FORM N-CSR

CERTIFIED SHAREHOLDER REPORT OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

Investment Company Act file number 811-05235

Nuveen California Municipal Value Fund, Inc. (Exact name of registrant as specified in charter)

Nuveen Investments 333 West Wacker Drive Chicago, IL 60606 (Address of principal executive offices) (Zip code)

> Kevin J. McCarthy Nuveen Investments 333 West Wacker Drive Chicago, IL 60606 (Name and address of agent for service)

Registrant's telephone number, including area code: (312) 917-7700

Date of fiscal year end: February 28

Date of reporting period: August 31, 2014

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

NUVEEN INVESTMENTS ACQUIRED BY TIAA-CREF

On October 1, 2014, TIAA-CREF completed its previously announced acquisition of Nuveen Investments, Inc., the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$613 billion in assets under management as of June 30, 2014 and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen expects to operate as a separate subsidiary within TIAA-CREF's asset management business. Nuveen's existing leadership and key investment teams have remained in place following the transaction.

Your fund investment will not change as a result of Nuveen's change of ownership. You will still own the same fund shares and the underlying value of those shares will not change as a result of the transaction. NFAL and your fund's sub-adviser(s) will continue to manage your fund according to the same objectives and policies as before, and we do not anticipate any changes to your fund's operations.

Chairman's Letter to Shareholders

Dear Shareholders,

Over the past year, global financial markets were generally strong as stocks of many countries rose due to strengthening economies and abundant central bank support. A low and stable interest rate environment allowed the bond market to generate modest but positive returns.

More recently, markets have been less certain as economic growth is strengthening in some parts of the world, but in other areas recovery has been slow or uneven at best. Despite increasing market volatility, geopolitical turmoil and concerns over rising rates, better-than-expected earnings results and economic data have supported U.S. stocks. Europe continues to face challenges as disappointing growth and inflation measures led the European Central Bank to further cut interest rates. Japan is suffering from the burden of the recent consumption tax as the government's structural reforms continue to steadily progress. Flare-ups in hotspots, such as the ongoing Russia-Ukraine conflict and Middle East, have not yet been able to derail the markets, though that remains a possibility. With all the challenges facing the markets, accommodative monetary policy around the world has helped lessen the impact of these events.

It is in such changeable markets that professional investment management is most important. Investment teams who have experienced challenging markets in the past understand how their asset class can behave in rapidly changing times. Remaining committed to their investment disciplines during these times is a critical component to achieving long-term success. In fact, many strong investment track records are established during challenging periods because experienced investment teams understand that volatile markets place a premium on companies and investment ideas that can weather the short-term volatility. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider Chairman of the Board October 23, 2014

Portfolio Manager's Comments

Nuveen California Municipal Value Fund, Inc. (NCA) Nuveen California Municipal Value Fund 2 (NCB) Nuveen California AMT-Free Municipal Income Fund (NKX) Nuveen California Dividend Advantage Municipal Fund (NAC) Nuveen California Dividend Advantage Municipal Fund 2 (NVX) Nuveen California Dividend Advantage Municipal Fund 3 (NZH)

These Funds feature portfolio management by Nuveen Asset Management, LLC, an affiliate of Nuveen Investments, Inc. Portfolio manager Scott R. Romans, PhD, reviews key investment strategies and the six-month performance of the Nuveen California Municipal Funds. Scott has managed NCA, NKX, NAC, NVX and NZH since 2003 and NCB since its inception in 2009.

What key strategies were used to manage the California Funds during the six-month reporting period ended August 31, 2014?

During this reporting period, the rally in the municipal market continued, driven by strong demand and tight supply and reinforced by a market environment of solid fundamentals and improving technical factors. For the reporting period, municipal bond prices generally rose, while interest rates declined. California municipal paper as a whole outperformed the national market, due in part to increased demand triggered by recent changes in the state tax code as well as improving economic conditions in the state. During this time, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that we believed had the potential to perform well over the long term.

Despite the decline in new municipal issuance both nationally and to a greater extent in California, we continued to find opportunities to purchase bonds in both the primary and secondary markets that helped us keep the Funds fully invested. As the municipal market improved, we tried to position our portfolios somewhat more defensively by focusing on higher grade bonds that offered good liquidity and that were positioned in the longer-intermediate part of the yield curve, (i.e., 18 to 22 years, rather than 25 to 30 years). In the current rate environment, we believe it is advantageous to think of purchases as short-term holdings that can be swapped for credit positions with better embedded yields when interest rates start to rise. We successfully used this strategy when rates rose in 2013 to swap out of bonds with 5% coupons and into bonds with higher coupons. In addition, many of those bonds had been purchased at significant premiums. Because premiums must be amortized, that cut into the amount of income available for distribution from the coupon. By executing a bond swap in a rising interest rate environment, the amortization expense was basically

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service, Inc. (Moody's) or Fitch, Inc. (Fitch). Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. government or agency securities are regarded as having an implied rating equal to the rating of such

securities. Holdings designated N/R are not rated by these national rating agencies.

Bond insurance guarantees only the payment of principal and interest on the bond when due, and not the value of the bonds themselves, which will fluctuate with the bond market and the financial success of the issuer and the insurer. Insurance relates specifically to the bonds in the portfolio and not to the share prices of a Fund. No representation is made as to the insurers' ability to meet their commitments.

Portfolio Manager's Comments (continued)

converted into a loss, so that more of the income from the coupon could be distributed to shareholders. An additional benefit of this strategy was the generation of tax loss carry-forwards that could be used to offset future capital gains.

During this reporting period, we also took advantage of some opportunities to trade tobacco bonds. Bonds from certain tobacco issuers tend to be more liquid because they were part of a larger issuance. Because of this liquidity, these bonds are preferred by nontraditional municipal investors such as hedge funds. By swapping the Funds' more liquid tobacco bonds for ones with less liquidity, we were able to pick up bonds with better credit quality and structure and higher yields, while also harvesting tax losses.

Overall, our emphasis in purchase activity was on relative value and credit quality, rather than sector. That is, when considering the purchase of a lower rated bond or a slightly less liquid issue, we looked carefully at the compensation offered by the bond in question relative to its credit quality or liquidity to determine that, if the bond were held for the long term rather than swapped when interest rates rise, the Funds would be well compensated for that. During this reporting period, our purchases of high grade, liquid bonds included California general obligation (GO) bonds as well as California State Public Works credits, both of which we bought until the credit upgrade on California GOs (see next paragraph). As spreads on these bonds tightened following the upgrade, we shifted our focus to other bonds in the high-grade end of the spectrum. All of the additions to our portfolios during this reporting period consisted of California paper.

In June 2014, Moody's upgraded its credit rating on California GO debt to Aa3 from A1, the highest level since 2001, citing California's "rapidly improving financial position, high but declining debt metrics, adjusted net pension liability ratios...and robust employment growth." Earlier in 2014, S&P had revised its outlook for the state to positive from stable, while affirming an A-rating. Fitch continued to rate the state at A with a stable outlook. Also during this reporting period, S&P upgraded its credit rating on National Public Finance Guarantee Corp. (NPFG), the insurance subsidiary of MBIA, to AA- rated from A-rated, citing NPFG's strong operating performance and competitive position in the financial guarantee market. As a result, the ratings on the Funds' holdings of bonds backed by insurance from NPFG were similarly upgraded to AA- as of mid-March 2014. This action produced an increase in the percentage of our portfolios held in the AA-rated credit quality category (and a corresponding decrease in the A-rated category), improving the overall credit quality of the Funds. During this reporting period, S&P also upgraded its rating on Assured Guaranty Municipal (AGM) as well as AGM's municipal-only insurer Municipal Assurance Corp. to AA from AA-.

Cash for purchases was generated primarily by proceeds from called and matured bonds, which we worked to redeploy to keep the Funds fully invested and support their income streams. The decline in municipal yields and the flattening of the municipal yield curve relative to the Treasury curve helped to make refunding deals more attractive and we saw an increase in this activity during the reporting period, as bond issuers sought to lower costs through refinancings. This provided ample cash for purchases and drove most of our trading activity for the reporting period.

As of August 31, 2014, all six of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Funds perform during the six-month reporting period ended August 31, 2014?

The tables in the Performance Overview and Holding Summaries section of this report provide total returns for each Fund for the six-month, one-year, five-year, ten-year and/or since inception periods ended August 31, 2014. Each Fund's returns at net asset value (NAV) are compared with the performance of corresponding market indexes and Lipper classification average.

For the six months ended August 31, 2014, the total returns at common share NAV for all six of these Funds exceeded the return for the S&P Municipal Bond California Index as well as that for the national S&P Municipal Bond Index. For this same period, NKX, NAC and NZH outperformed the average return for the Lipper California Municipal Debt Funds Classification Average, while NCA, NCB and NVX trailed this Lipper California average.

Key management factors that influenced the Funds' returns included duration and yield curve positioning, credit exposure and sector allocation. In addition, the use of regulatory leverage was an important factor affecting the performance of these Funds. Among the primary reasons that the returns of NCA and NCB lagged those of the other Funds for this six-month reporting period was that these two Funds do not use regulatory leverage. Leverage is discussed in more detail later in this report.

Given the combination of declining interest rates and a flattening yield curve during this reporting period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits with maturities of 15 years or more, especially those at the longest end of the municipal yield curve, outperformed the general municipal market, while bonds at the shortest end of the curve produced the weakest results. In general, the Funds' durations and yield curve positioning were positive for their performance. Consistent with our long-term strategy, all of these Funds tended to be overweighted in the longer parts of the yield curve that performed best and underweighted in the underperforming shorter end of the curve. This was especially true in NKX and NAC, which had the longest durations among these Funds, while NVX had the shortest duration among the leveraged Funds. Between the two Funds that do not use leverage, NCA benefited from having a longer duration than NCB.

During this reporting period, lower rated bonds generally outperformed higher quality bonds, as the municipal market rally continued and investors became more willing to accept risk. In general, these Funds tended to have good weightings in the lower quality categories and underweights in the highest AAA-rated category, which helped their performance. Overall, NKX was the most advantageously positioned among these Funds in terms of credit exposure, while NVX received less of a contribution from its ratings positioning.

Health care bonds generally were the top performer among the municipal market, while industrial development revenue (IDR), transportation (led by tollroads), education, and water and sewer credits also outperformed the general municipal market. Among these Funds, NCB, NAC and NZH had the heaviest weightings in the health care sector, which boosted their performance. Conversely, health care was a negative factor in NVX due to where its health care holdings were weighted along the curve. The Funds also benefited from solid performance from their holdings of tax increment financing (TIF) district bonds, an area on which we have focused in recent years. Benefiting from the improving housing market and overall economy, land-secured deals such as TIF bonds led the outperformance of the tax-supported sector. However, the Funds tended to be underweighted in tax-supported

Portfolio Manager's Comments (continued)

bonds as a whole. During this reporting period, lower rated tobacco credits backed by the 1998 master tobacco settlement agreement tended to perform in the middle of the pack. All of these Funds had allocations of tobacco bonds issued by various California agencies, with NKX and NZH having the heaviest weighting in these credits and NCA the smallest.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were among the poorest performing market segments. The underperformance of these bonds relative to the market can be attributed primarily to their shorter effective maturities and higher credit quality. All of these Funds had allocations of pre-refunded bonds, with NCA having by far the heaviest weighting and NCB and NZH the smallest exposures. In addition, GO credits generally trailed the revenue sectors as well as the municipal market as a whole for the reporting period. This included California state GOs, which underperformed despite their upgrade by Moody's in June 2014.

We also continue to monitor ongoing economic developments in Puerto Rico for any impact on the Funds' holdings and performance. Shareholders should note that NCB had no exposure to Puerto Rico bonds during this reporting period, while NVX had less than 2% and the other four Funds had allocations of less than 1% at the end of the reporting period. The Puerto Rico credits offered higher yields, added diversification, and triple exemption (i.e., exemption from most federal, state, and local taxes). However, Puerto Rico's continued economic weakening, escalating debt service obligations, and long-standing inability to deliver a balanced budget led to multiple downgrades on its debt over the past two years. Following the latest rating reduction by Moody's in July 2014, Puerto Rico general obligation debt was rated B2/BB+/BB (below investment grade) by Moody's, S&P and Fitch, respectively, with negative outlooks. In late June 2014, Puerto Rico approved new legislation creating a judicial framework and formal process that would allow several of the commonwealth's public corporations to restructure their public debt. As of September 2014, the Nuveen complex held \$70.9 million in bonds backed by public corporations in Puerto Rico that could be restructured under this legislation, representing less than 0.1% of our municipal assets under management. In light of the evolving economic situation in Puerto Rico, Nuveen's credit analysis of the commonwealth had previously considered the possibility of a default and the restructuring of public corporations, and we had adjusted our portfolios to prepare for such an outcome, although no such default or restructuring has occurred to date. The Nuveen complex's entire exposure to obligations of the government of Puerto Rico and other Puerto Rico issuers totals 0.35% of assets under management, as of September 30, 2014. For the reporting period ended August 31, 2014, Puerto Rico paper underperformed the municipal market as a whole.

FUND REORGANIZATIONS

Effective before the opening of business on June 9, 2014, certain California Funds (the Target Funds) were reorganized into larger California Funds included in this report (the Acquiring Funds) as follows:

The approved reorganizations are as follows:

Target Funds	Acquiring Funds
Nuveen California Performance Plus Municipal Fund, Inc.	Nuveen California Dividend Advantage Municipal Fund
(NCP)	(NAC)
Nuveen California Municipal Market Opportunity Fund,	
Inc. (NCO)	
Nuveen California Investment Quality Municipal Fund,	
Inc. (NQC)	
Nuveen California Select Quality Municipal Fund, Inc.	
(NVC)	

Nuveen California Quality Income Municipal Fund, Inc. (NUC)	
Nuveen California Premium Income Municipal Fund (NCU)	Nuveen California AMT-Free Municipal Income Fund (NKX)

Upon the closing of a reorganization, a Target Fund transfers its assets to the Acquiring Fund in exchange for common and preferred shares of the Acquiring Fund, and the assumption by the Acquiring Fund of the liabilities of the Target Fund. Each Target Fund is then liquidated, dissolved and terminated in accordance with its Declaration of Trust. Shareholders of each Target Fund become shareholders of the Acquiring Fund. Holders of common shares receive newly issued common shares of their Acquiring Fund, the aggregate net asset value of which equal the aggregate net asset value of the common shares of the Target Fund held immediately prior to the reorganization (including for this purpose fractional Acquiring Fund shares to which shareholders are entitled). Fractional shares are sold on the open market and shareholders received cash in lieu of such fractional shares. Holders of preferred shares of each Target Fund receive on a one-for-one basis newly issued preferred shares of their Acquiring Fund, in exchange for preferred shares of the Target Fund held immediately prior to the reorganization.

Fund Leverage

IMPACT OF THE FUNDS' LEVERAGE STRATEGY ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their comparative benchmarks was the Funds' use of leverage through their issuance of preferred shares and/or investments in inverse floating rate securities, which represent leveraged investments in underlying bonds. As mentioned previously, NCA and NCB do not use regulatory leverage. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income, particularly in the recent market environment where short-term market rates are at or near historical lows, meaning that the short-term rates the Fund has been paying on its leveraging instruments have been much lower than the interest the Fund has been earning on its portfolio of long-term bonds that it has bought with the proceeds of that leverage. However, use of leverage also can expose the Fund to additional price volatility. When a Fund uses leverage increase in value, but it will also experience a correspondingly larger decline in its net asset value if the bonds acquired through leverage decline in value, which will make the Fund's net asset value more volatile, and its total return performance more variable over time. In addition, income in levered funds will typically decrease in comparison to unlevered funds when short-term interest rates increase and increase when short-term interest rates decrease. Leverage had a positive impact on the performance of the Funds.

As of August 31, 2014, the Funds' percentages of leverage are as shown in the accompanying table.

		NCA		NCB	1	NKX]	NAC]	NVX	ľ	NZH
Effective Leverage*	1.67	%	9.48	%	34.85	%	36.34	%	32.12	%	38.20	%
Regulatory Leverage*	0.00	%	0.00	%	30.48	%	29.44	%	30.03	%	31.55	%

* Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUNDS' REGULATORY LEVERAGE

As of August 31, 2014, the following Funds have issued and outstanding MuniFund Term Preferred (MTP) Shares and Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying table. As mentioned previously, NCA and NCB do not use regulatory leverage.

			MTP Shares		V	/RD	P Shares	
		Shares		NYSE/		Sh	ares	
		Issued at	Annual	NYSE		Iss	ued at	
		Liquidation	Dividend	MKT		Lic	juidation

NZH		_	-		1	\$	160,000,000	\$160,000,000

* MTP Shares and/or VRDP Shares issued in connection with the reorganization.

Refer to Notes to Financial Statements, Note 1 — General Information and Significant Accounting Policies for further details on MTP and VRDP Shares.

Common Share Information

COMMON SHARE DISTRIBUTION INFORMATION

The following information regarding the Funds' distributions is current as of August 31, 2014. Each Fund's distribution levels may vary over time based on each Fund's investment activity and portfolio investment value changes.

During the current reporting period, each Fund's distributions to common shareholders were as shown in the accompanying table.

				Per	r Common	Sha	re Amount	S		
Ex-Dividend Date	NCA		NCB		NKX		NAC		NVX	NZH
March 2014	\$ 0.0390	\$	0.0650	\$	0.0700	\$	0.0740	\$	0.0750	\$ 0.0670
April	0.0390		0.0650		0.0700		0.0740		0.0750	0.0670
May	0.0390		0.0650		0.0700		0.0740		0.0750	0.0670
June*	0.0390		0.0650		0.1400		0.1480		0.0700	0.0670
July	0.0390		0.0650		0.0000		0.0000		0.0700	0.0670
August 2014	0.0390		0.0650		0.0700		0.0800		0.0700	0.0670
Market Yield**	4.60%	,	4.70%		6.05%)	6.73%	,	6.03%	6.28%
Taxable-Equivalent										
Yield**	7.04%	,	7.20%		9.26%)	10.31%		9.23%	9.62%

* In connection with NKX's reorganization, the Fund declared a dividend of \$0.0700 per common share with an ex-dividend date of June 4, 2014, payable on July 1, 2014 and a dividend of \$0.0700 per common share with an ex-dividend date of June 4, 2014, payable on August 1, 2014. In connection with NAC's reorganization, the Fund declared a dividend of \$0.0740 per common share with an ex-dividend date of June 4, 2014, payable on July 1, 2014, a dividend of \$0.0686 per common share with an ex-dividend date of June 4, 2014, payable on August 1, 2014, a dividend of \$0.0686 per common share with an ex-dividend date of June 4, 2014, payable on August 1, 2014 and a dividend of \$0.0054 per common share with an ex-dividend date of June 17, 2014, payable on August 1, 2014.

** Market Yield is based on the Fund's current annualized monthly distribution divided by the Fund's market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.7%. When comparing a Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

Each Fund in this report seeks to pay regular monthly dividends out of its net investment income at a rate that reflects its past and projected net income performance. To permit each Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if a Fund has cumulatively paid in dividends more than it has earned, the excess will constitute a negative UNII that will likewise be reflected in the Fund's net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders.

As of August 31, 2014, all of the Funds in this report had positive UNII balances, based upon our best estimate, for tax purposes and positive UNII balances for financial reporting purposes.

All monthly dividends paid by the Funds during the six months ended August 31, 2014 were paid from net investment income. If a portion of a Fund's monthly distributions was sourced from or comprised of elements other than net investment income, including capital gains and/or a return of capital, the Funds' shareholders would have received a notice to that effect. The composition and per share amounts of each Fund's monthly dividends for the reporting period are presented in the Statement of Changes in Net Assets and Financial Highlights, respectively (for reporting purposes) and in Note 6 — Income Tax Information within the accompany Notes to Financial Statements (for income tax purposes), later in this report.

COMMON SHARE REPURCHASES

As of August 31, 2014, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired their outstanding common shares as shown in the accompanying table.

	NCA	NCB	NKX	NAC	NVX	NZH
Common Shares Cumulatively Repurchased	0	0	0	0	50,700	12,900
and Retired						
Common Shares Authorized for Repurchase	2,530,000	330,000	4,185,000	2,350,000	1,475,000	2,415,000

During the current reporting period, the Funds did not repurchase any of their outstanding common shares.

COMMON SHARE EQUITY SHELF PROGRAMS

During the reporting period, the following Funds were authorized to issue additional common shares through their ongoing equity shelf programs. Under these programs, each Fund, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per common share. Under the equity shelf programs, the Funds are authorized to issue the following number of additional common shares.

	NCA	NKX	NAC
Additional Common Shares Authorized	2,500,000	4,100,000	2,300,000

During the current reporting period, the Funds did not sell any of their common shares through their equity shelf program.

As June 30, 2014, NCA's, NKX's and NAC's shelf offering registration statement were no longer effective. Therefore, the Funds may not issue additional common shares under their equity shelf programs until a new registration statement is effective. On October 3, 2014 (subsequent to the close of this reporting period), a new registration statement for NCA became effective and therefore, the Fund may issue additional common shares under its equity shelf program.

OTHER COMMON SHARE INFORMATION

As of August 31, 2014, and during the current reporting period, the Funds' common share prices were trading at a premium/(discount) to their common share NAVs as shown in the accompanying table.

	NCA	NCB	NKX	NAC	NVX	NZH
Common Share NAV	\$ 10.44 \$	17.39 \$	15.63 \$	15.61 \$	15.47 \$	14.37
Common Share Price	\$ 10.18 \$	16.59 \$	13.89 \$	14.26 \$	13.93 \$	12.80

Risk Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Price and Market Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful. Certain aspects of the recently adopted Volcker Rule may limit the availability of tender option bonds, which are used by the Funds for leveraging and duration management purposes. The effects of this new Rule, expected to take effect in mid-2015, may make it more difficult for a Fund to maintain current or desired levels of leverage and may cause the Fund to incur additional expenses to maintain its leverage.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Inverse Floater Risk. The Funds invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Lipper California Municipal Debt Funds Classification Average	7.96%	21.18%	9.63%	5.72%

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. Returns at NAV are net of Fund expenses, and assume reinvestment of distributions. Comparative index and Lipper return information is provided for the Fund's shares at NAV only. Indexes and Lipper averages are not available for direct investment.

This data relates to the securities held in the Fund's portfolio of investments as of the end of the reporting period. It should not be construed as a measure of performance for the Fund itself. Holdings are subject to change.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board.
 For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial
 Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (ETM) Escrowed to maturity.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

		Other Assets Less Liabilities – 0.5%			311,902
		Net Assets Applicable to Common Shares – 100%		\$	57,184,140

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 – Investment Valuation and Fair Value Measurements for more information.
- (IF) Inverse floating rate investment.

See accompanying notes to financial statements.

	Variable Rate Demand Preferred Shares, at			(699,600,000)
	Liquidation Value – $(41.7)\%$ (9)			
	Other Assets Less Liabilities – 1.9%			32,640,613
	Net Assets Applicable to Common Shares – 100%		\$	1,676,638,009

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.

- (5) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 – Investment Valuation and Fair Value Measurements for more information.
- (6) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (7) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (8) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- (9) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 28.6%.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

(2)	Ontiona	1 Call Provisions: Dates (month and year) and prices of t	the earliest option	onal call or rede	emption

(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board.
 For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial
 Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's

Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.

- (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (7) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (8) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- (9) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.6%.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

(6)

At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.

- (7) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (8) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- (9) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 32.1%.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

(a) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(b) For the period April 28, 2009 (commencement of operations) through February 28, 2010.

(c) The expense ratios reflect, among other things, the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, as described in Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities, as follows:

California Value (NCA)	
Year Ended 2/28–2/29:	
2015(f)	.01%*
2014	.01
2013	.01
2012	.01
2011	.01
2010	.01

California Value 2 (NCB)

2015(f) 2014	
2013	
2012	
2011	
2010(b)	

(d) The expenses and net investment income (loss) ratios to average net assets applicable to common shares do not reflect the voluntary expense reimbursement from Adviser as described in Note 1 – General Information and Significant Accounting Policies, Common Shares Equity Shelf Program and Offering Costs. The expenses and net investment income (loss) ratios to average net assets applicable to common shares including this expense reimbursement from Adviser are as follows:

			Net Investm	nent
California Value (NCA)	Expen	ses	Income (Lo	oss)
Year Ended 2/28-2/29:2015(f)	.70	%*	4.40	%*

- (e) Portfolio Turnover Rate is calculated based on the lesser of long-term purchases or sales (as disclosed in Note 5 Investment Transactions) divided by the average long-term market value during the period.
- (f) For the six months ended August 31, 2014.
- * Annualized.

See accompanying notes to financial statements.

2011	13.88	.98	(1.27)	(.02)		(.31)	(.89)	
2010	12.10	1.01	1.63	(.03)	(.02)	2.59	(.81)	

(a) The amounts shown are based on common share equivalents.

(b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(c) Ratios do not reflect the effect of dividend payments to Auction Rate Preferred shareholders, where applicable; Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to Auction Rate Preferred Shares ("ARPS"), MTP Shares and/or VRDP Shares, where applicable.

- (d) After expense reimbursement from the Adviser, where applicable. As of July 31, 2009, the Adviser is no longer reimbursing California Dividend Advantage (NAC) for any fees or expenses.
- 96 Nuveen Investments

Notes to Financial Statements (Unaudited)

1. General Information and Significant Accounting Policies

General Information

Fund Information

The funds covered in this report and their corresponding New York Stock Exchange ("NYSE") or NYSE MKT symbols are as follows (each a "Fund" and collectively, the "Funds"):

- Nuveen California Municipal Value Fund, Inc. (NCA) ("California Value (NCA)")
- Nuveen California Municipal Value Fund 2 (NCB) ("California Value 2 (NCB)")
- Nuveen California AMT-Free Municipal Income Fund (NKX) ("California AMT-Free Income (NKX)")
- Nuveen California Dividend Advantage Municipal Fund (NAC) ("California Dividend Advantage (NAC)")
- Nuveen California Dividend Advantage Municipal Fund 2 (NVX) ("California Dividend Advantage 2 (NVX)")
- Nuveen California Dividend Advantage Municipal Fund 3 (NZH) ("California Dividend Advantage 3 (NZH)")

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified closed-end registered investment companies. Common shares of California Value (NCA), California AMT-Free Income (NKX) and California Dividend Advantage (NAC) are traded on the NYSE while common shares of California Value 2 (NCB), California Dividend Advantage 2 (NVX) and California Dividend Advantage 3 (NZH) are traded on the NYSE MKT. California Value (NCA) was incorporated under the state laws of Minnesota on July 15, 1987. California Value 2 (NCB), California AMT-Free Income (NKX), California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX) and California Dividend Advantage (NAC), California Dividend Advantage 2 (NCB), California AMT-Free Income (NKX), California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX) and California Dividend Advantage 3 (NZH) were organized as Massachusetts business trusts on January 26, 2009, July 29, 2002, December 1, 1998, June 1, 1999 and April 6, 2001, respectively.

Investment Adviser

The Funds' investment adviser is Nuveen Fund Advisors, LLC (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). The Adviser is responsible for each Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC, (the "Sub-Adviser"), a subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds.

Purchase and Sale Agreement

On October 1, 2014, TIAA-CREF, a national financial services organization, completed its previously announced acquisition of Nuveen, the parent company of the Adviser. The transaction has not resulted in any change in the portfolio management of the Funds or in the Funds' investment objectives or policies.

Because the consummation of the acquisition resulted in the "assignment" (as defined in the Investment Company Act of 1940) and automatic termination of the Funds' investment management agreements and investment sub-advisory agreements, Fund shareholders were asked to approve new investment management agreements with the Adviser and new investment sub-advisory agreements with each Fund's sub-adviser. These new agreements were approved by shareholders of each of the Funds, and went into effect on October 1, 2014. The terms of the new agreements, including the fees payable to each Fund's Adviser and Sub-Adviser, are substantially identical to those of the investment management agreements and investment sub-advisory agreements in place immediately prior to the closing.

Investment Objectives and Principal Investment Strategies

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes, and in the case of California AMT-Free Income (NKX) the alternative minimum tax applicable to individuals, by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within the state of California or certain U.S. territories.

Fund Reorganizations

Effective prior to the opening of business on June 9, 2014, certain California Funds were reorganized into the two, larger-state Funds included in this report (each a "Reorganization and collectively, the "Reorganizations") as follows:

Target Funds Nuveen California Performance Plus Municipal Fund, Inc. (NCP)	Acquiring Fund California Dividend Advantage (NAC)
("California Performance Plus (NCP)")	
Nuveen California Municipal Market Opportunity Fund, Inc.	
(NCO)	
("California Opportunity (NCO)")	
Nuveen California Investment Quality Municipal Fund, Inc.	
(NQC)	
"California Investment Quality (NQC)")	
Nuveen California Select Quality Municipal Fund, Inc. (NVC)	
("California Select Quality (NVC)")	
Nuveen California Quality Income Municipal Fund, Inc. (NUC)	
("California Quality Income (NUC)")	
Nuveen California Premium Income Municipal Fund (NCU)	California AMT-Free Income (NKX)
("California Premium Income (NCU)")	

The Reorganizations were approved by the shareholders of the Target Funds at a special meeting on May 2, 2014.

Upon the closing of a reorganization, the Target Funds transfer their assets to the Acquiring Funds in exchange for common and preferred shares of the Acquiring Funds and the assumption by the Acquiring Funds of the liabilities of the Target Funds. The Target Funds are then liquidated, dissolved and terminated in accordance with their Declaration of Trust. Shareholders of the Target Funds become shareholders of the Acquiring Funds. Holders of common shares of the Target Funds receive newly issued common shares of the Acquiring Funds, the aggregate net asset value ("NAV") of which is equal to the aggregate NAV of the common shares of the Target Funds held immediately prior to the reorganizations (including for this purpose fractional Acquiring Funds shares to which shareholders would be entitled). Fractional shares are sold on the open market and shareholders received cash in lieu of such fractional shares of the Acquiring Funds, in exchange for preferred shares of the Target Funds held immediately prior to the reorganizations. Details of the California Funds' Reorganizations are further described in Note 8 – Fund Reorganizations.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds' portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments.

As of August 31, 2014, the Funds' outstanding when-issued/delayed delivery purchase commitments were as follows:

	California Value (NCA)	California Value 2 (NCB)	California AMT-Free Income (NKX)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)
Outstanding when-issued/delayed delivery purchase commitments	\$ _\$	\$	\$	_	\$ —	\$

Investment Income

Investment income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statement of Operations.

Notes to Financial Statements (Unaudited) (continued)

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

Each Fund, except California Value (NCA) and California Value 2 (NCB), is authorized to issue Auction Rate Preferred Shares ("ARPS"). During prior fiscal periods, the Funds redeemed all of their outstanding ARPS, at liquidation value.

MuniFund Term Preferred Shares

During the current fiscal period, California AMT-Free Income (NKX) had issued and outstanding MuniFund Term Preferred ("MTP") Shares, with a \$10 stated par value per share. The Fund's MTP Shares were issued in one Series and trade on the NYSE.

As of August 31, 2014, the details of California AMT-Free Income's (NKX) MTP Shares outstanding were as follows:

				Shares Outstanding	Annual
		NYSE	Shares	at \$10 Per Share	Dividend
Fund	Series	Ticker	Outstanding	Liquidation Value	Rate
California AMT-Free		NKX			
Income (NKX)	2015*	PRC	3,525,000 \$	35,250,000	2.00%

* MTP Shares issued in connection with the Reorganization.

The Fund is obligated to redeem its MTP Shares by the date as specified in its offering document ("Term Redemption Date"), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares were subject to redemption at the option of the Fund ("Optional Redemption Date"), subject to a payment of premium for one year following the Optional Redemption Date ("Premium Expiration Date"), and at par thereafter. MTP Shares also will be subject to redemption, at the option of the Fund, at par in the event of certain changes in the credit rating of the MTP Shares. The Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for the Fund's series of MTP Shares are as follows:

			Term		
		NYSE	Redemption	Optional	Premium
Fund	Series	s Ticker	Date	Redemption Date	Expiration Date
California AMT-Free Income		NKX	October 1,		September 30,
(NKX)	2015	* PRC	2015	October 1, 2011	2012

* MTP Shares issued in connection with the Reorganization.

The average liquidation value of MTP Shares outstanding for the Fund during the six months ended August 31, 2014, was as follows:

	California
	AMT-Free
	Income
	(NKX)**
Average liquidation value of MTP Shares outstanding	\$ 35,250,000

** MTP Shares issued in connection with its Reorganization for the period June 9, 2014 through August 31, 2014.

For financial reporting purposes only, the liquidation value of MTP Shares is recorded as a liability and recognized as "MuniFund Term Preferred ("MTP") Shares, at liquidation value" on the Statement of Assets and Liabilities. Dividends on MTP Shares, which are recognized as interest expense for financial reporting purposes, are paid monthly at a fixed annual rate, subject to adjustments in certain circumstances. Unpaid dividends on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends accrued on MTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations. Costs incurred by the Funds in connection with their offerings of MTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of "Deferred offering costs" on the Statement of Operations.

Variable Rate Demand Preferred Shares

The following Funds have issued and outstanding Variable Rate Demand Preferred ("VRDP") Shares, with a \$100,000 liquidation value per share. VRDP Shares are issued via private placement and are not publicly available.

As of August 31, 2014, details of the Funds' VRDP Shares outstanding are as follows:

		Shares	Shares Outstanding at \$100,000 Per Share Liquidation	
	Series	Outstanding	Value	Maturity
California AMT-Free Income (NKX)	-		*	
	2	355	\$ 35,500,000	June 1, 2040
	3	427	42,700,000	March 1, 2040
				December 1,
	4	1,090	109,000,000	2040
	5	1,044	104,400,000	June 1, 2041
California Dividend Advantage (NAC)				
	1	1,362	\$ 136,200,000	June 1, 2041
				December 1,
	2*	910	91,000,000	2040
	3*	498	49,800,000	March 1, 2040
				December 1,
	4*	1,056	105,600,000	2042
				August 1,
	5*	1,589	158,900,000	2040
		,		August 1,
	6*	1,581	158,100,000	2040
	-	y		
California Dividend Advantage 2 (NVX)				
				August 3,
	1	980	\$ 98,000,000	2043
California Dividend Advantage 3 (NZH)				
	1	1,600	\$ 160,000,000	September 1, 2043

* VRPP Shares issued in connection with the Reorganization.

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing. Each Fund pays an annual remarketing fee of .10% on the aggregate principal amount of all VRDP Shares outstanding. Each Fund's VRDP Shares have successfully remarketed since issuance.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's

ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value of VRDP Shares outstanding and annualized dividend rate for each Fund during the six months ended August 31, 2014, were as follows:

	California AMT-Free Income	California Dividend Advantage	California Dividend Advantage 2	California Dividend Advantage 3
	(NKX)	(NAC)*	(NVX)	(NZH)
Average liquidation value of VRDP Shares				
outstanding	\$ 291,600,000 \$	393,404,348 \$	98,000,000 \$	160,000,000
Annualized dividend rate	0.16%	0.16%	0.16%	0.14%

* Includes VRDP Shares issued in connection with its Reorganization.

For financial reporting purposes, the liquidation value of VRDP Shares is a liability and is recognized as "Variable Rate Demand Preferred ("VRDP") Shares, at liquidation value" on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Dividends accrued on the VRDP Shares are recognized as a component of "Interest payable" on the Statement of "Interest expense and amortization of offering costs" on the Statement of Operations. Costs incurred by the Funds in connection with their offerings of VRDP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as a component of "Deferred offering costs" on the Statement of Operations. In addition to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider, as well as a remarketing fee, which are recognized as "Liquidity fees" and "Remarketing fees", respectively, on the Statement of Operations.

Notes to Financial Statements (Unaudited) (continued)

Common Shares Equity Shelf Programs and Offering Costs

The following Funds have each filed registration statements with the Securities and Exchange Commission ("SEC") authorizing the Funds to issue additional common shares through an equity shelf program ("Shelf Offering"), which became effective with the SEC during prior fiscal periods.

Under these Shelf Offerings, the Funds, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above each Fund's NAV per common share.

		California	AMT-Free	California	Dividend

As June 30, 2014, California Value's (NCA), California AMT-Free Income's (NKX) and California Dividend Advantage's (NAC) shelf offering registration statements are no longer effective. Therefore, the Funds may not issue additional common shares under their equity shelf programs until a new registration statement is filed and declared effective by the SEC. On October 3, 2014 (subsequent to the close of this reporting period), a new registration statement for California Value (NCA) became effective and therefore, the Fund may issue additional common shares under its equity shelf program.

Costs incurred by the Funds in connection with their Shelf Offerings are recorded as a deferred charge and recognized as a component of "Deferred offering costs" on the Statement of Assets and Liabilities. These deferred assets are reduced during the one-year period that additional shares are sold by reducing the proceeds from such sales and is recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets. At the end of the one-year life of the Shelf Offering period, any remaining deferred charges will be expensed accordingly and recognized as a component of "Shelf offering expenses" on the Statement of Operations. Any additional costs the Funds may incur in connection with their Shelf Offerings are expensed as incurred and recognized as a component of "Proceeds from shelf offering costs" on the Statement of Changes in Net again and recognized as a component of "Proceeds from shelf offering expenses" on the Statement of Operations. Any additional costs the Funds may incur in connection with their Shelf Offering costs" on the Statement of Changes in Net Assets, when applicable.

Since the shelf offering program became effective, California Value (NCA), California AMT-Free Income (NKX) and California Dividend Advantage (NAC) have not issued additional common shares. As a result, during the six months ended August 31, 2014, the Adviser reimbursed the Funds for half of the costs incurred in connection with the Shelf Offering, which is recognized as "Expense reimbursement" on the Statement of Operations.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Netting Agreements

In the ordinary course of business, the Funds may enter into transactions subject to enforceable International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, a Fund manages its cash collateral and securities collateral on a counterparty basis.

As of August 31, 2014, the Funds were not invested in any portfolio securities or derivatives that are subject to netting agreements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Investment Valuation and Fair Value Measurements

The fair valuation input levels as described below are for fair value measurement purposes.

Investment Valuation

Prices of fixed income securities are provided by a pricing service approved by the Funds' Board of Directors/Trustees (the "Board"). The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or

collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Board or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Board or its designee.

Fair Value Measurements

Fair value is defined as the price that would be received upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

- Level 1 –Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.
- Level 2 –Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 –Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

California Value (NCA)	Level 1	Level 2	Level 3	Total

The table below presents the transfers in and out of the three valuation levels for the following Funds as of the end of the reporting period when compared to the valuation levels as of the end of the previous fiscal year. Changes in valuation inputs or methodologies may result in transfers in or out of an assigned level within the fair value hierarchy. Transfers in or out of levels are generally due to the availability of publicly available information and to the significance or extent the Adviser determines that the valuation inputs or methodologies may impact the valuation of those securities.

The Board is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies and reporting to the Board. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

- (i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.
- (ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board.

3. Portfolio Securities and Investments in Derivatives

Portfolio Securities

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that

Notes to Financial Statements (Unaudited) (continued)

represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater").

An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." The Fund's Statement of Assets and Liabilities shows only the inverse floaters and not the underlying bonds as an asset, and does not reflect the short-term floating rate certificates as liabilities. Also, the Fund reflects in "Investment Income" only the net amount of earnings on its inverse floater investment (net of the interest paid to the holders of the short-term floating rate certificates and the expenses of the trust), and does not show the amount of that interest paid as an interest expense on the Statement of Operations.

An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust, at their liquidation value, as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and recognizes the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters for the Funds during the six months ended August 31, 2014, were as follows:

						California		California
				California	California	Dividend		Dividend
	California	С	alifornia	AMT-Free	Dividend	Advantage	A	Advantage
	Value		Value 2	Income	Advantage	2		3

Floating rate obligations: self-deposited inverse floaters	\$ 4,490,000	\$ —	\$ 6,755,000	\$ 100,545,000	\$ 965,000	\$ 845,000
Floating rate obligations: externally-deposited inverse floaters		5,990,000	65,148,500	157,140,500	9,075,000	53,741,500
Total	\$ 4,490,000	\$ 5,990,000	\$71,903,500	\$257,685,500	\$10,040,000	\$54,586,500

As of August 31, 2014, the total amount of floating rate obligations issued by each Fund's self-deposited inverse floaters and externally-deposited inverse floaters was as follows:

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

As of August 31, 2014, each Fund's maximum exposure to the floating rate obligations issued by externally-deposited Recourse Trusts, was as follows:

	California	California	California AMT-Free	California Dividend	California Dividend	California Dividend
					Advantage	Advantage
	Value	Value 2	Income	Advantage	2	3
	(NCA)	(NCB)	(NKX)	(NAC)	(NVX)	(NZH)
Maximum exposure						
to Recourse Trusts	\$	\$ —	\$33,260,000	\$55,200,000	\$ 3,480,000	\$48,960,000

Zero Coupon Securities

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Investments in Derivatives

Each Fund is authorized to invest in certain derivative instruments such as futures, options and swap contracts. Each Fund limits its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Although the Funds are authorized to invest in derivative instruments and may do so in future, they did not make any such investments during the six months ended August 31, 2014.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

4. Fund Shares

Common Shares

The Funds did not repurchase any of their outstanding common shares during six months ended August 31, 2014 and fiscal year ended February 28, 2014.

Transactions in common shares were as follows:

	California Value	e (NCA)	California Value	2 (NCB)

Sales and maturities	27,398,178	2,143,040	88,833,087	62,808,408	29,340,620	27,296,311

6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, and in the case of California AMT-Free Income (NKX) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAVs of the Funds.

As of August 31, 2014, the cost and unrealized appreciation (depreciation) of investments in securities, as determined on a federal income tax basis, were as follows:

			California	California	California	California
	California	California	AMT-Free	Dividend	Dividend	Dividend
	Value	Value 2	Income	Advantage	Advantage 2	Advantage 3
	(NCA)	(NCB)	(NKX)	(NAC)	(NVX)	(NZH)
Cost of investments	\$230,380,353	\$47,108,653	\$952,234,410	\$2,097,412,371	\$296,930,293	\$454,901,128
Gross unrealized:						
Appreciation	\$ 28,597,492	\$ 9,771,014	\$105,792,804	\$ 259,812,042	\$ 27,880,768	\$ 49,052,482
Depreciation	(933,122)	(7,429)	(647,371)	(13,626,091)	(5,068,872)	(6,040,674)
Net unrealized	\$ 27,664,370	\$ 9,763,585	\$105,145,433	\$ 246,185,951	\$ 22,811,896	\$ 43,011,808
appreciation						
(depreciation) of						

investments

Permanent differences, primarily due to federal taxes paid, taxable market discount, nondeductible offering costs, nondeductible reorganization expenses and distribution reclasses, resulted in reclassifications among the Funds' components of common share net assets as of February 28, 2014, the Funds' last tax year end, as follows:

				California	California	California	California
	C	alifornia	California	AMT-Free	Dividend	Dividend	Dividend
						Advantage	Advantage
		Value	Value 2	Income	Advantage	2	3
		(NCA)	(NCB)	(NKX)	(NAC)	(NVX)	(NZH)
Paid-in-surplus	\$	—\$:	\$ (92,184)	\$ (723,892)	\$ (822,724)	\$(1,059,035)
Undistributed							
(Over-distribution							
of) net investment							
income		(13,881)	(6,068)	17,679	698,168	797,773	1,014,758
Accumulated net							
realized gain (loss)		13,881	6,068	74,505	25,724	24,951	44,277

Notes to Financial Statements (Unaudited) (continued)

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains as of February 28, 2014, the Funds' last tax year end, were as follows:

California California California California California
