Veolia Environnement completes its efforts to concentrate on its strategic activities and continues to strengthen its f

Veolia Environnement has signed a definitive agreement for the sale of its stake in B 1998 S.L., the holding company that owns 52.5% of FCC

Paris, July 29th, 2004. Veolia Environnement (Euronext: VIE and NYSE: VE), announces that it has entered, on July 28th 2004, into a definitive agreement to sell its 49% stake in B 1998 S.L., the holding company which owns 52.5% of Fomento de Construcciones y Contratas (FCC), to a company controlled by Mrs. Esther Koplowitz. The transaction will reduce Veolia Environnement's net indebtedness by 1.1 bn, and will result in a total cash payment to Veolia Environnement of 916 million (before transaction fees), including an exceptional dividend to be paid by B 1998 to Veolia Environnement prior to the sale.

FCC would like to remain a highly diversified group, while we are completing our effort to concentrate on our environmental services business, said Henri Proglio, Chairman and Chief Executive Officer of Veolia Environnement. Because our development strategies are not completely aligned, I have decided, together with our Board of Directors, to pursue the best possible option: the sale of our stake on highly satisfactory terms, in the best interest of our shareholders. We will still continue to be interested in the Spanish environmental services market, which remains robust.

The transaction, which is expected to be completed by the end of the third quarter of 2004, is subject to applicable Spanish anti-trust regulatory approvals.

FCC, a publicly-listed company on the Madrid Stock Exchange since 1900, is one of Spain's most important construction companies, with over 61,300 employees and 6,051 million of consolidated revenues in 2003. Approximately 48% of FCC's 2003 revenues were realized in its construction business, 28% in services, 14% in cement and 10% in other activities.

For Veolia Environnement, the transaction reflects its strategy to concentrate on its core environmental services activities. It will also allow Veolia Environnement to strengthen its financial condition. At the same time, FCC will be able to pursue its development in its three main activities: construction, cement and services.

Veolia Environnement currently accounts for its 49% interest in FCC under the proportional consolidation method. Veolia Environnement's interest in FCC contributed 2,965 million to its consolidated revenues in 2003, and 275 million to its consolidated EBIT. (EBIT corresponds to operating income as defined under Regulation 99-02 of the CRC, the French accounting regulations authority).

Taking into account the debt of B 1998 and the proportional consolidation of FCC in Veolia Environnement's consolidated accounts, this transaction will result in a 1.1bn decrease in Veolia Environnement's net indebtedness. The sale terms implicitly value FCC within B 1998 at approximately 30 per FCC share.

Veolia Environnement acquired its stake in FCC from Vivendi in 2000 for a total consideration of 691 million. The book value of FCC in Veolia Environnement's consolidated accounts is 810 million as of December 31, 2003.
