#### **Participant Accounts**

Participants direct the investment of their contributions into various investment options offered by the Plan. If a participant does not allocate their contributions, the contributions are placed in the Fidelity Managed Income Portfolio II Fund. Company contributions are allocated in Donaldson Company, Inc. stock.

The allocation of the participant's contributions to the investment funds may be changed daily. There are no restrictions on transfers among or between the various investment options for employee contributions. Each participant's account is credited with his or her contributions, including rollover distributions, and his or her share of Company contributions, and an allocation of related investment earnings thereon. Allocation of investment earnings is based on the value of the participant's account at the close of each day. Participants can transfer Company contributions out of Donaldson Company Stock to other investment funds after they have five years of service with the Company. Effective March 31, 2006 the Plan was amended to allow participants to transfer Company contributions out of Donaldson stock at any time.

#### **Vesting**

Participants are 100% vested in their accounts at all times.

#### **Payment of Benefits**

Upon termination of employment, disability or termination of the Plan, a participant or designated beneficiary will receive the vested portion of the participant's account balance in a lump-sum payment. Hardship withdrawals, as defined in the Plan document, are allowed at any time, subject to approval by the Plan.

#### **Participant Loans**

Under the Plan document, participants may borrow up to 50% of their account balance or \$50,000, whichever is less. Loans must be repaid by the participant within five years, unless the loan is used to acquire the participant's primary residence in which case the term may not exceed ten years. The loan interest is one percent over the prime lending rate on the last business day of the month preceding the month in which the loan is granted. Interest rates on outstanding loans at December 31, 2005, ranged from 5% to 10.5%. Loans mature at various dates through June 2015 and are generally paid through monthly payroll deductions.

#### **Plan Termination**

The Company has the right under the Plan agreement to amend or terminate the Plan. In the event of termination of the Plan, the assets of the Plan will be distributed to the participants in accordance with the Plan document.

## **2. Summary of Significant Accounting Policies**

The accompanying financial statements have been prepared on an accrual basis. The following is a summary of significant policies which are in conformity with accounting principles generally accepted in the United States of America and are consistently followed by the Plan

in the preparation of its financial statements.

**Valuation of Investments**

Investments in mutual funds are stated at fair value based on quoted market prices. Investments in the Donaldson Company, Inc. Common Stock Fund are valued based on the fair value of the underlying investments, primarily Donaldson Company, Inc. common stock, which is valued at quoted market prices. Participant loans are valued at estimated fair value, which consists of outstanding principal and any related accrued interest.

**Notes to Financial Statements**

**Investment Earnings**

Investment income is recorded as earned. Dividend income is recorded on the ex-dividend date. The Plan presents the net appreciation (depreciation) in the fair value of its investments in the Statement of Changes in Net Assets Available for Benefits. Net appreciation (depreciation) consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

**Contributions**

Participant contributions and Company matching contributions are recorded in the period the employer makes the payroll deductions. Employer discretionary contributions, if any, are recorded in the period which they were declared.

**Benefits Paid to Participants**

Benefits paid to participants are recorded when paid.

**Plan Expenses**

Investment management fees and administrative fees charged by the Trustee are paid by the Plan. All other expenses are paid by the Company, including legal, accounting and other services.

**Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Ultimate results could differ from those estimates.

**Risks and Uncertainties**

The Plan provides for various investment options in various combinations of investment securities. Investment securities are exposed to various risk factors including, but not limited to, interest rates, market conditions and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits in future periods.

**Concentration of Market Risk**

At December 31, 2005 and 2004, approximately 60% and 64% of the Plan's net assets were invested in the Donaldson Company, Inc. common stock fund, respectively. The underlying value of this fund is dependent on the performance of Donaldson Company, Inc. and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of Donaldson Company, Inc. common stock in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net

Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits in future periods.
