

Brookfield Global Listed Infrastructure Income Fund Inc.
Form N-Q
May 27, 2016

As filed with the Securities and Exchange Commission on May 27, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM N-Q
QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED MANAGEMENT
INVESTMENT COMPANY

Investment Company Act file number 811-22570

Brookfield Global Listed Infrastructure Income Fund Inc.
(Exact name of registrant as specified in charter)

Brookfield Place, 250 Vesey Street, 15th Floor, New York, NY 10281-1023
(Address of principal executive offices) (Zip code)

Brian F. Hurley, Brookfield Place, 250 Vesey Street, 15th Floor, New York, NY 10281-1023
(Name and address of agent for service)

855-777-8001
Registrant's telephone number, including area code

Date of fiscal year end: December 31, 2016

Date of reporting period: March 31, 2016

Edgar Filing: Brookfield Global Listed Infrastructure Income Fund Inc. - Form N-Q

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (Sections 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30b1-5 under the Investment Company Act of 1940 (17 CFR 270.30b1-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. Section 3507.

AUD -- Australian Dollar

The following notes should be read in conjunction with the accompanying Schedule of Investments.

1 -- All or portion of the principal amount is pledged as collateral for credit facility

2 -- Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may only be resold in transactions exempt from registration, normally to qualified institutional buyers. As of March 31, 2016, the total value of all such securities was \$1,594,773 or 0.8% of net assets.

3 -- Non-income producing security.

4 -- Variable rate security - Interest rate shown is the rate in effect as of March 31, 2016.

Notes to Schedule of Investments (Unaudited)

Valuation of Investments: Debt securities, including U.S. government securities, listed corporate bonds, other fixed income and asset-backed securities, and unlisted securities and private placement securities, are generally valued at the bid prices furnished by an independent pricing service or, if not valued by an independent pricing service, using bid prices obtained from active and reliable market makers in any such security or a broker-dealer. The broker-dealers or pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the broker-dealers or pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the broker-dealers or pricing services utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining fair value and/or market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon-rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair values. Short-term debt securities with remaining maturities of sixty days or less are valued at amortized cost with interest accrued or discount accreted to the date of maturity, unless such valuation, in the judgment of Brookfield Investment Management Inc.'s (the "Adviser") Valuation Committee, does not represent market value.

Investments in equity securities listed or traded on any securities exchange or traded in the over-the-counter market are valued at the trade price as of the close of business on the valuation date. Investments in open-end registered investment companies, if any, are valued at the net asset value ("NAV") as reported by those investment companies. Fair valuation procedures may be used to value a portion of the assets of the Fund. The Fund may use the fair value of a security to calculate its NAV when, for example, (1) a portfolio security is not traded in a public market or the principal market in which the security trades is closed, (2) trading in a portfolio security is suspended and not resumed prior to the normal market close, (3) a portfolio security is not traded in significant volume for a substantial period, or (4) the Adviser determines that the quotation or price for a portfolio security provided by a broker-dealer or an independent pricing service is inaccurate.

The fair value of securities may be difficult to determine and thus judgment plays a greater role in the valuation process. The fair valuation methodology may include or consider the following guidelines, as appropriate: (1) evaluation of all relevant factors, including but not limited to, pricing history, current market level, supply and demand of the respective security; (2) comparison to the values and current pricing of securities that have comparable characteristics; (3) knowledge of historical market information with respect to the security; (4) other factors relevant to the security which would include, but not be limited to, duration, yield, fundamental analytical data, the Treasury yield curve, and credit quality.

The values assigned to fair valued investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in long-term investments. Changes in the fair valuation of portfolio securities may be less frequent and of greater magnitude than changes in the price of portfolio securities valued at their last sale price, by an independent pricing service, or based on market quotations. Imprecision in estimating fair value can also impact the amount of unrealized appreciation or depreciation recorded for a particular portfolio security and differences in the assumptions used could result in a different determination of fair value, and those differences could be material.

The Fund's Board of Directors (the "Board") has adopted procedures for the valuation of the Fund's securities. The Adviser oversees the day to day responsibilities for valuation determinations under these procedures. The Board regularly reviews the application of these procedures to the securities in the Fund's portfolio. Pursuant to the procedures, securities in the Fund are valued using unadjusted quoted market prices, when available, as supplied primarily by third party pricing services or dealers. However, if (i) a market value or price is not readily available, (ii) the available quotations are not believed to be reflective of market value by the Adviser, or (iii) a significant event has occurred that would materially affect the value of the security, the security is fair valued, as determined in good faith, by the Adviser's Valuation Committee. The Adviser's Valuation Committee is comprised of senior members of the Adviser's management team. There can be no assurance that the Fund could purchase or sell a portfolio security at the price used to calculate the Fund's NAV. As of March 31, 2016, there were no Fund securities that were fair valued by the Adviser's Valuation Committee.

The Fund has established methods of fair value measurements in accordance with GAAP. Fair value denotes the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy has been established to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 - quoted prices in active markets for identical assets or liabilities
quoted prices in markets that are not active or other significant observable inputs (including, but not limited
- Level 2 - to: quoted prices for similar assets or liabilities, quoted prices based on recently executed transactions, interest rates, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of assets or liabilities)

The Adviser's valuation policy, as previously stated, establishes parameters for the sources and types of valuation analysis, as well as, the methodologies and inputs the Adviser uses in determining fair value, including the use of the Adviser's Valuation Committee. If the Adviser's Valuation Committee determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work will be undertaken.

Significant increases or decreases in any of the unobservable inputs in isolation may result in a lower or higher fair value measurement.

To assess the continuing appropriateness of security valuations, the Adviser (or its third party service provider, who is subject to oversight by the Adviser), regularly compares one of its prior day prices, prices on comparable securities and sale prices to the current day prices and challenges those prices that exceed certain tolerance levels with the third party pricing service or broker source. For those securities valued by fair valuations, the Adviser's Valuation Committee reviews and affirms the reasonableness of the valuations based on such methodologies and fair valuation determinations on a regular basis after considering all relevant information that is reasonably available.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those securities.

The following table summarizes the Fund's investments categorized in the disclosure hierarchy as of March 31, 2016:

Valuation Inputs	Level			Total
	Level 1	Level 2	3	
Common Stocks:				
Australia	\$-	\$17,620,812	\$ -	\$17,620,812

Australia	-	2,282,763	-	2,282,763
Total	\$128,002,683	\$126,209,643	\$ -	\$254,212,326

Liabilities	Level		Level	
	1	Level 2	3	Total
Other Financial Instruments*	\$ -	\$(3,064,508)	\$ -	\$(3,064,508)
Total	\$ -	\$(3,064,508)	\$ -	\$(3,064,508)

* Other financial instruments include forward currency contracts which are reflected at the unrealized appreciation (depreciation) on the instrument.

For further information regarding security characteristics, see the Schedule of Investments.

The fair value of the Fund's credit facility, which qualifies as a financial instrument under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 "Disclosures about Fair Values of

Financial Instruments", approximates the carrying amount of \$72,000,000. As of March 31, 2016, this financial instrument is categorized as a Level 2 within the disclosure hierarchy.

Edgar Filing: Brookfield Global Listed Infrastructure Income Fund Inc. - Form N-Q

Level 2 common stocks are fair valued using a factor as a result of market movements following the close of local trading or priced at cost. During the three months ended March 31, 2016, there was a transfer from Level 2 to Level 1 of \$3,155,529, which represents a security that was previously priced using the adjusted price and currently priced using the market close price. There were no additional transfers between levels. The basis for recognizing and valuing transfers is as of the end of the period in which transfers occur.

During the three months ended March 31, 2016, the Fund did not invest in any Level 3 securities.

Forward Currency Contracts: A forward currency contract ("forward contract") is an agreement between two parties to buy or sell a currency at an agreed upon price for settlement at a future date. During the period the forward contract is in existence, changes in the value of the forward contract will fluctuate with changes in the currency exchange rates. The forward contract is marked to market daily and these changes are recorded as an unrealized gain or loss. Gain or loss on the purchase or sale of a forward contract is realized on the settlement date.

The Fund invests in forward contracts to hedge against fluctuations in the value of foreign currencies caused by changes in the prevailing currency exchange rates. The use of forward contracts involves the risk that the counterparties may be unable to meet the terms of their contracts and may be negatively impacted from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

All forward contracts were entered into with JPMorgan Chase as the counterparty during the period. As of March 31, 2016, the following forward contract was outstanding:

Settlement Date	Currency to be Delivered	U.S. \$ Value at March 31, 2016	Currency to be Received	Unrealized Depreciation
04/04/16	63,000,000 Euros	\$71,696,708	68,632,200 U.S. Dollars	\$ (3,064,508)

Credit facility: The Fund established a line of credit with BNP Paribas for investment purposes subject to the limitations of the 1940 Act for borrowings by registered investment companies. The Fund pays interest in the amount of 0.70% plus the 3-month London Interbank Offered Rate on the amount outstanding and 0.70% on the line of credit that is unused. For the three months ended March 31, 2016, the average interest rate paid on the line of credit was 1.10% of the average total line of credit amount available to the Fund.

Total line of credit amount available	\$ 120,000,000
Line of credit outstanding at March 31, 2016	72,000,000
Line of credit amount unused at March 31, 2016	48,000,000
Average balance outstanding during the period	73,978,022
Interest expense incurred on line of credit during the period	329,246

Federal Income Tax Basis: The federal income tax basis of the Fund's investments, not including foreign currency translations and forward currency contracts, at March 31, 2016 was as follows:

Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
\$ 243,512,673	\$ 32,384,496	\$ (21,684,843)	\$ 10,699,653

Item 2. Controls and Procedures.

- (a) The Registrant's principal executive officer and principal financial officer have concluded that the Registrant's Disclosure Controls and Procedures are effective, based on their evaluation of such Disclosure Controls and Procedures as of a date within 90 days of the filing of this report on Form N-Q.
- (b) As of the date of filing this Form N-Q, the Registrant's principal executive officer and principal financial officer are aware of no changes in the Registrant's internal control over financial reporting that occurred during the Registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the Registrant's internal control over financial reporting.

Item 3. Exhibits

- (a) Certifications for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act. Filed herewith.
-

SIGNATURES
