ELECTRO-SENSORS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2014
(in thousands except share and per share amounts)
(unaudited)

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions and regulations of the Securities and Exchange Commission to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

This report should be read together with the Company's Annual Report on Form 10-K for the year ended December 31, 2013, including the audited financial statements and footnotes therein.

It is the opinion of management that the unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring accruals, necessary to fairly state the financial position and results of operations as of March 31, 2014 and for the three-month period then ended in accordance with accounting principles generally accepted in the United States of America. The results of interim periods may not be indicative of results to be expected for the year.

Nature of Business

The accompanying condensed consolidated financial statements include the accounts of Electro-Sensors, Inc. and its wholly-owned subsidiaries, ESI Investment Company and Senstar Corporation. Senstar has no operations. Intercompany accounts, transactions and earnings have been eliminated in consolidation. The consolidated entity is referred to as the Company.

Electro-Sensors, Inc. manufactures and markets a complete line of speed monitoring and motor control systems for industrial machinery. The Company uses leading-edge technology to continuously improve its products and make them easier to use with the ultimate goal of manufacturing the industry-preferred product for every market served. These products are sold through an internal sales staff, manufacturer's representatives, and distributors to a wide variety of manufacturers and processors who use the products to monitor process machinery operations. The Company markets its products to a number of different industries located throughout the United States, Canada, Latin America, Europe, and Asia.

In addition, through its subsidiary ESI Investment Company, the Company periodically makes strategic investments in other businesses, primarily when the Company believes that these investments will facilitate development of technology complementary to the Company's products. Although the Company, through ESI Investment Company, invests in other businesses, the Company does not intend to become an investment company and intends to remain primarily an operating company. The Company's primary investment is 182,157 shares of Rudolph Technologies, Inc. (Rudolph), which is accounted for using the available-for-sale method. See Note 5 for additional information regarding the Company's investments. The Company's investments in securities are subject to normal market risks.

Revenue Recognition

The Company recognizes revenue from the sale of its production monitoring equipment when persuasive evidence of an arrangement exists, the product has been picked up by common carrier, the fee is fixed and determinable and collection of the resulting receivable is reasonably assured. The Company may offer discounts that are recorded at the time of sale. The Company recognizes revenue on products sold to customers and distributors upon shipment because the contracts do not include post-shipment obligations. In addition to exchanges and warranty returns, customers have refund rights. Our products are used in a wide variety of industries; returns have historically been minimal and immaterial to the consolidated financial statements and are generally recognized when the returned product is received by the Company. In some situations, the Company receives advance payments from its customers. Revenue associated with advance payments is deferred until the product is shipped.

Table of Contents

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2014
(in thousands except share and per share amounts)
(unaudited)

Available-for-Sale Securities

The Company's investments consist of equity securities, primarily common stocks and government debt securities. The estimated fair value of publicly traded equity securities is based on quoted market prices, and therefore subject to the inherent risk of market fluctuations.

Management determines the appropriate classification of securities at the date individual investments are acquired, and evaluates the appropriateness of such classification at each balance sheet date.

Since the Company generally does not make investments in anticipation of short-term fluctuations in market prices, investments in equity securities are classified as available-for-sale. Available-for-sale securities with readily determinable values are stated at fair value, and unrealized holding gains and losses, net of the related deferred tax effect, are reported as separate component of stockholders' equity.

Realized gains and losses on securities, including losses from declines in value of specific securities determined by management to be other-than-temporary, are included in the period realized. There were no other-than-temporary impairments in the three months ended March 31, 2014 and 2013.

Fair Value Measurements

The Company's policies incorporate the guidance for accounting for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis. The Company's policies also incorporate the guidance for fair value measurement related to nonfinancial items that are recognized and disclosed at fair value in the consolidated financial statements on a nonrecurring basis. The guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The carrying value of cash equivalents, treasury bills, commercial paper, money market funds, investments, trade receivables, accounts payable, and other working capital items approximate fair value at March 31, 2014 and December 31, 2013 due to the short maturity nature of these instruments.

Stock-Based Compensation

The Company uses the straight-line method to recognize compensation expense based on the fair value on the date of grant over the requisite service period related to each award. The fair value of stock options is estimated using the Black-Sholes-Merton (BSM) option pricing model, which incorporates certain assumptions, such as risk-free interest rate, expected volatility, expected dividend yield, and expected life of options.

Table of Contents

ELECTRO-SENSORS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2014
(in thousands except share and per share amounts)
(unaudited)

Income taxes

Deferred income taxes are presented as assets or liabilities based on timing differences between financial reporting and tax reporting methods. Deferred income tax assets and liabilities are computed for those differences that have future tax consequences using the currently enacted tax laws and rates that apply to the periods in which they are expected to affect taxable income. Income tax expense is the current tax payable or refundable for the period plus or minus the net change in the deferred tax assets and liabilities, excluding the portion of the deferred liability allocated to other comprehensive income. Deferred tax assets are reduced by a valuation allowance to the extent that realization of the related deferred tax asset is not assured. No valuation allowance was deemed necessary at March 31, 2014 and December 31, 2013.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates, including the underlying assumptions, consist of economic lives of property and equipment, the determination of fair value of acquired tangible and intangible assets, realizability of accounts receivable, valuation of deferred tax assets/liabilities, inventories, investments, contingent earn-out and stock compensation expense. It is at least reasonably possible that these estimates may change in the near term.

Note 2. Business Combination

On February 18, 2014, the Company acquired the Harvest Engineering, Inc. wireless hazard monitoring technology system and Insta-Link product family, together with related technology and intellectual property rights, for a total purchase price of \$1,643.

The fair value of the consideration transferred on the acquisition date consisted of the following:

Cash consideration	\$	400
Note payable issued to seller (Note 9)		771
Contingent earn-out liability		472
Total consideration	\$	1,643

The transaction was recorded as a business combination and the results of operations have been included in the consolidated statement of comprehensive income (loss) since the date of acquisition. Acquisition fees of approximately \$15 incurred in connection with the transaction were recorded in operating expenses for the three months ended March 31, 2014.

In connection with the acquisition, the Company recorded a contingent earn-out liability on the balance sheet of \$472 at March 31, 2014. This contingent liability represents the Company's fair value estimate of an earn-out, of up to \$550, issued in connection with the acquisition that is payable if specified revenue targets are met in the four calendar years following closing. In determining total consideration, the Company assessed the fair value of this contingent consideration, estimating the likelihood of meeting the revenue targets.

The following table summarizes the estimated fair values of the assets acquired at the acquisition date:

Technology	\$	1,478
Not-to-compete agreement		120
Deferred service costs		45
Total assets acquired	\$	1,643

The not-to-compete agreement will be amortized over a five-year period. The fair value of the not-to-compete agreement was estimated using a discounted cash flow model. The inputs are considered Level 3 inputs in the fair value hierarchy.

Edgar Filing: ELECTRO SENSORS INC - Form 10-Q

The Company has not presented pro forma results of operations for the current acquisition because the acquisition is not material to the Company's consolidated results of operations, financial position or cash flows.

Table of Contents

ELECTRO-SENSORS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2014
(in thousands except share and per share amounts)
(unaudited)

Note 3. Stock-Based Compensation

The Company records compensation expense for stock options based on the estimated fair value of the options on the date of grant using the BSM model. The Company uses historical data among other factors to estimate the expected price volatility, the expected option life and the expected forfeiture rate. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option. The Company calculates expected volatility for stock options and awards using historical volatility as the Company believes the expected volatility will approximate historical volatility. At March 31, 2014, the Company had one stock-based employee compensation plan. During the three-month periods ended March 31, 2014 and 2013, there were no stock options granted or exercised.

As of March 31, 2014, there was approximately \$190 of unrecognized compensation expense. The Company expects to recognize this expense over the next four years. There was no intrinsic value in the options outstanding or exercisable as of March 31, 2014 as the option exercise prices were greater than the current fair market value as of that date.

Note 4. Net Income Per Share

Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing net income by the weighted average number of common shares outstanding and common stock equivalents outstanding during the period.

Note 5. Investments

The cost and estimated fair value of the Company's investments are as follows:

	Cost	Gross unrealized gain	Gross unrealized loss	Fair value
March 31, 2014				
Money Market	\$ 1,094	\$ 0	\$ 0	\$ 1,094
Commercial Paper	345	0	0	345
Treasury Bills	5,331	2	0	5,333
Equity Securities	80	2,055	(55)	2,080
	6,850	2,057	(55)	8,852
Less Cash Equivalents	1,439	0	0	1,439
Total Investments, March 31, 2014	\$ 5,411	\$ 2,057	\$ (55)	\$ 7,413
December 31, 2013				
Money Market	\$ 540	\$ 0	\$ 0	\$ 540

	6,453	2,687	(54)	9,086
Less Cash Equivalents	1,141	0	0	1,141
Total Investments, December 31, 2013	\$ 5,312	\$ 2,687	\$ (54)	\$ 7,945

Table of Contents

ELECTRO-SENSORS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2014
(in thousands except share and per share amounts)
(unaudited)

At March 31, 2014 and December 31, 2013, the Company's significant investment in equity securities was 182,157 and 231,336 shares, respectively, of Rudolph, accounted for under the available-for-sale method. As of March 31, 2014 and December 31, 2013, the aggregate value of the Company's Rudolph shares as reported on the Nasdaq Stock Exchange was \$2,055 and \$2,716, respectively, with an approximate cost of \$24 and \$30, respectively. During the three-month periods ended March 31, 2014 and 2013, the Company sold 49,179 and 7,500 shares, respectively, of Rudolph stock and reported gains of \$547 and \$103, respectively, in other income.

Note 6. Fair Value Measurements

The following table provides information on those assets and liabilities measured at fair value on a recurring basis.

	Carrying amount in condensed consolidated balance sheet March 31, 2014	Fair Value March 31, 2014	Fair Value Measurement Using		
			Level 1	Level 2	Level 3
Assets:					
Cash and cash equivalents					
Money market funds	\$ 1,094	\$ 1,094	\$ 1,094	\$ 0	\$ 0
Commercial paper	345	345	345	0	0
Treasury bills	5,333	5,333	5,333	0	0
Available-for-sale:					
Equities:					
Small Cap Technology Sector	2,080	2,080	2,080	0	0
Liabilities:					
Contingent payable	472	472	0	0	472

	Carrying amount in condensed consolidated balance sheet December 31, 2013	Fair Value December 31, 2013	Fair Value Measurement Using		
			Level 1	Level 2	Level 3
Assets:					
Cash and cash equivalents:					
Money market funds	\$ 540	\$ 540	\$ 540	\$ 0	\$ 0
Commercial paper	601	601	601	0	0
Treasury bills	5,227	5,227	5,227	0	0
Available-for-sale:					
Equities:					
Small Cap Technology Sector	2,718	2,718	2,718	0	0

The fair value of the money market funds, commercial paper and treasury bills is based on quoted market prices in an active market. Available-for-sale securities include equity securities that are traded in an active market. Closing stock prices are readily available from active markets and are used as being representative of fair value. The Company classifies these securities as level 1. Management estimated the probability of meeting the revenue targets over the measurement period to determine the fair value of the contingent payable, which is considered a level 3 input in the fair value hierarchy.

The change in level 3 liabilities at fair value on a recurring basis is summarized as follows:

Edgar Filing: ELECTRO SENSORS INC - Form 10-Q

Balance at December 31, 2013	\$	0
Additions (Note 2)		472
Balance at March 31, 2014	\$	472

Note 10. Segment Information

The Company has two reportable operating segments: Production Monitoring and Investments. The Production Monitoring segment manufactures and markets a complete line of production monitoring equipment, in particular speed monitoring and motor control systems for industrial machinery. ESI Investment Company holds investments in marketable and non-marketable securities.

The accounting policies of the segments are the same as those described in Note 1 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. In evaluating segment performance, management focuses on sales and income before taxes. The Company has no inter-segment sales.

The following is financial information relating to the continuing operating segments:

	Three Months Ended March 31,	
	2014	2013
External sales		
Production monitoring	\$ 1,702	\$ 1,534
Total	\$ 1,702	\$ 1,534
Net income before taxes		
Production monitoring	\$ 67	\$ 84
Investments	548	105
Total	\$ 615	\$ 189

Note 11. Subsequent Events

During the second quarter of 2014, the Company sold 8,240 shares of Rudolph stock for proceeds of \$90 resulting in a gain on the sale of \$89.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****CRITICAL ACCOUNTING ESTIMATES**

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make decisions based upon estimates, assumptions, and factors it considers relevant to the circumstances. These decisions include the selection of applicable accounting principles and the use of judgment in their application, and affect reported amounts and disclosures. Changes in economic conditions or other business circumstances may affect the outcomes of management's estimates and assumptions. An in-depth description of our accounting estimates can be found in the interim financial statements included in this report and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. New estimates for the allocation of the purchase price for acquired tangible and intangible assets and the contingent earn-out have been added to the estimates discussed in our Annual Report.

The following table contains selected financial information, for the periods indicated, from our consolidated statements of comprehensive income expressed as a percentage of net sales.

	Three Months Ended March 31,	
	2014	2013
Net sales	100.0%	100.0%
Cost of goods sold	43.0	41.9
Gross profit	57.0	58.1
Operating expenses:		
Selling and marketing	22.9	25.7
General and administrative	20.6	19.4
Research and development	9.7	7.7
Total operating expenses	53.2	52.8
Operating income	3.8	5.3
Non-operating income (expense):		
Interest expense	(0.1)	0.0
Gain on sale of available-for-sale securities	32.1	6.7
Interest income	0.1	0.1
Other income	0.2	0.2
Total non-operating income	32.3	7.0
Income before income taxes	36.1	12.3
Income taxes	12.6	1.5
Net income	23.5%	10.8%

The following paragraphs discuss the Company's performance for the three months ended March 31, 2014 and 2013.

RESULTS OF OPERATIONS*Net Sales*

Net sales for the three months ended March 31, 2014 increased \$168,000, or 11.0%, when compared to the same period in 2013. The increase in sales was primarily due to broad-based strengthening of our core business in the north central U.S., as well as increasing international sales driven by a 20% gain in sales to Canada. In addition, revenue from system-level orders, which we define as orders over \$5,000, increased approximately 45% in the 2014 first quarter compared to the 2013 first quarter as customers pursued capacity increases and facility modernizations.

Table of Contents

Cost of Goods Sold

Our cost of goods sold increased \$90,000, or 14.0%, for the three months ended March 31, 2014 compared to the same period in 2013. This increase was primarily a direct result of increased sales. In addition, we had a change in the mix of products sold, with a relative decrease in the sale of higher margin products. We continue our efforts to maintain or reduce production costs by manufacturing products in the most cost-effective manner.

Gross Profit

Gross margin for the three months ended March 31, 2014 was 57.0%, versus 58.1% for the same period in 2013. The decrease in gross margin was due to a change in the mix of products sold, with a relative decrease in the sale of higher margin products.

Operating Expenses

Total operating expenses increased \$94,000, or 11.6%, for the three months ended March 31, 2014 when compared to the same period of 2013.

Selling and marketing costs decreased \$6,000, or 1.5%, for the three months ended March 31, 2014 when compared to the same period in 2013. The decrease was due to decreased wages and bonuses due to a change in compensation plans, partially offset by an increase in outside sales representative expenses resulting from increased sales.

General and administrative costs increased \$53,000, or 17.8%, for the three months ended March 31, 2014 compared to the same period in 2013. The increase in general and administrative expenses was due to legal and professional fees incurred related to the acquisition completed in February 2014, an increase in wages and compensation due to changes in compensation plans, and noncash compensation expense related to stock options granted during the 2013 third quarter.

Research and development costs increased \$47,000, or 39.8%, for the three months ended March 31, 2014 compared to the same period in 2013. The increase in research and development costs was due to an increase in wages and benefits due to changes in management responsibilities.

Non-Operating Income (Expense)

Non-operating income increased by \$442,000 for the three months ended March 31, 2014 compared to the same period for 2013. This increase was due to an increase in the gain on sale of available-for-sale securities. During the three months ended March 31, 2014 and 2013, we sold 49,179 and 7,500 shares, respectively, of Rudolph stock and recognized a gain on the sale of \$547,000 and \$103,000, respectively. The Company intends to continue to liquidate its equity securities in an orderly manner and focus on deploying these assets in its operating business.

Income Before Income Taxes

Income before income taxes was \$615,000 for the quarter ended March 31, 2014, representing an increase of \$426,000, or 225.4%, when compared to income before income taxes of \$189,000 for the quarter ended March 31, 2013.

The Production Monitoring Division had income before income taxes of \$67,000 for the three months ended March 31, 2014, compared to \$84,000 for the same period in 2013, a decrease of \$17,000, or 20.2%. The increase in operating expenses, offset by the increase in gross profit, was the main reason for the decrease in net income before income taxes.

ESI Investment Company had income before income taxes of \$548,000 for the three months ended March 31, 2014, compared to \$105,000 for the same period in 2013, an increase of \$443,000. This increase was a result of the gain on sale of available-for-sale securities in 2014 compared to 2013 (see Non-Operating Income (Expense)). The net decrease in the unrealized value of available-for-sale securities was \$391,000 for the three months ended March 31, 2014. The net decrease is due to the sale of Rudolph stock which resulted in a \$547,000 gain on the sale during the quarter ended March 31, 2014. ESI Investment Company has approximately \$2,055,000 in unrealized gain on the Rudolph investment that is reported in Other Comprehensive Income (see Note 5 Investments in the notes to the accompanying condensed consolidated financial statements).

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents were \$1,682,000 at March 31, 2014 and \$1,505,000 at December 31, 2013. The increase was mainly from operating activities.

Cash generated from operating activities was \$137,000 for the 2014 first quarter, compared to cash used in operating activities of \$240,000 in the 2013 first quarter. The \$377,000 increase in cash generated from operating activities in the 2014 first quarter compared to the 2013 first quarter was mainly due to the increase in accrued income taxes payable, partially offset by a decrease in net income adjusted for the gain on sale of available-for-sale securities and noncash stock compensation expense. The net change in accrued income taxes was due to the increase in income tax payable of \$200,000 at March 31, 2014 when compared to the prior year and a decrease in the payable of \$289,000 at March 31, 2013 when compared to the prior year. The 2014 payable increase resulted from the increase in gain on sale of available-for-sale securities when comparing 2014 to 2013. The Company paid the 2012 tax year balance due in March 2013.

Cash from investing activities was \$36,000 and \$93,000 for the three months ended March 31, 2014 and March 31, 2013, respectively. We received \$554,000 on the sale of available-for-sale securities during the 2014 first quarter compared to \$104,000 received in the 2013 first quarter. During the 2014 first quarter, the Company had a net purchase of Treasury Bills with a maturity date of more than three months of \$105,000. There were no purchases or proceeds of Treasury Bills in the three months ended March 31, 2013. In addition, the Company acquired the Harvest Engineering, Inc. wireless hazard monitoring technology and Insta-Link product family in February 2014, paying \$400,000 and financing the remaining purchase price through a seller financed note.

The Company issued a non-interest bearing note payable to Harvest Engineering, Inc. for \$800,000 which is payable in annual installments of \$400,000. In addition, the agreement includes an earn-out that is payable if specified revenue targets are met over the four calendar years following closing. The maximum amount of the earn-out is \$550,000. The estimated fair value of the earn-out is \$472,000 as of March 31, 2014.

Cash generated from financing activities was \$4,000 compared to cash used in financing activities of \$130,000 for the respective 2014 and 2013 first quarters. During the 2013 first quarter, we paid dividends of \$136,000. We did not pay any dividends during the 2014 first quarter. In February 2014, the board formally suspended the dividend to give the Company flexibility to pursue opportunities for growth. During the 2014 and 2013 first quarters, we had \$4,000 and \$6,000, respectively, in stock purchases under the Employee Stock Purchase Plan.

Our ongoing cash requirements will be primarily for capital expenditures, note payable, research and development, and working capital. Management believes that cash on hand and any cash from operations will be sufficient to meet our cash requirements through at least the next 12 months.

Our primary investment is 182,157 shares of Rudolph Technologies, Inc., listed on the Nasdaq Stock Exchange, accounted for using the available-for-sale method. The investment is subject to fluctuations in market price and could have a negative effect on our liquidity.

Off-balance Sheet Arrangements

As of March 31, 2014, the Company had no off-balance sheet arrangements or transactions.

February 2014 Acquisition and Future Business Development Activities

During the 2014 first quarter, the Company acquired the Harvest Engineering, Inc. wireless hazard monitoring technology system and Insta-Link product family, together with related technology and intellectual property rights, for a total purchase price of \$1,643,000. The Company will manufacture and service this new hazard monitoring product line at its Minnetonka, Minnesota facility and market and sell the products under its new HazardPRO™ product line.

The Company continues to seek growth opportunities, both internally through the Company's existing portfolio of products, technologies and markets, as well as externally through technology partnerships or related-product acquisitions. Although the Company is continuing to explore these external opportunities, it currently has no agreements or understandings with any third parties.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, beliefs, intentions or strategies regarding the future. Forward-looking statements include, but are not limited to, statements relating to our marketing efforts or our efforts to accelerate growth; our business development activities; our efforts to maintain or reduce production costs; management's intention that we not become an investment company; our expected use of cash on hand; our cash requirements; and the sufficiency of our cash flows. Any statement that is not based solely upon historical facts, including strategies for the future and the outcome of events that have not yet occurred, is considered a forward-looking statement.

All forward-looking statements in this document are based on information available to us as of the date hereof, and we assume no obligation to update any such forward-looking statements, other than as required by law. It is important to note that our actual results could differ materially from those in such forward-looking statements. The forward-looking statements we make in this Quarterly Report are subject to certain risks and uncertainties that could cause future results to differ materially from our recent results or those projected in the forward-looking statements, including the accuracy of management's assumptions with respect to industry trends, fluctuations in industry conditions, the accuracy of management's assumptions regarding expenses and our cash needs and those listed under the heading "Cautionary Statements" under "Item 1 Business," in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not Applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of the Company's management, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act") were effective as of March 31, 2014 to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the first quarter of 2014, which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
