#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company) Notes to Condensed Consolidated Financial Statements (Unaudited)

#### 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of State Auto Financial Corporation and Subsidiaries ("State Auto Financial" or the "Company") have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles ("GAAP") for complete financial statements. In the opinion of the Company, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month period ended June 30, 2017, are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. The balance sheet at December 31, 2016, has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2016, (the "2016 Form 10-K"). Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the 2016 Form 10-K.

## **Adoption of Recent Accounting Pronouncements**

Employee Share-Based Payment Accounting

The amendments in this guidance simplify the accounting for share-based payment award transactions including: income tax consequences, classification of awards as either equity or liabilities, classification of excess tax benefits, and classification on the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company adopted this guidance prospectively at January 1, 2017, and prior periods were not adjusted. For the three and six months ended June 30, 2017, the Company recognized \$1.3 million of income tax expense as a result of adopting this guidance.

#### **Pending Adoption of Recent Accounting Pronouncements**

For information regarding accounting pronouncements that the Company has not yet adopted, see the "Pending Adoption of Recent Accounting Pronouncements" section of Note 1 of the Notes to Consolidated Financial Statements in the 2016 Form 10-K.

#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company) Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The Company reviewed its investments at June 30, 2017, and determined that no additional other-than-temporary impairment ("OTTI") existed in the gross unrealized holding losses other than those listed in the table below. The following table sets forth the realized losses related to other-than-temporary impairments on the Company's investment portfolio recognized for the three and six months ended June 30, 2017 and 2016:

(\$ millions)	Three r	nonths	Six mor	nths
(\$ mutons)	ended June 30		ended June (	
	2017	2016	2017	2016
Equity securities:				
Large-cap securities	<b>\$</b> —	<b>\$</b> —	<b>\$(1.5)</b>	\$(0.2)
Small-cap securities	<b>(0.8</b> )	(0.6)	(1.4)	(1.8)
Fixed maturities:	_		_	(2.3)
$Total\ other-than-temporary\ impairments$	(0.8)	\$(0.6)	<b>\$(2.9)</b>	\$(4.3)

The Company regularly monitors its investments that have fair values less than cost or amortized cost for signs of other-than-temporary impairment, an assessment that requires significant management judgment regarding the evidence known. Such judgments could change in the future as more information becomes known, which could negatively impact the amounts reported. Among the factors that management considers for fixed maturity securities are the financial condition of the issuer including receipt of scheduled principal and interest cash flows, and intent to sell, including if it is more likely than not that the Company will be required to sell the investments before recovery. When a fixed maturity has been determined to have an other-than-temporary impairment, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings as a realized loss, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Among the factors that management considers for equity securities and other invested assets are the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their recovery periods, the current financial condition of the issuer and its future business prospects, and the ability of the market value to recover to cost in the near term. When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, the cost basis of the security is adjusted to fair value. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at June 30, 2017:

(\$ millions)	Amortized	l Fair
(\$\psi muuons)	cost	value
Due in 1 year or less	\$45.5	\$45.6
Due after 1 year through 5 years	558.6	563.8
Due after 5 years through 10 years	350.6	354.4
Due after 10 years	577.2	594.6
U.S. government agencies mortgage-backed securities	606.4	608.7
Total	\$2,138.3	\$2,167.1

Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay the obligations with or without call or prepayment penalties.

At June 30, 2017, State Auto P&C had U.S. government agencies mortgage-backed fixed maturity securities, with a carrying value of approximately \$106.5 million, that were pledged as collateral for the FHLB Loans (as defined in Note 3). In accordance with the terms of the FHLB Loans, State Auto P&C retains all rights regarding these pledged securities.

Fixed maturities with fair values of \$9.3 million and \$9.2 million were on deposit with insurance regulators as required by law at June 30, 2017, and December 31, 2016, respectively. The Company retains all rights regarding these securities.

#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

#### 3. Fair Value of Financial Instruments

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.

Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company utilizes one nationally recognized pricing service to estimate the majority of its available-for-sale investment portfolio's fair value. The Company obtains one price per security and the processes and control procedures employed by the Company are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, the Company gains an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, the Company compares to other fair value pricing information gathered from other independent pricing sources. At June 30, 2017, and December 31, 2016, the Company did not adjust any of the prices received from the pricing service.

Transfers between level categorizations may occur due to changes in the availability of market observable inputs. Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations during the three and six months ended June 30, 2017, and 2016.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that are carried at fair value.

#### Fixed Maturities

The Company utilizes a third party pricing service to estimate fair value measurements for the majority of its fixed maturities. The fair value estimate of the Company's fixed maturity investments are determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, and other market-observable information. The fixed maturity portfolio pricing obtained from the pricing service is reviewed for reasonableness. The Company regularly selects a random sample of security prices which are compared to one or more alternative pricing sources for reasonableness. Any discrepancies with the pricing are returned to the pricing service for further explanation and, if necessary, adjustments are made. To date, the Company has not identified any significant discrepancies in the pricing provided by its third party pricing service. Investments valued using these inputs include U.S. treasury securities and obligations of U.S. government agencies, obligations of states and political subdivisions, corporate securities (except for a security discussed below), and U.S. government agencies mortgage-backed securities. All unadjusted estimates of fair value for fixed maturities priced by the pricing service are included in the amounts disclosed in Level 2 of the hierarchy. If market inputs are unavailable, then no fair value is provided by the pricing service. For these securities, fair value is determined either by requesting brokers who are knowledgeable about these securities to provide a quote; or the Company internally determines the fair values by employing widely accepted pricing valuation models, and depending on the level of observable market inputs, renders the fair value estimate as Level 2 or Level 3. The Company held one corporate fixed maturity security included in Level 3 and estimated its fair value using the present value of the future cash flows. Due to the limited amount of observable market information for this security, the Company included the fair value estimate in Level 3. This security was sold during the second quarter of 2017.

#### **Table of Contents**

#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company) Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

#### **Equities**

The fair value of each equity security is based on an observable market price for an identical asset in an active market and is priced by the same pricing service discussed above. All equity securities are recorded using unadjusted market prices and have been disclosed in Level 1.

#### Other Invested Assets

Included in other invested assets is one international fund ("the fund") that invests in equity securities of foreign issuers and is managed by a third party investment manager. The fund had a fair value of \$40.6 million and \$35.7 million at June 30, 2017, and December 31, 2016, respectively, which was determined using the fund's net asset value. The Company employs procedures to assess the reasonableness of the fair value of the fund including obtaining and reviewing the fund's audited financial statements. There are no unfunded commitments related to the fund. The Company may not sell its investment in the fund; however, the Company may redeem all or a portion of its investment in the fund at net asset value per share with the appropriate prior written notice. In accordance with Accounting Standard Codification 820-10, this investment is measured at fair value using the net asset value per share practical expedient and has not been classified in the fair value hierarchy. Fair values presented here are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the condensed consolidated balance sheets. The remainder of the Company's other invested assets consist primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds based on an observable market price for an identical asset in an active market reflect their fair values and consequently these securities have been disclosed in Level 1.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that is not measured at fair value but for which fair value is disclosed:

## Financial Instruments Disclosed, But Not Carried, At Fair Value

#### Other Invested Assets

Included in other invested assets are common stock of the Federal Home Loan Bank of Cincinnati (the "FHLB") and the Trust Securities. The Trust Securities and FHLB common stock are carried at cost, which approximates fair value. The fair value of the FHLB common stock at June 30, 2017, was \$5.1 million and the fair value of the Trust Securities was \$0.5 million. The investments have been placed in Level 3 of the fair value hierarchy.

#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

#### Notes Receivable from Affiliate

In May 2009, the Company entered into two separate credit agreements with State Automobile Mutual Insurance Company ("State Auto Mutual") pursuant to which it loaned State Auto Mutual a total of \$70.0 million. The Company estimates the fair value of the notes receivable from affiliate using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread. Consequently this has been placed in Level 2 of the fair value hierarchy.

(\$ millions, except interest rates)

Une 30, 2017

CarryiFigir
Value value

Value value value value value value value rate

Notes receivable from affiliate \$70.0 \$75.6 7.00 % \$70.0 \$75.7 7.00 %

## Notes Payable

Included in notes payable are the FHLB Loans and Subordinated Debentures. The Company estimates the fair value of the FHLB Loans by discounting cash flows using a borrowing rate currently available to the Company for loans with similar terms. The FHLB Loans have been placed in Level 3 of the fair value hierarchy. The carrying amount of the Subordinated Debentures approximates its fair value as the interest rate adjusts quarterly and has been disclosed in Level 3.

(\$ millions, except interest rates)	June 30, 2017			Decem	2016		
	Carryin <b>g</b> air		Interest CarryingFair		Interest		
	value	Value	rate		value	value	rate

Total notes payable	\$122.1	\$121.9			\$122.1	\$121.8	

## 4. Losses and Loss Expenses Payable

The following table sets forth the activity in the liability for losses and loss expenses for the six months ended June 30, 2017 and 2016:

(\$ millions)	2017	2016
Losses and loss expenses payable, at beginning of period	\$1,181.6	\$1,053.0
Less: reinsurance recoverable on losses and loss expenses payable	3.6	5.9
Net balance at beginning of period	1,178.0	1,047.1
Incurred related to:		
Current year	489.8	457.7
Prior years	(25.4)	30.2
Total incurred	464.4	487.9
Paid related to:		
Current year	174.3	159.3
Prior years	237.2	238.6
Total paid	411.5	397.9
Net balance at end of period	1,230.9	1,137.1

Plus: reinsurance recoverable on losses and loss expenses payable **2.7** 6.1 *Losses and loss expenses payable, at end of period* **\$1,233.6** \$1,143.2

#### STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The Company recorded favorable development related to prior years' loss and loss expense reserves for the six months ended June 30, 2017 of \$25.4 million compared to adverse development of \$30.2 million for the same 2016 period. Favorable development of prior years' unallocated loss adjustment expenses and catastrophe reserves were approximately \$4.2 million and \$1.6 million, respectively, of the 2017 development. Favorable development of prior accident years' non-catastrophe loss and ALAE reserves was primarily due to \$22.4 million of favorable development in the commercial insurance segment. Slightly offsetting the favorable development was adverse development in the specialty and personal insurance segments of \$1.4 million and \$1.4 million, respectively. The specialty insurance segment was impacted by \$1.6 million of adverse development in E&S property, driven by higher than anticipated severity. In the personal insurance segment, homeowners' contributed \$1.9 million of adverse development, primarily from accident year 2016, and other personal contributed \$2.1 million of adverse development, driven by higher than anticipated severity emerging from accident years 2015 and 2016. Slightly offsetting the adverse development was \$1.8 million of favorable development in personal auto, primarily driven by lower than anticipated severity emerging from accident years 2014 and 2015.

Favorable development of catastrophe reserves was approximately \$1.0 million for the six months ended June 30, 2016, and adverse development of unallocated loss adjustment expenses was \$3.1 million for the same 2016 period. Programs, personal auto and commercial auto contributed \$12.6 million, \$7.9 million and \$4.7 million of the adverse development. Adverse development in programs was primarily due to two programs with commercial auto exposures, both of which are in run-off. Adverse development in personal and commercial auto was primarily due to higher than anticipated bodily injury severity from the prior two accident years.

#### 5. Reinsurance

The insurance subsidiaries of State Auto Financial, including State Auto P&C, Milbank and SA Ohio (collectively referred to as the "STFC Pooled Companies") participate in a quota share reinsurance pooling arrangement ("the Pooling Arrangement") with State Auto Mutual and its subsidiaries and affiliates (collectively referred to as the "Mutual Pooled Companies").

The following table sets forth a summary of the Company's external reinsurance transactions, as well as reinsurance transactions with State Auto Mutual under the Pooling Arrangement, for the three and six months ended June 30, 2017 and 2016:

(\$ millions)	Three m	onths	Six months		
ended June 30		ine 30	ended Ju	ine 30
