UNITED ENERGY CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2002

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments necessary for a fair presentation of the Company's financial position at September 30, 2002 (unaudited) and the results of its operations for the three months and six months ended September 30, 2002 (unaudited) and 2001 (unaudited) and cash flows for the six months ended September 30, 2002 and 2001. All such adjustments are of a normal and recurring nature. Interim financial statements are prepared on a basis consistent with the Company's annual financial statements. Results of operations for the three months and six months ended September 30, 2002 are not necessarily indicative of the operating results that may be expected for the year ending March 31, 2003.

The consolidated balance sheet as of March 31, 2002 has been derived from the audited financial statements at that date but does not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements.

Certain reclassifications have been made to the results of operations for the three months and six months September 30, 2001 to conform to the current year presentation.

For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K, as amended.

2. STOCK OPTION PLAN

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

In August 2001, the Company's stockholders approved the 2001 Equity Incentive Plan (the "2001 Plan"), which provides for the grant of stock options to purchase up to 2,000,000 shares of common stock to any employee, non-employee director, or consultant at the Board's discretion. Under the 2001 Plan, these options may be exercised for a period up to ten years from the date of grant. Options issued to employees are exercisable upon vesting, which can range between the date of the grant to up to 5 years.

An amendment and restatement of the 2001 Plan increasing the total number of shares available under the 2001 Plan to 4,000,000 was approved by the Board of Directors on May 29, 2002 and by the Company's stockholders at the annual meeting on November 6, 2002.

Under the 2001 Plan, options are granted to non-employee directors upon their election at the annual meeting of stockholders. The options are granted at a purchase price equal to the fair market value on the date of grant. In addition, the non-employee director stock options shall be exercisable in full twelve months after the date of grant unless determined otherwise by the compensation committee.

There were 662,500 options available for future grant at September 30, 2002. The Company issues options and warrants from time to time outside the plan described above. During the period ended September 30, 2002, the Company has issued 3,750,000 warrants outside of the 2001 Plan to purchase common stock in connection with the private placement (see note 7). Additionally, during the period ended September 30, 2002 the Company has granted 1,325,000 options to employees and vendors outside the 2001 Plan with exercise prices from \$1.15 to \$2.05 and vesting periods of immediately to three years or when the Company reaches specific financial milestones.

7

3. EXCLUSIVE DISTRIBUTION AGREEMENT

On September 22, 2000, the Company and Alameda Company ("Alameda") entered into an exclusive distribution agreement (the "Alameda Agreement"), whereby Alameda will purchase from the Company various products from the graphics arts division (meeting certain minimum purchase requirements and at guaranteed fixed prices as defined in the Alameda Agreement) through December 31, 2002, and distribute these products exclusively throughout the USA, Canada, Puerto Rico, Mexico, Central America, South America and the Caribbean. Due to a severe decline of publishing industry advertising pages, Alameda was unable to meet the 2001 quota and the exclusivity portion of the agreement has been terminated. Alameda will continue to market UNIPROOF(R) on a non-exclusive basis.

4. CREDIT LINE AGREEMENT

At March 31, 2002 the Company had \$150,000 outstanding under a \$1.0 million revolving line of credit from Fleet Bank N.A. Borrowings under the line accrued interest at a rate equal to 2% plus the bank's prime rate. Amounts outstanding under the line of credit were subject to repayment on demand at any time and for any reason and were secured by accounts receivable, inventory, furniture and fixtures, machinery and equipment and a pledge of 750,000 shares of the Company's common stock, which had been placed in escrow. The line was also secured by the personal guarantee of a stockholder of the Company. In May 2002, the Company repaid the remaining balance of the line of credit and the line of credit was terminated. The 750,000 shares of collateral have been returned to

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

the Company.

5. SEGMENT INFORMATION

Under the provision of SFAS No. 131 the Company's activities fall within two operating segments: Graphic Arts and Specialty Chemicals. The following tables set forth the Company's industry segment information for the three months and six months ended September 30, 2002 and 2001:

The Company's total revenues, net income (loss) and identifiable assets by segment as of September 30, 2002 and for the three month period ended September 30, 2002, are as follows:

	=====	=====	=====	=====

6. NEW ACCOUNTING PRONOUNCEMENTS

In July 2001, the FASB issued SFAS No. 141 "Business Combinations" and SFAS No. 142 "Goodwill and Other Intangible Assets." SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets that are not deemed to have indefinite lives will continue to be amortized over their useful lives (but with no maximum life). The amortization provisions of SFAS No. 142 apply to goodwill and intangible assets acquired after June 30, 2001. With respect to goodwill and intangible assets acquired prior to July 1, 2001, the Company is required to adopt SFAS No. 142 effective April 1, 2002. Effective April 1, 2002, the Company adopted the provisions of SFAS No. 142 which had no material effect on its results of operations and financial position.

In October 2001, the FASB issued Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets ("SFAS 144"), which is effective for fiscal years beginning after December 15, 2001. SFAS 144 supersedes certain provisions of Accounting Principles Board (APB) Opinion No. 30, Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions and supersedes SFAS 121. Effective April 1, 2002 the Company has adopted of SFAS 144 which had no material effect on our consolidated financial position or results of operations.

In June 2002, the Financial Accounting Standards Board issued SFAS No. 146, Accounting for Exit or Disposal Activities. SFAS No. 146 requires that the liability for costs associated with an exit or disposal activity be recognized at their fair values when the liabilities are incurred. Under previous guidance, liabilities for certain exit costs were recognized at the date that management committed to an exit plan, which is generally before the actual liabilities are incurred. As SFAS No. 146 is effective only for exit or disposal activities initiated after December 31, 2002, the Company does not currently expect the adoption of this statement to have a material impact on its financial statements.

7. PRIVATE PLACEMENT AND OTHER FINANCING

On May 14, 2002, the Company issued, in a private placement, an aggregate of 6,000,000 shares of its common stock at an aggregate price of \$6,000,000. In connection with the common stock issuance, the Company issued warrants to purchase 3,000,000 shares of the Company's common stock at an exercise price of \$2 per share exercisable for a five-year period. The Company incurred \$484,200 in issuance expenses in connection with the financing of which \$132,197 is payable to a related party. In addition, the Company issued 750,000 additional warrants to purchase 750,000 of Company's common stock at an exercise price of \$0.60 per share with a five year

term to a placement agent. Such warrants are not exercisable during the first two years from the grant date for relinquishing rights of immediate exercise of 500,000 warrants issued in connection with the private placement.

The Company intends to use the proceeds of the offering for office equipment, leasehold improvements, working capital and to finance the marketing of its products.

8. NEW MANAGEMENT TEAM

In conjunction with the completion of the new private financing transaction, the Company began the process of identifying and making employment offers to a new management team to focus on the sales and marketing of KH-30(R) and other products. Four of the new members of the management team have accepted employment beginning in May 2002. Each of these executives has employment agreements with terms from one to three years. These agreements provide, among other things, for annual base salaries and bonuses totaling \$728,000, \$635,000, \$324,000 and \$28,000 in fiscal 2003, 2004, 2005 and 2006.

In the 4th quarter of fiscal year 2002, Senior Executives started to be compensated by salary and options and therefore the accrual of contributed services were discontinued.

9. COMMITMENTS AND CONTINGENCIES

LITIGATION

The Company, in its normal course of business, is subject to certain litigation. In the opinion of the Company's management, settlements of litigation will not have a material adverse effect on the Company's results of operations, financial position or cash flows.

10. SUBSEQUENT EVENTS

On October 29, 2002, an accident occurred at an oil well site near Odessa, Texas, where the Company's equipment and products were being used by another service company in the treatment of an oil well. In the accident, a Company employee was killed and several employees of another oil field service company were injured. The Company has received notification from OSHA that they are conducting an investigation regarding the circumstances of the accident. At this time no lawsuits are pending or threatened in this matter. Accordingly, the Company has not included any provision for this incident in its financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

United Energy considers its primary focus to be the development, manufacture and sale of environmentally friendly specialty chemical products. The Company considers its leading product in terms of future earnings potential to be its KH-30(R) multifunctional dispersant used as an oil and gas well, pipeline, and storage tank cleaner.

KH-30(R) is an environmentally friendly, non-petroleum based product that is biodegradable. When applied in accordance with United Energy's recommended

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

procedures KH-30(R) has resulted in substantial production increases of between two and five times in paraffin and asphaltene-affected oil and gas wells. In addition, KH-30(R) has proven effective as a "downstream application" which result in cleaner flow lines and holding tanks. KH-30(R) has also been tested to be refinery compatible in that it contains no materials that are harmful to the refining process. This product has yet to achieve any significant market penetration.

On October 9th, 2002, the Company announced the filing of a comprehensive patent for its new S2 System. The S2 System employs new technology to maintain the flow of oil and gas throughout all phases of the production, transportation, refinery and storage process in the oil and gas industry. The S2 System is a light-weight, compact, mobile device which can economically generate high volumes of steam at controllable pressures and temperatures using non-petroleum based fuel. In conjunction with the injection of KH-30(R), the S2 System will be used to melt paraffin and asphaltene deposits, and inhibits the formation of new blockages, maintaining peak performance of equipment for an extended time period.

One of United Energy's graphic arts products is a photo-sensitive coating that is applied to paper to produce what is known in the printing industry as proofing paper or "blue line" paper. The Company developed this formulation over several years of testing. The Company's patent attorneys have informed the Company that the formulation is technically within the public domain as being within the scope of an expired DuPont patent. However, the exact formulation utilized by the Company has not been able to be duplicated by others and is protected by the Company as a trade secret. The product is marketed under the trade name UNIPROOF(R). Most

11

recently UNIPROOF(R) has been made in a thinner configuration so it can now be used by book publishers as well as other printers.

The Company's business plan is to use UNIPROOF(R) proofing paper sales to provide the cash flow to support world wide marketing efforts for its KH-30(R) and, to a lesser extent, the other specialty chemical products developed by the Company. The company has an arrangement with the Alameda Company of Anaheim, California to distribute UNIPROOF(R) proofing paper on a non-exclusive basis. The Company seeks additional vendors to which we will sell the UNIPROOF(R) product.

FR-15 is an environmentally friendly fire-retardant agent developed by United Energy Corp. FR-15 begins as a concentrate which can be mixed with varying amounts of water, depending on the anticipated use. The FR-15 mixture resists re-ignition once a fire has been extinguished. The FR-15 product has been fully developed and tested by several municipal fire departments. FR-15 is currently being tested by Underwriters Laboratories ("UL"). We anticipate that sales of FR-15 will commence when the product receives UL certification.

Slick Barrier is an underwater protective coating formally named "Bye Bye Barnacles." Slick Barrier is an environmentally friendly and biodegradable product with characteristics that the Company believes to be particularly appealing in both fresh and saltwater environments to resist barnacles and algae growth on boat hulls. During fiscal year 2002 the Company reformulated the product with improved coating and durability characteristics and to comply with EPA regulations. The product is currently undergoing testing. A patent application on this product is in process. We are applying for trademark

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

protection both nationally and internationally for our "Slick Barrier" product. We hope to conclude our testing of the products during our second fiscal quarter of 2003, and we have begun discussions with leading foreign distributors of marine products.

Subsequent to the issuance of its March 31, 2001 financial statements, the Company revised its financial statements to reflect the value of contributed executive services and for other adjustments.

RESULTS OF OPERATIONS THREE MONTHS ENDED SEPTEMBER 30, 2002 AND 2001

Revenues. Revenues for the quarter ended September 30, 2002 were \$625,612, a \$533,017, or 576% increase from revenues of \$92,595 in the comparable quarter of 2001. The increase in revenues was primarily due to increased sales of UNIPROOF(R) proofing paper after a substantial decline in sales during the comparable quarter in 2001. Specialty Chemicals, which includes sales of our KH-30(R) products and Green Globe/Qualchem military sales, declined to \$83,093 or 7.3% compared to \$89,631 in the comparable quarter last year. Sales of KH-30(R) were up slightly as the company began its marketing efforts while sales of Green Globe/Qualchem military sales declined slightly due to a lower level of government orders.

Cost of Goods Sold. Cost of goods sold increased 1209% to \$320,498 or 51% of sales, for the three months ended September 30, 2002 from \$24,490 or 26% of sales, for the three months ended September 30, 2001. The increase in cost of goods sold was primarily due to the change in the mix of products sold reflecting margins on UNIPROOF(R) paper sales compared to the prior year and increased costs related to providing promotional samples of KH-30(R) to customers during the quarter.

Gross Profit. Gross profit for the three months ended September 30, 2002 was 49% or \$305,114, a \$237,009 or 348% increase from 74% or \$68,105 in the corresponding period of fiscal 2001. The increase in gross margin and the decrease in the gross margin percent reflects the higher level on UNIPROOF(R) paper sales, the lower level of Green Globe/Qualchem military sales and the cost of providing promotional samples of KH-30(R).

OPERATING COSTS AND EXPENSES

General and Administrative Expenses. General and administrative expenses increased \$671,301 or 173% to \$1,058,976, or 169% of revenues for the three months ended September 30, 2002 from \$387,675, or 419% of

12

revenues for the three months ended September 30, 2001. The increase in general and administrative expenses is primarily related to the salaries and benefits of the new staff added beginning in May 2002, non-recurring marketing expenses related to developing promotional brochures, logos and product branding, design and implementation costs of a new company web site, certain legal and accounting services, S2 System and KH-30(R) customer trials on wells and storage tanks, and increased level of travel related to meetings with potential customers.

Executive Services Contributed by Management. During the quarter ended

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

September 30, 2001 Senior Executives of the Company contributed \$62,500 of services which were recorded as an expense. In the 4th Quarter of fiscal year 2002, Senior Executives started to be compensated by salary and options and therefore the accrual of contributed services was discontinued.

Depreciation and Amortization. Depreciation and Amortization increased to \$23,245 from \$4,579 reflecting additions to fixed assets for laboratory analytical equipment, manufacture of additional S2 System equipment, and capitalized legal costs related to patent filings for our S2 System and KH-30(R) products.

Interest Expense, Net of Interest Income. The Company had net interest income of \$19,056 for the three months ended September 30, 2002 compared with net interest expense of \$1,222 in the corresponding period in 2001. The increase was due primarily to the investment earnings on the remaining funds raised from the private placement on May 14, 2002.

Net Loss. The three months ended September 30, 2002 resulted in net loss of \$(758,051) or \$(0.03) per share as compared to a net loss of \$(387,871) or \$(0.02) per share for the three months ended September 30, 2001. The increase in the loss in the quarter ended September 30, 2002 is the result of higher level of general and administrative expenses offset by higher sales level. The average number of shares used in calculating earnings per share increased to 22,180,270 shares from 16,080,270 primarily as a result of 6,000,000 shares issued in the private placement on May 14, 2002.

RESULTS OF OPERATIONS SIX MONTHS ENDED SEPTEMBER 30, 2002 AND 2001

Revenues. Revenues for the six month period ended September 30, 2002 were \$1,364,609 a \$682,322, or 100% increase from revenues of \$682,287 in the comparable six month period ended September 30, 2001. The increase in revenues was primarily due to increased sales of UNIPROOF(R) proofing paper compared with the six month period ended September 30, 2001. During 2001 there was a substantial decline in sales of UNIPROOF(R) during the second fiscal quarter due to lower level in orders from the Company's primary customer. For the six month period ended September 30, 2002 Specialty Chemical sales, which includes sales of our KH-30(R) products and Green Globe/Qualchem military sales increased 130% to \$374,687 from \$162,765 in the prior six month period ended September 30, 2001 reflecting a higher level of orders of both product families.

Cost of Goods Sold. Cost of goods sold increased 135% to \$853,120 or 63% of sales, for the six month period ended September 30, 2002 from \$362,517 or 53% of sales, for the six month period ended September 30, 2001. The increase in cost of goods sold was primarily due to the volume and change in the mix of products sold reflecting margins on UNIPROOF(R) paper sales compared to the prior year and increased costs related to providing samples of KH-30(R) to prospective customers during 2002.

Gross Profit. Gross profit for the six month period ended September 30, 2002 was 37% or \$511,489, a \$191,719 or 60% increase from a 47% margin or \$319,770 in the corresponding period of fiscal 2001. The increase in gross margin and the decrease in the gross margin percent reflects the higher level on UNIPROOF(R) paper sales, the higher volume but average lower margin level of Green Globe/Qualchem military and KH-30(R) sales and the cost of providing promotional samples of KH-30(R) to prospective customers.

OPERATING COSTS AND EXPENSES

General and Administrative Expenses. General and administrative expenses increased 159% to \$1,487,172, or 109% of revenues for the six month period ended September 30, 2002 from \$574,228, or 84% of revenues for the

six month period ended September 30, 2001. The increase in general and administrative expenses is primarily related to the salaries and benefits of the new staff added beginning in May 2002, non-recurring marketing expenses related to developing promotional brochures, logos and product branding, design and implementation costs of a new company web site, certain legal and accounting services, and increased level of travel related to meeting with potential customers, S2 System and KH-30(R) customer trials on wells and storage tanks.

Executive Services Contributed by Management. During the six month period ended September 30, 2001 Senior Executives of the Company contributed \$125,000 of services which were recorded as an expense. In the 4th Quarter of fiscal year 2002, Senior Executives started to be compensated by salary and options and therefore the accrual of contributed services was discontinued.

Depreciation and Amortization. Depreciation and Amortization increased to \$33,037 from \$8,713 reflecting additions to fixed assets for laboratory analytical equipment, manufacture of additional S2 System equipment, and capitalized legal costs related to patent filings for our S2 System and KH-30(R) products.

Interest Expense, Net of Interest Income. The Company had net interest income of \$34,956 for the six month period ended September 30, 2002 compared with net interest expense of \$2,009 in the corresponding period in 2001. The increase was due primarily to the investment earnings on the remaining funds raised from the private placement on May 14, 2002 and the repayment and termination of the line of credit in May 2002.

Net Loss. The six month period ended September 30, 2002 resulted in net loss of \$(973,764) or \$(0.05) per share as compared to a net loss of \$(390,180) or \$(0.02) per share for the comparable period ended September 30, 2001. The increase in the loss in the quarter ended September 30, 2002 is the result of higher level of general and administrative expenses offset by higher sales levels. The average number of shares used in calculating earnings per share increased to 20,737,647 shares from 15,961,418 primarily as a result of 6,000,000 shares issued in the private placement on May 14, 2002.

LIQUIDITY AND CAPITAL RESOURCES.

As of September 30, 2002 the Company had \$4,034,490 in cash and cash equivalents, accounts receivable of \$548,970, inventory of \$269,738, loans receivable of \$12,333 and prepaid expenses of \$89,822 for a total of \$4,955,353 of current assets. As of March 31, 2002, the Company had \$198,412 in cash, accounts receivable of \$218,104, inventories of \$287,857 and prepaid expenses of \$117,127 for a total of \$821,500 of current assets. The increase in current assets was primarily from the net proceeds from the private placement completed in May 2002.

Accounts receivable increased to \$548,970 at September 30, 2002 from \$218,104 at March 31, 2002 reflecting increased sales and extended payment terms to new customers as incentives. The allowance for doubtful accounts was increased to \$23,860 at September 30, 2002 from \$4,795 at March 31, 2002 reflecting the risk of collection on certain accounts.

Inventories at September 30, 2002 were \$269,738 compared with \$287,857 at March 31, 2001, a decrease of \$18,119. The slightly lower inventory levels are

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

indicative of faster production cycles reflecting finished UNIPROOF(R) paper awaiting delivery to customers and production of finished KH-30(R) to meet customer orders. In most cases UNIPROOF(R) and Green Globe/Qualchem products are shipped as soon as produced. During the quarter ended March 31, 2002 the Company also wrote-down \$65,180 of defective UNIPROOF(R) inventory.

Property and Equipment increased to \$304,354 from \$16,883 reflecting \$314,221 in acquisitions for laboratory analytical equipment, manufacture of several S2 System units for customer demonstration and production trials, computer and network equipment for internal infrastructure and leasehold improvements to house new staff.

Patents increased to \$186,179 at September 30, 2002 from \$128,908 at March 31, 2002 reflecting expenditures of \$63,558 consisting of legal expenses in support of patent applications for our KH-30(R) and S2 System products.

14

Accounts payable and accrued expenses increased by \$84,946 to \$696,671 at September 30, 2002 from \$611,725 at March 31, 2002. The increase in accounts payable and accrued expenses reflects the new business activities of the company in its efforts to promote sales, develop marketing materials and to build out its internal infrastructure. During the first six months the Company used part of the proceeds of the private placement to pay down overdue balances in accounts payable. Additionally, the Company accrued certain legal and other expenses primarily associated with the private placement and owed to related parties in the amount of \$244,141 as of September 30, 2002 as compared with \$141,487 at March 31, 2002.

Net Cash Used in Operating Activities. Net cash used in operating activities increased by \$969,960 to \$1,039,610 in the six months ended September 30, 2002 compared \$69,650 for the six month period ended September 30, 2001. The increase in net cash used in operations resulted primarily from an increase in the operating loss of \$583,584 to \$973,764 for the six month ended September 30, 2002 compared with \$390,180 for the comparable period in 2001, a use of cash resulting from an increase in accounts receivables due to additional sales and extended payment terms of \$330,866 during the six month period ended September 30 2002 compared with a source of cash of \$502,496 in the comparable period in the prior year.

Cash Flows from Investing Activities. The Company expended \$314,221 for non-recurring capital expenditures primarily for laboratory analytical equipment, manufacture of several S2 System units for customer demonstration and production trials, computer and network equipment for internal infrastructure and leasehold improvements to house new staff. Additionally, the Company incurred \$63,558 for the cost of patent applications and \$112,333 of loans extended to employees during the six months ended September 30, 2002. The Company has no material commitments for future capital expenditures.

Cash Provided by Financing Activities. Net cash provided by financing activities increased to \$5,365,800 during the six month period ended September 30, 2002 reflecting the net proceeds from the Private Placement offset by the repayment of the \$150,000 balance of the line of credit in May, 2002 compared with \$100,000 proceeds from a draw down against the line of credit during the comparable period ended September 30, 2001.

At March 31, 2002, the Company had \$150,000 outstanding under a \$1.0 million revolving line of credit from Fleet Bank, N.A. Borrowings under the line

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

accrued interest at a rate equal 2% plus the bank's prime rate. Amounts outstanding under the line of credit were subject to repayment on demand at any time and for any reason and were secured by accounts receivable, inventory, furniture and fixtures, machinery and equipment, and a pledge of 750,000 shares of the Company's common stock which had been placed in escrow. The line was also secured by the personal guarantee of a stockholder of the Company. In May 2002, the Company repaid the remaining balance of the line of credit and the line of credit was terminated. The 750,000 shares of collateral have been returned to the Company.

Although the Company had significant cash outflows during the quarter, much of these expenditures are non-recurring and were required to ramp up its sales and marketing efforts. United Energy believes that its existing cash will be sufficient to enable it to meet its future working capital needs for at least the next eighteen months. The Company is focusing its efforts on improving the existing products, completing testing on products, protecting the intellectual property of the Company through perfecting certain patents and trademarks and to extensively market the existing products. During May and June 2002, the Company has hired and contracted several new executives and employees with extensive experience in marketing and sales with the objective of boosting sales of the Company's KH-30(R), UNIPROOF(R) and Qualchem products.

SUBSEQUENT EVENTS

On October 29, 2002, an accident occurred at an oil well site near Odessa, Texas, where the Company's equipment and products were being used by another service company in the treatment of an oil well. In the accident, a Company employee was killed and several employees of another oil field service company were injured. The Company has received notification from OSHA that they are conducting an investigation regarding the circumstances of the accident. At this time no lawsuits are pending or threatened in this matter. Accordingly, the Company has not included any provision for this incident in its financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

United Energy does not expect its operating results, cash flows, or credit available to be affected to any significant degree by a sudden change in market interest rates. Furthermore, the Company does not engage in any transactions involving financial instruments or in hedging transactions with respect to its operations.

ITEM 4. CONTROLS AND PROCEDURES

Our CEO and CFO evaluated the effectiveness of the Company's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d- 14(c)) as of a date (the "Evaluation Date")

15

within 90 days before the filing date of this quarterly report, have concluded that as of the Evaluation Date, the disclosure controls and procedures were adequate and designed to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them.

There were no significant changes in the Company's internal controls or, to our knowledge, in other factors that could significantly affect the disclosure

Edgar Filing: UNITED ENERGY CORP /NV/ - Form 10-Q

controls and procedures subsequent to the Evaluation Date.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In the opinion of management, there are no material legal proceedings in process against the Company and none are threatened.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the Company's security holders during the quarter ended September 30, 2002.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits.

- 99.1 Written Statement of the Chief Executive Officer Pursuant to 18 U.S.C. ss.1350 Sec. 906
- 99.2 Written Statement of the Chief Financial Officer Pursuant to 18 U.S.C. ss.1350 Sec. 906
- 99.3 Written Statement of the Chief Executive Officer Pursuant to 18 U.S.C. ss.1350 Sec. 302
- 99.4 Written Statement of the Chief Financial Officer Pursuant to 18 U.S.C. ss.1350 Sec. 302

(b) Reports on Form 8-K. None.
