by us or our subsidiaries through April 30, 2005. Pursuant to the terms of the incentive agreement, a partial payment of the incentive bonus is to be made if we terminate the executive officer's employment for reasons other than for cause after April 30, 2003. No incentive bonus will be paid, in whole or in part, if employment is terminated for cause at any time prior to April 30, 2005 or if the executive officer resigns, retires, dies or becomes disabled for more than six months. A reduced incentive bonus will be paid if the executive officer accumulates approved medical leave(s) of absence totaling less than six months. In any event, no incentive bonus will be paid under the incentive agreement until April 30, 2005.

**Employment Contracts and Change in Control Arrangements**

Of the executive officers named in the Summary Compensation Table, only Mr. Whatcott is subject to a written employment agreement. Mr. Whatcott's employment agreement is with both Westcorp and WFS and was executed as of February 27, 1998. This agreement establishes an initial base salary subject to annual review and provides to Mr. Whatcott the same basic benefits otherwise offered to those executive officers with which no written employment agreement exists. This employment agreement also provides that if, as a result of or following a change of control, Mr. Whatcott is terminated other than for cause or is required to relocate to another geographical area, he will be entitled to two years compensation, based upon the average of his salary and bonus for the three calendar years preceding the triggering event. This employment agreement may be terminated by the employer at any time for cause.

**Certain Benefits**

***Executive Deferral Plan V***

The Executive Deferral Plan (EDP V) is designed for a select group of management or highly compensated associates of Westcorp and its subsidiaries as determined by the Board of Directors. The EDP V Plan is designed to allow participants to defer a portion of their compensation on a pre-tax basis, and earn tax-deferred interest on these deferrals. A participant in the EDP V Plan may elect to defer a portion of their compensation from a minimum of \$2,000 a year to a maximum of 50% of their annual base salary and 100% of any bonus, commission, and incentive. The Plan also provides for an employer match, at the discretion of the Board of Directors. EDP V provides a Trust for the security and protection of participant account balances, except in the case of corporate bankruptcy. In addition, EDP V contains a change of control provision, whereby in the event of a termination of employment within 24 months after a change in control, the termination is treated as a retirement and retirement distribution elections will then govern the distribution.

***The Long Term Incentive Plan***

The Long Term Incentive Plan, also known as the LTIP, covers certain key executive officers in which such officers will be entitled to receive a fixed incentive amount provided that our tangible net book value per common share as of December 31, 2004 equals or exceeds \$28.08, as adjusted at

**Table of Contents**

our sole discretion, and the executive officer remains continuously employed by us or our subsidiaries through April 30, 2005. We expensed \$0.9 million in 2001 and 2000 related to the LTIP.

***Stock Option Plans***

***1991 Stock Option Plan.*** The Westcorp 1991 Stock Option Plan, also known as the 1991 Plan, was adopted by the Board of Directors in April, 1991, approved by our shareholders in May, 1991, and amended with the approval of our shareholders in May, 2000. Our associates and directors and the associates and directors of our subsidiaries were eligible to participate under the 1991 Plan until April 15, 2001, its expiration date. Our Compensation Committee administers the 1991 Plan. Those who received Westcorp options prior to the April 15, 2001 expiration date are still subject to the 1991 Plan and may continue to exercise the remaining shares that are outstanding and exercisable, however, any and all shares reserved for the 1991 Plan are no longer available for future grants. As such, no further grants will be made under the expired 1991 Plan.

***2001 Stock Option Plan.*** In May 2001, Westcorp adopted the 2001 Westcorp Stock Option Plan, also known as the 2001 Plan, an incentive stock option plan for certain associates and directors of Westcorp, and associates and directors of its subsidiaries, who are eligible to participate under the 2001 Plan. The 2001 Plan replaced the 1991 Plan that expired on April 15, 2001.

Under the 2001 Plan, we reserved a total of 3,000,000 shares of common stock for future issuance. As of December 31, 2001, a total of 2,973,000 shares were available for future grants. The options may be exercised within seven years after the date of the grant.

Options granted under the 1991 Plan and under the 2001 Plan may be either incentive stock options or non-qualified options within the meaning of the Internal Revenue Code (the Code). However, only non-qualified options may be granted to directors who are not also associates. The term of the options may not exceed 10 years from the date of grant under the 1991 Plan and 7 years from the date of the grant under the 2001 Plan. However, optionees who own, prior to a grant, directly or indirectly, 10.0% or more of our outstanding Common Stock, may not be granted incentive stock options with a term greater than 5 years. Options may be terminated earlier, however, in the event of the death or disability of the optionee or the optionee ceasing to perform services for Westcorp or our subsidiaries as provided in the 1991 and 2001 Plans. The options are also subject to all of the other terms and conditions of the written stock option agreement between the optionee and us. In 2001, a total of 391,250 options were granted under the 1991 Plan and 27,000 options were granted under the 2001 Plan.

In the aggregate, 3,000,000 shares of our Common Stock may be the subject of options granted under the 2001 Plan. However, the number of shares subject to options granted under that Plan (and the exercise prices for the options) are subject to adjustment in the event of any change in our outstanding shares as a result of stock dividends, stock splits or conversions of shares. If any option expires or terminates without having been exercised in full, the unpurchased shares become available again for purposes of future incentive and non-qualified stock options to be granted under the 2001 Plan prior to its expiration date.

***WFS Stock Option Plan.*** In 1996, WFS adopted the WFS 1996 Stock Option Plan, also known as the WFS Plan. In the aggregate, 550,000 shares of Common Stock were the subject of options which may be granted pursuant to the WFS Plan. In 1997, the WFS Plan was amended to increase the number of WFS shares subject to the plan to 1,100,000. Certain options granted under the WFS Plan are intended to qualify as incentive stock options within the meaning of the Code with other options to be non-qualified options. Options may be granted under the plan to associates and directors. Options may be granted under the WFS Plan to any WFS optionee who, in the opinion of the Compensation Committee, is or gives promise of becoming of exceptional importance to WFS because of experience and ability. The Compensation Committee has the discretion to determine

**Table of Contents**

the amounts and times of exercise of options. In 2001, there were no options granted under the WFS Plan.

***Westcorp Employee Stock Ownership and Salary Savings Plan***

***Westcorp Employee Stock Ownership Plan (ESOP).*** The ESOP is a stock savings plan designed for all eligible associates. The ESOP was designed to provide our associates and associates of our subsidiaries with stock ownership in Westcorp to assist in attracting and retaining qualified associates. The entirety of the ESOP funding is made up of contributions by Westcorp. Each year we may, in our discretion, make an ESOP contribution to the Plan. The contribution is designated specifically for each eligible associate and contributions are allocated to the associate's account based upon years of service and compensation. We funded \$6,499,286 in ESOP contributions for 2001.

***Westcorp Salary Savings Plan (401K).*** The 401K Plan is a voluntary tax-deferred associate retirement savings plan in which our associates and associates of our subsidiaries may contribute between 1% and 14% of their pre-tax earnings, subject to annual limits. Under the 401K Plan, we will match 100% of the first \$500 contributed to the 401K Plan and then 50% of the associate's contribution up to a maximum of 6% of their annual compensation. Contributions are invested according to the associate's diverse fund choices, which include a variety of fund options including Westcorp stock. The associate has the ability to reallocate current balances and prospective contributions according to his or her choices of fund options. We funded a \$2,303,836 401K Salary Savings matching contribution for 2001.

**REPORT OF THE COMPENSATION COMMITTEE**

We apply a consistent philosophy to compensation for all associates, including senior management. This philosophy is based on the premise that our achievements result from the coordinated efforts of all individuals working toward common objectives. Each member of the Compensation Committee is a non-associate director. The members of our Compensation Committee are the same as the members of the Bank's Compensation Committee. Accordingly, the Compensation Committee generally sits and deliberates concurrently as the committee for us and the Bank and considers the performance of both companies and their subsidiaries as a whole in making its compensation determinations.

**Compensation Philosophy**

Under the supervision of the Compensation Committee of the Board of Directors, we have developed and implemented compensation policies, plans and programs which seek to enhance our profitability, and thus shareholder value, by aligning closely the financial interests of our senior managers with those of our shareholders. The Compensation Committee endorses the belief that stock ownership by management and the granting of stock options to senior executives and key associates furthers that goal and fosters decision-making by our key associates with our long-term safety and soundness in mind.

The compensation plans and programs are structured to integrate pay with our annual and long-term performance goals. The plans and programs are designed to recognize initiative and achievement and to assist us in attracting and retaining qualified executives. In furtherance of these goals, annual base salaries are generally set at competitive levels so that we rely to a large degree on annual incentive compensation to attract and retain corporate officers and other key associates with outstanding abilities and to motivate them to perform to the full extent of their abilities. For the longer term, incentive stock options are awarded by us, the stock of which is publicly traded. Incentive compensation is variable and closely tied to corporate, business unit and individual performance in a manner that encourages a sharp and continuing focus on building profitability and shareholder value. As a result of the increased emphasis on tying executive compensation to

**Table of Contents**

corporate performance, in any particular year the total compensation of our executives may be more or less than the executives of our competitors, depending upon our or the individual business unit s performance.

In evaluating the performance and setting the incentive compensation of the Chief Executive Officer and other senior executives, the Compensation Committee takes into account their consistent commitment to our long-term success through conservative management of certain business units and aggressive management of other business units as dictated by existing and anticipated market conditions. Certainly the Compensation Committee expects and rewards recognition by the Chief Executive Officer and senior executives of both adverse and advantageous market conditions for each of Westcorp s major businesses.

At the beginning of each year, performance goals to determine annual incentive compensation are established for each business unit and for each executive. Financial goals include overall profitability, loan volume growth, operating earnings, loan delinquency levels, return on equity, return on assets, Community Reinvestment Act results, cost controls and productivity. The most weight is given to profitability as it relates to established goals. Management goals were established at the beginning of 2001 for those executives and managers who do not manage production units with direct financial goals. These goals are tied to the strategic goals of the organization and its overall profitability.

**Compensation of Chief Executive Officer**

In determining the Chief Executive Officer s compensation for 2001, the Compensation Committee discussed and considered all of the factors discussed above. The Compensation Committee also considered the factors stated above in arriving at the award of 2001 bonus compensation for Mr. Ernest Rady as shown in the Summary Compensation table. The bonus compensation for 2001 reflects the achievement of management objectives, including improved financial performance, efficiencies and productivity.

The Committee established 2002 management objectives for the CEO.

**Stock Option Grants**

Westcorp uses stock options as long-term incentives and expects that it will continue to use this compensation alternative in the future. In 1991, Westcorp adopted, and the shareholders approved, the 1991 Plan that made 3,150,000 shares of common stock of Westcorp available for such purposes. The 1991 Plan expired April 15, 2001, and at Westcorp s May 3, 2001 Annual Meeting shareholders approved and adopted a new ten year 2001 Plan which has replaced the 1991 Plan. The Westcorp Compensation Committee grants incentive stock options to associates of Westcorp and its subsidiaries and views such grants less as compensation and more as an incentive mechanism.

**Other Compensation Plans**

Other compensation benefits have from time to time been established for the benefit of our senior executives and other managers and officers and those of our subsidiaries, each of which is discussed in the above materials. The results of these compensation plans on the most highly compensated executives are reflected in the Compensation Table and in the Long Term Incentive Plans Table.

**Policy Regarding Compliance with I.R.C. Sec. 162(m)**

Section 162(m) of the Internal Revenue Code, as enacted by the Omnibus Budget Reconciliation Act of 1993, provides in general that, beginning in 1994, compensation paid to certain Executives of publicly held corporations will not be deductible for federal income tax purposes to the extent it exceeds \$1,000,000 per year unless certain conditions are met. It is the present policy of the Compensation Committee that individual compensation shall not exceed the deductibility requirements of Internal Revenue Code, Section 162(m) and Westcorp intends to take the necessary steps to comply, but also reserves the right to enter into incentive and other compensation arrangements that do not so comply when it determines that the benefits to us outweigh the cost of the possible loss of federal income tax deductions.

**REPORT OF THE AUDIT COMMITTEE**

The Audit Committee oversees our financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors independence from management and us including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of nonaudit services with the auditors independence.

The Committee discussed with our internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting. The Committee held five meetings during fiscal year 2001.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be incorporated by reference in the Annual Report on Form 10-K for the year ended December 31, 2001 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to shareholder approval, the selection of our independent auditors.

The Committee developed the Audit Committee Charter outlining the responsibilities of the Committee as shown in Appendix A.

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. Officers, directors and greater than ten percent shareholders are required by regulations of the Securities and Exchange commission to furnish us copies of all Section 16(a) forms they file.

Based solely on our review of copies of such reports furnished to us or written representations that no other reports were required, we believe that, during the 2001 fiscal year, all filing requirements applicable to its officers, directors and greater than 10% beneficial owners were complied with except:

**APPENDIX A**

**AUDIT COMMITTEE CHARTER**

**Statement of Policy**

This charter governs the operations of the Audit Committee. The Committee shall review and reassess the charter annually and obtain the approval of the Board of Directors. The Committee shall provide assistance to the Board of Directors in fulfilling their oversight responsibility to the shareholders, potential shareholders, the investment community, and others relating to Westcorp's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of Westcorp's financial statements, and the compliance programs as established by management and the Board. In so doing, it is the responsibility of the Committee to maintain free and open communication between the Committee, independent auditors, the internal auditors and management of Westcorp. In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of Westcorp and the power to retain outside counsel, or other experts for this purpose.

**Organization**

The Audit Committee shall be appointed by the Board of Directors and shall comprise of at least three directors, each of whom are independent of management and Westcorp. Members of the Committee shall be considered independent if they have no relationship that may interfere with the exercise of their independence from management and Westcorp. All Committee members shall be financially literate, and at least one member shall have accounting or related financial management expertise. Members shall be appointed for a one year term of office. The chair of the Committee shall be nominated by the Board from time to time. No member of the Committee may be removed except by the vote of a majority of the directors of Westcorp. The Board of Directors shall fill any vacancies occurring among the members of the Committee.

**Attendance at Meetings**

The Audit Committee may invite such other persons (e.g., the CEO, CFO, and Director of Audit Services) to its meetings, as it deems necessary. The internal and independent auditors shall be invited to make presentations to the Committee as appropriate. The Committee shall hold periodic meetings throughout the year. A quorum for any meeting shall be a majority of the members. Internal audit or the independent auditors may convene a meeting if they consider it necessary. The proceedings of all meetings will be recorded in minutes taken by the secretary of the Committee who will be Westcorp's secretary, or such other person as nominated by the Board.

**Responsibilities and Processes**

The primary responsibility of the Audit Committee is to oversee Westcorp's financial reporting process on behalf of the Board and report the results of their activities to the Board. Management is responsible for preparing Westcorp's financial statements, and the independent auditors are responsible for auditing those financial statements. The Committee in carrying out its responsibilities believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The Committee should take the appropriate actions to set the overall corporate tone for quality financial reporting, sound business risk practices, and ethical behavior.

**Table of Contents**

The following shall be the principal recurring processes of the Committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the Committee may supplement them as appropriate.

The Committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the Board and the Audit Committee, as representatives of Westcorp's shareholders. The Committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, replace the independent auditors. The Committee shall discuss with the auditors their independence from management and Westcorp and the matters included in the written disclosures required by the Independence Standards Board. Annually, the Committee shall review and recommend to the Board the selection of Westcorp's independent auditors, subject to shareholders' approval.

In the event of the engagement by management or the Board of Directors of an independent accounting firm to provide non audit services when the same firm has been retained to provide audit services, the Committee shall determine whether such non audit services will, in the opinion of the Committee, adversely affect the independence of the firm in carrying out its audit assignments.

The Committee shall review the qualification of internal audit personnel and concur in the appointment, replacement, reassignment or dismissal of the Director of Audit Services. The Committee shall determine the compensation for the firm performing the internal audit functions of Westcorp that shall report directly to the Committee. For administrative purposes, such firm shall report to the Director of Audit Services who, in turn, reports to the Committee.

The Committee shall discuss with internal auditors and the independent auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation and ensure no unjustified restrictions or limitations are made. Also, the Committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls, including Westcorp's system to monitor and manage business risk, and compliance programs. Further, the Committee shall meet separately with the internal auditors and the independent auditors, with and without management present, to discuss the results of their examinations. The Committee shall ensure that significant findings and recommendations made by the internal auditors, external auditors and regulatory agencies are received and discussed on a timely basis and management responds to the recommendations.

The Committee shall review the interim financial statements with management and the independent auditors prior to the filing of Westcorp's quarterly report on Form 10-Q. Also, the Committee shall discuss the results of the quarterly review and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards. The chair of the Committee may represent the entire Committee for the purposes of this review.

The Committee shall review with management and the independent auditors the financial statements to be included in Westcorp's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the Committee shall discuss the results of the annual audit and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards.

The Committee chair shall regularly update the Board about Committee activities and make appropriate recommendations. Also, the chair shall ensure the Board is aware of internal control and regulatory compliance matters which may significantly impact the financial condition or affairs of the business.
