
Total OREO	\$114	\$144	\$143	\$168	\$173
Non-accrual assets					
Corporate non-accrual loans	\$1,668	\$1,942	\$2,054	\$2,098	\$2,339
Consumer non-accrual loans	2,575	2,690	2,783	2,848	2,955
Non-accrual loans (NAL)	\$4,243	\$4,632	\$4,837	\$4,946	\$5,294
OREO	\$114	\$144	\$143	\$168	\$173
Non-accrual assets (NAA)	\$4,357	\$4,776	\$4,980	\$5,114	\$5,467
NAL as a percentage of total loans	0.63	%0.69	%0.74	%0.77	%0.84
NAA as a percentage of total assets	0.23	0.26	0.26	0.27	0.30
Allowance for loan losses as a percentage of NAL ⁽¹⁾	291	267	256	243	227

The allowance for loan losses includes the allowance for Citi's credit card portfolios and purchased distressed loans, (1) while the non-accrual loans exclude credit card balances (with the exception of certain international portfolios) and purchased distressed loans as these continue to accrue interest until charge-off.

Renegotiated Loans

The following table presents Citi's loans modified in TDRs:

	Mar.	Dec.
In millions of dollars	31, 2018	31, 2017
Corporate renegotiated loans ⁽¹⁾		
In U.S. offices		
Commercial and industrial ⁽²⁾	\$202	\$225
Mortgage and real estate	89	90
Loans to financial institutions	25	33
Other	41	45
Total	\$357	\$393
In offices outside the U.S.		
Commercial and industrial ⁽²⁾	\$305	\$392
Mortgage and real estate	9	11
Loans to financial institutions	15	15
Other	—	7
Total	\$329	\$425
Total corporate renegotiated loans	\$686	\$818
Consumer renegotiated loans ⁽³⁾⁽⁴⁾⁽⁵⁾		
In U.S. offices		
Mortgage and real estate ⁽⁶⁾	\$3,380	\$3,709
Cards	1,291	1,246
Installment and other	152	169

In offices outside the U.S.		
Mortgage and real estate	\$342	\$345
Cards	555	541
Installment and other	447	427
Total	\$1,344	\$1,313
Total consumer renegotiated loans	\$6,167	\$6,437

(1) Includes \$539 million and \$715 million of non-accrual loans included in the non-accrual loans table above at March 31, 2018 and December 31, 2017, respectively. The remaining loans are accruing interest.

(2) In addition to modifications reflected as TDRs at March 31, 2018, Citi also modified \$57 million of commercial loans risk rated "Substandard Non-Performing" or worse (asset category defined by banking regulators) in offices outside the U.S. These modifications were not considered TDRs because the modifications did not involve a concession.

(3) Includes \$1,320 million and \$1,376 million of non-accrual loans included in the non-accrual loans table above at March 31, 2018 and December 31, 2017, respectively. The remaining loans are accruing interest.

(4) Includes \$28 million and \$26 million of commercial real estate loans at March 31, 2018 and December 31, 2017, respectively.

(5) Includes \$156 million and \$165 million of other commercial loans at March 31, 2018 and December 31, 2017, respectively.

(6) Reduction in the three months ended March 31, 2018 compared with December 31, 2017 includes \$260 million related to TDRs sold or transferred to HFS.

LIQUIDITY RISK

For additional information on funding and liquidity at Citigroup, including its objectives, management and measurement, see “Liquidity Risk” and “Risk Factors” in Citi’s 2017 Annual Report on Form 10-K.

High-Quality Liquid Assets (HQLA)

	Citibank			Non-Bank and Other			Total		
	Mar.	Dec.	Mar.	Mar.	Dec.	Mar.	Mar.	Dec.	Mar.

U.S. agency/agency MBS	74.3	80.8	60.7	5.6	0.5	0.2	79.9	81.3	60.8
Foreign government debt ⁽¹⁾	69.2	80.5	87.5	12.9	16.4	14.7	82.1	96.9	102.2
Other investment grade	0.3	0.7	0.3	1.3	1.2	1.2	1.6	1.9	1.5
Total HQLA (AVG)	\$353.3	\$369.5	\$353.5	\$73.6	\$76.9	\$59.3	\$426.9	\$446.4	\$412.8

Note: The amounts set forth in the table above are presented on an average basis and reflect HQLA which are transferable to Citigroup. For securities, the amounts represent the liquidity value that potentially could be realized and, therefore, exclude any securities that are encumbered and incorporate any haircuts that would be required for securities financing transactions.

Foreign government debt includes securities issued or guaranteed by foreign sovereigns, agencies and multilateral development banks. Foreign government debt securities are held largely to support local liquidity requirements and Citi’s local franchises and principally include government bonds from Hong Kong, Singapore, Korea, India and Mexico.

As set forth in the table above, Citi’s total HQLA increased year-over-year, primarily driven by an increase in cash related to resolution planning. Sequentially, Citi’s HQLA decreased modestly, as Citi optimized its overall HQLA and deployed liquidity as it grew loans in GCB and ICG.

Citi’s HQLA as set forth above does not include Citi’s available borrowing capacity from the Federal Home Loan Banks (FHLBs) of which Citi is a member, which was approximately \$22 billion as of March 31, 2018 (compared to \$10 billion as of December 31, 2017 and \$28 billion as of March 31, 2017) and maintained by eligible collateral pledged to such banks. The HQLA also does not include Citi’s borrowing capacity at the U.S. Federal Reserve Bank discount window or other central banks, which would be in addition to the resources noted above.

In general, Citi’s liquidity is fungible across legal entities within its bank group. Citi’s bank subsidiaries, including Citibank, can lend to the Citi parent and broker-dealer entities in accordance with Section 23A of the Federal Reserve Act. As of March 31, 2018, the capacity available for lending to these entities under Section 23A was approximately \$15 billion, unchanged from both December 31, 2017 and March 31, 2017, subject to certain eligible non-cash collateral requirements.

Loans

The table below sets forth the average loans, by business and/or segment, and the total end-of-period loans for each of the periods indicated:

In billions of dollars	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
Global Consumer Banking			
North America	\$ 189.7	\$ 189.7	\$ 183.3
Latin America	26.3	25.7	23.1
Asia ⁽¹⁾	90.3	87.9	83.2
Total	\$ 306.3	\$ 303.3	\$ 289.6
Institutional Clients Group			
Corporate lending	\$ 131.6	\$ 124.8	\$ 118.1
Treasury and trade solutions (TTS)	78.2	77.0	71.4
Private Bank	88.9	85.9	76.7
Markets and securities services and other	40.7	40.4	35.5
Total	\$ 339.4	\$ 328.2	\$ 301.8
Total Corporate/Other	\$ 22.2	\$ 22.5	\$ 31.9
Total Citigroup loans (AVG)	\$ 667.9	\$ 654.0	\$ 623.3
Total Citigroup loans (EOP)	\$ 672.9	\$ 667.0	\$ 628.6

(1) Includes loans in certain EMEA countries for all periods presented.

As set forth in the table above, end-of-period loans increased 7% year-over-year and 1% quarter-over-quarter. On an average basis, loans increased 7% year-over-year and 2% quarter-over-quarter.

Excluding the impact of FX translation, average loans increased 5% year-over-year and 7% in aggregate across GCB and ICG. Average GCB loans grew 4% year-over-year, driven by growth across all regions. Average ICG loans increased 10% year-over-year, driven by strong client engagement across businesses.

Average Corporate/Other loans decreased 30% year-over-year, driven by the continued wind-down of legacy assets.

Deposits

The table below sets forth the average deposits, by business and/or segment, and the total end-of-period deposits for each of the periods indicated:

In billions of dollars	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
Global Consumer Banking			
North America	\$ 180.9	\$ 182.7	\$ 184.6
Latin America	28.9	27.8	25.3
Asia ⁽¹⁾	99.1	96.0	92.7
Total	\$ 308.9	\$ 306.5	\$ 302.6
Institutional Clients Group			
Treasury and trade solutions (TTS)	\$ 440.3	\$ 444.5	\$ 416.2
Banking ex-TTS	128.2	126.9	120.8
Markets and securities services	84.1	82.9	80.1
Total	\$ 652.6	\$ 654.4	\$ 617.1
Corporate/Other	\$ 20.3	\$ 12.4	\$ 21.2
Total Citigroup deposits (AVG)	\$ 981.9	\$ 973.3	\$ 940.9

Total Citigroup deposits (EOP) \$ 1,001.2 \$ 959.8 \$ 950.0

(1) Includes deposits in certain EMEA countries for all periods presented.

End-of-period deposits increased 5% year-over-year and 4% quarter-over-quarter. On an average basis, deposits increased 4% year-over-year and 1% quarter-over-quarter.

Excluding the impact of FX translation, average deposits grew 2% from the prior-year period. In GCB, deposits remained largely unchanged year-over-year, as 3% growth in Latin America GCB and Asia GCB was offset by a 2% decline in North America GCB, which included the impact of lower mortgage escrow deposits. Within North America GCB, growth in checking deposits was more than offset by a reduction in money market balances, as clients transferred cash to investment accounts.

Within ICG, deposits grew 6% year-over-year, largely driven by continued growth in TTS.

Long-Term Debt

The weighted-average maturity of unsecured long-term debt issued by Citigroup and its affiliates (including Citibank) with a remaining life greater than one year (excluding remaining trust preferred securities outstanding) was approximately 6.6 years as of March 31, 2018, a decline from both the prior-year period (6.9 years) and the prior quarter (6.8 years).

Citi's long-term debt outstanding at the Citigroup parent company includes senior and subordinated debt and what Citi refers to as customer-related debt, consisting of structured notes, such as equity- and credit-linked notes, as well as non-structured notes. Citi's issuance of customer-related debt is generally driven by customer demand and supplements benchmark debt issuance as a source of funding for Citi's non-bank entities. Citi's long-term debt at the bank also includes benchmark senior debt, FHLB advances and securitizations.

Long-Term Debt Outstanding

The following table sets forth Citi's end-of-period total long-term debt outstanding for each of the dates indicated:

	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
In billions of dollars			
Parent and other ⁽¹⁾			
Benchmark debt:			
Senior debt	\$112.0	\$109.8	\$100.2
Subordinated debt	25.5	26.9	26.3
Trust preferred	1.7	1.7	1.7
Customer-related debt:			
Local country and other ⁽²⁾	32.4	30.7	27.2
Total parent and other	\$173.2	\$170.9	\$157.4
Bank			
FHLB borrowings	\$15.7	\$19.3	\$20.3
Securitizations ⁽³⁾	30.2	30.3	24.0
CBNA benchmark senior debt	15.0	12.5	2.5
Local country and other ⁽²⁾	3.8	3.7	4.3
Total bank	\$64.8	\$65.8	\$51.1
Total long-term debt	\$237.9	\$236.7	\$208.5

Note: Amounts represent the current value of long-term debt on Citi's Consolidated Balance Sheet which, for certain debt instruments, includes consideration of fair value, hedging impacts and unamortized discounts and premiums.

"Parent and other" includes long-term debt issued to third parties by the parent holding company (Citigroup) and (1)Citi's non-bank subsidiaries (including broker-dealer subsidiaries) that are consolidated into Citigroup. As of March 31, 2018, "parent and other" included \$20.1 billion of long-term debt issued by Citi's broker-dealer subsidiaries.

(2)Local country debt includes debt issued by Citi's affiliates in support of their local operations.

(3)Predominantly credit card securitizations, primarily backed by Citi-branded credit card receivables.

Citi's total long-term debt outstanding increased year-over-year, primarily driven by the issuance of senior benchmark and customer-related debt at the Citigroup parent company, as well as the issuance of unsecured benchmark debt at the bank. Sequentially, Citi's total long-term debt outstanding remained largely unchanged.

As part of its liability management, Citi has considered, and may continue to consider, opportunities to repurchase its long-term debt pursuant to open market purchases, tender offers or other means. Such repurchases help reduce Citi's overall funding costs and assist it in meeting regulatory changes and requirements. During the first quarter of 2018, Citi repurchased and called an aggregate of approximately \$3.0 billion of its outstanding long-term debt, including early redemption of FHLB advances.

Long-Term Debt Issuances and Maturities

The table below details Citi's long-term debt issuances and maturities (including repurchases and redemptions) during the periods presented:

In billions of dollars	1Q18		4Q17		1Q17	
	Maturities	Issuances	Maturities	Issuances	Maturities	Issuances
Parent and other						
Benchmark debt:						
Senior debt	\$3.5	\$ 5.4	\$4.3	\$ 4.4	\$5.3	\$ 5.2
Subordinated debt	1.6	0.2	0.4	0.4	1.2	0.7
Trust preferred	—	—	—	—	—	—
Customer-related debt	2.5	4.9	1.7	2.2	6.8	6.2
Local country and other	0.1	0.1	0.1	—	0.6	0.2
Total parent and other	\$7.7	\$ 10.7	\$6.5	\$ 6.9	\$13.9	\$ 12.3
Bank						
FHLB borrowings	\$6.5	\$ 3.9	\$3.0	\$ 2.5	\$1.8	\$ 0.5
Securitizations	2.9	2.8	0.6	2.5	2.0	2.5
CBNA benchmark senior debt	—	2.5	—	3.1	—	2.5
Local country and other	0.8	0.8	1.1	0.7	1.2	0.8
Total bank	\$10.2	\$ 10.1	\$4.7	\$ 8.8	\$5.0	\$ 6.3
Total	\$17.9	\$ 20.8	\$11.2	\$ 15.7	\$18.9	\$ 18.6

The table below shows Citi's aggregate long-term debt maturities (including repurchases and redemptions) during the first quarter of 2018, as well as its aggregate expected annual long-term debt maturities as of March 31, 2018:

Maturities									
In billions of dollars	1Q18	2018	2019	2020	2021	2022	2023	Thereafter	Total
Parent and other									
Benchmark debt:									
Senior debt	\$3.5	\$15.0	\$16.4	\$8.4	\$14.5	\$8.1	\$11.2	\$38.4	\$112.0

Total bank	\$10.2	\$18.6	\$17.7	\$14.0	\$8.3	\$1.5	\$1.4	\$3.1	\$64.8
Total long-term debt	\$17.9	\$36.8	\$37.6	\$27.5	\$25.7	\$12.7	\$15.3	\$82.4	\$237.9

Total Loss-Absorbing Capacity (TLAC)

In April 2018, the Federal Reserve Board and Office of Comptroller of the Currency issued a notice of proposed rulemaking that would revise the TLAC leverage-based buffer and leverage component of the LTD requirements. For additional information on the proposal as well as the current TLAC requirements, see “Capital Resources—Regulatory Capital Standards Developments” above and “Liquidity Risk—Total Loss-Absorbing Capacity (TLAC)” in Citi’s 2017 Annual Report on Form 10-K.

Secured Funding Transactions and Short-Term Borrowings

Citi supplements its primary sources of funding with short-term borrowings. Short-term borrowings generally include (i) secured funding transactions (securities loaned or sold under agreements to repurchase, or repos) and (ii) to a lesser extent, short-term borrowings consisting of commercial paper and borrowings from the FHLB and other market participants (see Note 16 to the Consolidated Financial Statements for further information on Citigroup’s and its affiliates’ outstanding short-term borrowings).

Outside of secured funding transactions, Citi’s short-term borrowings increased 38% year-over-year driven primarily by an increase in FHLB borrowings, as Citi built and optimized liquidity across its legal entities. Sequentially, Citi’s short-term borrowings declined 19%, driven primarily by a decline in FHLB borrowings, as Citi continued to optimize its funding profile.

Secured Funding

Secured funding is primarily accessed through Citi’s broker-dealer subsidiaries to fund efficiently both secured lending activity and a portion of the securities inventory held in the context of market making and customer activities. Citi also executes a smaller portion of its secured funding transactions through its bank entities, which is typically collateralized by foreign government debt securities. Generally, daily changes in the level of Citi’s secured funding are primarily due to fluctuations in secured lending activity in the matched book (as described below) and securities inventory.

Secured funding of \$172 billion as of March 31, 2018 increased 16% from the prior-year period and 10% sequentially. Excluding the impact of FX translation, secured funding increased 10% from the prior-year period and 8% sequentially, both driven by normal business activity. Average balances for secured funding were approximately \$164 billion for the quarter ended March 31, 2018.

The portion of secured funding in the broker-dealer subsidiaries that funds secured lending is commonly referred to as “matched book” activity. The majority of this activity is secured by high-quality liquid securities such as U.S. Treasury securities, U.S. agency securities and foreign government debt securities. Other secured funding is secured by less-liquid securities, including equity securities, corporate bonds and asset-backed securities. The tenor of Citi’s matched book liabilities is generally equal to or longer than the tenor of the corresponding matched book assets.

The remainder of the secured funding activity in the broker-dealer subsidiaries serves to fund securities inventory held in the context of market making and customer activities. To maintain reliable funding under a wide range of market conditions, including under periods of stress, Citi manages these activities by taking into consideration the quality of the underlying collateral and stipulating financing tenor. The weighted average maturity of Citi’s secured funding of less-liquid securities inventory was greater than 110 days as of March 31, 2018.

Citi manages the risks in its secured funding by conducting daily stress tests to account for changes in capacity, tenors, haircut, collateral profile and client actions. Additionally, Citi maintains counterparty diversification by establishing concentration triggers and assessing counterparty reliability and stability under stress. Citi generally sources secured funding from more than 150 counterparties.

Liquidity Coverage Ratio (LCR)

In addition to internal liquidity stress metrics that Citi has developed for a 30-day stress scenario, Citi also monitors its liquidity by reference to the LCR, as calculated pursuant to the U.S. LCR rules. The table below sets forth the components of Citi’s LCR calculation and HQLA in excess of net outflows for the periods indicated:

Edgar Filing: CITIGROUP INC - Form 10-Q

In billions of dollars	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
HQLA	\$426.9	\$446.4	\$412.8
Net outflows	355.2	364.3	334.4
LCR	120	% 123	% 123
HQLA in excess of net outflows	\$71.7	\$82.1	\$78.4

Note: The amounts set forth in the table above are presented on an average basis.

As set forth in the table above, Citi's average LCR decreased modestly year-over-year, as an increase in average HQLA was more than offset by an increase in modeled net outflows. Sequentially, Citi's average LCR also decreased modestly, as Citi optimized its overall HQLA and deployed liquidity as it grew loans in GCB and ICG.

Credit Ratings

The table below sets forth the ratings for Citigroup and Citibank as of March 31, 2018. While not included in the table below, the long- and short-term ratings of Citigroup Global Markets Holdings Inc. (CGMHI) were BBB+/A-2 at Standard & Poor's and A/F1 at Fitch as of March 31, 2018.

	Citigroup Inc.			Citibank, N.A.		
	Senior debt	Commercial paper	Outlook	Long-term	Short-term	Outlook
Fitch Ratings (Fitch)	A	F1	Stable	A+	F1	Stable
Moody's Investors Service (Moody's)	Baa1	P-2	Positive	A1	P-1	Positive
Standard & Poor's (S&P)	BBB+	A-2	Stable	A+	A-1	Stable

Potential Impacts of Ratings Downgrades

Ratings downgrades by Moody's, Fitch or S&P could negatively impact Citigroup's and/or Citibank's funding and liquidity due to reduced funding capacity, including derivative triggers, which could take the form of cash obligations and collateral requirements.

The following information is provided for the purpose of analyzing the potential funding and liquidity impact to Citigroup and Citibank of a hypothetical, simultaneous ratings downgrade across all three major rating agencies. This analysis is subject to certain estimates, estimation methodologies, judgments and uncertainties. Uncertainties include potential ratings limitations that certain entities may have with respect to permissible counterparties, as well as general subjective counterparty behavior. For example, certain corporate customers and markets counterparties could re-evaluate their business relationships with Citi and limit transactions in certain contracts or market instruments with Citi. Changes in counterparty behavior could impact Citi's funding and liquidity, as well as the results of operations of certain of its businesses. The actual impact to Citigroup or Citibank is unpredictable and may differ materially from the potential funding and liquidity impacts described below. For additional information on the impact of credit rating changes on Citi and its applicable subsidiaries, see "Risk Factors—Liquidity Risks" in Citi's 2017 Annual Report on Form 10-K.

Citigroup Inc. and Citibank—Potential Derivative Triggers

As of March 31, 2018, Citi estimates that a hypothetical one-notch downgrade of the senior debt/long-term rating of Citigroup Inc. across all three major rating agencies could impact Citigroup's funding and liquidity due to derivative triggers by approximately \$0.4 billion, compared to \$0.8 billion as of December 31, 2017. Other funding sources, such as secured financing transactions and other margin requirements, for which there are no explicit triggers, could also be adversely affected.

As of March 31, 2018, Citi estimates that a hypothetical one-notch downgrade of the senior debt/long-term rating of Citibank across all three major rating agencies could impact Citibank's funding and liquidity by approximately \$0.4 billion, unchanged from December 31, 2017.

In total, Citi estimates that a one-notch downgrade of Citigroup and Citibank, across all three major rating agencies, could result in increased aggregate cash obligations and collateral requirements of approximately \$0.8 billion, compared to \$1.2 billion as of December 31, 2017 (see also Note 19 to the Consolidated Financial Statements). As set forth under "High-Quality Liquid Assets" above, the liquidity resources of Citibank which are transferable to Citigroup are approximately \$353 billion and the liquidity resources of Citi's non-bank and other entities which are transferable to Citigroup are approximately \$74 billion, for a total of approximately \$427 billion for the quarter ended March 31, 2018. These liquidity resources are available in part as a contingency for the potential events described above.

In addition, a broad range of mitigating actions are currently included in Citigroup's and Citibank's contingency funding plans. For Citigroup, these mitigating factors include, but are not limited to, accessing surplus funding capacity from existing clients, tailoring levels of secured lending and adjusting the size of select trading books and collateralized borrowings from certain Citibank subsidiaries. Mitigating actions available to Citibank include, but are not limited to, selling or financing highly liquid government securities, tailoring levels of secured lending, adjusting the size of select trading assets, reducing loan originations and renewals, raising additional deposits or borrowing from the FHLB or central banks. Citi believes these mitigating actions could

substantially reduce the funding and liquidity risk, if any, of the potential downgrades described above.

Citibank—Additional Potential Impacts

In addition to the above derivative triggers, Citi believes that a potential one-notch downgrade of Citibank's senior debt/long-term rating by S&P could also have an adverse impact on the commercial paper/short-term rating of Citibank. As of March 31, 2018, Citibank had liquidity commitments of approximately \$10.0 billion to consolidated asset-backed commercial paper conduits, compared to \$9.9 billion as of December 31, 2017 (as referenced in Note 18 to the Consolidated Financial Statements).

In addition to the above-referenced liquidity resources of certain Citibank and Citibanamex entities, Citibank could reduce the funding and liquidity risk, if any, of the potential downgrades described above through mitigating actions, including repricing or reducing certain commitments to commercial paper conduits. In the event of the potential downgrades described above, Citi believes that certain corporate customers could re-evaluate their deposit relationships with Citibank. This re-evaluation could result in clients adjusting their discretionary deposit levels or changing their depository institution, which could potentially reduce certain deposit levels at Citibank. However, Citi could choose to adjust pricing, offer alternative deposit products to its existing customers or seek to attract deposits from new customers, in addition to the mitigating actions referenced above.

MARKET RISK

Market risk emanates from both Citi's trading and non-trading portfolios. For additional information on market risk and market risk management at Citi, see "Market Risk" and "Risk Factors" in Citi's 2017 Annual Report on Form 10-K.

Market Risk of Non-Trading Portfolios

For additional information on Citi's net interest revenue (for interest rate exposure purposes), interest rate risk and interest rate risk measurement, see "Market Risk of Non-Trading Portfolios" in Citi's 2017 Annual Report on Form 10-K.

The following table sets forth the estimated impact to Citi's net interest revenue, AOCI and the Common Equity Tier 1 Capital ratio (on a fully implemented basis), each assuming an unanticipated parallel instantaneous 100 bps increase in interest rates:

In millions of dollars (unless otherwise noted)	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
Estimated annualized impact to net interest revenue			
U.S. dollar ⁽¹⁾	\$1,243	\$1,471	\$1,644
All other currencies	651	598	581
Total	\$1,894	\$2,069	\$2,225
As a percentage of average interest-earning assets	0.11	%0.12	%0.14
Estimated initial impact to AOCI (after-tax) ⁽²⁾	\$(4,955)	\$(4,853)	\$(3,830)
Estimated initial impact on Common Equity Tier 1 Capital ratio (bps) ⁽³⁾	(33)	(35)	(43)

Certain trading-oriented businesses within Citi have accrual-accounted positions that are excluded from the estimated impact to net interest revenue in the table, since these exposures are managed economically in combination with mark-to-market positions. The U.S. dollar interest rate exposure associated with these businesses was \$(186) million for a 100 basis point instantaneous increase in interest rates as of March 31, 2018.

(1) Includes the effect of changes in interest rates on AOCI related to investment securities, cash flow hedges and pension liability adjustments.

Results as of March 31, 2018 and December 31, 2017 reflect the impact of Tax Reform, including the lower expected effective tax rate and the impact to Citi's DTA position. Results as of March 31, 2017 have not been restated.

The estimated impact to net interest revenue decreased slightly on a sequential basis, reflecting changes in balance sheet composition, including increased sensitivity in deposits, net of Citi Treasury positioning. The sequential increase in the estimated impact to AOCI primarily reflected changes to the positioning of Citi Treasury's investment securities and related interest rate derivatives portfolio.

In the event of an unanticipated parallel instantaneous 100 bps increase in interest rates, Citi expects that the negative impact to AOCI would be offset in stockholders' equity through the combination of expected incremental net interest revenue and the expected recovery of the impact on AOCI through accretion of Citi's investment portfolio over a period of time. As of March 31, 2018, Citi expects that the negative \$5.0 billion impact to AOCI in such a scenario could potentially be offset over approximately 20 months.

The following table sets forth the estimated impact to Citi's net interest revenue, AOCI and the Common Equity Tier 1 Capital ratio (on a fully implemented basis) under four different changes in interest rate scenarios for the U.S. dollar and Citi's other currencies. While Citi also monitors the impact of a parallel decrease in interest rates, a 100 bps

decrease in short-term rates is not meaningful, as it would imply negative interest rates in many of Citi's markets.

In millions of dollars (unless otherwise noted)	Scenario 1	Scenario 2	Scenario 3	Scenario 4
Overnight rate change (bps)	100	100	—	—
10-year rate change (bps)	100	—	100	(100)
Estimated annualized impact to net interest revenue				
U.S. dollar	\$1,243	\$1,213	\$69	\$(82)
All other currencies	651	612	37	(37)
Total	\$1,894	\$1,825	\$106	\$(119)
Estimated initial impact to AOCI (after-tax) ⁽¹⁾	\$(4,955)	\$(2,951)	\$(2,172)	\$1,697
Estimated initial impact to Common Equity Tier 1 Capital ratio (bps)	(33)	(20)	(15)	11

Note: Each scenario in the table above assumes that the rate change will occur instantaneously. Changes in interest rates for maturities between the overnight rate and the 10-year rate are interpolated.

(1) Includes the effect of changes in interest rates on AOCI related to investment securities, cash flow hedges and pension liability adjustments.

As shown in the table above, the magnitude of the impact to Citi's net interest revenue and AOCI is greater under scenario 2 as compared to scenario 3. This is because the combination of changes to Citi's investment portfolio, partially offset by changes related to Citi's pension liabilities, results in a net position that is more sensitive to rates at shorter- and intermediate-term maturities.

In recent years, a number of central banks, including the European Central Bank, the Bank of Japan and the Swiss National Bank, have implemented negative interest rates, and additional governmental entities could do so in the future. While negative interest rates can adversely impact net interest revenue (as well as net interest margin), Citi has, to date, been able to partially offset the impact of negative rates in these jurisdictions through a combination of business and Citi Treasury interest rate risk mitigation activities, including applying negative rates to client accounts (for additional information on Citi Treasury's ongoing interest rate mitigation activities, see "Market Risk—Market Risk of Non-Trading Portfolios" in Citi's 2017 Annual Reporting on Form 10-K).

Changes in Foreign Exchange Rates—Impacts on AOCI and Capital

As of March 31, 2018, Citi estimates that an unanticipated parallel instantaneous 5% appreciation of the U.S. dollar against all of the other currencies in which Citi has invested capital could reduce Citi's tangible common equity (TCE) by approximately \$1.6 billion, or 1.0%, as a result of changes to Citi's foreign currency translation adjustment in AOCI, net of hedges. This impact would be primarily due to changes in the value of the Mexican peso, the Euro and the Australian dollar.

This impact is also before any mitigating actions Citi may take, including ongoing management of its foreign currency translation exposure. Specifically, as currency movements change the value of Citi's net investments in foreign currency-denominated capital, these movements also change the value of Citi's risk-weighted assets denominated in those currencies. This, coupled with Citi's foreign currency hedging strategies, such as foreign currency borrowings, foreign currency forwards and other currency hedging instruments, lessens the impact of foreign currency movements on Citi's Common Equity Tier 1 Capital ratio. Changes in these hedging strategies, as well as hedging costs, divestitures and tax impacts, can further affect the actual impact of changes in foreign exchange rates on Citi's capital as compared to an unanticipated parallel shock, as described above.

The effect of Citi's ongoing management strategies with respect to changes in foreign exchange rates and the impact of these changes on Citi's TCE and Common Equity Tier 1 Capital ratio are shown in the table below. For additional information on the changes in AOCI, see Note 17 to the Consolidated Financial Statements.

For the quarter ended

In millions of dollars (unless otherwise noted)	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
Change in FX spot rate ⁽¹⁾	2.5	%(1.2)	%4.5 %
Change in TCE due to FX translation, net of hedges	\$676	\$(498)	\$654
As a percentage of TCE	0.4	%(0.3)	%0.4 %
Estimated impact to Common Equity Tier 1 Capital ratio (on a fully implemented basis) due to changes in FX translation, net of hedges (bps)	(2)	(5)	(2)

(1) FX spot rate change is a weighted average based upon Citi's quarterly average GAAP capital exposure to foreign countries.

Interest Revenue/Expense and Net Interest Margin

	1st Qtr.	4th Qtr.	1st Qtr.	Change
In millions of dollars, except as otherwise noted	2018	2017	2017	1Q18 vs. 1Q17
Interest revenue ⁽¹⁾	\$ 16,396	\$ 15,978	\$ 14,644	12 %
Interest expense ⁽²⁾	5,160	4,537	3,566	45
Net interest revenue	\$ 11,236	\$ 11,441	\$ 11,078	1 %
Interest revenue—average rate	3.85 %	3.70 %	3.65 %	20 bps
Interest expense—average rate	1.56	1.36	1.16	40 bps
Net interest margin ⁽³⁾	2.64	2.65	2.76	(12) bps
Interest-rate benchmarks				
Two-year U.S. Treasury note—average rate	2.16 %	1.69 %	1.24 %	92 bps
10-year U.S. Treasury note—average rate	2.76	2.37	2.45	31 bps
10-year vs. two-year spread	60 bps	68 bps	121 bps	

Note: All interest expense amounts include FDIC, as well as other similar deposit insurance assessments outside of the U.S.

- (1) Net interest revenue includes the taxable equivalent adjustments related to the tax-exempt bond portfolio (based on the U.S. federal statutory tax rates of 21% in 2018 and 35% in 2017) of \$64 million, \$128 million, and \$123 million for the three months ended March 31, 2018, December 31, 2017 and March 31, 2017, respectively.

- (2) Interest expense associated with certain hybrid financial instruments, which are classified as Long-term debt and accounted for at fair value, is reported together with any changes in fair value as part of Principal transactions in the Consolidated Statements of Income and is therefore not reflected in Interest expense in the table above.

- (3) Citi's net interest margin (NIM) is calculated by dividing gross interest revenue less gross interest expense by average interest-earning assets.

Citi's net interest revenue in the first quarter of 2018 increased 2% to \$11.2 billion (as set forth in the table above, up 1% on a taxable equivalent basis) versus the prior-year period. Excluding the impact of FX translation, net interest revenue increased approximately \$90 million, primarily due to higher net interest revenue from Citi's core accrual activities, which are mainly driven by its deposit and lending businesses (\$10.7 billion, up approximately 8% or \$0.8 billion), largely offset by lower trading-related net interest revenue (\$0.2 billion, down approximately 69% or \$0.5 billion) and lower net interest revenue associated with the wind-down of legacy assets in Corporate/Other (\$0.3 billion, down approximately 38% or \$0.2 billion). The increase in the core accrual net interest revenue was driven mainly by the benefit of the March 2017,

June 2017 and December 2017 interest rate increases and loan growth.

Citi's NIM was 2.64% on a taxable equivalent basis in the first quarter of 2018, a decrease of 12 bps from the prior-year period, driven primarily by lower trading-related NIM. Citi's core accrual NIM was 3.54%, an increase of 3 bps versus the prior-year period, as the higher core accrual net interest revenue was partially offset by balance sheet growth, particularly in cash balances. (Citi's core accrual net interest revenue and core accrual NIM are non-GAAP financial measures.)

Net interest revenue includes the taxable equivalent adjustments related to the tax-exempt bond portfolio (based on (1) the U.S. federal statutory tax rates of 21% in 2018 and 35% in 2017) of \$64 million, \$128 million, and \$123 million for the three months ended March 31, 2018, December 31, 2018 and March 31, 2017, respectively.

(2) Interest rates and amounts include the effects of risk management activities associated with the respective asset categories.

(3) Monthly or quarterly averages have been used by certain subsidiaries where daily averages are unavailable.

(4) Average rates reflect prevailing local interest rates, including inflationary effects and monetary corrections in certain countries.

(5) Average volumes of securities borrowed or purchased under agreements to resell are reported net pursuant to ASC 210-20-45. However, Interest revenue excludes the impact of ASC 210-20-45.

(6) The fair value carrying amounts of derivative contracts are reported net, pursuant to ASC 815-10-45, in Non-interest-earning assets and Other non-interest-bearing liabilities.

Interest expense on Trading account liabilities of ICG is reported as a reduction of Interest revenue. Interest revenue and Interest expense on cash collateral positions are reported in interest on Trading account assets and Trading account liabilities, respectively.

(8) Includes cash-basis loans.

(9)Includes brokerage receivables.

Net interest revenue includes the taxable equivalent adjustments related to the tax-exempt bond portfolio (based on (1) the U.S. federal statutory tax rates of 21% in 2018 and 35% in 2017) of \$64 million, \$128 million, and \$123 million for the three months ended March 31, 2018, December 31, 2018 and March 31, 2017, respectively.

(2) Interest rates and amounts include the effects of risk management activities associated with the respective liability categories.

- (3) Monthly or quarterly averages have been used by certain subsidiaries where daily averages are unavailable.
Consists of other time deposits and savings deposits. Savings deposits are made up of insured money market
- (4) accounts, NOW accounts and other savings deposits. The interest expense on savings deposits includes FDIC deposit insurance assessments.
- (5) Average rates reflect prevailing local interest rates, including inflationary effects and monetary corrections in certain countries.
- (6) Average volumes of securities sold under agreements to repurchase are reported net pursuant to ASC 210-20-45. However, Interest expense excludes the impact of ASC 210-20-45.
- (7) The fair value carrying amounts of derivative contracts are reported net, pursuant to ASC 815-10-45, in Non-interest-earning assets and Other non-interest-bearing liabilities.

Interest expense on Trading account liabilities of ICG is reported as a reduction of Interest revenue. Interest revenue and Interest expense on cash collateral positions are reported in interest on Trading account assets and Trading account liabilities, respectively.

(9) Includes brokerage payables.

(10) Excludes hybrid financial instruments and beneficial interests in consolidated VIEs that are classified as

Long-term debt, as the changes in fair value for these obligations are recorded in Principal transactions.

(11) Includes allocations for capital and funding costs based on the location of the asset.

Market Risk of Trading Portfolios

For additional information on Citi's market risk of trading portfolios, see "Market Risk—Market Risk of Trading Portfolios" in Citi's 2017 Annual Report on Form 10-K.

Value at Risk

As of March 31, 2018, Citi estimates that the conservative features of its VAR calibration contribute an approximate 17% add-on to what would be a VAR estimated under the assumption of stable and perfectly normal distributed markets. As of December 31, 2017, the add-on was 20%.

As set forth in the table below, Citi's average trading VAR as of March 31, 2018 increased compared to December 31, 2017. The increase was due to higher average credit spread risk, foreign exchange risk and equity risk in the Markets businesses within ICG. The increase of average trading and credit portfolio VAR was in line with the increase of average trading VAR. The average incremental impact of the credit portfolio was materially unchanged from December 31, 2017 to March 31, 2018.

Quarter-end and Average Trading VAR and Trading and Credit Portfolio VAR

In millions of dollars	First Quarter		Fourth Quarter		First Quarter	
	March 31, 2018	2018 Average	December 31, 2017	2017 Average	March 31, 2017	2017 Average
Interest rate	\$84	\$ 68	\$ 69	\$ 68	\$52	\$ 48
Credit spread	52	49	54	45	54	\$ 56
Covariance adjustment ⁽¹⁾	(24)	(25)	(25)	(27)	(17)	(17)
Fully diversified interest rate and credit spread ⁽²⁾	\$112	\$ 92	\$ 98	\$ 86	\$89	\$ 87
Foreign exchange	33	30	25	26	16	24
Equity	20	22	17	18	17	15
Commodity	19	20	17	19	23	23
Covariance adjustment ⁽¹⁾	(73)	(71)	(63)	(64)	(53)	(63)
Total trading VAR—all market risk factors, including general and specific risk (excluding credit portfolios) ⁽²⁾	\$111	\$ 93	\$ 94	\$ 85	\$92	\$ 86
Specific risk-only component ⁽³⁾	\$3	\$ 3	\$ —	\$ 2	\$—	\$ 2
Total trading VAR—general market risk factors only (excluding credit portfolios)	\$108	\$ 90	\$ 94	\$ 83	\$92	\$ 84
Incremental impact of the credit portfolio ⁽⁴⁾	\$5	\$ 9	\$ 11	\$ 8	\$15	\$ 14
Total trading and credit portfolio VAR	\$116	\$ 102	\$ 105	\$ 93	\$107	\$ 100

Covariance adjustment (also known as diversification benefit) equals the difference between the total VAR and the sum of the VARs tied to each individual risk type. The benefit reflects the fact that the risks within each and across

(1) risk types are not perfectly correlated and, consequently, the total VAR on a given day will be lower than the sum of the VARs relating to each individual risk type. The determination of the primary drivers of changes to the covariance adjustment is made by an examination of the impact of both model parameter and position changes.

The total trading VAR includes mark-to-market and certain fair value option trading positions in ICG, with the

(2) exception of hedges to the loan portfolio, fair value option loans and all CVA exposures. Available-for-sale and accrual exposures are not included.

(3) The specific risk-only component represents the level of equity and fixed income issuer-specific risk embedded in VAR.

(4) The credit portfolio is composed of mark-to-market positions associated with non-trading business units including Citi Treasury, the CVA relating to derivative counterparties and all associated CVA hedges. FVA and DVA are not included. The credit portfolio also includes hedges to the loan portfolio, fair value option loans and hedges to the

leveraged finance pipeline within capital markets origination in ICG.

The table below provides the range of market factor VARs associated with Citi's total trading VAR, inclusive of specific risk:

	First Quarter 2018		Fourth Quarter 2017		First Quarter 2017	
In millions of dollars	Low	High	Low	High	Low	High
Interest rate	\$50	\$89	\$46	\$89	\$29	\$70
Credit spread	45	53	40	54	51	63
Fully diversified interest rate and credit spread	\$78	\$117	\$75	\$101	\$59	\$109
Foreign exchange	24	44	20	49	16	35
Equity	16	32	12	27	6	25
Commodity	16	23	13	27	18	30
Total trading	\$79	\$118	\$68	\$101	\$61	\$107
Total trading and credit portfolio	88	124	76	107	75	123

Note: No covariance adjustment can be inferred from the above table as the high and low for each market factor will be from different close-of-business dates.

The following table provides the VAR for ICG, excluding the CVA relating to derivative counterparties, hedges of CVA, fair value option loans and hedges to the loan portfolio:

	Mar. 31, 2018
In millions of dollars	
Total—all market risk factors, including general and specific risk	
Average—during quarter	\$ 92
High—during quarter	119
Low—during quarter	78

Regulatory VAR Back-testing

In accordance with Basel III, Citi is required to perform back-testing to evaluate the effectiveness of its Regulatory VAR model. Regulatory VAR back-testing is the process in which the daily one-day VAR, at a 99% confidence interval, is compared to the buy-and-hold profit and loss (i.e., the profit and loss impact if the portfolio is held constant at the end of the day and re-priced the following day). Buy-and-hold profit and loss represents the daily mark-to-market profit and loss attributable to price movements in covered positions from the close of the previous business day. Buy-and-hold profit and loss excludes realized trading revenue, net interest, fees and commissions, intra-day trading profit and loss and changes in reserves.

Based on a 99% confidence level, Citi would expect two to three days in any one year where buy-and-hold losses exceeded the Regulatory VAR. Given the conservative calibration of Citi's VAR model (as a result of taking the greater of short- and long-term volatilities and fat-tail scaling of volatilities), Citi would expect fewer exceptions under normal and stable market conditions. Periods of unstable market conditions could increase the number of back-testing exceptions.

As of March 31, 2018, there were no back-testing exceptions observed for Citi's Regulatory VAR for the prior 12 months.

Country Risk

For additional information on country risk at Citi, see “Country Risk” in Citi’s 2017 Annual Report on Form 10-K.

Top 25 Country Exposures

The following table presents Citi’s top 25 exposures by country (excluding the U.S.) as of March 31, 2018. The total exposure as of March 31, 2018 to the top 25 countries disclosed below, in combination with the U.S., would represent approximately 94% of Citi’s exposure to all countries. For purposes of the table, loan amounts are reflected in the country where the loan is booked, which is generally based on the domicile of the borrower. For example, a loan to a Chinese subsidiary of a Switzerland-based corporation will generally be categorized as a loan in China. In addition, Citi has developed regional booking centers in certain countries, most significantly in the United Kingdom (U.K.) and Ireland,

in order to more efficiently serve its corporate customers. As an example, with respect to the U.K., only 28% of corporate

loans presented in the table below are to U.K. domiciled entities (30% for unfunded commitments), with the balance of the loans predominately to European domiciled counterparties.

Approximately 83% of the total U.K. funded loans and 90% of the total U.K. unfunded commitments were investment grade

as of March 31, 2018. Trading account assets and investment securities are generally categorized based on the domicile of the issuer of the security of the underlying reference entity. For additional information on the assets included in the table, see the footnotes to the table below.

For a discussion of uncertainties arising as a result of the terms and other uncertainties resulting from the U.K.’s potential exit from the EU, see “Risk Factors—Strategic Risks” in Citigroup’s 2017 Annual Report on Form 10-K.

ICG loans reflect funded corporate loans and private bank loans, net of unearned income. As of March 31, 2018, (1)private bank loans in the table above totaled \$24.1 billion, concentrated in Hong Kong (\$7.1 billion), Singapore (\$7.0 billion) and the U.K. (\$5.3 billion).

- (2) GCB loans include funded loans in Colombia related to businesses that were transferred to Corporate/Other as of January 1, 2016.
- (3) Other funded includes other direct exposure such as accounts receivable, loans HFS, other loans in Corporate/Other and investments accounted for under the equity method.
- (4) Unfunded exposure includes unfunded corporate lending commitments, letters of credit and other contingencies.
- (5) Net mark-to-market counterparty risk on OTC derivatives and securities lending/borrowing transactions (repos). Exposures are shown net of collateral and inclusive of CVA. Includes margin loans.
- (6) Investment securities include securities available-for-sale, recorded at fair market value, and securities held-to-maturity, recorded at historical cost.
- (7) Trading account assets are shown on a net basis and include issuer risk on cash products and derivative exposure where the underlying reference entity/issuer is located in that country.

INCOME TAXES

Deferred Tax Assets

For additional information on Citi's deferred tax assets (DTAs), see "Risk Factors—Strategic Risks," "Significant Accounting Policies and Significant Estimates—Income Taxes" and Notes 1 and 9 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

At March 31, 2018, Citigroup had recorded net DTAs of approximately \$23.0 billion, an increase of \$0.5 billion from December 31, 2017. The increase was primarily driven by losses in Other Comprehensive Income and adoption of ASU 2016-16 (see Note 1 to the Consolidated Financial Statements), partially offset by earnings.

The following table summarizes Citi's net DTAs balance. Of Citi's net DTAs as of March 31, 2018, those arising from net operating losses, foreign tax credit and general business credit carry-forwards are 100% deducted in calculating Citi's regulatory capital, while DTAs arising from temporary differences are deducted from regulatory capital if in excess of the 10%/15% limitations. Despite a \$0.5 billion increase in net DTAs from December 31, 2017, Citi was able to reduce the amount of DTAs arising from net operating losses, foreign tax credits and general business credit carry-forwards by \$0.3 billion, thereby reducing the amount of DTAs that were excluded from Common Equity Tier 1 Capital from \$12.3 billion to \$12.0 billion as of March 31, 2018. There were no DTAs in excess of the 10%/15% limitations as of March 31, 2018, (see "Capital Resources" above). Thus, approximately \$11.0 billion of net DTAs were not deducted in calculating regulatory capital pursuant to Basel III standards as of March 31, 2018 and were appropriately risk weighted as per those rules.

Jurisdiction/Component DTAs balance

In billions of dollars	March 31, 2018	December 31, 2017
Total U.S.	\$20.3	\$ 19.9
Total foreign	2.7	2.6
Total	\$23.0	\$ 22.5

Effective Tax Rate

Citi's effective tax rate for the first quarter of 2018 was 23.7%, as compared with 31.1% in the first quarter of 2017. The decrease in the effective tax rate was primarily due to the lower U.S. federal statutory tax rate pursuant to Tax Reform. The 23.7% effective tax rate was lower than the roughly 25% expected rate for the full year 2018 due to discrete tax items in the first quarter of 2018.

SEC Staff Accounting Bulletin 118

Citi's first quarter of 2018 tax provision did not include any material changes to Citi's provisional income tax estimates recorded in the fourth quarter of 2017.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

Accounting for Financial Instruments—Credit Losses

In June 2016, the Financial Accounting Standards Board (FASB) issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326). The ASU introduces a new credit loss methodology, Current Expected Credit Losses (CECL) methodology, which requires earlier recognition of credit losses, while also providing additional transparency about credit risk.

The CECL methodology utilizes a lifetime “expected credit loss” measurement objective for the recognition of credit losses for loans, held-to-maturity debt securities and other receivables at the time the financial asset is originated or acquired. The expected credit losses (ECL) are adjusted each period for changes in expected lifetime credit losses. This methodology replaces the multiple existing impairment methods in current GAAP, which generally require that a loss be incurred before it is recognized. For available-for-sale debt securities where fair value is less than cost, credit-related impairment, if any, will be recognized through an allowance for credit losses and adjusted each period for changes in credit risk.

The CECL methodology represents a significant change from existing GAAP and may result in material changes to the Company’s accounting for financial instruments. The Company is evaluating the effect that ASU 2016-13 will have on its Consolidated Financial Statements and related disclosures. The impact of the ASU will depend upon the state of the economy and the nature of Citi’s portfolios at the date of adoption. Based on a preliminary analysis performed in 2017 and the environment and portfolios at that time, the overall impact was estimated to be an approximate 10% to 20% increase in credit reserves as of that time. Moreover, there are still some implementation questions, including whether it is permitted to include estimated recoveries on fully written-off accounts in the ECL, whether reversal of accrued interest on non-accrual loans can be reflected in interest revenue, and whether internal refinancings on wholesale loans are considered to be prepayments, that will need to be resolved that could affect the estimated impact. The ASU will be effective for Citi as of January 1, 2020. For additional information, see “Capital Resources—Regulatory Capital Treatment—Implementation and Transition of the Current Expected Credit Losses (CECL) Methodology” above.

Lease Accounting

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which is intended to increase transparency and comparability of accounting for lease transactions. The ASU will require lessees to recognize leases on the balance sheet as lease assets and lease liabilities and will require both quantitative and qualitative disclosures regarding key information about leasing arrangements. Lessor accounting is largely unchanged. The guidance is effective beginning January 1, 2019 with an option to early adopt. The Company does not plan to early adopt the ASU. The Company estimates that upon adoption, its Consolidated Balance Sheet will have

an approximate \$5 billion increase in assets and liabilities. Additionally, the Company estimates an approximate \$200 million increase in retained earnings due to the cumulative effect of recognizing previously deferred gains on sale/leaseback transactions.

Subsequent Measurement of Goodwill

In January 2017, the FASB issued ASU No. 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. The ASU simplifies the subsequent measurement of goodwill impairment by eliminating the requirement to calculate the implied fair value of goodwill (i.e., the current Step 2 of the goodwill impairment test) to measure a goodwill impairment charge. Under the ASU, the impairment test is the comparison of the fair value of a reporting unit with its carrying amount (the current Step 1), with the impairment charge being the deficit in fair value but not exceeding the total amount of goodwill allocated to that reporting unit. The simplified one-step impairment test applies to all reporting units (including those with zero or negative carrying amounts). The ASU will be effective for Citi as of January 1, 2020, with early adoption permitted. The impact of the ASU will depend upon the performance of Citi’s reporting units and the market conditions impacting the fair value of each reporting unit going forward.

See Note 1 to the Consolidated Financial Statements for a discussion of “Accounting Changes.”

DISCLOSURE CONTROLS AND PROCEDURES

Citi's disclosure controls and procedures are designed to ensure that information required to be disclosed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including without limitation that information required to be disclosed by Citi in its SEC filings is accumulated and communicated to management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow for timely decisions regarding required disclosure. Citi's Disclosure Committee assists the CEO and CFO in their responsibilities to design, establish, maintain and evaluate the effectiveness of Citi's disclosure controls and procedures. The Disclosure Committee is responsible for, among other things, the oversight, maintenance and implementation of the disclosure controls and procedures, subject to the supervision and oversight of the CEO and CFO.

Citi's management, with the participation of its CEO and CFO, has evaluated the effectiveness of Citigroup's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2018 and, based on that evaluation, the CEO and CFO have concluded that at that date, Citigroup's disclosure controls and procedures were effective.

DISCLOSURE PURSUANT TO SECTION 219 OF THE IRAN THREAT REDUCTION AND SYRIA HUMAN RIGHTS ACT

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, which added Section 13(r) to the Securities Exchange Act of 1934, as amended, Citi is required to disclose in its annual or quarterly reports, as applicable, whether it or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or with individuals or entities that are subject to sanctions under U.S. law. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable law. Citi had no reportable activities pursuant to Section 219 for the first quarter of 2018.

FORWARD-LOOKING STATEMENTS

Certain statements in this Form 10-Q, including but not limited to statements included within the Management's Discussion and Analysis of Financial Condition and Results of Operations, are "forward-looking statements" within the meaning of the rules and regulations of the SEC. In addition, Citigroup also may make forward-looking statements in its other documents filed or furnished with the SEC, and its management may make forward-looking statements orally to analysts, investors, representatives of the media and others.

Generally, forward-looking statements are not based on historical facts but instead represent Citigroup's and its management's beliefs regarding future events. Such statements may be identified by words such as believe, expect, anticipate, intend, estimate, may increase, may fluctuate, target, illustrative, and similar expressions or future or conditional verbs such as will, should, would and could.

Such statements are based on management's current expectations and are subject to risks, uncertainties and changes in circumstances. Actual results and capital and other financial conditions may differ materially from those included in these statements due to a variety of factors, including without limitation (i) the precautionary statements included within each individual business's discussion and analysis of its results of operations above and in Citi's 2017 Annual Report on Form 10-K; (ii) the factors listed and described under "Risk Factors" in Citi's 2017 Annual Report on Form 10-K; and (iii) the risks and uncertainties summarized below:

the potential impact on Citi's ability to return capital to common shareholders, consistent with its capital optimization efforts and targets, due to, among other things, Citi's results of operations, Citi's ability to effectively manage its level of risk weighted assets and GSIB surcharge, potential changes to the regulatory capital framework, the CCAR process and the results of regulatory stress tests or any changes to the stress testing and CCAR requirements or process, such as the proposed introduction of a firm-specific "stress capital buffer" (SCB), including as a result of any year-to-year variability resulting from the SCB and the impact on Citi's estimated management buffer;

the ongoing regulatory and other uncertainties and changes faced by financial institutions, including Citi, in the U.S. and globally, including, among others, uncertainties and potential changes to various aspects of the regulatory capital framework, and the potential impact these uncertainties and changes could have on Citi's businesses, results of operations, financial condition, strategy or organizational structure and compliance risks and costs; Citi's ability to utilize its remaining DTAs (including the foreign tax credit component of its DTAs) and thus reduce the negative impact of the DTAs on Citi's regulatory capital, including as a result of its ability to generate U.S. taxable income and by the provisions of and guidance issued in connection with Tax Reform;

the potential impact to Citi if its interpretation or application of the complex tax laws to which it is subject, such as withholding tax obligations and stamp and other transactional taxes, differs from those of the relevant governmental authorities;

Citi's ability to achieve the expected returns on its ongoing investments in its businesses and efficiency initiatives, as part of its operational and financial objectives and targets, including as a result of factors that Citi cannot control; the potential impact from declining sales and revenues or other difficulties of any retailer or merchant with whom Citi has a co-branding or private label credit card relationship, termination of a particular relationship, or external factors affecting such retailer or merchant, including bankruptcies, liquidations, consolidations and other similar events, and the potential negative impact such an event could have on Citi, including as a result of loss of revenues, higher cost of credit, impairment of purchased credit card relationships and contract-related intangibles or other losses; the potential impact to Citi's businesses, credit costs, deposits, revenues or other results of operations and financial condition as a result of macroeconomic and geopolitical challenges and uncertainties and volatility, including the process for the U.K. to withdraw from the European Union, governmental fiscal and monetary actions, or expected actions, such as changes in the federal funds rate and any balance sheet normalization program implemented by the Federal Reserve Board or other central banks, the further pursuit of protectionist trade or other related policies by the U.S. and/or other countries, or geopolitical disputes or other instabilities, including those in Asia, the Middle East or elsewhere;

the various risks faced by Citi as a result of its presence in the emerging markets, including, among others, sovereign volatility, political events, foreign exchange controls, limitations on foreign investment, sociopolitical instability (including from hyper-inflation), fraud, nationalization or loss of licenses, business restrictions, sanctions or asset freezes, potential criminal charges, closure of branches or subsidiaries and confiscation of assets as well as the increased compliance, regulatory and legal risks and costs;

Citi's ability in its resolution plan submissions to address any deficiencies identified or future guidance provided by the Federal Reserve Board and FDIC;

the potential impact on Citi's performance, including its competitive position and ability to effectively manage its businesses and continue to execute its strategies, if Citi is unable to hire and retain highly qualified employees for any reason;

Citi's ability to effectively compete with U.S. and non-U.S. financial services companies and others;

the potential impact of concentrations of risk, such as credit and market risk arising from the size and volume of Citi's transactions with counterparties in the public sector, including the U.S. government and its agencies, or in the financial services industry, on Citi's results of operations;

the potential impacts on Citi's liquidity and/or costs of funding as a result of external factors, including, among others, market disruptions and governmental fiscal and monetary policies as well as regulatory changes or negative investor perceptions of Citi's creditworthiness;

the impact of ratings downgrades of Citi or one or more of its more significant subsidiaries or issuing entities on Citi's funding and liquidity as well as the results of operations of certain of its businesses;

the potential impact to Citi from a disruption of its operational systems, including as a result of, among other things, human error, fraud or malice, accidental technological failure, electrical or telecommunication outages or failure of computer servers, or other similar damage to Citi's property or assets, or failures by third parties with whom Citi does business, as well as disruptions in the operations of Citi's clients, customers or other third parties;

the increasing risk of continually evolving, sophisticated cybersecurity risks faced by financial institutions, including Citi and third parties with whom it does business, and others (such as theft of funds or theft, loss, misuse or disclosure of confidential client, customer, corporate or network information or assets and other attempts by unauthorized parties to disrupt computer and network systems), and the potential impact from such risks, including, among others, reputational damage with clients, customers and others, lost revenues, additional costs (including credit, remediation and other costs), regulatory penalties and inquiries, legal exposure and other financial losses;

the potential impact of incorrect assumptions or estimates in Citi's financial statements or the impact of ongoing changes to financial accounting and reporting standards or interpretations, such as the FASB's 2020 accounting standard on credit losses, on how Citi records and reports its financial condition and results of operations;

the potential impact to Citi's results of operations and/or regulatory capital and capital ratios if Citi's risk management process, strategies or models, including those related to its ability to manage and aggregate data, are deficient or ineffective, require refinement, modification or enhancement or any approval is withdrawn by Citi's U.S. banking regulators;

the potential impact to Citi of ongoing implementation and interpretation of regulatory changes and requirements in the U.S. and globally, such as on Citi's compliance

risks and costs, including reputational and legal risks as well as remediation and other financial costs, such as penalties and fines; and

the potential outcomes of the extensive legal and regulatory proceedings, investigations and other inquiries to which Citi is or may be subject at any given time, particularly given the increased focus on conduct risk and the severity of the remedies sought and potential collateral consequences to Citi arising from such outcomes.

Any forward-looking statements made by or on behalf of Citigroup speak only as to the date they are made, and Citi does not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements were made.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND ACCOUNTING CHANGES

Basis of Presentation

The accompanying unaudited Consolidated Financial Statements as of March 31, 2018 and for the three-month periods ended March 31, 2018 and 2017 include the accounts of Citigroup Inc. and its consolidated subsidiaries. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation have been reflected. The accompanying unaudited Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and related notes included in Citigroup's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Certain financial information that is normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP), but is not required for interim reporting purposes, has been condensed or omitted.

Management must make estimates and assumptions that affect the Consolidated Financial Statements and the related footnote disclosures. While management uses its best judgment, actual results could differ from those estimates.

As noted above, the Notes to Consolidated Financial Statements are unaudited.

Throughout these Notes, "Citigroup," "Citi" and the "Company" refer to Citigroup Inc. and its consolidated subsidiaries. Certain reclassifications have been made to the prior periods' financial statements and notes to conform to the current period's presentation.

ACCOUNTING CHANGES

Revenue Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU 2014-09, Revenue from Contracts with Customers (Revenue Recognition), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The core principle of the revenue model is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU defines the promised good or service as the performance obligation under the contract.

While the guidance replaces most existing revenue recognition guidance in GAAP, the ASU is not applicable to financial instruments and, therefore, does not impact a majority of the Company's revenues, including net interest income, loan fees, gains on sales and mark-to-market accounting.

In accordance with the new revenue recognition standard, Citi has identified the specific performance obligation (promised services) associated with the contract with the customer and has determined when that specific

performance obligation has been satisfied, which may be at a point in time or over time depending on how the performance obligation is defined. The contracts with customers also contain the transaction price, which consists of fixed consideration and/or consideration that may vary (variable consideration), and is defined as the amount of consideration an entity expects to be entitled to when or as the performance obligation is satisfied, excluding amounts collected on behalf of third parties (including transaction taxes). The amounts recognized at the point in time the performance obligation is satisfied may differ from the ultimate transaction price associated with that performance obligation when a portion of it is based on variable consideration. For example some consideration is based on the client's month-end balance or market values which are unknown at the time the contract is executed. The remaining transaction price amount, if any, will be recognized as the variable consideration becomes determinable. In certain transactions, the performance obligation is considered satisfied at a point in time in the future. In this instance, Citi defers revenue on the balance sheet that will only be recognized upon completion of the performance obligation. The new revenue recognition standard further clarified the guidance related to reporting revenue gross as principal versus net as an agent. In many cases, Citi outsources a component of its performance obligations to third parties. The Company has determined that it acts as principal in the majority of these transactions and therefore presents the

amounts paid to these third parties gross within operating expenses.

The Company has retrospectively adopted this standard as of January 1, 2018 and as a result was required to report amounts paid to third parties where Citi is principal to the contract within Operating expenses. The adoption resulted in an increase in both revenue and expenses of approximately \$250 million for the three-month periods ended March 31, 2018 and March 31, 2017, respectively, while increasing approximately \$1 billion for the year ended December 31, 2017 with similar amounts for prior periods. Prior to adoption, these expense amounts were reported as contra revenue primarily within Commissions and fees and Administration and other fiduciary fees revenue. Accordingly, prior periods have been reclassified to conform to the new presentation.

See Note 5 to the Consolidated Financial Statements for a description of the Company's revenue recognition policies for Commissions and fees and Administration and other fiduciary fees.

Income Tax Impact of Intra-Entity Transfers of Assets

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes—Intra-Entity Transfers of Assets Other Than Inventory, which requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The ASU was effective January 1, 2018 and was adopted as of that date. The impact of this standard was an increase of DTAs by

approximately \$300 million, a decrease of retained earnings by approximately \$80 million and a decrease of prepaid tax assets by approximately \$380 million.

Clarifying the Definition of a Business

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The definition of a business directly and indirectly affects many areas of accounting (e.g., acquisitions, disposals, goodwill and consolidation). The ASU narrows the definition of a business by introducing a quantitative screen as the first step, such that if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets, the set of transferred assets and activities is not a business. If the set is not scoped out from the quantitative screen, the entity then evaluates whether the set meets the requirement that a business include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs.

The ASU was effective for public entities, including Citi, as of January 1, 2018 with prospective application. The impact of the ASU will depend upon the acquisition and disposal activities of Citi. If fewer transactions qualify as a business, there could be less initial recognition of goodwill, but also less goodwill allocated to disposals.

Changes in Accounting for Pension and Postretirement (Benefit) Expense

In March 2017, the FASB issued ASU No. 2017-07, Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which changes the income statement presentation of net benefit expense and requires restating the Company's financial statements for each of the earlier periods presented in Citi's annual and interim financial statements. The change in presentation was effective for annual and interim periods starting January 1, 2018. The ASU requires that only the service cost component of net benefit expense be included in Compensation and benefits on the income statement. The other components of net benefit expense will be required to be presented outside of Compensation and benefits and will be presented in Other operating expense. Since both of these income statement line items are part of Operating expenses, total Operating expenses will not change, nor will there be any change in Net income. This change in presentation did not have a material effect on Compensation and benefits and Other operating expenses and is applied prospectively. The components of the net benefit expense are currently disclosed in Note 7 to the Consolidated Financial Statements.

The new standard also changes the components of net benefit expense that are eligible for capitalization when employee costs are capitalized in connection with various activities, such as internally developed software, construction-in-progress, and loan origination costs. Prospectively from January 1, 2018, only the service cost component of net benefit expense may be capitalized. Existing capitalized balances are not affected. This change in

amounts eligible for capitalization does not have a material effect on the Company's Consolidated Financial Statements and related disclosures.

Hedging

In August 2017, the FASB issued ASU No. 2017-12, Targeted Improvements to Accounting for Hedging Activities, which better aligns an entity's risk management activities and financial reporting for hedging relationships through changes to the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. The ASU requires the change in the fair value of the hedging instrument to be presented in the same income statement line as the hedged item and also requires expanded disclosures. Citi adopted this standard on January 1, 2018 and transferred approximately \$4 billion of pre-payable mortgage backed securities and municipal bonds held-to-maturity (HTM) securities into available-for-sale (AFS) classification as permitted as a one-time transfer under the standard as these assets were deemed to be eligible to be hedged under the last of layer hedge strategy. The impact to opening retained earnings was immaterial. See Note 19 to the Consolidated Financial Statements for more information.

Recognition and Measurement of Financial Assets and Financial Liabilities

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments. In February 2018, the FASB issued ASU No. 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10), to clarify certain provisions in ASU 2016-01.

The ASUs require entities to present separately in AOCI the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. It also requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, thus eliminating the AFS category for equity investments. However, Federal Reserve Bank and Federal Home Loan Bank stock, as well as certain exchange seats, will continue to be presented at cost. The ASUs also provide an instrument-by-instrument election to measure non-marketable equity investments using a measurement alternative. Under the measurement alternative, the investment is carried at cost plus or minus changes resulting from observable prices in orderly transactions for the identical or a similar investment of the same issuer, less impairment (if any). Finally, the ASUs require that fair value disclosures for financial instruments not measured at fair value on the balance sheet be presented at their exit prices (e.g., held-for-investment loans).

Citi early adopted the provisions of ASU 2016-01

related to presentation of the change in fair value of liabilities for which the fair value option was elected, related to changes in Citigroup's own credit spreads in Accumulated other comprehensive income (loss) (AOCI) effective January 1, 2016. Accordingly, since the first quarter of 2016, these amounts have been reflected as a component of AOCI, whereas these amounts were previously recognized in Citigroup's revenues and net income. The impact of adopting this amendment resulted in a cumulative catch-up reclassification from retained earnings to AOCI of an accumulated after-tax loss of approximately \$15 million at January 1, 2016. Financial statements for periods prior to 2016 were not subject to restatement under the provisions of this ASU. For additional information, see Notes 17, 20 and 21 to the Consolidated Financial Statements.

The other provisions of ASU 2016-01 are effective January 1, 2018. The provisions of ASU 2018-03 are effective July 1, 2018 for interim financial statements, but may be early adopted in any interim period starting January 1, 2018 as long as ASU 2016-01 is also adopted. Citi has adopted both ASU 2016-01 and ASU 2018-03 as of January 1, 2018. Accordingly, as of the first quarter of 2018, the changes to accounting for equity securities and fair value disclosures have been reflected in Citigroup's financial statements. The impact of adopting the change to AFS equity securities resulted in a cumulative catch-up reclassification from AOCI to retained earnings of an accumulated after-tax gain of approximately \$3 million at January 1, 2018. Citi elected the measurement alternative for all non-marketable equity investments that no longer qualify for cost measurement under the ASUs. This provision in the ASUs was adopted prospectively. Financial statements for periods prior to 2018 were not subject to restatement under the provisions of the ASUs. For additional information, see Notes 12, 17 and 20 to the Consolidated Financial Statements.

Statement of Cash Flows

In November 2016, the FASB issued ASU No. 2016-18, Restricted Cash, which requires that companies present cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents (restricted cash) when reconciling beginning-of-period and end-of-period totals on the Statement of Cash Flows. In connection with the adoption of the ASU, Citigroup also changed its definition of cash and cash equivalents to include all of Cash and due from banks and predominately all of Deposits with banks. The Company has retrospectively adopted this ASU as of January 1, 2018 and as a result Net cash provided by investing activities of continuing operations on the Statement of Cash Flows increased by \$20.3 billion for the three months ended March 31, 2017.

Citigroup defines restricted cash (as cash subject to withdrawal restrictions) to include cash deposited with central banks that must be maintained to meet minimum regulatory requirements, and cash set aside for the benefit of customers or for other purposes such as compensating balance arrangements or debt retirement. Restricted cash

includes minimum reserve requirements with the Federal Reserve Bank and certain other central banks and cash segregated to satisfy rules regarding the protection of customer assets as required by Citigroup broker-dealers' primary regulators, including the Securities and Exchange Commission, the Commodities Futures Trading Commission and the United Kingdom's Prudential Regulation Authority. Cash and due from banks includes restricted cash of \$84 million and \$39 million at March 31, 2018 and December 31, 2017, respectively. Deposits with banks includes restricted cash of \$29.0 billion and \$36.7 billion at March 31, 2018 and December 31, 2017, respectively.

In August 2016, the FASB issued ASU No. 2016-15, Classification of Certain Cash Receipts and Cash Payments, which provides guidance on the classification and presentation of certain cash receipts and payments on the Statement of Cash Flows. The Company has retrospectively adopted this ASU as of January 1, 2018 which resulted in immaterial changes to Citi's Consolidated Statement of Cash Flows.

Premium Amortization on Purchased Callable Debt Securities

In March 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities, which amends the amortization period for certain purchased callable debt securities held at a premium. The ASU requires entities to amortize premiums on debt securities by the first call date when the securities have fixed and determinable call dates and prices. The scope of the ASU includes all accounting premiums, such as purchase premiums and cumulative fair

value hedge adjustments. The ASU does not change the accounting for discounts, which continue to be recognized over the contractual life of a security.

For calendar-year-end entities, the ASU is effective as of January 1, 2019, but it may be early adopted in any interim or year-end period after issuance. Adoption of the ASU is on a modified retrospective basis through a cumulative effect adjustment to retained earnings as of the beginning of the year of adoption. Citi early adopted the ASU in the second quarter of 2017, with an effective date of January 1, 2017. Adoption of the ASU primarily affected Citi's AFS and HTM portfolios of callable state and municipal debt securities. The ASU adoption resulted in a net reduction to total stockholders' equity of \$156 million (after tax), effective as of January 1, 2017. This amount is composed of a reduction of approximately \$660 million to retained earnings for the incremental amortization of purchase premiums and cumulative hedge adjustments generated under fair value hedges of these callable debt securities, offset by an increase to AOCI of \$504 million related to the cumulative fair value hedge adjustments reclassified to retained earnings for AFS debt securities.

2. DISCONTINUED OPERATIONS AND SIGNIFICANT DISPOSALS

Summary of Discontinued Operations

Citi sold the Egg Banking plc credit card business in 2011. Residual costs from the disposal resulted in losses from Discontinued operations, net of taxes, of \$7 million and \$18 million for the three months ended March 31, 2018 and March 31, 2017, respectively. All Discontinued operations results are recorded within Corporate/Other.

The following summarizes financial information for all discontinued operations:

	Three Months Ended March 31, 2018	2017
In millions of dollars		
Total revenues, net of interest expense	\$—	\$—
Loss from discontinued operations	\$(7)	\$(28)
Benefit for income taxes	—	(10)
Loss from discontinued operations, net of taxes	\$(7)	\$(18)

Cash flows for discontinued operations were not material for the periods presented.

Significant Disposals

There were no new significant disposal transactions during the three months ended March 31, 2018. For a description of the Company's significant disposal transactions and financial impact, see Note 2 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

3. BUSINESS SEGMENTS

Citigroup's activities are conducted through the following business segments: Global Consumer Banking (GCB) and ICG. In addition, Corporate/Other includes activities not assigned to a specific business segment, as well as certain North America and international loan portfolios, discontinued operations and other legacy assets. The prior-period balances reflect reclassifications to conform the presentation for all periods to the current period's presentation. Effective January 1, 2018, financial data was reclassified to reflect:

- adoption of ASU No. 2014-09, Revenue Recognition, which occurred on January 1, 2018 on a retrospective basis. See "Accounting Changes" in Note 1 to the Consolidated Financial Statements;
- the re-attribution of certain costs between Corporate/Other and GCB and ICG; and
- certain other immaterial reclassifications.

Citi's consolidated results remain unchanged for all periods presented as a result of the changes and reclassifications discussed above.

For additional information regarding Citigroup's business segments, see Note 3 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

The following table presents certain information regarding the Company's continuing operations by segment:

	Three Months Ended March 31,							
	Revenues, net of interest expense		Provision (benefits) for income taxes ⁽¹⁾		Income (loss) from continuing operations		Identifiable assets ⁽²⁾	
In millions of dollars, except identifiable assets in billions	2018	2017	2018	2017	2018	2017	March 31, 2018	December 31, 2017
Global Consumer Banking	\$8,433	\$7,846	\$453	\$582	\$1,394	\$998	\$423	\$428
Institutional Clients Group	9,848	9,319	1,057	1,375	3,329	3,011	1,407	1,336
Corporate/Other	591	1,201	(69)	(94)	(74)	109	92	78
Total	\$18,872	\$18,366	\$1,441	\$1,863	\$4,649	\$4,118	\$1,922	\$1,842

Includes total revenues, net of interest expense (excluding Corporate/Other), in North America of \$8.4 billion and \$8.5 billion; in EMEA of \$3.2 billion and \$2.9 billion; in Latin America of \$2.6 billion and \$2.3 billion; and in Asia of \$4.1 billion and \$3.5 billion for the three months ended March 31, 2018 and 2017, respectively. These regional numbers exclude Corporate/Other, which largely operates within the U.S.

Includes pretax provisions for credit losses and for benefits and claims in the GCB results of \$1.9 billion and \$1.8 billion; in the ICG results of \$(41) million and \$(205) million; and in the Corporate/Other results of \$(7) million and \$52 million for the three months ended March 31, 2018 and 2017, respectively.

4. INTEREST REVENUE AND EXPENSE

Interest revenue and Interest expense consisted of the following:

		Three Months Ended March 31,	
In millions of dollars	2018		2017
Interest revenue			
Loan interest, including fees	\$ 10,892	\$	10,045
Deposits with banks	432		295
Federal funds sold and securities borrowed or purchased under agreements to resell	1,039		661
Investments, including dividends	2,234		1,960
Trading account assets ⁽¹⁾	1,371		1,266
Other interest	364		294
Total interest revenue	\$ 16,332	\$	14,521
Interest expense			
Deposits ⁽²⁾	\$ 1,997	\$	1,415
Federal funds purchased and securities loaned or sold under agreements to repurchase	949		493
Trading account liabilities ⁽¹⁾	215		147
Short-term borrowings	471		199
Long-term debt	1,528		1,312
Total interest expense	\$ 5,160	\$	3,566
Net interest revenue	\$ 11,172	\$	10,955
Provision for loan losses	1,803		1,675
Net interest revenue after provision for loan losses	\$ 9,369	\$	9,280

(1) Interest expense on Trading account liabilities is reported as a reduction of interest revenue from Trading account assets.

(2) Includes deposit insurance fees and charges of \$376 million and \$305 million for the three months ended March 31, 2018 and 2017, respectively.

5. COMMISSIONS AND FEES; ADMINISTRATION AND OTHER FIDUCIARY FEES

The primary components of Commissions and fees revenue are investment banking fees, brokerage commissions, credit- and bank-card income and deposit-related fees.

Investment banking fees are substantially composed of underwriting and advisory revenues. Such fees are recognized at the point in time when Citigroup's performance under the terms of a contractual arrangement is completed, which is typically at the closing of a transaction. Reimbursed expenses related to this transactions are recorded as revenue and are included within investment banking fees. In certain instances for advisory contracts, Citi will receive amounts in advance of the deal closing. In these instances, the amounts received will be recognized as a liability and not recognized in revenue until the transaction closes. The contract liability amount for the years presented was negligible. Out-of-pocket expenses associated with underwriting activity are deferred and recognized at the time the related revenue is recognized, while out-of-pocket expenses associated with advisory arrangements are expensed as incurred. In general, expenses incurred related to investment banking transactions, whether consummated or not, are recorded in Other operating expenses. The Company has determined that it acts as principal in the majority of these transactions and therefore presents expenses gross within Other operating expenses.

Brokerage commissions primarily include commissions and fees from the following: executing transactions for clients on exchanges and over-the-counter markets; sales of mutual funds, and other annuity products; and assisting clients in clearing transactions, providing brokerage services and other such activities. Brokerage commissions are recognized in Commissions and fees at the point in time the associated service is fulfilled, generally on trade-execution date. Gains or losses, if any, on these transactions are included in Principal transactions (see Note 6 to the Consolidated Financial Statements). Sales of certain investment products include a portion of variable consideration associated with the underlying product. In these instances, a portion of the revenue associated with the sale of the product is not recognized until the variable consideration becomes fixed. The Company recognized \$148 million of revenue related to such variable consideration in the first quarter of 2018, compared with \$96 million in the first quarter of 2017. These amounts primarily relate to performance obligations satisfied in prior periods.

Credit- and bank-card income is primarily composed of interchange fees, which are earned by card issuers based on purchase sales, and certain card fees, including annual fees. Costs related to customer reward programs and certain payments to partners (primarily based on program sales, profitability and customer acquisitions) are recorded as a reduction of Credit and bank card income. Interchange revenues are recognized as earned on a daily basis when Citi's performance obligation to transmit funds to the payment networks has been satisfied. Annual card fees, net of origination costs, are deferred and amortized on a straight-line basis over a 12-month period. Costs related to card reward programs are recognized when the rewards are earned by the cardholders. Payments to partners are recognized when incurred.

Deposit-related fees consist of service charges on deposit accounts and fees earned from performing cash management activities and other deposit account services. Such fees are recognized in the period in which the related service is provided.

Transactional service fees primarily consist of fees charged for processing services such as cash management, global payments, clearing, international funds transfer, and other trade services. Such fees are recognized as/when the associated service is satisfied, which normally occurs at the point in time the service is requested by the customer and provided by Citi.

Insurance distribution revenue consists of commissions earned from third-party insurance companies for marketing and selling insurance policies on behalf of such entities. Such commissions are recognized in Commissions and fees at the point in time the associated service is fulfilled, generally when the insurance policy is sold to the policyholder. Sales of certain insurance products include a portion of variable consideration associated with the underlying product. In these instances, a portion of the revenue associated with the sale of the policy is not recognized until the variable consideration becomes determinable. The Company recognized \$103 million of revenue related to such variable consideration in the first quarter of 2018, compared with \$120 million in the first quarter of 2017. These amounts

primarily relate to performance obligations satisfied in prior periods.

Insurance premiums consist of premium income from insurance policies which Citi has underwritten and sold to policyholders.

The following tables present Commissions and fees revenue:

	Three Months Ended March 31, 2018			
In millions of dollars	ICG	GCB	Corporate/Other	Total
Investment banking	\$822	\$—	\$ —	\$822
Brokerage commissions	566	248	—	814
Credit- and bank-card income				
Interchange fees	260	1,875	5	2,140
Card-related loan fees	14	155	6	175
Card rewards and partner payments	(124)	(1,874)	(5)	(2,003)
Deposit-related fees ⁽¹⁾	236	183	1	420
Transactional service fees	190	21	2	213
Corporate finance ⁽²⁾	142	1	—	143
Insurance distribution revenue ⁽³⁾	5	143	5	153
Insurance premiums ⁽³⁾	—	33	(1)	32
Loan servicing	38	22	12	72
Other	15	32	2	49
Total commissions and fees ⁽⁴⁾	\$2,164	\$839	\$ 27	\$3,030

	Three Months Ended March 31, 2017			
In millions of dollars	ICG	GCB	Corporate/Other	Total
Investment banking	\$904	\$—	\$ —	\$904
Brokerage commissions	482	193	1	676
Credit- and bank-card income				
Interchange fees	222	1,703	40	1,965
Card-related loan fees	12	167	16	195
Card rewards and partner payments	(103)	(1,685)	(27)	(1,815)
Deposit-related fees ⁽¹⁾	208	185	4	397
Transactional service fees	174	27	24	225
Corporate finance ⁽²⁾	184	1	—	185
Insurance distribution revenue ⁽³⁾	2	144	25	171
Insurance premiums ⁽³⁾	—	33	(1)	32
Loan servicing	35	26	31	92
Other	(20)	25	23	28
Total commissions and fees ⁽⁴⁾	\$2,100	\$819	\$ 136	\$3,055

(1) Includes \$32 million and \$33 million of overdraft fees in the first quarter of 2018 and the first quarter of 2017, respectively. Overdraft fees are accounted for under ASC 310.

(2) Consists primarily of fees earned from structuring and underwriting loan syndications or related financing activity. This activity is accounted for under ASC 310.

(3) Previously reported as insurance premiums on the Consolidated Statement of Income.

Commissions and fees includes \$(1,545) million and \$(1,278) million not accounted for under ASC 606, Revenue from Contracts with Customers, for the first quarters of 2018 and 2017, respectively. Amounts reported in (4) Commissions and fees accounted for under other guidance primarily include card-related loan fees, card reward programs and certain partner payments, corporate finance fees, insurance premiums, and loan servicing fees.

Administration and Other Fiduciary Fees

Administration and other fiduciary fees are primarily composed of custody fees and fiduciary fees.

The custody product is composed of numerous services related to the administration, safekeeping and reporting for both U.S. and non-U.S. denominated securities. The services offered to clients include: trade settlement, safekeeping, income collection, corporate action notification, record-keeping and reporting, tax reporting, and cash management. These services are provided for a wide range of securities, including but not limited to equities, municipal and corporate bonds, mortgage and asset-backed securities, money market instruments, U.S. Treasuries and agencies, derivative instruments, mutual funds, alternative investments and precious metals. Custody fees are recognized as/when the associated promised service is satisfied, which normally occurs at the point in time the service is requested by the customer and provided by Citi.

Fiduciary fees consist of trust services and investment management services. As an escrow agent, Citi receives, safe-

keeps, services and manages clients' escrowed assets such as cash, securities, property (including intellectual property), contracts, or other collateral. Citi performs its escrow agent duties by safekeeping the funds during the specified time period agreed upon by all parties and therefore earns its revenue evenly during the contract duration.

Investment management services consist of managing assets on behalf of Citi's retail and institutional clients. Revenue from these services primarily consists of asset-based fees for advisory accounts, which are based on the market value of the client's assets and recognized monthly, when the market value is fixed. In some instances, the Company contracts with third-party advisors and to third-party custodians. The Company has determined that it acts as principal in the majority of these transactions and therefore presents the amounts paid to third parties gross within Other operating expenses.

The following table presents Administration and other fiduciary fees:

	Three Months Ended March 31, 2018			
In millions of dollars	ICG	GCB	Corp/Other	Total
Custody fees	\$368	\$47	\$ 16	\$431
Fiduciary fees	167	147	7	321
Guarantee fees	137	14	2	153
Total administration and other fiduciary fees ⁽¹⁾	\$672	\$208	\$ 25	\$905
	Three Months Ended March 31, 2017			
In millions of dollars	ICG	GCB	Corp/Other	Total
Custody fees	\$355	\$38	\$ 13	\$406
Fiduciary fees	141	133	11	285
Guarantee fees	128	13	2	143
Total administration and other fiduciary fees ⁽¹⁾	\$624	\$184	\$ 26	\$834

Administration and other fiduciary fees includes \$153 million and \$143 million for the first quarters of 2018 and (1)2017, respectively, that are not accounted for under ASC 606, Revenue from Contracts with Customers. These amounts include guarantee fees.

6. PRINCIPAL TRANSACTIONS

Principal transactions revenue consists of realized and unrealized gains and losses from trading activities. Trading activities include revenues from fixed income, equities, credit and commodities products and foreign exchange transactions which are managed on a portfolio basis characterized by primary risk. Not included in the table below is the impact of net interest revenue related to trading activities, which is an integral part of trading activities' profitability. See Note 4 to the Consolidated Financial Statements for information about net interest revenue related to trading activities. Principal transactions include CVA (credit valuation adjustments on derivatives) and FVA (funding valuation adjustments) on over-the-counter derivatives. These adjustments are discussed further in Note 20 to the Consolidated Financial Statements.

In certain transactions, Citi incurs fees and presents these fees paid to third parties in operating expenses.

The following table presents Principal transactions revenue:

	Three Months Ended March 31,	
In millions of dollars	2018	2017
Global Consumer Banking ⁽¹⁾	\$ 150	\$ 155
Institutional Clients Group	2,884	2,731
Corporate/Other ⁽¹⁾	255	208
Total Citigroup	\$3,289	\$3,094
Interest rate risks ⁽²⁾	\$ 1,622	\$ 1,746
Foreign exchange risks ⁽³⁾	745	579
Equity risks ⁽⁴⁾	566	212
Commodity and other risks ⁽⁵⁾	92	153
Credit products and risks ⁽⁶⁾	264	404
Total	\$3,289	\$3,094

(1) Primarily relates to foreign exchange risks.

Includes revenues from government securities and corporate debt, municipal securities, mortgage securities and other debt instruments. Also includes spot and forward trading of currencies and exchange-traded and over-the-counter (OTC) currency options, options on fixed income securities, interest rate swaps, currency swaps, swap options, caps and floors, financial futures, OTC options and forward contracts on fixed income securities.

(3) Includes revenues from foreign exchange spot, forward, option and swap contracts, as well as foreign currency translation (FX translation) gains and losses.

(4) Includes revenues from common, preferred and convertible preferred stock, convertible corporate debt, equity-linked notes and exchange-traded and OTC equity options and warrants.

(5) Primarily includes revenues from crude oil, refined oil products, natural gas and other commodities trades.

(6) Includes revenues from structured credit products.

7. INCENTIVE PLANS

For additional information on Citi's incentive plans, see Note 7 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

8. RETIREMENT BENEFITS

For additional information on Citi's retirement benefits, see Note 8 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

Net (Benefit) Expense

The following table summarizes the components of net (benefit) expense recognized in the Consolidated Statement of Income for the Company's pension and postretirement plans for Significant Plans and All Other Plans:

In millions of dollars	Three Months Ended March 31,							
	Pension plans				Postretirement benefit plans			
	U.S. plans		Non-U.S. plans		U.S. plans		Non-U.S. plans	
	2018	2017	2018	2017	2018	2017	2018	2017
Benefits earned during the period	\$1	\$1	\$ 38	\$ 36	\$ —	\$ —	\$ 2	\$ 2
Interest cost on benefit obligation	123	139	75	71	6	6	26	24
Expected return on plan assets	(213)	(216)	(78)	(70)	(3)	(1)	(23)	(21)
Amortization of unrecognized								
Prior service benefit	—	—	(1)	(1)	—	—	(2)	(2)
Net actuarial loss (gain)	47	44	13	16	—	(1)	7	8
Settlement loss ⁽¹⁾	—	—	4	—	—	—	—	—
Total net (benefit) expense	\$(42)	\$(32)	\$ 51	\$ 52	\$ 3	\$ 4	\$ 10	\$ 11

(1) Losses due to settlement relate to repositioning and divestiture activities.

Funded Status and Accumulated Other Comprehensive Income (AOCI)

The following tables summarize the funded status and amounts recognized in the Consolidated Balance Sheet for the Company's

Significant Plans.

In millions of dollars	Three Months Ended March 31, 2018			
	Pension plans		Postretirement benefit plans	
	U.S. plans	Non-U.S. plans	U.S. plans	Non-U.S. plans

(1)

The U.S. qualified pension plan is fully funded pursuant to the Employee Retirement Income Security Act of 1974, as amended (ERISA), funding rules as of January 1, 2018 and no minimum required funding is expected for 2018.

The following table shows the change in AOCI related to the Company's pension, postretirement and post employment plans:

In millions of dollars	Three Months Ended March 31, 2018	For Year Ended December 31, 2017
Beginning of period balance, net of tax ⁽¹⁾⁽²⁾	\$(6,183)	\$(5,164)
Actuarial assumptions changes and plan experience	516	(760)
Net asset (loss) gain due to difference between actual and expected returns	(451)	625
Net amortization	58	229
Prior service cost	—	(4)
Curtailment/settlement gain ⁽³⁾	4	17
Foreign exchange impact and other	(36)	(93)
Impact of Tax Reform ⁽⁴⁾	—	(1,020)
Change in deferred taxes, net	(3)	(13)
Change, net of tax	\$88	\$(1,019)
End of period balance, net of tax ⁽¹⁾⁽²⁾	\$(6,095)	\$(6,183)

(1) See Note 17 to the Consolidated Financial Statements for further discussion of net AOCI balance.

(2) Includes net-of-tax amounts for certain profit sharing plans outside the U.S.

(3) Gains due to curtailment and settlement relate to repositioning and divestiture activities.

(4) In the fourth quarter of 2017, the Company adopted ASU 2018-02, which transferred these amounts from AOCI to Retained earnings. See Note 1 to the 2017 Consolidated Financial Statements.

Plan Assumptions

The discount rates utilized during the period in determining the pension and postretirement net (benefit) expense for the Significant Plans are as follows:

Net (benefit) expense assumed discount rates during the period	Three Months Ended		
	Mar. 31, 2018	Dec. 31, 2017	Mar. 31, 2017
U.S. plans			
Qualified pension	3.60%	3.75%	4.10%
Nonqualified pension	3.60	3.65	4.00
Postretirement	3.50	3.55	3.90
Non-U.S. plans			
Pension	0.6-10.20	0.65-10.35	0.60-11.00
Weighted average	4.75	4.86	5.08
Postretirement	9.55	8.95	9.65

The discount rates utilized at period-end in determining the pension and postretirement benefit obligations for the Significant Plans are as follows:

Plan obligations assumed discount rates at period ended	Mar. 31, 2018	Dec. 31, 2017
U.S. plans		
Qualified pension	3.95%	3.60%
Nonqualified pension	3.95	3.60
Postretirement	3.90	3.50
Non-U.S. plans		
Pension	0.75 -9.90	0.6-10.20
Weighted average	4.88	4.75
Postretirement	9.50	9.55

Sensitivities of Certain Key Assumptions

The following table summarizes the estimated effect on the Company's Significant Plans quarterly expense of a one-percentage-point change in the discount rate:

In millions of dollars	Three Months Ended March 31, 2018	
	One-percentage-point increase	One-percentage-point decrease
Pension		
U.S. plans	\$ 8	\$ (12)
Non-U.S. plans	(3)	6
Postretirement		
U.S. plans	—	(1)
Non-U.S. plans	(2)	3

Contributions

For the U.S. pension plans, there were no required minimum cash contributions during the first three months of 2018.

The following table summarizes the Company's actual contributions for the three months ended March 31, 2018 and 2017, as well as estimated expected Company contributions for the remainder of 2018 and the actual contributions made for the remainder of 2017.

	Pension plans				Postretirement plans			
	U.S. plans	Non-U.S. plans	U.S. plans	Non-U.S. plans	U.S. plans	Non-U.S. plans	U.S. plans	Non-U.S. plans
In millions of dollars	2018	2017	2018	2017	2018	2017	2018	2017
Company contributions ⁽²⁾ for the three months ended March 31	\$14	\$13	\$29	\$34	\$—	\$12	\$3	\$2
Company contributions made or expected to be made during the remainder of the year	45	92	99	101	—	164	8	7

(1) The U.S. pension plans include benefits paid directly by the Company for the nonqualified pension plans.

(2) Company contributions are composed of cash contributions made to the plans and benefits paid directly by the Company.

Defined Contribution Plans

The following table summarizes the Company's contributions for the defined contribution plans:

	Three Months Ended March 31,	
In millions of dollars	2018	2017
U.S. plans	\$104	\$98
Non-U.S. plans	76	69

Post Employment Plans

The following table summarizes the components of net expense recognized in the Consolidated Statement of Income for the Company's U.S. post employment plans:

	Three Months Ended March 31,	
In millions of dollars	2018	2017
Service-related expense	\$—	\$—
Interest cost on benefit obligation	—	—
Amortization of unrecognized		
Prior service benefit	(8)	(8)
Net actuarial loss	1	1
Total service-related benefit	\$(7)	\$(7)
Non-service-related expense	\$6	\$8
Total net (benefit) expense	\$(1)	\$1

9. EARNINGS PER SHARE

The following table reconciles the income and share data used in the basic and diluted earnings per share (EPS) computations:

	Three Months Ended March 31,	
	2018	2017
In millions, except per-share amounts		
Income from continuing operations before attribution of noncontrolling interests	\$4,649	\$4,118
Less: Noncontrolling interests from continuing operations	22	10
Net income from continuing operations (for EPS purposes)	\$4,627	\$4,108
Income (loss) from discontinued operations, net of taxes	(7)	(18)
Citigroup's net income	\$4,620	\$4,090
Less: Preferred dividends ⁽¹⁾	272	301
Net income available to common shareholders	\$4,348	\$3,789
Less: Dividends and undistributed earnings allocated to employee restricted and deferred shares with nonforfeitable rights to dividends, applicable to basic EPS	51	55
Net income allocated to common shareholders for basic EPS	\$4,297	\$3,734
Net income allocated to common shareholders for diluted EPS	4,297	3,734
Weighted-average common shares outstanding applicable to basic EPS	2,561.6	2,765.3
Effect of dilutive securities ⁽²⁾		
Options ⁽³⁾	0.1	0.2
Other employee plans	1.3	—
Adjusted weighted-average common shares outstanding applicable to diluted EPS ⁽⁴⁾	2,563.0	2,765.5
Basic earnings per share ⁽⁵⁾		
Income from continuing operations	\$1.68	\$1.36
Discontinued operations	—	(0.01)
Net income	\$1.68	\$1.35
Diluted earnings per share ⁽⁵⁾		
Income from continuing operations	\$1.68	\$1.36
Discontinued operations	—	(0.01)
Net income	\$1.68	\$1.35

As of March 31, 2018, Citi estimates it will distribute preferred dividends of approximately \$902 million during the remainder of 2018, assuming such dividends are declared by the Citi Board of Directors. During the first quarter of 2018, Citi redeemed all of its 3.8 million Series AA preferred shares for \$96.8 million at par value. Citi redeemed its Series E preferred stock in April 2018.

Warrants issued to the U.S. Treasury as part of the Troubled Asset Relief Program (TARP) and the loss-sharing agreement (all of which were subsequently sold to the public in January 2011), with exercise prices of \$178.50 and \$104.67 per share for approximately 21.0 million and 25.5 million shares of Citigroup common stock, respectively. Both warrants were not included in the computation of earnings per share in the three months ended March 31, 2018 and 2017 because they were anti-dilutive.

During the first quarters of 2018 and 2017, weighted-average options to purchase 0.5 million and 0.9 million shares of common stock, respectively, were outstanding, but not included in the computation of earnings per share because the weighted-average exercise prices of \$149.41 and \$201.01 per share, respectively, were anti-dilutive.

Due to rounding, common shares outstanding applicable to basic EPS and the effect of dilutive securities may not sum to common shares outstanding applicable to diluted EPS.

Due to rounding, earnings per share on continuing operations and discontinued operations may not sum to earnings per share on net income.

10. FEDERAL FUNDS, SECURITIES BORROWED, LOANED AND SUBJECT TO REPURCHASE AGREEMENTS

For additional information on the Company's resale and repurchase agreements and securities borrowing and lending agreements, see Note 11 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K. Federal funds sold and securities borrowed or purchased under agreements to resell, at their respective carrying values, consisted of the following:

In millions of dollars	March 31, December 31,	
	2018	2017
Federal funds sold	\$—	\$—
Securities purchased under agreements to resell	133,616	130,984
Deposits paid for securities borrowed	124,271	101,494
Total ⁽¹⁾	\$257,887	\$232,478

Federal funds purchased and securities loaned or sold under agreements to repurchase, at their respective carrying values, consisted of the following:

In millions of dollars	March 31, December 31,	
	2018	2017
Federal funds purchased	\$325	\$326
Securities sold under agreements to repurchase	157,550	142,646
Deposits received for securities loaned	13,884	13,305
Total ⁽¹⁾	\$171,759	\$156,277

The above tables do not include securities-for-securities lending transactions of \$15.6 billion and \$14.0 billion at March 31, 2018 and December 31, 2017, respectively, where the Company acts as lender and receives securities that can be sold or pledged as collateral. In these transactions, the Company recognizes the securities received at fair value within Other assets and the obligation to return those securities as a liability within Brokerage payables.

It is the Company's policy to take possession of the underlying collateral, monitor its market value relative to the amounts due under the agreements and, when necessary, require prompt transfer of additional collateral in order to maintain contractual margin protection. For resale and repurchase agreements, when necessary, the Company posts additional collateral in order to maintain contractual margin protection.

A substantial portion of the resale and repurchase agreements is recorded at fair value, as described in Notes 20 and 21 to the Consolidated Financial Statements. The remaining portion is carried at the amount of cash initially advanced or received, plus accrued interest, as specified in the respective agreements.

A substantial portion of securities borrowing and lending agreements is recorded at the amount of cash advanced or received. The remaining portion is recorded at fair value as the Company elected the fair value option for certain securities borrowed and loaned portfolios, as described in Note 21 to the Consolidated Financial Statements. With respect to securities loaned, the Company receives cash collateral in an amount generally in excess of the market value of the securities loaned. The Company monitors the market value of securities borrowed and securities loaned on a daily basis and obtains or posts additional collateral in order to maintain contractual margin protection.

The following tables present the gross and net resale and repurchase agreements and securities borrowing and lending agreements and the related offsetting amount permitted under ASC-210-20-45. The tables also include amounts related to financial instruments that are not permitted to be offset under ASC-210-20-45, but would be eligible for offsetting to the extent that an event of default occurred and a legal opinion supporting enforceability of the offsetting rights has been obtained. Remaining exposures continue to be secured by financial collateral, but the Company may not have sought or been able to obtain a legal opinion evidencing enforceability of the offsetting right.

11. BROKERAGE RECEIVABLES AND BROKERAGE PAYABLES

The Company has receivables and payables for financial instruments sold to and purchased from brokers, dealers and customers, which arise in the ordinary course of business.

For additional information on these receivables and payables, see Note 12 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

Brokerage receivables and Brokerage payables consisted of the following:

In millions of dollars	March 31, December 31,	
	2018	2017
Receivables from customers	\$ 19,186	\$ 19,215
Receivables from brokers, dealers and clearing organizations	27,386	19,169
Total brokerage receivables ⁽¹⁾	\$ 46,572	\$ 38,384
Payables to customers	\$ 43,122	\$ 38,741
Payables to brokers, dealers and clearing organizations	26,563	22,601
Total brokerage payables ⁽¹⁾	\$ 69,685	\$ 61,342

(1) Includes brokerage receivables and payables recorded by Citi broker-dealer entities that are accounted for in accordance with the AICPA Accounting Guide for Brokers and Dealers in Securities as codified in ASC 940-320.

12. INVESTMENTS

For additional information regarding Citi's investment portfolios, including evaluating investments for other-than-temporary impairment (OTTI), see Note 13 to the Consolidated Financial Statements in Citi's 2017 Annual Report on Form 10-K.

Overview

Citi adopted ASU 2016-01 and ASU 2018-03 as of January 1, 2018. The ASUs require fair value changes on marketable equity securities to be recognized in earnings. The available-for-sale category is eliminated for equity securities. Also, non-marketable equity securities are required to be measured at fair value with changes in fair value recognized in earnings unless: (i) the measurement alternative is elected or (ii) the investment represents Federal Reserve Bank and Federal Home Loan Bank stock or certain exchange seats that continue to be carried at cost. See Note 1 to the Consolidated Financial Statements for additional details.

The following tables present Citi's investments by category:

In millions of dollars	March 31, 2018
Debt securities available-for-sale (AFS)	\$ 291,523
Debt securities held-to-maturity (HTM) ⁽¹⁾	52,492
Marketable equity securities carried at fair value ⁽²⁾	277
Non-marketable equity securities carried at fair value ⁽²⁾	1,292
Non-marketable equity securities measured using the measurement alternative ⁽³⁾	401
Non-marketable equity securities carried at cost ⁽⁴⁾	5,986
Total investments	\$ 351,971

In millions of dollars	December 31, 2017
Securities available-for-sale (AFS)	\$ 290,914
Debt securities held-to-maturity (HTM) ⁽¹⁾	53,320
Non-marketable equity securities carried at fair value ⁽²⁾	1,206

Non-marketable equity securities carried at cost ⁽⁴⁾	6,850
Total investments	\$ 352,290

(1) Carried at adjusted amortized cost basis, net of any credit-related impairment.

(2) Unrealized gains and losses are recognized in earnings.

(3) Impairment losses and adjustments to the carrying value as a result of observable price changes are recognized in earnings.

(4) Represents shares issued by the Federal Reserve Bank, Federal Home Loan Banks and various exchanges of which Citigroup is a member.

The following table presents interest and dividend income on investments:

	Three Months Ended March 31,	
In millions of dollars	2018	2017
Taxable interest	\$2,042	\$1,764
Interest exempt from U.S. federal income tax	130	142
Dividend income	62	54
Total interest and dividend income	\$2,234	\$1,960

The following table presents realized gains and losses on the sales of investments, which excludes OTTI losses:

	Three Months Ended March 31, 2018	2017
In millions of dollars		
Gross realized investment gains	\$345	\$288
Gross realized investment losses	(175)	(96)
Net realized gains on sale of investments	\$170	\$192

The Company invests in mortgage-backed and asset-backed securities. These securitizations are generally considered VIEs. The Company's maximum exposure to loss from these VIEs is equal to the carrying amount of the securities, which is reflected in the table above. For mortgage-backed and asset-backed securitizations in which the Company has other involvement, see Note 18 to the Consolidated Financial Statements.

(1) In the second quarter of 2017, Citi early adopted ASU 2017-08, Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. Upon adoption, a cumulative effect adjustment was recorded to reduce retained earnings, effective January 1, 2017, for the incremental

amortization of purchase premiums and cumulative fair value hedge adjustments on callable state and municipal debt securities. For additional information, see Note 1 to the Consolidated Financial Statements.

(3) Citi adopted ASU 2016-01 and ASU 2018-03 as of January 1, 2018, resulting in a cumulative effect adjustment from AOCI to retained earnings for net unrealized gains on marketable equity securities AFS. The available for sale category is eliminated for equity securities effective January 1, 2018. See Note 1 to the Consolidated Financial Statements for additional details.

For debt securities transferred to HTM from Trading account assets, amortized cost basis is defined as the fair value of the securities at the date of transfer plus any accretion income and less any impairments recognized in earnings subsequent to transfer. For debt securities transferred to HTM from AFS, amortized cost is defined as the original purchase cost, adjusted for the cumulative accretion or amortization of any purchase discount or premium, plus or minus any cumulative fair value hedge adjustments, net of accretion or amortization, and less any other-than-temporary impairment recognized in earnings.

HTM debt securities are carried on the Consolidated Balance Sheet at amortized cost basis, plus or minus any unamortized unrealized gains and losses and fair value hedge adjustments recognized in AOCI prior to reclassifying the debt securities from AFS to HTM. Changes in the values of these securities are not reported in the financial statements, except for the amortization of any difference between the carrying value at the transfer date and par value of the securities, and the recognition of any non-credit fair value adjustments in AOCI in connection with the recognition of any credit impairment in earnings related to securities the Company continues to intend to hold until maturity.

The Company invests in mortgage-backed and asset-backed securities. These securitizations are generally considered VIEs. The Company's maximum exposure to loss from these VIEs is equal to the carrying amount of the

securities, which is reflected in the table above. For mortgage-backed and asset-backed securitizations in which the Company has other involvement, see Note 18 to the Consolidated Financial Statements.

In the second quarter of 2017, Citi early adopted ASU 2017-08, Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. Upon adoption, a cumulative (4) effect adjustment was recorded to reduce retained earnings, effective January 1, 2017, for the incremental amortization of purchase premiums and cumulative fair value hedge adjustments on callable state and municipal debt securities. For additional information, see Note 1 to the Consolidated Financial Statements.

The table below shows the fair value of debt securities HTM that have been in an unrecognized loss position:

In millions of dollars	Less than 12 months		12 months or longer		Total	
	Fair value	Gross unrecognized losses	Fair value	Gross unrecognized losses	Fair value	Gross unrecognized losses
March 31, 2018						
Debt securities held-to-maturity						
Mortgage-backed securities	\$6,889	\$ 98	\$15,108	\$ 455	\$21,997	\$ 553

(1) Investments with no stated maturities are included as contractual maturities of greater than 10 years. Actual maturities may differ due to call or prepayment rights.

(2) Includes corporate and asset-backed securities.

Evaluating Investments for Other-Than-Temporary Impairment

Overview

The Company conducts periodic reviews of all securities with unrealized losses to evaluate whether the impairment is other-than-temporary. This review applies to all securities that are not measured at fair value with changes in fair value recognized in earnings. Effective January 1, 2018, the AFS category is eliminated for equity securities and, therefore, other-than-temporary impairment (OTTI) review is not required for those securities. See Note 1 to the Consolidated Financial Statements for additional details.

An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in AOCI for AFS securities. Losses related to HTM debt securities generally are not recorded, as these investments are carried at adjusted amortized cost basis. However, for HTM debt securities with credit-related impairment, the credit loss is recognized in earnings as OTTI and any difference between the cost basis adjusted for the OTTI and fair value is recognized in AOCI and amortized as an adjustment of yield over the remaining contractual life of the security. For debt securities transferred to HTM from Trading account assets, amortized cost is defined as the fair value of the securities at the date of transfer, plus any accretion income and less any impairment recognized in earnings subsequent to transfer. For debt securities transferred to HTM from AFS, amortized cost is defined as the original purchase cost, adjusted for the cumulative accretion or amortization of any purchase discount or premium, plus or minus any cumulative fair value hedge adjustments, net of accretion or amortization, and less any impairment recognized in earnings. Regardless of the classification of securities as AFS or HTM, the Company assesses each position with an unrealized loss for OTTI. Factors considered in determining whether a loss is temporary include:

- the length of time and the extent to which fair value has been below cost;
- the severity of the impairment;
- the cause of the impairment and the financial condition and near-term prospects of the issuer;
- activity in the market of the issuer that may indicate adverse credit conditions; and
- the Company's ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery.

The Company's review for impairment generally entails:

- identification and evaluation of impaired investments;
- analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;
- consideration of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having other-than-temporary impairment and those that would not support other-than-temporary impairment; and
- documentation of the results of these analyses, as required under business policies.

Debt Securities

The entire difference between amortized cost basis and fair value is recognized in earnings as OTTI for impaired debt securities that the Company has an intent to sell or for which the Company believes it will more-likely-than-not be required to sell prior to recovery of the amortized cost basis. However, for those securities that the Company does not intend to sell and is not likely to be required to sell, only the credit-related impairment is recognized in earnings and any non-credit-related impairment is recorded in AOCI.

For debt securities, credit impairment exists where management does not expect to receive contractual principal and interest cash flows sufficient to recover the entire amortized cost basis of a security.

AFS Equity Securities and Equity Method Investments

For AFS equity securities, management considers the various factors described above, including its intent and ability to hold the equity security for a period of time sufficient for recovery to cost or whether it is more-likely-than-not that the Company will be required to sell the security prior to recovery of its cost basis. Where management lacks that intent or ability, the security's decline in fair value is deemed to be other-than-temporary and is recorded in earnings. AFS equity securities deemed to be other-than-temporarily impaired are written down to fair value, with the full difference between fair value and cost recognized in earnings. Effective January 1, 2018, the AFS category is eliminated for equity securities and, therefore, OTTI review is not required for those securities. See Note 1 to the Consolidated Financial Statements for additional details.

Management assesses equity method investments that have fair values that are less than their respective carrying values for OTTI. Fair value is measured as price multiplied by quantity if the investee has publicly listed securities. If the investee is not publicly listed, other methods are used (see Note 20 to the Consolidated Financial Statements). For impaired equity method investments that Citi plans to sell prior to recovery of value or would likely be required to sell, with no expectation that the fair value will recover prior to the expected sale date, the full impairment is recognized in earnings as OTTI regardless of severity and duration. The measurement of the OTTI does not include partial projected recoveries subsequent to the balance sheet date.

For impaired equity method investments that management does not plan to sell and is not likely to be required to sell prior to recovery of value, the evaluation of whether an impairment is other-than-temporary is based on (i) whether and when an equity method investment will recover in value and (ii) whether the investor has the intent and ability to hold that investment for a period of time sufficient to recover the value. The determination of whether the impairment is considered other-than-temporary considers the following indicators, regardless of the time and extent of impairment:

- the cause of the impairment and the financial condition and near-term prospects of the issuer, including any specific events that may influence the operations of the issuer;
- the intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value; and
- the length of time and extent to which fair value has been less than the carrying value.

The sections below describe the Company's process for identifying credit-related impairments for security types that have the most significant unrealized losses as of March 31, 2018.

Mortgage-Backed Securities

For U.S. mortgage-backed securities (and in particular for Alt-A and other mortgage-backed securities that have significant unrealized losses as a percentage of amortized cost), credit impairment is assessed using a cash flow model that estimates the principal and interest cash flows on the underlying mortgages using the security-specific collateral and transaction structure. The model distributes the estimated cash flows to the various tranches of securities, considering the transaction structure and any subordination and credit enhancements that exist in that structure. The cash flow model incorporates actual cash flows on the mortgage-backed securities through the current period and then estimates the remaining cash flows using a number of assumptions, including default rates, prepayment rates, recovery rates (on foreclosed properties) and loss severity rates (on non-agency mortgage-backed securities).

Management develops specific assumptions using market data, internal estimates and estimates published by rating agencies and other third-party sources. Default rates are projected by considering current underlying mortgage loan

performance, generally assuming the default of (i) 10% of current loans, (ii) 25% of 30–59 day delinquent loans, (iii) 70% of 60–90 day delinquent loans and (iv) 100% of 91+ day delinquent loans. These estimates are extrapolated along a default timing curve to estimate the total lifetime pool default rate. Other assumptions contemplate the actual collateral attributes, including geographic concentrations, rating actions and current market prices.

Cash flow projections are developed using different stress test scenarios. Management evaluates the results of those stress tests (including the severity of any cash shortfall indicated and the likelihood of the stress scenarios actually occurring based on the underlying pool's characteristics and performance) to assess whether management expects to recover the amortized cost basis of the security. If cash flow projections indicate that the Company does not expect to recover its amortized cost basis, the Company recognizes the estimated credit loss in earnings.

State and Municipal Securities

The process for identifying credit impairments in Citigroup's AFS and HTM state and municipal bonds is primarily based on a credit analysis that incorporates third-party credit ratings. Citigroup monitors the bond issuers and any insurers providing default protection in the form of financial guarantee insurance. The average external credit rating, ignoring any insurance, is Aa3/AA-. In the event of an external rating downgrade or other indicator of credit impairment (i.e., based on instrument-specific estimates of cash flows or probability of issuer default), the subject bond is specifically reviewed for adverse changes in the amount or timing of expected contractual principal and interest payments.

For state and municipal bonds with unrealized losses that Citigroup plans to sell, or would be more-likely-than-not required to sell, the full impairment is recognized in earnings.

Recognition and Measurement of OTTI

The following tables present total OTTI recognized in earnings:

	Three Months Ended March 31, 2018	AFS	HTM	Total
OTTI on Investments				
In millions of dollars				

Impairment losses related to debt securities that the Company does not intend to sell nor will likely be required to sell:

Total OTTI losses recognized during the period	\$—	\$—	\$—
Less: portion of impairment loss recognized in AOCI (before taxes)	—	—	—
Net impairment losses recognized in earnings for debt securities that the Company does not intend to sell nor will likely be required to sell	\$—	\$—	\$—
Impairment losses recognized in earnings for debt securities that the Company intends to sell, would be more-likely-than-not required to sell or will be subject to an issuer call deemed probable of exercise	27	—	27
Total OTTI losses recognized in earnings	\$27	\$—	-\$27

For the three months ended March 31, 2018, amounts represent AFS debt securities. Effective January 1, 2018, the (1) AFS category is eliminated for equity securities. See Note 1 to the Consolidated Financial Statements for additional details.
