**Independent Auditors' Report**

Plan Administrator  
TRICON 401K Plan:

We have audited the accompanying statements of net assets available for benefits of the TRICON 401K Plan (the "Plan") (formerly known as the TRICON Long Term Savings Program) as of September 30, 2001 and December 24, 2000 and the related statements of changes in net assets available for benefits for the period from December 25, 2000 through September 30, 2001 and for the period from January 1, 2000 through December 24, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2001 and December 24, 2000 and the changes in net assets available for benefits for the period from December 25, 2000 through September 30, 2001 and for the period from January 1, 2000 through December 24, 2000, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of period) and reportable transactions for the period from December 25, 2000 through September 30, 2001 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all materials respects in relation to the basic financial statements taken as a whole.

## TRICON 401K PLAN

Notes to Financial Statements

September 30, 2001 and December 24, 2000

(Tabular Amounts in Thousands)

### (1) Summary Plan Description

The following description of the TRICON 401K Plan (the "Plan") (formerly known as the TRICON Long Term Savings Program) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### (a) *General*

TRICON Global Restaurants, Inc. (the "Company") adopted the Plan effective October 7, 1997 as a result of the spin-off of the Company from PepsiCo, Inc. The Plan is a successor of the PepsiCo Long Term Savings Program. Any employee within a group or class so designated by the Company is eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act, as amended ("ERISA").

The investments of the Plan are maintained in a trust (the "Trust") by State Street Corporation (the "Trustee") (formerly known as State Street Bank and Trust Company).

#### (b) *Contributions*

Each participant in the Plan may elect to contribute any amount, not to exceed 15% of eligible earnings. The Tax Reform Act of 1986 limited the maximum annual amount a participant could contribute on a before-tax basis to \$7,000, indexed for inflation. For calendar years 2001 and 2000, the maximum contribution

allowed under the IRS tax code section 402(g)(3), was \$10,500. There was no matching of contributions by the employer during the period from January 1, 1998 through June 30, 1998. Beginning in July 1998, participants received a 25% matching contribution on each unit of Company stock purchased. As of January 1, 1999 and through September 30, 2001, the matching contribution on each unit of Company stock purchased was 40%.

(c)

***Participant Loans***

The Plan has a loan program for participants. The maximum amount a participant may borrow is the lesser of 50% of the participant's vested interest under the Plan; \$50,000 reduced by the highest outstanding loan balance during the preceding one-year period; 100% of the value of the participant's investment in certain funds; or the maximum loan amount that can be amortized by the participant's net pay up to four years. The interest rate for loans is based on the prime rate plus one percent. In addition, a one-time loan origination fee of \$25 and a monthly maintenance fee are charged to those participants who obtain a loan. Interest on loans is allocated to each of the funds based upon the participant's contribution election percentages. Any loans outstanding shall become immediately due and payable in full if the participant's employment is terminated.

As of September 30, 2001 and December 24, 2000, loans outstanding had an estimated average interest rate of 8.6% and 10.2% and maturities through the years 2005 and 2004, respectively.

(d)

***Vesting***

Participants are fully vested in the entire value of their accounts upon contribution, including the Company matching contribution.

September 30, 2001 and December 24, 2000

(Tabular Amounts in Thousands)

(e) ***Withdrawals***

Distributions under the Plan are made upon a participant's death, disability, retirement, or termination of employment. Benefit payments are made in the form of a lump sum cash amount or in kind distribution. As discussed above, the Plan permits withdrawals under a loan program.

(f) ***Termination***

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

(2) **Summary of Accounting Policies**

(a) ***Basis of Accounting***

The financial statements of the Plan are prepared under the accrual method of accounting. During 2000, the Company changed the Plan year end from December 31 to December 24, resulting in the 2000 plan year covering the period from January 1, 2000 through December 24, 2000. During 2001, the Company again changed the Plan year end from December 24 to September 30, resulting in the 2001 plan year covering the period from December 25, 2000 through September 30, 2001 (the "Period").

(b) ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) ***Investment Valuation and Income Recognition***

***Investment Valuation*** -- Investment contracts are stated at contract value, which approximates fair value. The Plan is

credited with actual earnings on the underlying investments and charged for plan withdrawals and administration expenses charged by the issuer of the respective contracts. Cash and cash equivalents and participant loans are recorded at cost, which approximates fair value. Securities and investments in common/commingled trusts held by participants in the Plan are valued at quoted market prices of participants' investments. All other investments are valued at quoted market values.

***Income Recognition*** -- Dividend income is recorded on the ex-dividend date. Income from investments is recorded as earned on an accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses on the sales of securities are reported on the average cost method.

(d)

***Payment of Benefits***

Benefits are recorded when paid.

(e)

***Administrative Costs***

All usual and reasonable expenses of the Plan and the Plan administrator may be paid in whole or in part by the Company. Any expenses not paid by the Company will be paid by the Trustee out of the Trust. All expenses for the period from December 25, 2000 through September 30, 2001 and for the period from January 1, 2000 through December 24, 2000 were borne by the Company, except for monthly investment service fees charged to the funds, loan application and monthly maintenance fees charged to participants who obtained a loan and maintenance and transaction fees charged to participants within

the Brokerage Option account.

(f) **Reclassifications**

Certain amounts in the prior period have been reclassified to conform with the presentation as of September 30, 2001 and for the Period.

(3) **Investments**

Individual investments that represent 5 percent or more of the Plan's net assets available for benefits as of September 30, 2001 and December 24, 2000 were as follows:

Accordingly, no provision for income taxes has been included in the Plan's financial statements. The Plan is a spin-off from the PepsiCo Long Term Savings Program which had received a favorable determination letter from the Internal Revenue Service. The Plan intends to request a determination letter from the Internal Revenue Service before the end of the current remedial amendment period. The current remedial amended period expires in September 2002.

All U.S. hourly and salaried employees will be eligible to participate in the Plan if they are at least age 18 and have completed one year of service in which they worked a minimum of 1,000 hours. The Company match was changed to 100% of the first 3% of employee contributions and 50% of the next 2% of employee contributions, subject to certain limitations.
