PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS

To Be Held On May 18, 2006

GENERAL

The enclosed proxy is solicited on behalf of the Board of Directors of Endocare, Inc., a Delaware corporation (the Company), for use at the Company s 2006 Annual Meeting of Stockholders (the Annual Meeting). The Annual Meeting will be held on Thursday, May 18, 2006 at 8:00 a.m. Pacific time at the Company s principal executive offices, located at 201 Technology Drive, Irvine, California 92618. This Proxy Statement and accompanying proxy were first mailed to stockholders on or about April 21, 2006, to all stockholders entitled to vote at the Annual Meeting.

Voting

The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice of Annual Meeting of Stockholders and are described in more detail in this Proxy Statement. Each stockholder is entitled to one vote for each share of our common stock held by such stockholder on April 20, 2006, the record date for determining which stockholders are entitled to vote at the Annual Meeting. On March 31, 2006, there were 30,147,894 issued and outstanding shares of common stock. Our Amended and Restated Bylaws (the Bylaws) provide that a majority of the shares entitled to vote, represented in person or by proxy, will constitute a quorum for transaction of business at the Annual Meeting.

With regard to the election of directors, votes may be cast in favor of, or withheld from, each nominee. The directors, however, will be elected by plurality vote, and votes that are withheld will be excluded entirely from the vote and will have no effect. Proposal 2 (reauthorization of reverse stock split) requires the approval of the holders of a majority of our outstanding shares of common stock, voting either in person or by proxy. Proposal 3 (ratification of independent auditor) will require the approval of the holders of a majority of our outstanding common stock present in person or represented by proxy at the Annual Meeting.

Votes will be counted by the inspector of election appointed for the meeting, who will separately count For, Against and Abstain votes, as well as broker non-votes. Broker non-votes occur when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner (despite voting on at least one other proposal for which the nominee does have discretionary authority or for which it has received instructions). Abstentions will be counted towards the vote total for each proposal, and will have the same effect as Against votes. Broker non-votes will not be counted for purposes of determining whether any of the proposals are approved and will have the same effect as Against votes on any proposal that must be approved by the holders of a majority of our outstanding shares of common stock, such as Proposal 2 (reauthorization of reverse stock split).

Proxies

Our Board of Directors has selected Craig T. Davenport and William J. Nydam, and each of them, to serve as Proxyholders for the Annual Meeting. If a stockholder properly signs and returns the enclosed form of proxy, the Proxyholders will vote the shares represented by such proxy at the Annual Meeting in accordance with the instructions the stockholder writes on the proxy. If the proxy does not specify how the shares are to be voted, the proxy will be voted **FOR** the election of each of the directors nominated by the Board unless the authority to vote for the election of such director is withheld and, if no contrary instructions are given, the proxy will be voted **FOR** the approval of Proposals 2 and 3 described in the accompanying Notice of Annual Meeting of Stockholders and this Proxy Statement. In addition, the shares represented by the proxy will be voted in accordance with the discretion of the Proxyholders on any other matters that properly come before the Annual Meeting.

You may revoke or change your proxy at any time before the Annual Meeting by mailing our Secretary at our principal executive offices located at 201 Technology Drive, Irvine, California 92618, a notice of revocation or another signed proxy with a later date. You may also revoke your proxy by attending the Annual Meeting and voting in person.

We do not know of other matters to be presented for consideration at the Annual Meeting. However, if any other matters properly come before the Annual Meeting, it is the intention of the persons named in the enclosed form of proxy to vote the shares they represent as the Board of Directors may recommend. Discretionary authority with respect to such other matters is granted by the execution of the enclosed proxy.

Solicitation

We will bear the entire cost of soliciting proxies, including the preparation, assembly, printing and mailing of this Proxy Statement, the proxy and any additional solicitation material furnished to stockholders. Copies of solicitation material will be furnished to brokerage firms, banks, nominees, custodians and fiduciaries holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. In addition, we may reimburse such persons for their costs of forwarding the solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by solicitation by telephone or other means by our directors, officers, employees or agents. No additional compensation will be paid to our directors, officers or employees for any such services.

Board members are encouraged to attend our annual meetings of stockholders. All seven of our directors attended our 2005 Annual Meeting of Stockholders held on June 22, 2005.

The Audit Committee acts pursuant to a written charter, a copy of which is attached as *Appendix A* to this Proxy Statement. The Board of Directors has established the Audit Committee to:

provide assistance to the Board of Directors in fulfilling its oversight responsibility to our stockholders and others relating to: (i) the integrity of our financial statements; (ii) our compliance with legal and regulatory requirements; (iii) our independent auditor's qualifications and independence; and (iv) the performance of our internal audit function and independent auditor; and

The Board of Directors has established a Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee:

monitors the size and composition of the Board of Directors;

assesses the performance and effectiveness of the Board of Directors;

makes recommendations from time to time, or whenever it is called upon to do so, regarding nominees for election to the Board of Directors; and

establishes, implements and monitors policies and procedures regarding principles of corporate governance, conduct and ethics for our directors, officers and employees.

Drs. Daniels and Strauss and Mr. Noonan are members of the Nominating and Corporate Governance Committee. During 2005, the Nominating and Corporate Governance Committee held two meetings in person or telephonically. The Board of Directors has determined that all members of the Nominating and Corporate Governance Committee are independent, as defined in the NASDAQ listing standards. A copy of the current charter of the Nominating and Corporate Governance Committee is available on our website at www.endocare.com/investors/nominating_charter.pdf.

The Nominating and Corporate Governance Committee will consider nominations submitted by our stockholders. The Nominating and Corporate Governance Committee evaluates candidates proposed by stockholders using the same criteria as for other candidates. The charter of the Nominating and Corporate Governance Committee provides that the following are among the qualifications to be considered when evaluating and selecting candidates for the Board of Directors:

experience in business, finance or administration;

familiarity with our industry;

prominence and reputation; and

whether the individual has sufficient time available to devote to the work of the Board of Directors and one or more of its committees.

In addition, our Corporate Governance Guidelines provide that Board members will possess certain core competencies, some of which may include broad experience in business, finance or administration, familiarity with national and international business matters and familiarity with our industry. In addition to having one or more of these core competencies, Board member nominees are identified and considered on the basis of knowledge, experience, integrity, diversity, leadership, reputation and ability to understand our business.

The Bylaws set forth the procedures that stockholders must follow in order to nominate persons for election as directors. The Bylaws provide that such nominations must be made pursuant to timely notice in writing to our Secretary, at 201 Technology Drive, Irvine, California 92618. To be timely, a stockholder's notice must be delivered to or mailed and received at such address by no later than the due date for stockholder proposals that is specified in our proxy statement released to stockholders in connection with the previous year's annual meeting of stockholders, which date shall be not less than 120 calendar days in advance of the date of such proxy statement; provided, however, that in the event that no annual meeting was held in the previous year or the date of the annual meeting has been changed by more than 30 days from the date of the previous year's annual meeting, notice by the stockholder to be timely must be so received a reasonable time before we begin to print and mail our proxy materials.

According to the Bylaws, such stockholder's notice must set forth:

as to each person, if any, whom the stockholder proposes to nominate for election or reelection as a director:

(A) the name, age, business address and residence address of such person, (B) the

Table of Contents

principal occupation or employment of such person, (C) the class and number of our shares that are beneficially owned by such person, (D) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nominations are to be made by the stockholder, and (E) any other information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934 (including without limitation such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and

as to such stockholder giving notice, the following information: (A) the name and address, as they appear on our books, of such stockholder, (B) the class and number of our shares which are beneficially owned by such stockholder, and (C) any material interest of such stockholder in the election to the Board of Directors of such nominee.

Communications to the Board of Directors

The Board of Directors recommends that stockholders initiate any communications with the Board in writing and send them in care of our Secretary, at 201 Technology Drive, Irvine, California 92618. This centralized process will assist the Board in reviewing and responding to stockholder communications in an appropriate manner. The name of any specific intended Board recipient should be noted in the communication. The Board has instructed our Secretary to forward such correspondence only to the intended recipients; however, the Board has also instructed our Secretary, prior to forwarding any correspondence, to review such correspondence and, in his or her discretion, not to forward certain items if they are deemed of a commercial or frivolous nature or otherwise inappropriate for the Board's consideration. In such cases, some of that correspondence may be forwarded elsewhere in the Company for review and possible response.

Director Compensation

Annual Retainers

Each of our non-employee directors receives an annual retainer of \$25,000 for his service as a director. The Lead Independent Director receives an additional annual retainer of \$15,000, the Chairman of the Audit Committee receives an additional annual retainer of \$12,500, the Chairman of the Compensation Committee receives an additional annual retainer of \$7,500, the Chairman of the Nominating and Corporate Governance Committee receives an additional annual retainer of \$7,500 and each member of the Audit Committee receives an additional annual retainer of \$2,500. The additional annual retainers are cumulative for any director who serves in multiple capacities for which such director is entitled to more than one additional annual retainer (for example, because the Lead Independent Director also serves as Chairman of the Nominating and Corporate Governance Committee and currently is a member of the Audit Committee, he is entitled to receive an aggregate annual retainer of \$50,000, equal to the base annual retainer of \$25,000 plus an aggregate additional annual retainer of \$25,000). All annual retainers are paid quarterly in arrears.

Meeting Fees

Each non-employee director also receives \$1,000 for each in person meeting of the Board of Directors or any committee thereof that he attends and an additional payment of \$500 for each telephonic meeting of the Board of Directors or any committee thereof in which he participates. The meeting fees apply to meetings of the Board, the Board's three standing committees (*i.e.*, Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee) and any special committees established by the Board.

Table of Contents

Expense Reimbursement

Directors are reimbursed for reasonable expenses incurred in connection with serving as directors.

2004 Non-Employee Director Option Program

Each non-employee director also participates in our 2004 Non-Employee Director Option Program (the 2004 Director Program). The 2004 Director Program was adopted by our Board of Directors in July 2004 as part of our 2004 Stock Incentive Plan, and became effective upon approval by our stockholders at the 2004 Annual Meeting of Stockholders held on September 10, 2004. The 2004 Director Program is subject to the terms and conditions of the 2004 Stock Incentive Plan. Under the 2004 Director Program, non-employee directors receive a stock option grant of 20,000 shares on January 10 of each year beginning in 2005 (or the first trading day thereafter if January 10 is not a trading day). In addition, each non-employee director first elected or appointed to the Board after stockholder approval of the 2004 Stock Incentive Plan receives a stock option grant of 30,000 shares on the first trading day after such non-employee director is first elected or appointed to the Board. All of the options granted to non-employee directors under the 2004 Director Program are granted at an exercise price equal to the fair market value of the common stock on the date the options are granted. The Board has the discretion to amend the 2004 Director Program and increase or decrease the number of stock options granted to non-employee directors on an annual or other basis. A copy of the 2004 Director Program was attached as Exhibit 10.34 to the Annual Report on Form 10-K that we filed on March 16, 2005.

On January 10, 2005, each person then serving as a non-employee director received the automatic 20,000 share option grant described above. In addition, Messrs. Kentor and Goldsmith each received an initial 30,000 share option grant following his election to the Board. All of the options granted to non-employee directors were granted at an exercise price equal to the fair market value of the common stock on the date the options were granted.

Financial Code of Ethics

We have adopted a financial code of ethics that applies to all of our employees. This financial code of ethics constitutes a code of ethics, as defined in SEC Regulation S-K Item 406(b). PROPOSAL 2

REAUTHORIZATION OF THE BOARD OF DIRECTORS, IN ITS DISCRETION, TO AMEND THE COMPANY S RESTATED CERTIFICATE OF INCORPORATION TO EFFECTUATE A REVERSE STOCK SPLIT OF OUR COMMON STOCK, AT AN EXCHANGE RATIO RANGING FROM ONE-TO-TWO TO ONE-TO-FIVE

General

At a Special Meeting of Stockholders held on August 30, 2005, our stockholders voted (with the approval of more than 70% of our outstanding shares) to authorize our Board of Directors, in its discretion, to amend our Restated Certificate of Incorporation to effectuate a reverse stock split of all outstanding shares of our common stock at an exchange ratio ranging from one-to-two to one-to-five at any time before the first anniversary of the Special Meeting (August 30, 2006).

As of the date of this Proxy Statement, the Board has not yet effectuated the amendment and reverse stock split. In order to extend the period of time in which the Board is authorized to effectuate the amendment and reverse stock split, the Board has recommended that this Proposal 2 be presented to our stockholders for approval at the Annual Meeting. If our stockholders approve this Proposal 2, then the Board will be authorized, in its discretion, to effectuate the amendment and reverse stock split at any time before the first anniversary of the Annual Meeting (May 18, 2007).

In this Proposal 2 is approved, then the Board of Directors will have the sole discretion pursuant to Section 242(c) of the Delaware General Corporation Law to elect, as it determines to be in the best interests of Endocare and its stockholders, whether or not to effectuate the amendment and reverse stock split, and if so, the number of shares of our common stock between and including two and five that will be combined into one share of our common stock, at any time before the first anniversary of the Annual Meeting (May 18, 2007). The Board believes that stockholder approval of an amendment granting the Board this discretion, rather than approval of a specified exchange ratio, provides the Board with the flexibility to react to then-current market conditions and, therefore, is in the best interests of Endocare and its stockholders.

The text of the form of the proposed amendment to our Restated Certificate of Incorporation is attached to this proxy statement as *Appendix B*. By approving this amendment, stockholders will approve an amendment to our Restated Certificate of Incorporation pursuant to which any whole number of outstanding shares between and including two and five would be combined into one share of our common stock and authorize the Board to file such amendment as determined by the Board in the manner described herein. The Board may also elect not to effectuate any reverse split.

If approved by the stockholders, and following such approval, the Board determines that effectuating a reverse stock split is in the best interests of Endocare and its stockholders, the reverse stock split will become effective upon filing such amendment with the Secretary of State of the State of Delaware. The amendment filed thereby will contain the number of shares selected by the Board within the limits set forth in this proposal to be combined into one share of our common stock.

If the Board elects to effectuate a reverse stock split following stockholder approval, the number of issued and outstanding shares of common stock would be reduced in accordance with an exchange ratio determined by the Board within the limits set forth in this proposal. Except for adjustments that may result from the treatment of fractional shares as described below, each stockholder will hold the same percentage of our outstanding common stock immediately following the reverse stock split as such stockholder held immediately prior to the reverse stock split. Currently, Endocare is authorized to issue up to a total of 51,000,000 shares of capital stock, consisting of 1,000,000 shares of preferred stock and 50,000,000 shares of common stock. The amendment would not change the number of total authorized shares of our capital stock. Thus, immediately following the reverse stock split, the total number of authorized shares of capital stock would remain at 51,000,000, consisting of 1,000,000 shares of preferred stock and 50,000,000 shares of common stock. The par value of our common stock and preferred stock

Table of Contents

would remain unchanged at \$0.001 per share as well. Currently, the Board does not have any plans to issue additional shares of our common stock following the reverse stock split.

Reasons for the Possible Reverse Stock Split

We believe that a reverse stock split may be necessary for us to achieve the relisting of our stock on a national exchange or market. Our stock is currently quoted on the Over-the-Counter Bulletin Board, or OTCBB. Alternative markets such as the OTCBB are generally considered to be less efficient and not as widely followed as national exchanges or markets such as those operated by NASDAQ or the American Stock Exchange. In addition, certain mutual funds and other institutional investors are prohibited by their bylaws from investing in companies that trade on alternative markets such as the OTCBB.

In order for us to list our stock on a market operated by NASDAQ or the American Stock Exchange, we must satisfy certain listing standards, some of which require a minimum bid price. For example, certain listing standards of the NASDAQ Capital Market would require that our stock have a minimum bid price of at least \$4.00 per share and certain listing standards of the NASDAQ Global Market would require that our stock have a minimum bid price of at least \$5.00 per share. In addition, certain listing standards of the American Stock Exchange would require that our stock have a minimum bid price of at least \$3.00 per share. As of April 17, 2006, the closing price for our stock as reported on the OTCBB was \$3.37 per share. Of course, we cannot predict whether this share price will be maintained or increased in the future.

In many instances historically the markets have reacted negatively to the effectuation of a reverse stock split. Our stock may be negatively affected if our Board decides to proceed with a reverse stock split. However, we believe that our circumstances and rationale for the reverse stock split differentiate us from many other companies that have effectuated reverse stock splits. Among other things, we would be effectuating a reverse stock split to qualify our stock for relisting, whereas many other companies have effectuated reverse stock splits to avoid delisting in the face of dire financial or operational circumstances.

We expect that a reverse stock split of our common stock would increase the market price of our common stock so that we would be better able to satisfy the minimum bid price listing standards of a national market or exchange like the NASDAQ Capital Market, NASDAQ Global Market or the American Stock Exchange. However, the effect of a reverse split upon the market price of our common stock cannot be predicted with any certainty. It is possible that the per share price of our common stock after the reverse split will not rise in proportion to the reduction in the number of shares of our common stock outstanding resulting from the reverse stock split, and there can be no assurance that the market price per post-reverse split share will either exceed or remain in excess of the minimum bid price for a sustained period of time. The market price of our common stock may be based also on other factors that may be unrelated to the number of shares outstanding, including our future performance. Notwithstanding the foregoing, we believe that the proposed reverse stock split, when implemented within the proposed exchange ratio range, is likely to result in the market price of our common stock rising to the level necessary to satisfy the minimum bid price requirement for relisting on a national exchange or market.

We also believe that the increased market price of our common stock expected as a result of implementing a reverse stock split may improve the marketability of our common stock and encourage interest and trading in our common stock. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may function to make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current average price per share of our common stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were substantially higher. On the other hand, the liquidity of our common stock may be adversely affected by the proposed reverse stock split given the

Table of Contents

reduced number of shares that would be outstanding after the reverse stock split. We are hopeful, however, that the anticipated higher market price would reduce, to some extent, the negative effects on the liquidity and marketability of the common stock inherent in some of the policies and practices of institutional investors and brokerage houses described above.

We are hopeful that the price of our stock will increase over time as a result of positive developments in our business and our operating performance. Nevertheless, if the price of our stock does not increase significantly in the short term, a reverse stock split may be necessary or desirable to achieve the relisting of our stock.

Board Discretion to Implement the Reverse Stock Split

If the reverse stock split is approved by our stockholders, it will be effectuated, if at all, only upon a determination by the Board that a reverse stock split (with an exchange ratio determined by the Board as described above) is in the best interests of Endocare and its stockholders. The determination by the Board as to whether the reverse split will be effected, if at all, will be based upon various factors, including our ability to satisfy applicable listing requirements, existing and expected marketability and liquidity of our common stock, prevailing market conditions and the likely effect on the market price of our common stock. If the Board determines to effectuate the reverse stock split, the Board will consider various factors in selecting the specific exchange ratio, including the overall market conditions at the time and the recent trading history of our common stock.

Notwithstanding approval of the reverse stock split by the stockholders, the Board may, in its sole discretion, abandon the proposed amendment and determine prior to the effectiveness of any filing with the Secretary of State of the State of Delaware not to effect the reverse stock split prior to the one-year anniversary of the Annual Meeting (May 18, 2007), as permitted under Section 242(c) of the Delaware General Corporation Law. If the Board does not effectuate the reverse stock split prior to the first anniversary of the Annual Meeting (May 18, 2007), stockholder approval again would be required prior to implementing any reverse stock split.

Ability to Effectuate Reverse Stock Split Based on Prior Approval

As discussed above, at a Special Meeting of Stockholders held on August 30, 2005, our stockholders voted (with the approval of more than 70% of our outstanding shares) to authorize our Board of Directors, in its discretion, to effectuate the amendment and reverse stock split at any time before the first anniversary of the Special Meeting (August 30, 2006). Therefore, even if our stockholders do not vote to approve the amendment and reverse stock split at the Annual Meeting, the Board still would retain the authority to effectuate the amendment and reverse stock split prior to August 30, 2006 pursuant to the prior approval of our stockholders.

Effects of the Reverse Stock Split

After the effective date of the proposed reverse stock split, each stockholder will own a reduced number of shares of our common stock. However, the proposed reverse stock split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interest, except to the extent that the reverse stock split results in any of our stockholders owning a fractional share as described below. Proportionate voting rights and other rights and preferences of the holders of our common stock will not be affected by the proposed reverse stock split (other than as a result of the payment of cash in lieu of fractional shares). For example, a holder of 2% of the voting power of the outstanding shares of common stock immediately prior to the reverse stock split would continue to hold 2% of the voting power of the outstanding shares of common stock immediately after the reverse stock split. The number of stockholders of record will not be affected by the proposed reverse stock split (except to the extent that any stockholder holds only a fractional share interest and receives cash for such interest after the proposed reverse stock split).

Table of Contents

Although the proposed reverse stock split will not affect the rights of stockholders or any stockholder's proportionate equity interest in Endocare, subject to the treatment of fractional shares, the number of authorized shares of common stock and preferred stock will not be reduced. This will increase significantly the ability of the Board to issue authorized and unissued shares without further stockholder action. The issuance in the future of such additional authorized shares may have the effect of diluting the earnings per share and book value per share, as well as the stock ownership and voting rights, of the currently outstanding shares of common stock. The effective increase in the number of authorized but unissued shares of common stock may be construed as having an anti-takeover effect by permitting the issuance of shares to purchasers who might oppose a hostile takeover bid or oppose any efforts to amend or repeal certain provisions of our Restated Certificate of Incorporation or Bylaws.

The proposed reverse stock split will reduce the number of shares of common stock available for issuance upon exercise of our outstanding stock options in proportion to the exchange ratio of the reverse stock split and will effect a proportionate increase in the exercise price of such outstanding stock options. In connection with the proposed reverse stock split, the number of shares of common stock issuable upon exercise or conversion of outstanding stock options will be rounded to the nearest whole share and no cash payment will be made in respect of such rounding. The proposed reverse stock split would have a similar effect upon our outstanding warrants and stock purchase rights under our stockholder rights plan. However, any fractional shares that would result from exercises of our outstanding warrants would be paid in cash, instead of rounding to the nearest whole share.

If the proposed reverse stock split is implemented, it will increase the number of stockholders of Endocare who own odd lots of less than 100 shares of our common stock and decrease the number of stockholders who own whole lots of 100 shares or more of our common stock. Brokerage commissions and other costs of transactions in odd lots are generally higher than the costs of transactions of whole lots or a greater number of shares. In addition, certain listing standards of exchanges or markets like those operated by NASDAQ or the American Stock Exchange may require that we have a certain minimum number of holders of whole lots.

Our common stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended, and we are subject to the periodic reporting and other requirements of the Securities Exchange Act. The proposed reverse stock split will not affect the registration of the common stock under the Securities Exchange Act.

Effective Date

The proposed reverse stock split would become effective as of 5:00 p.m., Eastern time on the date of filing of a Certificate of Amendment to our Restated Certificate of Incorporation with the office of the Secretary of State of the State of Delaware. Except as explained below with respect to fractional shares, on the effective date, shares of common stock issued and outstanding immediately prior thereto will be combined and converted, automatically and without any action on the part of the stockholders, into new shares of common stock in accordance with the reverse stock split ratio determined by the Board within the limits set forth in this proposal.

Payment for Fractional Shares

No fractional shares of common stock will be issued as a result of the proposed reverse stock split. Instead, stockholders who otherwise would be entitled to receive fractional shares, upon surrender to the exchange agent of such certificates representing such fractional shares, will be entitled to receive cash in an amount equal to the product obtained by multiplying (i) the fair market value of our common stock as determined by the Board on the effective date by (ii) the number of shares of our common stock held by such stockholder that would otherwise have been exchanged for such fractional share interest.

Table of Contents**Exchange of Stock Certificates**

As soon as practicable after the effective date, stockholders will be notified that the reverse split has been effected. Our transfer agent will act as exchange agent for purposes of implementing the exchange of stock certificates. We refer to such person as the exchange agent. Holders of pre-reverse split shares will be asked to surrender to the exchange agent certificates representing pre-reverse split shares in exchange for certificates representing post-reverse split shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by us. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent. Stockholders should not destroy any stock certificate and should not submit any certificates until requested to do so.

Accounting Consequences

The par value per share of our common stock would remain unchanged at \$0.001 per share after the reverse stock split. As a result, on the effective date of the reverse split, the stated capital on our balance sheet attributable to the common stock will be reduced proportionally, based on the exchange ratio of the reverse stock split, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share common stock net income or loss and net book value will be increased because there will be fewer shares of our common stock outstanding. We do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Appraisal Rights

Under the Delaware General Corporation Law, our stockholders are not entitled to appraisal rights with respect to our proposed amendment to our Restated Certificate of Incorporation to effectuate the reverse stock split, and we will not independently provide our stockholders with any such rights.

Material Federal U.S. Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain U.S. federal income tax considerations of the proposed reverse stock split. It addresses only U.S. Stockholders (as defined herein) who hold the pre-reverse split shares and post-reverse split shares as capital assets. This summary is based upon the Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations, judicial authorities, published positions of the Internal Revenue Service (the IRS) and other applicable authorities, all as in effect on the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). It does not address tax considerations under state, local, foreign and other laws.

As used herein, the term U.S. Stockholder means (i) an individual who is a citizen or resident of the United States, (ii) a corporation or other entity treated as a corporation created or organized in or under (or treated for U.S. federal income tax purposes as created or organized in or under) the laws of the United States or any state thereof or the District of Columbia, (iii) an estate subject to U.S. federal income taxation without regard to the source of its income, and (iv) a trust if (a) a U.S. court is able to exercise primary supervision over the trust's administration and one or more U.S. fiduciaries have the authority to control all of the trust's substantial decisions, or (b) the trust has in effect a valid election to be treated as a United States person within the meaning of the U.S. Treasury Regulations. The discussion does not address the U.S. federal income tax considerations that affect the treatment of an entity that is a partnership for U.S. federal income tax purposes and that holds the pre-reverse split shares and post-reverse split shares, or the partners of such partnership. Such partnerships and their partners should consult their own tax advisors. The discussion does not purport to be complete and does not address stockholders subject to special rules, such as stockholders that are not U.S. Stockholders, or that are financial institutions, tax-exempt organizations, insurance companies, dealers in securities, mutual funds, stockholders who hold the pre-reverse split shares as part of a straddle, hedge or conversion transaction or other risk reduction strategy, stockholders who hold the pre-reverse split shares as qualified small business

Table of Contents

stock within the meaning of Section 1202 of the Code, stockholders who are subject to the alternative minimum tax provisions of the Code and stockholders who acquired their pre-reverse split shares pursuant to the exercise of employee stock options or otherwise as compensation. Furthermore, we have not obtained a ruling from the IRS or an opinion of legal or tax counsel with respect to the consequences of the reverse stock split. ACCORDINGLY, ALL STOCKHOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE SPECIFIC FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT.

The reverse stock split is intended to constitute a reorganization within the meaning of Section 368 of the Code. Assuming the reverse split qualifies as a reorganization, a U.S. Stockholder generally will not recognize gain or loss on the reverse stock split, except (as discussed below) to the extent of cash, if any, received in lieu of a fractional share interest in the post-reverse split shares. The aggregate tax basis of the post-reverse split shares received will be equal to the aggregate tax basis of the pre-reverse split shares exchanged therefor (excluding any portion of the holder's basis allocated to fractional shares), and the holding period of the post-reverse split shares received will include the holding period of the pre-reverse split shares exchanged.

A holder of the pre-reverse split shares who receives cash in lieu of a fractional share interest in the post-reverse split shares will generally recognize gain or loss equal to the difference between the portion of the tax basis of the pre-reverse split shares allocated to the fractional share interest and the cash received. Such gain or loss will be a capital gain or loss and will be short term if the pre-reverse split shares were held for one year or less and long term if held more than one year. It is assumed for this purpose that cash will be paid in lieu of fractional shares only as a mechanical rounding off of fractions resulting from the exchange rather than separately bargained-for consideration. It is also assumed that the reverse split is not being undertaken to increase any stockholder's proportionate ownership of the Company.

No gain or loss will be recognized by the Company as a result of the reverse stock split.

Required Vote

The affirmative vote of the holders of a majority of the outstanding shares of our common stock, voting in person or by proxy, is required to reauthorize the amendment to our Restated Certificate of Incorporation. Abstentions and broker non-votes will have the same effect as negative votes on this proposal.

Recommendation of the Board of Directors

The Board of Directors unanimously recommends that the stockholders vote **FOR** this Proposal 2.

PROPOSAL 3

RATIFICATION OF INDEPENDENT AUDITOR

We are asking the stockholders to ratify the Board's selection of Ernst & Young LLP as our independent auditor for the fiscal year ending December 31, 2006. Neither Ernst & Young LLP nor any of its members has any relationship with us or any of our affiliates, except in the firm's capacity as our independent auditor.

In the event the stockholders fail to ratify the selection, the Board may reconsider its selection. Even if the selection is ratified, the Board, in its discretion, may direct the appointment of a different independent auditor at any time during the fiscal year if the Board feels that such a change would be in our and our stockholders' best interests.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, and will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions. The affirmative vote of the holders of a majority of the outstanding shares of

- (1) The options become fully vested and exercisable upon a change of control. Prior to and in the absence of such change of control, the options vest over a four-year period in 48 equal monthly installments. The options expire on the tenth anniversary of the grant date, subject to earlier termination upon the optionee's cessation of service with us. The shares subject to the options become exercisable only if vested.
- (2) Percentages are based on an aggregate of 1,409,250 options granted to our employees during 2005, which includes the grant to Mr. Davenport.
- (3) The exercise price may be paid in cash, in shares of common stock valued at fair market value on the exercise date or through a broker-assisted cashless exercise procedure involving a same-day sale of the purchased shares.
- (4) The potential realizable value is calculated based on the term of the option at its time of grant. It is calculated by assuming that the stock price on the date of grant appreciates at the indicated annual rate, compounded annually for the entire term of the option. We do not provide assurance to any Named Executive Officer or any other holder of our securities that the actual stock price appreciation over the 10-year option term will be at the assumed 5% and 10% levels or at any other defined level. Unless the market price of the common stock does in fact appreciate over the option term, no value will be realized from the option grants made to the Named Executive Officers.

Compensation Committee Interlocks and Insider Participation

Our compensation committee consists of Drs. Daniels and Strauss and Mr. Kentor, none of whom was at any time during fiscal 2005 or at any other time an officer or employee of the Company. There are no compensation committee interlocks between the Company and other entities involving our executive officers and directors who serve as executive officers or directors of such other entities. As discussed below under Related Party Transactions, Dr. Daniels participated as an investor in our March 2005 private placement financing.

The following reports of the Compensation Committee and the Audit Committee, Audit Committee Charter and Stock Performance Graph should not be considered to be part of this Proxy Statement. Any current or future cross-references to this Proxy Statement in filings with the Securities and Exchange Commission under either the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, will not include the reports or graph reproduced below or the Audit Committee Charter.

Compensation Committee Report on 2005 Executive Compensation

Purposes of Compensation Committee

The Compensation Committee's Charter provides that the Compensation Committee is appointed by the Board to: (i) assist the Board in discharging its responsibilities relating to compensation of the Company's executive officers; and (ii) produce an annual report on executive compensation for inclusion in the Company's proxy statement, in accordance with applicable rules and regulations.

Scope of Report

This report covers the compensation of the Company's executive officers for the year ended December 31, 2005, including incentive payments made in the first quarter of 2006 under our 2005 Management Incentive Compensation Program (2005 MICP) based on 2005 performance. The Company deemed three individuals to be executive officers in 2005: Craig T. Davenport, the Company's Chairman and Chief Executive Officer; William J. Nydam, the Company's President and Chief Operating Officer; and Michael R. Rodriguez, the Company's Senior Vice President, Finance and Chief Financial Officer.

Constitution of Compensation Committee During 2005

The membership of the Compensation Committee changed during 2005. Until June 22, 2005 (the date of the Company's 2005 Annual Meeting of Stockholders), the Compensation Committee consisted of Terrence A. Noonan and Michael J. Strauss, M.D. On and after June 22, 2005, the Compensation Committee consisted of John R. Daniels, M.D., Eric S. Kentor and Michael J. Strauss, M.D.

Table of Contents

Overall Executive Compensation Philosophy

The Company's overall executive compensation philosophy is that executive compensation policy, practice and decisions should be guided by four key principles:

Pay for Performance. A significant portion of the total annual compensation of each executive officer should be based on the Company's performance and the contribution to that performance made by such executive officer;

Incentive for Creation of Stockholder Value. In addition to our annual cash incentive programs, we grant stock options to provide an incentive and opportunity for our executive officers to participate in the creation of stockholder value through stock price appreciation;

Alignment with Stockholders' Interests. Executive compensation components should align with stockholders' interests, to the extent reasonably practicable; and

Internal Parity and External Competitiveness. In setting and changing each executive officer's total annual compensation and stock option incentives, the Company seeks to achieve both internal parity and external competitiveness. The Company's policy is that the total cash compensation of each executive officer should approximate the 65th percentile of executive compensation of medical device companies considered its peers.

Primary Components of 2005 Executive Compensation

In 2005, the primary components of each executive officer's compensation were base salary, an annual cash incentive award tied to 2005 performance under the 2005 MICP and stock options.

Base Salary. As described below, on April 27, 2005, the Compensation Committee (consisting of Mr. Noonan and Dr. Strauss) increased Mr. Davenport's base salary and target incentive award in order to cause Mr. Davenport's total cash compensation to approximate the 65th percentile of peer group companies, consistent with the Company's policy described above. On February 23, 2005, the Compensation Committee approved a 3% base salary increase for Mr. Nydam (from \$254,400 to \$262,032) and a 1% base salary increase for Mr. Rodriguez (from \$200,000 to \$202,000). Each year, the Company considers merit increases of an average of 3% to the base salaries of senior management, including the executive officers, in order to reward individual performance and keep pace with cost of living increases. Mr. Rodriguez's base salary increase was smaller than 3% because the increase was pro rated to reflect that Mr. Rodriguez's employment did not commence until August 2004.

Annual Cash Incentive Awards Under 2005 MICP. On February 23, 2005, the Compensation Committee (consisting of Mr. Noonan and Dr. Strauss) approved the 2005 MICP, including the performance objectives that would be assessed in the first quarter of 2006 to determine the amount payable to each executive officer under the 2005 MICP. These objectives included, among others, performance targets based on growth in procedures, Timm Medical performance, reduction in operating expenses and the amount of fourth quarter 2005 adjusted EBITDA loss. For these purposes, the 2005 MICP defined adjusted EBITDA as EBITDA (earnings before interest, taxes, depreciation and amortization) less stock option compensation expenses, impairment charges, losses on disposal of assets/subsidiaries and other non-cash, non-recurring charges.

On March 8, 2006, the Compensation Committee (consisting of Drs. Daniels and Strauss and Mr. Kentor) approved the payment of incentive amounts to the executive officers, based on the performance objectives actually achieved in 2005 under the 2005 MICP. The amount paid to each executive officer under the 2005 MICP was less than the target amount for such executive officer, because no executive officer achieved 100% of his performance objectives. The executive officers requested that the Compensation Committee exercise its discretion to waive or modify one of the performance objectives that was not achieved in 2005. After consideration, the Compensation Committee declined to exercise its discretion with respect to such performance objective.

Stock Option Awards. During 2005, the only stock option grant to an executive officer was the grant to Mr. Davenport of options to purchase 225,000 shares of common stock, which is described below. Stock options to purchase an aggregate of 1,184,250 shares were granted in 2005 to 84 employees who were not executive officers.

The vesting provisions of stock options are designed to encourage longevity of employment and generally extend over a four-year period. A portion of the option grants in 2005 to employees who were not executive officers was made by Mr. Davenport pursuant to delegated authority under the 2004 Stock Incentive Plan.

2005 Chief Executive Officer Compensation

The Compensation Committee's Charter provides that the Compensation Committee will annually review and approve the Company's corporate goals and objectives relevant to the Chief Executive Officer's compensation, evaluate the Chief Executive Officer's performance in light of such goals and objectives and, either as a committee or together with the other independent directors (as directed by the Board), determine and approve the Chief Executive Officer's compensation level based on this evaluation. The Charter provides that, in determining the long-term incentive component of the Chief Executive Officer's compensation, the Compensation Committee will consider the Company's performance and relative stockholder return, the value of similar incentive awards to chief executive officers at comparable companies, the awards given to the Company's Chief Executive Officer in past years and internal parity (*i.e.*, the Chief Executive Officer's compensation relative to the compensation paid to the Company's other executive officers).

In December 2003 we entered into an employment agreement with Mr. Davenport pursuant to which he became our Chief Executive Officer. The employment agreement set Mr. Davenport's initial annual base salary at \$300,000 per year and provided him a target annual incentive amount equal to 45% of his base salary. Effective December 16, 2004, Mr. Davenport's annual base salary was increased from \$300,000 to \$312,000 pursuant to the terms of his employment agreement, which provides for the review and adjustment of Mr. Davenport's base salary in accordance with the Company's procedures for adjusting salaries for executive officers.

On February 23, 2005, the Compensation Committee (consisting of Mr. Noonan and Dr. Strauss) determined the performance objectives that would apply to Mr. Davenport under the 2005 MICP. Mr. Davenport's performance objectives included targets based on growth in procedures, Timm Medical performance, reduction in operating expenses and the amount of fourth quarter 2005 adjusted EBITDA loss. In addition, one of Mr. Davenport's performance objectives required various actions relating to personnel development, systems development, process improvements and the enhancement of corporate culture, including the formation and leadership of a cross-departmental committee tasked with developing a corporate mission statement and organizational core values.

From January 2005 until April 2005, the Compensation Committee (consisting of Mr. Noonan and Dr. Strauss) conducted a review of the Company's executive compensation practices. Among other things, the Compensation Committee reviewed Mr. Davenport's compensation package to determine whether Mr. Davenport's total cash compensation approximated the 65th percentile of peer group companies, consistent with the Company's policy described above, and whether Mr. Davenport should be awarded additional stock options in order to achieve internal parity and external competitiveness.

To assist in this review, the Compensation Committee selected and engaged Compensia, a company specializing in matters related to executive compensation, to provide the Compensation Committee independent insights on executive compensation matters, both generally and within the Company's industry.

Based on this review, on April 27, 2005, the Compensation Committee (consisting of Mr. Noonan and Dr. Strauss) approved an amendment to Mr. Davenport's employment agreement. The amendment increased Mr. Davenport's annual base salary from \$312,000 to \$390,000 and increased his target annual

Table of Contents

incentive amount under the 2005 MICP (and subsequent annual incentive programs) from 45% of the base salary to 85% of the base salary. In addition, the Compensation Committee awarded Mr. Davenport additional options to purchase 225,000 shares of the Company's common stock. The amendment also entitles Mr. Davenport to receive a minimum aggregate amount of \$750,000 in severance if he terminates his employment within the 180-day period following the six-month anniversary of a change in control.

The Compensation Committee believed that these changes to Mr. Davenport's compensation package furthered the goal of internal parity and external competitiveness and made a more significant portion of Mr. Davenport's total compensation tied to performance, consistent with the principle of pay for performance described above. In addition, the additional option grant provided a further incentive and opportunity for Mr. Davenport to participate in the creation of stockholder value.

As described above, on March 8, 2006, the Compensation Committee (consisting of Drs. Daniels and Strauss and Mr. Kentor) approved the payment of incentive amounts to Mr. Davenport and the other executive officers under the 2005 MICP, based on the performance objectives actually achieved in 2005 under the 2005 MICP. Based on his level of achievement under the 2005 MICP, Mr. Davenport received a payment of \$254,230 (approximately 68% of his base salary earned in 2005). Mr. Davenport would have received \$317,688 (85% of his base salary earned in 2005) if he had achieved 100% of his performance objectives under the 2005 MICP.

Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly-traded companies for compensation paid to certain of their executive officers, to the extent that compensation exceeds \$1.0 million per covered officer in any fiscal year. The limitation applies only to compensation that is not considered to be performance-based. The non-performance based compensation to our executive officers for 2005 did not exceed the \$1.0 million limit per officer. The 2004 Stock Incentive Plan has been structured so that any compensation paid in connection with the exercise of options granted under the 2004 Stock Incentive Plan will qualify as performance-based compensation and therefore is not subject to the \$1.0 million limitation.

Audit Committee Report

The following is the report delivered by the Audit Committee of our Board of Directors with respect to the principal factors considered by such Committee in its oversight of our accounting, auditing and financial reporting practices for fiscal year 2005.

In accordance with its written charter adopted by the Board of Directors, the Audit Committee of the Board assists the Board in fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing and financial reporting practices. Our independent auditor is responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principals.

In discharging its oversight responsibility as to the audit process, the Audit Committee has received from the independent auditor, Ernst & Young LLP, the written disclosures and the letter describing all relationships between the auditor and the Company that might bear on the auditor's independence, consistent with Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with the auditor any relationships that may impact the auditor's objectivity and independence and satisfied itself as to the auditor's independence.

The Audit Committee discussed and reviewed with the independent auditor all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees.

The Audit Committee reviewed and discussed our audited financial statements as of and for the fiscal year ended December 31, 2005 with management and the independent auditor.

Based on the above, the Audit Committee recommended to the Board of Directors that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005, for filing with the Securities and Exchange Commission.

Table of Contents**STOCK PERFORMANCE GRAPH**

The following graph compares the performance of our common stock over the five preceding fiscal years to the weighted average performance over the same period of the stock of companies included in The NASDAQ Stock Market-U.S. Index and a self-constructed peer group of companies selected by us. We first included the self-constructed peer group in 2002 because we were informed that 2001 would be the last year the JP Morgan Hambrecht & Quist Healthcare-Excluding Biotechnology Index would be available. The graph assumes \$100 was invested at the close of trading on December 31, 2000 in our common stock and in each of the indices and that all dividends were reinvested. The NASDAQ Stock Market-U.S. Index tracks the aggregate price performance of equity securities of companies traded on The NASDAQ National Market (now known as The NASDAQ Global Market). The self-constructed peer group consists of: American Medical Systems Holdings, Inc., HealthTronics, Inc., Laserscope, North American Scientific, Inc., Theragenics Corporation and Urologix, Inc. The stockholder return shown on the graph below should not be considered indicative of future stockholder returns, and we do not make or endorse any predictions of future stockholder returns.

While the *Committee* has the duties and responsibilities set forth in this Charter, it is not the duty or responsibility of the *Committee* to plan or conduct audits or to determine that the *Company*'s financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Those tasks are the responsibility of the *Company*'s management and the independent auditor. The *Board* and the *Committee* represent the *Company*'s stockholders. Accordingly, the independent auditor is ultimately accountable to the *Board* and the *Committee*.

The *Committee* shall retain and compensate such outside legal, accounting, or other advisors, as it considers necessary in discharging its oversight role.

In fulfilling its purpose, it is the responsibility of the *Committee* to maintain free and open communications between the *Committee*, independent auditors, the internal auditors, and management of the *Company*, and to determine that all parties are aware of their responsibilities.

Membership

The *Committee* shall consist of at least three members, as determined annually by the *Board*. The *Board* shall designate one member as chairperson or delegate the authority to designate a chairperson to the *Committee*. The members of the *Committee* shall meet the independence and expertise requirements of each exchange on which the *Company*'s securities are traded, Rule 10A-3 of the Securities Exchange Act of 1934, and the other rules and regulations of the *SEC*. Each member of the *Committee* shall be financially literate, or become financially literate within a reasonable period of time, and at least one member shall be an *audit committee financial expert*, as defined by *SEC* rules.

Members shall not serve on more than three public company audit committees simultaneously.

The *Committee* shall meet at least quarterly. The *Committee* shall meet separately and periodically with management, the personnel responsible for the internal audit function, and the independent auditor. The *Committee* shall report regularly to the *Board* with respect to its activities. The *Committee* will maintain written minutes of its meetings, which minutes will be filed with the books and records of the *Company*.

Duties and Responsibilities

The *Committee*, in carrying out its responsibilities, believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The *Committee* will take appropriate actions to set the overall corporate *tone* for quality financial reporting, sound business risk practices, and ethical behavior. The following shall be the principal duties and responsibilities of the *Committee*. These are set forth as a guide with the understanding that the *Committee* may supplement them as appropriate.

Table of Contents

The Committee shall be directly responsible for the appointment, compensation, retention, and oversight of the work of the independent auditors (including resolution of disagreements between management and the auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or performing other audit, review, or attest services for the Company, and the independent auditors must report directly to the Committee.

At least annually, the Committee shall obtain and review a report by the independent auditors describing: (i) the firm's internal quality control procedure; (ii) any material issues raised by the most recent internal quality control review, or peer review, of the firm or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (iii) all relationships between the independent auditors and the Company (to assess the auditors' independence).

After reviewing the foregoing report and the independent auditors' work throughout the year, the Committee shall evaluate the auditors' qualifications, performance and independence. Such evaluation should include the review and evaluation of the lead partner of the independent auditors and take into account the opinions of management and the Company's personnel responsible for the internal audit function.

The Committee shall determine that the independent audit firm has a process in place to address the rotation of the lead audit partner and other audit partners serving the account as required under the SEC independence rules.

The Committee shall pre-approve all audit and non-audit services provided by the independent auditors and shall not engage the independent auditors to perform non-audit services proscribed by law or regulation. The Committee may delegate pre-approval authority to a member of the Committee. The decisions of any Committee member to whom pre-approval authority is delegated must be presented to the full Committee at its next scheduled meeting.

The Committee shall discuss with internal audit and the independent auditors the overall scope and plans for their respective audits, including the adequacy of staffing and budget or compensation.

The Committee shall regularly review with the independent auditors any audit problems or difficulties encountered during the course of the audit work, including any restrictions on the scope of the independent auditors' activities or access to requested information, and management's response. The Committee should review any accounting adjustments that were noted or proposed by the auditors but were passed (as immaterial or otherwise); any communications between the audit team and the audit firm's national office respecting auditing or accounting issues presented by the engagement; and any management, internal control, or significant deficiencies letter issued, or proposed to be issued, by the independent auditors to the Company.

The Committee shall review and discuss the quarterly financial statements with management and the independent auditors prior to the filing of the Company's Quarterly Report on Form 10-Q. Also, the Committee shall discuss the results of the quarterly review and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards.

The Committee shall review and discuss the annual audited financial statements with management and the independent auditors prior to the filing of the Company's Annual Report on Form 10-K. The Committee's review of the financial statements shall include: (i) major issues regarding accounting principles and financial statement presentations, including any significant changes in the Company's selection or application of accounting principles, and major issues as to the adequacy of the Company's internal controls and any specific remedial actions adopted in light of significant control deficiencies; (ii) discussions with management and the independent auditors regarding significant financial reporting issues and judgments made in connection with the preparation

of the financial statements and the reasonableness of those judgments; (iii) consideration of the effect of

regulatory accounting initiatives, as well as off-balance sheet structures on the financial statements; (iv) consideration of the judgment of both management and the independent auditors about the quality, not just the acceptability, of accounting principles; and (v) the clarity of the disclosures in the financial statements. Also, the Committee shall discuss the results of the annual audit and any other matters required to be communicated to the Committee by the independent auditors under professional standards.

The Committee shall receive and review a report from the independent auditors, prior to the filing of the Company's Annual Report on Form 10-K, on all critical accounting policies and practices of the Company; all material alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, including the ramifications of the use of such alternative treatments and disclosures and the treatment preferred by the independent auditor; and other material written communications between the independent auditors and management.

The Committee shall review and approve all related party transactions.

The Committee shall review and discuss earnings press releases, as well as the Company's policies regarding financial information and earnings guidance provided to analysts and rating agencies.

The Committee shall review management's assessment of the effectiveness of internal control over financial reporting as of the end of the most recent fiscal year and the independent auditors' report on management's assessment in compliance with Section 404 of the Sarbanes-Oxley Act.

The Committee shall discuss with management, internal audit, and the independent auditors the adequacy and effectiveness of internal control over financial reporting, including any significant deficiencies or material weakness identified by management of the Company in connection with its required certifications under Sections 302 and 404 of the Sarbanes-Oxley Act. In addition, the Committee shall discuss with management, internal audit, and the independent auditors any significant changes in internal control over financial reporting that are disclosed, or considered for disclosure, in the Company's periodic filings with the SEC.

The Committee shall review the Company's compliance systems with respect to legal and regulatory requirements and review the Company's code of conduct and programs to monitor compliance with such programs. The Committee shall receive corporate attorney's reports of evidence of a material violation of securities laws or breaches of fiduciary duty.

The Committee shall discuss the Company's policies with respect to risk assessment and risk management, including the risk of fraud. The Committee also shall discuss the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures.

The Committee shall establish procedures for the receipt, retention, and treatment of complaints received by the Company regarding accounting, internal accounting controls, or auditing materials, and the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or audit matters.

The Committee shall set clear hiring policies for employees or former employees of the independent auditors that meet SEC rules and regulations and applicable stock exchange listing standards.

The Committee shall determine the appropriate funding needed by the Committee for the payment of: (1) compensation to the independent audit firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review, or attest services for the Company; (2) compensation to any advisers employed

by the Committee; and (3) ordinary administrative expenses of the Committee that are necessary or appropriate in carrying out its duties.

The Committee shall perform an evaluation of its performance at least annually to determine whether it is functioning effectively.
