Exhibit 99.1

On April 20, 2006, United Bancshares, Inc. issued the following release:

United Bancshares, Inc. (Nasdaq: UBOH news), a bank holding company headquartered in Columbus Grove, Ohio with consolidated assets of \$537 million, today announced first quarter 2006 operating results and that the Board of Directors declared a dividend of \$0.13 per share to shareholders of record on May 31, 2006, payable on June 15, 2006.

For the quarter ended March 31, 2006, the Corporation reported net income of \$1,181,000, or \$0.33 basic earnings per share. This compares to first quarter 2005 net earnings of \$1,083,000, or \$0.29 basic earnings per share. Compared with the same period in 2005, first quarter 2006 net income increased \$98,000 or 9.1%. The \$98,000 increase was primarily the result of an \$89,000 increase in the Corporation's non-interest income and decreases of \$50,000 in the provision for loan losses and \$51,000 in the provision for income taxes, offset by a decrease of \$58,000 in net interest income and an increase of \$34,000 in non-interest expenses.

Net interest income was \$4,387,000 for the first quarter of 2006, compared to \$4,445,000 for the same period of 2005. For the three months ended March 31, 2006, the net interest margin (on a taxable equivalent basis) was 3.70% compared with 3.57% for the same period of 2005. Management believes that this increase was primarily the result of its interest rate pricing strategies. Despite the increase in net interest margin, the Corporation's net interest income decreased as a result of a decrease in earning assets for the three month period ended March 31, 2006 compared to the same period in 2005.

A \$100,000 provision for loan losses was made for the first quarter of 2006, compared to a \$150,000 provision for the same period in 2005. Other non-interest income increased \$161,000 (30.3%) to \$693,000 largely due to an increase in bank owned life insurance of \$109,000 for the quarter ended March 31, 2006, compared to \$14,000 in 2005 (\$95,000 increase) and a \$65,000 gain on sale of an OREO property.

For the quarter ended March 31, 2006, non-interest expenses totaled \$3,555,000, compared to \$3,521,000 for the comparable period of 2005, a \$34,000 increase (1.0%). Management believes that the \$34,000 increase is acceptable considering the increases in costs of conducting business. In addition, the first quarter operating results included a \$7,000 adjustment to the provision for stock options based on the Corporation's closing stock price as of March 31, 2006. The Corporation's efficiency ratio for the first quarter of 2006 was 66.17%, compared to 66.12% for the same period of 2005. The provision for income taxes for the quarter ended March 31, 2006 was \$303,000, or 20.4% of income before income taxes, compared to \$354,000, or 24.6%, for the comparable 2005 period. The decrease in the effective tax rate was due to tax-exempt interest income comprising a larger portion of pre-tax income for the 2006 period, as well as other tax planning initiatives which reduced the Corporation's tax liability.

Return on average assets was 0.88% for the first quarter of 2006, compared to 0.78% for the comparable quarter of 2005. The increase in return on average assets was due to a combination of an increase in net income and a reduction in the asset base. Return on average equity for the first quarter of 2006 was 10.81% compared to 9.88% for the same period of 2005. This increase was a combination of increased net income coupled with a decrease in the Corporation's average equity as the result of an increase in the unrealized losses for the investment securities portfolio as of March 31, 2006 and the Corporation's repurchasing of 24,350 common shares during the first quarter of 2006, through a publicly announced repurchase program.

Loans at March 31, 2006, net of the allowance for loan losses, increased \$4.2 million (1.4%) from December 31, 2005. Securities available-for-sale decreased \$1.6 million (0.9%) during this three-month period. Deposits during this same period decreased \$57,000. Other borrowings increased \$2.6 million (2.2%) during the three-month period.

Shareholders' equity decreased from \$43.8 million at December 31, 2005 to \$43.6 million at March 31, 2006. This decrease was primarily the result of a \$545,000, net of tax, increase in unrealized losses on securities, the repurchase of 24,350 common shares (\$381,000) and the payment of dividends (\$469,000), offset by net income (\$1.2 million) and the sale of 4,086 treasury shares (\$55,000) under the Corporation's Employee Stock Purchase Plan.

Quarterly Report

March 31, 2006

Dear Shareholders, Customers and Employees,

The management of United is pleased to report that the Company's net income for the first quarter of 2006 was \$1,181,000 (\$0.33 per share) compared to \$1,083,000 (\$0.29 per share) for the same period of 2005, a 9.1% increase. Return on average equity for the first quarter of 2006 was 10.81% compared to 9.88% for the same period in 2005. Return on average assets for the first quarter of 2006 also improved to 0.88% from 0.78% in the first quarter of 2005.

Through the efforts of the Company's dedicated team members, we have been able to increase non-interest income, grow a quality loan portfolio, improve net interest margin and control non-interest expenses in comparison to the same quarter in 2005.

Although management is pleased with the first quarter results, we realize that the financial industry as a whole is currently facing challenges. These challenges include a flattened yield curve, which negatively affects a bank's ability to improve or even maintain current net interest margins. We will continue to closely monitor and take actions to mitigate these industry challenges. Regardless of the operating environment, you can be assured that we will continue to focus on returning value to you the shareholder and our customers.

Respectfully,

Daniel W. Schutt
