Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

Investments in mutual funds involve risk. Certain investors' income may be subject to the federal Alternative Minimum Tax (AMT), and state and local taxes may also apply. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.

Scudder Investments is part of Deutsche Asset Management, which is the marketing name in the US for the asset management activities of Deutsche Bank AG, Deutsche Investment Management Americas Inc., Deutsche Asset Management Inc., Deutsche Asset Management Investment Services Ltd., Deutsche Bank Trust Company Americas and Scudder Trust Company.

Fund shares are not FDIC-insured and are not deposits or other obligations of, or guaranteed by, any bank. Fund shares involve investment risk, including possible loss of principal.

Performance Summary November 30, 2003

Average Annual Total Returns				
Scudder Strategic Municipal Income Trust	1-Year	3-Year	5-Year	10-Year
Based on Net Asset Value ^(a)	10.85%	9.59%	7.12%	6.92%
Based on Market Price	15.16%	13.72%	6.83%	7.25%
Lehman Brothers Municipal Bond Index ⁺	6.65%	7.24%	5.71%	6.16%

Net Asset Value and Market Price		
	As of 11/30/03	As of 11/30/02
Net Asset Value	\$ 12.23	\$ 11.84
Market Price	\$ 12.62	\$ 11.78

Distribution Information	
Twelve Months:	
Income Dividends (common shareholders)	\$.87
November Income Dividend (common shareholders)	\$.075
Current Annualized Distribution Rate (based on Net Asset Value) ⁺⁺	7.36%
Current Annualized Distribution Rate (based on Market Price) ⁺⁺	7.13%
Tax Equivalent Distribution Rate (based on Net Asset Value) ⁺⁺	11.32%
Tax Equivalent Distribution Rate (based on Market Price) ⁺⁺	10.97%

Performance is historical, assumes reinvestment of all dividends and capital gains and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit scudder.com for the product's most recent month-end performance.

Notes to Performance Summary

^a Total investment returns reflect changes in net asset value per share during each period and assume that dividends and capital gains distributions, if any, were reinvested. These percentages are not an indication of the performance of a shareholder's investment in the Fund based on market price.

⁺ The unmanaged Lehman Brothers Municipal Bond Index is a market-value-weighted measure of municipal bonds issued across the United States. Index issues have a credit rating of at least Baa and a maturity of at least two years. Index returns assume reinvestment of dividends and, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly into an index.

⁺⁺ Current annualized distribution rate is the latest monthly dividend shown as an annualized percentage of net asset value/market price on November 30, 2003. Distribution rate simply measures the level of dividends and is not a complete measure of performance. Tax equivalent distribution rate is based on the Fund's distribution rate and a marginal income tax rate of 35%. Distribution rates are historical and will fluctuate.

Portfolio Management Review

Scudder Strategic Municipal Income Trust: A Team Approach to Investing

Deutsche Investment Management Americas Inc. ("DeIM" or the "Advisor"), which is part of Deutsche Asset Management, is the investment advisor for Scudder Strategic Municipal Income Trust. DeIM and its predecessors have more than 80 years of experience managing mutual funds and DeIM provides a full range of investment advisory services to institutional and retail clients. DeIM is also responsible for selecting brokers and dealers and for negotiating brokerage commissions and dealer charges.

Deutsche Asset Management is a global asset management organization that offers a wide range of investing expertise and resources. This well-resourced global investment platform brings together a wide variety of experience and investment insight across industries, regions, asset classes and investing styles.

DeIM is an indirect, wholly owned subsidiary of Deutsche Bank AG. Deutsche Bank AG is a major global banking institution that is engaged in a wide range of financial services, including investment management, mutual funds, retail, private and commercial banking, investment banking and insurance.

Portfolio Management Team

Philip G. Condon

Managing Director of Deutsche Asset Management and Co-Manager of the fund.

Joined Deutsche Asset Management in 1983 and the fund team in 1998.

Over 26 years of investment industry experience.

MBA, University of Massachusetts at Amherst.

Rebecca L. Wilson

Vice President of Deutsche Asset Management and Co-Manager of the fund.

Joined Deutsche Asset Management in 1986 and the fund team in 1998.

Over 16 years of investment industry experience.

In the following interview, Scudder's municipal bond team, Philip G. Condon and Rebecca L. Wilson, discuss the fund's performance and the recent market environment for municipal bonds.

Q: Will you describe the general market environment during the fiscal year ended November 30, 2003?

A: For the period, municipal bonds delivered a total return of 6.65%, as measured by the Lehman Brothers Municipal Bond Index.¹ The period was marked by a good deal of volatility in both Treasury and municipal bonds.

¹ The Lehman Brothers Municipal Bond Index is a broad-based total-return index comprising more than 6,000 investment-grade, fixed-rate municipal bonds with maturities of at least 2 years.

In the fourth quarter of 2002, stocks and lower-quality bonds staged a rally on the heels of the Federal Reserve Board's decision to lower the federal funds rate by 50 basis points on November 6. At the same time, municipal bond prices lagged, as the interest rate cut shifted investor interest to stocks and lower-quality, higher-yielding bonds. In the first quarter of 2003, concerns about the US economy, corporate earnings, tensions in Iraq and then the escalation to the war with Iraq led investors to flock to the relative stability of both tax-free and taxable bonds versus stocks. These markets shifted back once again in the second quarter, as these concerns began to diminish, the economy started to show some signs of recovery and the US government declared an end to the Iraq war. In this environment, investors began to slowly reestablish their positions in stocks, and favored bonds less.

Q: How did interest rates and municipal bond yields react in the period?

A: The Federal Reserve Board reduced the federal funds rate, a benchmark for the market's interest rate levels, once during the period, when it was cut by a quarter of a percentage point in June to 1%.

Rates on both taxable and municipal bonds rested at historical lows for much of the period, and the municipal bond yield curve remained quite steep by historical standards. The yield curve illustrates the relationship among the yields on bonds of the same credit quality but different maturities. A steepening of the curve means that the difference in yields between longer-term and shorter-term maturities increases, while a flattening of the curve indicates the reverse.

In June, it appeared that the Fed's viewpoint on the US economy had improved. The Fed's improved perspective surprised the market and meant that the Fed did not decrease the federal funds rate by as much as the market had been predicting. This rosier outlook caused investors to begin to favor stocks. As a result, investors pulled money out of bonds, driving the prices on bonds lower due to this lower demand. Since bond rates move in the opposite direction from prices, bond rates increased quickly in July and August, though they reverted back close to previous lows in the final months of the period. Overall, as is historically the case, rates on municipal bonds did not increase as dramatically as those on Treasury bonds.

Q: Will you discuss municipal bond supply and demand in the period?

A: Although overall demand for municipal bonds remained solid, supply became somewhat less abundant near the end of the period. Specifically, in the last three to four months of the period, the issuance of new municipal bonds was not quite as strong as in the first couple months. Early in the period, new issuance had been driven by states' needs to issue more debt to make up for revenue shortfalls and to refinance old debt at lower rates. However, a total municipal bond issuance of \$347 billion for the year-to-date through November 2003 was about 4.6% higher than the same period in 2002.

Q: How did Scudder Strategic Municipal Income Trust perform for the fiscal year ended November 30, 2003?

A: Scudder Strategic Municipal Income Trust posted strong absolute and relative results in the period. The fund delivered a total return at net asset value of 10.85%. The fund posted a total return at market value of 15.16%. Its average peer in the Lipper High Yield Municipal Debt Funds category for closed-end funds delivered 8.61% in the period.² The fund's benchmark, the unmanaged Lehman Brothers Municipal Bond Index, rose 6.65%. (Please see page 4 for more complete performance information.)

² The Lipper High Yield Municipal Debt Funds (Closed-End) category includes closed-end funds that invest at least 50% of assets in lower-rated municipal debt issues.

Q: How was the fund positioned, and how did this positioning contribute to its performance?

A: While other areas of the bond market, particularly Treasury bonds, struggled in the period, high-yield municipal bonds were in high demand. New issuance remained low, however, and this environment helped high-yield municipal bonds outperform during the period. The fund's results also benefited from the use of leverage. Overall interest rates,

despite the fluctuations discussed earlier, remained at historical lows during the period. As a result, we were able to use outstanding shares to borrow money at attractive rates, which could fund additional higher-yielding investments.

For the period, about 19% of the fund's assets were invested in bonds with maturities in the eight- to 15-year range. This area of the municipal bond yield curve outperformed longer-maturity bonds overall, which aided the fund's absolute and relative results.

We continue to believe that tax-free bonds are very attractive on an after-tax basis versus US Treasuries and other taxable bonds with similar maturities.

The views expressed in this report reflect those of the portfolio managers only through the end of the period of the report as stated on the cover. The managers' views are subject to change at any time based on market and other conditions and should not be construed as a recommendation.

* Variable rate demand notes are securities whose interest rates are reset periodically at market levels. These securities are often payable on demand and are shown at their current rate as of November 30, 2003.

(a) The cost for federal income tax purposes was \$187,767,334. At November 30, 2003, net unrealized appreciation for all securities based on tax cost was \$13,765,342. This consisted of aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost of \$15,988,653 and aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value of \$2,223,311.

(b) Bond is insured by one of these companies:

Insurance coverage		As a % of total investment portfolio
AMBAC	AMBAC Assurance Corp.	2.2
FGIC	Financial Guaranty Insurance Company	2.9
FSA	Financial Security Assurance	5.3
MBIA	Municipal Bond Investors Assurance	7.5

(c) Security incorporates a letter of credit or line of credit from a major bank.

AMT: Subject to alternative minimum tax

ETM: Bonds bearing the description ETM (escrowed to maturity) are collateralized by US Treasury securities which are held in escrow and used to pay principal and interest on bonds so designated.

Prerefunded: Bonds which are prerefunded are collateralized by US Treasury securities which are held in escrow and are used to pay principal and interest on tax-exempt issues and to retire the bonds in full at the earliest refunding date.

^a As required, effective December 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on debt securities. The effect of this change for the year ended November 30, 2002 was to increase net investment income by \$.01, decrease net realized and unrealized gain (loss) per share by \$.01, and increase the ratio of net investment income to average net assets

from 8.42% to 8.49%. Per share data and ratios for periods prior to December 1, 2001 have not been restated to reflect this change in presentation.

^b In 2001 the Fund changed its method of classifying preferred shares.

^c Based on average common shares outstanding during the period.

^d On September 29, 1999, the Fund issued 2,800 preferred shares.

^e Total return based on net asset value reflects changes in the Fund's net asset value during the period. Total return based on market value reflects changes in market value. Each figure includes reinvestment of dividends. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares trade during the period.

^{*} Asset coverage per share equals net assets of common shares plus the redemption value of the preferred shares divided by the total number of preferred shares outstanding at the end of the period.

Notes to Financial Statements

A. Significant Accounting Policies

Scudder Strategic Municipal Income Trust (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, diversified management investment company organized as a Massachusetts business trust.

The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates. Actual results could differ from those estimates. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading. Debt securities are valued by independent pricing services approved by the Trustees of the Fund, whose valuations are intended to reflect the mean between the bid and asked prices. If the pricing services are unable to provide valuations, the securities are valued at the average of the means based on the most recent bid and asked quotations or evaluated prices obtained from two broker dealers. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes.

Money market instruments purchased with an original or remaining maturity of sixty days or less, maturing at par, are valued at amortized cost.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Trustees.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable and tax-exempt income to its shareholders. Accordingly, the Fund paid no federal income taxes and no federal income tax provision was required.

At November 30, 2003, the Fund had a net tax basis capital loss carryforward of approximately \$3,595,000 which may be applied against any realized net taxable capital gains of each succeeding year until fully utilized or until November 30, 2008 (\$260,000), November 30, 2010 (\$171,000) and November 30, 2011 (\$3,164,000), the respective expiration dates, whichever occurs first.

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

In addition, from November 1, 2003 through November 30, 2003, the Fund incurred approximately \$31,300 of net realized capital losses. As permitted by tax regulations, the Fund intends to elect to defer these losses and treat them as arising in the fiscal year ended November 30, 2004.

Distribution of Income and Gains. Distributions of net investment income if any, are made monthly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually.

The timing and characterization of certain income and capital gains distributions are determined annually in accordance with federal tax regulations which may differ from accounting principles generally accepted in the United States of America. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

At November 30, 2003, the Fund's components of distributable earnings (accumulated losses) on a tax-basis were as follows:

Undistributed tax-exempt income	\$ 3,146,222
Undistributed net long-term capital gains	\$ -
Capital loss carryforwards	\$ (3,595,000)
Net unrealized appreciation (depreciation) on investments	\$ 13,765,342

In addition, the tax character of distributions paid to shareholders by the Fund are summarized as follows:

	Years Ended November 30,	
	2003	2002
Distributions from tax-exempt income	\$ 10,117,105	\$ 9,467,403

Preferred Shares. The Fund has issued and outstanding 2,800 Series T municipal auction rate cumulative preferred shares, each at a liquidation value of \$25,000 per share. The preferred shares are senior to and have certain class specific preferences over the common shares. The dividend rate on each series is set through an auction process, and the dividends are generally paid every 7 days. The auction agent will pay each broker-dealer a service charge from funds provided by the Fund (auction agent fee). The 1940 Act requires that the preferred shareholders of the Fund, voting as a separate class, have the right to: a) elect at least two trustees at all times, and b) elect a majority of the trustees at any time when dividends on the preferred shares are unpaid for two full years. Unless otherwise required by law or under the terms of the preferred shares designation statement, each preferred share is entitled to one vote and preferred shareholders will vote together with common shareholders as a single class and have the same voting rights.

Other. Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for financial reporting purposes.

B. Purchases and Sales of Securities

During the year ended November 30, 2003, purchases and sales of investment securities (excluding short-term investments) aggregated \$30,253,516 and \$27,438,309, respectively.

C. Related Parties

Management Agreement. Under the Management Agreement with Deutsche Investment Management Americas Inc. ("DeIM" or the "Advisor"), the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund. In addition to portfolio management services, the Advisor provides certain administrative services in accordance with the Management Agreement. The Fund pays a monthly investment management fee of 1/12 of the annual rate of 0.60% of the Fund's average weekly net assets, of common shares plus the value of preferred shares, at redemption value, computed and accrued daily and payable monthly.

Service Provider Fees. Scudder Investments Service Company ("SISC"), an affiliate of the Advisor, is the transfer, dividend-paying and shareholder service agent for the Fund. Effective January 15, 2003, pursuant to a sub-transfer agency agreement between SISC and DST systems, Inc. ("DST"), SISC has delegated certain transfer agent and dividend paying agent functions to DST. SISC compensates DST out of the shareholder servicing fee it receives from the Fund. For the year ended November 30, 2003, the amount charged to the Fund by SISC aggregated \$24,000, of which \$12,000 is unpaid.

Trustees' Fees and Expenses. The Fund pays each Trustee not affiliated with the Advisor retainer fees plus specified amounts for attended board and committee meetings.

D. Expense Off-Set Arrangements

The Fund has entered into arrangements with its custodian whereby credits realized as a result of uninvested cash balances were used to reduce a portion of the Fund's expenses. During the year ended November 30, 2003, the Fund's custodian fees were reduced by \$510, under these arrangements.

E. Line of Credit

The Fund and several other affiliated funds (the "Participants") share in a \$1.25 billion revolving credit facility administered by J.P. Morgan Chase Bank for temporary or emergency purposes that otherwise might require the untimely disposition of securities. The Participants are charged an annual commitment fee which is allocated, pro rata based upon net assets, among each of the Participants. Interest is calculated at the Federal Funds Rate plus 0.5 percent. The Fund may borrow up to a maximum of 33 percent of its net assets under the agreement.

Report of Ernst & Young LLP, Independent Auditors

To the Trustees and Shareholders of Scudder Strategic Municipal Income Trust:

We have audited the accompanying statement of assets and liabilities, including the investment portfolio, of Scudder Strategic Municipal Income Trust, (the "Fund"), as of November 30, 2003, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of November 30, 2003, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Scudder Strategic Municipal Income Trust at November 30, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States.

Boston, Massachusetts January 21, 2004	/s/ Ernst & Young LLP
-------------------------------------------	-----------------------

Tax Information (Unaudited)

Of the dividends paid from net investment income for the taxable year ended November 30, 2003, 100% are designated as exempt interest dividends for federal income tax purposes.

Please consult a tax advisor if you have questions about federal or state income tax laws, or on how to prepare your tax returns. If you have specific questions about your account, please call 1-800-621-1048.

Dividend Reinvestment Plan

A. Participation

We invite you to review the description of the Dividend Reinvestment Plan (the "Plan") which is available to you as a shareholder of Scudder Strategic Municipal Income Trust (the "Fund"). If you wish to participate and your shares are held in your own name, simply contact Scudder Investments Service Company, whose address and phone number are provided in Paragraph E for the appropriate form. If your shares are held in the name of a brokerage firm, bank, or other nominee, you must instruct that nominee to re-register your shares in your name so that you may participate in the Plan, unless your nominee has made the Plan available on shares held by them. Shareholders who so elect will be deemed to have appointed UMB Bank, N.A. ("United Missouri Bank" or "UMB") as their agent and as agent for the Fund under the Plan.

B. Dividend Investment Account

The Fund's transfer agent and dividend disbursing agent or its delegate (the "Transfer Agent") will establish a

Dividend Investment Account (the "Account") for each shareholder participating in the Plan. The Transfer Agent will credit to the Account of each participant funds it receives from the following sources: (a) cash dividends and capital gains distributions paid on shares of beneficial interest (the "Shares") of the Fund registered in the participant's name on the books of the Fund; and (b) cash dividends and capital gains distributions paid on Shares registered in the name of the Transfer Agent but credited to the participant's Account. Sources described in clauses (a) and (b) of the preceding sentence are hereinafter called "Distributions."

C. Investment of Distribution Funds held in each account

If on the record date for a Distribution (the "Record Date"), Shares are trading at a discount from net asset value per Share (according to the evaluation most recently made on Shares of the Fund), funds credited to a participant's Account will be used to purchase Shares (the "Purchase"). UMB will attempt, commencing five days prior to the Payment Date and ending at the close of business on the Payment Date ("Payment Date" as used herein shall mean the last business day of the month in which such Record Date occurs), to acquire Shares in the open market. If and to the extent that UMB is unable to acquire sufficient Shares to satisfy the Distribution by the close of business on the Payment Date, the Fund will issue to UMB Shares valued at net asset value per Share (according to the evaluation most recently made on Shares of the Fund) in the aggregate amount of the remaining value of the Distribution. If, on the Record Date, Shares are trading at a premium over net asset value per Share, the Fund will issue on the Payment Date, Shares valued at net asset value per Share on the Record Date to the Transfer Agent in the aggregate amount of the funds credited to the participants' accounts.

D. Voluntary Cash Contributions

A participant may from time to time make voluntary cash contributions to his Account by sending to Transfer Agent a check or money order, payable to Transfer Agent, in a minimum amount of \$100 with appropriate accompanying instructions. (No more than \$500 may be contributed per month.) Transfer Agent will inform UMB of the total funds available for the purchase of Shares and UMB will use the funds to purchase additional Shares for the participant's Account the earlier of: (a) when it next purchases Shares as a result of a Distribution or (b) on or shortly after the first day of each month and in no event more than 30 days after such date except when temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of federal securities laws. Cash contributions received more than fifteen calendar days or less than five calendar days prior to a Payment Date will be returned uninvested. Interest will not be paid on any uninvested cash contributions. Participants making voluntary cash investments will be charged a \$.75 service fee for each such investment and will be responsible for their pro rata share of brokerage commissions.

E. Additional Information

Address all notices, correspondence, questions, or other communication regarding the Plan, or if you would like a copy of the Plan, to:

Scudder Investments Service Company
P.O. Box 219066
Kansas City, Missouri 64121-9066
1-800-294-4366

F. Adjustment of Purchase Price

The Fund will increase the price at which Shares may be issued under the Plan to 95% of the fair market value of the shares on the Record Date if the net asset value per Share of the Shares on the Record Date is less than 95% of the fair market value of the Shares on the Record Date.

G. Determination of Purchase Price

The cost of Shares and fractional Shares acquired for each participant's Account in connection with a Purchase shall be determined by the average cost per Share, including brokerage commissions as described in Paragraph G hereof, of the Shares acquired by UMB in connection with that Purchase. Shareholders will receive a confirmation showing the average cost and number of Shares acquired as soon as practicable after the Transfer Agent has received or UMB has purchased Shares. The Transfer Agent may mingle the cash in a participant's account with similar funds of other participants of the Fund for whom UMB acts as agent under the Plan.

H. Brokerage Charges

There will be no brokerage charges with respect to Shares issued directly by the Fund as a result of Distributions. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to UMB's open market purchases in connection with the reinvestment of Distributions. Brokerage charges for purchasing small amounts of Shares for individual Accounts through the Plan can be expected to be less than the usual brokerage charges for such transactions, as UMB will be purchasing Shares for all participants in blocks and prorating the lower commission thus attainable.

I. Service Charges

There is no service charge by the Transfer Agent or UMB to shareholders who participate in the Plan other than service charges specified in Paragraphs D and M hereof. However, the Fund reserves the right to amend the Plan in the future to include a service charge.

J. Transfer of Shares Held by Agent

The Transfer Agent will maintain the participant's Account, hold the additional Shares acquired through the Plan in safekeeping and furnish the participant with written confirmation of all transactions in the Account. Shares in the Account are transferable upon proper written instructions to the Transfer Agent. Upon request to the Transfer Agent, a certificate for any or all full Shares in a participant's Account will be sent to the participant.

K. Shares Not Held in Shareholder's Name

Beneficial owners of Shares which are held in the name of a broker or nominee will not be automatically included in the Plan and will receive all distributions in cash. Such shareholders should contact the broker or nominee in whose name their Shares are held to determine whether and how they may participate in the Plan.

L. Amendments

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan, including provisions with respect to any Distribution paid, subsequent to notice thereof sent to participants in the Plan at least ninety days before the record date for such Distribution, except when such amendment is necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, in which case such amendment shall be effective as soon as practicable. The amendment shall be deemed to be accepted by each participant unless, prior to the effective date thereof, the Transfer Agent receives notice of the termination of such participant's account under the Plan in accordance with the terms hereof. The Plan may be terminated by the Fund.

M. Withdrawal from Plan

Shareholders may withdraw from the Plan at any time by giving the Transfer Agent a written notice. If the proceeds are \$100,000 or less and the proceeds are to be payable to the shareholder of record and mailed to the address of record, a signature guarantee normally will not be required for notices by individual account owners (including joint account owners), otherwise a signature guarantee will be required. In addition, if the certificate is to be sent to anyone other than the registered owner(s) at the address of record, a signature guarantee will be required on the notice. A notice of withdrawal will be effective for the next Distribution following receipt of the notice by the Transfer Agent provided the notice is received by the Transfer Agent at least ten days prior to the Record Date for the Distribution. When a participant withdraws from the Plan, or when the Plan is terminated in accordance with Paragraph L hereof, the participant will receive a certificate for full Shares in the Account, plus a check for any fractional Shares based on market price; or if a Participant so desires, the Transfer Agent will notify UMB to sell his Shares in the Plan and send the proceeds to the participant, less brokerage commissions and a \$2.50 service fee.

N. Tax Implications

Shareholders will receive tax information annually for personal records and to assist in preparation of their Federal income tax returns. If Shares are purchased at a discount, the amount of the discount is considered taxable income and is added to the cost basis of the purchased shares.

Trustees and Officers

The following table presents certain information regarding the Trustees and Officers of the fund as of November 30, 2003. Each individual's age is set forth in parentheses after his or her name. Unless otherwise noted, (i) each individual has engaged in the principal occupation(s) noted in the table for at least the most recent five years, although not necessarily in the same capacity, and (ii) the address of each individual is c/o Deutsche Asset Management, 222 South Riverside Plaza, Chicago, Illinois, 60606. Each Trustee's term of office extends until the next shareholder's meeting called for the purpose of electing Trustees and until the election and qualification of a successor, or until such Trustee sooner dies, resigns or is removed as provided in the governing documents of the fund.

Independent Trustees		
Name, Age, Position(s) Held with the Fund and Length of Time Served ¹	Principal Occupation(s) During Past 5 Years and Other Directorships Held	Number of Funds in Fund Complex Overseen
John W. Ballantine (57) Trustee, 1999-present	Retired; formerly, Executive Vice President and Chief Risk Management Officer, First Chicago NBD Corporation/The First National Bank of Chicago (1996-1998); Executive Vice President and Head of International Banking (1995-1996). ¹ Length of time served represents the date that each Trustee was first elected to the common board of trustees which oversees a number of investment companies, including the fund, managed by the Advisor. For the Officers of the fund, length of time served represents the date that each Officer was first elected to serve as an officer of any fund overseen by the aforementioned common board of trustees.

² As a result of their respective positions held with the Advisor, these individuals are considered "interested persons" of the Advisor within the meaning of the 1940 Act. Interested persons receive no compensation from the fund.

³ Address: One South Street, Baltimore, Maryland

⁴ Address: Two International Place, Boston, Massachusetts

⁵ Address: 345 Park Avenue, New York, New York

⁶ Ms. Lyons was elected by the Trustees as President on November 19, 2003.

Notes

Notes

ITEM 2. CODE OF ETHICS.

As of the end of the period, November 30, 2003, the Scudder Strategic Municipal Income Trust has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer and its Chief Financial Officer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Board of Directors/Trustees has determined that the Fund has at least one "audit committee financial expert" serving on its audit committee: Mr. Donald L. Dunaway. This audit committee member is "independent," meaning that he is not an "interested person" of the Fund (as that term is defined in Section

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

2(a)(19) of the Investment Company Act of 1940) and he does not accept any consulting, advisory, or other compensatory fee from the Fund (except in the capacity as a Board or committee member).

An "audit committee financial expert" is not an "expert" for any purpose, including for purposes of Section 11 of the Securities Act of 1933, as a result of being designated as an "audit committee financial expert." Further, the designation of a person as an "audit committee financial expert" does not mean that the person has any greater duties, obligations, or liability than those imposed on the person without the "audit committee financial expert" designation. Similarly, the designation of a person as an "audit committee financial expert" does not affect the duties, obligations, or liability of any other member of the audit committee or board of directors.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not currently applicable.

ITEM 5. [RESERVED]

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Proxy Voting Guidelines. The Fund has delegated proxy voting responsibilities to its investment advisor, subject to the Board's general oversight. The Fund has delegated proxy voting to the advisor with the direction that proxies should be voted consistent with the Fund's best economic interests. The advisor has adopted its own Proxy Voting Policies and Procedures ("Policies"), a Proxy Voting Desktop Manual ("Manual"), and Proxy Voting Guidelines ("Guidelines") for this purpose. The Policies address, among other things, conflicts of interest that may arise between the interests of the Fund, and the interests of the advisor and its affiliates, including the Fund's principal underwriter. The Manual sets forth the procedures that the advisor has implemented to vote proxies, including monitoring for corporate events, communicating with the fund's custodian regarding proxies, considering the merits of each proposal, and executing and recording the proxy vote. The Guidelines set forth the advisor's general position on various proposals, such as:

- o Shareholder Rights -- The advisor generally votes against proposals that restrict shareholder rights.
- o Corporate Governance -- The advisor generally votes for confidential and cumulative voting and against supermajority voting requirements for charter and bylaw amendments.
- o Anti-Takeover Matters -- The advisor generally votes for proposals that require shareholder ratification of poison pills or that request boards to redeem poison pills, and votes "against" the adoption of poison pills if they are submitted for shareholder ratification. The advisor generally votes for fair price proposals.
- o Routine Matters -- The advisor generally votes for the ratification of auditors, procedural matters related to the annual meeting, and changes in company name, and against bundled proposals and adjournment.

The general provisions described above do not apply to investment companies. The advisor generally votes proxies solicited by investment companies in accordance with the recommendations of an independent third-party, except for proxies solicited by or with respect to investment companies for which the advisor or an affiliate serves as investment advisor or principal underwriter ("affiliated

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

investment companies"). The advisor votes affiliated investment company proxies in the same proportion as the vote of the investment company's other shareholders (sometimes called "mirror" or "echo" voting). Master fund proxies solicited from feeder funds are voted in accordance with applicable requirements of the Investment Company Act of 1940.

Although the Guidelines set forth the advisor's general voting positions on various proposals, the advisor may, consistent with the Fund's best interests, determine under some circumstances to vote contrary to those positions.

The Guidelines on a particular issue may or may not reflect the view of individual members of the board, or of a majority of the board. In addition, the Guidelines may reflect a voting position that differs from the actual practices of the public companies within the Deutsche Bank organization or of the investment companies for which the advisor or an affiliate serves as investment advisor or sponsor.

The advisor may consider the views of a portfolio company's management in deciding how to vote a proxy or in establishing general voting positions for the Guidelines, but management's views are not determinative.

As mentioned above, the Policies describe the way in which the advisor resolves conflicts of interest. To resolve conflicts, the advisor, under normal circumstances, votes proxies in accordance with its Guidelines. If the advisor departs from the Guidelines with respect to a particular proxy or if the Guidelines do not specifically address a certain proxy proposal, a committee established by the advisor will vote the proxy. Before voting any such proxy, however, the committee will exclude from the voting discussions and determinations any member who is involved in or aware of a material conflict of interest. If, after excluding any and all such members, there are fewer than three voting members remaining, the advisor will engage an independent third party to vote the proxy or follow the proxy voting recommendations of an independent third party.

Under certain circumstances, the advisor may not be able to vote proxies or the advisor may find that the expected economic costs from voting outweigh the benefits associated with voting. For example, the advisor may not vote proxies on certain foreign securities due to local restrictions or customs. The advisor generally does not vote proxies on securities subject to share blocking restrictions.

ITEM 8. [RESERVED]

ITEM 9. CONTROLS AND PROCEDURES.

(a) The Chief Executive and Financial Officers concluded that the Registrant's Disclosure Controls and Procedures are effective based on the evaluation of the Disclosure Controls and Procedures as of a date within 90 days of the filing date of this report.

(b) During the filing period of the report, management identified issues relating to the overall fund expense payment and accrual process. Management discussed these matters with the Registrant's Audit Committee and auditors, instituted additional procedures to enhance its internal controls and will continue to develop additional controls and redesign work flow to strengthen the overall control environment associated with the processing and recording of fund expenses.

ITEM 10. EXHIBITS.

(a)(1) Code of Ethics pursuant to Item 2 of Form N-CSR is filed and attached hereto as EX-99.CODE ETH.
