Sidebar text: "NO ONE KNOWS WHAT THE FUTURE WILL BRING, WHICH IS WHY WE THINK A WELL-BALANCED PORTFOLIO ... IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS."

Dear

SHAREHOLDER

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with attractive tax-free monthly income. For more specific information about the performance of your Fund, please see the Portfolio Manager's Comments and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder how fixed-income investments will perform if interest rates begin to rise. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE PERIOD ENDED APRIL 30, 2003?

The underlying economic and market conditions have not changed much since our last shareholder report dated October 31, 2002. We believe the most influential factors shaping the U.S. economy and the municipal market during this reporting period continued to be the sluggish pace of economic growth and interest rates that remained at 40-year lows. At the same time, continued geopolitical concerns, centering on the ongoing threat of terrorism and the situation in Iraq, also had an impact during this reporting period, particularly in terms of investor sentiment.

In the municipal market, the slow economic recovery and the continued lack of inflationary pressures created conditions that helped many bonds perform well during this reporting period. As of April 2003, inflation was running at 1.5% annualized, the lowest annual rate in 37 years. Following a record year in 2002, municipal issuance nationwide remained very heavy during the first four months of 2003, with \$113.5 billion in new municipal bonds coming to market, an increase of 21% over the same period in 2002. Despite the large supply of new municipal bonds, firm or improving prices indicated continued strong demand from investors. In particular, institutional investors such as property/ casualty insurance companies, hedge funds, arbitrage accounts and pension funds were active buyers in the municipal market over much of this reporting period.

HOW DID THESE FUNDS PERFORM OVER THE TWELVE-MONTH PERIOD ENDED APRIL 30, 2003?

Individual results for these Funds, as well as for appropriate benchmarks, are presented in the accompanying table.

	MARKET YIELD		TOTAL RETURN ON NAV	LEHMAN TOTAL RETURN <sup>1</sup>	LIPPER AVERAGE <sup>2</sup>
	4/30/03	TAXABLE- EQUIVALENT <sup>3</sup>	1 YEAR ENDED 4/30/03	1 YEAR ENDED 4/30/03	1 YEAR ENDED 4/30/03

For additional information, see the individual Performance Overview for your Fund in this report.

For the twelve months ended April 30, 2003, all six of the Funds in this report outperformed the unleveraged, unmanaged Lehman Brothers Municipal Bond Index. All except NMO also outperformed their Lipper Fund peer group average.

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

- 1 The total annual returns on common share net asset value (NAV) for these Funds are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of these Nuveen Funds are compared with the average annualized return of the 58 funds in the Lipper General Leveraged Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30%.

2

Much of this outperformance relative to the Lehman Index is attributable to the Funds' leveraged capital structures and to their relatively long durations<sup>4</sup>. While leverage adds volatility to a Fund, it can help enhance the amount of income paid to common shareholders, especially during a period of low short-term interest rates as was the case during the twelve-month period. The Funds' performances compared with the Lehman index also was helped by their relatively long durations. Duration is a measure of sensitivity to changes in interest rates, and, generally, the longer the duration, the more the price of an investment will react to a change in prevailing interest rates. In a time of generally declining interest rates, as was the case during much of the twelve-month period, longer duration investments would be expected to outperform shorter duration investments, all other things being equal. The durations of the six Funds as of April 30, 2003, ranged from 9.15 to 10.09, compared with 7.84 for the Lehman index.

In addition to leverage and duration, the relative performances of these Funds were influenced by factors such as call exposure, portfolio trading activity and the price movement of specific sectors and holdings. During the twelve-month period, for example, the performance of NMO was impacted by its holdings of bonds backed by American Airlines and United Air Lines. Over the past year, the market value of most airline-backed bonds fell, due in part to a decline in passenger volume and in part to the well-documented financial struggles of the industry's two largest carriers.

As of April 30, 2003, NMO held \$50.1 million par value, or 4.8% of its portfolio, in airline-backed bonds, and their depreciation over the twelve-month period cost the Fund approximately 375 basis points in total return performance.

### HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates at historically low levels, the dividend-payment capabilities of these Funds benefited from their use of leverage. The amount of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. Low short-term rates can enable the Funds to reduce the amount of income they pay MuniPreferred holders, which potentially can leave more earnings to support common share dividends. During the twelve months ended April 30, 2003, the continued low level of short-term interest rates enabled us to implement four dividend increases in NPP, NMA, and NXZ; three in NMO and NAD; and one in NZF.

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

Over the course of this twelve-month period, strong demand and favorable market conditions helped to

- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

3

boost the share prices of all six Funds. Since their NAVs also increased, NAD moved from trading at a premium to its common share net asset value to trading at a discount, while the remaining five Funds continued to trade at discounts as of April 30, 2003 (see charts on individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE PERIOD ENDED APRIL 30, 2003?

Over the reporting period, we continued to place strong emphasis on diversifying the Funds' port-folios, enhancing call protection and supporting their future dividend-paying capabilities. Strategically, our main focus centered on systematically shortening the Funds' durations, which we believe will help us better control the Funds' interest rate risk over time and enhance their ability to produce consistent returns. Interest rate risk is the risk that the value of a Fund's portfolio will decline when market interest rates rise (since bond prices move in the opposite direction of interest rates). The longer the duration of a Fund's portfolio, the greater its interest rate risk.

In line with our moderated duration strategy, we concentrated on finding value in the long-intermediate part of the yield curve (i.e., bonds that mature in about 20 years). In many cases, these long-intermediate bonds were offering yields similar to those of longer bonds but, in our opinion, had less inherent interest rate risk. Over the period, the purchase of bonds in this part of the curve helped to shorten the durations of these Funds, making their portfolios less sensitive to any changes in the interest rate environment while still allowing them to provide competitive yields.

In general, the heavy issuance in the municipal market over the past year provided us with increased opportunities to purchase the types of bond structures that we favor. We also continued to look for individual issues that we believed would perform well regardless of the future direction of interest rates. Overall, we emphasized undervalued sectors of the market and geographical areas with healthy levels of issuance, such as Texas and Florida. All six Funds also maintained substantial weightings in healthcare bonds, the top performing group among the Lehman revenue sectors for the twelve months ended April 30, 2003.

Each of these Funds held modest positions (less than 5% of its portfolio) in bonds backed by the 1998 Master Tobacco Settlement Agreement. Over the past five years, fourteen states, the

4

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

District of Columbia, Puerto Rico, Guam, New York City, and individual counties in California and New York have issued almost \$20 billion of tobacco securitization bonds backed by this agreement. In recent months, the prices of these bonds weakened as the result of lawsuits involving the major tobacco companies as well as the increased issuance of such bonds by states planning to use the proceeds to help close budget gaps. Although the sector as a whole produced negative returns over the twelve-month period, tobacco bonds showed some recovery toward the end of the period.

Given the current geopolitical and economic climate, we believe that maintaining strong credit quality remains a vital requirement, and we continued to emphasize higher rated and insured bonds in our purchases for the Funds. As of April 30, 2003, each of these Funds offered excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 69% to 84%. In general, our weightings in higher quality and insured bonds benefited the performance of these Funds during the twelve-month period.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE NUVEEN FUNDS IN PARTICULAR?

We think new issuance volume should remain strong, as issuers continue to take advantage of the low rate environment. Adding to our expectations for continued strong issuance are the budget deficits affecting many states, and their continued need to raise money for infrastructure, education and healthcare needs. Over coming months, we will continue to closely monitor the states' budgetary situations to watch for any potential impact on credit ratings.

Looking at the bond call exposure, we believe these Funds offer good levels of call protection during the remainder of 2003 and through 2004. As of April 30, 2003, the percentage of bonds eligible for calls ranged from 1% in NZF to 14% in NPP during 2003 and 2004. The number of actual calls during this time will depend largely on market interest rates and the specific situations of individual issuers.

In the coming months, our primary goal will continue to be moderating the Funds' durations. In addition, we plan to watch for opportunities to purchase or swap for issues that we perceive to be under-valued, particularly in sectors of the market that have recently underperformed. The expected strong supply of new bonds should help us in this effort.

\* Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.

\*\* Ratings: Using the higher of Standard & Poor's or Moody's rating.

\*\*\* Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.

N/R Investment is not rated.

# On December 9, 2002, UAL Corporation, the holding company of United Air Lines, Inc., filed for federal bankruptcy protection. The Adviser determined that it was likely United would not remain current on their interest payment obligation with respect to these bonds and thus has stopped accruing interest.

+ Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.
- \* Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- \*\* Ratings: Using the higher of Standard & Poor's or Moody's rating.
- \*\*\* Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
- N/R Investment is not rated.
- # Non-income producing security, in the case of a bond, generally denotes that issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
- + Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

### Notes to FINANCIAL STATEMENTS (Unaudited)

#### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The National Funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Performance Plus Municipal Fund, Inc. (NPP), Nuveen Municipal Advantage Fund, Inc. (NMA), Nuveen Municipal Market Opportunity Fund, Inc. (NMO), Nuveen Dividend Advantage Municipal Fund (NAD), Nuveen Dividend Advantage Municipal Fund 2 (NXZ) and Nuveen Dividend Advantage Municipal Fund 3 (NZF). Performance Plus (NPP), Municipal Advantage (NMA), Market Opportunity (NMO) and Dividend Advantage (NAD) are traded on the New York Stock Exchange while Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities.

The following is a summary of significant accounting policies followed by the

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

### Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At April 30, 2003, Dividend Advantage 2 (NXZ) had outstanding when-issued and delayed delivery purchase commitments of \$7,074,657. There were no such outstanding purchase commitments in any of the other Funds.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

### Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds.

61

Notes to  
FINANCIAL STATEMENTS (Unaudited) (continued)

### Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared and paid monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

### Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	PERFORMANCE PLUS (NPP)	MUNICIPAL ADVANTAGE (NMA)	MARKET OPPORTUNITY (NMO)	DIVIDEND ADVANTAGE (NAD)	DIVIDEND ADVANTAGE 2 (NXZ)	ADVANTAGE 3 (NZF)
-----						
Number of shares:

=====						

Effective April 5, 2002, Performance Plus (NPP) issued 1,400 Series TH \$25,000 stated value Preferred shares.

Effective November 16, 2001, Dividend Advantage 3 (NZF) issued 4,160 Series W, 4,160 Series TH and 4,160 Series F \$25,000 stated value Preferred shares.

62

### Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended April 30, 2003.

### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

### Offering Costs

Costs incurred by Performance Plus (NPP) and Dividend Advantage 3 (NZF) in connection with their offerings of Preferred shares (\$501,135 and \$3,495,003, respectively) were recorded as a reduction to paid-in surplus.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At April 30, 2003, the cost of investments were as follows:

	PERFORMANCE PLUS (NPP)	MUNICIPAL ADVANTAGE (NMA)	MARKET OPPORTUNITY (NMO)	DIVIDEND ADVANTAGE (NAD)	DIVIDEND ADVANTAGE 2 (NXZ)	A
Cost of Investments	\$1,294,970,480	\$946,213,741	\$995,571,169	\$822,779,237	\$629,692,386	\$8

Gross unrealized appreciation and gross unrealized depreciation on investments at April 30, 2003, were as follows:

The tax character of distributions paid during the fiscal year ended October 31, 2002, the Funds' last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

	PERFORMANCE PLUS (NPP)	MUNICIPAL ADVANTAGE (NMA)	MARKET OPPORTUNITY (NMO)	DIVIDEND ADVANTAGE (NAD)	DIVIDEND ADVANTAGE 2 (NXZ)	ADVANTAGE 3 (NXZ)
Distributions from net tax-exempt income	\$59,286,613	\$44,278,184	\$46,362,835	\$40,491,284	\$29,610,711	\$37,111,111
Distributions from net ordinary income *	256,881	1,271,708	--	--	363,652	--
Distributions from net long-term capital gains	3,076,373	4,070,716	1,281,935	--	--	--

\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At October 31, 2002, the Fund's last fiscal year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	MARKET OPPORTUNITY (NMO)	DIVIDEND ADVANTAGE (NAD)	ADVANTAGE 3 (NXZ)
Expiration year:			
2007	\$ --	\$ 2,980,482	\$ --

### NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

### POLICY CHANGE

On November 14, 2002, the Board adopted a policy that allows these Funds, in addition to investments in municipal bonds, to invest up to 5% of its net assets (including assets attributable to preferred shares, if any) in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided Nuveen Advisory determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer. This policy is a non-fundamental policy of each Fund which means that it can be changed at any time by the Board of Trustees without vote of the shareholders.

### GLOSSARY OF TERMS USED IN THIS REPORT

**Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

**Average Effective Maturity:** The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**Leverage-Adjusted Duration:** Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

**Market Yield (also known as Dividend Yield or Current Yield):** An investment's current annualized dividend divided by its current market price.

**Net Asset Value (NAV):** A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**Taxable-Equivalent Yield:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

-----  
Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the six-month period ended April 30, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.
