Breakaway Solutions Reports Preliminary Fourth Quarter Revenue and Full-Year 2000 Results

#1 Global Full Service Provider Reports Pro Forma Annual Revenue Increase of 179% from Previous Year

MAYNARD, Mass., Feb. 28/PRNewswire/ -- Breakaway Solutions, Inc. (Nasdaq: BWAY - news), the #1 Full Service Provider (FSP) of integrated strategy, implementation, and application hosting solutions for Global 3000 collaborative e-businesses, today reported its preliminary financial results for the fourth quarter 2000 and preliminary full-year results for the year which ended on December 31, 2000. The Company's audit of the financial statements for fiscal year 2000 is not yet final with regard to the value of its intangible assets and the determination of other one-time changes, and therefore changes to reported results will occur. Accordingly, the company is not reporting net income and related results today.

Total revenues for 2000 were \$103.3 million on a GAAP basis, as compared to \$25.4 million for 1999, an increase of approximately 306.7%. Calculated on a pro forma basis, excluding certain adjustments to revenue described below, revenues were \$109.1 million, which represent an increase of 179% from \$39.1 million of revenues reported for the full year of 1999. Total Application Hosting revenues for 2000 were \$20.1, an increase of approximately 857% from hosting revenues for the full year of 1999. The Company's fourth quarter revenues for 2000 were \$15.4 million, an increase of approximately 45.3% from revenues for the fourth quarter of 1999. The Company's fourth quarter Application Hosting revenues were \$4.9 million, which represented 32% of its total revenue, compared to 8.2% in the fourth quarter of 1999.

On a preliminary basis, subject to audit confirmation, cash loss (net income excluding impairment charges, amortization and depreciation, increase in bad debt reserves, one-time restructuring, and one-time integration costs) for the fourth quarter of 2000 was (\$0.42) per fully diluted weighted average share of common stock and outstanding options. Given the number of warrants and shares issued since September 30, 2000, comparisons of this result to prior periods may not be meaningful.

As previously communicated, the Company anticipated revenues of \$22.5 million to \$24 million and a cash loss per share of (\$0.26) to (\$0.28) per fully diluted weighted average share pending audit results and excluding charges for restructuring, increased bad debt reserves and other one-time charges. Since that time, based upon new information, the Company has determined that \$5.8 million in fourth quarter revenue did not meet the criteria for revenue recognition due to concerns over the likelihood of collection. An additional \$2.2 million of the difference in revenues will be recognized over the remaining

Edgar Filing: BREAKAWAY SOLUTIONS INC - Form NT 10-K

durations of the respective Application Hosting contracts for setup fees consistent with new SEC guidelines.

The Company expects to record a charge of approximately \$200 million to write down intangible assets and one time restructuring charges, primarily relating to the goodwill associated with the acquisition of Eggrock Partners. The Company is taking these charges because of the

deterioration in market conditions. The Company has not completed its analysis on this write down and total restructuring charges. Additional charges resulting from asset impairment may yet occur. The Company also provided additional reserves of \$10 million against its accounts receivable.

The accounting charges taken in the fourth quarter recognize assets impaired as a result of the dramatic market shift and economic slowdown, including the dot-com collapse, which adversely affected the Company's clients and industry.

Two very important factors affecting the Company's results were that revenue from venture backed dot-com's declined from \$6.3 million in third quarter 2000 to \$2 million in the fourth quarter 2000 and are expected to decline to approximately \$775,000 in the first quarter of 2001. In addition, Internet Capital Group affiliate revenue declined from \$14.1 million in third quarter 2000 to \$3.1 million in the fourth quarter 2000 and are expected to decline to approximately \$700,000 in the first quarter of 2001.

"The dramatic changes in our marketplace have naturally led to changes at Breakaway Solutions, and to adapt to this new environment we have become a very different organization than we were in mid-2000," said Gordon Brooks, chairman, president and CEO for Breakaway Solutions. "We have become a much leaner, more focused company and we are on a clear mission to achieve two goals: to serve the needs of our Global 3000 customers and to achieve profitability on a cash basis. The steps we took during the fourth quarter and in the early part of the first quarter of 2001 are carrying us toward these objectives."

Breakaway Solutions shifted its market focus to the Global 3000 early in the fourth quarter of 2000 and has reorganized and restructured to better support its Global 3000 customers and to drive profitability by region around the world. The Company has organized around and developed a sales strategy that focuses its horizontal B2B e-business expertise with its experience in key vertical markets. Breakaway Solutions has developed deep skills in these horizontal and vertical intersects and has met with success marketing and selling to these specific market areas.

The Company is committed to near term profitability on a cash basis and has restructured and implemented cost-cutting measures that will their full impact starting in second quarter of 2001. The savings from Breakaway Solutions' cost reduction programs are expected to reduce costs at an annualized rate of approximately \$45 million.

In the last 90 days the Company has closed 29 new Global 3000 customers and is very confident that its strategy and value proposition will continue to attract new Global 3000 customers and help grow relationships with existing customers.

Breakaway Solutions announced on February 20, 2001 that it had signed agreements to secure \$33 million in financing from SCP Partners, Internet Capital Group and Invest, Inc. For details of this financing, please see Breakaway Solutions' recent preliminary proxy statement. The company may require additional financing and is in negotiations to secure additional financing through a sale and lease back of some of its assets.

"We believe that there will be a continued shakeout in the marketplace and that

the winners among the eServices companies that thrived during the past year will be those with horizontal e-

business expertise, a strong knowledge and experience base in specific vertical markets, and a Full Service Provider offering," said Mr. Brooks. "Our success in winning customers such as PTC, PacifiCare, and Fuji Film shows that we are delivering that kind of expertise to these Global 3000 organizations. We are on our way to getting past these turbulent times and emerging as one of the winners in our sector."

Fourth Quarter Highlights
