Plan Administrator

***Resource Bank Stock and 401(k) Savings Plan***

We have audited the accompanying statements of net assets available for benefits of *Resource Bank Stock and 401(k) Savings Plan* as of December 31, 2004 and 2003, and the related statement of changes in net assets available for the year ended December 31, 2004. These financial statements and supplemental schedules are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Notes to Financial Statements***

**December 31, 2004 and 2003**

**1. Description of Plan**

The following description of the *Resource Bank (Company) Stock and 401(k) Savings Plan* (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan covering substantially all employees of Resource Bank. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

**Contributions**

Each year, participants may contribute up to 15 percent of pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may contribute up to 50 percent of the first 6 percent of compensation that a participant contributes to the Plan. Additional Company contributions may be made at the option of the Company's board of directors. Company contributions are invested in Company stock. Contributions are subject to certain limitations.

**Participant Accounts**

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings, and (c) charged with an allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined. A participant is 100 percent vested after two years of credited service.

**Forfeited Accounts**

At December 31, 2004 forfeited nonvested accounts totaled \$60,373. These accounts are first used to reduce administrative expenses of the Plan, then used to reduce Company contributions.

### Payment of Benefits

On termination of service due to death, disability, retirement, or termination, if the vested portion of the participant account is over \$5,000, the participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, periodic installment payments or a combination of both options. If upon termination of service, the participant's vested account is under \$5,000, a participant will receive the value of the vested interest in his or her account as a lump sum distribution.

## 2. Summary of Accounting Policies

### Use of Estimates

The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except participant loans. Quoted market prices are used to value investments. Participant loans are stated at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### Payment of Benefits

Benefits are recorded when paid.

#### 5. Related Party Transactions

Certain plan investments are shares of stock in Resource Bankshares, the parent of the plan sponsor and, therefore, these transactions qualify as party-in-interest transactions. The fair market value of the Plan's assets are based on quotes from an active market.

On April 1, 2004, as a result of the merger of Resource Bankshares Corporation, parent of the plan sponsor, with Fulton Financial Corporation, common stock of Resource Bankshares was exchanged for Fulton Financial Corporation common stock at the rate of \$1.4667 shares of Fulton Financial Corporation common stock for each share of Resource Bankshares Corporation stock.

**6. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

**7. Tax Status**

The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated July 25, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Additionally, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

**8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balance and the amounts reported in the statement of the net assets available for benefits.
